THE MOST COMPLETE COLLEGE FOOTBALL PREVIEW I KNOW YOU WILL AGREE!

Welcome to the 16th edition of my College Football Preview. In the back of the magazine (pg 326) I have a questionnaire and each year I read through EVERY one of the thousands that are sent back. I want to thank everyone who returned one and I really appreciate all of the very nice comments. Those comments keep me going during the long hours of "magazine season" from January through May. I keep adding features thanks, in part, to the questionnaires that YOU have filled out. New things are added every year to get as much information on these pages as possible. The magazine has come a long way from the black and white 1st edition with one paragraph per team!

In 2006 we launched the website **PhilSteele.com**. The last few years we have improved it tenfold and continue to do so. If there is any type of football information you would like to see updated during the year, let us know and we will try to have it up there! After I write the magazine in May there are always numerous players who are injured, suspended or quit over the summer. I will have a complete list of those players online so you can update your magazine (I circle the players that are gone in mine). My magazine has limited pages but the website is unlimited and I want to make it your FBS College football source, PLUS it is loaded with information on the FCS (IAA) and the NFL! For years I have made thousands of pages of stats and data into numerous books to aide in my research. Now I just post everything on PhilSteele.com and use that as my personal library. On the website you have access to 80% of the stats and information that I use and it is updated DAILY during the college football season. We also have weekly contests and award prizes when you enter our contests or use our polls.

There are some fine preseason magazines out there, including The Sporting News, Athlon, Lindy's, Sports Illustrated, GamePlan and ESPN. Magazines in this class usually use numerous writers from around the country to analyze each school or conference. As always, I have written EVERY single team preview myself. I do not know of any other magazine that has as MUCH information as my College Football Preview. Please check out the two full pages crammed with information on each team and see if you agree.

I am very pleased to report that we are the most accurate magazine over the past 12 years (see page 306). This year we have reduced the amount of regional magazines to 3, but increased the pages in each. **The SEC/ACC/Big East Regional will have over 320 pages (just like this one) and include ONE FULL page on each FCS team.** The advantage in consolidating the Regionals comes in states like Iowa where we have to pick Big Ten or Big 12? Now the Big Ten/Big 12 Regional covers them both plus includes local FCS coverage. The SEC Regional covers the entire East Coast, Southeast and FCS! The **Western Regional** covers the Pac-10, MWC, WAC and has West Coast FCS coverage (pg 238).

Last year we put a full color NFL magazine onto the newsstands for the first time and it exceeded my expectations. Not only was it the most accurate but it has more information per NFL team (6 pages) than the two full pages I put on FBS teams in here! Check out page 26.

You will notice there is a lot of small type and abbreviations in this magazine. This is done so I can put as much information in this magazine as possible. Refer to the glossary on page 3 if you need assistance with some of the abbreviations. We also have an index on page 3, so you can find your favorite team quickly. In each conference the teams are listed in my projected order of finish.

I would like to thank my dad, Hank, who passed away in 1989. He instilled in me a strong work ethic and a passion for football, which will always be my favorite sport. He is a true inspiration. Also I want to thank my mother, Mary, who STILL invests many hours and prayers into the business.

If you want the information to keep coming check out my Daily Blog exclusively available on PhilSteele.com. New this year we will be emailing a weekly football information filled update. Make sure when you visit PhilSteele.com you register to become a "football expert".

Thank you for purchasing Phil Steele's 2010 College Football Preview!!!

"I would like to acknowledge everyone who worked so hard on this magazine. Thank you for your time and effort. I could not have done it without you!! I appreciate every one of the LONG HOURS and the care that was put in." Phil

HEISMAN TROPHY

The Most Prestigious Award in College Football

The Heisman Trophy was named after former college football player and coach John Heisman, and is awarded annually by the Downtown Athletic Club to the most outstanding player in collegiate football. Although not the only award honoring the best player in college football, it is considered the most prestigious. It is awarded in early December before the bowl games begin.

The trophy does not serve as a representation of a collegiate player's chances in professional leagues, but is rather an accolade for their accomplishments in college.

The trophy itself is modeled after Ed Smith, a leading player in 1934 for the now defunct New York University football team.

HEISMAN
TROPHY

www.heisman.com

The Heisman is frequently awarded to a running back or a quarterback and very few players have won the trophy playing at a different position. Charles Woodson is the only primarily defensive player to win the award, doing so as a defensive back for Michigan in 1997. No interior lineman on either side of the ball has ever won the award, although offensive guard Tom Brown of Minnesota and offensive tackle John Hicks of Ohio State placed second in 1960 and 1973, respectively. Defensive end Hugh Green of Pittsburgh finished second in 1980. Last season Nebraska's defensive tackle Ndamukong Suh was third.

PHIL STEELE IS PROUD TO BE ON THE VOTING COMMITTEE FOR THIS PRESTIGIOUS AWARD!

CONGRATULATIONS TO THE 2009 HEISMAN TROPHY WINNER: MARK INGRAM OF ALABAMA

Mark Ingram of the University of Alabama was selected as the 75th winner of the Heisman Memorial Trophy as the Most Outstanding College Football Player in the United States for 2009. Ingram won the award over Toby Gerhart of Stanford by only 28 points in the closest finish in the 75-year history of the Heisman.

ROTARY LOMBARDI AWARD
COLLEGE LINEMAN OF THE YEAR
Rotary Club of Houston

PRESENTED BY
WACHOVIA

The Rotary Lombardi Award is hosted by the Rotary Club of Houston and benefits the American Cancer Society. The Award was initiated by the Rotary Club in 1970 shortly after the death of Vince Lombardi to cancer. Rotary Lombardi Award is a member of the National College Football Awards Association.

The Rotary Lombardi Award goes annually to the college football lineman -- offense or defense -- who, in addition to outstanding performance and ability, best exemplifies the discipline of Vince Lombardi.

Phil Steele is proud to serve among the nearly 400 members of the Rotary Lombardi Award voting committee.

All proceeds from the event benefit the American Cancer Society. To date the event has generated millions of dollars to fund cancer research, public education and direct services to cancer patients.

FCS (Division IAA) Guide

By Phil Steele

At the end of 2006 the NCAA changed its terminology and began referring to IAA as FCS which stands for Football Championship Subdivision. They are calling IA teams FBS teams which stands for Football Bowl Subdivision. Now, I study college football 365 days a year and here it is early May three years later, and I still can't get those acronyms embedded into my head. I have the feeling that you are in the same boat as we have referred to them as IA and IAA for too many years. There are some spots in the magazine where I call them IAA teams and other spots where I use the correct term of FCS. If you see FCS that of course refers to IAA. You can let me know how you feel about using these new acronyms when you fill in the questionnaire on page 326.

This article is about my ever-expanding FCS coverage. There are 125 teams in the FCS which is even more than the 120 currently in the FBS. While these teams have less scholarships to give out, the numbers vary. Some leagues do not offer football scholarships at all, while some have up to 60, while still others have a set number that may be divided between players as needed. The attendance of most programs pale in comparison to most of the FBS teams (avg attendance listed on the team's right-hand page), but a team like Appalachian St which averaged 24,004 would rank above 36 FBS teams. The bottom line is these schools do play solid football and I enjoy watching FCS games whenever they are on. Since FBS teams voted to expand their schedules to 12 games there have been many more matchups between these divisions and "upsets" have become more common like 3 years ago when Appalachian St beat Michigan. Last year Villanova upset a bowl bound Temple team.

If you are an FCS fan who is frustrated by the fact that no magazine really gives top-notch coverage on your school then I am willing to lend a hand. My National Magazine has ZERO coverage on FCS teams. Checking last year's National Magazines *The Sporting News* also had zero coverage and *Lindy's* National Magazine had 4 pages total of FCS coverage. *Street and Smith* was the only other National Magazine that gave at least a paragraph on each FCS team but they scaled back and have now merged with *The Sporting News*.

Since we concentrate on nothing but football year round, we are expanding FCS coverage this year but how much it is expanded in future years depends on what you want to see (page 326).

Let me give you a quick history on how my magazine has expanded its coverage of IA (FBS) teams through the years. I started the magazine in 1995 and it had 88 IA teams in it with no coverage of the MAC or smaller southern independents (now the Sun Belt) at all! In the 4th year I gave three pages total to the 24 teams that played IA that were not in the main magazine. Those 3 pages were a sheet of schedules for the 24 teams, last year's results and one page of conference forecasts, so each of the 24 teams were allotted just one paragraph on that page! In 1999 I gave the 25 smaller IA teams their own page and the coverage on the MAC and Sun Belt teams increased to 28 pages for the 25 teams! I gave them the same amount of coverage in 2000. In 2001, I welcomed the MAC to the big leagues with TWO FULL PAGES on every team, the same amount of coverage the SEC, Big Ten and other BCS conferences received. Finally in 2002 I upgraded it to two full pages for EVERY IA team.

Now let's look at my FCS (IAA) coverage over the years. Naturally when the minor IA teams were getting very little coverage I had ZERO IAA information in the National Magazine. In 2003, I dipped my toe into the water and had a member of my staff who followed IAA closely write a 1 page article on IAA football with a Preseason Top 25. I did not get a lot of feedback on my questionnaires and I went back to zero coverage. In 2005, we put out three Regional Magazines for the Big Ten, SEC and Big 12. I wanted to put a couple of pages on regionally significant IAA teams in those magazines. For many years we kept track of all IAA statistics so we knew how good those teams were when they faced IA foes. Jim Seman, a longtime member of my staff, works until 6:00 AM on Sunday mornings during football season making sure all of the stats for both FBS and FCS are entered into our computer system and is our resident FCS expert. He wrote two pages with a Top 25 forecast in the 2005 Regionals. When I read through the questionnaires (yes, I read every one!) that summer there was growing interest in an expanded IAA coverage. In 2006, I went wild. I had Jim, with the help of Josh Buchanan, write up a full-length paragraph on each FCS team and we expanded to 27 pages in my Pac-10 Regional Magazine.

Three years ago I expanded it again to one quarter of a page on each team. In 2008 I DOUBLED IT TO ONE HALF PAGE PER TEAM!! We started using some of the same computer formulas and systems that I use for FBS forecasts for the FCS teams. These include my 9 sets of power ratings, applying those ratings to the upcoming schedule, Turnovers=Turnaround and all of the various forecast articles such as YPP, Lettermen Lost, Starts Lost to Injury, etc. My goal is to have it be BY FAR the most in-depth FCS preseason magazine equal to how the FBS version is the most accurate.

This year I have taken the next step with a FULL PAGE on EVERY FCS team! It is in my SEC/ACC/Big East preview which is over 324 pages (same meaty size as the one you have in your hands) and is available at newstands throughout the South and East. You can also order through our offices and it is just $8.95. You will become an instant expert on EVERY FCS team and there are 73 FCS teams that face FBS teams this year for a total of 88 matchups of FBS vs FCS foes (15 FCS teams play two FBS schools).

I would love to give the FCS its own complete magazine. As always, it will happen if the demand is high enough so you, the reader, hold the key. If you are passionate about FCS football, then head out to any newsstand in the South and East and pick one up this year. If you are not in those areas you can order by calling our office at 1-866-918-7711. This year if you purchase the magazine through our offices for the $8.95 plus shipping I will throw in your choice of either the Big Ten/Big 12 regional or the Western Regional for FREE! PHIL STEELE'S 2010 TOP INDIVIDUAL UNITS

QUARTERBACKS 2010's Top QB Units

1. **ARKANSAS** - Ryan Mallett may have the best arm in college football and is 6'7" 238. He threw for 3,624 (56%, 30-7) in '09 and has a veteran O-line and my #1 rated rec corps to throw to. Tyler Wilson (PS#32) got the snaps with the #1's in spring and will run some plays out of the Pistol formation. True frosh Jacoby Walker (PS#35, IFS) is the #3QB for 2010.
2. **HOUSTON** - Case Keenum already has two 5,000+ yd seasons and is just 4122 yds away from being the NCAA's all time career passer! He had three 1,000 yd WR's LY and all are back. Those final 2 games of '09 (9 int) will look like a mirage after 2010. He will battle Mallett for the passing crown this year.
3. **WASHINGTON** - Jake Locker will probably be the first pick in the 2011 NFL Draft so the Huskies must be up here. He has size (6'3" 226), a strong arm, is very mobile and a dangerous runner. He has improved from 47% to 54% to 58% and will have his best season as a senior. Nick Montana (PS#15) was the star of the spring game and will battle for the #2 position.
4. **OHIO ST** - Terrelle Pryor's career has mirrored Vince Young's (see QB writeup on Ohio St page 58) and Young should have won the Heisman his junior year. Pryor is 6'6" 233 with a powerful arm but was the fastest Buckeye last year reportedly being clocked with a 4.33 40. Now you know why he was PS#1 in '08 and is a frontrunner for the Heisman this year.
5. **NEVADA** - Colin Kaepernick is amazing to watch as he is 6'6" 215 yet runs like Pat White (B2B 1,000+ yd rush yrs with 33 rush TD's), and yet threw for 2,052 (59%) in '09. He has a 42-13 ratio the L2Y. Boise HC Chris Petersen called him the "most difficult player to defend" in the WAC. His backup QB Tyler Lantrip is a quality veteran backup.
6. **BOISE ST** - Kellen Moore (PS#24) had a great rFr year in '08 throwing for 3,486 (69%, 25-10). Last year he improved to 3,536 (64%) with a super 39-3 ratio. He is also 26-1 as a starting QB. Mike Coughlin is a 3rd year backup and is being pushed by Joe Southwick (PS#41).
7. **TEXAS A&M** - Jerrod Johnson took over and started the last 10 in '08 throwing for 2,435 (60%, 21-10). Last year he improved to 3,579 (60%) with a 30-8 ratio. Johnson also rushed for 506 and 8 TD's. Ryan Tannehill splits time at WR and QB and is a solid backup and true frosh Jameill Showers (PS#41) was IFS.
8. **OKLAHOMA** - Landry Jones (PS#3) was expected to be a little used backup in '09 but Heisman Trophy winner Sam Bradford got hurt and Jones was thrown into the fire as a rFr and threw for 3,198 (58%) with a 26-14 ratio. He led NCAA frosh in pass yds and TD and is now in command.
9. **MISSOURI** - Blaine Gabbert (6'5" 240 PS#10) was a 1st time starting soph LY but threw for 3,593 (59%, 24-9) and added 204 rush. His stats would have been much better but he suffered an ankle injury vs Nebraska and wasn't the same over the next few games.

Boise St QB Kellen Moore

10. **FLORIDA ST** - In 2009 Christian Ponder was having the best year for a Seminole QB since Chris Weinke won the Heisman in 2000. He threw for 2,717 (69%, 14-7) in 9 sts before he hurt his shoulder. EJ Manuel (PS#4) got in 4 sts as a rFr guiding the bowl win and is a great bkp.
11. **GEORGIA TECH** - Joshua Nesbitt (PS#16) is never going to lead the NCAA in passing but he is a perfect fit for GT's option offense. He throws the deep ball well and while he hit just 46%, his 75 comp's went for 22.7 ypc! He also rushed for 1,037 yds and 18 TD's and he makes the correct decisions in the option as his top 3 RB's combined to avg 6.7 ypc.
12. **VIRGINIA TECH** - Tyrod Taylor (PS#3) naturally draws comparisons to Michael Vick by playing at VT. In '08 he rushed for 738 yards (5.0). Last year he ran it less but now with quality depth at QB figures to run more. He did improve his ratio to 13-5 and had streaks of 98 & 84 att's without an int.
13. **TCU** - Andy Dalton is not a VHT (PS#74) but he is now a 4 year starter and can hurt you both running (512 rush '09) and passing (2756, 23-8). He also is 21-3 as a starter the last 2 years.
14. **MIAMI, Fl** - Jacory Harris was spectacular at times in his first full year as a starter but also had 17 int's while trying to make big plays. He threw for 3,352 (60%) and should greatly improve upon his 24-17 ratio now that he is exp'd.
15. **USC** - Matt Barkley was good enough to start as a true frosh at USC and started 5 hostile road games in some of the toughest venues in college football. He did a decent job throwing for 2,735 (60%) but with a 15-14 ratio. I look for him to be one of the most improved QB's in the country this year.

RUNNING BACKS 2010's Top RB Units

1. **ALABAMA** - The Tide features the school's 1st Heisman Trophy winner Mark Ingram and there is little drop off when backup Trent Richardson (PS#2, Frosh AA) is brought in. These two are both big backs with speed playing in a run oriented offense and combined for 2,409 rush yards, 5.8 ypc, 460 yds rec and 28 TD's last year.
2. **VIRGINIA TECH** - Darren Evans (PS#16) set the ACC single season frosh rush record with 1,265 (4.4) in '08. He was lost to injury prior to '09 and Ryan Williams (PS#11) smashed that record with 1,655 (5.6) and 22 total TD's. The bad news for VT opp's is that BOTH return for 2010.
3. **OREGON** - Things did not look good for UO when their '08 1,000 yard rusher LeGarrette Blount was susp'd for most of '09. LaMichael James stepped in and rushed for 1,546 (6.7) setting the Pac-10 frosh rush record. Now they add Lache Seastrunk (PS#3) who has 4.35 speed and speedy Kenjon Barner (366, 6.0 '09).
4. **PITT** - Dion Lewis who was 2nd AA as a true frosh with a super 1,799 yards (5.5) and 17 TD's. Ray Graham (PS#31) rushed for 349 (5.7) and was outstanding in the spring this year. They also have a solid blocking FB in Henry Hynoski.
5. **GEORGIA** - Washaun Ealey (PS#3) rushed for 717 (5.7) as a true frosh despite not burning his RS until October. Caleb King (PS#7) rushed for 594 (5.2) and they have 3 VHT backups including Carlton Thomas (PS#35) who was the offensive MIP of the spring. They have two solid FB's in Shaun Chapas and Fred Munzenmaier.
6. **WISCONSIN** - When I think of Wisconsin I think of BIG rumbling RB's and they live up to that this year. Big Ten OPOY John Clay (PS#3) is 248 lbs and rushed for 1,517 yds (5.3) despite missing some time with injuries. Montee Ball is 234 lbs and rushed for 391 (4.0) as a true frosh.
7. **PENN STATE** - Evan Royster (PS#18) rushed for 1,236 (6.5) in '08 and 1,169 (5.7) in '09 running behind a young O-line. The OL is now stronger and so is Royster. Speedster Stephfon Green had 578 (5.5) in '08 and added 319 (4.5) last year. Brandon Beachum (PS#14) should return from last year's ACL inj and FB Joe Suhey is solid.
8. **OKLAHOMA** - If only OU could find a way to keep DeMarco Murray healthy all year. Murray (PS#5) was the #1 rusher in '08 with 1,002 (5.6) until he was inj'd and finished #2. LY he was banged up again but still had 705 rush (4.1) and 522 (12.7) rec. Jermie Calhoun (PS#2) had 220 (4.9) as a rFr and they add PS#7 and #16 true frosh. Mossis Madu who has 724 career rush yds (4.5), moves back from WR.
9. **OREGON ST** - Quizz Rodgers is one of the most explosive RB's in the nation and rushed for 1,253 (4.8) in '08 including that memorable upset of USC. Last year he had 1,440 (5.3) and added 522 yds receiving. At 5'7" 188 he needs to stay healthy as they do not have a comparable backup.

Alabama RB Mark Ingram

10. **TEXAS A&M** - Christine Michael (PS#6) led as a true frosh with 844 (5.1). Cyrus Gray (PS#13) was #2 with 757 (4.8) and added 868 rec and ret yds. Bradley Stephens (PS#12) had 132 (4.9).
11. **CALIFORNIA** - Cal usually has two super RB's who put up big numbers. Last year Shane Vereen (PS#25) led the team in rushing and in 2 yrs has 1,667 (5.1) rush as Jahvid Best's sidekick. The #2 job is open but Covaughn DeBoskie-Johnson (PS#17) rushed for 211 (6.8) as a rFr.
12. **USC** - The Trojans fourth string RB is PS#1 Marc Tyler and their top two FB's are PS#39 and PS#5. We know they are DEEP. Allen Bradford (PS#3) rushed for 668 (5.8) last year and true frosh Dillon Baxter (PS#4) was impressive in the spring.
13. **FLORIDA** - The Gators have 3 VHT RB's in Jeff Demps, Chris Rainey and Emmanuel Moody who combined for 1,674 and 7.6 ypc in '08. Those 3 combined for 1,698 (6.9) in '09. Rainey is working at WR this year so I dropped them down a few notches.
14. **WEST VIRGINIA** - Noel Devine (PS#2) rushed for 1,289 (6.3) in '08 and 1,465 (6.1) in '09 and is a threat to score every time he touches the ball. Tavon Austin (PS#15) will be the feature RB in '11 but is working at WR this year. Shawne Alston is 222 lbs giving the unit a power RB.
15. **GEORGIA TECH** - Naturally GT will produce a lot of rush yards in the option offense. Anthony Allen rushed for 1,102 yds (4.6) in 2 yrs at L'ville and 618 with a super 9.7 ypc as an AB in '09. He moves to the feature BB this year. Roddy Jones has 1,035 and 7.7 ypc in 2 years.
16. **UTAH** - Matt Asiata (PS#17JC) had 707 (4.8) in '08 and in '09 he was the feature RB with 330 (4.5) in just 3 sts until injury. Eddie Wide rushed for 1,069 (5.3) starting the last 10. Now both return to form the MWC's top duo.

PHIL STEELE'S 2010 TOP INDIVIDUAL UNITS

RECEIVERS 2010's Top Receiving Units

1. **ARKANSAS** - The Hogs have a reoccurring theme at WR and it is SPEED. Their top 3 WR's from '09 are all VHT's who were soph LY and combined for 2,143 yds and 18.2 ypc. They also have a QB in Ryan Mallett with the arm to get it to them deep. They even move in RB De'Anthony Curtis (PS#3) who has 4.4 speed. DJ Williams is one of the most talented TE's in the country but was under-utilized by Mallett LY. He will be a bigger factor in 2010.
2. **GEORGIA** - AJ Green (PS#3) lived up to his VHT billing with 963 (17.2) as a true frosh in '08 and Tavarres King (PS#6) RS. Last year Green led with 808 (15.2) despite inj and he is 6'4" with 4.28 spd. King (9 sts) was #2 with 377 and 20.9 ypc. Marlon Brown (PS#3) only had 2 rec as a true and will be more of a factor. They have 3 VHT TE's, including a PS#2 and a PS#4.
3. **HOUSTON** - Raw numbers would put the Cougars at the top as they have THREE 1,000 yd receivers back in James Cleveland, Tyron Carrier and Patrick Edwards. They combined for 3,264 yds (11.7) and 27 TD's. They should top those numbers in 2010!
4. **TEXAS A&M** - A&M has never produced a 1,000 yd receiver but could have 2 players top that this season. Jeff Fuller (PS#14) missed 4 gms due to injury but had 568 (13.9) LY. Ryan Tannehill had 844 (15.3) in '08 but worked half of the time at QB LY and "only" had 609 (13.2). Uzoma Nwachukwu emerged and had 708 (17.7) as a true frosh.
5. **OKLAHOMA** - Ryan Broyles turned down the NFL after leading OU with 1,120 (12.6) and 15 TD in '09. 6'4" DeJuan Miller (PS#21) had 434 (12.1) and Brandon Caleb (PS#27) added 408 (15.7). Cameron Kenney (PS#17JC) had 268 (12.2). This year they add true frosh PS#7 Justin McKay and PS#13 Kenny Stills. Stills was IFS and dazzled in the spring game.
6. **WASHINGTON** - UW has 3 VHT starters and a near VHT in their 4 man group. They were the top 4 rec's in '09 combining for 2,138 (13.6) and 19 TD's. They also have Jake Locker throwing to them and this is an underrated group with decent depth.
7. **NOTRE DAME** - Last year I had the Irish as my #1 receiving group and they lived up to that billing despite some injuries. This year they lose Biletnikoff Winner Golden Tate but return Michael Floyd (PS#2) and TE Kyle Rudolph (PS#2), both among the best in the game. WR's Duval Kamara (PS#8) and John Goodman (PS#10) comb for 322 (11.1) and the entire two deep consists of VHT's.
8. **MIAMI, Fl** - This unit has good size and speed and is loaded with VHT's. The top 4 from '09 return and they combined for 2,038 (16.6) and most looked much improved this spring. Top WR Leonard Hankerson draws comparisons to Andre Johnson.
9. **CINCINNATI** - The Bearcats lose their top guy in Mardy Gilyard but plug USC transfer Vidal Hazelton (PS#6) into his spot. Marcus Barnett had 1,139 (12.4) combined in '07 and '08 and moves back to WR after playing DB. They also return 3 of their top 4 from last year and the returnees combined for 1,892 (13.6) with 18 TD's (#5 is RB).
10. **LSU** - The Tigers combo of Brandon LaFell and Terrance Toliver (PS#2) was one of the SEC's best in '09. While LaFell departs, they add Russell Shepard (PS#1QB) and I expect more production from PS#1 Rueben Randle who had 4 sts (173, 15.7) as a true.
11. **AUBURN** - Terrell Zachery and Darvin Adams comb for 5 rec in '08 but in their 1st year as starters in a new offense combined for 1,474 and an impressive 17.1 ypc in '09. Kodi Burns (PS#17QB) is in his 2nd yr after moving over from QB and DeAngelo Benton should start to live up to his PS#3 billing. They also add a pair of VHT true frosh this year (PS#5 and PS#34).
12. **HAWAII** - Three of the top 4 rec's return and they comb for 2,855 (14.1), including Greg Salas who was #4 in the FBS in ypg (122.3). Kealoha Pilares had 690 (10.5) LY and benched 225 lbs 23 times. They also add in Darius Bright (PS#57JC) who is 6'5" with 4.47 speed.
13. **ALABAMA** - WR Julio Jones (PS#1) may be the best in college football. He was banged up last year but should be full go this season. Marquis Maze is the team's fastest WR and had 523 (16.9) LY. TE Michael Williams (PS#29DL) is 6'6" 270 and was the MIP in the spring.
14. **SOUTH CAROLINA** - Alshon Jeffery (PS#10) had 763 (16.6) as a true frosh and is 6'4" 237. TE Weslye Saunders (PS#13) is 6'6" 273 and had 353 (11.0). The #3 rec in '09 was Tori Gurley who is 6'5" 230. This is a talented group with good size.
15. **TEXAS TECH** - Tech has a new HC but will still run the same offense and they have their top 5 rec's back from '09 and they comb for 3,384 (12.7). You never find a lot of 1st round DC's here (except Crabtree, #10 overall to SF in '09) but this is a productive group with a lot of experience.

OFFENSIVE LINE 2010's Top OL Units

1. **GEORGIA** - This O-line has been 3 years in the making. Three frosh started on the O-line in 2007. In 2008 due to injuries they started 2 soph and 3 frosh the 2H of the year. LY they lost their LT Trinton Sturdivant in the opener and after a slow start they rushed for 243 ypg and 5.9 ypc over the final 5 despite an immobile QB. Their 12 sacks allowed were fewest in the SEC. This year they have 155 career starts returning (#1 FBS) including two 2nd team SEC OL and Sturdivant could also return.
2. **WISCONSIN** - Last year they had just 2 starters back but opened holes for 204 ypg rush (4.6) with 23 sks despite injuries. This year they have 107 career sts ret (49 LY) and this group is huge at 6'5"' 321 and both C John Moffitt and LT Gabe Carimi earned 1st Tm Big Ten honors in 2009.
3. **OHIO ST** - The Buckeyes had an underachieving line in '08 and last year had to replace 3 starters. In the 1H of the year it was one of their weakest O-lines in recent memory, but in the 2H of the year they made great strides with 240 ypg rush (4.8 ypc) over the last 6. This year they have 93 career sts back, 12 VHT's on the depth chart and good size (6'5" 305).
4. **FLORIDA** - The Gators O-line had better overall stats than my top 3 rated O-lines with 5.6 ypc rush last year. They have 87 career sts coming back including C Mike Pouncy (1st Tm SEC at OG in '09). They do lose mobile QB Tim Tebow and go to less mobile QB so despite being a veteran unit the stats are expected to drop a little, but they are still one of the best O-lines in the country.
5. **AUBURN** - The Tigers had to replace two starters last year but in the new offense improved to 212 ypg rush (5.0) with just 21 sacks. This year they only lose 1 starter and have 111 career starts back. They even add a couple of VHT JUCO's who could start or at least provide added depth. This group also has nice size (6'5" 313).
6. **FLORIDA ST** - I thought OL coach Rick Trickett would step in and have immediate success here but they were average in '07 and improved to 179 ypc (4.8) with 26 sks in '08. Last year all 5 starters were back including Rodney Hudson who earned 1st Tm AA honors and won the Jacobs Blocking Trophy as the ACC's Top OL. They surprisingly only produced 150 ypg rush (4.6) with 20 sacks. This year they have 146 career sts (#2 FBS) and the unit returns intact.
7. **CLEMSON** - Last year they had 71 career starts back and improved to 170 ypg rush (4.8) with just 19 sks. This year they lose one starter but have 88 career sts back including LT Chris Hairston who was 2nd Tm ACC. The unit avg's 6'6" 306 and this should be their best O-line in years.
8. **OREGON** - The Ducks' O-line was a question mark heading into last year as they lost 4 st'rs (2 DC's) and 2 bkps and had just 20 career sts returning. The inexperienced unit opened holes for 232 ypg rush (5.5) and yielded just 13 sks. Of course the diverse offense they run has a little to do with the unit's numbers, but this year they return the entire two deep and go from a ? to one of the nation's best.
9. **STANFORD** - Thanks in part to having a back like Toby Gerhart in the backfield, Stanford avg 218 ypg rush (5.3 ypc) with an FBS best 7 sacks allowed. Or did Toby Gerhart have his success because of the O-line? Last year they had to replace 2 starters and they lose only one this year. Stanford RB's are lucky to have this group in front of them.
10. **TCU** - The Frogs O-line had to replace 3 starters last year but still put up great numbers with 240 ypg rush (5.2) and 12 sks allowed. This year they only lose one starter and return a pair of 1st Tm MWC OL's in C Jake Kirkpatrick and RT Marcus Cannon. They have 67 career sts back from last year's top notch line.
11. **ALABAMA** - Not too many groups that have just 46 career sts back and lose an AA LG make it up this high, but the Tide have proven they deserve to be here every year. Last year they had to replace 3 starters including TWO AA's, but still powered the Bama offense to 215 ypg rush (5.0) and allowed only 20 sks.
12. **NEBRASKA** - VT HC Frank Beamer called this unit exceptional after taking them on last year, but NU only avg 147 ypg rush (4.0) and allowed 19 sks. They only lose one starter and have 75 career sts back and while not back up to the "Pipeline" standards, this is their best OL in yrs.
13. **BOSTON COLLEGE** - BC is known for producing NFL OL's. Last year they only had to replace one starter but only avg 137 ypg rush (3.8) with 20 sks. This year they lose a #5 DC (C Matt Tennant) but have 9 of their top 10 back including star LT Anthony Castonzo.
14. **FRESNO ST** - Coach Pat Hill called C Joe Bernardi the heart and soul of the team and LY they had 3 starters back. Bernardi only started 7 gms (inj), but the unit improved to 229 ypg rush (5.4) with 6.5% sks. This year 9 of the top 10 return including Bernardi and they have 107 career starts.
15. **BYU** - The Cougars only had 23 career sts back last year but improved their numbers to 146 ypg rush (4.0) with 23 sks. This year they have 9 of the top 10 back including 1st Tm MWC LT Matt Reynolds and Frosh AA LG Braden Hansen. The line avg 6'5" 320 with 66 career sts.

PHIL STEELE'S 2010 TOP INDIVIDUAL UNITS

DEFENSIVE LINE 2010's Top DL Units

1. **NORTH CAROLINA** - Mel Kiper rates Marvin Austin as the top Sr DT for the 2011 NFL Draft. Kiper also rates Robert Quinn as the top Jr DE and Tydreke Powell as the #4 Jr DT for next year. NC allowed just 96 ypg rush (2.8) LY. Despite losing #4 and #5DC's to the NFL they have 6 VHT's in the two deep, great size and athletic talent across the front wall.
2. **CLEMSON** - The Tigers were better than their rush D numbers LY as they had to face GT's option twice (allowed 124 ypg in the other 12). This is an active front that returns 359 tkls from last year and it is loaded with VHT's. They are 4 deep at DT with both starters NFL-caliber and they have DE Da'Quan Bowers (PS#1) and DE Malliciah Goodman (PS#5). Kourtnei Brown (PS#81) may be the best athlete of the DE's. They lose one starter (#5DC) and will be fierce up front.
3. **IOWA** - When Adrian Clayborn turned down a shot at the NFL, Hawkeye fans rejoiced. This was a super front last year which held GT's powerful option offense to 9 FD's. Clayborn and his 3 fellow starting DL's combined for 27 sacks and all 4 are back. Iowa allowed just 124 ypg rush (3.5) and this is clearly one of the top D-lines in the country.
4. **MIAMI, FL** - I had the Hurricanes in my #3 D-line spot last year but they were hit hard by injuries especially early in the year. No defensive lineman started more than 11 games. They allowed 122 ypg rush (3.5) with 24 sacks. Three of the 4 starters are PS#2, PS#9 and PS#10 and the unit has 34 career sacks returning.
5. **TEXAS** - The Horns have had to replace quality NFL players off the D-line on nearly a yearly basis and this year lose two starters who were both #2DC's. Both DT's return and the new DE's look to be PS#1 Eddie Jones and PS#4 Alex Okafor. They add PS#2, #7, #10 and #20 true frosh. Texas allowed an FBS best 72 ypg rush (2.2) and their returnees had 19 sacks last year.
6. **USC** - USC had to replace #1, #2 and #4DC's LY and allowed a poor (for USC) 128 ypg rush (3.7). This year they have 6 of the top 8 back and all 12 in the three deep are VHT's. This is a much more veteran D-line for USC and after last year's slip they will be back to their normal spot among the nation's finest.
7. **PITT** - Last year Pitt's ferocious D-line helped them allow just 106 ypg rush (3.3) and Pitt led the NCAA in sacks with 47, 36 of which were by the DL. This year they lose 2 starters but they return their star, DE Greg Romeus who had 8 sks and looks like a 1st round DC next year.
8. **OKLAHOMA** - The Sooners lose the #3 overall pick in the draft in DT Gerald McCoy and one other starter from a group that allowed just 93 ypg rush (2.8). They return DE Jeremy Beal who had 11 sacks and 8 tfl and he is joined by 4 VHT's in the rest of the two deep. This group is a notch below the '09 version, but still outstanding.
9. **PENN ST** - The Lions are another team that consistently must reload due to the NFL and last year they allowed just 90 ypg rush (2.8). This year they lose another #1DC in Big Ten Defensive POY Jared Odrick. Last year this unit lost a #1DC and had just 22 starts and 6.5 sacks back from 2008. This year they have 31 starts and 18.5 sacks back and could be stronger.
10. **FLORIDA** - The Gators have not allowed more than 105 ypg rush in the last 5 years. Last year the line returned intact and this year they lose a pair of #2DC's. Last year's D-line was banged up (no lineman started all 14). Naturally the three deep is almost all VHT's and they add PS#1, PS#3 and PS#6 true frosh this year.
11. **NEBRASKA** - The one player who took college football by storm last year was Ndamukong Suh who had 85 tkls, 12 sks, 12 tfl and 10 pbu. NU allowed just 93 ypg rush (2.8) and the D had 44 sks. Suh is gone along with a starting DE but big things are exp from DT Jared Crick (9.5 sks LY). PS#1 soph Baker Steinkuhler takes over Suh's spot.
12. **TCU** - Last year the Frogs had to replace 3 starters but still allowed just 80 ypg (2.6) with 33 sacks. This year they have 7 of the top 8 back but lose 1st Tm All-American DE Jerry Hughes (#1DC) who had 11.5 sacks last year. This is yet another top-notch Frog D-line.
13. **RUTGERS** - DT Scott Vallone is very quick for his 270 lbs and was a Frosh AA LY. The Knights allowed just 103 ypg rush (3.0) with 40 sks in '09. They lose one starter but have 6 of the top 8 back, including DE Jonathan Freeny (9.5 sks '09) and 2nd Tm Big East DE Alex Silvestro (12 tfl '09).
14. **WEST VIRGINIA** - DT Scooter Berry missed almost two thirds of the '09 season and West Virginia allowed 127 ypg rush (3.7), which is high for their normally tough run D. This year the unit returns intact and they add PS#5JC Bruce Irvin. NT Chris Neild is a space eater who earned 2nd Tm Big East.
15. **CALIFORNIA** - In the past decade Cal's defensive strength has always been the D-line and they start this new decade off the same way. They allowed just 112 ypg rush (3.3) in '09. This year they lose surprise #1DC Tyson Alualu but have 2 of 3 starters back.

LINEBACKERS 2010's Top LB Units

1. **NORTH CAROLINA** - The Tar Heels allowed just 17.1 ppg last season and have their top 4 LB's back who were #1, #3, #8 and #9 in tackles. Bruce Carter could be the top OLB taken in next year's draft and Quan Sturdivant could be the top ILB taken! Kevin Reddick (PS#59) started the final seven as a true frosh.
2. **BOSTON COLLEGE** - It will be great to see Mark Herzlich back on the field after he missed last season. He was the ACC DPOY in '08. True frosh Luke Kuechly finished #2 in the NCAA in total tackles in '09 with 158 to go along with 13 tfl. The 2nd string is comprised of 3 VHT's proving that this unit is very deep and exp'd. If Herzlich comes back anywhere near 100% they will be dominant.
3. **USC** - The Trojans always have one of the nation's best set of LB's. Last year they had to replace #1, #2 and #4DC's and were very inexperienced. USC's defense took a step back allowing 19.8 ppg, which is great for most teams but was the Trojans' worst mark in four years. The good news is their LB corps now has experience, has more talent with the addition of former DE Devon Kennard (PS#10) and should be back among the elite.
4. **OKLAHOMA** - Travis Lewis was 1st Tm Big 12 and the #1 tackler on a defense that allowed just 14.5 ppg. This year they lose two starters but Ronnell Lewis (PS#6) started the bowl as a true frosh and is All-B12 caliber. Tom Wort (PS#11) was the first pick of the Red team in the spring game and battles Austin Box (PS#6) who has 6 career starts for the other spot.
5. **OHIO ST** - Ross Homan (PS#14) was the Buckeyes' #1 tkl'r in '09 and he returns along with the #2 tkl'r Brian Rolle (PS#26). The open spot will be fought for by Etienne Sabino (PS#7) and Andrew Sweat (PS#13). This is a deep unit with the third string MLB being rFr Jordan Whiting (PS#9).
6. **MICHIGAN ST** - Greg Jones was a well deserved 1st Tm AA selection last year with 154 tkl, 9 sk, 5 tfl. He turned down a shot at the NFL. They do lose 1 st'r but the #2 tackler Eric Gordon (92 tkl, 7.5 tfl, PS#44) is also back. Soph Chris Norman (PS#16) figures to step into the open Star LB spot.
7. **TEXAS** - The Horns lose their #1 tackler but rotated their LB's so they have plenty of experience returning. Keenan Robinson (PS#4) figures to be the next star backer here, as he was the #3 tackler in 2009 and coaches feel he has the potential for a 10 sack season. They also add PS#1, PS#7 and PS#19 true frosh this season.
8. **ALABAMA** - The Tide loses Butkus Award Winner Rolando McClain as well as their #4 and #5 tkl'rs and returning to the 4 LB spots are players who combined for 7 sts LY. How can this be a Top 10 unit? Let's start with Dont'a Hightower who is one of the top LB's in the country but missed most of '09 with an injury. Nico Johnson (PS#5) had 2 sts and 28 tkls as a true. Jerrell Harris (PS#10) was suspended the 1H of '09 and will have a much bigger impact.
9. **BOISE ST** - Boise had a pretty good D last year allowing just 17.1 ppg and that was despite losing LB Daron Mackey after 8 sts. This year the unit returns intact and the 2nd string has great experience with 19 career sts among the 3 players (incl NB as 3rd st'r). Showing their depth, one of the 3rd string LB's is converted DE Byron Hout (PS#30) who has 1 st, 54 tkl and 6 sk in the last 2 yrs.
10. **TCU** - Can Gary Patterson produce a solid LB corps? Last year TCU had to replace their #1, #2 and #3 tkl'rs and all 3 were NFL DC's. And what did the Frogs do? They allowed just 12.8 ppg. This year they lose their #1 tkl'r, but Tank Carder was 1st Tm MWC in his first year as a starter and Tanner Brock (PS#42) was on my 2nd Tm Frosh AA list.
11. **GEORGIA** - The Bulldogs shift to a 3-4 this year and 8 in the three deep are VHT's. They lose their #1 tkl'r (#3DC) but the SEC's leading returning sack man DE Justin Houston (7.5 sk, 7.5 tfl) moves from DE into an OLB spot. This is a unit with plenty of talent and experience as they have been injury plagued the last few years so a lot of LB's have seen action. They also add RB Richard Samuel (PS#10).
12. **MIAMI, FL** - Miami's defense was not as strong when Colin McCarthy was on the sideline LY and he missed 3 starts with injury (did play in 13). This year they lose their #1 tackler but McCarthy is back and 5 of the top 6 are VHT's. The other two projected starters are Sean Spence (PS#35) and Ramon Buchanan (PS#20).
13. **FLORIDA ST** - It's hard to imagine any of the FSU's defensive units ranking near the top after they allowed 435 ypg last year! This unit is very talented and true frosh Jeff Luc (PS#4, IFS) will take over one spot joining '09's top 2 tkl'rs Nigel Bradham (PS#4) and Kendall Smith (PS#21).
14. **AUBURN** - The Tigers allowed 27.5 ppg in '09 but this group still looks to be among the SEC's best. Josh Bynes (PS#23) was the #1 tkl'r in '09 and Craig Stevens (PS#56) was #2 and both are back. Two of the three LB's that split the SLB spot return (1 med hardship) and they add S Daren Bates (#4 tkl'r, 13 st LY).
15. **SOUTHERN MISS** - SM was always known for their defense under ex-HC Bower and usually had some of the best LB corps in the country. LY they allowed 392 ypg as 2 soph's started at LB. This year the unit returns intact and includes their top 3 tkl'rs from '09 incl Korey Williams (PS#63) and Martez Smith (PS#65), who may be the team's fastest player.

PHIL STEELE'S 2010 TOP INDIVIDUAL UNITS

DEFENSIVE BACKS 2010's Top DB Units

1. **TEXAS** - What a difference a few years make. In 2007, Texas allowed 278 ypg passing (#109 FBS). Just 2 years later with 3 st'rs back they moved up to #4 in my PDR allowing 180 ypg with a 14-25 ratio. They do lose star S Earl Thomas (1st Tm AA, 8 int, 16 pbu, #1DC). They have 4 of 5 st'rs back (incl the NB) and should remain at the top of the rankings.
2. **NEBRASKA** - The Huskers secondary benefitted from having a dominating D-line in front of them they were #1 in my PDR allowing 47.8% with a 7-20 ratio LY. They lose two starters but do return both CB's from last year's top-notch group and they have 5 more DB's with starting experience.
3. **FLORIDA** - The Gators have been #5 and #7 in my PDR the last two years. LY they had everyone back but this year they lose CB Joe Haden (#1DC) and FS Major Wright (#3DC). Will Hill (PS#2) should be a fine replacement at one spot and they will remain near the top.
4. **OKLAHOMA** - The Sooners were #11 in my PDR with just 1 starter back in '08 and #3 LY with 2 starters back. They lose 1st and 2nd Tm Big 12 DB's but once again return 2 st'rs and have 3 VHT frosh in the 3 deep, so they will be solid.
5. **IOWA** - The Hawkeyes usually finish near the top and last year with 3 starters back, they were #6 in my PDR allowing 49.6% with a 9-21 ratio. This year they lose 1 starter (#3DC) but return a 1st Tm Big 10 SS and a 2nd Tm Big Ten FS and have 5 back who started in '09.
6. **OHIO ST** - OSU has had 7 #1 DC's from of this unit since 1997 and 22 overall in that span. In the '09 draft they lost a #1 and a #4 DC but still finished #12 in my PDR. This year they lose a #7DC but have 3 starters back and as usual will finish near the top of the rankings.
7. **CLEMSON** - The Tigers have finished #14, #25, #22, #24, #21 and #15 in my PDR. This year they lose both starting CB's but do return S DeAndre McDaniel who tied a school record with 8 int LY. They should have their 7th straight Top 25 finish in my PDR.
8. **NORTH CAROLINA** - The Tar Heels had 7 of their top 8 back LY and moved up to #17 in my PDR allowing 58.6% with a 10-19 ratio. This year all 4 st'rs return including 1st Tm ACC FS Deunta Williams, 1st Tm ACC CB Kendric Burney and 2nd Tm ACC SS Da'Norris Searcy.
9. **SOUTH CAROLINA** - The Gamecocks were #27 in my PDR in '09 and this year return 7 of their top 8 including 2nd Tm SEC Chris Culliver and 1st Tm Frosh AA Stephon Gilmore.
10. **ALABAMA** - With 7 of their top 8 back LY the Tide finished #2 allowing 46.8% with an 11-24 ratio. SS Mark Barron led the SEC with 7 int. They lose 4 st'rs (NB) but as you would expect all 4 proj st'rs are VHT's and this will still be a top-notch unit.
11. **MIAMI, FL** - Last year UM was #39 in my PDR despite being inexp'd with new starters that were a converted WR and a true frosh. This year they have 6 back who have 6+ career starts and should have their best finish in my PDR in 4 years.
12. **LSU** - The Tigers finished #6, #1, #5, #5, #1 and #3 in my PDR from 2002-'07. They were "just" #33 and #19 the last 2 years. CB Patrick Peterson (PS#1) was 2nd Tm SEC last year and is back along with two other starters (9 CB '08).

Miami, FL
CB Brandon Harris

13. **OREGON** - The Ducks were #25 in my PDR in '09 despite the fact that they lost 2 starters to graduation and then their two returning starters were both injured early. This year they lose a #2DC but have 4 full-time starters returning (LB moved to S) including FS John Boyett who was 1st Tm Frosh AA.
14. **UCLA** - The Bruins were #18 in my PDR in '08 and despite returning 3rd Tm Frosh AA FS Rahim Moore (PS#4) and CB Alterraun Verner, who led the NCAA in pd's in '08 they slipped to #32. This year they lose Verner but Moore led the NCAA in int LY (10) and their secondary is loaded with VHT's.
15. **PENN ST** - Penn St has had 5 Top 10 finishes in my PDR in the last 13 years. Last year this unit was a big question mark as they had to replace all 4 starters. They still finished #23 allowing a 10-14 ratio. This year they have 3 starters back and have a shot at another Top 10 finish.

SPECIAL TEAMS 2010's Top ST Units

1. **UCLA** - Frank Gansz Jr is one of the best ST coaches in the country and he has a lot of talent to work with this year. Let's start with Lou Groza Award winner Kai Forbath who hit 28-31 FG's (L/53) with all 3 misses from 50+. He has hit 37 consec FG's under 50 yds! 1st Tm P10 P Jeff Locke had a 38.0 net and 20 TB's on 65 KO's. They do lose their top KR/PR man Terrence Austin who has led the team in each of the last two years but they add Colorado transfer Josh Smith who avg 10.4 on PR's and 25.5 on KR's at CU in '08. LS Christian Young was good enough to be the first ever LS on the Preseason *Playboy* AA list LY.
2. **BOISE ST** - I had Boise my #1 ST unit heading into 2009 and they did not disappoint me as they finished #1! Kyle Brotzman is the star as he hit 18 of 25 FG's (long 52) and has nets of 39.6 ('08) and 38.3 on punts the last 2 years. He did have just 7 TB on 97 KO so Trevor Harmon may take over those duties. They do lose electrifying PR Kyle Wilson but return top KR Titus Young (26.9, 2 TD). They have a great shot at defending their crown.
3. **FLORIDA ST** - Florida St had to replace their K, P, KR and PR last year but still finished #26 in my ST rankings. K Dustin Hopkins (PS#1) hit 19 of 27 FG's (long 52) as a true and has 60+ range. He was #5 in the FBS in TB's (24) on KO's. Shawn Powell had a solid 36.1 net in his first year as the punter. Greg Reid (PS#9) is an exciting returnman and avg 18.4 on PR's and 25.5 on KR's as a true frosh.
4. **TCU** - The Frogs have had a 1st Tm MWC returnman FIVE straight years. Jeremy Kerley avg 26.6 on KR's and 14.4 on PR's and was the MWC STPOY in '09 and he is back. K Ross Evans has hit 31 of 38 FG's in 2 yrs (long 50). Kevin Sharples had 5 TB on 80 KO. P Anson Kelton is 260 lbs and only had 17 of his 51 regular season punts ret'd with 19 inside the 20 and only 1 TB on the year.
5. **GEORGIA** - The Bulldogs were #6 in '09 and have a super K/P combo. Ray Guy Award Winner P Drew Butler (Dad Kevin was a Hall of Fame K here) had a super net of 41.9 (#1 NCAA) and was 1st Tm AA. K Blair Walsh (PS#5) hit 20 of 22 FG's including 4-5 from 50+ and had 17 TB's on 75 KO's. They lose their top PR but KR Brandon Boykin who had 3 TD's (26.0) is back.
6. **STANFORD** - The Cardinal were #2 in my ST rankings in '09. K Nate Whitaker hit 16 of 22 FG's with a long of 54 and had 14 TB on 86 KO's. P David Green has nets of 37.7 and 37.2 the last 2 years. Chris Owusu had 3 KR TD's with a super 31.5 avg. Everyone returns.
7. **OKLAHOMA** - The Sooners managed to finish #12 in my ST rankings LY despite not settling on a K all year. Jimmy Stephens did hit 11 of 13 and was 3-3 in the spring game. P Tress Way had a super 40.3 net. Ryan Broyles avg 15.9 on PR's and Mossis Madu 21.4 on KR's and all are back.
8. **NEBRASKA** - In the last 15 yrs the Huskers have finished in the Top 10 of my ST rankings 5 times. Last year was a near miss at #16. They have the best KO man in the game in Adi Kunalic (86 career TB's) but there is a chance he could RS this year. Alex Henery hit 24 of 28 FG's (long 52) and 3 misses were 50+. Niles Paul was the top KR (27.9) and PR (10.7, TD) and all return.

Georgia
K Blair Walsh

9. **ARIZONA** - The Cats were #9 in my ST rankings in '08 and #22 in '09. Alex Zendejas hit 17 of 22 FG's (long 47), P Keenyn Crier has had nets of 38.1, 36.8 and 35.1 the last 3 years. William "Bug" Wright avg 17.5 on PR's and Travis Cobb 25.4 on KR's and all 4 are back.
10. **FLORIDA** - Urban Meyer uses a lot of starters on ST's and they finished #9 in '09. P Chas Henry (41.0 net) did not allow a PR yd until week 9 LY. K Caleb Sturgis hit 22 of 30 FG's with a long of 56. They do lose their top returnman but Chris Rainey should do well in his place.
11. **TULSA** - The Hurricane were only #37 in my ST rankings in '09 but should make a solid move up. P Michael Such improved his net to 37.1. K Kevin Fitzpatrick hit 13-14 FG's (long 51). Damaris Johnson has 2,513 KR yds in just 2 yrs (25.1) and avg 14.2 on PR's in '09.
12. **UCF** - UCF set a school record LY with 3 diff players with a KR of 70+ yds and all 3 return as does their top PR (10.8). P Blake Clingan is in his 4th year and his best net was '07 (36.3). Nick Cattoi beat out PS#14 Jamie Boyle and hit 14-20 (long 50). All are back and should be even better.
13. **IOWA** - After a #27 finish in '09 the Hawkeyes rank as a top unit in '10. Daniel Murray hit 19 of 26 FG's (long 48) and '08's K Trent Mossbrucker, who RS, is also back. P Ryan Donahue had a net of 37.1 and DJK was the top KR with a super 31.5 avg. Everyone returns.
14. **MARYLAND** - P Travis Baltz who had a 37.4 net in '08 was inj'd LY and now returns after the tm had just a 34.8 net in '09. Nick Ferrara hit 18 of 25 FG's (long 50). Torrey Smith avg 25.7 on KR's with 2 TD's. Everyone is back and they should have their best finish in years.
15. **OREGON ST** - The Beavers have cracked the Top 10 just once recently (#4 in '06). Last year they were just #32 but everyone returns. K Justin Kahut hit 22 of 27 FG's (2 miss 50+) and P Johnny Hekker improved to a net of 35.7. James Rodgers is a threat to score on every return and should improve upon his 11.6 PR and 23.3 KR averages of '09.

FOOTBALL 365 DAYS A YEAR

BY PHIL STEELE

What you see in the picture above is what I look at during football season for 12 hours on Saturday and from 1-7 pm EST on Sunday. I have a great satellite setup (DIRECTV) which allows me to watch almost every college and NFL game. I used to have just 9 TV's in front of my desk but added 3 more in 2004 and the picture above (from 10/25/08) is the actual setup at my office. At my home office I only have 6 TV's in front of my desk. Many people ask me how you can watch 12 games at one time? When the photographer was shooting the photo, it took him about 20 minutes to actually capture game footage on all 12 TV's with no commercials. As you can see, at this particular moment, there are 6 plays in progress and the rest are not. Keep in mind the average play takes 4 to 6 seconds and then there are usually 35 seconds between plays. Throughout the office one of my staff members is "charting" one of these games, or doing the play-by-play and taking notes on the game. We also utilize Sirius radio for the non-televised games so we can listen to them and write down the play-by-play. The person charting focuses on one game and if there is something they think I should know about in a particular game, they let me know afterwards. I usually focus on the 4 TV's directly in front of my desk. At the moment of this picture, the key games for me were Texas Tech-Kansas, Minnesota-Purdue, Baylor-Nebraska and Illinois-Wisconsin. The TV I look at the least is the one in the upper left-hand corner. That game at the time was Oklahoma-Kansas St.

On Monday, Tuesday and Wednesday, I go through the play-by-play of each game that took place the previous weekend to make sure I did not miss anything. My staff has interesting notes on each game, and of course, I watched the majority of them. I then write the Past Histories (which is my recap of the games) and those are the same Past Histories that you will find in my Regional Magazines and on PhilSteele.com. I refer to these often during the offseason to get the true feel of the game as final scores can sometimes be misleading.

I mentioned my staff "charting" the games. I have assigned different members of my staff to cover different conferences. During the week they get articles from the local papers and the Internet and underline all of the interesting information that could affect a team's performance, or have to do with injuries, etc. All the underlined information is then typed into a file for each team. These team reports are anywhere from 35 to 200 pages by the end of the year (there are a lot more articles on Ohio St than Buffalo). I do not have time to read all the information during each week so I read through these reports every year during the months of December, January and February.

Football is what I do for a living seven days a week, 365 days a year. As you can tell by the sheer volume of information, I write each of the 120 team previews which basically puts me on the magazine "deadline" from the end of December through the middle of May.

During the months of January and February, I read through the mountains of information that was underlined and begin to write the teams for the magazine. I give myself about 4 hours to read just one team and that team is all I focus on. I find it interesting when a writer in the 2nd week is calling for a QB to be benched but then is talking about what a great QB he is at the end of the year after a big game. It really gives me a feel for what went on with the team last year. During the 4 hours I allot for each team, I read everything from the year and take notes. I also write the QB, RB, receivers and Special Teams portions for that team. I write these this early because they are the easiest to analyze and have the fewest position changes during the spring. Many times DB's move to LB's, LB's to DL or OL and DL's switch sides. For those positions I wait until spring starts before doing my writing.

During March, April and May it is time to get all the latest info on the teams and analyze the freshmen and JUCO signees. I also read through all of the information from the spring practices. At this time I double check what I wrote to make sure it all still applies after any spring changes. I then write the other 4 positions and go through my individual power ratings on each unit. I once again give myself 3 to 4 hours per team and try to do 3 per day. The next step is to go through what I wrote in the magazine and start cutting out some words because I usually have too much information to fit on the page. While I chop the text down I also go conference-by-conference, to review my power ratings and pick the All-Conference teams. This is another 3 week process. I finalize the 9 sets of power ratings and feed them into my computer which has all the schedules and let the computer play out the season.

WHICH IS THE TOUGHEST CONFERENCE?

BY PHIL STEELE

Let me help clarify the great debate on which conference is the toughest. One of the most exciting things about NCAA Football is that the toughest conference changes on a yearly basis, but of course lately the SEC has dominated winning the last 4 National Titles and the top spot in my final Toughest Conference Ratings for the last 5 years. I remember back in the late 1960's, when it could have been argued that the SWC was the top conference in the country with powerhouses like Texas and Arkansas battling it out for #1. Joe Paterno is still not too pleased with President Nixon's proclamation that Texas was #1 after they beat Arkansas in 1969 when his undefeated Penn St team finished #2. In later years, it was the Big 8 with Nebraska and Oklahoma dominating the landscape. The SEC, of course, is usually at the top, as is the Big Ten. Both conferences have had their powerhouse years, with Bear Bryant's Crimson Tide and the rivalry between Woody Hayes (Ohio St) and Bo Schembechler (Michigan). They, of course, have also had some off-years. There have been a lot of conference changes in the last 10 years and probably more to come with the inevitable Big Ten expansion. These realignments have created some major shifts of power.

Another interesting point is that there is not an exact science for picking the toughest conference. You cannot rely strictly on how many bowl wins a conference racks up during the postseason, or on its overall record in non-conference play. Let's face it, some leagues' non-conf slates are much tougher than others. Conferences can play non-conf games vs FCS or BCS opponents and if you go strictly on overall records, the wins and losses count the same.

Before I take a look at 2009's results, let's look at the results for the previous 7 years for a historical perspective. **In 2002 the Big Ten made a big comeback and was the Top Conference.** Not only did they produce the National Champion in Ohio St but they had the best record of any conference in bowl games at 5-2. The Big Ten also had the best record vs teams from other BCS conferences during the regular season. They were 8-5 (ACC #2 at 10-7).

In 2003, I put together all the factors (non-conf record, record vs BCS conf, average power ratings and bowl records) and rated the conferences with the **SEC narrowly earning the title of 2003's Toughest Conference with the Big Ten and Big 12 finishing very close behind.**

For 2004, I eliminated wins vs FCS schools but did include losses vs them. USC had tremendous power rating numbers which are also a part of my equation. During the season the Big 12 had the best non-conf record and a slight lead but USC's demolition of Oklahoma in the Title game had me awarding the **Pac-10 its first-ever Toughest Conference Title. The #2 conference was the Big 12, #3 SEC, #4 ACC and the Big Ten was #5.**

In '05, the best non-conf record went to the Big 12 at 23-5 (82%), followed by the Big Ten at 26-6 (81%). Against BCS schools the Big Ten was #1 with a 6-4 mark, with the Pac-10 & Big 12 each at 4-3 and the ACC at 9-7. The MWC (5-7) actually had a better record in this category than the Big East (4-9). Only 3 leagues had winning records in bowl games with the Big 12 at 5-3, the Pac-10 at 3-2 and the ACC at 5-3. Then I looked at the power ratings. The SEC led with 3 teams in the Top 10, with the Big Ten & Big 12 having 2. After taking in all of the above information, here is how I ranked the '05 conferences: **#1 SEC, #2 ACC, #3 Big Ten, #4 Big 12, #5 Pac-10 and #6 Big East.**

In 2006, it appeared late in the year that the Big Ten was the toughest league with Ohio St and Michigan #1 and #2 and Wisconsin not far behind. The Big Ten got blown up in the bowls with the consensus #1 team Ohio St, being dominated by Florida and the league went just 2-5. That dropped them to #3 in my rankings. The SEC was the CLEAR #1 conference. They led in the amount of bowl teams with 9 and had the best conference record during the regular season vs FBS teams at 32-8 (80%). The lowest mark among the BCS conferences was the ACC at 20-17 (54.1%). The best record for a conference vs BCS foes went to the Big East at 12-6, while the SEC was #2 at 9-6. The ACC was just 4-11 (27%) and the Big 12 was a lowly 3-8 (27.3%). **Both the MAC and CUSA posted more wins (5) in non-conf BCS games than the Big 12 or ACC!!** The SEC led with 41 players drafted followed by the Big Ten (32), then the ACC (31). The Big East only had 16, which was actually 1 behind the WAC! The SEC and Big Ten each had THREE Top 10 teams with the Big East being third with 2. The SEC was 6-3 in the bowls with 4 wins over ranked teams, which led all conferences. The Big East was 5-0 but had only ONE win over a ranked foe. **All of the factors above were tossed into my computer and the result was #1 SEC, #2 Big East, #3 Big Ten, #4 Pac-10, #5 ACC, #6 Big 12.**

In 2007, it was another finish at the wire with the Big 12 making a huge rebound to #2. The best non-conference record during the regular season vs FBS teams was the Big Ten at 29-7 (80.6%) followed by the Big 12 at 29-11 (72.5%) and then the MWC at 70.7%. The MWC posted more wins (7) in non-conf BCS games than the Big Ten, Pac-10 or Big 12!! The SEC led the way with 35 players drafted, followed by the Pac-10 (34) and the ACC (33). The Big 12 led with FOUR Top 10 teams with the SEC having 2. The SEC and the Big 12 each had 5 Top 25 teams, followed by the Big Ten and Pac-10 (4). The conference with the best bowl record was surprisingly the MWC (4-1)! The SEC was 7-2 with 4 wins over ranked teams in bowls, which tied them with the Big 12 for the lead (MWC 0). **All of the factors above were tossed into my computer and the result was a nail-biting close-win for the SEC. The Big 12 was a hair behind at #2.**

In the 2008 regular season there was little doubt that the top 2 conferences were the SEC and the Big 12. The top 4 teams in the country heading into the bowls were all from those 2 conf's. They were the top two in terms of non-conf record vs FBS foes (Big 12 28-10, 73.7%, SEC 28-11, 71.8%). The SHOCKING winner of best record in non-conf games vs BCS schools was the Mountain West at 9-4 (6-1 vs Pac-10) with the ACC at 13-8 (61.9%), the only other conference topping .500 in that category. The Pac-10 was actually 12-17 in non-conf FBS games (8th best). The bowls saved the Pac-10 as they went a perfect 5-0 and finished with 2 Top 10 teams including 4 wins vs ranked bowl foes. The SEC went 6-2 in bowls and won the title game while the Big 12 went 4-3 in bowls. Five conferences had TWO Top 10 teams at the end of the year but one of them was the MWC while the Big East and ACC had NONE. The top 3 conf's in terms of players that were drafted were the SEC with 37, the ACC with 33 and the Pac-10 with 32. **The top 4 conferences of 2008 were #1 SEC, #2 Big 12, #3 Pac-10 and for the first time the MWC cracked the top 4.**

Last year there was little doubt that once again the SEC was the king of college football but at least the Big Ten made a comeback after their #6 finish in 2008. The SEC had the best record in non-conf games vs FBS foes at 36-10 (78%) with the Big East #2 at 26-10 (72%) and the Big Ten #3 at 27-15 (64%). In games vs BCS conferences the SEC was tops at 15-8 (65.2%) and they were the only league that finished above 50% in this category. The MWC was right in line with the BCS leagues going 7-9 (44%). The SEC led with 10 bowl teams and went 6-4 in the bowls. The Big 12 was 4-4 and the Big Ten was 4-3 but they usually face the toughest slate of bowl opp's (along with the SEC) each year. The Big Ten's 4 wins were ALL vs ranked teams while the SEC had 3 wins vs ranked foes in the bowls and the Big 12 had 2. While the Big East was 4-2 in bowls they did not defeat a single ranked foe. The SEC once again led in draft picks with 49 while the Big Ten had 34 and the ACC had 31. The Big Ten actually finished with the most AP Top 10 teams (3) while the SEC had two and those two leagues and the ACC each had 4 AP Top 25 teams at the end. Here are my rankings for toughest conference in 2009.

Now let's take a look at which conference will be the toughest in '10. First let me explain how I derive the results. I complete 9 primary sets of power ratings at the start of the year. First is a pure power rating. I rank the positions (QB, RB, WR, etc.) from 4 to 10 points with 10 points being the highest. I then add up all of the positions, factor in coaching and special teams, and derive my Power Rating for each team.

The second Power Rating is based on my Plus/Minus Power Ratings (see page 305). These take into account the production of the team not only in terms of points, but yards gained and allowed. I compile a lengthy list of areas of improvement and spots that are weaker and either upgrade or downgrade each team's Power Plays numbers. I then add up all the different numbers and get my Preseason Plus/Minus Power Ratings number for each team.

Three other sets are based on last year's final numbers. I grade every position for each team (QB, RB, WR, OL, DL, LB, DB) on their scale of improvement from one year to the next. The scale ranges from +6 points to -6 points for each position. I take the total team number and factor it into last year's 3 final sets of Power Ratings. This gives me 3 very different ways of gauging the strength of the teams.

The question is, how do I add up the points? Conferences all have a different number of teams. If I ranked the teams by the average of the entire conference, that would give a good indication of the average rating of all the teams. But the bigger the conference the weaker the grade could possibly be. I did use that as one factor. I added a second factor and that was an average grade of just the Top 5 teams. This would give me an even comparison of all the conferences. The only thing this rating does not show, of course, is the depth of the conference. For example, let's say one conference had 9 bowl caliber teams and 1 non-bowl team and another conference had 5 bowl caliber teams and 5 non-bowl teams. The thinner conference would be rated higher if the Top 5 teams had a higher average, even though the deeper conference was probably tougher. I also rate leagues by the Top 3 and the Top 8. By merging the 4 ratings, I get a fairly accurate assessment of the strength of the conferences.

Basically, after all of that is done, I have 4 different sets of rankings. They break down the conferences based upon the strength of the Top 3 teams in each conf, the Top 5 teams, the Top 8 teams and then the overall strength of the whole conference. Two years ago the Big 12 was #1 in the Top 5 teams and that proved true at the end of the year with 4 in the Top 10!

Here are my preseason rankings for this year's Toughest Conferences and also 2009's final polls. This year, the SEC is at the top once again and just like the last 2 years the Big 12 is #2. The Big Ten and ACC are close behind and tied at the #3 spot. Both are capable of moving higher. Here is how my computer ranks the conferences for the 2010 season.

2010'S MOST IMPROVED TEAMS

BY PHIL STEELE

Making my Most Improved List has generally been a blessing for teams, as they usually make big turnarounds. **In 1999, the #1 most improved team in my Preseason Rankings was Hawaii and they simply had the NCAA's largest turnaround on record,** going from a winless season in 1998 (0-12) to a 9-4 record and a bowl victory one year later!!!

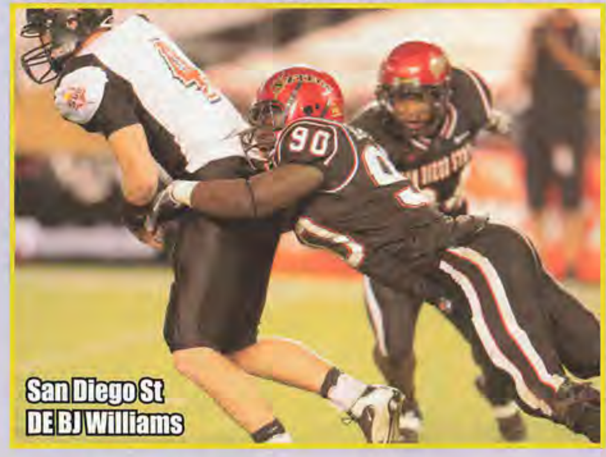
The year 2000 was a VERY successful season as well for my Most Improved Teams. **Of the top 14 Most Improved Teams that year, TEN went from a losing season to being bowl eligible!!!! South Carolina was my #6 Most Improved Team and they went from 0-11 in 1999 to beating Ohio St in a Jan 1 bowl game** to finish with an 8-4 record. Northwestern was #4 and after a poor 3-8 season, they rolled to become Big Ten Co-Champions! My top two both went from losing seasons to bowl eligibility.

In 2001 and 2002, nine of the 20 teams on my Most Improved List list each year went from having a non-winning season to making a bowl. Colorado went from 3-8 to just missing out on the National Title game in 2001. Wash St was picked last in the Pac-10 preseason media poll after their 4-7 season in 2000, but made my Most Improved List and went 10-2 and just missed out on a Pac-10 Title. In 2002, USC went from 6-6 to finishing 11-2 and #4 in the final polls after an Orange Bowl win.

In 2003, 8 of the top 20 went from .500 or losing seasons to being bowl eligible. Rutgers, which went from 1-11 to 5-7, just missed out. The biggest turnaround was Memphis, my #8 Most Improved Team. The Tigers went from 3-9 to a super 9-4!!!!!

There were a total of TEN teams that did not have winning records in 2003 who improved to a winning record in '04. NINE (90%) of them were on my list! My #1 Most Improved Team, Texas A&M, went from 4-8 to the Cotton Bowl. **My #3 Most Improved Team, UTEP went from 2-11 to a super 8-4!!** Iowa St made the list and went from 2-10 to 7-5 and tied for the Big 12 North Title!! **Not only did 12 of the 21 go from a non-winning season to a bowl, but only TWO had more losses than the previous year.**

In 2005, my top 16 Most Improved Teams made incredible strides. This was despite the fact that one of the 16 teams was Tulane, whose season was disrupted by Hurricane Katrina and played 11 games in 11 different venues. **The top 16 Most Improved Teams on my list in 2005 had a combined record of 66-111 (37%) in 2004 and improved to 102-84 (55%) in 2005 and, if you take Tulane out of the equation, the record jumps to 100-75 (57%)!! Penn State went from 4-7 to the #3 team in the country and nearly played in the National Title game. Oregon went from 5-6 to #6 after the regular season, finishing at 10-2!! W Michigan went from 1-10 to 7-4, a huge turnaround. None of my top 16 teams in 2005 had winning records in 2004 but ELEVEN were bowl eligible in 2005.**



San Diego St
DE BJ Williams

Baylor
QB Robert Griffin

2006 was another great year for this list. **My #1 Most Improved Team in 2006 was Arkansas which went from 4-7 to SEC West Champs and rose as high as #5 in the polls!! Wake Forest went from 4-7 to 11-3 and ACC Champs. Houston went from 6-6 to CUSA Champs! Ohio went from 4-7 to MAC East Champs! Troy went from 4-7 to Sun Belt Champs!** Kentucky went from 3-8 to 8-5, including their Music City Bowl win over Clemson. Hawaii went from 5-7 to a super 11-3. Tennessee went from 5-6 to 9-4 and could have been the SEC East Champs had they not let 4Q leads vs LSU and Florida slip away. Kent St went from 1-10 to a bowl eligible 6-6. **The top 10 teams on 2006's MIT list were a combined 71-57 (55.5%) in 2006 after being 33-79 (29.5%) in 2005.** Of the 22 teams, only 2 won less games than they did in 2005 (Mich St & San Diego St).

2007 was another terrific year! The 22 teams on my list had a combined record of 92-177 (34.2%) in 2006 but were 145-134 (52%) in 2007. Of the 22 teams on the list only THREE had more losses than in 2006. Twenty of the 22 teams were coming off losing seasons and of those 20, THIRTEEN (10 of top 14) ended the regular season bowl eligible!! **MY #2 SURPRISE TEAM IN 2007 WAS ILLINOIS AND THEY WENT FROM 2-10 TO THE ROSE BOWL!!! Memphis (#1 on list) went from 2-10 to a bowl and UCF went from a 4-8 season to CUSA Champs!**

There were 58 teams in 2007 that did not have a winning record. Of those 58, 24 managed to improve their record AND be bowl eligible in 2008 or just 41%. Of those 24, SIXTEEN were on my 2008 Most Improved List (67%)!!!! Twelve of my top 13 Most Improved Teams went from non-winning seasons to bowl eligibility or 92%!!! Those 13 went from a combined 50-95 (34.5%) in 2007 to a 94-62 (60.3%) record in 2008!!! There were only 4 teams in the NCAA who did not make it to a bowl in 2007 that made it to Jan 1-2 bowls and they were South Carolina (6-6), Ole Miss (3-9 in '07), Nebraska (5-7) and Iowa (6-6) and ALL FOUR made my Most Improved List and 3 won their bowl games with the one loss being South Carolina to Iowa!!! Minnesota which was just 1-11 and Northern Illinois which was just 2-10 both made the list and both made it to a bowl!! Only 3 of the 23 teams actually had more losses than '07.

Last year was another successful season with 22 teams making my list and of the 22, 12 went from a losing record to bowl eligibility. Ohio won the MAC East after going 4-8 in '08, SMU went from 1-11 to 8-5!!! 15 of the 22 teams improved their record and two had the same record as 2008.

With this type of success through the years, you might think that it is very easy to pick teams that had losing records the previous year and have become bowl eligible the next season. I went back to 1992 and took a look at all of the teams that finished with losing records in a season. In that span, there have been 918 teams that finished with a record below .500. Of those 918 teams, only 261 of them managed to finish ABOVE .500 the next year which comes out to just 28.4%. Teams now play a 12 game regular season so a 6-6 record equals bowl eligibility. To be fair, out of the 918 teams an additional 49 earned a .500 mark the next year. So, of the 918 teams, 310 or 33.8% managed to go from a losing record to at least .500 the next year.

The combined record of all of the teams which had a losing record from 1992-2008 was 2853-5336 or just 34.8%. The next year those same teams showed a slight overall improvement in their records to 3575-4862 or 42.4%. **So on the average, a team that had a losing season in that span improved by 7.6% over the previous year's record. Naturally, the teams I feel are the most improved are in my top 10. My top ten Most Improved Teams over the last 8 years had a combined record of 322-610 (34.5%) the previous year which improved to 509-470 (52%) the next year. That is 17.5% better than the previous year which is more than DOUBLE the normal improvement for teams with losing records.**

In the last 8 years, I have had a total of 171 teams on my Most Improved List. I have picked 18 that have had .500 or above records the previous year and of those 18, thirteen improved their record, including USC in 2002 which went from 6-6 to 11-2. **Of the 171 teams that made my Most Improved List in the last 8 years, 144 (84.2%) have won at least the same amount of games as the previous year or have improved their win total.**

In the last 8 years, I have listed 158 teams on my Most Improved Teams list that did not have a winning season the previous year. Of those 158 teams, almost all improved their record the next year, but even more impressively, 96 of the 158 teams were bowl eligible the next year which is 60.8% (31 of 45 69% in '08-'09)!

Taking a closer look at the last 8 years, I found that 424 teams had losing records from 2001-2008, and of those 424 teams, just 111 or 26.2% managed to have a winning record the next year. **Of those 111 teams, 69 of them were on my Most Improved List or 62.2%!!! Over 62% of the teams that have gone from a losing season to a winning season have been on my list!**

Looking for some major turnaround teams this year that will surprise? Here is my much anticipated Most Improved Teams List. The team at the top is Tulsa who will be vastly improved and will contend with Houston for the CUSA Title. Last year my computer had Washington as its #1 Most Improved Team, but I did not expect them to be in a bowl so they did not make the list. They went from 0-12 to 5-7. You can expect a high % of these teams to go from a losing record (or not going to a bowl) to bowl eligibility and over half will make the postseason!

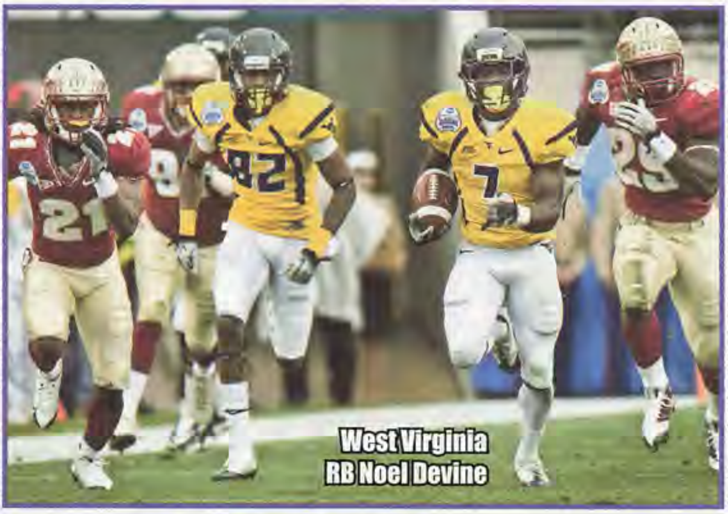
WHO WILL BE THIS YEAR'S SURPRISE TEAM?

By Phil Steele

Let's pretend you were in Shreveport, Louisiana on December 31, 1999. You've just watched Oklahoma lose 27-25 to an average Mississippi team to finish the season 7-5. Despite this bowl loss, it was a good year for the Sooners, especially after coming off of five consecutive non-winning years. Your friend says to you, "I guarantee you Oklahoma will win the National Championship next year." Your first thought is your friend has "over-celebrated" New Year's Eve. Next year Oklahoma would have just 13 returning starters and face a schedule that included the 3 powerhouses of the Big 12 in Nebraska, Kansas St and Texas, with all 3 of those games away from home.

The Sooners entered the year as a 50-1 shot to win the National Title and were ranked #19 to start the year. When the dust cleared they simply stood at the top of the heap over all of the other 115 Division IA teams and were the only undefeated team. Impressive indeed! They did have some solid factors going for them in 2000 like exceptionally good health (0 starters missed a game due to injury), a solid QB and a super defense. Your first reaction was this Cinderella story is a one-time thing. However, teams have reached the top and have been big surprises almost every year, and yes, sometimes they bag the National Title despite not being one of the top-ranked teams coming into the season.



West Virginia
RB Noel Devine

Oklahoma was not the only Surprise Team of 2000. Oregon St was unranked coming into the season, and much like the Sooners, stayed remarkably injury free. They also benefitted from +18 turnovers to finish #4 (AP) with a super 11-1 season including a blowout win over Notre Dame in the Fiesta Bowl. Health and turnovers had a big impact that year, but here are examples of other surprise teams through the years.

In 2002, it was yet another Surprise Team taking home the National Title. Ohio St was not even ranked in the preseason Top 10. In fact, only three magazines even picked them to win the Big Ten, let alone contend for a National Title. I am pleased to report I had OSU at #7, which was higher than any other publication. I pointed out 3 sets of my Power Ratings called for Ohio St to have a perfect season. The Buckeyes were coming off a 7-5 season and had only 12 starters back. They had the NCAA's 4th highest losses to the NFL draft and did not even have a returning starter at QB. When the smoke cleared, they had beaten Miami, FL in the Fiesta Bowl and took home the National Title.

In 2003, there was another surprise champ and that was LSU. **If you read my 2003 College Football Preview, you know I had LSU pegged as my #2 Surprise Team in the country saying they had a great shot at going undefeated and attaining the National Title.** They were a 40-1 long shot in Las Vegas to win the title coming off an 8-5 season including a 35-20 Cotton Bowl loss to Texas. I pointed out they had a great schedule and would have finished stronger in 2002 had their QB not been injured. At the start of the year, not only did 8 of the Big 9 magazines NOT have LSU as a National Title contender, but NONE had LSU even winning the SEC WEST DIVISION. That year LSU simply won the SEC outright and shared the National Title!! **The other half of the National Title went to USC who I had listed as my #5 Surprise Team** despite the fact they had to replace their Heisman Trophy winning QB Carson Palmer.

In '04 almost everyone including myself pegged USC and Oklahoma to play in the Orange Bowl game so there was no Surprise Team in the title game BUT Auburn made no major publication's Top 10 and almost got to the big game with its unbeaten season. **I had Auburn listed as my #7 Surprise Team in '04.**

In '05 the #1 and #2 preseason teams met in the title game so there was no Surprise Team. Penn St was not ranked in the preseason and finished #3 in the final polls after having a losing season in '04. While they did not make my Surprise List, they were my #3 Most Improved Team (page 19).

The 2006 season was a VERY GOOD year for my Surprise Teams and almost a GREAT YEAR! In my round of summer radio shows I got a lot of chuckles with my pick of Boise St to get to a BCS bowl. Only one non-BCS team in history had done so and Boise St was not only unranked to start the year but NOT A SINGLE PUBLICATION IN THE COUNTRY HAD BOISE ST IN THE TOP 20! Well of course I had them in the Top 20, so I should say, not a single magazine other than mine. Boise St, as you all know, was a great story especially with their dramatic win in the Fiesta Bowl and they finished #5 in the polls. I say almost a GREAT year because my #1 Surprise Team was Louisville and they came within inches of playing for the National Title. When I wrote the magazine I had expected the "Derby City Duo" of RB Michael Bush and QB Brian Brohm to be one of the top QB/RB combos in the country. Bush was lost in the 3Q of the opening game and Brohm was injured a few games later. Brohm was only a few games back from injury when the #3 Cards blew a 25-7 3Q lead and lost to Rutgers on a FG on the last play (which was a 2nd chance FG after the first one was missed but the Cardinals were penalized for being offsides). Had they held on and won they would have been #2 in the BCS poll and we would have had a pair of unbeatens meet for the title. As we saw, the Buckeyes were greatly affected by their 51 day layoff and were a vulnerable team. Louisville could have been the fourth team in FIVE YEARS to merit National Championship consideration that was one of my Top 10 Surprise Teams. That is a pretty good record considering I do not pick any of the projected preseason Top 10 teams. In 2006, National Champ, Florida, fell into that category along with the other top teams in the mix (Ohio St, Michigan and USC).

In 2007, I had Ohio St listed as my #4 Surprise Team and they entered the season #11 but played in the National Title game. I had USF (unranked preseason) as my #5 Surprise Team and they climbed as high as #2 in the polls. **I had Georgia (#13 AP) as my #6 Surprise Team and they finished #2 and almost played in the title game. I had Oregon my #10 Surprise Team and they were #2 when QB Dennis Dixon was injured. Had Dixon not been injured, they likely would have been in the title game. I had Missouri my #9 Surprise Team and despite being UNRANKED in the AP preseason poll, they were #1 when they faced Oklahoma in the Big 12 Title game and finished #4! I also had Hawaii going unbeaten in the regular season and playing in the Sugar Bowl which is exactly what happened!**

In 2008, I had Texas Tech my #3 Surprise Team and they got to 10-0 and #2 late in the year and came very close (3-way B12 South Division tie) to playing for the Big 12 Championship and possibly the National Title game. Penn St opened the year #22 in the AP poll but was my #5 Surprise team and had they not given away a 9 point 4Q lead vs Iowa they would have been in the title game. Do you want to know the non-BCS school that will get to a BCS bowl? Read my magazine. After pegging Boise and Hawaii the previous two years I stuck my neck out with Utah in '08 as the top non-BCS school. According to preseason.stassen.com with the exception of my magazine there was not a SINGLE magazine or internet source that even had the Utes winning the MWC let alone contending for a BCS bowl!!

Do you think it is easy picking a National Champ prior to the year? Since 1994, only 3 times has the preseason #1 team gone on to win the National Title. In 2007 NO Magazine had LSU or Ohio St #1 (USC was the consensus #1). In 2006, National Champ Florida was not picked #1 by ANY magazine and they were picked anywhere from #4 (Joe Del Popolo of *GamePlan* had them rated the highest of any magazine) down to #20. They were #7 in the preseason AP Poll and #8 in the Coaches' Poll. Only in 1999 and 2001 did any of the Big 9 preseason magazines correctly pick the National Champ before 2004 when almost everyone had USC. In 2005 everyone had USC again and no one had the actual Champ, Texas. The Big 9 magazines I am referring to are *Athlon*, *Lindy's*, *The Sporting News*, *Street and Smith's*, *Sports Illustrated*, *GamePlan*, *Preview Sports*, *Jim Feist's* and Phil Steele. In 2001, two magazines (*Preview Sports* and *Street and Smith's*) pegged Miami, FL as #1 and they were correct. It used to be the usual suspects like Florida St, Miami, FL and Nebraska that were pegged to win it almost every year. In 2008, Georgia

Auburn
MLB Josh Bynes

was the preseason #1 team **but I had FLORIDA to win the title and the Gators delivered for me!!** *Athlon* was the only other source to have Florida #1.

All of this information I have provided for you was obtained from a great website, www.stassen.com, which has information on final polls, magazine rankings and some records that date back to 1989. So, what have we learned from all this information? Clearly, every year there has been an unexpected Top 10 team and some years there are big surprises like Oklahoma, Ohio St and LSU who all took home the title after a 5-loss season (Auburn also had 5 losses in 2003 before going unbeaten in 2004). Now comes the question, "Who will be this year's Surprise Team?"

As I write this magazine, it is unknown where the other magazines will have the teams ranked or what the preseason polls will look like. I can definitely peg some teams that won't rank in the Preseason Top 10 (and some not even in the Top 20) that could turn out to be big surprise teams this year. Keep in mind no one can forecast injuries and turnovers and those have been important factors for teams who have climbed to the top in recent years.

In 2001's magazine I listed 9 teams. LSU was a team that was not ranked in the Preseason Top 10, but did earn its way into a BCS bowl by winning the SEC. The other team that almost got there was Colorado and they nearly played in the National Title game. I picked Colorado for this article, despite the fact that they were 3-8 the previous season!! They missed out on the National Title game by a couple of percentage points in the BCS rankings.

In 2002, my #1 Surprise Team in this article was OHIO ST and the Buckeyes shocked the nation by winning the National Title!! Some other teams mentioned in the article were Penn St, Kansas St, USC and Arkansas. Penn St ended up playing in a Jan 1 bowl game after two straight losing seasons. At the end of 2002 you could have made an argument that Kansas St and USC were the two hottest teams in the country. Kansas St outscored their opponents on the year by 33 ppg and USC crushed UCLA, ND and Iowa in their final 3 games by a 134-51 margin. Arkansas was the surprise winner of the SEC West.

In 2003, I had LSU listed as my #2 Surprise Team in the country and they split the National Title with USC. I had USC listed as my #5 Surprise Team as they were not highly ranked at the start of the year. They had to replace Heisman winner Carson Palmer but I noted that 2 of my sets of Power Ratings called them the BEST in the country prior to the season and they claimed the other half of the National Title!!!! My #1 Surprise Team in 2003 was Pitt and they had a shot at the Orange Bowl and a Big East Title but could not beat Miami, FL in their season finale in chilly Heinz Field. In 2003, I listed a couple of non-BCS teams that could factor into the equation and my #1 team was TCU, a team that was ranked #6 in the BCS poll late in the year and almost made it into a BCS bowl before losing late at Southern Miss.

In 2004 as usual, I eliminated what early polls showed would be Top 10 teams. As I mentioned **I had Auburn as my #7 Surprise Team and they almost played in the National Title game. I had Cal as my #2 Surprise Team and they had a 424-205 yard edge vs USC and just missed winning that game. Had they won, they would have been in the National Title game!** I listed Utah and Boise St among 5 non-BCS surprise teams and both went undefeated in the regular season (Boise lost bowl to finish 11-1).

In 2005, Oregon and Alabama (two teams that were not even ranked in the preseason) made my surprise list. The Tide was 9-0 and was #4 in the country until injuries derailed them but they still finished #8 in the final poll. Oregon went 10-1 and was #6 at the end of the regular season, almost making a BCS bowl. Georgia also made my surprise list and while they were an almost unanimous preseason pick for #3 in the SEC East, they were my pick for the SEC Title and they, of course, won it.

In 2006, only 4 teams who were not in the AP Top 10 at the start of the year finished in the Top 10 and those teams were Louisville, Boise St, Michigan and Wisconsin. As mentioned, Louisville was my #1 Surprise Team and Boise was my #1 non-BCS team and I projected them to get to a BCS bowl. I had Michigan on my anticipated Top 10 list so they were not an option. Wisconsin, meanwhile, surprised even me.

Something I have noticed the last couple of years is a REBOUND Surprise Team. In 2003, Auburn was thinking undefeated season and National Title. They were picked in the Top 10 by EVERY magazine (except mine, #15) including #1 by a major magazine. They were tremendously disappointing, finishing just 7-5 in the regular season. In 2004, the Tigers were no longer the popular pick and few had them in the Top 10 (they were my #7 Surprise Team). With lower expectations they rebounded to go 13-0 and almost played for the National Title. In that 2004 season West Virginia was a popular surprise pick as they had the schedule to run the table. I tabbed WV as my #1 Surprise Team and they did rise to #6 but injuries and some close losses saw them stumble to an 8-4 record. In 2005, the Mountaineer bandwagon emptied fast and no magazine (including mine) had them in the Top 25. WV rebounded with an almost perfect year going 11-1, beating Georgia in the Sugar Bowl and finishing #5. In 2006, Louisville fit that category after having high expectations in 2005 but came out of the season with 3 unexpected losses. I mentioned earlier how they were inches away from playing in the National Title game. In 2007, my #4 Surprise Team was Ohio St and they made it to the National Title game. In '08 USC (preseason #1 '07) was the best fit but I could not pick them because they were in the Top 5 in the preseason.

After I wrote my Top 40 I had my staff go on-line to find out what other sources (like *The Sporting News, USA Today, Sports Illustrated*) were picking for their Top 10's. Here is the rough list of the teams that will likely be ranked in this year's Top 10 and I put them in order of how many different sources picked them in their Top 10: **Alabama, Ohio St, Boise St, Texas, Virginia Tech, TCU, Florida, Iowa, Nebraska and Oregon.. It's likely these 10 teams will make up the Top 10 this year, so I will NOT use any of them.** Now let's take a look at this year's potential surprise teams.

Georgia
LB Justin Houston

This year my #1 Surprise Team is the Oklahoma Sooners! A quick check of other preseason polls in May shows they will not be in the Top 10 at the start of the year for the second time since 2000, the year they won their last national title! Much like 2000 they are off a 5 loss season but they are even better prepared to win it all than they were in 2000. Back then they had just 1 winning season the previous 6 years and were not among the most well stocked teams in the nation. This Sooner squad has had recruiting classes ranked at the top and they have finished in the Top Eleven 8 of the last 10 years. Just last year they were #3 in the preseason but lost their Heisman Trophy QB to injury in game 3 and the top TE in the 2010 NFL draft prior to the year. They also suffered 4 very close losses in games they could easily have won. Now they are under the radar and all 9 sets of my power ratings have them winning all 12 regular season games.

Much like my #1 Surprise team, this is an odd preseason outside the top 10 for **my #2 Surprise Team the USC Trojans.** USC has not opened outside the top 10 since 2002 and they have been preseason #1 three times in the last 6 years. Last year they slipped to 9-4 after having lost just 9 games in 7 years ('02-'08). They had a true frosh QB and a young defense with just 3 starters back LY and a tough road schedule including trips to Autzen Stadium and the Horseshoe. This year they get their toughest foes at home and while they have 7 road games not a single one is vs a team that finished ranked last year. USC could very well be favored in all 13 games. They do lose their HC Pete Carroll but Lane Kiffin was an asst here at USC and his dad Monte will bring a defense that Pac-10 teams have not faced. Last year Kiffin and a weaker team at Tennessee came within two blocked FG's of beating eventual national champ Alabama. Despite just 10 returning starters the Trojans had a big gap between them and the rest of the Pac-10 prior to last year going 52-7 the previous 7 years and could quickly find themselves back on top.

As I chronicled earlier, Mark Richt does well when expectations are low and **my #3 Surprise team the Georgia Bulldogs** don't even figure to be in the preseason top 20 this year. They have one of the top O-line's and RB corps in the country and WR AJ Green is one of the highest rated NFL prospects. They do have a rFr QB but he has a lot of talent surrounding him. The D does lose 15 lettermen (5 st'rs back) but was much weaker than normal last year. Florida lost the most points to the NFL Draft Day Party Hangover (pg 308) which means the SEC East is wide open and they avoid Alabama. Despite only 6 HG's I only rate their schedule #44 with just one top 10 team on it and the Bulldogs could find themselves in the SEC Title game at the end of the year.

My #4 Surprise Team is the Notre Dame Fighting Irish. Brian Kelly became the first ever head coach to exceed my magazine's forecast 6 straight years. I pride myself in adapting and while a coach like Oregon St's Mike Riley has his team outperform my expectations often, no coach ever did it 6 straight years but Kelly did that in 3 years at C Mich and 3 at Cincy. Some were by as little as finishing 4th in the MAC when I had them 5th but he did win THREE conference championships I did not call for. The Irish lose their QB but 4 different QB's started for Kelly in '08 at Cincinnati and they won the BE Title. New QB Dayne Crist looked good in the spring. The D will be much improved and despite taking on a lot of foes that will be in bowls this year, they face just 1 team that I have ranked in my Top 20 and they have just 3 true road games. I have ND at #16 and if you look at history, Kelly should top that.

Not too many Auburn fans were happy when Gene Chizik was hired as he was just 5-19 in two year at Iowa St but **My #5 Surprise Team, the Auburn Tigers,** put up 33.3 ppg with a first year starting QB and won 8 games including a New Years Day bowl. Auburn only had 13 returning starters last year and have 15 back this year and are in the 2nd year of the new schemes. Their defense was thin in '09 but has much better depth in 2010. The Tigers have 8 home games with road trips to Miss St, Ole Miss and Kentucky in the first 11 weeks. They could very well be 11-0 when they play at Alabama and they have the edge of having a bye the week prior. Most figure a team from the state of Alabama will win the title this year but wouldn't they be surprised if it was Auburn?

My #6 Surprise Team in 2010 is the Miami Hurricanes. Last year the "U" opened with 4 ranked teams and despite still being a fairly young team they had a solid regular season at 9-3 with an OT loss and another loss in which they had a 24-17 FD edge. This is one of the most athletic teams in the country and they have 7 of 8 units ranked in my Top Units in the front of the magazine including my #4 rated D-line, #11 DB's and #12 LB's. They do have 4 tough road games this year at Ohio St, Pitt, Clemson and Georgia Tech yet 2 of my 9 sets of power ratings call for a perfect season.

It seems like every year a team from the Big East ends up flirting with the top few spots in the AP poll. They of course do not have the type of schedule that SEC teams face on a weekly basis. My **#7 Surprise team, the West Virginia Mountaineers** are not even my pick to win the Big East but they could be the conference's surprise team this year. WV has offensive weapons like RB Noel Devine and WR Jock Sanders and one of their best defenses in years. They have just 5 road games this year and LY WV went into SEC country and had a 509-400 yard edge at Auburn. This year in one of WV's toughest trips they face LSU, which has just 10 returning starters. The other tough trip is the Backyard Brawl where the visitor has played well recently. If they get quality play from their QB and keep him healthy the Mountaineers could surprise a lot of folks this year.

Mack Brown took NC from a pair of 1 win seasons in 1988 & 89 to 10-2 (#10) and 10-1 in '96 and '97. He left prior to '97's bowl win (11-1, #6) and NC has not won more than 8 games in a season since. It took four years but Butch Davis has my **#8 Surprise Team, the North Carolina Tar Heels,** back to contending for a top 10 spot and perhaps a National Title. If I told you that the team that had the most players selected in the NFL draft on defense had contended for the National Title the previous year you would say that wasn't surprising. NC will be that team as their D is loaded with 1st and 2nd round picks and the offense figures to be improved. They have 19 starters back and while they face LSU, Miami and Florida St away from home this team is capable of winning them all but does not figure to be in the preseason Top 10.

There are some factors going against **my #9 Surprise Team the Arkansas Razorbacks.** They were +15 in TO's last year (see page 312) and they play in the tough SEC and have road trips to Georgia, Auburn and South Carolina as well as a HG vs Alabama. They do have one of the most explosive offenses in the country and here is something that surprised me. Two of my 9 sets of power ratings actually call for a 12-0 regular season! The D is much stronger and they have QB Ryan Mallett and my #1 rated receiving corps and Bobby Petrino may find some magic in his 3rd season in Fayetteville.

I'm down to the #10 spot on my Surprise Team list and I do not want to leave out a worthy candidate. In 2008, I left Alabama off the list because they had 4 tough road games but they went 12-0 that year. In 2009 I left Iowa off the list because might had 4 tough road games and had they not lost QB Stanzi to injury they might have gone 12-0. This year with Penn St playing 3 BCS bowl winners all on the road, I left them off the list. Another top 15 team in my Power Poll that I left off the list due to schedule was Florida St. **My #10 Surprise team, the Wisconsin Badgers** have 16 returning starters from a team that won 10 games and beat Miami, Fl in the bowl. Last year's squad was coming off a 7-6 season and was young with just 10 returning starters. They take on my #85 schedule. Test #1 is a tricky road trip to Mich St but that is winnable. If they can knock off Ohio St at home and Iowa on the road in back to back weeks they have a bye to recover and could be on cruise control towards a title game with the offense operating behind my #2 rated O-line.

Roulette Chips. If you walk up to a roulette table and pick just one number you have a 38-1 shot (37-1 in the big money rooms with no 00) of having your number come in, so it is a long shot but still a possibility. Last year I listed two teams that had poor LOSING records from the previous year and said if the stars align correctly, no injuries happen, and every bounce goes their way, they could be the first team in recent history to go from a losing record to a National Title. You might argue that you could say that about any of the 120 FBS teams but that is not the case, as the odds of a Duke or Wash St walking away with the title are about the same as #78 coming up in roulette. One of two teams that I chose in 2005 was Alabama. They rose as high as #4 in polls at 9-0 and may just have gotten to the big game if not for key offensive injuries. Here are a couple of long shots that I felt compelled to include.

The **South Carolina Gamecocks** are off B2B disappointing 7-6 seasons, but have also pulled in B2B top-notch recruiting classes and Steve Spurrier said he won't retire until he can see if he can mold these recruits into a Championship team. PS#1 RB Marcus Lattimore may be just the player to get SC to double digit wins in 2010. With turmoil at Tennessee, Georgia and even doubts at Florida concerning Urban Meyer's health, Spurrier is steadily building but flying under the radar. Road trips to Auburn, Florida and Clemson plus a home game vs Alabama make them a long shot.

Last year **Michigan** had their second losing season in a row but at one point stood 5-2 and took both Iowa and Ohio St to the wire in the second year after their drastic change in offensive schemes. One of my nine sets of power ratings has them 11-0 when then play Ohio St (naturally most don't).

Wisconsin
DE JJ Watt

These are the 10 teams that have a legitimate shot at stunning the NCAA much like Oklahoma did in 2000, Ohio St did in 2002, LSU did in 2003, Auburn almost did in 2004, Louisville almost did in 2006 and Ohio St almost did again in '07. In '08 Texas Tech and Penn St came very close to getting to the Title game. They were also two long shots that I had on my Surprise Teams List. Also listed below are five more non-BCS teams who are long shots to make it to a BCS bowl, let alone a National Title game. **In 2006, my top non-BCS team was Boise St and I PROJECTED THEM INTO A BCS BOWL and they went undefeated and got to the Fiesta Bowl where they beat Oklahoma. In 2007, I called for Hawaii to go unbeaten in the regular season and grab a SUGAR BOWL BERTH and that is exactly what they did! In 2008 my top non-BCS team was Utah and while they were NOT RANKED in the preseason and no one picked them to win the MWC at the start of the year except me, they finished unbeaten and #2 in the country! Last year my Top non-BCS team was Boise St and when they beat TCU in the Fiesta Bowl they finished #4 and the top non-BCS team in the country.**

That means in the 4 years I have posted my Top Non-BCS Team ALL FOUR have gone to BCS bowls and ALL FOUR have finished as the best non-BCS team! This year I'm going for FIVE IN A ROW, my call is for the TCU Horned Frogs to go unbeaten and be the top non-BCS team in the country this year!

A year ago the MWC was attempting to push Congress to pass legislation for them to get to the title game. They won't need an act of Congress this year if all the BCS teams lose one game and TCU runs the table because they are a legitimate top 5 team in my Power Poll. TCU will need to dominate foes like they did last year and they are capable of doing so. If you go to my projected stats in the back of the magazine (page 327) you will see that my computer projects them to outscore their foes this year by an average of 41-14! That would be pretty dominant. Boise St has a great shot at getting there as well if they win their opening game vs Virginia Tech. They should open the year #3 in the polls, they beat TCU in the bowl last year and their average win this year should be by 41-19. This is the best Boise St team ever and they actually start the year ahead of TCU in the AP ranking and if they run the table they will likely stay that way. This is the best year ever for non-BCS teams as Boise and TCU could compete weekly in a BCS conference. The Houston Cougars are loaded at the skill positions. If their offensive line comes around and the defense improves they also have a shot at running the table and last year they beat both Oklahoma St and Miss St on the road so they are capable of handling this year's 3 BCS foes (UCLA, Miss St, Texas Tech). The last time Utah got both TCU and BYU at home they made #1 on my top non-BCS list and did not disappoint beating Bama in the Sugar Bowl and earning 16 first place votes in the final AP poll. Nevada has the misfortune of playing in the same league as Boise but QB Colin Kaepernick and his Wolf Pack offense is exciting and they have a shot since they get Boise at home. Temple and Middle Tennessee just missed making the list as they look like the strongest teams in their respective leagues.

DETERMINING THE NATIONAL CHAMP – BOWLS OR PLAYOFFS?

by Phil Steele

For nearly a decade now I have been calling for a system which pits the #1 vs #4 and #2 vs #3 teams in the Jan 1 bowls and the addition of a title game a week or two later which would give us a true National Champ every year. SEC Commissioner Mike Slive proposed this "plus one" format as it has come to be called to BCS officials in April of 2008. It seemed like support would be strong for the plan which would have started in 2010 but it was shot down by the BCS Commission. Last year it seemed like 2014 would be the next shot but I still feel something can happen sooner. The main concern in '08 was that it would lead to an 8 or 16-team playoff, which I am also vehemently against. The only other concern was that the Rose Bowl wants a Big Ten and Pac-10 matchup every year and would have its tradition interrupted most years. The Pac-10 changed commissioners in 2009 and that door may begin to open.

In 2008, my system would have allowed both Texas and Oklahoma into the final 4 but would not have been a cure-all (see next page). The 2007 season was really the FIRST year my system would not have worked out but no format could have produced a 'true' champion in the bizarre season of 2007. I felt USC should have been in the mix but they were number SEVEN in the BCS rankings. To try and build a system around fixing the problems of 2007 would be ridiculous. Let's face it, if a team lost TWO games during the season they don't deserve to argue they belonged in the title game! Those years are rare. What is unjust is when you have 3 undefeated teams at the end of the year or 3 or 4 deserving teams and they are not able to compete for the title. This happened to Ohio St in 1998, Nebraska in 1999, Washington and Miami in 2000, Oregon and Colorado in 2001, USC and LSU split the title in 2003, unbeaten SEC Champ Auburn in 2004 and Michigan fell to #3 without playing in both '03 and '06.

Texas
DE Sam Acho

Now let me go in depth on how my plan for a 4-team playoff would have worked in 10 out of 13 years, while the current system has worked in only 4 out of 13. In 2006, it was business as usual as Michigan was #2 in the BCS rankings after losing to #1 Ohio St but dropped to #3 without playing a game. Florida got to the National Title game while Michigan, like most disappointed teams have done lately, lost its bowl game. **In my bowl system Michigan and Florida would have faced each other on the field for the right to play the winner of Ohio St vs LSU (who was #4 in the BCS rankings) and that would have been a pair of outstanding games.**

In 2005, the BCS method worked out perfectly. In the old system, USC would have faced Penn St in the Rose Bowl and Texas would have played in the Orange Bowl and we would have had two undefeated teams at the end of the year. **The 2003 and 2004 seasons would have worked out PERFECTLY for my method EXCEPT the NCAA did not allow the National Title Game I called for, which would have pitted LSU vs USC in a one-game title match after the bowls in 2003 and USC and Auburn in a one-game title match in 2004.** This would have prevented the co-National Champs of 2003 and Auburn going undefeated and winning the SEC but not playing for a Title in 2004. The one-game playoff is the only plan to make the situation perfect, as an 8 or 16-team playoff would not solve anything. It would destroy the bowls and make the regular season meaningless. I am a traditionalist when it comes to college football. I love the rivalries and the tradition of the bowls. During the holidays, I am a bowl junkie and I find each bowl to be interesting. **I feel bowls provide teams with a reward for a successful season, both financially and for recruitment purposes, and should be kept intact.**

I know in college basketball the NCAA tournament is a major success. TV ratings are high and almost everyone in the country participates in their office pools, predicting who will be the National Champ. Many have said they would like to see such a tournament for NCAA football as well. I definitely disagree. Here's the main reason why: If you take a look at the NCAA hoops tournament and who is crowned champion, I think you will find the most dominating team of the basketball season does not always win the championship. How can you say a team like the 1985 Villanova squad, which finished the regular season 16-10, was the best team in the country simply because they won their last 6 games in the NCAA tournament? There were 10 teams during the regular season who were stronger than they were! To say at the end of the year that a team that lost 10 games was the strongest team in the NCAA was a joke and **meant the entire regular season was meaningless.** In 2005 it was more of the same with all four #1 seeds eliminated. The CHAMPIONSHIP game featured teams that were #7 and #11 in the polls during the regular season. Basically, the regular season meant nothing and if we went to a 16-game football format, would a battle between the #7 and #12 teams really be a title game?

The one thing I love about college football is of all the sports, college or pro, the REGULAR SEASON in college football is the one that MEANS THE MOST. You might be able to stay alive in the overall chase if you lose ONE regular season game, but two losses will most likely, and should, eliminate you. That means the games in September, October and November are just as critical as the bowl games if you want to have a shot at the National Title. No other sport with an expanded playoff system can say that. College basketball's regular season big games really mean ABSOLUTELY nothing, as it only matters what you do in the tournament. If the #1 team loses in college basketball it means nothing, as they will still be in the NCAA Tournament at the end of the year and it only matters what you do in those final 6 games.

The current BCS bowl method of determining the National Champion also has its flaws. In 1998 the best team in the country did not get to play for the title but my system would have had them in the title game. For a complete year by year list dating back to 1997 check out PhilSteele.com and go to my June 27th blog and I will have this article in its entirety, also check out the next page for a thumbnail capsule for any years not mentioned.

In 2000 Florida St faced Oklahoma but both Miami, Fl and Washington fans said they should have been the challenger to undefeated Oklahoma. Miami beat Florida St straight up, while Washington beat Miami straight up. They each had legitimate claims, as both faced tough schedules and had just one loss. Two other teams that finished 10-1 did not have legitimate claims. Oregon St only had one win over a final Top 25 team all year (Oregon). The same can be said for Virginia Tech, who did not defeat a single team ranked in the Top 25 and lost to Miami by 20.

In 2001 Nebraska suffered its first loss of the year at Colorado by a 62-36 margin in their season finale. Miami, Fl went undefeated and indisputably deserved the title game bid. After Florida, Tennessee and Texas all fell by the wayside, Nebraska (controversially, by the BCS formula) got the call to face Miami, while Oregon and Colorado complained loudly that they were the ones who deserved a shot. Had Nebraska defeated Miami, the AP voters would likely have voted the Oregon/Colorado Fiesta Bowl winner the National Champ, showing a great deal of sentiment that those two teams deserved a shot at the title. My proposed system would have allowed both Oregon and Colorado to play for the title, along with Nebraska and Miami.

In 2002 it was a dream come true for the BCS, as there were just two unbeaten teams at season's end and they met in the Fiesta Bowl to determine the true National Champion. Ohio St beat Miami in double overtime. There were no arguments from anybody for the first time in BCS history!!

The 2003 season would have been perfect for my system, but we ended up with a split National Title and the #1 team in both polls NOT playing in the National Title game. Three teams had legitimate claims to appear in the National Title game (once again showing that 8 or 16 teams is unnecessary) and Michigan made a nice pick for the #4 spot. Had my system been in place, the teams would have played just like they did in 2003, but one or two weeks later. LSU would have faced USC and it would have been a true National Title game with NO DISPUTES from anyone!!!!

Once again, in 2004, there were three teams that could have argued for a spot in the National Title game. Auburn plays in the rugged SEC, who not only went undefeated, but also won the SEC Title game and yet did not get a chance to play for the title. There were a couple of other unbeaten teams at the end of the year, but about 15 teams in the country would have had unbeaten records playing their schedules, so they had no real argument. All teams with one loss had no argument. The bottom line is, as long as the Top 3 got in, it did not matter who the #4 team would have been.

As you can tell, I feel the best team in the country did not win the National Title numerous times the last 13 years. The title game foes were controversial in 10 of the 13 years with two split National Titles. I really think a BCS conference team that suffers just one tough loss, but is dominating in every other game vs a decent schedule, deserves a shot at the National Title game (unless there are two unbeaten teams remaining). I see a lot of proposals for 8 and 16-team matchups but I feel that is going too far. As I previously pointed out, there is no reason to include teams with numerous losses as if they were true National Championship contenders. If they were, they would have taken care of business during the regular season. **I also think by including teams with 2 or 3 losses in the National Championship picture you dilute the greatness of college football during the regular season. There ARE many games with National Championship implications during the regular season.** As an example, when Alabama hosts Florida this year, one may be eliminated from the championship race while the other jumps to the forefront. Why not let those games keep their "playoff-like" atmosphere, thus preserving their importance? If you expand the field to 16, you allow teams to be able to lose those big games and still look forward to the postseason and a shot at winning the title. It would take a GREAT end of the season matchup like Ohio St and Michigan (#1 vs #2 in '06) and make it less relevant. Instead of it being an all-important, destiny-changing game if both teams are in the Top 10, they would probably make the 16-game playoff whether they win or lose to each other and may even rest players for the all-important playoffs. I do not want to dilute college football during the regular season and feel only a select few who meet the challenges of the regular season deserve to be in the title chase. **I feel college football regular season games are the most important games of any sport due to their impact on the title chase.**

Here is my plan to determine the National Champ, and actually it is very close to what we have now. It should be feasible in the foreseeable future and I feel it would establish a true National Champ. This is the ELEVENTH straight year I have called for it in my magazine. To determine the National Champ, I feel they should continue with the BCS rankings and include the Top FOUR teams in the BCS chase. The two semifinal games would be played on Jan 1 and rotate as the bowls do now between the Rose, Orange, Sugar and Fiesta. The Top 4 teams in the country, according to the BCS, would be invited. If you look at the last 13 years, this would have included: No. 3 Ohio St in 1998, No. 3 Nebraska in 1999, BOTH Oregon and Colorado in 2001, #1 USC in 2003, undefeated SEC Champ Auburn in 2004, Michigan in 2006 and Texas and USC in 2008 and undefeated Cincinnati and TCU last year. In this scenario, the teams decide who is the National Champ on the field. No. 1 would face No. 4 and No. 2 would face No. 3 in the January bowls. After the first round matchups, the Championship game could be played during the bye week before the Super Bowl. This would allow the teams plenty of time for preparation and for fans to make travel arrangements, given the three to four week span. It also gives football fans something to look forward to during the week the NFL is off. It would also prevent a team like Ohio St from playing in a National Title game after not having played for 50+ days which affected their performance in both 2007 and 2008.

In this format, there would be absolutely no question, it would be a true National Title game as the Top 4 teams would be involved. In past years I have gone year by year on how my system would have produced a clear National Title game in TEN of TEN years from 1997-2006 and I list them in the box below. For a complete write-up on how those scenarios transpired check out PhilSteele.com. Here is a recap of the Top 5 teams in the country from 1997-2006 showing how the 4-team format is clearly the best:

THE CHAMPIONSHIP MATCHUPS FROM 1997-2006
ACCORDING TO MY PLAYOFF SYSTEM:

1997	#1 Nebraska (12-0) vs #4 North Carolina (10-1) #2 Michigan (11-0) vs #3 Florida St (10-1) #5 UCLA (two losses during the regular season, did not deserve to be in).	1997
1998	#1 Tennessee (12-0) vs #4 Kansas St (11-1) #2 Florida St (11-1) vs #3 Ohio St (10-1) #5 Arizona (11-1) & #6 UCLA (10-1) had solid results but played in the weak Pac-10.	1998
1999	#1 Florida St (11-0) vs #4 Wisconsin (9-2) #2 Virginia Tech (11-0) vs #3 Nebraska (11-1) #5 Michigan (9-2) had two losses.	1999
2000	#1 Oklahoma (12-0) vs #4 Washington (10-1) #2 Florida St (11-1) vs #3 Miami, Fl (10-1) While Oregon St and Virginia Tech each had just one loss they combined to beat ONE Top 25 team all year.	2000
2001	#1 Miami, Fl (11-0) vs #4 Oregon (10-1) #2 Nebraska (11-1) vs #3 Colorado (10-2) #5 Texas lost to #4 Colorado in the Big XII Title game.	2001
2002	#1 Miami, Fl (12-0) vs #4 Georgia (11-1) #2 Ohio St (13-0) vs #3 Iowa (11-1) #5 USC and #6 Kansas St both had two losses.	2002
2003	#1 USC (11-1) vs #4 Michigan (10-2) #2 Oklahoma (12-1) vs #3 LSU (12-1) The #5 and #6 seeds were not worthy - only Top 3 NEEDED to be in.	2003
2004	#1 USC (11-0) vs #4 Utah (11-0) #2 Oklahoma (11-0) vs #3 Auburn (11-0) The #5 and #6 seeds were not worthy - only Top 3 NEEDED to be in.	2004
2005	#1 USC vs #4 Ohio St #2 Texas vs #3 Penn St #5 Oregon with backup QB's was not worthy and only Top 2 really NEEDED to be in.	2005
2006	#1 Ohio St vs #4 LSU #2 Florida vs #3 Michigan #5 USC lost to UCLA in their final game or the Trojans would have been #2.	2006

I already talked about how 2003 and 2004 were PERFECT for my system. It would have produced National Title games between LSU vs USC in 2003 and USC vs Auburn in 2004 that no one could argue about. I will add one more note about the playoff formats that are being tossed around. I am hearing talk that some would like to pick the Top 2 teams AFTER the bowls are over and let them play in the National Title game. This method (which would not be #1 vs #4 and #2 vs #3) would lead to the same chaos that goes on at the end of the regular season. If the #1, #2 and #3 teams were all in different bowl games and #2 and #3 had impressive wins while #1 just barely won, then all 3 would be lobbying for a spot in the National Title game and someone would be left out again. You must play #1 vs #4 and #2 vs #3 or else the process will remain chaotic and controversial while possibly leaving some deserving teams out.

2008 would be a great example of why this would not work out. I feel after the bowls the best two teams in the country were Florida and USC and those two would have been favored over every other team. If this post bowl picking method was in place Utah would have played Florida in the "Title game" and not only would USC have been left out but Texas would have been pushed aside for a second time!

For those who complain about adding extra games, only 2 out of 120 teams would be "forced" to play in this big game and I'm sure those student-athletes would find a way to complete their studies. The 3 week layoff would probably allow enough time for any minor injuries from the January 1st bowl game to heal, yet not be as big of a layoff as the teams have now between the regular season and the bowls and it could lead to a more crisply played Title game. There would be plenty of interest in not just bowl games each year, but there would now be THREE games that would capture major ratings, as the two preliminary games would be rated higher than any current regular bowl. The other bowls would remain intact and would be a reward for teams after a solid season. We would crown a true National Champion every year and we would also insure that all of the major regular season games were played with the same importance as they are today, and the polls would stay a major interest all year.

As I mentioned in the two paragraphs above there would have been controversy after 2008 regardless of which method you used and I will add one tightener to the system to make it work out perfectly for 2008. When you look at the final BCS poll in '08 after the conference title games the first thing I thought was "What kind of strange computer ratings are they using in the BCS formula?" The 6 computer power ratings had USC at #3, #6, #6, #6, #7 and #8! My personal set had them #3 prior to the bowls but how could 5 of the 6 not have even had them in the top 5 let alone #8?? I would start with getting some solid power ratings! Using these wacky power ratings (remember USC waxed Penn St in the Rose Bowl) the top ten of the BCS formula was: 1. Oklahoma 2. Florida 3. Texas 4. Alabama 5. USC 6. Utah 7. Texas Tech 8. Penn State 9. Boise St 10. Ohio St. Using the method I proposed for 10 years it would have pitted #1 Oklahoma vs #4 Alabama and #2 Florida vs #3 Texas. That would have left my personal #3 rated team at the time USC out of the mix. Also with Alabama at #4, let's say they beat Oklahoma (a good possibility) and Florida beat Texas (a likely possibility). Who would want to see Florida, which just beat Bama at a neutral site by 10, take on the Tide AGAIN just two games later for the "National Title?" It would be anticlimactic. What if Florida was #1 and Bama was #4, my old system would have had the two playing AGAIN the next game. Didn't we just see that?

The tightener I added last year to ensure there are no rematches and also would have made sure a team as powerful as USC was not left out is this. **If a Top 4 team loses a conference title game at a neutral site to another team that is in the Top 4 of the BCS final standings, that team is eliminated. I will call this the Immediate Rematch Clause**. Let me clarify the Neutral Site aspect and immediate rematch aspect. In 2006 #2 Michigan travelled to #1 Ohio St for the regular season finale and it was a large home edge for the #1 Buckeyes. Ohio St escaped with a 3 point win. Had the game been at a neutral site perhaps Michigan would have won. They were clearly two of the top 3 teams that year and that loss would not have eliminated Michigan as it was not a conference title game and it was far from a neutral site. I know Texas beat Oklahoma on a neutral site back in October of 2008 but Oklahoma was up double digits when they lost their top LB to injury and ended up losing. Oklahoma was clearly one of the best teams in the country at the end of the year and last year if both teams had won their #1 vs #4 and #2 vs #3 match-ups, I think College Football fans would have been thrilled to see the rematch as there was a month of controversy about who deserved to be in the Big 12 Title game. I have some clear wording in my rematch clause which does not eliminate a team just because it lost its title game. I go way back to 1998. Kansas St was clearly the #2 team in the country but was upset in the Big 12 Title game. They only dropped to #4 and still deserved a shot at playing in the #1 vs #4 matchup. They would not have been eliminated as A&M (a 17 pt dog to KSt in that game) only rose to #8 and would not have been in the top 4 invoking the "rematch" part of the clause.

Using my new method in 2008 it would have been #1 Oklahoma vs #5 USC and #2 Florida vs #3 Texas and I feel USC and Florida would have met for the title game as they were the best two teams in the country.

Now let's take a look at 2009 where my plan would have been controversial regardless of the outcome as there were 5 unbeatens at the end of the year and Boise St (which beat TCU in the Fiesta) would likely have been left out. My answer to that is that the BCS got it right last year. Clearly Alabama and Texas who both went unbeaten in the toughest conferences in football and survived a championship game in their conference deserved to be in the title game. An undefeated SEC champ has to play in the title game and the Tide defeated 5 ranked foes during the year including 3 away from home. They were coming in off a win over #1 ranked Florida which was the defending National Champ. Texas did have just 3 wins over ranked foes and all were away from home. TCU beat two ranked teams and also had a victory in their pocket over Clemson in Death Valley and CU was in the ACC Title game. Cincinnati beat 2 ranked teams and both were on the road but their overall schedule was weak. Boise St beat only 1 ranked foe all year. Although it was an impressive win as they blew out eventual Pac-10 champ Oregon at home in the opener. Playing in the WAC vs teams like Utah St, New Mexico St and San Jose St pales in comparison to playing BCS foes on a weekly basis. The bottom line is whether you left Boise or Cincy out of the picture it did not matter as the two best teams (Alabama and Texas) had to be in the mix. My plan would have had Cincy at Alabama (and we saw what happened when Cincy played Florida) and TCU vs Texas. That would have been a battle although the Frogs lost to Boise St in the bowl.

The MWC has been lobbying Congress to pass legislation to get them on equal footing with the rest of the BCS conferences. TCU may not need it this year. If they win all of their games as impressively like they did last year and there is only one BCS unbeaten at the end of the year, you would have to put the Frogs in the title game. Both TCU and Boise St are loaded this year with their best teams in recent history. Last year my Power Poll had TCU #15 and Boise St #20 but both return almost their entire teams from '09. This year my Power Poll has TCU #3 talent wise in the country and Boise #7 and clearly they are worthy of a shot at the title game if they win their games impressively. My system would ensure they get that shot this year but if 2 teams like Alabama, Texas, Oklahoma, Ohio St, USC, Oregon, Nebraska or Florida run the table they would be left out. In my system, TCU would have been in the title mix last year and both they and Boise St could be this year.

THE BEST NFL PREVIEW ON THE MARKET!!

OFFENSIVE LINE - The Saints blew up the OL prior to the 2006 season allowing 3 starters from 2005 to leave via trades or FA. They lined up a new face at each position to start 2006 and the unit would go on to start 79 of 80 games together. Brees was sacked only 18 times due to a combination of getting the pass off quickly and good OL protection. The '07 season had similar results as all 5 starters returned again (77 of 80 starts) and they finished #1 in the NFL in sacks allowed with just 16. The rushing attack did go from 19th to 28th (92 ypg, 3.7), however that was likely due to the injuries suffered at RB. Four of the five starters returned last season with C Jeff Faine being the only departure. Replacing Faine was career backup Jonathan Goodwin who played relatively well despite missing 3 games with injury. The right side of the unit was stable again as RT Jon Stinchcomb and RG Jahri Evans both started every game for a 3rd consecutive year. LT Jammal Brown has started 15 of 16 games in each of the L3Y and provides solid protection for Brees' blindside (3 sacks allowed LY). Carl Nicks began 2008 as the starting LG for the suspended Jamar Nesbit. Despite Nesbit starting all 32 games from 2006-2007, Nicks showed enough ability as a rookie to hold on to the job upon Nesbit's return and will likely get the first crack again for 2009. The OL kept Brees upright for a 3rd consecutive year allowing just 13 sacks (3rd) while finishing 4th in red zone efficiency converting TD's on 38 of 62 chances. Once again due to injuries at the RB position, NO averaged just 100 ypg rushing (4.0) finishing 28th in the league. The continuity among the OL is the unit's best asset and as long as the RB's put up more serviceable numbers, the New Orleans OL should have another good year.

As you know a few years back we reached the maximum amount of pages I could put into my College Preview magazine. If I had 800 pages to work with I could put 6 full pages on each of the 120 college teams and give even more complete writeups. The GREAT thing about my NFL magazine is that there are only 32 teams to work with so 6 full pages per team only takes up 192 pages. This allows us to be as in-depth as possible on each position. We have 6 statistical areas that we compare each unit to the rest of the NFL and rank them on each page. The example on the left shows the New Orleans Saints' offensive line. We grade each OL by rush yds and ypc rushing, sacks allowed and QB hurries, starts returning from the previous year, career starts, size (height and weight) and the quality of the draft picks at the position for the 2 deep. Please check out page 325 for a complete layout of the SIX NFL team pages that we had for the Saints last year. Speaking of the Saints, my magazine was the ONLY National Preview to have them winning the NFC South with all others picking either Atlanta or Carolina. You also get my NFL Fantasy Football Guide included in the magazine making it even more valuable. The Fantasy Football Top 100 & the Top Four Impact Players for each team are must-haves for anyone wanting to win their league.

PHIL STEELE'S 2010 PRESEASON TOP 40

Here is my 2010 Preseason Top 40. Two quick notes: First of all, my preseason rankings are NOT my Power Ratings. As an example: I have Nevada 29th in my Preseason Top 40 ahead of some quality BCS contenders. However, in my Power Polls they are 45th due to playing in the WAC and they should have a good season. My Top 25 is based on where I project the teams to finish in the final rankings and these Top 25's have always done quite well. In 2002, I had Ohio St rated higher than any other preseason magazine coming into the year and they won the National Title. In 2003, my magazine (and Lindy's) had LSU rated higher than any other preseason magazine and they won the BCS Title. In 2004, I was the only major magazine to have Cal (#4 in the final regular season polls) in the Preseason Top 10! In 2006, I had the only magazine to pick Boise St in the Top 20 (I had them going to a BCS bowl) and I also had Arkansas at #13 (they finished the reg season #12) when they entered the year unranked. In 2007, I had Georgia (finished #2) rated higher than any other magazine and I also called for Hawaii (unranked) to play in the Sugar Bowl. In 2008, while Georgia was the AP preseason #1, I had them #9 and had the Florida Gators winning the title which they did. These rankings reflect not only talent, but the strength of schedule and how each team should finish the season. In 2007, 43 of my Top 46 were bowl eligible (93.5%) and in 2008, 46 of my Top 50 (92%)! Last year 45 of my Top 50 (90%) were bowl eligible at the end of the 2010 season.

1. Oklahoma – The last time the Sooners came off a 5 loss season was 2000 which is the last time they won the National Title! They have been ranked in the preseason Top 10 in each of the past 9 years but may not make it this season. While they lost 7 players to the draft including four 1st rounders, 2 of the top draftees did not really play last year. They had a banged up and inexperienced O-line last year and will be in much better shape up front. QB Landry Jones was an untested rFr in '09 and figures to be one of the best now that he has experience. All 8 units rank in my Top Individual Units in the front of the magazine. Texas is their most difficult game away from home on the schedule (neutral site) and their toughest game could be the Big 12 Title game vs Nebraska. All 9 sets of my power ratings call for an unbeaten season. They had 3 net close losses and the Sooners not only are my #1 Surprise team, they are my pick to win the National Title in 2010.

2. Ohio St – Terrelle Pryor made great strides last year and should continue to grow as a QB and leader this year. In the Ohio St QB write-up I draw some interesting parallels between Pryor and Vince Young and Young led Texas to the National Title as a junior. Like Oklahoma, all 8 of the Buckeyes' individual units rank in my Top Units in the front of the magazine. They have to play both Iowa and Wisconsin on the road but have 8 HG's. Of course, they do not have to play and win a conference title game if they go12-0. OSU has my #5 offense and #3 defense in the country and should get to their 4th title game in 9 years.

Ohio St

3. Alabama – If I was an AP voter to start the year I would have Alabama #1 and keep them there until they lose. The Tide has not lost a regular season game in the last two years. They are loaded on offense (#4 in country) with a veteran QB, the Heisman Trophy winner (RB) and one of the top WR's in the land. Despite having just 2 starters back on defense, they still have one of the top units in the country. Alabama will also be favored in all 12 games and likely in the SEC Title game as well. They have 4 tough road games this year and could end up facing a loaded Florida team twice. Their last 6 SEC opponents all have a bye prior to playing them. Add it all up and I just see them slipping up once in the grueling SEC and they did have a couple of close calls last year.

4. TCU – The Frogs may have been the best non-BCS team in each of the last 2 years but due to some close losses, have not finished in that spot ranking behind Utah in '08 and Boise last year. This team is loaded with 16 starters back and my #10 rated offense and #9 rated defense. All 9 sets of my power ratings call for the Frogs to have a perfect 12-0 year which would include wins over a couple of 2010 bowl teams from BCS conferences. They have to play Utah on the road but 6 of my 9 sets call for them to win every game by a TD or more! TCU is not just a threat to be a BCS buster but if all of the big boys have one loss, this is a team that would be worthy of playing in the National Title game and the MWC might not need an act of Congress to get them there.

5. Nebraska – The Huskers must replace Ndamukong Suh who took home almost every major defensive award in the country, but still have my #5 rated defense. Last year their offense avg just 323 ypg and yet they came within :01 of upsetting Texas in the Big 12 Title game. This year, the Huskers face my #76 rated schedule and have a much improved offense and a top 10 ST unit. They do not face any Top 25 teams on the road and 6 of my 9 sets call for a perfect season. That could set up an unbeaten showdown with Oklahoma for the Big 12 Title as they do not face each other in the regular season this year. It is year 3 for HC Bo Pelini and he has quickly put the Huskers in the national title contender's role.

6. Boise St – Boise has the most experienced team in the nation with 10 starters back on each side of the ball. Last year they finished 14-0 and #4 in the country and they are 26-1 over two years with their lone loss by 1 point! They face my #87 rated schedule and are unbeatable on the blue turf. They have to play both Virginia Tech (in Landover, MD) and Nevada on the road but are clearly one of the most talented teams in the NCAA. If they knock off VT on Sept 6th they could be heading for the title game.

7. Florida – The Gators won the National Title in '06 and '08. Last year they were 12-0 and #1 in the country but lost the SEC Title game before walloping Cincy in the Sugar Bowl. Tim Tebow and all of his heroics are gone but John Brantley actually improves the pass attack. The rush totals obviously will not be as strong. Florida had the most points lost in my NFL Draft Day Party Hangover article (pg 308) but despite having just 5 starters back on D the Gators have my #7 rated defense. The schedule is not easy as they face Alabama, Georgia and Florida St all away from home. If they beat Bama Oct 2nd, Florida would likely have to play them again in the SEC Title game, making it a tough road to the National Title game.

8. USC – The Pac-10 is a very balanced league and it is quite possible by year's end that the league champ could have a couple of losses. That makes it scary putting a couple of Pac-10 teams in my Top 10. USC has the large advantage of hosting Oregon on Oct 30th. If Pete Carroll was the HC this year I think USC would be a Top 5 team as there are question marks about new HC Lane Kiffin. There are no question marks about the talent, though. They had a true frosh QB last year and a hellacious road schedule but they now get their toughest foes at home. Their D is much more experienced and USC looks like a top 10 unit once again.

9. Miami, Fl – The "U" could finally finish back in the Top 10 for the first time since 2003. They play in the tough ACC Coastal Division but get key games vs NC and VT at home. Miami has my #6 rated defense and QB Jacory Harris has my #8 set of receivers to throw to. They have to play Ohio St and Georgia Tech on the road but are my pick to be the ACC champ.

10. Oregon – With Jeremiah Masoli, the Ducks would have been a preseason Top 4 team but without him they dropped to #10 in most polls. I think his replacement will do well and feel they are a stronger team than the '09 version, which was young along both lines. UO still won the Pac-10 and finished #11. They did get USC, Cal and Ore St in Autzen last year and now have to go on the road vs all 3 but this team should be 7-0 and very confident when they head into USC on Oct 30th. A win there and solid play from their QB would put them in the national title picture.

11. Texas – The Longhorns are once again one of the most talented teams in the country and also have my #1 rated defense in the country so it is tough to pick them here. They do face my #5 team Nebraska in Lincoln and my #1 Oklahoma in Dallas, but will be a solid favorite in all of the rest of their games. They lose a 4 year starting QB, their top WR and have not really had a feature RB since Jamaal Charles ('07), so there are some questions on the offense. Despite being ranked outside of the top 10, they are a National Title contender.

SLB Keenan Robinson

12. North Carolina – I was talking to Mel Kiper about the 2011 NFL Draft and after he mentioned yet another NC defensive player, I asked, "Is there anyone on the NC defense that is not a top NFL prospect?" I asked the same question when I talked to Gil Brandt. If they play up to their talent level they should lead the NCAA in scoring and total defense (I rate them #2). They have 10 starters back on offense and should be improved after not topping 325 ypg in FIVE years. They do have to play Miami, LSU (in Atlanta) and Florida St away from home but their defense is nasty.

13. Virginia Tech – VT may have the best backfield in the country with QB Tyrod Taylor and a pair of 1,000 yd backs. Bud Foster will always have one of the best D's and Frank Beamer will have a great ST's unit and overall squad. If they can get past my #6 Boise St team in the opener, VT could open up 9-0 and be ranked in the top 5 in November but they must face Miami and North Carolina (#9 & #12) in B2B weeks on the road. Another top-notch ACC Coastal team.

14. Iowa – The Hawkeyes defense shut down a potent GTech offense in the bowl allowing just 9 FD's and DE Adrian Clayborn turned down the NFL and joins 7 other starters back on my #8 rated D. QB Ricky Stanzi won every game he started and finished in '09 and they get their toughest foes (Ohio St, Wisc) at home. A Big Ten co-favorite.

15. Auburn – HC Gene Chizik was 5-19 with overmatched talent at Iowa St but with solid talent here went 8-5 LY with a New Year's Day bowl win. OC Gus Malzahn has an excellent QB and skill players to work with and my #5 rated O-line. The D was thin LY, but now has better depth. My main set of power ratings calls for them to be 11-0 when they travel to Alabama on Nov 26th.

16. Notre Dame	HC Brian Kelly gets the most out of the talent on hand. He is the first coach in the history of my magazine to have his team finish higher than I projected them in SIX straight years (incl 3 conf titles). He inherits a lot of talent that underachieved last year and my main set of power ratings calls for an 11-1 season (PR avg is 9 wins).
17. Arkansas	The Hogs have my #2 rated offense with QB Ryan Mallett and my #1 set of receivers in a pass happy offense. Their defense was on the field a lot LY because the offense scored quickly. The overworked defense allowed 401 ypg and is improved w/7 starters back. Three of my sets of power ratings call for a 12-0 perfect season (see Surprise Teams pg 20).
18. Penn St	No team has ever had to travel to face 3 teams that each won a BCS bowl the previous year (#1 Bama, #5 Ohio St, #7 Iowa)! Despite having just 5 starters back on D they still have my #11 defense and RB Evan Royster will lead a solid offense. Those 3 aforementioned teams better not take them lightly.
19. Georgia	My talent ratings have the Dogs at #12 and while they play SC, Florida and Auburn all away from home, they are capable of winning each. They do had a first time starter at QB for a second straight season, but should get improved play there. They only face my #44 schedule. Check out my Surprise Teams article.
20. Florida St	Usually it is a tough gig when you have to replace a coaching legend but Jimbo Fisher actually steps into a good situation here. The defense was horrific LY allowing 435 ypg and has too much talent not to be vastly improved. QB Christian Ponder was having a great '09 until being injured and he's back. FSU has not finished in the Top 20 since 2004.
21. S Carolina	This could finally be the year Steve Spurrier returned to the SEC for. SC does play the 2nd toughest schedule in the country or I would have ranked them higher. SC has my #13 rated defense and a top 25 offense and the SEC East is winnable for them despite drawing Bama from the West. Now if Spurrier could just get solid QB play.
22. West Virginia	I do not have WV winning the BE outright and yet I rank them the highest in the Big East. They will be explosive on offense and I have their defense rated #18. They have to play Pitt and LSU on the road but actually made my Surprise Team list (National Title contender) as they are capable of winning those.
23. Wisconsin	The Badgers could enter the season in the AP Top 10 (I project them #11). Many of my sets of power ratings have them slightly ahead of Iowa but they play the Hawkeyes on the road and have Ohio St in Madison. They avoid Penn St but the Michigan and Michigan St road trips will be tougher than most expect.
24. Houston	My friend Erik Kuselias of ESPN has Houston as a team which could run the table this year and end up in a BCS bowl. His main reservation is the offensive line (my #34) which was spotty in the spring. They have winnable road games vs a couple of BCS teams (won 2 such gms LY) and welcome back QB Case Keenum and three 1,000 yard receivers.
25. Arizona	The Wildcats are a legitimate Pac-10 contender (of course 8 tms are). They have my #20 rated offense and the defense is still strong despite having just 4 starters back. They could make a lot of noise but face Iowa and USC at home.
26. LSU	The talent is there for LSU to contend for the SEC West Title and even knock off Alabama at home. They do play SIX teams in my Top 25 (#10 schedule) and only have 10 returning starters. Keep in mind LY they went 9-4 but were outgained on the year 328-305. They have my #19 rated D and a lot of VHT's on offense.
27. Pittsburgh	Once again these are my year end rankings. I have Pitt winning the Big East beating WV at home which would give them the tie-breaker. They have just 11 ret starters but have to face Utah and ND on the road and Miami, Fl at home. If they do win the BE, I have them playing Nebraska in the Fiesta Bowl.
28. Utah	Two years ago I had the Utes going to a BCS bowl when most did not have them winning the MWC. A key was that they got both TCU and BYU at home and that is the case again this year. They also get Pitt at home and a sweep would equal a BCS bowl again. They do have just 12 ret starters but may have the best backfield in the MWC.
29. Nevada	The Wolf Pack get the WAC's key game vs Boise at home and has a pair of 1,000 yard rushers in the backfield including QB Colin Kaepernick. Six of my 9 sets of power ratings call for a double digit win season.
30. Boston College	The Eagles will be much stronger on offense and if LB Mark Herzlich comes back at even 90% they will have a dynamic LB corps and a shot at the ACC Atlantic division. Six of my 9 sets of PR's call for a DD win season.
31. Temple	The Owls took everyone by surprise (except me) last year getting to a bowl and this year they are clearly the class of the MAC. Even with Penn St on the schedule 7 of my 9 sets of PR call for a DD win season.
32. Middle Tenn	HC Rick Stockstill has his best team yet with just 14 lettermen lost from last year's 10-3 squad which beat SM in the bowl. They could top LY's 10 win total as 8 of my 9 sets of PR's call for an 11-1 season (lone loss to GT).
33. Georgia Tech	I undervalued GT LY and paid the price as they not only won the Coastal, they won the ACC Title outright. This year they play Clemson, VT, NC and Georgia all on the road and Miami, Fl at home. A tough schedule but they have 14 ret starters and could make me pay again for picking them 4th in the Coastal this year.
34. Stanford	The Cardinal lost RB Toby Gerhart but still rank in my top 20 talent-wise and are a threat to win the Pac-10 led by QB Andrew Luck who NFL scouts have at the top of their charts. Three of my 9 sets of PR's call for 11 wins.
35. Michigan St	I think HC Mark Dantonio has done a great job with the Spartans and this figures to be his best team yet, thanks in part to Big Ten Def POY Greg Jones who turned down the NFL.
36. UCF	The Knights lose just 12 lettermen and have 15 starters back from last year's bowl squad. Eight of my 9 sets of power ratings call for the Knights to roll to a 10-2 season and play in the CUSA Title game.
37. Michigan	The Wolverines had 40 straight years of non-losing seasons but now have had two losing years in a row. This will be a much improved team as the D has been historically bad the last two years but has 8 starters back. The offense had two true frosh QB's running it in '09 and they now have experience. Three sets of my power ratings call for a 9 win year.
38. Oregon St	HC Mike Riley is one of the few coaches who confounds me every year with his team usually finishing higher than I forecast. They take on the 6th toughest schedule in the country and that is the main reason I have them all the way down here, despite ranking in my Top 25 of the Power Poll.
39. Texas A&M	The Aggies were an afterthought in '09 with many including myself picking them LAST in the Big 12 South, but they made a bowl. With an improved D and explosive offense led by QB Jerrod Johnson, they continue to move up.
40. Missouri	I thought that '09 would be a rebuilding year for the Tigers, but they still made it to a bowl thanks to the emergence of QB Blaine Gabbert. They draw 3 tough teams out of the Big 12 South but have 16 ret st'rs and are stronger.

SEC NOTES: The SEC has dominated college football and is an automatic answer when anyone asks me what the best conference is. In 6 of the last 10 years a 1st or 2nd year coach has made it the SEC Title game. Last year 3 new HC's joined the league with none ever having led a team to a winning college season as a HC, yet two accomplished that and Dan Mullen almost did at Miss St. This year 2 new HC's come in. The SEC has now won FOUR straight National Titles and both Alabama and Florida will be in everyone's preseason top 5. In 2008 the Big 12 was a close 2nd as the SEC was just 6-9 during the regular season vs other BCS teams (7th best) but they went 6-2 in the bowls. Last year it was not close as the SEC was 15-8 65% vs BCS conference and no other league topped 50%. It was the most impressive display since I have been charting it. A 6-4 bowl season and 4 Top 25 teams cemented it as did 49 NFL draft picks (15 more than runner up Big Ten). The top two teams in the country played in the SEC Title game last year and I have projected the same two to meet again this year. The big question is can the SEC make it 5 straight National Titles?

PHIL STEELE'S 2010 SEC FORECAST

SEC WEST

1. ALABAMA - Last year Bama had just 4 returning starters on offense yet improved from 30.1 to 32.1 ppg. This year they have just 2 returning starters on D but will they improve on that side of the ball? This is a Tide team that will be favored over every team they face but they do draw Florida and South Carolina (on the road) out of the East and their final 6 SEC opponents of the season all have a bye prior to facing them. Still, Bama should get to their 3rd straight SEC Title game and once again appears to be the best team in the best league in football.

2. AUBURN - The Tigers were coming off a rare losing season but had a bowl win LY to finish 8-5. They return 15 starters and have a better schedule than Arkansas as they get 4 key SEC games at home. If they take care of business at home this team could very well end up 11-0 prior to its battle vs Alabama despite losing its QB and RB. An improved defense and capable offense have the Tigers near the top.

3. ARKANSAS - Frankly this #3 spot surprises me in my forecast for the Hogs. My initial reaction after last season is that they would have one of the best offenses in the country led by QB Mallett and a much improved defense. Two of my 9 sets of power ratings do call for Arkansas to go 12-0 this year and that would include an upset of Alabama at home. Unfortunately in the SEC they have to play Auburn, South Carolina and Georgia all on the road and keep in mind they were +15 in TO's last year. This team with 17 returning starters is still a legitimate contender in the SEC West.

3. LSU - LSU has just 10 returning starters this year and last year actually had the 4th worst ypg in conf play at -33.4. Did you know LSU is only 8-9 in the last 17 reg season SEC games? This is a very good LSU team and one capable of easily finishing higher but they do draw Florida out of the East and also play Auburn and Arkansas on the road. The talent is there and they host Alabama and LY they were very banged up at RB. LSU is a contender in the West despite being #106 in my experience ratings (see page 311).

5. MISSISSIPPI - This year the Rebels have just 10 starters back and their 27 lettermen lost are tied with UK as the most in the SEC. Houston Nutt's teams always play better when expectations are low and they will not be ranked to start the year. Fortunately for them they also draw the most favorable schedule of the West teams as they are the only one to avoid Florida, Georgia and South Carolina, the top 3 teams of the East. They also get Miss St at home and despite not being as strong as LY, it should be another bowl season for the Rebels.

6. MISSISSIPPI ST - MSU did better than I thought they would last season as they had just 10 returning starters and only 59% of their lettermen returning. They outplayed LSU with a 374-263 yard edge but came up inches short on 4th down at the end. They manhandled rival Ole Miss at home in the season finale to give them momentum. This year's squad is stronger as they have 14 returning starters and 77% of their lettermen back and are now in the 2nd year of Mullen's schemes. They do draw a much tougher schedule than Mississippi with trips to LSU, Florida, Alabama and Ole Miss. Despite finishing 4th in the SEC West last year they were also tied for the basement and with their schedule it will be tough to escape it.

SEC EAST

1. FLORIDA - The Gators figure to have a much different offense this year relying more on the pass with QB Brantley. Surprisingly last year's offense avg "just" 35.9 ppg, a drop of over a TD per game from '08. The D goes from 11 returning starters to 5 but still looks like the top D in the SEC. The Gators draw a road trip to Alabama out of their Western games but host South Carolina, play Georgia in Jacksonville and still rank has my favorite to take home the SEC East Title.

2. GEORGIA - Mark Richt's seat is starting to get a little warmer as they have not been to the SEC Title game since 2005 and after #2 and #13 AP finishes in '07 and '08 they were unranked at the end of last year. They had a 1st time starting QB in '09 and have one again this year but also have my #1 rated O-line and their RB's and WR's both are my #2 rated units in the SEC (WR's #2 NCAA). The fans clamored for a new DC and they have one and should improve on their 25.9 ppg allowed last year. They also have my #1 rated ST's in the SEC. They do play Florida, South Carolina and Auburn all away from home.

2. SOUTH CAROLINA - This could be the year that Steve Spurrier envisioned when he came to Columbia. The Gamecocks have 16 returning starters and are one of the top teams in the SEC. They have my #3 rated D and lose just 11 lettermen. They have not caught a lot of breaks in the last 3 years. This year they do have to play Florida on the road and draw Bama from the SEC West but it would not surprise me if Spurrier had the team in the SEC Title game and they even made it as one of my Surprise Teams (see page 20) this year despite facing the 2nd toughest schedule in the country.

4. TENNESSEE - I've had a very good pulse on UT throughout the years and called for them to finish lower than everyone else in both '05 and '08 despite the fact that they were ranked #3 and #18 in the preseason poll those years. Last year they made my Most Improved List which meant I thought they would go from a losing season to a bowl. The Vols did not disappoint. They now have their 3rd HC in just 3 years and there's been plenty of attrition in the program the last 2 years making them a depth-shy squad. While the Vols will likely start out 2-6 overall and 0-5 in the SEC, they could sweep the month of November and possibly make it back to the postseason.

5. KENTUCKY - The Cats are actually 8-16 in SEC play the last 3 years despite the fact that they have been to 3 straight bowl games. This year they have just 11 returning starters and their 27 lettermen lost are tied with UM for the most in the SEC. The Cats last finish in the upper half of the standings of the SEC East was 2006 and I don't foresee it happening this year. The Cats were -90.4 ypg in SEC play in '09 and despite this forecast I think they have a shot at ending their 25 game losing streak in the series to Tennessee.

6. VANDERBILT - The Commodores have just 11 returning starters and lose 26 lettermen (2nd most SEC). One of their 4 SEC HG's is vs Tenn and the Vols should have the crowd edge in that one plus they must face Kentucky on the road. The fans' expectations were raised after their bowl of 2008 but were crushed with their 0-8 SEC record last year. The '09 squad was -152.4 ypg which was 62 ypg worse than the #11 team and it should be a 2nd straight finish in the basement.

2009 SEC vs SEC OFFENSIVE TEAM STATS

ALABAMA CRIMSON TIDE

POSITION OUTLOOK FOR 2010

QUARTERBACKS - In 2006 the Tide had to replace Brodie Croyle (#3DC KC) who left as Bama's career leading passer. John Parker Wilson (PS#31) started the next 3 years and became Alabama's all-time leader in total offense. JPW was one of 5 finalists for the Johnny Unitas Award (in '08) as he threw for 2,273 (58%, 10-8). Greg McElroy (PS#27) played in 6 (8-11 for 123). Last year McElroy was the clear-cut starter beating out Star Jackson (6'3" 209 So, PS#14), Morgan Ogilvie (6'0" 198 Jr, PS#154) and true frosh AJ McCarron (PS#9). In the first 5 McElroy completed 66% with a 9-1 ratio but then struggled midyear. He was struggling vs Auburn but led the game winning drive (7-8 63 yds) and was a different QB vs Florida earning MVP of the SEC Title game (12-18-239). In the bowl vs Texas he hit just 6 of 11 for 58 yards but for the season threw for 2,508 becoming the first Tide QB to complete over 60% since Jay Baker ('94) with 60.9% and an outstanding 17-4 ratio. Jackson played in 5 (13-18-116). McElroy (incl HS) is now 30-0 as a starter. They started getting McCarron ready for duty at the end of last year (still RS) and he is #2 out of spring. McElroy should have the best Tide QB numbers in years as a senior.

RB Mark Ingram

RUNNING BACKS - Kenneth Darby led for 3 straight years topping 1,000 in both '04 and '05 (835 in '06). In '07 he had to be replaced (#7DC) as well as 2 outstanding FB's. Glen Coffee (PS#62) had 179 (3.7) in '05 (RS '06). RFr Terry Grant (PS#31) had 483 in the first 4 in '07 but then was hampered by a hip inj. He still led with 891 (5.0) while Coffee added 545 (4.2). Grant is more of a speed back and Saban preferred powerbacks in '08 (Grant 35 att). Coffee led with 1,383 (5.9) and 215 lb true frosh Mark Ingram (PS#66) added 728 (5.1). Last year they lost Coffee (#3DC SF) but added PS#2 true frosh Trent Richardson. Ingram outperformed expectations becoming the first Alabama player to ever take home the Heisman Trophy. He set the school's single season rushing record with 1,658 (6.1, 17 TD) and was the #3 rec (334, 10.4). Ingram was on the cover of *SI* prior to Auburn and injured his hip (16-30, ssn low) but generally had his best outings in the biggest games. There was little dropoff when Richardson was inserted and he rushed for 751 (5.2). Roy Upchurch had 299 (6.2) and got the game winning TD vs Auburn. Grant rushed for 166 (4.2). This year they lose Upchurch (1 st) and Grant but this is the top RB corps in the NCAA. Not in the PSL are Eddie Lacy (6'0" 212 rFr, PS#27), Demetrius Goode (5'9" 220 Jr, PS#79), and FB Jeramie Griffin (6'2" 232 Jr, PS#28).

RECEIVERS - In '08 Alabama had to replace their top 3 rec's and the top returnee was Mike McCoy (PS#46, 207, 7.4). True frosh Julio Jones (PS#1) was by far the team's go-to threat leading with 924 (15.9) with over 4 times the yds as #2 WR McCoy (191, 11.9). TE Nick Walker was #2 with 324 (10.1) and Marquis Maze (PS#40) added 137 (12.5). Last year Jones was injured early and in the first 7 had just 13 rec's but over the last 5 (reg ssn) he had 27 and led again with 596 (13.9). Maze was #2 with 523 (16.9) and GT transfer TE Colin Peek (11 st GT '07) had 313 (12.0) despite missing most of 3 games. This year they lose McCoy (149, 14.9, 1 st) and Peek (12 st). Not listed in the PSL are Kevin Norwood (6'2" 187 rFr, PS#42), Rob Ezell (5'10" 172 Sr), Kenny Bell (6'1" 172 rFr, PS#32), Hardie Buck (5'9" 184 So), Nick Williams (5'10" 179 rFr), HB Mike Marrow (6'2" 235 rFr, PS#90) and TE Chris Underwood (6'4" 238 Jr). Provided Jones stays healthy, this looks to be a much upgraded group.

OFFENSIVE LINE - In '08 they only had to replace one OL starter and they were a downhill blocking team with a downhill runner in Glen Coffee and the numbers improved to 185 ypg rush (4.6) with 25 sks (7.5%) allowed. The unit actually had two 1st Tm AA in C Antoine Caldwell and LT Andre Smith. They struggled in the bowl with Smith susp'd (31 yds rush, 0.9, 8 sk). Having to replace Caldwell and Smith and another starter last year, there were questions about this unit. LG Mike Johnson earned 1st Tm AA and the numbers surprisingly improved to 215 ypg rush (5.0) with 20 sks (5.8%). This year they lose Johnson (14 st, 3Y st'r, #3DC ATL) and RT Drew Davis (14 st, 2Y st'r). All 5 st'rs are VHT's (8 of top 10 ret), so despite losing their top guy, this unit is more experienced.

DEFENSIVE LINE - The Tide switched from a 4-3 to a 3-4 in '07 (2 st'rs ret) and improved to 124 ypg (3.4). In '08 they had to replace a 1st Tm SEC DE but also got the large (literally) addition of PS#2JC Terrence Cody (365 lb). The Tide allowed just 74 ypg (2.7) their best total since 1999. Last year they had to replace one starter but Cody turned down the NFL and they allowed just 78 ypg (2.8) with 32 sks. This year the losses are heavy as they lose 1st Tm AA NT Cody (14 st, 28 tkl, 6 tfl, #2DC BAL), DE Brandon Deaderick (10 st, 23 tkl, 3.5 tfl, 1 sk, #7DC NE) and DE Lorenzo Washington (14 st, 21 tkl, 2 sk). The returning players have just 6 career sts comb (7 sks, 14 tfl). DE Marcell Dareus knocked Texas QB McCoy out of the bowl and is an AA candidate. Not in the PSL are William Ming (6'3" 263 rFr, PS#37), David Blalock (6'5" 245 Jr), Undra Billingsley (6'2" 269 So), Milton Talbert (6'4" 271 Sr) and Glenn Harbin (6'5" 260 So, PS#68). I have no doubts that Saban will field another dominating D-line but this unit is clearly less experienced than their outstanding '09 version.

LINEBACKERS - After having an inexp'd LB corps in '08, the entire unit was expected to return in '09 but they lost 2 of their top LB's as Brandon Fanney (14 st '08) was dismissed in Aug and Dont'a Hightower was inj'd after 4 sts. They still had Rolando McClain who won the Butkus Award (SEC DPOY). Jerrell Harris (susp 1st 6) had 3 tkls. This year they lose MLB McClain (1st Tm AA, #1 tkl'r, 14.5 tfl, #1DC OAK), JLB Eryk Anders (12 st, #4 tkl'r, 6 sk) and SLB Cory Reamer (7 st, #5 tkl'r, 7 tfl). They started a NB 10 times LY, so this year a total of 7 starts return but Nico Johnson (PS#5) had 28 tkl as a true frosh and Harris and Hightower should be around all year. Not listed below are Drew Bullard (6'3" 232 Jr) and Rowdy Harrell (6'0" 213 Jr, PS#419). This is another quality unit, just less experienced.

DEFENSIVE BACKS - Saban's first DB unit only finished #40 in my PDR. Saban spends a lot of time coaching DB's and is normally harder on the DB's than any other players. They had to replace 2 st'rs in '08 and moved up to #17. Last year they had to replace a #3DC but had 7 of the top 8 back and the Tide moved up to #2 (46.8%, 11-24). SS Mark Barron led the SEC with 7 int's. This year they lose 1st Tm AA CB Javier Arenas (13 st, 71 tkl, 5 int, 5 pbu, #2DC KC), 3rd Tm SEC CB Kareem Jackson (14 st, 49 tkl, 1 int, 13 pbu, #1DC HOU), FS Justin Woodall (14 st, 45 tkl, 3 int, 5 pbu), NB Marquis Johnson (10 st, 29 tkl, 1 int, 17 pbu, #7DC STL), Tyrone King (18 tkl, 1 int), Ali Sharrief (1 st, 21 tkl), Robby Green (6 st, 33 tkl, inelig '10) and Chris Rogers (11 tkl). Naturally all 4 proj'd st'rs are VHT's and they add true frosh DeMarcus Milliner (PS#4), John Fulton (PS#10, IFS) and LSU transfer Phelon Jones (PS#19). Not in the PSL are Will Lowery (5'9" 188 Jr, PS#443) and Tyler Maddox (5'10" 191 Jr). This unit is a lot less exp'd.

SPECIAL TEAMS - In Saban's first year everyone ret'd and they moved up to #17 (#34 '06) in my special teams rankings. K Leigh Tiffin, who struggled as a true, hit 25 of 34 FG's (two 50+) in '07. Javier Arenas was dangerous on returns (24.3 KR, 15.4 PR). In '08 Tiffin hit a 54 yd FG which was 3rd longest in school history (his father has record-57). The unit did have some breakdowns (KR/PR TD's, blk'd punt) but still finished #37. Last year their two stars were back and Tiffin set school records for FG's in a season (30) and in a career (83). Tiffin also had 14 TB's on 94 KO's. Punter PJ Fitzgerald avg 41.5 (34.7 net). Arenas set the SEC record (Vandy's Lee Nalley's 1695, '47-'49) for career PR yards (9 short NCAA rec, Wes Welker TTech '00-'03). He avg an outstanding 15.4 on PR's and 29.0 on KR's. The Tide did allow a couple of KR TD's including Miss St's 212 KR yd (35.3) performance. UA finished #36 but with the loss of two career leaders and their P, they figure to drop some.

COACHES - Nick Saban took LSU to a National Title in '03 and spent '05 and '06 as HC of the Miami Dolphins. He guided the Tide to their 13th National Title in his 3rd year here certainly earning his 4 mil paycheck. In 14 yrs as a college HC, he's never had a losing season and has been named National COY 3 times. OC Jim McElwain was the Oakland Raiders' QB coach in '06 and the Fresno St OC in '07 prior to coming here in '08. Kirby Smart was promoted to DC in '08 and won the Broyles Award in '09. Smart turned down an offer to return to his alma mater Georgia as the DC this offseason.

PHIL'S FORECAST

Nick Saban inherited an Alabama squad that had 1 winning season the previous 4 years. In his first year ('07) they had 14 ret st'rs and opened 6-2 but finished just 7-6 needing a 30-24 win over Colorado (Indep Bowl) to pull out a winning season. In my '08 SEC Regional magazine, my Best Case/Worst Case Scenario said that they could have been 13-0 as all 6 losses were by 7 or less. A surprising note heading into '08 was that Bama had B2B winning seasons just twice since Gene Stallings departed in 1996. They had just 12 ret st'rs plus a tough schedule that featured road games vs GA, Tenn, LSU, Ark and †Clemson. It looked like the Tide was a year away from contending for the SEC West. They had just 9 scholarship seniors (tied fewest FBS). Surprisingly the Tide won the SEC West while moving to #1 in the polls at the end of the regular season. Saban was named the AP COY. Bama was #1 in the regular season for the first time since 1980. At 12-0 they played Florida in the SEC Title game losing 31-20 and then a disappointed Bama team was a no-show in the Sugar Bowl (Utah outgained them 349-208). Last year they had to replace their starting QB and top RB and had just 4 st'rs back on offense. Surprisingly the offense was more potent as they went from 356 ypg to 403 ypg (best since '02). The Tide opened with a 498-155 yd edge vs VT but surprisingly the game was close in the 4Q and they only won by 10. They survived a road trip to #20 Ole Miss and after an unimpressive win vs SCar, had the ball with a 9 pt lead in the 4Q vs Tenn but needed 2 blk'd FG's to escape with a 2 pt win. They had a 452-253 yd edge in their 24-15 win over LSU at home. With the SEC Title game on deck, Auburn was off a bye and had a great situational advantage and took the Tide to the wire (Aub led 14-0 2Q). First year starting QB McElroy guided the team to the game winning TD with 1:24 left. Alabama then thrashed Florida in the SEC Title game. Against Texas they trailed 6-0 when QB McCoy was knocked out of the game. Despite being outgained 276-263 and only leading 24-21 in the 4Q, they came away with a 37-21 win and their first National Championship since 1992. Alabama also had their first EVER Heisman Trophy winner. Bama did benefit from +19 in turnovers and had beneficial offensive and defensive ypp (see pg 299). They were +95.4 ypg in SEC play (2nd best) but this year do have just 2 ret st'rs on defense. The year after Saban won the title at LSU his Tigers went 9-3 (finished #16). Bama has been undefeated in the reg season 2 straight years but each of their last 6 SEC foes in '10 have a bye prior to playing them. They have to play LSU, SCar and Ark on the road. They also get Penn St and Florida at home and then the SEC Title game. They will still likely be favored in every game and will be AP preseason #1.

AUBURN TIGERS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - When former OC Tony Franklin took over prior to the '07 bowl, he played true frosh Kodi Burns (PS#17), who rushed 13 times (69 yds, 1-4 pass). In '08, looked like Burns was the perfect fit for the Auburn spread offense. They added Chris Todd (PS#37) who had played in 5 in TT's spread offense in '06 (25-35-241). Todd had a sore shoulder in the spring so Burns was the leader. Burns started the opener but was injured and Todd started the next 5 (better passer). Burns started the last 6 when they went back to more of a run-based offense (Franklin fired). Burns threw for 1,050 (53%, 2-7, #2 rusher). Todd threw for 903 (55%, 5-6). Neil Caudle (PS#14) had 5 pass att. Last year all 3 ret'd and I said they could only improve upon '08's 54% and 7-13 ratio. Burns moved to WR and 3rd string QB Barrett Trotter (PS#44) suffered a torn ACL. Todd finished with a school record 22 TD passes (20, Pat Sullivan, Jason Campbell). Todd also broke Campbell's single gm comp % record vs Furman hitting his first 14 passes (17-18). Todd threw for 2,612 (60.4%) with an outstanding 22-6 ratio. Caudle played in 5 (170 pass yds). Wildcat QB Burns hit 5-15 pass and rushed for 175 (3.1). This year they lose Todd. Caudle is 6'3" and a rhythm QB with a very good arm. He'll have to beat out Cameron Newton (orig signed at Florida, 6 gm there) who led Blinn JC to a Title LY. Tyrik Rollison (6'0" 194 rFr, PS#7) is a good fit for the offense but was not with the team in spring and is expected to transfer over the summer. Clint Moseley (PS#40) and Trotter are also in the mix. Despite the loss of their starter, this unit has almost equal the experience and could actually have improved numbers.

RUNNING BACKS - In 2004, Auburn had the best set of RB's in the country in Cadillac Williams and Ronnie Brown who combined for over 2,000 yards rushing and were both taken in the first five picks of the '05 draft. In '05, Kenny Irons rushed for 1,293 (5.1). Irons was leading the SEC in '06 but missed 4 and finished with 893 (4.5). True frosh Ben Tate had the best ypc of the backs (392, 7.3). In '07 they had to replace Irons but added Mario Fannin (PS#16). Tate led with 903 (4.5). In '08 Tate led again but with just 664 (4.2) while Fannin had 238 (4.4). The Tigers' 137 ypg rush was their lowest since 1999. Last year Tate rushed for 1,362 (5.2). True frosh Onterio McCalebb (PS#69, tm's fastest) became the first Auburn frosh with 100 yards (148) rushing in the opener since Bo Jackson ('82). In game 2, McCalebb and Tate became the first Auburn duo to rush for B2B 100 yd games in school history. McCalebb was inj'd in the 2Q vs Ball St, and was really not 100% afterwards (miss 2). He was #2 with 565 (5.4). Fannin rushed for 285 with an impressive 8.4 ypc. This year they lose Tate (#2DC HOU) but joining McCalebb and Fannin will be Dontae Aycock (5'10" 218, rFr, PS#51) who was impressive in practices and PS#2 Michael Dyer. Not in the PSL are Davis Hooper (6'0" 207 Jr) and LaElice Crayton (5'9" 210 Sr). This looks like a very talented unit once again and RB coach Luper predicted a 1,000 yd season for Fannin.

RECEIVERS - In '08 the top 2 rec's combined for just 609 (11.3). Tim Hawthorne was the top WR returnee with 203 (25.4). 6'3" soph Darvin Adams (PS#67, 3 rec true) led with 997 (16.6) and 10 TD's. Terrell Zachery (PS#18) was #2 with 477 (18.3) and TE Tommy Trott (PS#6) had 144 (13.1). DeAngelo Benton (PS#3, 21 yr old true) had 88 yds vs Furman but none in any other game. This year they lose TE Trott (10 st) and Hawthorne (1 st). Not listed below are Philip Pierre-Louis (5'8" 150 So, PS#191), Travante Stallworth (5'9" 180 So, PS#89), Ralph Spry (5'10" 167 Jr), Nathan Taylor (5'10" 180 Jr), Derek Winter (6'0" 205 Jr, PS#148), Jay Wisner (6'2" 191 Sr, 2 st) and TE Robert Cooper (6'4" 210 rFr). There is a lot of talent and it is the 2nd year of the offense.

OFFENSIVE LINE - In '08, Auburn had 4 st'rs back on the O-line but was learning a new offense with more pass blocking. The ypc dipped for a 3rd straight year to just 3.5 (137 ypg). Last year they had to replace 2 st'rs and after trimming down the O-line the last few years under former HC Tommy Tuberville, they had the players bulk up. As you would expect, the numbers improved to 212 ypg rush (5.0) with 21 sks allowed (5.8%). This year they lose RT Andrew McCain (13 st) and 2 bkps (comb 5 gm). The unit has 4 multi-year senior st'rs including 1st Tm SEC LT Lee Ziemba and 2nd Tm SEC C Ryan Pugh plus they add 2 VHT JUCO's. Their 111 career starts returning rank #5 in the NCAA and they are now in the 2nd year of the new blocking schemes. This is my #5 rated O-line in the FBS.

DEFENSIVE LINE - In '08 Auburn had to replace 2.5 st'rs (#2 and #3DC's) and slipped allowing 139 ypg (4.1), the worst ypc since 1995 (21 sks). Last year they lost 1.5 st'rs (#2DC) but Antonio Coleman turned down an early shot at the NFL and was 1st Tm SEC with 10 sks. Surprisingly, Auburn allowed 156 ypg rush (4.1). This year they lose Coleman (13 st, 49 tkl, 16.5 tfl), NG Jake Ricks (13 st, 38 tkl, 1.5 sk) and DE Gabe McKenzie (3 tkl). Their 26 returning sts are only 4 less than they had in '09 but they lose their star. Not listed below are Chris Humphries (6'2" 225 So, 8 tkl) and Robert Hill (6'1" 239 Jr, 1 tkl). The ypg rushing allowed has increased each year since '03 but they may be able to stop that slide this year.

LINEBACKERS - Tuberville's LB units always emphasized speed over size. Last year HC Gene Chizik inherited a group that had to replace 1 st'r (#3 tkl'r) but did return their #4 and #5 tkl'rs. Two backups left over the summer and 3 were injured early giving them just one scholarship backup LB in true frosh Jonathan Evans (PS#97). This year they lose Adam Herring (4 st, 12 tkl) but return all 3 st'rs (#1, #2 & #11 tkl'rs) and add 4 true frosh including 2 VHT's and S Daren Bates (#4 tkl'r, 13 st) making this unit vastly more exp'd and deeper. Not in the PSL are Watson Downs (6'0" 213 So) and Patrick Butler (6'0" 244 Sr).

CB Demond Washington

DEFENSIVE BACKS - Auburn was #37 in my PDR in '08. LY they had to replace a #3DC (7 of 8 back). SS Mike McNeil (12 st '08) broke his leg in April, and one of the 2 ret st'rs remaining (Zac Etheridge) was lost after 9 sts. Projected starting CB Aairon Savage tore his Achilles in July. The Tigers finished at #36. This year they lose CB Walter McFadden (13 st, 46 tkl, 6 int, 10 pbu, #5DC OAK) and Harry Adams (6 tkl). McNeil, Savage (15 st '06 and '07) and Etheridge are expected back, and '09 starting SS Bates (now LB) could return to the secondary if necessary. This is a deeper, more veteran unit. Not listed below are Woody Parramore (5'8" 178 Sr), Tyler Mickens (5'10" 184 rFr) and Drew Cole (5'11" 193 Jr).

SPECIAL TEAMS - Tuberville almost always fielded outstanding ST units. He had finishes of #18 in '01, #39 in '03, #19 in '04, #31 in '05, #3 in '06 and #11 in '08. Last year K Wes Byrum hit an outstanding 15-16 FG's (5-6 40+). P Clinton Durst (37.6 net '08) saw his net drop to 35.7 partly because Chizik used a lot of walk-ons for ST and the coverage units were poor. Morgan Hull had 4 TB on 67 KO. Chizik went through 4 different PR with all 4 at one time either bobbling or outright fumbling returns. He said that recruiting a PR would be a high priority. Auburn dropped to #83. This year they lose Durst but with an improved return game and an excellent K, should contend for Top 25 honors.

COACHES - Auburn fans were not thrilled when former DC ('02-'04) Chizik was hired to replace Tuberville as he was coming off 2 unimpressive years as HC of Iowa St (5-19). However, Chizik smartly assembled a dream team coaching staff headlined by OC Gus Malzahn who had a one year stint at Ark ('06) as OC and then directed Tulsa's explosive offense for 2 years ('07-'08). Malzahn turned down an offer to become HC of LA Tech this year. The DC is Ted Roof who is a former GT DC ('99-'01) and was the HC at Duke for 5 years (interim HC L/5 gms of '03). In '08 Roof took a Minn D that allowed 36.7 ppg in '07 and helped them yield just 24.8 ppg. Asst HC/WR coach Trooper Taylor and RB coach Curtis Luper are some of the top recruiters in the country.

PHIL'S FORECAST

Tommy Tuberville's teams won or shared the SEC West Title in 5 of his 10 yrs here. In '04, Auburn felt it was the best team in the country but was not allowed to play in the National Title game. They finished #2 in the polls at 13-0. Despite coming into '05 ranked just #16, many felt at the end of the season that Auburn was the best team in the SEC. They tied LSU atop the SEC West at 7-1 and had the best ypg (+118.6) and ppg (+17.5) in conf play but did not play in the SEC Title game (tough OT loss at LSU). The '05 squad had to replace four #1 DC's and had just 12 ret st'rs. The inexp hurt them in the opener with a loss to GT due to -4 TO's, but their only other regular season loss was the OT battle vs LSU. Their weakest performance came in the bowl vs Wisconsin (outgained 548-236). In '06 they had 12 st'rs back with 23 seniors (previous high for seniors was 18 in '04). All of their tough games were at home and Auburn appeared to have the schedule to run the table. The Tigers beat two Top 10 teams at home in '06 and were the only team to beat Nat'l Champ Florida as they finished 11-2 and #9. They benefitted from 6 net close wins in '06 and despite their 6-2 SEC record, were -33.4 ypg (4th worst). Auburn had to play a tougher schedule in '07 and had the least exp'd O-line under Tuberville. They opened just 1-2 but upset #4 Florida in The Swamp. They got a FG with :21 left to beat Ark on the road then almost upset eventual National Champ LSU yielding a 22 yard TD pass with :01 left. They did get their 6th straight win over Bama and won the Chick-fil-A Bowl and finished 9-4 (#15). In '08 they had 15 returning st'rs and were the favorite to win the SEC West. They suffered a tough loss vs Vandy with Tuberville firing OC Franklin the next week. After opening the season 4-1 and being in the top 10 each of the first 4 weeks, the Tigers lost their final 6 vs FBS foes including an embarrassing 36-0 loss to Alabama and Tuberville resigned. Auburn made my Most Improved List in '09 meaning I thought they would go from a losing record to a bowl. The Tigers opened stronger than most anticipated. At 2-0 they were home vs WV and despite being outgained 509-400, they were +5 in TO's and won by 11. At 4-0 they made their first road trip of the season in front of 100,000+ and beat Tenn (led by 10 until the last play). Auburn finally entered the rankings at #17 prior to Ark but was thumped 44-23. Kentucky was playing without its QB and top 2 CB's but upset Auburn at home 21-14. LSU played its best game of the season routing Auburn and Chizik, who was being toasted at 5-0, was now being roasted at 5-3. They upset #24 Ole Miss and dispatched Furman to move to 7-3. Auburn led both Georgia and Bama 14-0 but came up short in both. In the bowl vs Northwestern they were outgained 621-425 but came away with an OT victory to finish 8-5. This year the Tigers have 15 ret st'rs and are in the 2nd year of Chizik's system. Last year despite their 3-5 SEC record, they were +6.9 ypg in SEC play (6th best). They get 4 key SEC games at home and my main set of power ratings calls for an 11-1 season with an 11-0 vs 11-0 showdown vs Alabama in game 12. The Tigers will top LY's 8 win total.

ARKANSAS RAZORBACKS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - In '08 Casey Dick was working with his 4th OC of his career but threw for 2,586 (57%, 13-14). The only QB returning with game experience here at Ark in '09 was rFr Tyler Wilson (PS#32) who hit 11-22 for 69 yds (2 gms) as a true frosh but RS. Ryan Mallett (6'7", PS#1) has an arm that has been compared to John Elway's. As a true frosh at Michigan in '07 he was 3-0 as the starting QB throwing for 892 (43%, 7-5). Mallett's 97 yard TD pass was the longest in UM history. He RS here in '08 and was the clear-cut starter in '09. Mallett broke a lot of Clint Stoerner's ('96-'99) records as he threw for a school record 3,624 (55.8%) with a 30-7 ratio. Wilson played in 5 (218, 61.1%). Bobby Petrino said he wanted Mallett to break Kevin Scanlon's 1979 record of 66%. If Mallett had played all of his games at home, he would have done it. At home, Mallett threw for 327 ypg (68.3%). On the road, he completed just 42.9% (223 ypg) but did face 4 top 20 pass D's. Amazingly he was the MVP of the Liberty Bowl despite hitting just 15-36 for 202 yds and Ark converted zero of 13 third downs. Not in the PSL are Brandon Mitchell (6'4" 230 rFr, PS#204) and Nick Petrino (5'11" 190 Jr, PS#190). I expect big-time improvement from Mallett on the road and he is clearly one of the frontrunners for the Heisman Trophy after turning down a shot at the NFL.

RUNNING BACKS - From 2005-'07 the Hogs had an amazing trio of RB's in Darren McFadden, Felix Jones and Peyton Hillis. In '08 they were all drafted by the NFL. They combined for an amazing 3,339 rush and 877 rec yds in '07. HC Petrino favors a bigger back so it was surprising to me that diminutive Michael Smith (5'7" 176) won the starting job in '08. Smith (370 bench) rushed for 1,072 (5.2) despite missing 2. True frosh Dennis Johnson (5'9" 213 Jr, PS#112, 4.4 spd) started vs LSU and was the #2 RB with 184 (5.1). Last year they got the large addition of 248 lb Broderick Green (PS#9) who had 168 (5.2) at USC in '08. They also added true frosh Ronnie Wingo (PS#12) and Knile Davis (PS#26). Smith only played in 8 (inj) and finished #2 with 396 (5.6). Green set a school record with a 99 yd TD run vs E Mich and led with 442 (4.2). Johnson had 107 vs Florida and was #3 (342, 6.0). Wingo added 319 (6.5) and Davis had 163 (4.9). This year they lose Smith (5 st), Brandon Barnett (46 yd) and FB John Durmon (2 st, solid blk'r). Not in the PSL are Ronald Watkins (5'9" 185 So, PS#380) as well as FB's Van Stumon (6'1" 266 Sr, PS#31LB) and Mitchell Bailey (5'11" 227 Jr, PS#399). Even with the loss of their top guy, I look for improved numbers from a very talented backfield.

RECEIVERS - The Hogs were a run-based team under former HC Houston Nutt. In 2007 their leading WR had just 203 (16.9). Lucas Miller was the top returnee in '08 (157, 13.1 '07). TE DJ Williams (PS#18) led with 723 (11.9) while Miller was #2 (490, 16.3) and true frosh Joe Adams (PS#25) had 377 (12.2). True frosh 6'3" Greg Childs (PS#48) had 6 rec in the opener but just 12 afterwards. True frosh Jarius Wright (PS#36) had 348 (18.3) and London Crawford (PS#57) added 311 (11.5). Everyone ret'd in '09. Childs led with 894 (18.6) while Wright added 681 (16.6). Adams suffered a mild stroke (miss 3) but was #3 (568, 19.6). Mallett preferred throwing the ball deep to WR's so Williams (top TE prospect NFL) only had 411 (12.8). Speedy true frosh Cobi Hamilton had 347 (18.3). This year they lose Crawford (5 st, 14 rec) and Miller (2 st, 7 rec). Not listed below are Austin Tucker (6'1" 195 Jr, PS#325), Ryan Farr (6'1" 190 So, PS#359), Price Holmes (6'3" 190 So) and TE's Jim Youngblood (6'2" 225 So, PS#21QB), Jovan Davis (6'2" 250 So) and Austin Tate (6'6" 246 rFr, PS#37). This is my #1 rated rec corps in the NCAA.

OFFENSIVE LINE - The Hogs led the SEC in rushing in 5 of Houston Nutt's last 6 yrs. The one year they did not (2004) they had 0 returning OL st'rs and they were still #2! In '07 the Hogs had only 2 st'rs back but avg 287 ypg rush (6.0) with just 13 sks (4.2%). In Bobby Petrino's first year ('08) they had to replace 4 st'rs. As you would expect in a new system (run blk to pass blk), their rush numbers plummeted to just 114 ypg (3.6) and they allowed 46 sks (2nd most FBS). Last year they had to replace 3 st'rs (#4DC) but had 5 back with starting exp. Naturally the numbers improved to 132 ypg rush (4.3) with 24 sks (5.5%). This year they lose 1st Tm SEC RG Mitch Petrus (#5DC NYG, 13 st, 2Y st'r) and T Matt Hall (11 gm). Adding depth are Clay Bemberg (6'2" 295 Sr), Tyler Deacon (6'2" 295 So, PS#480) and Blake Gunderson (6'3" 290 So). They have 90 career sts (4 VHT 2 deep) and I look for continued improvement.

DEFENSIVE LINE - In Petrino's first year Arkansas had a fairly veteran D-line but the rest of the Hog D was inexp'd and they slipped allowing 171 ypg rush (4.4). Last year they had to replace 3 DL (comb 6 sts). Four of the team's top 9 tkl'rs in '08 were DL and they all ret'd. They improved to 153 ypg (4.0) with 29 sks. This year they lose DE Adrian Davis (12 st, 50 tkl, 5.5 sk) and 2nd Tm SEC DT Malcolm Sheppard (13 st, 33 tkl, 2.5 sk). Not in the PSL are Will Coleman (6'2" 247 rFr), Jared Green (6'0" 303 Jr, PS#419) and Ryan Calendar (6'7" 241 rFr, PS#267). Eight return who started last year (4 were frosh) and I look for continued strides in the Hogs' rush D.

#31 OLB Jerico Nelson

LINEBACKERS - After having an inexp'd unit in '08, the Hogs ret'd their top 3 LB's last year including Jerry Franklin who as a rFr stopped Tim Tebow's streak of 203 passes without an int. TE Williams said the LB's were bigger, faster and better students of the game in '09 and the Hogs' D allowed 6.1 ppg less. This year they lose MLB Wendel Davis (11 st, #2 tkl'r, 8.5 tfl) but return their #1, #3 and #7 tkl'rs with all 3 having 7+ starts. Not in the PSL are Michael Villegas (6'4" 230 So) and Stephen Barnett (6'1" 227 Sr). I look for continued improvement from the Hog LB's.

DEFENSIVE BACKS - Arkansas finished #26 in my PDR in '05, #11 in '06 and with a veteran unit in '07 was #1 allowing 45.5% with 20 int's. In '08 they had to replace all 4 st'rs and as you would expect, dropped to #59. LY they had to replace 4 DB (comb 17 sts) then lost CB Isaac Madison (11 st '08) to a torn ACL in Aug. CB David Gordon (fastest 200M in HS in '08) started 3 but was injured. The Hogs slid to #80 allowing 59.2% with a 22-13 ratio. This year they lose SS Matt Harris (10 st, 71 tkl, 1 int) and Jerell Norton (2 st, 14 tkl) but have 7 back who started LY plus Madison and I expect more impact from Darius Winston (PS#4, miss 6 '09). Adding depth are Greg Gatson (5'10" 175 Jr, PS#467) and Dustin Cain (6'0" 190 Sr). This is a faster, deeper, more exp'd secondary that should make a large climb in the PDR.

SPECIAL TEAMS - Bobby Petrino's ST units at L'ville finished #70, #41, #63 and #39 in my ST rankings ('03-'06). He inherited a ST unit that finished #94 in '07 and only had to replace their top KR's. The unit struggled again finishing #94 and Petrino hired John L. Smith (former HC at Mich St and L'ville) to oversee the unit. Alex Tejada, who lost his job at one point in '08 (4-9 FG's), hit a solid 16-22 (long 47, 2 miss 50+). He had only 4 TB's on 49 KO's (Cameron Bryan had 0 TB on 37). True frosh P Dylan Breeding avg just 38.7 (tm net 32.6) and KR Dennis Johnson was solid (25.8, 1 TD). The Hogs had just 127 yards on PR's (8.5). Adding depth at PK is Brandon Tierney (5'11" 185 So). The unit basically returns intact and should improve upon last year's #79 finish.

COACHES - HC Bobby Petrino had a great run at Louisville, guiding the team to 4 bowls and a pair of #6 AP finishes. He left for the Atlanta Falcons in '07 and was blasted by the media after quitting with 3 games to go. Arkansas struggled in the changeover in '08 going 5-7 but Petrino turned it around in '09 (8-5). OC Paul Petrino, Bobby's younger brother, chose to accept the OC position at Illinois to make a name for himself separate from his brother. The new OC is Garrick McGee (QB cch here L2Y). McGee spent 4 yrs at Northwestern prior (OC in '06-'07). Petrino's DC is Willy Robinson who was the STL Rams' DB coach ('06-'07)and enters his 3rd year as DC here.

PHIL'S FORECAST

Prior to '04, Ark went to six consec bowls matching a school record set by Lou Holtz ('77-'82) and Ken Hatfield ('84-'89). Unfortunately for just the 3rd time in 61 yrs ('52-'53 and '96-'97), they suffered B2B losing seasons in '04 & '05. Despite their 2-6 record in SEC play in '05, they were +31.3 ypg! They outgained #4 UGA 332-217 (lost by 3 road) and thanks to a pair of missed FG's, lost to #3 LSU by 2 in Baton Rouge. Ark used the most true frosh in the nation in '05 (18). In '06 they had the most ret st'rs in the SEC (18) and that had me very high on the Hogs. I picked the Hogs #13 in the country coming off a 4-7 season with the majority of the other magazines not even having them ranked. Ark did not disappoint me, in fact they made it to the SEC Title game and rose as high as #5 AP. Their losses in '06 were to the #6, #9, #4 and #6 teams. In '07 the Hogs had just 12 ret st'rs and were #21 in the preseason. They were a disappointing 7-4 when they stunned #1 LSU in Death Valley in 3OT. Surprisingly Nutt who was 53-17 at home, stepped aside and with an interim HC for the bowl they were whipped by Missouri 38-7. In '08 there were numerous factors pointing to a large downturn for the Hogs. They had just 9 ret st'rs, were switching schemes from a run to a pass based attack and they lost star RB's McFadden, Jones and Hillis not to mention their top 6 tkl'rs. I picked the team that had been to 2 straight NY Day Bowls and had 3 non-BCS foes on the schedule to have a losing season. The Hogs actually performed better than my expectations. They converted on 4th & 10 and got a game winning TD with 1:49 left to get past W Ill and trailed ULM 24-6 in the 3Q but won late. They trailed LSU 30-14 but got numerous key plays late in the 3Q and pulled out the win 31-30 and finished 5-7. Despite their 2-6 SEC record they were +0.1 ypg and at -9 in TO's almost made my Turnovers=Turnaround article. They were #3 in the FBS in sts lost to injury (47) and their 17 ret st'rs in '09 were the most in the SEC. Last year they had to face 2 Preseason Top 10 teams from the SEC West and drew both Florida and Georgia out of the East, but still made my Most Improved List for the 2nd time in 4 yrs. The Hogs were sky high for their home game vs Georgia and jumped out to a 21-10 lead but ended up losing 52-41. In a letdown spot they were blasted by Alabama 35-7. They trailed Texas A&M 10-0 early but routed them 47-19 and then blasted unbeaten Auburn 44-23 at home. A couple of questionable ref calls at the end cost them in "The Swamp" vs #1 ranked Florida and they lost by 3. After a loss to Ole Miss they rallied for 4 straight wins. In the season finale at LSU, the Tigers got an 87 yard PR TD and a FG with :04 left to force OT and Ark missed a FG and lost to drop to 7-5. They got past EC in the Liberty Bowl 20-17 in OT despite being outgained 393-283. Arkansas benefitted from +15 TO's and was -36.3 ypg in SEC play (3rd worst). They do have 17 ret st'rs (#1 SEC) including QB Mallett and Florida drops off the schedule (for Vanderbilt). Two of my 9 sets of power ratings actually call for a 12 win season! They do have to play Georgia, Auburn and SCar on the road but are a legit SEC West contender.

LSU TIGERS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - At the start of the spring '08 the Tigers appeared to be in great shape at QB with Ryan Perrilloux (PS#1) having plenty of experience. However, Perrilloux was dismissed, leaving the starting battle to rFr Jarrett Lee (PS#13) and Harvard transfer Andrew Hatch. Lee, a pocket passer, was banged up so Hatch started the first 3 until suffering a concussion. Lee took control and started 8 (1873, 53%) but had a 14-16 ratio with 7 IR TD's. They had planned to RS 6'5" Jordan Jefferson (PS#9, most mobile). When Hatch suffered a broken leg vs UGA, they burned Jefferson's RS and he played in 7, starting the last 2 (bowl Off MVP) throwing for 419 (49%, 4-1). Last year Jefferson was the clear-cut starter but Lee, who was booed often in '08 was greeted with cheers in his first 2 HG's. Jefferson added 17 lbs and got stronger and faster throwing for 2,166 (61.5%, 17-7). He was injured vs Ala (3Q) and Lee hit just 4-10 for 44 yds. Lee started vs LT and hit just 7-22 for 105 and was booed again. True frosh Russell Shepard (PS#1) was used in the Wildcat formation (#3 rusher). This year Jefferson gives them their most exp'd QB since OC Crowton's first year ('06) when they threw for 252 ypg (66.6%). Not listed below are Chris Garrett (6'4" 235 rFr, PS#29), Barrett Bailey (6'4" 192 rFr, PS#83) and TC McCartney (6'3" 226 Jr).

RUNNING BACKS - In 2008 they had to replace #1 rusher Jacob Hester (1103, 4.9). Charles Scott (PS#7) led with 1,174 (5.4) and 18 TD's while Keiland Williams added 417 (5.0). Richard Murphy (PS#27) had 186 (4.2). Last year all 3 ret'd. Unfortunately Murphy was lost after 2 then Scott was lost after 9 sts (inj) and had just 542 (4.7). Williams started 2 but then was also injured (368, 5.3), so Stevan Ridley (PS#36) started the last 2 and had 180 (4.0). This year they lose Scott (9 st, #6DC PHI), Williams and Trindon Holliday (126, 4.7). They almost took the RS off of true frosh Michael Ford (PS#11) last season. Not listed below are BJ Wilson (5'8" 169 So, PS#400) along with FB's Thomas Parsons (6'5" 294 So, PS#67OL), Kellen Theriot (6'1" 227 So, PS#115) and James Stampley (5'10" 240 Jr). While this group is a lot less exp'd, it could easily put up better numbers than '09's injury plagued unit.

RECEIVERS - Last year the Tigers had 3 of their top 4 receivers back in Brandon LaFell (929, 14.7), TE Richard Dickson (324, 10.5) and Terrance Toliver (257, 11.7). They had arguably the best WR duo in the SEC and 6'3" LaFell (PS#36) led with 792 (13.9) and Toliver (PS#2) had 735 (13.9). Dickson was banged up (157, 7.5). True frosh Rueben Randle (PS#1) had 173 (15.7, 4 st). This year they lose LaFell (13 st, #3DC CAR), Dickson (10 st), RJ Jackson (1 st, 11 rec) and Chris Mitchell (3 st, 10 rec) but have PS#1 QB Russell Shepard at WR full-time. Not listed below are Ian Harding (6'1" 203 Jr, PS#359) and TE's Chase Clement (6'5" 258 So, PS#25, moved from DE) and Ronnie Turpin (6'4" 214 So). I think the Toliver/Randle/Shepard combo will be among the SEC's best. However, this unit is a little less exp'd with their top guy gone.

OFFENSIVE LINE - In 2007 LSU had to replace 2 OL st'rs and 2 bkps and 1 returning starter played in just 3. Surprisingly they opened holes for 214 ypg rush (4.9), their best since 1997. In '08 they only had to replace one starter but with the inexp'd QB's the numbers dropped to 167 ypg (4.4) with 28 sks (5.6%). Herman Johnson became the first LSU OL to earn AP 1st Tm AA since 1997. Last year they had to replace 2 st'rs incl Johnson (#5DC) and 2 bkps but had 79 career sts back. Miles was high on the unit in August saying that it could be as good an O-line as he has fielded here in his five years. The unit did not live up to that billing, however, with the team only avg 123 ypg rush (3.7), their lowest ypg since 1999 while allowing 37 sks (tied last SEC, 11%). Some of the dropoff was due to RB inj's and QB Jefferson holding the ball too long. This year they lose RG Lyle Hitt (13 st, 3Y st'r) and 2nd Tm AA LT Ciron Black (13 st, 4Y st'r) who took home the SEC's Jacobs Blocking Trophy. T-Bob Hebert (11 st C) was susp indefinitely in May. The career sts drop to 52 but this unit (8 of top 10 ret) should improve after underperforming in '09.

DEFENSIVE LINE - The Tigers had to replace 3 NFL DC's in '06 but still yielded just 97 ypg rush (3.2). Surprisingly the last 3 years the rush D totals have gone up as they yielded 106 ypg (3.2) in '07, 110 (3.4) in '08 and 133 (3.5) in '09. Last year they had to replace 5 who combined for 38 sts (13.5 sks) including the 3rd overall pick in the draft and a #7DC. At least one LSU DL has been picked in each of the last 7 drafts. This year they lose DT Al Woods (13 st, 33 tkl, 1 sk, #4DC NO), DE Rahim Alem (12 st, 34 tkl, 4.5 sk) and DT Charles Alexander (13 st, 29 tkl, 1 sk). Including true frosh, the Tigers have 11 VHT's in the 3 deep and despite the heavy losses, figure to be at least as good as last year when they also had just one starter back.

MLB Kelvin Sheppard

LINEBACKERS - In '08 they pulled a LB on many passing plays, but new DC Chavis did not do that as much in '09. They had to replace 2nd Tm SEC MLB Darry Beckwith (#5 tkl'r) but they not only ret'd their #2 and #3 tkl'rs, but added SS Harry Coleman (13 st, #1 tkl'r) and he earned Tm MVP honors at LB. This year they lose Coleman (13 st, #3 tkl'r, 9 tfl) and WLB Perry Riley (13 st, #2 tkl'r, 4.5 tfl, #4DC WAS) and Jacob Cutrera (1 st, #4 tkl'r). Kelvin Sheppard was the #1 tkl'r and turned down an early shot at the NFL and naturally they have 5 VHT's in the 3 deep. This is a quality unit but is less exp'd than '09.

DEFENSIVE BACKS - The Tigers finished #6, #1, #5, #5, #1 and #3 in my pass D rankings from 2002-'07. They had a very inexp'd unit in '08 and dropped to #33. Last year they had to replace 2 st'rs as SS Coleman moved to LB but ret'd 5 players who had a comb 40 sts in '08 (8 at NB). LSU moved back up to #19. Patrick Peterson (PS#1) earned 2nd Tm SEC in his first year as a starter. This year they lose 2nd Tm SEC FS Chad Jones (13 st, 74 tkl, 3 int, 6 pbu, #3DC NYG), CB Chris Hawkins (11 st, 43 tkl, 2 int, 7 pbu) and S Danny McCray (2 st, 49 tkl, 4 pbu). While they have less ret st'rs they have Craig Loston (PS#1) who RS LY (inj) and Jai Eugene (9 st '08, 2 st '09) battling for the starting FS job. This has the makings of an outstanding secondary.

SPECIAL TEAMS - Les Miles' Okla St teams finished #3, #18, #3 and #11 in my ST rankings. He inherited a LSU ST unit that was #23 in '04 and after an expected #10 finish in '05, with everyone back they, surprisingly dropped to #80 in '06 and then #81 in '07. In '08 they were back up to #12 but had to replace their P and K last year. Their replacements did well. The new P Derek Helton has great hangtime and Josh Jasper handled the pooch punts (37.4 tm net). Jasper had 2 punts that pinned Ala at the 1. Jasper had just 3 TB's on 67 KO's but had good hangtime (17.5 KR avg all'd). Jasper hit 17-20 FG's with a long of 52 (2-3 50+). Trindon Holliday was the top KR (24.4) and PR (18.1). This year they lose Holliday (#6DC HOU) but return their specialists and should have another strong finish (#7 '09).

COACHES - Les Miles did a fine job at Okla St with his resume including 2 big upsets over rival OU and 3 bowls in 4 yrs. Miles owns a National Title at LSU, but is coming off B2B seasons without an SEC West Title, so he will be on the hotseat in '10. In '07 he lost OC Jimbo Fisher and brought in Gary Crowton who was the OC at Oregon ('05-'06) and the BYU HC from '01-'04. Under Crowton's guidance the team avg a school rec 38.6 ppg in '07, but fell to 30.9 ppg in '08 and an alarming 24.8 ppg in '09 (#76 FBS). Last year Miles brought in 14 year Tenn DC John Chavis and the defense improved from allowing 24.2 ppg in '08 to 16.2 ppg in '09.

PHIL'S FORECAST

Phil Steele's College Football Preview Magazine was the ONLY magazine to forecast LSU to win the SEC West in '03. I called the Tigers my #2 surprise team and they took home the BCS National Title when they upset Oklahoma. In '04, despite three road games in 4 weeks vs Top 15 foes, LSU was 9-2 but suffered a last play bowl loss to Iowa. In '05 the Tigers had to replace HC Nick Saban and unfortunately suffered major disruptions from Hurricane Katrina. The only reg season loss was when they blew a 24-7 lead in the 4Q vs Tenn. They were #3 but were whipped by Georgia 34-14 in the SEC Title game. An angry LSU squad plastered Miami 40-3 in the Peach Bowl. 2005 was the first time LSU defeated Aub, Ala and Fla all in the same season. They had 11 ret st'rs in '06 and it was the first Tiger team since 1982 to beat two Top 10 foes on the road in the same year. In the friendly confines of the Sugar Bowl, they destroyed ND 41-14 and finished #3. In '07 they were #2 in the preseason and the only FBS team not to lose a game in regulation (both losses 3OT). The Tigers were also the first team to make it to a BCS Title game with 2 defeats. At midseason, LSU moved to #1 in the AP poll for the first time in 48 years. LSU lost their reg season finale at home in 3OT to Ark but they had a myriad of upsets go in their favor. After LSU beat #14 Tenn 21-14 in the SEC Title game, they whipped Ohio St 38-24 for a 2nd National Title in 5 years. Some negative factors heading into '08 were that they benefitted from +20 in TO's and 2 net close wins. They had just 12 ret st'rs (3rd fewest SEC) and lost 29 pts in my NFL Draft Day Party Hangover (pg 308). While LSU was bowl eligible for a school record 9th straight season, it was an up and down season. LSU had the most losses ever by a defending BCS National Champ (5). At 7-5 and off 5 losses in their final 8, LSU was an underdog to GT but thrashed them 38-3 in the Chick-fil-A Bowl. After outgaining SEC foes by 132.2 and 81 ypg in '06 and '07, LSU went 3-5 in SEC play (-3.7 ypg). Last year I caught some flack from LSU fans as they entered the year #11 (AP) but I had them at #17. LSU lived a charmed life for a good portion of the season. They were outgained by Wash and Miss St but still opened 5-0 thanks in part due to a controversial celebration penalty against Georgia, which set up their game-winning TD. Versus Miss St they needed a 4th down stop at the footline and won 30-26 despite being outFD'd 21-12. Against Florida they were outgained 327-162 and lost by 10. They played their best game in a 31-10 rout of Auburn and after beating Tulane were back at #9 (7-1). After a 9 pt loss to Alabama, they were outgained by LT 322-246 but won and were outgained by Ole Miss (426-290) but only lost by 2 due to poor clock management at the end. In their home finale, they got a 41 yd FG with :04 left to force OT and pulled out the win over Ark. They were outgained by Penn St (340-243) in the bowl, but PSU needed a FG with :57 left to pull out the win despite dominating the 1H. LSU finished #17 in the AP poll. LSU had less yds than their opp's in 4 of their 9 wins last year. Last year they had fortunate ypp's on both offense and defense (see pg 299) and despite their 5-3 SEC record were -33.4 ypg (4th worst) in SEC play and on the season were outgained by an avg of 328-305. Miles is 33-4 vs unranked foes and 18-11 vs ranked opponents at LSU. LSU has just 10 ret st'rs (tied 2nd fewest) and draws N Car and W Virg in their non-conf slate and has road trips to Florida, Auburn and Ark in the SEC. This is a talented squad but probably won't match LY's 9 reg season wins.

MISSISSIPPI REBELS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - Eli Manning (PS#12) set or tied 47 school records and departed after the 2003 season (#1DC) and later guided the NYG to a Super Bowl win in '07. The next 4 years Rebel QB's combined to hit 51%, 53%, 48% and 51%. In '08 Houston Nutt benefitted from the transfer of Jevan Snead (PS#4) who played in 8 as a true frosh at Texas throwing for 371 (87 rush). Snead had some ups and downs in '08 completing just 56% but he threw for 2,762 with a 26-13 ratio and finished strong (66%, 260 ypg in final 3). Nutt said he was the most improved QB in the second half of '08 so I expected continued improvement in '09. Unfortunately, Snead had a poor year throwing for 2,632 (54.4%) with a 20-20 ratio. Amazingly Snead opted to leave early for the NFL (UFA TB). RFr Nathan Stanley (PS#36) got in 5 but hit just 11-23 for 163. This year they lose Snead (13 st) and Billy Tapp (7 gm, 1 pass). Stanley will battle rFr Raymond Cotton (PS#37), who benches 365, has 4.5 speed and can throw a ball 79 yds and PS#1JC Randall Mackey who threw for 5,940 with 1,065 rush in 2 yrs at JC. Despite losing a 2 year starter, Ole Miss could have improved passing numbers.

RUNNING BACKS - In '08 UM had to replace their top 2 RB's. RB/WR Dexter McCluster was the top returnee with just 63 yds. McCluster also took snaps out of the "WildRebel" formation and led in '08 with 655 (6.0). Cordera Eason (PS#19) was #2 with 647 (4.6) and true frosh Brandon Bolden (PS#147) was #3 with 542 (5.5) including 101 (9.2) in the bowl. Enrique Davis (6'0" 220 Jr, PS#4) was expected to be a big factor but had trouble pass blocking (244, 3.8). Last year McCluster started at WR and had just 54 combined touches after 5 but Nutt took the chains off in the 2H of the year and was greatly rewarded. McCluster rushed for 1,169 (6.5) and became the first player in SEC history to top 1,000 rush and 500 rec (#2 rec, 520) in the same season. He also became the first player of the Rebel modern era to top 100 rush & rec in a gm (Ark) and then broke the school record with 282 rushing vs Tenn (Dou Innocent, 242, 1995). His 324 all-purp yds topped Deuce McAllister's 1999 mark (317). Bolden was #2 with 614 (4.8) and true frosh Rodney Scott (PS#39) had 138 (3.9). Eason's numbers dropped to 133 (3.7) and Davis had just 110 (3.4). This year they lose McCluster (12 st, #2DC KC), Eason (12 gm) and FB Andy Hartmann (3 st). Not listed below are Tim Simon (6'1" 213 So, PS#71), Derrick Herman (5'10" 185 Jr), Korvic Neat (5'8" 160 rFr, PS#143), Devin Thomas (5'10" 205 So, PS#44) and FB's HR Greer (5'11" 225 So, PS#269), EJ Epperson (6'2" 250 So, PS#82) and Tyler King (5'11" 224 rFr). This group still has plenty of talent and gets some solid newcomers but with the loss of their top guy figures to be down a notch or two.

RECEIVERS - Last year the Rebels had to replace their top WR, Mike Wallace (#3DC PIT) who had 784 (20.1). The leading returnees were Shay Hodge (725, 16.5) and Lionel Breaux who was #4 with 178 (14.8). Dexter McCluster started at WR but moved more to RB. Hodge became the first WR in UM history to top 1,000 yds in a single season with 1,135 (16.2). The #2 WR was Markeith Summers (PS#37, 394, 23.2) and Breaux had 160 (12.3). VHT true frosh Pat Patterson (PS#5) was impressive at times but finished with just 180 (15.0). This year they lose 1st Tm SEC Hodge (13 st) and TE Gerald Harris (1 rec, 8 st). Not in the PSL are Matt Tarpley (5'10" 180 rFr), Danny Blanks (5'11" 180 rFr, PS#336), Vincent Moss (5'11" 185 Jr), Richie Contartesi (5'8" 163 Sr), Jared Mitchell (6'3" 190 So) and TE's JUCO Layton Jones (6'5" 242 Sr, PS#84) and Justin Bigham (6'0" 231 rFr). For the 2nd straight year this unit loses its top guy but could be almost as productive.

OFFENSIVE LINE - In 2005 Michael Oher (PS#11) became the third Rebel true frosh starter on the O-line since Terrence Metcalf in 1997. John Jerry (PS#60) started as a true in '06. In '08 Nutt inherited 4 ret st'rs and their 186 ypg rush (4.7) was the best since 1990 and they allowed just 20 sks (5.9%). Last year they had to replace 3 st'rs including Oher (#1DC) but Reid Neely (12 sts '07, 7 st '08) was back so they basically had 3 st'rs return with 5 VHT's as projected starters. They also added true frosh Bobby Massie (PS#37) who started the final 5 at RT. They equalled 2008's numbers with 184 ypg rush (4.7) with just 17 sks (4.5%). This year they lose 1st Tm SEC RT/RG John Jerry (12 st, 4Y st'r, #3DC MIA), 3rd Tm SEC LG Neely (13 st, 3Y st'r), C Daverin Geralds (13 st, 2Y st'r) and RG Brandon Green (5 st, 11 gm). Nutt always produces a solid O-line (Ark led SEC rushing in 5 of his L6Y) but this is his least exp'd unit in his 3 years here (22 car sts, 7th lowest FBS).

NT Jerrell Powe

DEFENSIVE LINE - Ole Miss had 7 of their top 8 DL back in '07 but surprisingly allowed 199 ypg (4.7), their worst S/'01. In '08 they had to replace 5 DL (comb 21 st) but I graded them one of the top D-lines in the SEC and they did not disappoint. The Rebels trimmed their rush D to 86 ypg (2.7) while increasing the sks from 21 to 38. Last year they had to replace #1DC DT Peria Jerry. Jerrell Powe (PS#2) finally was ruled eligible in '08 and earned 2nd Tm SEC LY. Star DE Greg Hardy (18.5 sk in '07/'08) only played in 9 (inj). The Rebels slipped allowing 140 ypg (3.9) with 36 sks. This year they lose DE Marcus Tillman (13 st, 31 tkl, 5.5 sk), DE Hardy (16 tkl, 5 sk, #6DC CAR) and DE Emmanuel Stephens (22 tkl, 5.5 sk). They add PS#14JC Wayne Dorsey and have 5 VHT's in the 2 deep. With 3 starters back, I look for improvement. Not in the PSL are Corey Gaines (6'1" 305 rFr, PS#118), Lekenwic Haynes (6'3" 220 So) and Rodney Steen (6'2" 235 Sr).

LINEBACKERS - In 2007 the Rebels had an inexp'd LB corps but now enters their 3rd year with than exp'd unit. They have shown improvement in each of the last 2 years. Last year they lost just 1 starter (#4 tkl'r) but their #3 tkl'r also departed. The 2 st'rs returning were just #6 and #8. The 3 st'rs were all VHT's and the Rebels' 17.8 ppg allowed was their lowest since 1993. This year they lose 4th Tm SEC Patrick Trahan (13 st, #4 tkl'r, 5 sk) and Lamar Brumfield (1 st, 22 tkl, 1 sk). They return their #3 and #6 tkl'rs and could be stronger.

DEFENSIVE BACKS - Ole Miss finished #72, #86, #87 and #54 in my PDR ('05-'08). Last year they only had to replace 1 starter and I called for them to have their best finish since at least 2004 (#30). That they did moving all the way up to #13. This year they lose CB Marshay Green (12 st, 29 tkl, 4 pbu), CB Cassius Vaughn (12 st, 56 tkl, 2 int, 11 pbu) and FS Kendrick Lewis (13 st, 84 tkl, 2 int, 10 pbu, #5DC KC). They add Darius Barksdale (5'10" 215, PS#7 '08, Hargrave and MedRS '09) and PS#28JC Damien Jackson (IFS) but this is a less exp'd unit that will drop some in my PDR. Not in the PSL are George Helow (5'8" 185 Sr) and Dele Junaid (6'1" 187 rFr, PS#213).

SPECIAL TEAMS - In Ed Orgeron's 3 seasons Ole Miss finished #91, #26 and #74 in my ST rankings. Everyone returned in Nutt's first season and they moved up to #36. They had to replace their P (36.5 net) and top KR (24.6) in '09. Joshua Shene (17-21 FG's '08) hit 15-20 (long 45) but also had his streak of 88 consec xp's snapped vs Vandy (blk'd). True frosh Andrew Ritter (PS#21) had 12 TB's on 72 KO's and true frosh P Tyler Campbell (PS#24) also did well avg 44.0 (tm net 36.7). True frosh Jesse Grandy, who has drawn comparisons to McCluster, was the top KR (25.7) while CB Marshay Green was the top PR (10.2). This year they lose Shene and Green but could improve upon last year's #52 finish.

COACHES - Ole Miss made a great hire in '08 bringing in Houston Nutt who resigned under pressure at Ark. Nutt, was the SEC COY in '01 and '06 and guided the Hogs to B2B Jan 1 bowls. In '08 Nutt was co-SEC COY. OC Kent Austin left to become the HC of Cornell and Nutt promoted his longtime OL coach Mike Markuson (17 yrs) and hired Dave Rader to split the OC duties. Rader's most recent coaching stint was as OC at Alabama under Mike Shula from '03-'06. Rader was the HC of Tulsa from '88-'99 (49-80-1). Tyrone Nix is the DC and held the same position at SC ('05-'07) and at S Miss ('01-'04). Nix spoke with Urban Meyer about Florida's DC job in the offseason but remained at Ole Miss, and is considered 1 of the top candidates in the NCAA for future HC jobs.

PHIL'S FORECAST

Heading into 2004, Ole Miss was the only team in the SEC West to be bowl eligible for 7 straight yrs but ironically, they are still the only SEC West team without a trip to the SEC Title game. Ole Miss' last SEC Title was in 1963. From 1954-1971, Ole Miss went to 17 bowls (12 NY's Day). Under David Cutcliffe, UM had 5 straight winning seasons but he was stunningly fired after a 4-7 year ('04) and UM struggled to a 6-25 record in the next 3Y. Ed Orgeron did have some great recruiting classes but Ole Miss had a 3-21 record in SEC play and was -92.3 ypg in '05 (2nd worst), -107.3 ypg in '06 (worst) and -68.9 ypg in '07 (2nd worst). Houston Nutt stepped into a tremendous situation in '08. He inherited a team with 10 of the top 12 tkl'rs back from '07 and UM was also -10 in TO's. While they were coming off their first winless SEC season (0-8) S/'82 and they made my Most Improved List meaning I thought they would get to a bowl. Ole Miss' strength in '08 was their line play as their OL and DL ranked among my Top 10 in the country. The Rebels finished 9-4 but could have easily had a stronger record. They lost to Vanderbilt despite a 385-202 yard edge, gave up a FG to WF with :03 left in a 2 pt loss and only lost by 4 to #2 Alabama on the road. In fact, all 4 of Ole Miss' losses were by 7 or less (comb 19 pts). They were also the only team to defeat eventual national champ Florida as they upset the #4 Gators in The Swamp. Last year Ole Miss entered the year #8 in the AP poll with high expectations. Those expectations were derailed in Wk 3 on a Thursday night game vs SC in which Jevan Snead hit just 7 of 21 and they lost by 6. Two weeks later they were beat 22-3 by Ala. They rose to 5-2 and were back in the rankings at #24 when they lost to Auburn 33-20. After having a combined 918-565 yard edge in wins over Tenn and LSU, the Rebels shockingly lost to rival Miss St by 14. They rebounded to beat Okla St in the Cotton Bowl (20-9 FD edge) and finished 9-4 and #20. The Rebels have just 10 ret st'rs (27 lettermen lost is the most in the SEC) and lose their QB. Despite their 4-4 record in SEC play, Ole Miss was +67.0 ypg (3rd best) and they almost made my Turnovers=Turnaround article (-7). They do draw a favorable schedule avoiding the top 3 teams from the East and will be favored in all 4 non-conf games. The Rebels are also back in their preferred role as hunter and not the hunted. Despite the draft losses they should get to their 3rd straight bowl.

MISSISSIPPI ST BULLDOGS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - In 2008 Wesley Carroll (PS#92, last 9 st in '07) started the first 4 but threw for just 560 (48%, 3-7) and lost his spot to 5'11" Tyson Lee (PS#31JC). Lee started the last 8 and threw for 1,519 (59%, 7-5). Carroll transferred and in '09 Lee battled soph Chris Relf (PS#87), who was the best athlete of the QB's and has a strong arm (9 pass att in '08). They also added VHT Tyler Russell (PS#7) but he RS. Relf was used mostly as a runner and Lee as a passer with Lee starting all 12, throwing for 1,444 (58.8%) but with a poor 4-14 ratio. Relf threw for 283 (53.7%, 5-3) and was the #2 rusher (500, 6.6). This year they lose Lee but Relf, who was impressive vs Ole Miss, will battle Russell who is more of a prototypical QB at 6'5" (40-5 ratio Sr HS). Adding depth is Dan Stegall (6'2" 220 rFr). While this unit has less starting exp than '09, I look for them to improve upon last year's 144 ypg passing and 9-17 ratio.

RUNNING BACKS - In '06 the Bulldogs had to replace their career leading rusher, Jerious Norwood (#3DC). I projected true frosh Anthony Dixon (PS#28) as the starter. He broke his hand early but still had 668 (4.0). In '07 Dixon found himself in Croom's doghouse often but still set the school record with 287 rush att's but Croom said he left 500 yards on the field (1,066, 3.7). In '08 they added speedy rFr Robert Elliott (PS#19). Elliott drew comparisons to Norwood with his quick cuts. Dixon did not top 20 carries in the first 5 but finally got the ball 27 times vs Vandy. He led with 869 (4.4). Tulane transfer Christian Ducré (487, 4.3 in '07) rushed for 222 (4.0). Elliott rushed for 61 (3.4) in 4 (torn ACL). Last year Dixon broke most of Norwood's school records. He set a MSU single game rush record with 252 vs UK (Norwood 247 in '05), set the single season rushing record with 1,391 (5.4) and departs as the school's all-time leading rusher. Ducré added 263 (5.8) and Elliot had 221 (5.0). This year they lose 1st Tm SEC Dixon (11 st, #6DC SF), Ducré (6 st) and Arnil Stallworth (1 st, 95, 3.7). Elliott will battle VHT's rFr Montrell Conner (PS#31) and JUCO Vick Ballard (PS#16JC), who rushed for 1,728 and 22 TD's at JC last year. Adding depth are Adrian Marcus (5'9" 225 So, PS#320), LaDarius Perkins (5'10" 190 rFr, PS#99) and FB's William Shumpert (6'0" 240 rFr, PS#109) and Sylvester Hemphill (5'11" 235 So, PS#228). I like the possibilities of this unit but it will be tough to replace Dixon's '09 production.

RECEIVERS - Last year MSU had to replace 2 of their top 3 receivers and Brandon McRae (#1 in '08) never appeared to be 100% (broken leg '08). McRae's numbers dropped to 116 (8.3). True frosh Chad Bumphis (PS#21) originally committed to Mullen at Florida and was compared to Percy Harvin. Bumphis led with 375 (11.7) in just 6 sts. TE Marcus Green (inj '08) had 6 sts and was #2 with 306 (11.3). RFr O'Neal Wilder (also off inj) was #3 with 236 (16.9). Leon Berry (PS#66JC) had 8 rec in the spring game and was a dangerous return specialist but only had 3 sts and 170 (12.1). This year they lose McRae (11 st) and Wilder (10 st). Not listed in the PSL are TE's Thomas Webb (6'5" 255 Sr, PS#98) and Jordan Blankenship (6'4" 200 rFr). This is a more exp'd unit and is in the second year of Mullen's spread offense.

OFFENSIVE LINE - In '08 MSU had 2 returning st'rs but they combined for just 14 sts so the unit was very inexp'd and opened holes for just 102 ypg rush (3.1) with 36 sks (9.4%). Croom liked a large OL but new coach Mullen likes lean, mobile OL's so it was not a good fit. Last year they only had to replace 2 OL (comb 16 sts) and had 6 back with starting exp. All 5 st'rs started all 12 and quite frankly out-performed my expectations as they averaged 228 ypg rush (4.9) (#9 FBS) with just 20 sks allowed (7.5%). It was still a good sized group averaging 305 lbs. This year they lose RG Craig Jenkins (12 st, 4Y st'r) and bkp T Chris Spencer (2 gm). They have 4 st'rs back (85 car st) and they have 5 VHT's in the 2 deep including 2nd Tm SEC LT Derek Sherrod (PS#11). Not in the PSL is Sam Latham (6'1" 280 So, PS#443). This looks like the best Bulldogs O-line in yrs.

DEFENSIVE LINE- The Bulldogs had an outstanding rush D in '06 (3 st'rs ret'd) allowing just 115 ypg rush (3.4). They had to replace 3 st'rs in '07 and slipped to 157 (4.1) with just 19 sks. In '08 they had to replace 2 st'rs. Sean Ferguson became just the 2nd MSU true frosh DL in 22 years to start his first career game. The Bulldogs gave up 151 ypg (4.1). Last year they had to replace 3 st'rs but added 3 VHT's including PS#6JC Pernell McPhee (IFS) who led JC's in sacks in '07 and '08 with 33 combined. I called the unit less exp'd but with added talent and the numbers were about the same (146 ypg, 4.0, 18 sks). This year they lose DT Charles Burns (6 st, 12 tkl), DT Kyle Love (10 st, 35 tkl, 1.5 sk) and DE Brandon Cooper (5 st, 7 tkl) but have 9 of the top 12 back (6 w/st exp). They also get the large addition of DT James Carmon (6'7" 345, PS#10JC) who they hope will have a Terrence Cody-type impact. This is a much more veteran group and the Bulldogs should have their best rush D in at least 4 years.

SLB KJ Wright

LINEBACKERS - Last year the Bulldogs had to replace their #1 tackler but had 4 LB back (comb 20 st in '08) and also ret'd Jamar Chaney (#1 tkl'r '07, inj '08). They added PS#21JC Chris White (IFS). This year they lose Chaney (12 st, #1 tkl'r, 4.5 tfl, #7DC PHI) but have their #2 and #3 tacklers back. Not in the PSL are Brandon Wilson (6'0" 245 So, PS#395) and Mark Lynn (6'0" 230 Sr). I will call for continued improvement.

DEFENSIVE BACKS - MSU had a solid #30 finish in my PDR in '07 and with an exp'd secondary but inexp'd front 7 in '08 dropped to #50. Last year they had to replace 3 st'rs. True frosh FS Johnthan Banks became the first MSU player ever to return 2 int for TD's in the same game - both off of Tim Tebow - and was just the 3rd player in SEC history to accomplish it (Joe Brodsky Florida in 1956, Jake Scott Georgia in 1968). The inexp'd unit finished #49. This year they lose CB Marcus Washington (12 st, 60 tkl, 5 tfl) but have 8 back who earned starts last year including Banks, making this unit much more exp'd. Not in the PSL are Chris Cameron (5'10" 185 So) and Emmanuel Gatling (6'0" 220 Sr).

SPECIAL TEAMS - Sylvester Croom did not have a lot of success in my ST rankings as MSU finished #81, #114, #100, #108 and #115 in his 5 yrs. Dan Mullen, following Urban Meyer's lead, oversees this unit personally. He signed a JC P and K and used plenty of st'rs in the unit. Last year they had to replace their P, K and top PR/KR but Mullen had an immediate impact. Leon Berry and Chad Bumphis were a pair of dangerous KR's (comb 1,398 yds, 25.9) and were also the top PR's (7.7 and 9.0). Heath Hutchins (PS#23JC) who avg 46.1 at JC had a 39.7 avg (34.0 net). Sean Brauchle (PS#27JC) who hit a 57 yd FG in practice hit 6-9 FG's (long 49) but was injured. Derek DePasquale hit 10-12 FG's (long 48, 1 miss 51). Miss St has only had 3 TB's on KO's in 3 yrs (lowest in FBS). Overall MSU improved to #54 and with all of the key players back I look for continued improvement.

COACHES - HC Dan Mullen was Urban Meyer's QB coach at both BG and Utah and was the OC/QB coach at Florida for 4 years prior to coming here. He hired former TX A&M OC Les Koenning as the OC. DC Carl Torbush, who was the HC of NC from '97-'00 and DC at Bama & A&M under Dennis Franchione, left this year to become the DC at Kansas. Mullen hired Oklahoma DL coach Chris Wilson and Middle Tenn DC Manny Diaz to be co-DC's in 2010.

PHIL'S FORECAST

Prior to 2001 the Bulldogs actually had the best record of all SEC West schools over the previous 4 years! The last 3 years of HC Jackie Sherrill's tenure ('01-'03) did not go well with a 3-21 SEC record. Sylvester Croom inherited a 2-10 team that was -182.9 ypg in SEC play (-21 TO) and instilled more discipline. In his first season, they upset #20 Florida and had close losses to Bama and Ark finishing 3-8. The school was put on four years probation (lost 4 scholarships '05 and '06). Croom had 16 st'rs back but just 9 seniors and very few winnable HG's in '05. They opened 2-8 but when they whipped Ole Miss 35-14, they stopped a streak of 19 straight losses vs the SEC West (S/'01). In '06, due to a tough schedule, I projected they would have improved play but would suffer their 6th straight losing season. The Bulldogs finished last in the SEC West but their -51.9 ypg was better than bowl-bound Kentucky and Ole Miss. MSU upset Alabama on the road, ending a streak of 23 straight SEC road losses. They had close losses to both Georgia and Kentucky and were actually four plays away from being 7-5 in '06 despite QB injuries. The D allowed just 321 ypg, their best since 1999. In '07, I predicted MSU would be greatly improved with a shot at a bowl, and they did not disappoint. They stunned Auburn 19-14 then beat #14 KY 31-14 and #21 Alabama 17-12 (2nd consec yr Croom defeated his alma mater). They came back from a 14-0 deficit vs Ole Miss then won the Liberty Bowl for an outstanding 8-5 season. In '08 I pointed out some troubling signs. In '06 and '07, DC Ellis Johnson's D's finished #41 and #21 in the FBS but they had to replace him. Despite their 4-4 SEC record, MSU was -73.4 ypc (league worst) and benefitted from 4 net close wins. In '08 at the SEC media days, Croom said it was a realistic goal for his team to win the SEC Title. Unfortunately the season did not go as expected as they fell to 4-8 and Croom resigned after a 45-0 loss to Mississippi. They brought in Dan Mullen from Florida and he inherited a team that was an SEC worst -111 ypg. They had 10 ret st'rs (fewest SEC) and had to learn new schemes. I thought Mullen did a tremendous job. After a 1-1 start they beat Vandy on the road (341-157 yd edge) which stopped a string of 6 straight SEC road losses. They almost upset LSU getting SOD on 4th & gl at the footline (374-263 yd edge). They outgained GT but 3 fumbles led to 21 GT points. Houston did not take their first lead until mid 4Q in MSU's 7 pt loss. They rebounded to beat MT and moved to 3-4 then gave Florida a tough battle in front of a sellout crowd only losing by 10. They got their 3rd straight win on the road for the first time since1999 knocking off Kentucky as Dixon rushed for 252 (493-308 yd edge). After an expected loss to Bama, Ark beat the Bulldogs by 21 to clinch their losing season. Miss St knocked off #20 Miss and finished 5-7. In a 3-game home stand vs LSU, GT and Houston, Miss St lost by a combined 22 points but had 13 TO's. Last year's squad did have just 7 sts lost to injury. This year they have 14 ret st'rs and are in the 2nd year of Mullen's system. They were just -21.9 ypg in SEC play (#8) last year. They pulled 3 upsets LY and probably only need 2 this year to get back to a bowl despite drawing Florida and Georgia out

FLORIDA GATORS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - Tim Tebow (PS#3), who runs like a FB, mostly ran QB draws as a true frosh. Tebow had a record breaking 2007 becoming the first soph to win the Heisman and was the first player in NCAA history with over 20 rush and 20 pass TD's in the same season. He set the school record for total offense and an NCAA record for rushing TD's by a QB. Tebow played with injuries in both '07 (shoulder) and '08 (knee). HC Urban Meyer did his best to limit Tebow's carries in '08 but he was still the #1 rusher with 673 (3.8) while throwing for 2,746 (64%) with an outstanding 30-4 ratio. Last year Tebow became the first player ever to be invited to the Heisman ceremony 3 times. He leaves with many school, SEC and NCAA records including most TD's rushing (beat Herschel Walker). Tebow threw for 2,895 (67.8%) with a 21-5 ratio and was the #1 rusher (910, 4.2). John Brantley saw most of his action vs CS, Troy and FIU. He played 10 gms in '08 throwing for 235 (64%, 3-1), but only 7 last year. He hit 36-48 (75%) for 410 yds with a 7-0 ratio but does not have Tebow's mobility. With Tebow moving on to the NFL (#1DC DEN) Brantley's backups are two true frosh. While I expect Brantley to have a good year, he is replacing one of the greatest players in college football history.

RUNNING BACKS - In Meyer's first 3 years ('05-'07), he was very unhappy with the production of his RB's. In '07 Kestahn Moore led the RB's (#3 tm) with 580 (5.6). In '08 Meyer used 3 different RB's in USC transfer Emmanuel Moody (PS#6), true frosh track champ Jeff Demps (PS#28) and rFr Chris Rainey (PS#15). While individually the stats were not overwhelming, the combination was outstanding with Rainey having 652 (7.8), Demps 605 (7.8) and Moody (inj plagued) 417 (7.2). The 3 VHT's combined for 1,674 and 7.6 ypc and all 3 ret'd last yr. Demps was the #1 RB rusher with 745 (7.5) while Rainey added 575 (6.5) and Moody 378 (6.5) combining for 1,698 (6.9). All three return again and Mike Gillislee (PS#46), who beat Rainey in a 40 yd dash, had 267 (8.6) as a true. Rainey worked at the "Percy" position (slot receiver) in spring. Not listed below are FB's TJ Pridemore (6'1" 247 So, PS#75) and Steven Wilks (6'1" 235 Jr, PS#236). It looks like the Gators will finally have a RB lead the team in rushing for the first time since '06.

RECEIVERS - In 2008 Percy Harvin (PS#1), who led in '07 with 858 (14.5) was #2 with 644 (16.1). Louis Murphy, who had 548 (14.8) in '07 was #1 with 655 (17.2). Last year both Harvin (MIN) and Murphy (OAK) were st'rs in the NFL and the Gators, who ret'd almost everyone from their '08 Title team had the biggest question marks in this unit. TE Aaron Hernandez (PS#1) won the Mackey Award and led in rec's with 68 (12.5). Riley Cooper (PS#15) led in yards (961, 18.8) and soph Deonte Thompson (PS#4) had 343 (14.3). David Nelson (PS#19) added 291 (11.6). This year they lose Hernandez (13 st, #4DC NE), Cooper (14 st, #5DC PHI), Nelson (9 st), Brandon James (4 st, 215 yd) but add 6'3" Carl Moore (PS#1JC, RS LY, 8 rec spg gm) and rFr Andre Debose (PS#2). They are less exp'd but could be more productive.

OFFENSIVE LINE - In 2007 UF had to replace 2 OL st'rs and Maurkice Pouncey became the first true frosh OL to start an opener here since 1992. With Tebow and Harvin combining for 1,659 rush yds, the Gators averaged 200 ypg rush (5.3), their best ypg since '89 (13 sks, 3.6%). In '08 they had 3 st'rs back and added LT Phil Trautwein (2nd Tm SEC '06, inj '07). The team improved to 231 ypg (5.9) with 16 sks (4.9%). Last year they had to replace 2 st'rs and figured to have one of the top OL's in the NCAA. True frosh Xavier Nixon (PS#1) was called the most athletic lineman and started the final 5. The line paved the way for 222 ypg rush (5.6) but allowed 30 sks (8.2%). This year they lose 1st Tm AA C Maurkice Pouncey (14 st, 3Y st'r, #1DC PIT) but his twin brother Mike (PS#44) moves to C from OG. Not in the PSL are Shawn Schmieder (6'4" 272 Jr), Gary Beemer (5'11" 265 Sr) and William Steinmann (6'5" 272 Jr). This group has 87 career starts (8 VHT's in the 2 deep) and while their rushing numbers will drop with a less mobile QB, they remain one of the NCAA's elite OL's.

DE Justin Trattou

DEFENSIVE LINE - In the Gators' 2006 National Title year they had a veteran DL that yielded just 73 ypg rush (2.7), their best since 1997 (69, 2.1). In 2007 they had to replace 4 NFL DC's (#1, #3, #4, #4) but still allowed just 103 ypg rush (3.0). In '08 they had to replace 2 st'rs (#1DC) and then a ret st'r and a proj st'r missed most of '08. UF allowed 105 ypg (3.4) with 34 sks. Last year the entire 2 deep ret'd but they suffered through an inj and susp plagued year (no DL w/13 sts) with only 3 having more than 8 sts. UF still slightly improved to 100 ypg (3.1) with 39 sks. If you take away the SEC Title game debacle, they allowed just 88 ypg rush (2.9). This year they lose 1st Tm SEC DE Carlos Dunlap (12 st, 38 tkl, 9 sk, #2DC CIN), 1st Tm SEC DE Jermaine Cunningham (12 st, 34 tkl, 7 sk, #2DC NE) and DT Troy Epps (5 tkl). All 4 proj st'rs are VHT's and they get back DT Lawrence Marsh (13 sts '08). This is still one of the premier DL's (8 w/st exp) but is a little less exp'd. Not in the PSL are Glen Watson (6'2" 299 So), Brandon Antwine (6'0" 297 Sr, PS#73) and Kedric Johnson (6'4" 230 rFr, PS#172).

LINEBACKERS - In 2007 and 2008 the Gator LB's had 77 starts combined. All 77 starts ret'd in '09 and 10 of the top 11 LB's were VHT's. This year they lose Brandon Spikes who earned 1st Tm AA (12 st, #3 tkl'r, 6.5 tfl, #2DC NE), WLB Ryan Stamper (14 st, #1 tkl'r, 5.5 tfl) and Dustin Doe (2 st '09, #5 tkl'r, 16 st '06-'08). This is still a quality unit (9 VHT, 3 deep) including AJ Jones (29 car sts) and Brandon Hicks (9 car sts) but they were just the #9 and #11 tkl'rs last year.

DEFENSIVE BACKS -The Gators had to replace 3 st'rs in '06 but moved up to #3 in my PDR. In '07 they had to replace 3 st'rs (1st and 2nd Tm AA). UF plummeted to #72. In '08 when I picked the Gators #1 in my magazine, the most FAQ was "with that secondary?" I noted that they only had to replace 1.5 st'rs and I expected significant improvement and UF moved up to #5 (12-26 ratio). Last year the unit ret'd intact including the NCAA's top CB (Joe Haden). UF finished #7 (10-20 ratio). This year they lose 1st Tm AA CB Haden (14 st, 68 tkl, 4 int, 10 pbu, #1DC CLE), FS Major Wright (12 st, 32 tkl, 3 int, #3DC CHI) and CB Markihe Anderson (1 st, 20 tkl, 1 sk). Taking over for Wright is Will Hill (PS#2) who is considered one of the team's best defensive players and should thrive with 1/2 of their super CB tandem returning in Janoris Jenkins. Four VHT true frosh were IFS. Despite the losses, this is still clearly one of the top secondaries again.

SPECIAL TEAMS - Urban Meyer coaches the ST unit himself. In his first 4 years ('05-'08) the Gators were #26, #55, #20 and #13 in my ST rankings. He uses a lot of st'rs on the units. KR Brandon James avg 23.1 on KR's (13.8 PR) in '08 and last year got the first UF KR TD since 1999 (123 gm streak). He had 4 career PR TD's. K Caleb Sturgis (PS#6) hit 22-30 FG's (long 56, 3 miss 50+). Sturgis had 10 TB's on 99 KO's. Punter Chas Henry improved to 43.4 with an amazing 41.0 net. After 8 games they had allowed zero PR yards. UF finished #9 in my ST rankings. This year they lose James but have plenty of speed to fill in on returns and have one of the nation's best P/K combos.

COACHES - Urban Meyer became a HC in 2001 and was 17-6 at Bowling Green ('01-'02). He moved on to Utah (22-2) and coached a 13-0 season with a BCS bowl win (#4 AP). Meyer has 2 Nat'l Titles in 5 yrs here. He took a leave of absence after the bowl for health reasons but was back for the spring. OC Steve Addazio was the interim HC while Meyer was gone and was the TE/OL coach here since '05 before his promotion to OC in '09. Charlie Strong was the DC here for 7 yrs but takes over as Louisville's HC. George Edwards was hired as the new DC in Jan but he left (now DC of BUF Bills) and Teryl Austin (DB coach Arizona NFL L3Y) is the main DC with promoted safeties coach Chuck Heater (on Meyer's staff since '04) as co-DC.

PHIL'S FORECAST

In 2005 Urban Meyer inherited 15 st'rs. He was 6-0 at home and swept Fla St, Tenn and Georgia for just the 4th time in school history. They finished 9-3 (#12). Everything went their way in the magical 2006 National Title year with many close and fortuitous wins. They narrowly got to the Title game in the BCS vote but dominated Ohio St allowing just 82 yards. In 2007 the Gators were the favorite to win SEC (#6 AP). I was beat up pretty good by Gator fans over the summer as I had UF tied at 3rd in the SEC East and #14 in my Top 25 which was lower than any other source documented by *stassen.com*. The Gators finished just 9-4 and #13 after their Capital One Bowl loss. In '08 Georgia was the AP #1 but numerous factors had me calling for the Gators to not only top them in the SEC East but to finish #1 in the country. The Gators were a stronger team in '08 than they were in their 2006 National Title year. In 2006 they outgained SEC foes by 42.5 ypg and in '08 they were #1 (+133.4 ypg). In '06 their average win was only 29.7-13.5. In '08 it was a dominating 43.6-12.9. The Gators' only loss in '08 was vs Ole Miss, a game in which UF had a 443-325 yd edge and was SOD on a late 4th & 1 passing up a long FG. Unlike '06 which featured weekly escapes, '08 did not have a single win by less than 10. Everyone always asks me which team is my favorite and I reply, "the team I pick #1" so I was clearly a Gator fan in the BCS Title game when they beat Okla 24-14 (480-363 yd edge). Florida benefitted from +22 TO's in '08 and only had 3 SEC HG's in '09 but had all 11 st'rs back on defense and 7 on offense including Tim Tebow. All 9 sets of my power ratings called for Florida to go 12-0. The Gators received 58 of 60 1st place votes in the preseason AP poll, the highest ever (USC 95.4% in '07). The Gators did indeed go 12-0 even surviving a Tebow concussion. Tebow was questionable prior to their trip to #4 LSU in Death Valley at night but UF still prevailed with 327-162 yd edge ending LSU's streak of 32 straight Sat night home wins. They had a couple of narrow escapes as they got some fortunate ref calls in their 3 pt home win over Ark and only led SC by 3 in the 4Q. They still were favored in the SEC Title game and 1 step from reaching the National Title game but Alabama dominated (outgained 490-335). Prior to the bowl, Urban Meyer announced he was quitting then said he would take a leave of absence instead. Undefeated #4 Cincy was without HC Brian Kelly. The Gators played with passion in Tebow's final game and routed the Bearcats 51-24 with a 659-246 yd edge. UF was a league best +140.4 ypg in SEC play. This year they have just 11 ret st'rs and must replace Tebow. They also must travel to Alabama in SEC play. This year's team is not as deep or exp'd as the '09 version but has my #1 rated D in the SEC and they are still legitimate National Title contenders.

GEORGIA BULLDOGS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - Last year I pointed out that Mark Richt was hoping for a season like '05 out of his QB's. In '05 UGA had to replace their career leading passer, David Greene (#3DC). DJ Shockley (PS#3) was lightly tested but led UGA to the SEC Title earning 1st Tm SEC and throwing for 2,588 (56%) with an outstanding 24-5 ratio (322 rush) in '05. Matthew Stafford was the QB the next 3 yrs and in '08 threw for 3,459 (61%) with a 25-10 ratio (#1 overall pick NFL). Joe Cox's stats last year were eerily similar to Shockley's as he threw for almost the identical yds (2,584), comp % (56) and same amount of TD's (24, 1 off UGA record). The 3 areas that were different were the rush yds (-28), int (+10) and no SEC Title. The 17 total QB int were the most at UGA since 1984. Cox started all 13 and his bkp was soph Logan Gray (PS#19) who was more mobile. Gray was expected to move to WR TY leaving the battle between 2 rFr in Aaron Murray (PS#6) and Zach Mettenberger (PS#24), but Mettenberger was dismissed in spring (Gray is considering a transfer). Even though they are less exp'd than LY, they are not replacing a #1DC and UGA's comp % and ratio could improve in '10.

RUNNING BACKS - Surprisingly heading into '07 UGA had just one 1,000 yd back since '92! In '07 rFr Knowshon Moreno (PS#14, 1334, 5.4) was the first 1st Tm SEC RB here since Garrison Hearst in 1992. In '08 Moreno became the 2nd back in UGA history (Herschel Walker) to have B2B 1,000 yd efforts (#1 SEC, 1400, 5.6). RFr Caleb King (PS#7) rushed for 247 (4.0) but after missing a key block had just 1 att over the L/4 gm. True frosh Richard Samuel (PS#10) had 133 (5.1). Moreno opted to leave early (#1DC DEN) and King was the frontrunner into Aug last year but injured his hamstring (miss 1st 2). The speedy Samuel led in rushing in each of the first 3 (104 vs Ark). They also used DB Branden Smith (4.3 spd) in the Wildcat package (208, 12.2). Samuel had an 80 yd TD in the Ark game but lost 2 fmbl and his PT decreased as King ret'd. King was #2 with 594 (5.2) in 5 sts. They took the RS off Washaun Ealey (PS#3) with 7:07 left in the 3Q vs LSU (Wk 5). Ealey went on to lead with 717 (5.7). Samuel finished with just 395 (4.5) and moved to LB in spring. This year the unit returns intact and not listed below are Carlton Thomas (5'7" 180 So, PS#35), FB's Kevin Lanier (5'11" 209 So), Charles White (6'1" 224 Jr, PS#45) and Cameron Allen (6'1" 209 So, PS#419). UGA had a pair of 100 yd rushers vs GT (Ealey and King) but just three 100 yd efforts all year and I look for significant improvement.

RECEIVERS - In 2008 the Bulldogs ret'd their #2 rec Mohamed Massaquoi (PS#5, 491, 15.3 in '07) and added exciting true frosh AJ Green (PS#3). They formed the best duo in the SEC with Green leading with 963 (17.2) and Massaquoi adding 920 (15.9). Michael Moore (PS#15) had 451 (15.6). Last year they had to replace Massaquoi (#2DC) and Green was inj'd (miss 3) so his numbers dropped to 808 (15.2). RFr Tavarres King (PS#6) was a distant #2 with 377 (20.9). Moore's numbers dropped to 249 (10.0) and true frosh Rantavious Wooten (PS#40) had 197 (19.7). Richt has sent four TE's to the NFL since his arrival here, but LY projected starting TE Bruce Figgins (PS#23) RS. TE's Aron White (PS#12), true frosh Orson Charles (PS#2) and Arthur Lynch (PS#4) combined for 38 rec's (15.5). This year they only lose Moore (5 st). Figgins returns and Green is back to full health making UGA my #2 receiving corps in the NCAA (see pg 13).

OFFENSIVE LINE - In '07 UGA had to replace 3 st'rs who were 1st and 2nd Tm SEC and a #6DC. Three frosh started including 2 true but the Bulldogs surprisingly improved to 177 ypg rush (4.5) while trimming their sk total to 15. In 2008 they lost two st'rs and then LT Trinton Sturdivant was lost in Aug (knee inj). That made it a very young group again and in the 2H of the yr, the OL consisted of 2 soph and 3 frosh. The numbers slipped to 148 ypg rush (4.5) with 17 sks (4.3%). All 5 st'rs ret'd LY and they got back Vince Vance (6 st until inj '08) and Sturdivant giving it the potential to be the best OL here since '05. Unfortunately Sturdivant tore his ACL again in Wk 1 and RT Josh Davis missed the first 6. UGA only improved to 161 ypg rush (4.7) but led the SEC with just 12 sks (3.5%) allowed. They avg 243 ypg (5.9) rush the L5 gms after a slow start (110 ypg, 3.6 first 8). This year they lose LG Vance (4 st) and bkps Casey Nickels (11 gm) and Kevin Perez (3 gm). This unit has an amazing 155 career starts (counting Justin Anderson who moved to the DL in spg) which is #1 in the FBS (my #1 OL unit) and includes 2nd Tm SEC LT Clint Boling and 2nd Tm SEC C Ben Jones with 11 VHT's in the 3 deep.

DEFENSIVE LINE - In '07 UGA had to replace 2 starting DE's and 2 DT's (comb 8 sts) but only allowed 110 ypg rush (3.3) and led the SEC in sks with 42. In '08 they had to replace their top sack man, then lost DT Jeff Owens in Wk 1. The unit was banged up all year and surprisingly dropped to #8 in the SEC in sacks (18 reg ssn) and the rush D slipped to 122 ypg (3.6). Last year they had to replace 4 DL (comb 25 sts) but got Owens back. DE Roderick Battle was lost after 2 sts (ACL), but they actually improved to 3.4 ypc (126 ypg) with 30 sks. This year they lose DT Owens (13 st, 32 tkl, 1.5 sk, #7DC PHI), DT Kade Weston (10 st, 29 tkl, 2.5 sk, #7DC NE), 2nd Tm SEC DT Geno Atkins (3 st, 36 tkl, 3 sk, #4DC CIN), Battle (3 tkl), Montez Robinson (2 sk) and Brandon Wheeling (7 tkl). They are switching to a 3-4 and the 3 deep has 7 VHT's. DC Grantham's system is similar to New England and Bama and requires a massive NT (called nose). Last year they basically had 2 st'rs back to a 4 man DL and this year have 1 back to a 3 man line.

LINEBACKERS - This has been an inj plagued unit the last 2 years. Last year they lost their starting MLB (9 st) but ret'd 3 who had 8+ career starts including their top 3 LB tkl'rs. The star of the unit was clearly Rennie Curran (#1 tkl'r 10 of 12 gm). This year they lose 1st Tm SEC Curran (12 st, 130 tkl, 5 tfl, #3DC TEN), SLB Darius Dewberry (6 st, 23 tkl) and MLB Marcus Washington (9 tkl). They shift to a 3-4 so 2nd Tm SEC DE Justin Houston, who is the top returning sk man in the SEC is now a LB and they move RB Richard Samuel (PS#10) in giving them 6 with starting exp and 8 VHT's in the 3 deep. Even with the loss of their star, provided this unit stays healthier, it should be stronger.

CB Brandon Boykin

DEFENSIVE BACKS - UGA had a veteran unit in '08 but after finishing #8 and #17 in my PDR the previous 2 years, they surprisingly dropped to #57. LY they had to replace 2 st'rs (#3DC) and once again had a lower than expected finish at #74. This year they lose CB Prince Miller (13 st, 42 tkl, 2 pbu), SS Reshad Jones (13 st, 73 tkl, 4 int, 7 pbu, #5DC MIA), FS Bryan Evans (13 st, 50 tkl, 3 pbu), and Makiri Pugh (2 tkl). They add PS#4JC Jakar Hamilton (IFS) and true frosh Alec Ogletree (PS#5) and while they should move up in the PDR, this is a less exp'd unit and my biggest concern on the 2010 team.

SPECIAL TEAMS - This unit is always strong under Richt. From '01-'08 they had six Top 24 finishes including #5, #6 and #2. Last year they had to replace their outstanding P Brian Mimbs (37.5 net) and their top KR. Drew Butler (PS#21), whose father Kevin is the only K in the CFB HOF, simply took home the Ray Guy Award for best P in the country with an amazing avg of 48.1 (net 41.9). Blair Walsh hit 15-23 FG's (long 52) in '08 but Richt was unhappy with his KO's. Walsh improved with 17 TB's on 75 KO's holding off JC Brandon Bogotay and almost setting a UGA single season FG accuracy record (missed 55 yd FG in the wind vs GT). He hit 20-22 FG's (long 53, four 50+). The new LS was rFr Ty Frix whose father was a LS here in their magical 1980 season. Brandon Boykin became the 2nd SEC player to have 3 KR TD's in the same season (Willie Gault, UT, 1980). This year they only lose PR Miller (11.9) and with the best K/P/KR combo in the country, they could improve upon '09's outstanding #6 ST finish.

COACHES - Mark Richt was the SEC COY in '02 and '05. In '08, Richt received a pay raise bringing his salary to $2.8 mill per year through 2013. Richt turned the playcalling over to Mike Bobo prior to the GT game in '06. Bobo, who was a QB here, became the youngest coor in the SEC (32) when he was promoted to OC in '07. Richt was forced to part ways with DC Willie Martinez (5 yrs) as UGA's defense went from allowing 17.6 ppg in '06 to 20.2 in '07, 24.5 in '08 and 25.9 in '09. After an exhaustive search, the new DC is Todd Grantham. Grantham has 11 yrs of NFL coaching experience most recently as the DL coach with Dallas the last 2 yrs. Prior to that he was the DC of the Browns from '05-'07.

PHIL'S FORECAST

In 2002 Mark Richt led Georgia to their first SEC Title in 20 yrs and set a school record with 13 wins and finished #3. They had just 9 st'rs back in 2003 and despite a spate of inj's and susp, were 11-3 and outgained SEC foes by a league best 121.8 ypg finishing #7. In '04 Richt had his most veteran squad yet and finished 10-2 (+105 ypg in SEC play). They also beat Florida for the first time since 1997. In '05 they had 12 senior st'rs but had to replace 6 NFL DC's. My publication was the ONLY one in the country to call for UGA to win the SEC East as everyone else had them finishing 3rd! They nearly went undefeated but QB Shockley was injured and they lost to UF by 4 without him. With Shockley not 100% the next wk, they lost to Aub by 1. They throttled LSU in the SEC Title game but came up short in the Sugar Bowl to finish 10-3 and #10. Only UGA and USC finished in the Top 10 each year from 2002-'05. UGA's D finished in the Top 20 for 7 straight years from '01-'07. Richt became just the 5th SEC coach to win 10+ gms in 4 straight years (Bryant, Dooley, Fulmer, Spurrier). In 2006 they had just 9 ret st'rs and struggled at QB. They opened 5-0 (up to #9) but lost 4 of their next 5. They won their final 3, all vs ranked tms to finish #23. In '07 they once again had just 9 ret st'rs. They were picked #3 in the East by the media. Mine was the only magazine to pick them to win the SEC East as I had them tying for the Title. UGA went 6-2 and tied Tenn for the SEC East Title. I had them ranked 11th which was higher than any other publication and the Bulldogs finished #2. UGA won their final 7 including a 42-30 whipping of Fla and they crushed Hawaii in the Sugar Bowl 41-10. In 2008 they had the most veteran unit in the SEC (15 ret st'rs) and were tagged #1 in the preseason AP poll. Of the 14 sources from *football.stassen.com*, 10 had UGA either #1 or #2, but I had the Bulldogs 2nd in the SEC East mostly due to a killer schedule including a brutal 4 game road trip. UGA finished 10-3 and ranked #13. They were +73.8 ypg in SEC play, 4th best. Last year they had to replace QB Stafford, RB Moreno and WR Massaquoi but were coming off a year in which they had 44 sts lost to inj. UGA entered #13 in the AP poll but their QB's tossed 17 int's. They dominated the first 29:00 vs Okla St but lost on the road 24-10. They rebounded with wins vs SC, Ark and Ariz St. The next week vs LSU they suffered a questionable celebration penalty which set LSU up for the game winning TD. They were pounded by Tenn 45-19 (not even scoring an off TD) and fell to 3-3 and Richt was under fire. They beat Vandy 34-10 and were talking revenge vs Fla but were pounded again 41-17. After expected wins vs Tenn Tech and Aub at home, they had a 487-260 yd edge vs UK but lost by 7 due to 4 TO's. They took advantage of the fact that GT had the ACC Title game on deck with a 30-24 win. In the bowl, UGA was not as impressive as the 44-20 win (outgained 471-366). They had 2 net close wins and were -21.0 ypg in SEC play (-16 in TO's). This season they have 15 ret st'rs (3rd most SEC) and have had 13 consec 8+ win seasons. I will call for UGA to top LY's 8 win total as they are a prime contender in the SEC East. My main 2 sets of power ratings call them the #7 and #8 team in the NCAA.

SOUTH CAROLINA GAMECOCKS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - It's surprising that in Steve Spurrier's 5 years a dynamic QB has not emerged. The 2008 debut of rFr Stephen Garcia (PS#10) was highly anticipated but he was suspended in the spring and not reinstated until the fall, putting him #3. Tommy Beecher started the opener but then Chris Smelley took over as the starter. At the end of the year Smelley and Garcia rotated snaps and Garcia started the bowl. For the season, SC's 3 QB's threw for 222 ypg but had the lowest comp % of the Spurrier era (55%) with a 20-27 ratio. Smelley and Beecher transferred last year so the job was Garcia's with his backup being rFr Reid McCollum (PS#37). Spurrier rarely praises his QB's but a couple of times he gave praise to Garcia last year. Garcia actually tied the school's single season record for att's with 432 but had just the 8th most yards. It was a disappointing bowl as he hit just 16-38 for 129 (9 drops). Garcia is a mobile QB (453 gross rush) and he threw for 2,862 (55.3%, 17-10). McCollum played in just 2 (6 att) and left after the season. CB Stephon Gilmore (PS#6) was the "WildCock" QB in the final 2 games and is expected to see more action on offense this year. Garcia's commitment has been questioned but he appears poised to put in top-notch effort after becoming the first QB here to start every game in a season for Spurrier. True freshman Connor Shaw (PS#46) grabbed the #2 spot in spring which caused Aramis Hillary (PS#53) to transfer. I expect Garcia to have the best season of any Spurrier QB at SC by far.

RUNNING BACKS - SC has not had a 1,000 yard rusher since 2000 (Derek Watson) and in the last 9 years, the leading rusher has avg 668 yards. Last year they had to replace their top rusher, Mike Davis, who had just 573 (3.5) and the leading returning RB, Eric Baker (5'11" 181 Jr, PS#56) had just 182 (4.0). The top 3 RB's were power back Brian Maddox (5'10" 230, PS#23) who had 121 (3.8) in '08 and two speed backs in true frosh Jarvis Giles (PS#23) and 5'9" rFr Kenny Miles (PS#98). They did add Bryce Sherman (5'4" 152 So) who was on the track team and was compared to LSU's Trindon Holliday. Sherman had just 9 carries (6.3). Giles had 113 (10.3) vs FAU but Spurrier felt that he danced around too much (0 rush att L3) and he finished with just 277 (5.3). Giles and Miles each topped 5.0 ypc with Miles leading with 626 (5.4). Maddox was #2 with 307 but only a 3.0 ypc. Baker had just 2 rushes (inj). This year not only does the unit return intact, they add true frosh Marcus Lattimore (PS#1). This should be the most productive backfield of the Spurrier era.

RECEIVERS - In 2006 Sidney Rice had 1,090 (15.1) and left early for the NFL (#2DC). Kenny McKinley was #2 with 880 (17.3). McKinley set a school record for rec with 77 in '07. TE Jared Cook was #2 with 421 (14.0) and was also one of the team's fastest. In '08 McKinley became the school's career receiving leader. He missed 3 but was still #1 with 642 (11.9). Cook was #2 with 573 (15.5). Last year they both departed (#5 and #3 DC's) and the top returnees were Moe Brown (391, 13.0) and 6'4" Jason Barnes (346, 12.8) who Spurrier compared to Sidney Rice. Spurrier landed true frosh Alshon Jeffery (PS#10) and 6'5" rFr Tori Gurley (4.5 spd) emerged. Top TE Weslye Saunders (PS#13) was banged up and finished #4 (353, 11.0). Jeffery led with 763 (16.6) and Gurley added 440 (14.2). They rarely saw the field at the same time as they were both trained at the same WR spot but that should change in '10. This year they lose Brown who was #2 with 491 (14.9) and Scott Spurrier (Steve's son, 1 rec). Not listed below is TE Kyle Madden (6'3" 242 So). This could be the best receiving corps of the Steve Spurrier era and is certainly the tallest with 5 receivers 6'4" or taller.

OFFENSIVE LINE - In each of Steve Spurrier's five years, the injury prone OL has been shuffled constantly. In 2008 they had 4 st'rs back but 3 of the ret st'rs combined for just 12 sts. That unit opened holes for just 94 ypg rush (2.9) while allowing 39 sks (8.6%). SC has only had 2 OL ever earn 1st Tm SEC (last in '98). Last year they had to replace 2 st'rs and then Terrence Campbell (9 st '08) was lost after 2 sts. Again only one OL started all 13 at the same position and that was RG TJ Johnson. Ten players started. The team improved to 121 rush ypg (3.6) but allowed 37 sks (8.4%). Last year's OL coach Eric Wolford said that they'll finally look like Florida's OL as they'll have some size in 2010 but he left to become the HC of Youngstown St. This year they lose Lemuel Jeanpierre (10 st-8C, 2LG), Garrett Anderson (7 st-5C, 2LG), LG Heath Batchelor (3 st) and G Pierre Andrews (2 gm). They have 72 career starts returning and hopefully if they get some stability, should produce much improved numbers.

DE Cliff Matthews

DEFENSIVE LINE - In 2007 SC had an injury plagued D-line that allowed 209 ypg (4.8) rush (highest in 20+ yr) and the D recorded 21 sks. In 2008 they had their most veteran DL in years and trimmed the ypg rush to 133 (3.6), their best since 2000 (31 sks). Last year they had to replace one starter. In each of Steve Spurrier's 5 years, the DL has been banged up and last year no DL started more than 11. The injuries may have been the reason they put up similar stats (138 ypg, 3.7, 28 sks). This year they lose DT Nathan Pepper (10 st, 27 tkl, 2 sk) and DE Clifton Geathers (8 st, 41 tkl, 3.5 sk). Steve Spurrier said midyear that he would beg Cliff Matthews to return for his senior year and Matthews turned down the NFL. Even though they lose 2 top-notch players, if they stay healthier, this unit could be stronger.

LINEBACKERS - Last year SC had to replace 2 LB (comb 17 sts) who were the #3 and #5 tacklers. They did return 1st Tm SEC Eric Norwood and he became the career sack and tfl leader here while earning 1st Tm AA. This year they lose Norwood (13 st, #2 tkl'r, 7 sk, #4DC CAR) and Gerrod Sinclair (7 tkl). Usually Steve Spurrier fields large LB's but Shaq Wilson (210 lb) was the leading tackler in his first season as a starter. Rodney Paulk (22 sts in '06 & '07, missed '08) began '09 as the starter but tore his ACL in the opener. I list the Spur with the LB's and Antonio Allen (8 st) is back, but Alonzo Winfield (3 st) had a good spring also. The unit also adds PS#38JC Toquavius Gilchrist (IFS) and despite the loss of their star, they are actually a little more experienced as 6 return with starting experience.

DEFENSIVE BACKS - SC finished #35 in my PDR in '07 and #30 with a veteran unit in '08. Last year 2 st'rs ret'd but Steve Spurrier called Stephon Gilmore one of the best players ever to come to SC. As expected, Gilmore started all 13 as a true frosh and SC improved to #27. This year they lose SS Darian Stewart (13 st, 58 tkl, 5 pbu, 7 tfl) but have 7 of the top 8 back including 2nd Tm SEC FS Chris Culliver who moved to CB in spring while Gilmore was a frosh AA and I look for continued improvement from an even more veteran group.

SPECIAL TEAMS - When Steve Spurrier took over he inherited a unit that finished #108 in my ST rankings. In his first 4 seasons ('05-'08) they improved to #83, #50, #66 and #35. Last year they had to replace their outstanding K Ryan Succop (20-30 FG's, 25 TB's on KO) as well as their top PR. KO's were a major problem in '09. Adam Yates and Spencer Lanning combined for 1 TB on 59 KO's (allowed 24.4 per KR, 3 TD). Lanning did a fine job on FG's hitting 17-20 (long 47) and avg 41.9 (34.1 net). The return game was avg and they surprisingly slipped to #103. This year the unit returns intact including Chris Culliver who already holds the school record for KR yards and if a KO man emerges (Jay Wooten PS#10 NCar transfer will contend), they could have one of the most improved ST units in the country.

COACHES - Steve Spurrier took Florida to 7 SEC Title games (5-2). He is his own OC and his son Steve Jr assisted with the play calling in '08. Spurrier handled most of the calls himself LY and will again in '10. DC Ellis Johnson enters his 3rd year here after being the DC at Miss St the previous 4 years ('04-'07). Johnson was reportedly offered the UGA & Tenn DC positions and was named in the LT HC search but remained at SC and was rewarded with a raise to $700,000 per yr (contract to '13). SC finished #4 in '08 and #3 in '09 in the SEC in total defense.

PHIL'S FORECAST

SC's last conf title came in the ACC in 1969. In '05 Steve Spurrier had just 8 (fewest SEC) ret st'rs and was switching from a run based attack to a pass attack. They set a school record with 62,618 season tickets sold. This program is a sleeping giant and Spurrier, who has guided his teams to bowls in 16 out of 20 years, has done a decent job. Despite having lost 8 straight games to ranked teams, they knocked off #23 Tenn and #12 Florida (1st win over UF S/'39!!) in Spurrier's 1st yr. If GA had lost to Kentucky, SC would have been the SEC East Champ! They also had 5 straight SEC wins for the first time ever. SC led in the bowl 28-7 but lost and finished 7-5. Despite their 5-3 record in the SEC, they were -76.3 ypg. In '06 SC had 12 ret st'rs and Spurrier was not happy with the attendance during summer workouts. They had an amazing 8 close games. They won their first 3 SEC road games giving them 5 straight all together (SC record). Two blk'd FG's and a blk'd xp cost them vs Florida (1 pt loss) but Spurrier became the first coach to guide SC to B2B bowls in his first 2 years and they beat Houston in the Liberty Bowl. In '07 they had 16 ret st'rs but were picked 4th by the SEC media again. It looked like SC could be a surprise contender when they knocked off #11 GA on the road. While they did lose to #2 LSU, they bounced back and at 6-1 rose to #6 and were already bowl eligible. They outFD'd their next 3 opp's by a combined 74-54 but lost all 3 then dropped their final 2 (Fla & Clem) with CU getting a 35 yd FG on the last play to knock them out of a bowl. In '08 SC had 16 ret st'rs and a more favorable SEC schedule. I called for SC to get to their 3rd bowl in 4 years. At 7-3 they were ranked #24 but lost their final 3 by a combined 118-30 and finished out of the polls. Last year SC had just 11 ret st'rs (2nd fewest SEC) and had just 12 starts lost to injury in '08. They had just 7 scholarship seniors, only 53.3% of their tackles returning (#102 FBS), 34.5% of their off yards returning (#104), had 28 lettermen lost, faced one of the toughest schedules in the country and lost six asst coaches. In what, to me, looked like an obvious rebuilding year, Spurrier did a good job getting them back to the identical 7-6 record and they even improved their ypg in SEC play to +18.0 (5th best). It was another strong start as they actually outgained Georgia on the road 427-308 but came up 4 pts short throwing into the EZ at the end. They opened 5-1 and were #22 when they went into Alabama and only lost by 14 in a game closer than the final. They had a 431-273 yd edge in their 14-10 win over Vandy to move to 6-2 and to #21. Unfortunately 3 early TO's vs Tenn put them in a hole they could not overcome. They lost the next week at Ark and then only lost to Florida by 10 at home. That dropped them to 6-5. Clemson had the ACC Title game on deck and with SC off a bye, SC ambushed the Tigers at home 34-17. They gave a pitiful performance in the bowl vs Conn and although they were only outgained 253-205, it never seemed like they were in the game. Things are pointed way up for SC this yr despite the fact that they had a net 3 close wins LY. This year's squad is much more exp'd with 16 ret st'rs (#2 SEC) and only 11 lettermen lost. They signed one of the best frosh classes ever. SC is a legit SEC contender and even made my list of Surprise Teams (Darkhorse National Title contender, pg 20).

TENNESSEE VOLUNTEERS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - UT has had some fine QB's including Peyton Manning. Eric Ainge (PS#22, #5DC) threw for 3,522 (63%, 31-10) in '07 setting UT's single season completion record. Jonathan Crompton played in 7 (1 st) in '06 throwing for 401 (47%, 4-2) and played in 7 in '07 (12 att). Crompton won the job in '08 but struggled and Nick Stephens (PS#41) took over in Wk 5 and started the next 6. Stephens threw for 840 (49%, 4-3) but did not att a pass in the final 2 as Crompton regained control. Crompton threw for 889 (52%, 4-5). Crompton battled Stephens LY but once Kiffin named Crompton the starter in August, he stuck with him. I can probably count the number of Vol fans on one hand that were hoping Crompton kept his job. After 4 wks vs the 3 teams not named WKU, he avg 136 ypg (52%) with a 2-6 ratio. Unexpectedly Crompton had a 20-5 ratio in the final 9. He threw for a then-career high 310 (4 TD) vs Georgia and hit 21-36 for 265 vs Ala. He later threw for 331 and 5 TD's vs Memphis (school rec 305 in 1H broke Manning's 1H record of 285 vs NW). He had 142 passes without an int at one point. Crompton (#5DC SD) finished #2 in the SEC in TD passes and threw for 2,800 (58.3%, 27-13). Stephens played in just 3 (9-13, 142 yds). This year Stephens left the team in spring and JC Matt Simms (PS#20 '07) and true frosh Tyler Bray (PS#17) battled for the starting spot. Adding depth are Mike Fromke (6'2" 211 rFr) and Chris Cates (6'0" 184 So). No matter who wins the starting spot, it will be tough to match Crompton's '09 stats.

RUNNING BACKS - Last year the Vols had to replace their top 2 rushers who had combined for just 958 (4.7). Montario Hardesty was #3 in '08 (271, 3.6) but due to inj's, only had 1,046 career yds. Last year Hardesty finally played in all 13 giving them a powerful runner with 1,345 (4.8) and was the #4 receiver (302, 12.1). True frosh Bryce Brown (PS#1) was banged up early but finished with 460 (4.6) as he has outstanding speed to go with his 220 lbs. Another VHT true frosh David Oku (PS#9) added 94 (4.1). This year they lose Hardesty (#2DC CLE) and Brown (sat out spring) is expected to transfer. Tauren Poole (PS#51) had an impressive spring and should team with Oku for a solid 1-2 punch.

RECEIVERS - The Vols had the reputation of being "WR U" as they've produced plenty of NFL WR's. The unit has been filled with question marks the last 3 years. In '08 their leading WR, Lucas Taylor, had just 332 (12.8). They had to replace Taylor last year and the top returnees were Gerald Jones (323, 10.8), Denarius Moore (271, 24.6) and Austin Rogers (180, 12.9). Rogers tore his ACL and Jones (ankle) was not 100% early. The Jones/Moore combo had just 3 rec after the first 3. Luckily things turned around for the duo and they combined for 83 in the last 10. TE Luke Stocker was #3 with 389 (13.4). Brandon Warren had 7 rec (dismissed in Oct) while Nu'Keese Richardson (PS#18) posted 8 rec (dismissed Nov). This year they lose TE Jeff Cottam (3 rec, PS#7) and Quintin Hancock (8 st, 298, 11.0). Not in the PSL are Chris Eggert (5'10" 205 Jr), Cory Eichholtz (5'8" 183 Jr), Charles Karlosky (6'2" 218 Sr) and Ben Lehning (6'1" 236 Jr). This unit is much more exp'd and brings in a solid crop of true frosh.

OFFENSIVE LINE - After having an injury plagued group in '06 that opened holes for 108 ypg rush (worst S/'64), they had to replace 2 st'rs in '07 and surprisingly set an NCAA record for fewest sacks allowed with 4 (1%) with 139 ypg rush (4.2). In '08 they only had to replace one starter (62 car sts ret). They made changes to the OL and as opposed to playing "right" and "left" they went to "quick" & "strong" and the players moved from side to side. It was still surprising to see the Vols drop to 123 ypg rush (3.6) with 25 sks (8.1%). Last year they had to replace 2 st'rs and then lost senior C Josh McNeil (PS#9, knee inj) so they had 2 st'rs back. New OL coach Cregg wanted a leaner, more athletic line. The team improved to 157 ypg rush (4.3) with 18 sks (4.5%). This year they learn a new system again and the losses are heavy. Gone are RG Jacques McClendon (13 st, 2Y st'r, #4DC IND), 2nd Tm SEC LT Chris Scott (13 st, 3Y st'r, #5DC PIT), C Cody Sullins (13 st), LG Cory Sullins (10 st), McNeil (1 gm), William Brimfield (12 gm) and LG Vladimir Richard (3 st). Plus frosh AA OT Aaron Douglas (10 st) quit the tm in spring. UT's OL has the 3rd fewest career sts (3) in the NCAA.

CB Art Evans

DEFENSIVE LINE - After having inexp'd D-lines for 3 straight years, 7 of 8 were back in '05 and UT, despite a 5-6 record, was #2 in the FBS in rush D (2.5 ypc). In '06 they had one ret st'r who was lost after 3. The inexp'd unit allowed 4.1 ypc rush (worst S/'90). In '07 they had to replace 3 st'rs and this time yielded 165 ypg (4.2). With 2 st'rs back in '08 they improved dramatically to 103 ypg (2.8). Last year they lost 3 DL (comb 27 sts) including a #1DC. When DL coach Orgeron took over he thought Dan Williams would be a UFA but Williams made tremendous strides and became a dominant force (1st Tm SEC). They dropped to 150 ypg (4.2, just 21 sks). This year they lose DT Williams (13 st, 70 tkl, 2.5 sk, #1DC ARZ), DT Wes Brown (12 st, 20 tkl, 2.5 sk) and Andre Mathis (1 st, 4 tkl). DE Chris Walker (PS#38) looks like a future star with 42 tkl and 6 sks despite battling a back inj LY, while the other returning starter is PS#1 Ben Martin. They do have 7 VHT's in the 3 deep including John Brown (PS#6, orig at Florida). Despite the loss of Williams, they should put up better numbers.

LINEBACKERS - UT has had a LB selected in the NFL draft in 9 of the last 12 years. Last year they had to replace 3 LB's (comb 23 sts, #1, #4 tkl'r) and had the smallest unit in the SEC. Nick Reveiz tore his ACL after 4 sts and his replacement, Savion Frazier tore his ACL 4 gm later. At the end of '09 they were down to 7 LB's incl 2 walk-ons. This year they lose 2nd Tm SEC WLB Rico McCoy (13 st, #1 tkl'r, 3 tfl) but have 5 with starting exp back plus PS#19 rFr Jerod Askew. Not in the PSL are Grant Jessen (5'11" 223 So, PS#399), Robert Nelson (5'11" 200 rFr, PS#188), Jake Storey (5'10" 219 Jr) and Shane Reveiz (5'9" 218 Jr). This is a more experienced unit.

DEFENSIVE BACKS - The Vols had just one DB starter back in '07 and dropped to #78 in my PDR. They had 3 st'rs back in '08. SS Eric Berry (PS#1) amazingly broke the SEC career IR yd record (Bobby Wilson Ole Miss 1946-'49) as a soph. He earned 1st Tm AA and was my '08 DPOY. The Vols moved up to #23 allowing an 8-17 ratio. Last year they had to replace 2 st'rs but Berry ret'd and they finished #28 allowing just 5 TD passes (56%, 10 int). Berry did say that LY's true frosh Darren Myles and Janzen Jackson came in with more natural ability than he had and they played immediately. This year they lose 1st Tm AA SS Berry (13 st, 87 tkl, 2 int, 7 pbu, #1DC KC), CB Dennis Rogan (12 st, 69 tkl, 1 int, 6 pbu), CB Brent Vinson (1 st, 11 tkl, 1 int, 2 pbu) and CB Marsalous Johnson (2 st, 9 tkl, 3 pbu). Adding depth are Nick Branum (5'10" 180 rFr) and Nick Jackson (5'11" 199 So, PS#400). They have 2 st'rs back just like LY and have 6 VHT's in the 2 deep but with the loss of Berry, I'll call the unit down a few notches.

SPECIAL TEAMS - Phillip Fulmer's ST units were almost always in my Top 50 including #19 in '07. In '08 they surprisingly dropped to #86. Daniel Lincoln, who was the FWAA 1st Tm K in '07, hit just 10 of 18 (long 47, 3 miss 50+). Last year they to replace their P and Lincoln struggled (10-16) including 2 blk'd FG's vs Bama. Chad Cunningham hit 1-3 and Devin Mathis hit 2-2 FG's. Cunningham had 4 TB's on 71 KO's (allow 22.7 KR) and avg 42.1 punting (34.4 net). True frosh David Oku was an outstanding KR (26.2). This year most return and Lincoln should be healthier so they should improve upon '09's #96 finish.

COACHES - Heading into '08 Phillip Fulmer had a 147-45 (76.6%) record which was the best in the major college ranks for a HC coach with 10+ yrs. Fulmer had zero SEC Titles and just 2 Top 10 finishes the last 10 yrs and was forced to resign after 17 seasons, one year after guiding his team to the SEC Title game. Lane Kiffin took over and ruffled feathers all over the SEC while racking up numerous NCAA secondary violations and then skipped town to become the HC of USC taking his father, legendary DC Monte Kiffin and DL coach Ed Orgeron with him. After UT was turned down by Duke's David Cutcliffe, Texas DC Will Muschamp and AF's Troy Calhoun, LA Tech HC Derek Dooley became the Vols' new HC. Dooley is the son of legendary UGA HC Vince and was 17-20 in 3 yrs at LT. OC Jim Chaney (former Purdue OC) stays on as the Vols' OC for a 2nd yr. The new DC is Justin Wilcox who was the DC at Boise St for the last 4 years.

PHIL'S FORECAST

Phillip Fulmer was the HC here for 17 years and took home a National Title in '98 (13-0). Unfortunately in his final 10 yrs he had just 2 Top 10 finishes and 2 losing seasons. I had a very good pulse on Tenn throughout this past decade, often calling for them to finish either much higher or much lower than most folks' expectations and most times I was right on the money. In '05 Tenn ranked #3 AP and was the SEC media choice to win the SEC Title. I had them #3 in the SEC East and they finished just 5-6. The next year the Vols were on my Most Improved List and they got as high as #7 AP going 9-4 despite playing 5 Top 13 tms. In '07 the Vols were fortunate to finish 10-4 and #12 AP. Despite their 6-2 regular season SEC record, they were -32.7 ypg in SEC play (3rd worst). Most Vol fans saw them as a darkhorse National Title contender and playing in a Jan bowl at worst in '08. I did not make a lot of friends in Knoxville again when I picked them 4th in the SEC East. UT finished just 5-7 and Fulmer was let go. Last year expectations were light for UT but I had them on my Most Improved List and getting back to a bowl game. New HC Lane Kiffin inherited 12 ret starters. The Vols did lose at home to UCLA despite a 208-186 yd edge. After a closer than expected loss to Florida (trailed 23-6), they got past Ohio, a game that was tied in the 2Q. They were pumped up for a HG vs Auburn but lost, scoring a TD on the final play to pull within 4. They destroyed Georgia 45-19, not allowing an offensive TD. They had 2 FG's blk'd by Terrence Cody and came up 2 points short vs eventual Nat'l Champ Alabama. After whipping SC and Mem they went into Oxford and were outgained 492-275 (lost 42-17). They beat Vandy by 15 and had a 446-261 yd edge at Kentucky but only won by 6 then they were throttled in the bowl by VT. Everything was thrown into chaos late January when Lane Kiffin bolted for USC. The Vols landed Derek Dooley who I thought did a good job at LT. They do have just 9 returning starters (fewest SEC) but were +27.6 ypg (4th best!) and had 44 sts lost to injury in '09. They suffered a lot of attrition when Kiffin came in (more walk-ons played than I can remember) and will suffer more with another new HC. Already a couple of key players left the team in the spring (RB Brown, OL Douglas). It is tough having 3 HC's in 3 years, especially because Fulmer, Kiffin and Dooley have all very different coaching styles. I think UT will likely start out 2-6 this year but could sweep the board in November making a bowl a decent possibility.

KENTUCKY WILDCATS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - The Wildcats have a solid reputation for developing pro-style QB's in Jared Lorenzen and Tim Couch. André Woodson took over in '05 and left as the #2 career passer here. He had a phenomenal senior season throwing for 3,709 (63%) with a 40-11 ratio. In '08, 6'6" Mike Hartline (PS#24, 6 att as rFr) took over. Hartline was much maligned and threw for 1,666 (55%, 9-8). He battled true frosh Randall Cobb (PS#70) and threw 2 TD's vs Ark but then Cobb guided the team to 12 FD's on 4 poss vs Florida (Hartline 2 FD, 7 poss). Cobb threw for 542 (53%, 2-5, 316 rush, #4 rec) until he was injured. Will Fidler (PS#34) had 4 att. Hartline had a fine bowl and won back the job for '09. Last year they signed 2 VHT QB's in Morgan Newton (PS#13) and Ryan Mossakowski (PS#22) while Cobb went back to WR. Hartline looked great in August and was solid in the first 2. He struggled vs the FBS's top 2 D's in B2B weeks (Fla and Ala). He was inj'd vs SCar and briefly ret'd for 1 gm but was ineffective. He still led in passing with 802 (59.4%, 6-7). Fidler was the backup but hit just 2-8 for 16 yds vs SC (186, 1-1). They opted to take the RS off of Newton and then Fidler missed 2 practices, so Newton started vs Auburn. Newton, Fidler and Cobb all played QB the rest of the year. Cobb was the most effective QB down the stretch running the Wildcat but Brooks said he could not run the Wildcat exclusively as Cobb got too beat up. In the bowl Newton hit 13-23 for 98 yds. For the season Cobb hit 5-13 passes and was the #2 rusher (573, 6.1), #1 rec and added 653 ret yds. Adding depth are Ryan Phillippi (5'11" 180 So, PS#285) and Tyler Sargent (6'4" 218 Jr). I look for improved passing numbers from whomever wins the job.

RUNNING BACKS - Only 4 RB's in UK history have had 200+ rush att's in a single season with the last being Artose Pinner ('02). The Cats' leading rusher in '08 was Tony Dixon (430, 3.3) and he had to be replaced in '09. Speedy Derrick Locke bulked up to 191 lbs (4.3 spd). He nearly got to that 200 carry mark with 195 while rushing for 907 (4.7) despite injuries. Moncell Allen (202, 5.3 in '08) added 228 (4.9) in '09. This year they lose Alfonso Smith (4 st, 245, 4.1) but Locke turned down an early trip to the NFL. They also lose probably the best FB in the SEC in John Conner (8 st, 158, #5DC NYJ). Not in the PSL are Jonathan George (5'10" 204 rFr), CoShik Williams (5'9" 185 So), Chris Thomas (5'9" 213 rFr) and FB's Greg Meisner (6'1" 235 Jr), Brian Murphy (6'0" 220 Jr) and Tatum Lewis (6'0" 240 So). This group is more exp'd and adds VHT Brandon Gainer (PS#32).

RECEIVERS - In 2008 UK had to replace their top 2 WR's and their starting TE with the trio combining for 2,401 yds. With a new QB and inexp'd receivers the top 3 WR in '08 combined for just 665 yds. Last year Randall Cobb was moved from QB and led with 447 (11.5). They added 6'5" JUCO Chris Matthews (4.4 sp) and he started the opener but struggled with the offense at times. He still finished #2 with 354 (11.1). He is in his 2nd year out of JC, and they hope for much improved production similar to Steve Johnson in '08 (2nd yr out of JC, 1,041, 17.4). True frosh La'Rod King (142, 14.2) made some tough catches over the middle late in the year. Not listed below are Brian Adams (6'4" 217 rFr, PS#130), Michael Harper (6'1" 181 Sr), Nathan Dutton (5'10" 170 So), Nik Brazley (5'9" 170 Jr), Alex Dutton (5'10" 180 So), EJ Jones (5'9" 160 Sr) and TE's Jordan Aumiller (6'4" 227 rFr, PS#138) and Gabe Correll (6'3" 225 So, PS#135). This year they only lose TE's TC Drake (5 st, 7 rec), Maurice Grinter (1 st, 3 rec), Ross Bogue (7 st, 2 rec) and WR Kyrus Lanxter (1 st, 8 rec). This is the Cats' best unit WR since '07.

OFFENSIVE LINE- In 2008 they only had to replace 2 starters but the rushing numbers dropped to 127 ypg (3.7) but the sks allowed dropped from 38 in '07 to just 13 (3.1%). Last year they had to replace 2 st'rs (7 ret'd w/st exp). C Marcus Davis started the opener but broke his ankle and Jake Lanefski (last 4 st '08) missed most of the year (inj). They still avg 191 ypg rush (4.5, their best S/'95) with 17 sks (5.2%). They had 86 career sts ret in '09 and this year have just 31. They must replace 2nd Tm SEC C Jorge Gonzalez (12 st, 2Y st'r), 2nd Tm SEC LT Zipp Duncan (13 st, 3Y st'r), LG Christian Johnson (13 st, 2Y st'r) and RT Justin Jeffries (9 st, 3Y st'r). They have 4 VHT's in the 2 deep, but this unit is the major question mark on the offense this year.

LG Stuart Hines

DEFENSIVE LINE - From 2004-'07 the Cats yielded 5.0, 4.9, 5.0 and 4.6 ypc rushing. In '08 I called for the Cats to have their best rush D in at least 4 yrs but they did even better allowing 139 ypg (3.8), the first time they allowed under 4.0 ypc since 1989 (3.7). Last year the Cats had to replace 2 starters (#6DC) and then suffered the unexpected loss of DE Jeremy Jarmon (NFL supp draft #3DC WAS). As expected UK had weaker numbers (1 st'r back) yielding 183 ypg (4.7) with just 16 sks. Not in the PSL are Myron Walker (5'11" 276 rFr, PS#167) and Jacob Lewellen (6'3" 248 So). This year they lose 1st Tm SEC DT Corey Peters (13 st, 56 tkl, 4 sk, 8 tfl, #3DC ATL) but have 7 of the top 8 back making them a much more veteran unit.

LINEBACKERS - Last year for the 2nd straight season UK had to replace their #1 tackler and also lost 2 other LB's (combined 8 sts, 49 tkl). Micah Johnson was #2 in '08 and Brooks said he played almost all of '08 on a leg and a half (inj) but the other 2 starters combined for just 1 start in '08. This year they lose 2nd Tm SEC Johnson (12 st, #1 tkl'r, 6.5 tfl) and 2nd Tm SEC Sam Maxwell (12 st, #3 tkl'r, 5.5 tfl). They started a NB 8 times, so returning starter Danny Trevathan only had 6 sts (5WLB, 1SLB) but was the #2 tkl'r. Not listed below is Will Letton (6'2" 223 rFr). The rest of the LB's have 36 career tkls combined but they are high on rFr Qua Huzzie (PS#70).

DEFENSIVE BACKS - With a veteran secondary in '07 the Cats were #31 in my PDR. In '08 CB Paul Warford was ruled ineligible. With 2 starters back the Cats slipped a little to #46. Last year they had to replace 2 st'rs and 2 bkps (comb 6 sts) but got Warford back so they had 5 back with 5+ sts including their outstanding CB combo of Trevard Lindley and Warford. Warford said that soph Randall Burden had the potential to be as good as Lindley. The Cats were 1 of 6 teams in the FBS to allow under 50% and finished #18 despite Lindley and Warford missing 6 sts combined (inj). This year they lose 2nd Tm SEC CB Lindley (9 st, 32 tkl, 1 int, 9 pbu, #4DC PHI), SS Calvin Harrison (13 st, #4 tkl'r, 3 int, 5 pbu) but have 3 back that had 9+ sts in '09. Not in the PSL are Mikie Benton (5'11" 185 So), Zach Severance (5'11" 188 rFr) and Victor Moulden (5'11" 172 rFr). While they may drop a notch in my PDR with the loss of Lindley, this probably will be one of the more underrated secondaries in the NCAA.

SPECIAL TEAMS - When former HC Rich Brooks was hired, he brought in Steve Ortmayer, who had been an NFL ST coach for 17 years. They finished #22 in my ST rankings in '05 and #37 in '06 and after a surprising #86 in '07, they were right back at #8 in '08. Last year Brooks bemoaned the fact that they lost their KO man and P in Tim Masthay (45.2 punt avg, 23 TB's on 60 KO's). The Wildcats, as always, had an explosive return game with Randall Cobb the top PR (12.8) and Derrick Locke and Cobb combining for 27.3 on KR. Ryan Tydlacka (pooch P '08) avg 40.0 (net 36.7). Lones Seiber hit 11-16 FG's (long 49) and Craig McIntosh had 11 TB's on 51 KO's. Surprisingly they were only #35. This year they must replace UK's career scoring leader Seiber (305, topped Joey Worley 1984-'87) but have everyone else back and should move up.

COACHES - Rich Brooks was the head man at Oregon from 1977 to 1994. He guided Oregon to their first Rose Bowl appearance in 37 years and then left for the St Louis Rams (13-19). Brooks was out of coaching for two years prior to coming to UK in '03. After leading UK to a school-record 4 consec bowls, Brooks decided to retire. OC Joker Phillips was named Brooks' eventual successor in Jan of '08 and took over officially in January. Randy Sanders was elevated to OC last year and has been at UK since '06 as QB coach and recruiting coor. Steve Brown, who had been the DB coach (4 yrs), was promoted to DC in '07 and now enters his 4th year in that role.

PHIL'S FORECAST

Kentucky fans weren't too thrilled when Rich Brooks was hired in 2003 and he inherited a team that had just 68 scholarship players. Of the 40 signees from 2001-'02, 24 left the team. The Brooks era began with 3 losing seasons (9-25). In '06 with a more favorable schedule, 15 ret starters and a team that was -9 in TO's in '05, I said the Cats had a great shot at a bowl. UK had just 3 seasons of 8+ wins from 1952-2005 and had been to just 10 bowls (2nd lowest in SEC). In 2006 they recorded their first win over one of the Big 3 from the East (Tenn, GA, Fla) since 1996 when they upset Georgia which was the catalyst for their 8-5 season. Heading into '07 UK had not beaten a Top 15 team since 1988. The Cats got a couple of close wins and had another outstanding season going 8-5 incl a 40-34 win over #9 L'ville. After a tough 5 pt loss to Tenn in '06, they lost in 4 OT's to the Vols in '07 keeping their long losing streak to UT alive. They did benefit from 4 net close wins. The D made drastic improvements in '08 from allowing 397 ypg to 332 as 17 of 22 players were back on the defense. The Cats did benefit from a fortunate win vs Ark when the Hogs appeared to seal it 3 different times in the 4Q. They nearly upset #14 Georgia and got back to a bowl for their 3rd straight winning season. UK did finish last in the SEC East at 2-6 (-105.3 ypg, 2nd worst). They had 37 sts lost to injury (18th highest). Last year UK had just 10 ret starters but Brooks did it again. Kentucky jumped out to 2-0 start before facing Florida and Ala B2B followed by a road trip to SCar. Despite facing SC without their top 2 CB's with QB Hartline missing most of the 2H, they barely lost after a 2 pt conv failed. They upset Auburn on the road, but 2 wks later, led Miss St 14-3 but were SOD at the MSU 16 late (lost by 7). They held VU to 1 FD and 31 yds in the 2H and actually had the crowd edge in their road trip to Nashville. They were outgained 487-260 by Georgia but got their first win in Athens in 32 yrs (1977), a product of +4 TO's. It was once again a narrow loss to their bitter rival (25th straight loss to Tenn). In what turned out to be Rich Brooks' final game in the Music City Bowl, they lost by 8 to Clemson despite a 19-14 FD edge. This year Brooks steps aside and Joker Phillips (2 yr cch in waiting) takes over. Last year they had 34 sts lost to injury (10th most FBS). They were -90.4 ypg in SEC play (2nd worst). Rich Brooks' teams pulled 10 upsets in the last 4 years (and made 4 straight bowls). UK will be favored in 5 this year which means they are only 1 upset away from a return to the postseason. They do have just 11 returning st'rs and an SEC high 27 lettermen lost, so keeping their bowl streak alive will not be easy.

VANDERBILT COMMODORES

POSITION OUTLOOK FOR 2010

QUARTERBACKS - HC Bobby Johnson made Jay Cutler the first ever rFr to start an opener at VU and he had a record breaking career, even being voted AP SEC POY. Cutler departed after the '05 season as VU's career passing leader. Chris Nickson (PS#71) and Mackenzi Adams (PS#73) split the duties in '06 and '07. In '08 Nickson's running ability guided them to a 5-0 start. He was banged up and Adams took over as the starter. Nickson threw for 545 (48%) with an 8-3 ratio and was the team's #2 rusher (542, 4.2). Adams threw for 882 (49%) with a 5-8 ratio (136, 2.2 rush). Larry Smith saw little action during the year but started in the bowl (VU's biggest gm in decades) hitting 10-17 for 121. Last year Smith (PS#32) was the clear-cut starter and unlike previous years, when Smith struggled, he was not pulled. Smith threw for 1,126 but completed just 46.7% with a 4-7 ratio (213, 2.5 rush). Smith was lost for the year in the 1Q vs GT and Adams threw for 630 (51.2%, 2-3). Charlie Goro (PS#38) RS and Jared Funk (6'2" 205 Sr, PS#67) DNP. This year they lose Adams and Smith will have to battle Goro and a rare JUCO signee in Jordan Rodgers (Aaron's brother), who threw for 2,219 yards LY and guided his Butte College team to a 12-0 record as a frosh (Aaron also played at Butte). I look for much improved numbers from the VU QB's no matter who wins the job.

RB Warren Norman

RUNNING BACKS - Vanderbilt has not had a 1,000-yard rusher since 1995 with just 3 in school history. In '08 Jared Hawkins (PS#155) led with 593 (4.3). Last year Hawkins suffered a foot injury and played in just 3 with 130 (4.8). True frosh Zac Stacy (PS#155) had 133 rush vs WCar and then 103 ttl yds vs LSU. Warren Norman (PS#101) rushed for 105 vs WCar as they were the first frosh duo in VU history to each top 100 in a single game. Norman dropped back to #2 or #3 on the depth chart but then Stacy suffered an ankle injury vs Miss St. Norman took over and led with 783 (5.4) and broke Herschel Walker's SEC record for all-purp yards by a frosh with 1,941 (named SEC Frosh of Yr). Stacy was #2 with 478 (4.5). Kennard Reeves (6'0" 205 Sr) had 153 (6.1). This year they lose Hawkins (2 st). Adding depth are Wesley Tate (6'2" 223, rFr PS#149) and Reece Lovell (6'0" 220 So). The Norman/Stacy combo now has experience.

RECEIVERS - In 2008 the Commodores had to replace the SEC's all-time reception leader in Earl Bennett (830, 11.1, '07). Sean Walker, who had 270 (13.5) in '07 led with 520 (14.4). TE Brandon Barden was #2 (209, 7.5) and Justin Wheeler was #3 (145, 9.1). Last year they had to replace Walker and then Wheeler tore his ACL. WR coach Charlie Fisher said he'd never had such a young and inexp'd corps in his 29 yrs of coaching and dropped passes were the norm early on. RFr John Cole (PS#63) was bothered by a hamstring in August then broke his hand missing time but still led with 382 (10.6). Barden was #2 with 357 (12.3) and Udom Umoh (PS#153) had 267 (13.4). Alex Washington (PS#235) added 125 (11.4) while Turner Wimberly (PS#219) had 99 (8.2). This year they lose Washington (11 st), Collin Ashley (97 yd) and TE Justin Green (1 rec) but have their top 3 rec back. Not listed below are TE's Ryan van Rensburg (6'1" 235 Jr, PS#196) and Mason Johnston (6'4" 240 rFr, PS#65). This unit is much more experienced.

OFFENSIVE LINE - In 2007 Vandy had the most exp'd OL in the NCAA with 5 senior starters. The unit surprisingly only opened holes for 150 ypg rush (ypc dropped from 4.7 in '06 to 3.7 in '07) but did allow just 17 sks. In '08 VU had the least exp'd O-line in the FBS (3 car sts). Prior to the year Johnson was very optimistic saying they would be more athletic than the '07 version. Once again the numbers surprised me. While the sacks rose to 27 (8.5%) the rush total only slipped slightly to 134 (3.7). Last year all 5 st'rs ret'd but they only improved to 160 ypg rush (4.3) and 24 sks (6.8%). This year the losses are heavy as they lose C Bradley Vierling (12 st, 2Y st'r), RG Eric Hensley (11 st, 2Y st'r), LT Thomas Welch (11 st, 2Y st'r, #7DC NE), LG Ryan Custer (7 st, 2Y st'r) and RT Reilly Lauer (9 st, 2Y st'r). They return just 9 starts from '09 and 21 career sts (6th fewest in FBS) but they are still more exp'd than the '08 unit which surprised me and so they may not drop as much as you would think.

DEFENSIVE LINE - In 2007 VU had six of the top 8 DL back including all who accounted for the DL's 17.5 sks in '06. As you would expect, VU's rush D improved to 128 ypg (3.7), their best since 1997, with 30 sks. In '08 they had to replace 3 st'rs and two backups (ret'd 10 of 16 sks from '07 unit). Even with just one starter back, the rush D only slipped a little to 145 ypg (3.8) with 30 sks. Last year the entire 2 deep ret'd. Unfortunately DE Steven Stone broke his foot (miss 1st 7) but it was still surprising that VU allowed 198 ypg rush (most since '01) and 4.4 ypc while the D had just 20 sks. This year they lose DT Greg Billinger (11 st, 38 tkl, 3.5 sk), DE Broderick Stewart (12 st, 28 tkl, 2 sk) and Stone (4 st, 18 tkl, 1 sk). DT Adam Smotherman tore his ACL in March but hopes to return early in the season. If so they will return 2 st'rs and while they are not as deep or exp'd as '09, they could produce better numbers.

LINEBACKERS - After having an inexp'd LB corps in '08, the LB unit returned intact last year. One returning starter, John Stokes did have both shoulders operated on (1 in Jan, 1 in March) and went from 10 sts to just 3 although his tackles actually rose from 31 to 44. This year they lose 3rd Tm SEC WLB Patrick Benoist (11 st, #2 tkl'r, 5.5 tfl), SLB Brent Trice (9 st, #4 tkl'r, 5.5 tfl) and Chris Johnson (4 tkl). They do return their #1 and #7 tkl'rs who have both been full-time starters. I'll call this unit equal to '09's version.

DEFENSIVE BACKS - In '07 Vandy had all 4 st'rs back led by 1st Tm SEC CB DJ Moore (6 int). Their 16 int's were their best mark since 1989. They moved up to #41 in my pass D rankings allowing a 15-16 ratio. VU had an inexp team in '08 but the secondary was exp'd with 6 back who had been full-time starters. VU had their best finish in my PDR this decade at #13 allowing a 15-20 ratio. LY they had to replace 2 st'rs (#4DC) and then lost starting S Ryan Hamilton after 2 starts. They did move WR Jamie Graham (9 st off in '08) to DB. As you would expect, VU dropped to #77. They did allow just 56.1% and a 13-12 ratio but took on a weak slate of QB's. This year they lose 2nd Tm SEC CB Myron Lewis (11 st, 41 tkl, 4 int, 8 pbu, #3DC TB), SS Joel Caldwell (7 st, #6 tkl'r) and Hamilton (7 tkl). Not listed below are Javon Marshall (5'10" 182 rFr, PS#598), Walt Wepfer (5'10" 180 rFr) and Bobby Jewell (6'0" 195 So). This is a more exp'd group and figures to move up in my PDR.

SPECIAL TEAMS - Bobby Johnson's first ST unit finished #59 in my rankings. The next six years they recorded finishes of just #108, #111, #109, #99, #109 and #99! Last year they had a true frosh K and KR so you wouldn't have expected a lot of improvement yet they moved up to #58. K Ryan Fowler hit 16-21 FG's (long 47) and made the All-SEC Frosh Team. He had 3 TB's on 47 KO's. P Brett Upson, who avg 40.4 (35.7 net) in '08, got off to a rough start with -24 and 7 yd punts vs WCar but was excellent the rest of the year avg 43.1 (23 I20, net 35.4). Warren Norman set the SEC single season record for KR yds with 1,050 (26.2) topping Dennis Johnson (Ark '08). This year they lose Upson, which is a big loss, but they could still improve.

COACHES - Bobby Johnson was 60-36 in 8 years at Furman and was the '01 IAA Nat'l Coach of the Year. Although Johnson did not have a winning record his first six years here, he had a couple of near misses and VU stuck with him. They were rewarded with their first bowl since 1982 in '08 (SEC COY), but fell back to 2-10 last year in an injury-plagued season. OC Ted Cain, who was the OC at NCSt from '86-'96 and HC at VMI 2 yrs was reassigned as ST coach for '10 after 8 yrs as OC here. The new OC is Jimmy Kiser, who has been the QB coach here the last 8 yrs and called the plays in '09. Bruce Fowler, who spent 16 yrs as an asst at Furman (L/3 as DC) was promoted to Asst HC defense last year (DC here prev 7 yrs). Jamie Bryant earned the title of DC LY (DB cch 7 yr).

PHIL'S FORECAST

Going into 2008, Vanderbilt had 25 consecutive losing seasons. They did have some close brushes with winning seasons, however. In '04 VU lost an amazing 5 close games and could easily have been 7-4 but finished 2-9. It was their 4th straight 2 win season. In' 05 expectations were lower but they opened 4-0 for the first time since 1984. Even with their first win in Neyland Stadium since 1975 they finished just 5-6. In '06 they had to replace star QB Jay Cutler who had guided them to 27.2 ppg (best since 1948). VU got their first ever win over a ranked foe in an opposing stadium (#16 Georgia) but finished 4-8 (1-7 in SEC). In '07 they had 18 ret st'rs and a favorable schedule and I called for them to get to their first bowl since 1982. VU started out 5-3 needing one win but missed 2 FG's and an xp at UK. They led Tenn 24-9 mid 3Q but UT rallied and VU had a FG bounce off the upright at the end and they lost their last four to finish 5-7. I've had a lot of success forecasting the ups and downs of SEC teams but in '08 I saw a VU team with zero returning OL st'rs and just 9 st'rs back overall and a tough SEC schedule. I called for a last place finish in the SEC West in what looked to me as a rebuilding year. VU caught a lot of breaks in '08. After 5 gms, they were #12 in the SEC on off and #10 on D but somehow were 5-0 and got as high as #13 (ranked for the first time S/'84). VU finally broke a streak of 19 straight losses when trying to win their 6th game when they beat Kentucky 31-24. They actually finished tied for 3rd in the SEC East and knocked off BC in the Music City Bowl to get their first winning season since 1982. That was a young VU team with just 19 seniors and 32 juniors so the '09 squad appeared stronger. Despite a 4-4 SEC record in '08, VU was -76.1 ypg in SEC play (3rd worst) benefitting from +9 in TO's and 3 net close wins. They were the only team in the SEC with 30 sacks by the D in both '07 and '08. I mentioned last year I didn't think they would get the same breaks as the year before and said they would not match the previous year's 7 win total. It was a tough year for the more exp'd Commodores. They finished 0-8 in the SEC and were -152.4 ypg (62 ypg worse than #11 tm). They did only trail #11 LSU 16-9 in the 4Q but lost by 14. They only had 33 yards in the 1H vs Miss St and lost at home by 12. After knocking off Rice on the road, VU lost their last 8 games. They lost to Army in OT despite outgaining the Cadets (304-269) and they led GT 31-28 late 3Q but lost by 25. This year VU has just 11 ret st'rs but last year did have 42 (15.9%) starts lost to injury (3rd worst FBS). One of Vandy's 4 HG's is vs Tenn, a game in which UT orange could outnumber Vandy gold in the stands. They lose 26 lettermen and this looks like a rebuilding year.

PHIL STEELE'S 2010 BIG TEN FORECAST

1. OHIO ST - The Buckeyes are much more of a veteran team this year and have my #1 rated offense and defense in the Big Ten. They do have to play 2 of the other 3 preseason favorites (Iowa and Wisconsin) on the road including the likely Big Ten Title game vs the Hawkeyes but led by QB Pryor, this team is clearly one of the best in the country. They get my call to tie the conf record with their 6th straight Big Ten Title and I have them playing in the National Title game.

2. IOWA - Iowa gets Ohio St, Penn St and Wisconsin all at home and this team finished the season #7 with a 403-155 yd edge over a #9 GT in the Orange Bowl. Iowa fields one of the top defenses in the country and QB Ricky Stanzi should have a fine senior season. They have a manageable road slate in the Big Ten giving them an excellent shot at the Title. Even though I picked them 2nd in the Big Ten they may be favored in every game this year.

2. PENN ST - I personally think that for the 2nd time in 3 years, PSU will not make the preseason Big Ten media poll (only list top 3), but just like in '08 they could surprise. They are the first team ever to be scheduled to play 3 road games against BCS bowl winners from the previous year (Alabama, Iowa and Ohio St). Penn St also loses their QB and 20 points to the NFL draft (see Draft Day Party Hangover pg 308) but avoids Wisconsin. Even if PSU loses at both Iowa and Ohio St, they still could grab a 2nd place finish in the Big Ten and keep in mind in 2008 they won in Columbus and Iowa needed a FG with :01 left to beat the Lions. PSU is a legit Big Ten contender despite having just 13 returning starters.

4. WISCONSIN - The Badgers do avoid Penn St but play Iowa, Mich St and Michigan on the road and host Ohio St so their Big Ten schedule is not easy. Last year's UW team was #2 in the Big Ten at +81.3 ypg despite just 10 ret st'rs. This is a much more veteran unit with 16 ret st'rs (#1 Big Ten) and has my #2 offense and #4 defense in the Big Ten. Five of my 9 sets of power ratings call them a stronger squad than Iowa but they face a tougher schedule.

5. MICHIGAN ST - The Spartans do have to play Iowa, Penn St and Michigan all on the road but avoid Ohio St and probably have HC Mark Dantonio's best team in his four years here. They were just 6-7 last year so naturally they make my Most Improved List this year. They also make my Going Up box in the Toughest Schedule article (starting on pg 317).

5. MICHIGAN - There were a lot of signs pointing up for Michigan last year and things looked good when they jumped out to a 5-2 start but stunningly they lost their last 5 and tied for last place in the Big Ten! This year they figure to be a vastly improved team and 3 of my 9 sets of power ratings actually call for them to go 6-2 in the Big Ten. I'll call for Michigan to have a 5-1 start to the season and a much better finish. Rich Rod is one of my top coaches on the hot seat (see PhilSteele.com) but should be off of it after 2010.

7. NORTHWESTERN - Keep in mind on the conference pages my predictions are not based on overall record, but on a team's record in Big Ten play. NU could open up 6-0 this year after going 4-0 in non-conf action despite the loss of the majority of their skill players. The Cats do not have to face Ohio St and should have another successful (i.e. bowl) season.

8. ILLINOIS - My first reaction was to pick the Illini LAST in the conf after they disappointed me so much last year as I actually called them the #1 Most Improved Team in the country but for a myriad of reasons they finished just 3-9. This is not an overwhelming unit but they do lose just 16 lettermen which is the fewest in the Big Ten and do NOT have to play Iowa or Wisconsin, who will be two of the top three media picks this year. Despite losing their QB they can only get better play out of that position and with upgrades at both coor positions the Illini have a solid shot at a winning record this year. It will be interesting to see if I put them on my Most Improved List (see page 19) after being burned last year.

9. PURDUE - I probably would have pegged the Boilers higher had they not lost RB Bolden to an ACL injury in the spring. There are only 5 Big Ten teams that have had a positive ypg in conf play in each of the last 2 years and Purdue is actually one of them despite their 6-10 Big Ten record. I have the Boilers favored in 5 of their 12 games meaning they are just one upset away from the post season and last year they upset Ohio St and almost upset Oregon (the two Rose Bowl participants).

10. INDIANA - The Hoosiers have just 4 starters back on defense and lose their outstanding DE combo. I rate them the #6 offense in the Big Ten but they only have 3 conf HG's and do not face Minnesota. The Hoosiers have a shot at bowl eligibility this year as they should sweep their non-conf slate but their 22 lettermen lost are tied for 3rd (Minn) most in the league. Lynch's Hoosiers were better than I expected LY with some close Big Ten losses and they could surprise again this year.

10. MINNESOTA - After going to 5 straight bowl games I pegged the Gophers for last in the Big Ten in 2007 and that is where they finished at 0-8. The Gophers got back to a bowl the next 2 years. This year they have a ridiculously tough home schedule (USC, Penn St, Ohio St, Iowa) meaning most of their winnable games are on the road. Despite being in a bowl 7 of the last 8 years, due to a defense with just 2 ret st'rs and a killer schedule, I'll peg the Gophers for a last place finish just like 2007.

Big Ten Notes: Welcome back! The Big Ten used to be one of the premier conferences in the country as Ohio State played for the National Title in '02, '06 & '07, winning it all in 2002. From '06-'08 the conf had 3 largely disappointing years. They had just 28 draft picks in '08 (5th best) and '09 (tie 4th best). During the regular season in that '06-'08 span they were 22-17 vs other BCS conferences which was the best mark of any league. However their bowl results were terrible at 9-20 from '05-'08 including 1-6 in '08. The numbers were much better last year as they were the #2 conf in draft picks with 33 but their record in non conf BCS reg season games slipped to 5-9. They made up for it in the bowl season with 4 bowl wins over ranked teams, the most of any league. Ohio St beat Pac 10 champ Oregon and Iowa beat ACC champ Georgia Tech. Their 3 Top 10 teams were also the most of any league. Ohio St has now won at least a share of the Big Ten title FIVE straight years and are my favorite to get #6 this year. Michigan had a streak of 40 straight winning seasons not only snapped in '08 but have now had two straight losing seasons! Ohio St leads with 9 players on my 1st team All-Big Ten squad while Wisconsin is #2 with 5. The Big Ten has 3 possible preseason Top 10 teams in Ohio St, Iowa and Wisconsin.

OHIO ST BUCKEYES

POSITION OUTLOOK FOR 2010

QUARTERBACKS - There are some eerie similarities between Terrelle Pryor (PS#1) and Texas' Vince Young (PS#2). Neither began their freshman year as a starter (Young was a RS) but both took over the job by season's end. Young caught a lot of flack midway through his soph season before his team won their final 7 including the Rose Bowl. The next year Young was the most improved passer in the NCAA going from 1,849 (59%, 12-11, 1079 rush) to 3,036 (65%, 26-10,1050 rush). He guided Texas to the National Championship that year. LY Pryor was criticized by the fans at midyear with some calling for him to move to WR but OSU won their final 6 and Pryor had a phenomenal Rose Bowl hitting 23-37 for 266 (72 rush). As a true frosh in '08 he threw for 1,311 (61%, 12-4, 631 rush) while starting 10. Last year he threw for 2,094 (56.6%, 18-11) and was the #1 rusher (779, 4.8). Pryor was the first QB to lead Ohio St in rushing since Les Horvath in 1944 (won Heisman). Twenty-five year old Jr Joe Bauserman (PS#59, 3-6 in '08) hit just 6-19 for 124 in '09. Last year Pryor was the media's Big Ten Preseason OPOY but only made HM All-Big Ten by year's end. Pryor has an outstanding shot at being the 3rd Buckeye QB to win the Heisman.

RUNNING BACKS - Antonio Pittman became just the 5th OSU RB to have B2B 1,000 yard seasons including 1,233 (5.1) in '06. True frosh Chris "Beanie" Wells (PS#1) had 576 (5.5) in '06 and then an OSU soph record 1,609 (5.9) in '07. Despite missing 3 in '08, he rushed for 1,197 (5.8) and was the team's MVP becoming the 6th Buckeye RB to earn that B2B 1,000 yd seasons distinction. Dan "Boom" Herron (PS#44) was the #2 RB in '08 with 439 (4.9). Last year they had to replace Wells (#1DC ARZ). I surprised many Buckeye followers by projecting Brandon Saine (PS#2) as the top RB. Saine had an injury plagued first 2 yrs but was indeed the top RB rusher with 739 (5.1) in '09. Herron, despite missing 3, had more carries than Saine but rushed for 600 and just 3.9 ypc. True frosh Jordan Hall (PS#45) added 248 (5.2) and due to injuries, FB Jermil Martin (5'10" 235 So) moved to TB and had 84 (7.6). This year the unit returns intact and gets the big addition of rFr Jaamal Berry (PS#7) who is speedy and powerful (RS '09 hamstring). Not listed below are Hall (5'9" 195 So), Bo DeLande (5'11" 195 Jr), Martin as well as FB's Adam Homan (6'2" 238 So, PS#53) and James Georgiades (5'11" 240 So). After having their streak of four straight 1,000 yard rushers snapped, I look for one of the backs to top it this season.

RECEIVERS - Ohio St is quickly becoming another "WR U." They had three 1st round WR picks in '06 and '07 combined. Last year they had to replace #2 and #4DC's. Dane Sanzenbacher (PS#106) was the top returnee (272, 13.0 in '08). I expected big things out of DeVier Posey (PS#4). Posey (11 rec true) took charge and led with 828 (13.8) while Sanzenbacher had 570 (15.8). Ray Small (PS#14) was in and out of the doghouse (175, 11.7). TE Jake Ballard had 150 (10.7) and true frosh Duron Carter (PS#33, Chris' son) had 176 (13.5). This year they must replace Ballard (13 st) and also lose Small (4 st). Not listed below are Ricky Crawford (6'3" 215 Sr), Garrett Hummel (5'11" 195 Sr) and TE Spencer Smith (6'2" 236 Jr). This is a much more exp'd unit and Posey should be one of the nation's best.

OFFENSIVE LINE - In 2007 OSU had to replace 2.5 OL st'rs but the unit paved the way for 196 ypg rush (4.6) with just 19 sk. All 5 st'rs started all 13. I feel those were OSU's best stats of the decade as they did not have the benefit of a mobile QB like Troy Smith or Terrelle Pryor. In '08 they only had to replace 1 starter and the unit underperformed as they avg'd 192 ypg (4.6) despite having Pryor and a #1DC RB. Last year they had to replace 3 st'rs but added in Michigan transfer Justin Boren (PS#11, 13 st at UM '07). In the 1H of '09 the O-line performed weaker than they had in many years, culminating in the Purdue loss in which they ran for 66 (2.4) and Pryor was sk'd 5 times. In the 2H they were greatly improved as the Bucks ran for 200+ yards in 5 of the last 6. Backup OT Marcus Hall (PS#5) took off his RS vs Indiana and played in the last 9. This year they lose OT Jim Cordle (8 st) and LG Andrew Moses (1 st). Not in the PSL are Scott Sika (6'2" 282 Sr) and Chris Malone (6'1" 279 Sr). This is a veteran unit (93 car sts) that is filled with 12 VHT's and should continue to show improvement.

LG Justin Boren

DEFENSIVE LINE - In '08 OSU had 7 of their top 8 back but had to replace the Big Ten DL of the Year Vernon Gholston (#1DC). Surprisingly the Buckeyes allowed 110 ypg rush (3.5) with just 28 sks, their worst totals in 4 yrs. Last year they only had to replace 1 DL (9 st, 33 tkl) and ret'd 7 w/st exp. Their top run stuffer DT Dexter Larimore only started 5 (knee). The numbers improved to 91 ypg rush (2.9) with 30 sks. Wisconsin coach Bielema said OSU's DL rotation was the deepest he'd seen since he's been in the Big Ten. This year they lose 3rd Tm Big Ten DE Thaddeus Gibson (13 st, 45 tkl, 4 sk, 9 tfl, #4DC PIT), DT Doug Worthington (13 st, 42 tkl, 2 sk, #7DC PIT), DT Todd Denlinger (7 st, 16 tkl, 2 sk), DE Lawrence Wilson (1 st, 23 tkl, 2 sk) and DT Rob Rose (10 tkl, 2 sk). DE Cameron Heyward only played an estimated 60% of the snaps due to the rotation but still earned 2nd Tm All B10. He turned down the NFL (proj #2DC) but just 4 of the top 8 are back and the DL figures to be down a notch or two.

LINEBACKERS - In '08 the Buckeyes had 5 of their top 6 back and James Laurinaitis won Big Ten DPOY and the Lott Trophy while Marcus Freeman was 2nd Tm B10. Last year those 2 departed (#2, #5DC's) and the top 2 returnees were only the #4 and #15 tkl'rs. They did add in PS#4, PS#7 and PS#9 true frosh. Brian Rolle (#2 tkl'r LY) was given #36 which had been the # of AA LB's Spielman, Cousineau and Marek. He teamed with #1 tkl'r Ross Homan to put up comparable #'s to the Laurinaitis/Freeman duo (214 tkl '08 vs 203 '09). This year they only lose Austin Spitler (9 st, 38 tkl, #7DC MIA) and those 3 super VHT frosh (2 RS) should make a bigger impact. This unit ranks among the FBS's best (pg 14).

DEFENSIVE BACKS - Since '97 OSU has had 7 #1DC DB's with 22 DB's drafted overall. Even in a year like '06 when they had to replace all 4 st'rs (#1, #3, #4DC's) OSU still finished #12 allowing a 10-21 ratio. In '08 they had a veteran unit and finished #9. LY they had to replace 1st Tm AA CB Jenkins (#1DC) and a bkp (#4DC). They had 3 st'rs back and finished #12 (10-24). Two-year returning starting FS Anderson Russell lost his job to Jermale Hines. Not listed below are Taylor Rice (5'10" 177 So), Nate Ebner (6'0" 200 So) and Aaron Gant (6'0" 206 Sr, PS#307). This year they lose 3rd Tm AA SS Kurt Coleman (12 st, 68 tkl, 5 int, #7DC PHI), Russell (7 st, 49 tkl, 3 int) and CB Andre Amos (2 st, 12 tkl,1 pbu). HM B10 CB Chimdi Chekwa returns and this is my #6 rated secondary.

SPECIAL TEAMS - OSU has recorded two #1 finishes in my ST rankings ('94 and '04). Jim Tressel has been quoted as saying the punt is the most important play in football and holds scrimmages in spring and Aug devoted exclusively to ST's. In '07 they only finished #41 but in '08, as you would expect, moved back to #5. Last year they had to replace their K and P. Aaron Pettrey hit 14-20 FG's (long 52, 2 miss 50+) but was injured vs NMSt. Devin Barclay, who was a professional soccer player (27 yrs old), hit 7-10 (long 39) but was 0-2 from 40+. Barclay had 4 TB on 26 KO. New P Jon Thoma only avg 37.9 (solid 36.8 tm net) while the return game was average (8.0 PR, 22.3 KR). Despite the loss of Pettrey, Thoma and their top returnmen, OSU could actually move up from LY's #41 finish.

COACHES - In Jim Tressel's 2nd year, he won a Nat'l Championship, becoming the 1st coach to win an NCAA Title at both the IAA and IA levels. He was the COY in '02 and now enters his 10th season as does his OC Jim Bollman. Tressel was the first OSU coach to win four Big Ten Titles in his first seven years. Tressel has led OSU to 5 straight B10 Titles and would tie the B10 record if they capture a 6th straight this year. The last five years they have used co-DC's in Jim Heacock and Luke Fickell. Heacock, who calls the def plays, won the Broyles Award as the NCAA's top asst in '07.

PHIL'S FORECAST

Ohio St actually finished outside of the AP Top 25 for 3 straight years prior to '02. I rated Ohio St #7 in '02 which was far higher than almost every other source. I called them my #1 Surprise Team (darkhorse contender for the Nat'l Title). Only 2 other preseason magazines (besides mine) even picked OSU to win the Big Ten. OSU took home their first Nat'l Title since 1968 (Woody Hayes' 3rd) when they defeated Miami. They became the first team in major college history to compile 14 wins in a season (7 by 7 or less). In '03 OSU had a chance to get to the Nat'l Title game before they lost to Mich. OSU finished #4 at 11-2 including a win over K-St in the Fiesta Bowl. In '04 the Bucks set a record for NFL DC's (14) with the prev high being 11. As expected OSU stumbled to 8-4. OSU finished #4 in '05 with losses to eventual #1 Texas and #3 Penn St. In '06 OSU lost an amazing 5 #1 DC's. They opened the season #1 and stayed there the entire year including their epic battle vs #2 Mich. They outscored B10 foes by 26.6 ppg. Troy Smith became the 6th Buckeye to win the Heisman (Archie Griffin 2x winner). They had 51 days off prior to playing Florida in the Nat'l Title game and were outgained 370-82. In '07 they had to replace Smith, their top RB and top rec. They were just #11 to start but at 7-0 moved up to #1 and stayed there for 4 weeks. With Mich on deck, they lost to IL and fell to #7 and it appeared their Nat'l Title hopes were gone. After beating Mich on the road (14-3) and having almost every other team in contention lose, OSU got back to the Title game vs LSU where they dropped to 0-9 vs the SEC in bowls. In '08 OSU had 19 ret st'rs, the most ever for a team that played in the BCS Title game. They did have just 3 sts lost to inj in '07 and did not have that same good fortune in '08 as RB Beanie Wells was inj'd in the opener and missed 3 incl USC (lost). Later #3 Penn St beat them at home, 13-6. Ohio St blew out their final 3 (school record 5th straight win over Mich) by an avg of 26.7 ppg. They played in their 4th Fiesta Bowl in 7 yrs but suffered a tough loss with Texas getting a TD with :16 left. After being #1 in ypg in Big Ten play for 3 straight years, the Bucks were +54.1 ypg (5th best). Last year Tressel called it his youngest team yet with just 12 seniors on the preseason 2 deep. They had a 29-14 4Q lead vs Navy but needed an int on a 2 pt conv try (which could have tied it) that OSU ret'd for 2 for a 4 pt win. USC had a true frosh QB making his first road start but prevailed in Columbus 18-15 with USC scoring on an 86 yd TD drive with 1:05 left. OSU responded with B2B shutouts vs Toledo and Illinois and then routed Indy on the road. Against Wisc they were outgained 368-184 but prevailed 31-13 with 2 IR and 1 KR TD's. They were outgained 361-287 at Purdue and trailed 23-7 in the 3Q in a stunning 8 pt loss. OSU beat Minn and NMSt (comb 83-7) then won at Penn St, 24-7 (353-201 yd edge). They benefitted from Iowa giving a frosh QB his first start (Stanzi out) and needed OT to escape with a 27-24 win. Michigan needed a win for a bowl game but OSU won 21-10. The Buckeyes got to their first Rose Bowl game S/'96 despite having just 3 players make 1st Tm All Big Ten. In the Rose Bowl they had a 26-12 FD edge (419-260 yd) and throttled Oregon 26-17. On the negative side they were +17 in TO's and despite winning the Big Ten were only +55.8 ypg (3rd best). They achieved their 5th straight Top 10 finish. OSU is a much more exp'd team TY (15 ret st'rs). While they must face Iowa and Wisc on the road, 8 of my 9 sets of power ratings call for a 12-0 season and I project a 4th National Title game appearance in 9 years.

IOWA HAWKEYES

POSITION OUTLOOK FOR 2010

QUARTERBACKS - In '07 Jake Christensen replaced the school's #2 career passer Drew Tate. Playing behind an OL with 1 ret st'r Christensen was sacked 46 times in '07 and was last in the Big Ten in pass efficiency (2269, 54%, 17-6). Ricky Stanzi played in 2 (0-4 pass). In '08 Christensen started the opener but Stanzi took charge of the job. Stanzi threw for 1,956 (59%, 14-9). Christensen threw 63 passes and transferred to E Illinois. Stanzi was the clear-cut st'r in '09 and proved to be a clutch performer in the 4Q. In the 1Q of games he completed 51%. He improved to 53% in the 2Q, 57% in the 3Q and an outstanding 67% (pass eff rating 200.2) in the 4Q. Stanzi threw for 2,417 (56.3%) and while he had 17 TD's, he also had 15 int (4 IR TD's) including 5 vs Indiana. Stanzi was inj in the 2Q vs NW in Iowa's 1st loss of the season and James Vandenberg struggled in relief. Vandenberg got his first start vs an excellent Ohio St defense on the road with the Big Ten Title on the line and threw for 233 yds and 2 TD's but with 3 int's. He finished with 470 (48.3%, 2-5). This year both QB's return and adding depth are John Wienke (6'5" 220 So, PS#26) and Wyatt Suess (6'2" 200 rFr, PS#209). Stanzi should have a fine senior season.

RUNNING BACKS - In 2008 this unit was a major question mark as the top 2 RB's out of spg were Nate Guillory (PS#26JC) and walk-on Paki O'Meara (5'11" 211 Sr) and the leading returning rusher was a WR (19 yds '07). Guillory transferred and Shonn Greene made it back from JUCO to take over the starting job. Greene had a year well beyond expectations rushing for a UI record 1,850 (6.0) with 20 TD's and was the #3DC of NYJ where he had a terrific playoff run in his rookie year. True frosh Jewel Hampton (PS#186) had 463 (5.1) and O'Meara added 62 (3.0). Last year Hampton injured his knee over the summer so the position was back in the same state as '08. A couple of rFr in Jeff Brinson (PS#120) and Adam Robinson (PS#198) started getting reps as did true frosh Brandon Wegher (PS#5). Surprisingly Robinson, who got the last scholarship of his class and was tried at S in the spring, emerged as the st'r. He rushed for 834 (4.6) despite missing 2 (ankle) and wasn't 100% in others. Wegher was a late scratch vs Ohio St but finished with 641 (4.0). O'Meara had 35 (2.2). Brinson (3 gms, inj) transferred. Not listed below are Brad Rogers (5'10" 215 rFr, PS#77) and Jason White (5'10" 205 So). While they probably will not match Greene's '08 stats, this is Iowa's most exp'd unit in the last 3 years.

RECEIVERS - Last year the Hawkeyes had to replace 2 of their top 3 rec's but ret'd the #1 man in Derrell Johnson-Koulianos ("DJK") who had 639 (14.5) in '08. DJK missed one game and was 2nd string in 5 outings but still led with 750 (16.7). 6'4" Marvin McNutt (PS#43QB) was #2 with 674 (19.8) including the game winning rec vs MSU after moving over from QB in the spring. Trey Stross (PS#24) added 414 (13.4) and Tony Moeaki, who battled foot injuries in '08, added 387 (12.9) despite missing 3. This year they lose Stross (12 st) and Moeaki (10 st, #3DC KC). Not listed below are Steven Staggs (6'3" 195 So, PS#148), Ben Evans (6'0" 178 Sr), Nick Kuchel (5'11" 195 Sr), Don Nordmann (6'6" 211 Sr), Paul Chaney (5'9" 170 Sr, PS#89) and TE's Zach Furlong (6'5" 248 Jr), Jon Gimm (6'3" 240 So, PS#29), Dakota Getz (6'4" 230 rFr, PS#151) and Zach Derby (6'3" 235 So, PS#155). With the top 2 rec's back they have a little more exp than '09.

OFFENSIVE LINE - Kirk Ferentz was an NFL OL coach which means this unit is always one of his top priorities and he's had 10 OL drafted in his tenure. In '02 he developed what was arguably the best OL in the NCAA. They paved the way for 5.0 ypc rushing (just 13 sk). In '07 Iowa basically had one ret st'r (lost 2 DC's & a 1st Tm B10 OG). As you would expect, Iowa struggled with just 126 ypg (3.5) and 46 sks (12.2%). In '08 the entire 2 deep ret'd and the more exp'd unit improved to 189 ypg (best S/'02) rush (4.8) with 27 sks (8.4%). Last year they had to replace 2 st'rs but had 99 career sts (#10 FBS). Surprisingly the numbers dropped (114 ypg, 3.3) with 29 sks (2.4%). Injuries hurt them (9 sts missed) and Bryan Bulaga wasn't 100% when he ret'd but this unit clearly underperformed. This year they lose the B10 OLPOY in Bulaga (10 st, #1DC GB), 2nd Tm B10 C Rafael Eubanks (13 st), 2nd Tm B10 T Kyle Calloway (12 st, #7DC BUF), G Dace Richardson (8 st), G Dan Doering (1 st, 5 gm) and G Andy Kuempel (5 gm). They have just 4 of their top 10 ret (36 car st). This group is a lot less exp'd (lose 128 car sts) and less talented but could produce better numbers.

DT Christian Ballard

DEFENSIVE LINE - In '08 Iowa had to replace both DE's (2nd Tm B10 and #4DC) but did have 6 of the top 8 back including perhaps Iowa's best ever DT combo of Mitch King (B10 DLPOY) and Matt Kroul (50 consec sts). That unit allowed just 94 ypg rush (3.1) but the team had just 19 sks. Last year they had to replace both of their star DT's and as you would expect, the rushing numbers increased to 124 ypg (3.5) despite DE Adrian Clayborn's emergence (11.5 sk). Clayborn turned down a shot at the NFL so the only loss this yr is DT Travis Meade (1 tkl). With 4 st'rs back who combined for 252 tkls, 27 sks and 26 tfl in '09, this is my #3 rated D-line.

LINEBACKERS - After having an inexp'd LB corps in '08, the Hawks ret'd their top six (#1, #2 and #6 tkl'rs all VHT). Last year it was one of the top LB units in the country but this year they lose 1st Tm AA Pat Angerer (13 st, #1 tkl'r, 5 tfl, #2DC IND) and 2nd Tm B10 AJ Edds (13 st, #4 tkl'r, 4.5 tfl, #4DC MIA). They return PS#13 Jeremiha Hunter and in the one game he missed, Troy Johnson was the B10 DPOW vs Minny. This group has potential but it is clearly less experienced.

DEFENSIVE BACKS - In '08, JC Amari Spievey beat out one of the Hawks 2 ret st'rs as UI finished #7 in my PDR (9-23 ratio). LY they had to replace 1 st'r (#3DC) and Jordan Bernstine (PS#11, proj st'r) broke his ankle in Aug. With 3 ret st'rs they were one of six teams in the country to allow less than 50% comp (49.6%) with just a 9-21 ratio (#6 PDR). This year they lose 1st Tm B10 CB Spievey (13 st, 56 tkl, 2 int, 8 pbu, #3DC DET) and FS Joe Conklin (1 st, 11 tkl, 1 int). Not in the PSL are Nick Nielsen (6'3" 210 So) and Justin Greiner (5'10" 185 Sr). While they have just 1 VHT in the 3 deep, they do return 1st Tm B10 SS Tyler Sash and 2nd Tm B10 FS Brett Greenwood and have 5 back who started in '09. This is the Big Ten's best secondary.

SPECIAL TEAMS - Ferentz believes his ST unit should be the great equalizer allowing Iowa to contend with teams with superior talent. Heading into '06, Iowa had finished #2, #2, #18 and #20 in my ST rankings. They surprisingly finished #76 in '06, #62 in '07 and inched up to #48 in '08. Last year they only had to replace their top PR. P Ryan Donahue (net 37.0 '08) had a 37.1 net. In '08 Trent Mossbrucker was the main FG guy hitting 13-15 (L/39) while Daniel Murray hit 6-9 (L/45). Murray hit 19-26 (long 48, 1 miss 53) in '09 (Mossbrucker RS). Murray also had 5 TB's on 66 KO's. DJK was the top KR (31.5) and true frosh Brandon Wegher was #2 (23.8). Iowa moved up to #27 and with everyone back should find itself back in the top 20 in '10.

COACHES - Kirk Ferentz is among the highest paid coaches in the NCAA and was named the Big Ten COY in '02, '04 and '09. In '02 he led Iowa to its first Big Ten Title since '90 and also the most wins in school history (11) which he tied last yr. NFL scouts feel this coaching staff is one of the NCAA's best and there has been little staff turnover. After another round of NFL rumors, Ferentz was given a contract extension through 2015. Ken O'Keefe has been the OC for 12 years. He was the HC at Fordham in '98 and at Allegheny from '90-'97. DC Norm Parker also enters his 12th year. Parker was named the SEC DC of the Year in '97 while at Vandy. He was also a finalist in both '04 and '05 for the Broyles Award.

PHIL'S FORECAST

Kirk Ferentz was 2-18 in his first 20 games but is 79-37 since that rough start. The record setting '02 team played in the Orange Bowl (8-0 B10) despite being out FD'd 102-66 in their first four Big Ten games. In '03 they slipped to 5-3 in Big Ten play but got their first Jan win since 1959 when they beat Florida in the Outback Bowl. In '04 they had just 9 st'rs back. They opened just 2-2 but rallied for a 10-2 record incl a bowl win over LSU. That marked their 3rd straight DD win season (#8 AP all 3 yrs)! The '04 Hawks benefitted from +13 in turnovers. In '05 the Hawks had 12 ret st'rs and were the preseason AP #11 but suffered through a disappointing year (7-5) incl an Outback Bowl loss. Heading into '06, Iowa was one of 4 teams to go to 4 straight Jan bowls. They ret'd 14 st'rs and had a veteran senior QB but surprisingly after their close bowl loss to Texas, had their first losing season since 2000. Their 31 TO's (-11) were the most S/'89. In Ferentz's first 8 seasons just 32 true frosh played but he used 11 in '07. After going 20-4 vs the Big Ten from 2002-'04, they went just 11-13 from 2005-'07. Arrests and problems with players' Facebook pgs came up in '07 and '08. Iowa did suffer some tough losses in '07 and after a loss to WM, they fell to 6-6 with no bowl for the first time since 2000. While Iowa was 4-4 in Big Ten play, they were -89 ypg (2nd worst). In '08 they did not face Ohio St or Mich for the 2nd straight year. The Hawkeyes were actually inches away from contending for the Big Ten Title (see my 2009 mag). Over the '09 summer on philsteele.com I asked if they were this year's Alabama. In '07 Bama's 6 losses were by 3, 7, 7, 5, 7 and 7. The Tide, despite having 4 tough road games finished the '08 reg season #1 in the country (12-0). Iowa had 4 tough road games heading into '09 and their '08 losses were by 1, 5, 3 and 3 pts. Iowa nearly went unbeaten. They did block 2 game winning FG attempts at the end to pull out a win vs FCS N Iowa. After beating Iowa St and Ariz, they trailed Penn St in the 4Q but a blk'd punt for a TD and then 3 consec PSU TO's led to a 21-10 win. The next week, in a letdown spot they led 21-7 but gave up a 75 yd IR TD and only won by 3 vs Ark St. Against Michigan they were +4 in TO's but only won by 2. They trailed Wisc 10-0 in the 2Q but rallied for a 20-10 win. They needed a 7 yd TD pass on the last play to get past Mich St. At 8-0 #7 Iowa trailed Indy 21-7 in the 3Q. The Hawks got a huge break when Indy controversially had a TD overturned and then missed a FG and Iowa rallied for a misleading 42-24 win. The next week they lost QB Stanzi to injury vs NW and Vandenberg hit just 9-27-82 and they were upset. With the Big Ten Title on the line they travelled to Ohio St where they lost by 3 in OT as Vandenberg threw the game clinching int. After shutting out Minn the defense throttled a seemingly unstoppable GTech offense in the Orange Bowl holding them to 155 yards and 9 FD's and the Hawkeyes finished 11-2 and #7. This year they do have 14 ret st'rs and will be in the preseason Top 10. Despite their 6-2 record they were only +27.8 ypg (4th best) and did have 2 net close wins in '09. Iowa gets Penn St, Ohio St and Wisconsin at home and are a legitimate Big Ten contender.

PENN ST NITTANY LIONS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - Daryll Clark was the backup in '07 and showed some promise in the Alamo Bowl rushing for 50 yds on QB draws. In '08 Clark battled soph Pat Devlin (PS#5). The job was rated as a toss-up but Clark won it and had a 1st Tm All B10 year throwing for 2,592 (60%) with a 19-6 ratio (#3 rusher). Devlin led the game winning TD drive vs OSU when Clark was injured but opted to transfer to Delaware prior to the Rose Bowl. Last year Paterno brought in Kevin Newsome (IFS) who played at Hargrave. In just 2 years as a starter, Clark finished with 6 PSU records including season passing yards (3,003) and TD's (24) as well as career passing TD's (43) and rushing TD's. He completed 60.9% (24-10) and was the #3 rusher with 211 (2.5). Newsome played in 10 hitting 8-11 for 66 yds (95 rush, 4.8) with most of his work vs E Illinois. The knock on Clark was his inability to win big games but it was nice to see him leave the field a winner in the bowl vs LSU. This year's true frosh Paul Jones (PS#7 IFS) and Robert Bolden (PS#5) have a shot but the top 2 QB's in the spring were Newsome and former walk-on Matt McGloin (PS#171). Naturally going from a two time 1st Tm Big Ten QB to a unit with 13 career att's, there figures to be a drop off.

RUNNING BACKS - In 2007 Rodney Kinlaw became the 11th Lion to top 1,000 rushing with 1,329 (5.5). RFr Evan Royster (PS#18) was the power back rushing for 513 (solid 6.3 ypc). In '08 they had to replace Kinlaw but Royster improved his speed. RFr Stephfon Green (4.29 spd) rushed for 578 (5.5) while Royster rushed for 1,236 (solid 6.5) despite being injured in the bowl and he actually led the FBS in ypc after 9 games. Last year Royster struggled with the flu early but got back into form and finished with 1,169 (5.7). He turned down a shot at the NFL and is likely to finish his career as PSU's all-time rush leader (needs 481). Green was injured early and Brandon Beachum (6'0" 218 Jr, PS#14) took the #2 spot. Beachum had just 113 (4.7) before he was lost to an ACL vs Indiana. Green finished #2 with 319 (4.5). Not listed below are Shaine Thompson (6'0" 211 Jr), Hykeem Brodie (5'11" 223 So), spring star Curtis Dukes (6'1" 238 rFr, PS#40) and FB's Pat Zerbe (6'1" 240 rFr) and Michael Zordich (6'1" 225 So, PS#15, susp'd spg). They also add in 2 VHT true including Silas Redd (PS#10, IFS). There figures to be more of an emphasis on running the ball with an inexp'd QB and with everyone back this unit should have improved numbers.

RECEIVERS - In 2005 Paterno brought in an excellent class of true frosh and the 3 WR's were the top 3 rec's in all 4 of their seasons. Deon Butler (#3DC) departed as PSU's #2 career rec leader, Derrick Williams (#3DC) was PSU's MVP in '08 and Jordan Norwood finished #3 in career rec yds. This unit was a major question mark prior to '09 but performed beyond expectations. Those 3 comb for 1,932 (14.6) in '08 while last year's top 3 including TE Andrew Quarless combined for 1,921 (14.2). Derek Moye is 6'5" (4.38 spd) and led with 785 (16.4) while former walk-on Graham Zug (6'2") had 600 (13.0). Quarless had 8 rec in the bowl and added 536 (13.1). Chaz Powell (PS#48) had 366 (13.1). This year they must replace Quarless (13 st, #5DC GB) and TE Mickey Shuler (4 st, 11 rec, #7DC MIN) and Powell was moved to CB but could play both ways. Also keep your eyes on WR Devon Smith who is one of the B10's smallest players, but is also one of its fastest (4.19 spd). Not listed below are Christian Kuntz (6'4" 207 rFr, PS#121), Tariq Tongue (5'8" 164 rFr), Brandon Moseby-Felder (6'2" 170 rFr, PS#103) and TE Brennan Coakley (6'4" 241 Sr). There is plenty of talent available and this is a much more veteran unit.

OFFENSIVE LINE - In 2008 the Lions OL had 93.8% sts ret and they opened holes for 206 ypg rush (5.2) while allowing just 13 sks (3.4%). Last year they had to replace 3 st'rs including the Rimington Award winner, a 3rd Tm AA G and a 1st Tm B10 LT. They did shuffle the OL at times but the numbers only dropped to 170 ypg rush (4.7) with 17 sks (4.3%). This year they lose 3rd Tm AA LT Dennis Landolt (13 st, 3Y st'r), RT Ako Poti (8 st) and RT Nerraw McCormack (1 st). The Lions return their star 1st Tm B10 Stefen Wisniewski who moved back to RG (from C) in the spring. This is a more exp'd unit that will be stronger and 4 of the 5 proj'd st'rs are VHT's.

DT Ollie Ogbu

DEFENSIVE LINE - Penn St has not allowed over 94 ypg rush in the last 5 years thanks in part to this unit. Last year they had to replace #1DC Aaron Maybin (12 sk) and two others (comb 16 sts, 7 sk). DT Jared Odrick became PSU's 4th Big Ten DPOY and the league's first interior DL to win the award since 1993 (Dan Wilkinson, Ohio St). The Lions allowed just 90 ypg rush (2.8). This year they lose Odrick (#1DC MIA, 13 st), DE Jerome Hayes (7 st, 18 tkl, 4.5 tfl) and Tom Golarz (2 tkl). It's surprising to me that there are "only" 5 VHT's in the 2 deep. Last year they had 22 sts (6.5 sk) back from '08 and this year they have 31 sts and 18.5 sks back.

LINEBACKERS - "Linebacker U" had a surprising streak of 6 straight years without a LB drafted ('01-'06). They now have had 6 in the last 3 years including 3 in 2010 (#2, #3 and #7 DC's). Coming into last year PSU looked to have the NCAA's best LB corps. Soph Michael Mauti (PS#21) battled Josh Hull (#2 tkl'r '08) for 1 spot while they had 2 of the NCAA's best LB's (Sean Lee and Navorro Bowman) in the other spots. PSU allowed just 274 ypg and 12.2 ppg even though Mauti missed the season (ACL) and Bowman and Lee did not play together until wk 8 due to injuries. Bowman still finished as the #2 tkl'r and Lee #3. This year the top 3 tkl'rs depart in 1st Tm B10 LB Bowman (93 tkl, 17 tfl, #3DC SF), 2nd Tm B10 Sean Lee (8 st, 86 tkl, 11 tfl, #2DC DAL) and Hull (#1 tkl'r, 8.5 tfl, 13 st, #7DC STL). Mauti returns while Nate Stupar (PS#16) and Bani Gbadyu (PS#25) combined for 7 sts (68 tkl). Ten players in the PSL are VHT's and hopefully they stay healthier but with less exp, will be a notch or two below last year's lofty standards.

DEFENSIVE BACKS - PSU has had five top 10 finishes in my PDR in the last 13 yrs. In '06 they had to replace all 4 st'rs and just missed (#16). They only had to replace 1 starter in '08 and finished #24 (10-16 ratio). Last year they again had to replace all 4 st'rs (1st and 2nd Tm B10). I wrapped up 2009's analysis by saying that perhaps they could duplicate '06's (0 st'r back) performance. They very nearly did that as they finished #23 (54.1% 10-14). This year they lose CB AJ Wallace (6 st, 36 tkl, 6 pd) and CB Knowledge Timmons (6 st, 21 tkl, 2 pbu). While they "only" have 5 VHT's in the 2 deep, this is a much more exp'd group.

SPECIAL TEAMS - The Lions finished #17 in my ST rankings in '06, #36 in '07 and #4 in '08. Last year I was shocked as it was probably Paterno's worst ST unit ever (#115) with major gaffes in their losses to Iowa and OSU. They did have to replace their K, Kevin Kelly (20-24 long 52 in '08) and 1st Tm AA PR/KR Derrick Williams. Jeremy Boone avg 43.3 on punts but due to poor coverage units, had a net of just 31.7 (37.9 net in '08). Collin Wagner hit 15-22 FG's (only 1-5 40+) with 10 TB's on KO'S. Their return game was also uncharacteristically below average (5.0 PR, 19.7 KR). This year they must replace their P which proved to be problematic in the spring with Fera being susp'd and WR Zug being the #2 punter. I cannot imagine the Lions having such a poor ST unit ever again under Paterno.

COACHES - Joe Paterno is the NCAA's IA all-time career win leader and has been elected to the College Football Hall of Fame. Paterno has won 2 National Titles ('82 & '86) and four other times has finished undefeated. He has won more bowls than any other coach (24) and has moved past Amos Alonzo Stagg for the longest HC tenure at one school. Impressively he's 2nd among active coaches in career win % (.752). The OC since 2004 is Galen Hall, who was the HC at Florida (1984-'89). The DC is Tom Bradley who is in his 32nd year at Penn St, 11th as DC. Since 1966 when Paterno took over, there have been 860 IA coaching changes.

PHIL'S FORECAST

I would have to classify Penn St's 9-4 2007 season as a disappointment. They had a 427-336 yd edge at Illinois but had 4 key TO's and lost and they had a 24-7 lead vs Mich St in the 3Q but lost and were relegated to the Alamo Bowl. Paterno even said, "We should have been 10-2." While Penn St was just 4-4 in Big Ten play they were #2 in ypg (+38.1). PSU was #7 in the FBS in rush D for an amazing 3rd straight year in '07 and was 2nd in sacks (46). In 2008 PSU moved back to the spread offense that they used in their magical 2005 Big Ten Title season. Despite losing their top LB Sean Lee to injury, they had 16 ret st'rs. Surprisingly PSU was not among the top 3 in the Big Ten '08 preseason poll and I had the only publication in the country to have the Lions ranked in the Preseason Top 10. Out of the 14 sources documented by *stassen.com*, five did not even have the Lions RANKED (#22 AP). Penn St manhandled an Oregon St team that finished #18 AP (45-14) and beat both Wisc and Ohio St on the road. They were 9-0 and #3 with a great shot at the National Title game and led Iowa 23-14 in the 4Q but ended up losing. They lost the Rose Bowl to USC to finish #8 at 11-2 but were by far #1 in the Big Ten in ypg in conf play (+124.2) and had 38 sts lost to injury (#16 FBS). Last year Sean Lee ret'd from injury. Penn St opened with 3 wins over cupcakes to rank #5 AP but leading Iowa 10-5 in the 4Q gave up a 53 yd blk'd punt for a TD and turned it over on each of their final 3 poss. They did not have Lee for the game and were beaten at home, 21-10. Penn St rolled over their next 5 foes including their first win at Michigan S/'96 (35-10). They hosted Ohio St but Royster was injured in warm-ups and was not 100%. It was the first ever reg season game where the coaches had 600+ combined wins and OSU, aided by 2 long PR's, controlled matters dealing PSU a 24-7 loss. PSU won their last 2 to finish 10-2 and controlled the 1H vs LSU leading 13-3 but needed a FG in the mud with :57 left to pull out the Capital One Bowl win. PSU finished #9, their 3rd Top 10 finish in the last 5 years. This year they have just 13 ret st'rs and lose QB Clark as well as B10 DPOY DT Odrick and star LB's Lee and Bowman. They were #1 in the conf at +90.4 ypg despite tying for 2nd. This year the Lions become the first ever team to face THREE teams that won BCS bowls the previous year and all 3 are on the road (Alabama, Iowa, Ohio St). With that schedule they probably won't match last year's 11 win total but still have a shot at a double digit win season.

WISCONSIN BADGERS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - The Badgers have had 3 straight 1st year starting QB's. In '08 Dustin Sherer started the last 7 and threw for 1,389 (55%, 6-5) and was #1 out of the spring in '09. Athletic VHT rFr Curt Phillips (PS#18) moved in front in August and Scott Tolzien (107 yds '08) moved from #3 to the bkp job. Sherer dropped to #3 (only 1 gm) but had a such great attitude that he was awarded the game ball after Indiana despite not playing. Phillips had 8 int's in 1 wk of practice in Aug so Tolzien took over the top spot. Phillips played in the first 3 and became the first UW frosh QB to play in an opener since Brooks Bollinger in 1999. He appeared in just one more, however, as Tolzien was named B10 POW vs Mich St (19-31-243, 4 TD's). Tolzien had an 0-5 ratio vs Iowa and Ohio St (2 IR TD's) but still led the league in pass eff with a strong finish (2,705, 64.3%, 16-11) posting a school record 211 comp. This year they lose Sherer and added to the mix are Jon Budmayr (PS#39) and Nate Tice (6'5" 228 Jr) who is ex-Vikings HC Mike's son. Phillips tore his ACL in the spring and Budmayr struggled as the bkp. While UW is not as deep as LY, I was impressed with Tolzien and he is the first returning starting QB here since 2006.

RUNNING BACKS - The Badgers had a streak of 10 straight years with a 1,000 yard rusher until '03 and '04 when the top back was plagued by injuries. They have now had 5 straight 1,000 yard seasons. PJ Hill rushed for 1,212 (5.2) in '07 then sharing time with rFr John Clay (PS#3), Hill rushed for 1,161 (5.1) in '08. Clay had the best ypc with 5.7 (884). Last year they had to replace Hill but ret'd #3 Zach Brown (PS#151) who had 305 (5.5) in '08. Brown actually started the opener but Clay got the bulk of the carries in Wk 2 vs Fresno and then was named the starter vs Wofford. Clay had 3 fumbles and didn't approach it with the right attitude so Brown started the next 3 with Clay still getting the bulk of the carries (Clay 84 att, Brown 21). They were going to RS true frosh Montee Ball (PS#64) but scrapped those plans vs Minn. Ball took over the #2 spot (Brown inj'd). He took most of the snaps vs Indiana with Clay being injured in the 2Q and finished #2 with 391 (4.0). Brown had 279 (4.2) while Clay had nine 100 yard games finishing with 1,517 (5.3) and 18 TD's. With Big Ten OPOY Clay turning down a shot at the NFL, I look for even stronger production.

RECEIVERS - The TE is a big part of the Badger offense and Garrett Graham led with 540 (13.5) in '08. Another TE, Travis Beckum, had just 4 sts (inj) and was #4 with 264 (11.5). The top WR's were David Gilreath (PS#51) who had 520 (16.8) and Isaac Anderson (286, 13.6). Nick Toon (PS#14) had 257 (15.1) while Kyle Jefferson (PS#36) had 189 (13.5). Third string TE Lance Kendricks was #7 with 141 (23.5). Last year 6 of the top 7 ret'd with the only loss being Beckum (#3DC NYG). Toon lived up to his VHT billing and led with 805 (14.9) while Graham was #2 with 624 (12.2). Anderson had 480 (16.0) and Kendricks had 356 (12.3) with 102 rush (14.6). Gilreath (offseason surgery) dropped to 177 (14.8). This year they lose 1st Tm B10 Graham (#4DC HOU) and TE Mickey Turner (6 st, 6 rec). Not listed below are TJ Williams (6'0" 181 So), Jeff Duckworth (6'0" 200 rFr, PS#191), spring standout Jared Abbrederis (6'2" 181 rFr) and TE Rob Korslin (6'4" 258 Jr). This group is even a little more exp'd than '09 and Kendricks could be the 3rd straight Badgers TE to earn 1st Tm All Big Ten honors.

OFFENSIVE LINE - In '07 the Badgers had 9 of the top 10 back and a legit 5-man #2 O-line. When I think of Wisconsin, I think of big O-lines and power rush attacks so it's surprising to me that their 201 ypg rush (4.4 ypc) was actually their best total of the decade! Due to inj over the last 6 they had 2 rFr st'rs on the left side and allowed 33 sks (10 vs Ohio St). In '08 they had to replace one starter (2 bkp). They also had 2 key OL's miss a couple of games. The Badgers still improved to 211 (4.8) with 29 sks (8.7%). Last year they had to replace a #3DC and 2 other 3 yr st'rs (comb 121 car st). They had just 49 career sts. I said it would be tough to match '08's numbers but they came close (204 ypg rush, 4.6) with 23 sks (6.8%). They managed to do so despite a slew of inj (6 diff starting lineups). This year they must replace Jake Bscherer (3 st LG, 3 st RT) but have 9 (7 w/st exp) of the top 10 back. The group is huge (avg 321 lbs) and has 107 career sts (#9 FBS). This is the Big Ten's OL best and they are my #2 front wall overall.

C John Moffitt

DEFENSIVE LINE - In '07 UW had to replace 1 st'r but slipped to 134 ypg (4.1). In '08 all 3 ret senior st'rs started all 13. Surprisingly UW only improved to 133 ypg (3.9 ypc, 23 sk). Last year they had to replace 3 st'rs (120 car sts) incl a #3DC. DE O'Brien Schofield led UW in sks in '08 (5) and last year was vastly improved (1st Tm B10) as he was #2 in the B10 in both sks and tfl (12 & 12.5) and also versatile, dropping into pass coverage like an LB at times. The less exp'd group surprisingly improved to allowing a B10 best 88 ypg (2.9) and did not allow 100 yds rushing to any conf tm. This year they lose their star Schofield (13 st, #4DC ARZ) as well as DT Dan Moore (11 st, 21 tkl, 2 sk), DT Jeff Stehle (12 st, 19 tkl, 3 sk) and DT Jordan Hein (2 tkl). DE JJ Watt was called an "athletic freak" by Schofield but contracted H1N1 at midseason (lost 23 lb). He was #2 with 4.5 sks and should headline this unit in 2010. While this unit is equal to '09 in exp, they lose their top player and will be down a few notches.

LINEBACKERS - The last two years the Badgers have had 2 ret st'rs at LB. Last year rFr Mike Taylor (PS#66) sat out most of the spring and missed part of Aug (hamstring) but quickly won a st'rs job and was the #1 tackler before he was lost for the year vs Iowa. True frosh Chris Borland took his place and was the Big Ten's FPOY (#5 tkl'r). The Badgers allowed an impressive 306 ypg. This year they lose SLB Jaevery McFadden (13 st, #1 tkl'r, 8.5 tfl) but have 5 of the top 6 back including their super sophomore combo of Taylor and Borland.

DEFENSIVE BACKS - UW usually fields a strong secondary. They finished #7 in my PDR in '04, #19 in '05 and #2 in '06. Surprisingly in '07 they slipped to #57 but in '08 with 3 st'rs back, were #35. Last year they had to replace 1 starter, then lost 3 DB (14 comb '08 sts) over the summer so UW basically had 2 st'rs ret (25 '08 sts). The Badgers slipped to #45. This year they lose FS Chris Maragos (HM B10, 13 st, 49 tkl, 3 tfl), William Hartmann (9 tkl) and Prince Moody (4 tkl). ESPN analyst Chris Spielman called S Jay Valai pound-for-pound the best hitter in the Big Ten. Not listed below are Andrew Lukasko (5'10" 180 Jr) and Chukwuma Offor (6'0" 177 Jr). This year they have 5 back with 5+ career sts and the Badgers should make a solid climb up my PDR.

SPECIAL TEAMS - In Bielema's first year UW finished #44 in my ST rankings and moved up to #13 in '07. In '08 Philip Welch hit 20-24 FG's (long 52) and Brad Nortman had a net of 35.3 but David Gilreath saw his PR and KR numbers drop. The Badgers had some inconsistency in the coverage units and surprisingly slipped back to #93. Last year everyone ret'd. A not quite 100% Gilreath struggled early with a 2.5 PR avg so despite an 86 yard PR TD vs NW, the return game was still below average. Welch also struggled at times (17-24 FG, 2 miss 50+) although he did nail a 57 yarder (2nd longest school history John Hall 60 in '95, Metrodome). Nortman avg 42.0 on punts (35.7 net). This year all of the key components return and a now healthy Gilreath is already the career KR leader. Last year I called for good sized improvement in the ST rankings and even though they only moved up to #89, I won't hesitate to make the same call again.

COACHES - After 17 yrs Barry Alvarez stepped aside in '06 as UW's all-time leader in wins (118), although he remains the AD. He handpicked his successor, Bret Bielema, who was brought in from K-St as the DC in '04. When he first took over, Bielema was the NCAA's 2nd youngest HC. After a 12-1 debut in '06, Bielema was named the Big Ten COY and has had his contract extended through 2014. Paul Chryst, who was the OC at Oregon St in '03-'04, came in as the "co-OC" in '05 and took over as the primary OC in '06. Although Chryst has received overtures from the NFL and college for HC jobs he has stayed and was the B10's highest paid asst in '09. Dave Doeren (5th yr here) was co-DC in '06 and '07 but has had the DC duties to himself since '08.

PHIL'S FORECAST

The Badgers' 2005 offense set a school record with 34.3 ppg but ret'd just 3 st'rs in '06. UW came into the season unranked in Bielema's debut but went 11-1 (all wins vs unranked tms). They did upset #12 Ark in the Capital One Bowl as Bielema became the first rookie Big Ten coach (3rd ever in NCAA) to win 12. In '07 the Badgers opened #7, their highest preseason AP ranking since 2000 (#4). Most publications had them ranked #1 or #2 in the Big Ten and I did not make a lot of friends in Madison as I had them lower. UW would finish just 4th and were only +18 ypg (6th best). They had 3 close wins to get to 6-0 but after losing the bowl to Tenn they finished #24 (9-4). Into '08 UW was 25-1 at Camp Randall since '04 and were one of just 3 teams to play in a Jan bowl in each of the previous 4 years (USC, WV). They had 16 ret st'rs and were the most talented team in Bielema's 3 years. Badger fans were hoping for the Big Ten Title (AP#13) as they got both Penn St and Ohio St at home and were picked 2nd in the Big Ten media poll. They disappointed many at 7-6 (Cal Poly miss 3 xp in 1 pt OT win) with a 42-13 bowl loss to Florida St. Last year they had just 10 st'rs back and flew well under the radar. In my 2009 magazine I pointed out that despite the 3-5 record in the Big Ten in '08, UW was +76.9 ypg (4th best). They were -8 in TO's and had 48 sts lost to injury (3rd most FBS). Their defensive ypp was 12.4 and 73% in that spot improved their record the next year so things were pointing up despite just 10 ret st'rs. They were so low under the radar that they opened 5-0 yet were still not ranked! They were fortunate to get past Fresno (in 2OT) and Minn by 3 pts each but with 22-8 FD and 368-184 yd edges lost to Ohio St by 18 in Columbus thanks to 3 OSU return TD's. They blew a 10-0 lead to Iowa losing 20-10 to fall to 5-2. UW got 3 straight Big Ten wins and at 8-2 were talking BCS bowl possibilities. Surprisingly they lost at NW by 2 as they trailed 33-31 and could not score in the last 3 poss. They destroyed Hawaii 51-10. With Miami, FL players bothered by the cold in a surprisingly chilly Orlando, they dominated the bowl with a 430-249 yard edge in a 6 point win. This year the Badgers are a much more veteran team with 16 ret st'rs (10 on offense). Despite their 5-3 record in the Big Ten in '09, UW was +81.3 ypg (#2) which was an even better mark than Big Ten champ Ohio St. On the negative side, they had 3 net close wins. Five of my 9 sets of power ratings call for a double digit win season.

MICHIGAN ST SPARTANS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - Drew Stanton left after '06 as MSU's #2 career passer (#2DC). Brian Hoyer (PS#23) played in 13 over his first 2 years and in '06 threw for 330 vs Minny and then set a school record for att's with 61 for 291 yards at Penn St. In '07 Hoyer had just 4 int vs Big Ten teams and finished #2 in pass eff in conf play. He threw for 2,725 (59%, 20-11). In 2008 both of Hoyer's backups transferred which left rFr Kirk Cousins (PS#179) as the lone scholarship backup. MSU had to replace their top 2 WR's (#2, #5DC's) and with dropped passes common, his completion % slipped to 51% (2404, 9-9). He did become the first QB to take the Spartans to B2B bowls since 1990 and left as the #3 career passer. Cousins beat out Keith Nichol (PS#7, 4.5 spd) who played in 3 as a true frosh at Oklahoma. The 2 alternated snaps early until Cousins suffered an ankle inj vs Mich. Nichol started vs Illinois but injured his elbow and Cousins took command. Cousins threw for 2,680 (60.4%, 19-9). Nichol threw for 764 (53.8%, 7-3). Andrew Maxwell (PS#32) was impressive with the scout team in his RS year. Nichol moved to WR prior to the bowl and will start there. This is the deepest QB unit Dantonio has had here and I look for much improved numbers from a more exp'd QB unit.

RUNNING BACKS - In Dantonio's first year he nearly had a pair of 1,000 yard rushers. Javon Ringer, who is 5'9" with 4.4 speed, finished with 1,447 (5.9) and Jehuu Caulcrick added 872 (3.9) with 21 rushing TD's. In '08 they had to replace Caulcrick and Ringer took 92% of the RB carries. While he averaged a pedestrian 4.2 ypc, he was the key to their offense and rushed for 1,637 (#5DC). Last year the big news was the signing of 2 VHT true frosh in Edwin Baker (PS#10) and Larry Caper (PS#21). RFr Caulton Ray (PS#114) started the opener but after 7 games he was taken off the active roster (156, 3.9). Caper led with 468 (3.9) including the game winning OT TD run vs Mich. Baker played in the opener but then looked like he was headed for a RS. After some attrition, they burned his RS and he finished #2 with 427 (5.0). Glenn Winston had 204 (3.4). Ashton Leggett had the team's only 100 yd effort with 110 and 4 TD's vs WM. This year Winston (1 st), Ray (4 st) and Leggett (1 st) all depart with elig remaining as well as FB Andrew Hawken (4 st) and AJ Jimmerson (1 st). Not in the PSL are David Spears (5'10" 200 So), Andre Buford (5'8" 184 So) and FB's Fred Smith (6'2" 228 So, PS#33), Nick Bendzuck (6'2" 245 Sr) and Adam Setterbo (6'3" 228 Jr, PS#211). This unit is much more exp'd despite the unexpected losses.

RECEIVERS - In 2008 MSU had to replace their top 2 rec's and the unit was banged up. The leading returnee was VHT soph Mark Dell (PS#22) who had just 220 (11.0) in '07. Dell missed 2 but still led with 679 (18.9). Blair White (former walk-on) was #2 with 659 (15.3), BJ Cunningham was #3 (528, 12.9) and TE Charlie Gantt #4 (302, 15.9). Last year everyone ret'd. White led with 990 (14.1) earning 1st Tm B10. Cunningham had 641 (13.4) and Dell 449 (17.3). Keshawn Martin was the only player in the FBS last year to have TD's of 80+ yds 3 different ways (run, rec and KR). He was #4 with 411 (22.8) and was the #3 rusher. TE Gantt added 348 (15.8). Five WR's including Dell and Cunningham were susp'd for the bowl and QB Keith Nichol (PS#7) moved in. Nichol has a 38" VL and 4.5 speed and Dantonio called him a "bigger, faster, stronger Blair White." This year they lose White (13 st). Not in the PSL are Donald Spencer (6'2" 205 rFr, PS#63), Cam Martin (6'4" 188 Jr), Brad Sonntag (5'8" 175 Jr) and TE's Garrett Celek (6'5" 245 Jr, PS#95) and Derek Hoebing (6'7" 252 rFr, PS#55). Dropped passes have plagued this unit for 2 years so I look for improvement despite the loss of their top guy.

OFFENSIVE LINE - In 2008 this unit had to replace 4 OL (comb 34 st) but 3 ret'd with 8+ sts (6 w/st exp) and they avg 308 lbs. Surprisingly, even with Javon Ringer at RB they dropped to 130 ypg rush (3.3) with 24 sks (6.0%). Last year they had to replace a pair of 3 year st'rs and then were hit hard by injuries. They had 8 different OL's start in the first 3. Joel Nitchman did not allow a sk all year (1st Tm B10). The Spartans improved slightly to 137 ypg but the ypc moved to 4.2 with just 14 sks (3.3%). This year they lose Nitchman (11 st, 3Y st'r), G Brendon Moss (13 st), LT Rocco Cironi (13 st, 2Y st'r) and T Mike Schmeding (9 gm). I like the rFr additions and also keep an eye on converted DL Antonio Jeremiah (6'5" 360). While this unit is less exp'd (43 car sts), they should come close to last year's production.

DEFENSIVE LINE - In '07 MSU's D-line was led by DE's Ervin Baldwin (8.5 sk, #7DC) and Jonal Saint-Dic (1st Tm B10, 10 sk). They allowed just 126 ypg rush (3.6) while improving the sack total from 16 to 40. In '08 they had to replace 3 st'rs incl both DE's but did bring in Cincy transfer Trevor Anderson (13 st, 6 sk '06). As expected, the numbers dropped to allowing 142 ypg (4.1) with 26 sks. Last year they lost 2 st'rs and had just one senior in the 3 deep. They improved to allowing 113 ypg (3.4) with 35 sks (15 by LB's). This year they lose DE Anderson (13 st, 45 tkl, 4 sk, HM B10), NT Oren Wilson (12 st, 18 tkl) plus 3 bkps (comb 10 tkl). They add in PS#3 true frosh William Gholston who should see time at LB and DE as the Spartans used more 3-4 schemes in the spring. Despite the loss of their top guy, I look for continued improvement.

MLB Greg Jones

LINEBACKERS - Last year MSU was one of two Big Ten teams to return all 3 starting LB's although Adam Decker (8 st '08) lost his spot (used as edge rusher). I projected true frosh Chris Norman (PS#16) to take his place but Brandon Denson got 10 st (#3 tkl'r). Greg Jones was the B10 preseason DPOY in '09 and lived up to those honors (1st Tm AA) with 154 tkls and 9 sks. This year they lose WLB Denson (4 tfl) and Decker (14 tkl) but return their top 2 after Jones turned down the NFL and Norman emerged in the spring when the Spartans were using more 3-4 sets. This is my #6 rated LB corps in the country.

DEFENSIVE BACKS - MSU had an exp'd secondary in '06 but surprisingly dropped to #102 in my PDR (32-8 ratio). In '07 they had to replace both starting CB's but they still moved up to #64. They had to replace 2 S's in '08 and moved up to #28 despite being an injury ravaged group. Last year the Spartans, much like in '06 had an exp'd unit (8 w/st exp) but plummeted to #103 (32-6 ratio). They shuffled the lineup often in the 2H of the year looking for the right combination. This year they lose FS Dan Fortener (9 st, 54 tkl, 1 int), HM B10 CB Jeremy Ware (12 st, 52 tkl, 1 int, 5 pbu, #7DC OAK), Kendell Davis-Clark (3 st, 26 tkl, 1 pbu), Roderick Jenrette (1 st, 25 tkl, 3 pbu), Ross Weaver (1 st, 31 tkl, 1 int) and Ashton Henderson (12 tkl). They do return 3 who started 7+ in '09. This is not an overwhelming unit, and is less exp'd, but with a stronger front 7, they can only improve in my PDR.

SPECIAL TEAMS - In '06 MSU was #67 in my ST rankings. In '07 I noted Dantonio's Cincy units had finished just #106, #113 and #82 so moving up would be difficult. Despite having KR Devin Thomas (29.1), MSU finished just #77. In '08 they had to replace Thomas and their top PR. Brett Swenson set a school rec making 15 straight FG's (Paul Edinger 13, 1998) and hitting 22 of 28 (long 50, 2 miss 50+) on the season. P Bates improved from 39.7 to 42.0 (34.4 net). The Spartans moved up to #58. Last year Bates improved to 41.6 (36.8 net) while Swenson set the school scoring record topping outstanding K's like Morten Andersen, John Langeloh and Edinger. He hit 19-22 FG's (long 52, 2 miss 50+) with 7 TB's on 66 KO's. Keshawn Martin was a dangerous KR (28.9) and avg 7.4 on PR. This year they lose Swenson and figure to drop from LY's #17 finish.

COACHES - MSU wanted an old school disciplinarian so they brought in Mark Dantonio in '07. Dantonio served on Nick Saban's staff as the Spartans' DB coach from '95-'00. He moved on to become DC at Ohio St ('01-'03) including its Nat'l Title year in '02 before taking over at Cincy as HC in '04 where he produced two bowls in 3 years. He has guided the Spartans to 3 bowls incl 2 Jan gms (first B2B Jan bowls since '88-'89). His OC is Don Treadwell who was the MSU WR coach from '00-'02 and UC's OC for 3 yrs. The DC is Pat Narduzzi who was Miami, OH's DC in '03 and the Bearcats' DC from '04-'06.

PHIL'S FORECAST

MSU entered '07 as arguably the Big Ten's biggest underachievers. In John L Smith's debut season in '03 they opened 7-1 vs a soft slate. After that strong start, Smith's Spartans went just 15-25 through '06 and Smith was axed. The team was known for its late season collapses including '06 when they opened 3-0 and had a 37-21 4Q lead vs ND. MSU lost that game and won just once more. That one win came in the NCAA's biggest comeback ever (trailed NW 38-3). The '06 squad was 1-7 and -90.8 ypg (3rd worst) in Big Ten play. Teams that have early success under a new HC usually buy into the program and Dantonio, despite just 12 ret st'rs, got that benefit. The Spartans won their first four including an amazing 6th straight win in South Bend (354-203 yard edge). In the season finale they trailed Penn St 24-7 but rallied for the miracle win to get to 7-5 and a bowl. In '08 MSU opened 6-1 then got a satisfying 35-21 win over Michigan in just the 2nd time they had been favored in the series since 1968. They rose to #17 but lost to Penn St by 31 and to Georgia by 12 in their final 2 to drop to #24 in the final poll. MSU was 6-2 in the Big Ten but -35.9 ypg, a much weaker mark than their 3-5 squad of '07 (+37.0). Last year they had 15 ret st'rs and were picked 3rd in the Big Ten media poll (I had them tied 4th). The Spartans actually finished in a tie for 6th and they were -16.4 ypg (7th best). They did suffer a tough loss vs CM in Wk 2 as CM scored 9 pts in the final :40 and even missed a 47 yd FG but MSU was offsides and CM nailed a 42 yd FG for the win. They had their streak of 6 straight wins at ND snapped as they were int'd at the 4 with :57 left in a 3 pt loss. They trailed Wisky 38-17 in a game not as close as the 8 pt final. MSU was still fueled by Mike Hart's "little brother" comments from '07 and led 20-6 but needed OT to beat UM 26-20. Illinois questionably started McGee at QB (2-11-31 1H) as MSU piled up a big lead (281-60 yd edge) and held on for a 24-14 win. They trailed NW 7-0 at the half but rallied for a 10 pt win to move to 4-3. Iowa got a 7 yd TD pass on the final play to escape (15-13) despite MSU having a 310-276 yd edge. Minny was without WR Decker but outgained MSU 505-360 in an 8 pt loss. After beating WM, they were outgained 524-362 by Purdue but thanks in part to Martin's 229 KR yards and a FR TD, they won 40-37. They were blasted by Penn St at home by 28 and then in the Alamo Bowl they were plagued by susp to their WR's and DB's but played respectably only losing by 10 in front of a pro-TT crowd. MSU got to their 3rd straight bowl game for just the 3rd time in program history but actually finished with a losing record at 6-7. This year the Spartans have 13 ret st'rs and the defense got a big boost when Greg Jones turned down a shot at the NFL. The Spartans (off a losing record) made my Most Improved List and avoid Ohio St in Big Ten play. They should at least match LY's 6 win total by Wk 8 and they may be in line for Dantonio's best season here if they win their bowl.

MICHIGAN WOLVERINES

POSITION OUTLOOK FOR 2010

QUARTERBACKS - The Wolverines have sent a lot of QB's to the NFL with their pro-style offense including Tom Brady, Brian Griese, Elvis Grbac, Chad Henne and Todd Collins. In 2007 Henne (4 yr st'r) left as the school's career leading passer. When Rich Rodriguez took over at WV, he did not have a QB that fit his offense and they struggled, which was the same pattern here in '08. Pro-style passer Ryan Mallett (PS#1, 3 st) transferred (Ark) because the new offense did not suit his skills. The top two heading into fall '08 were rFr Steven Threet (6'6", PS#26) and ex walk-on Nick Sheridan. Threet threw for 1,105 (51%, 9-7) and Sheridan for 613 (46%, 2-5). Last year Threet transferred (Ariz St) and while Sheridan ret'd, it was obvious that a pair of true frosh would battle for the starting job. I projected Tate Forcier (PS#16, IFS) as the starter. Denard Robinson, who has blazing speed (10.28 100M) arrived in the fall and they split some time early on but Forcier took charge. After a great start where he led the team to comeback wins vs ND and Indiana, he struggled in the 2H of the year with a shoulder injury. Forcier threw for 2,050 (58.7%, 13-10) and was #5 rusher (240, 2.0). Robinson threw for 188 (45.2%, 2-4) and was #3 rusher (351, 5.1) while Sheridan had 11 passes. Robinson had been expected to move to RB/WR but he greatly improved as a passer in spring and Rodriguez says the QB competition will be open in Aug. With Robinson, Forcier and true frosh Devin Gardner (PS#4, IFS) all in the running, I would expect greatly improved numbers from this position.

RUNNING BACKS - Mike Hart is Michigan's career rushing leader and was a 4 year starter who needed to be replaced in '08. Brandon Minor (PS#25) was the leading returnee (385, 4.3) and Carlos Brown (PS#12) had 382 (5.1). Minor started just 4 (inj) but still led with 533 (5.2) which was the lowest total for a Wolves season leader since Mel Anthony (394) in 1963. True frosh Michael Shaw (PS#26) was #3 with 215 (5.1) and Brown had 122 (4.2). Last year, Minor was never really 100% leading with just 502 (5.2) in only 9 gms. Brown had 480 (5.9) and true frosh Vincent Smith (PS#56), who had 166 vs Del St, had 276 (5.8) played in 9 gms and tore his ACL vs OSU. Shaw had 185 (4.4). Michael Cox (6'0" 210 So, PS#88) had 113 (8.7). Kevin Grady (PS#2) played FB and had 80 (8.0). This year they lose Minor (2 st), Brown (8 st) and Grady (2 st) but after having an injury plagued group last year, can only have improved production.

RECEIVERS - The Wolves have produced a lot of NFL WR's including their 3 career leaders, Braylon Edwards (#1DC), Anthony Carter and Amani Toomer. Mario Manningham led with 1,174 (16.3) in '07 while Adrian Arrington (PS#10) had 882 (13.2). Both left early for the NFL and the leading returnee in '08 was Greg Mathews (366, 9.4). True frosh Martavious Odoms (tm's fastest) led with 443 (9.0) while fellow true Darryl Stonum (PS#12) was #3 (176, 12.6). Mathews was #2 with 409 (11.7). Last year Odoms was leading in rec's again until he missed 3 (not 100%). He finished #3 with 272 (12.4). Mathews was #2 again with 352 (12.1). Soph Junior Hemingway (PS#17) had 268 (16.8) and TE Kevin Koger (PS#15) had 220 (13.8). RFr Roy Roundtree (PS#68) emerged in Nov when he had 26 rec (just 6 prior) and finished #1 with 434 (13.6). This year they lose Mathews (11 st) and LaTerryal Savoy (12 rec). Not listed below are Terrence Robinson (5'9" 173 So) and TE Jon Bills (6'3" 238 Jr). I look for increased production.

OFFENSIVE LINE - In '08 the Wolves had to replace 4 st'rs and ret'd just 16 car sts. They were inexp'd, learning a new system, plagued by injuries and were shuffled often. The rushing numbers only dropped from 165 ypg (4.0) in '07 to 148 ypg (3.9) and they actually allowed just 22 sks (28 in '07). Last year they figured to be one of the NCAA's most improved OL's as all 5 st'rs ret'd but they did lose C David Molk (top OL) after 4 sts. The numbers improved to 186 ypg (4.5) but with 28 sks (8.5%). This year they lose LT Mark Ortmann (12 st, 2Y st'r), C/G David Moosman (11 st) and backup Tim McAvoy. They get the return of Molk, are in the 3rd year of the system and add in 3 VHT rFr and should continue to improve.

DL Ryan Van Bergen

DEFENSIVE LINE - In '07 UM had just 3 of the top 8 DL back (lost 3 st'r) and went from allowing just 43 ypg rush (1.9), their best ypc since 1971, to 157 ypg (4.0), their worst ypc total since 1962. In '08 they had all 4 st'rs back but only improved to 137 ypg (3.6). Last year they had to replace 3 st'rs but did return Tm MVP DE Brandon Graham (10 sk, 10 tfl '08). Graham got off to a slow start in '09 but finished strong with 10.5 sk and 15.5 tfl. The team had shifted to a new 3-4 D and was undersized with DT Ryan Van Bergen (PS#43) at 280 and Graham at 260. The rush D got even worse as they yielded 172 ypg (4.4) their most since 1968 (199 ypg). This year they lose 2nd Tm AA DE Graham (12 st, 64 tkl, #1DC PHI) but do have 5 of the top 6 back. Despite the loss of their star, UM can only have a stronger rush D and NT William Campbell adds some much needed bulk up front at 6'5" 324 lbs.

LINEBACKERS - Last year UM had a veteran LB corps as they had to replace one starter but also added a new position which was filled by S Stevie Brown (PS#9, 12 st '08). The ILB's struggled and Obi Ezeh was replaced by soph Kevin Leach vs spread offenses. UM's D regressed to allowing 393 ypg but the top 3 LB's were the #1, #3 and #4 tkl'rs. This year they lose Brown (12 st, #1 tkl, 8 tfl, #7DC OAK) but move FS Mike Williams (9 st) to the Spur and were implementing a 3-3-5 in the spring which is what HC Rodriguez used at WV to take advantage of his defenses speed. UM can only improve upon 2009's numbers, right?

DEFENSIVE BACKS - In Rodriguez's first year ('08), even with 2 st'rs back, UM dropped from #27 in my PDR in '07 to #68. LY they had to replace 2 st'rs and moved FS Brown to LB so they had just 1 ret st'r in CB Donovan Warren (PS#9). CB Boubacar Cissoko (16 tkl, 2 pbu) was dismissed after 4 sts. The inexp'd unit finished #62. This year they lose Warren (12 st, 66 tkl, 4 int, 7 pbu), FS Brandon Smith (1 st, 14 tkl) and move FS Williams to Spur. Not listed in the PSL are Al Backey (5'10" 178 rFr), Matthew Cavanaugh (5'10" 183 So) and Jordan Reilly (5'10" 180 Jr). Despite the loss of their top guy, this is a more experienced unit.

SPECIAL TEAMS - Previous HC Lloyd Carr's teams had some fine finishes in my ST rankings including #26 in '04 and #15 in '05 but surprisingly they were just #95 in '07. Rodriguez's final 5 ST units at WV were #38, #35, #32, #8 and #37. They had everyone back in '08 and moved up to #15. Last year they had to only replace their K. P Zoltan Mesko was one of 3 finalists for the Ray Guy Award (40.9 net, ,#3 FBS). He was a huge factor in UM finishing #5. New K Jason Olesnavage beat out true frosh Brendan Gibbons (PS#8) and hit 11-15 FG's (long 51). Bryan Wright (PS#30) had 13 TB on 67 KO. Because their D allowed so many points, Darryl Stonum became the first player in UM history to have over 1,000 KR yds (25.7). This year they lose their K and P Mesko (#5DC NE) and while their true frosh (PS#3 punter) signee looks solid, I look for a drop in my ST rankings.

COACHES - Rich Rodriguez brought in his spread offense in '08. In his first year at WV in 2001, Rodriguez inherited 4 ret off st'rs from a team that avg 29.7 ypg. They avg just 21.4 ppg. In his 2nd season they rose to 30.5 ppg and 419 ypg and never looked back. His final 3 teams at WV ended the season ranked #5, #10 and #6. His OC is Calvin Magee who followed Rodriguez to UM after 3 yrs as OC at WV and he called plays in their Fiesta Bowl upset of Okla. Greg Robinson took over as DC last year after 4 years as the HC at Syracuse (10-37) and was a DC in the NFL (KC, NYJ, DEN). He was the DC when DEN won B2B Super Bowls in the 1990's and was also the co-DC at Texas in 2004. That year Texas outscored foes 105-3 in the 3Q (reg ssn) showing he made good halftime adjustments.

PHIL'S FORECAST

2008 was quite a change for the Michigan program. The Wolverines had 40 straight winning years and had gone to 33 straight bowls, both of which were the NCAA's longest streaks. In 12 of Lloyd Carr's 13 seasons, they finished ranked (5 Top 10). They had been to 3 of the last 5 Rose Bowls and nearly played in the Nat'l Title game in '06 (#2 into final gm). Carr's final squad in '07 opened 0-2 including a stunning loss to App St but finished 9-4 including a bowl win over #9 Florida. In 2008 I did not make a lot of friends in Ann Arbor. Not only did I not have Michigan ranked in my Top 25, I did not have them in my Top 50! I was not alone as *SI* ranked them #54. For the first time in 23 years, UM was not in the top 3 of the Big Ten media poll or the AP Top 25 (#24 USA Today). In Rodriguez's first year at WV he inherited a bowl winning team that had 13 ret st'rs but went just 3-8. Here he had just 10 ret st'rs and had to replace 4 OL including the #1 overall pick in the draft, QB Chad Henne, RB Mike Hart, WR's Mario Manningham and Adrian Arrington. He simply did not have the right type of mobile QB who fit the new offense. The Wolves shockingly went 3-9 for their first losing season since 1967 (school record 9 losses). The previous six UM HC's had beaten Ohio St in their first game but Rich Rod lost (42-7). UM was -112 ypg in B10 play (2nd worst) The Wolves were -10 in TO's, had 3 net close losses and 15 ret st'rs, all pointing to a much improved 2009. Things started out well for UM as in Wk 2 they got a TD with :11 left to get past ND 38-34. They did struggle vs Indy (outgained 467-372) but prevailed 36-33 to move to 4-0 and were thinking about a Jan bowl berth. The next week Forcier led another comeback, this time overcoming a 14 pt late 4Q deficit to Mich St but they lost in OT. Against Iowa they were -4 in TO's but only lost by 2. After beating Del St they were 5-2 but amazingly would drop their final 5. They led Illinois 13-7 at the half but lost by 25. Purdue's last win in the Big House had been 1966 and UM led that game 24-10 at the half but lost by 2. They were whipped by Wisconsin on the road as their small, speedy defense was no match for the big Badger offense (UW 469-265). They then suffered their 6th straight loss to Ohio St and 7th straight Big Ten loss as Forcier had 4 int's and a fumble. In the last 5 they were outscored 106-26 in the 2H. UM was tied for last in the Big Ten last year at 1-7 and their -107.3 ypg was a the Big Ten's worst. They did have just 8 seniors on the 2 deep. Rodriguez is on the hot seat this year and luckily he does have 15 ret st'rs who were recruited for his schemes and his team was -12 in TO's. Three of my 9 sets of power ratings call for 9 regular season wins and check out my article on pg 19 to see where the Wolverines finished on my Most Improved List.

NORTHWESTERN WILDCATS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - Brett Basanez (PS#26) left as the school's all-time leading passer and in '06 three QB's battled to replace him. RFr Mike Kafka (PS#41) won the job due to CJ Bachér's (PS#35) inj. Bachér started the final 5 and became a 3 year starter (#3 all-time passer). In '07 Bachér led the Big Ten in passing (305 ypg) but had a 19-19 ratio. Kafka played in 4 (3 att). In '08 Bachér (missed 2) threw for 2,432 (60%, 17-15). With Bachér inj, Kafka set a Big Ten QB rush yd record with 217 vs Minny (Gary Danielson, 213 in '72) and played in 8 throwing for 330 (70%, 2-3). Coming into LY, Kafka was the least exp'd of the 20 senior QB's on the preseason Unitas list. He hit a school record 16 straight passes vs Syr and his 83% broke Basanez's 80.6% single game mark. Kafka led the Big Ten in passing ypg, comp, att, comp % and also threw the fewest int in conf gms (4). Kafka was inj'd while they were leading Penn St and soph Dan Persa (PS#53) struggled in the 2H. The QB's alternated in the upset of unbeaten Iowa with Persa, who was the PA POY in HS, rushing for 67 until he was also inj'd and missed the 4Q. Persa had just 7 rush att's in the final 3. Kafka set bowl and school records hitting for 47-78-532 with 4 TD's but also 5 int vs Auburn. Fitzgerald called Kafka the MVP of the team. This year they lose 2nd Tm Big Ten QB Kafka (3430, 64.8%, 16-12, #4DC PHI) who also led in gross yards rushing with 519 (295 net). Persa actually challenged Kafka during spring of '09 for the starting job and has plenty of experience. Backing him up is good-sized rFr Evan Watkins (PS#34) who is also a dual-threat QB. Kafka had just 6 car sts heading into '09 but this unit is still less exp'd.

RUNNING BACKS - Last year the Wildcats had to replace their #2 all-time rusher in Tyrell Sutton but he did miss 4 in '08 (890, 4.8). They also had to replace their #2 RB and the leading returnee was Stephen Simmons (178, 2.9). Coming out of spring, Fitzgerald said that Simmons, Alex Daniel (6'0" 195 So, PS#168) and Jeravin Matthews (PS#185) were the 3 guys capable of being Big Ten RB's. Daniel was lost in August (ankle). Simmons opened with 77 vs Towson and 73 vs EM but then missed 3 and the unit ranked among the NCAA's least productive. True frosh RB Arby Fields (PS#125) was given Sutton's number and has the same frame (5'9" 200) and running style. Fields led with 302 (3.7) while the QB was the #1 rusher in 3 gms. Scott Concannon (5'10" 190 Jr, PS#120), who is nicknamed Cut-Cannon because of his shifty moves, had 50 in the first 7 before notching 73 vs Ind. He had just 118 (3.3) in the last 5 (5 st on yr). Jacob Schmidt (5'10" 200 Jr, 2 st) added 217 (3.4) and Matthews had just 61 (6.8). Daniel will be susp until Sept and not in the PSL are Mike Trumpy (6'0" 195 rFr, PS#78) and Tyris Jones (6'0" 215 So). This year the unit returns intact (except Matthews moves to CB) so they are much more exp'd and should greatly improve their production.

RECEIVERS - In 2008 NU had 3 players finish in the Big Ten's top 10 in rec/gm but all 3 departed last year. The 4 proj starting WR's comb for a total of 52 rec for 454 yds in '08. Fitzgerald said the unit was an unheralded no-name group but walk-on, Div III transfer Zeke Markshausen finished #2 in the Big Ten in rec/gm (858, 9.4). Ex-QB Andrew Brewer led with 925 (16.2) and 9 TD's. SB Drake Dunsmore (PS#73) added 523 (11.1) and Sidney Stewart (PS#100) had 470 (11.2). Not in the PSL are SB's Aaron Nagel (6'1" 225 Jr) and John Plasencia (6'5" 245 rFr, PS#51). This year they lose their top 2 as well as Brendan Mitchell (4 rec) and Mark Woodsum (2 rec). This time the top 4 returnees comb for 134 rec and 1,444 yds so they are more exp'd.

OFFENSIVE LINE - In 2008 the Cats had to replace 3 st'rs and their 36 career sts returning were just #102 in FBS. The 2 ret st'rs each started just 2 so the five full-time st'rs of '08 had a combined 2 career sts coming into the year. Surprisingly the numbers improved to 142 ypg rush (3.8) with just 22 sks (4.8%). Last year they had 4 st'rs returning and RT Kurt Mattes (12 st '07, 2 st '08 inj) was also back. Once again the numbers surprised me as they dropped to 118 ypg rush (3.0) with 32 sks (6.0%) as the unit never quite gelled. This year they lose Mattes (6 st), LG Desmond Taylor (5 st) and backup Mike Boyle (2 gm). Five OL who have been full-time st'rs return (89 car sts) but I expect VHT Soph Patrick Ward (PS#25) to win a job. I look for much improved numbers in 2010.

DEFENSIVE LINE - In 2008 the top 4 DL tacklers ret'd. NU actually allowed the lowest ypg rush in their history (previous low '95 Rose Bowl tm) at just 126 ypg (3.6) while increasing the sack total from 18 to a Big Ten leading 34. Last year they had to replace 2 st'rs including DT John Gill, whose play often demanded double teams. DE Corey Wootton was never 100% healthy (ACL 4Q of '08 bowl). The unit still managed to allow just 129 ypg (3.8) and the D had 30 sks. This year they lose Wootton (11 st, 21 tkl, 4 sk, #4DC CHI), DT Adam Hahn (7 st, 17 tkl, 1 sk) and DT Marshall Thomas (6 st, 26 tkl, 1.5 sk). This group is on par with the 2009 unit.

LB Quentin Davie

LINEBACKERS - Last year the Wildcats had to replace 1.5 st'rs (#2, #8 tkl'rs) and a productive backup. The top returning tacklers were #5 and #6. Those two returnees, Quentin Davie and Nate Williams were #1 and #2 in tackles in '09 and this year the entire 2 deep returns with 5 players earning starts in '09. David Arnold moved back to S but Bryce McNaul looked like he was finally living up to his VHT potential in the spring. NU is one of 3 Big Ten teams which return all of their LB st'rs and I look for a stronger unit in 2010.

DEFENSIVE BACKS - The Wildcats had an exp'd secondary in '08 moving from #106 in '07 to #44 in my '08 PDR. The unit ret'd all 4 st'rs last year although top CB Sherrick McManis missed 3 and SS Brendan Smith missed 5. This year they lose 1st Tm CB McManis (10 st, 37 tkl, 5 int, 7 pbu, #5DC HOU), 1st Tm Big Ten FS Brad Phillips (86 tkl, 1 int, 2 pbu) and Smith (8 st, 40 tkl, 2 pbu). Due to last year's injuries, 9 different players started and 6 return. Not listed in the PSL are Tim Weak (6'1" 180 So), Scott Lilja (5'10" 185 Sr) and James Kurzawski (5'10" 185 So). Last year's unit slipped a little to #52 in my PDR (although they had a solid 18-17 ratio) but with the loss of 3 st'rs, this unit looks to be down a few notches.

SPECIAL TEAMS - After finishing #90, #92, #95, #110, #106 in my ST rankings, the Cats improved to #79 in '07 and #65 in '08. Last year they had to replace their K (20-25 FG's). P Stefan Demos (PS#9) had a fine year on FG's hitting 18-25 (long 49) and really only had 2 bad games with 3 misses vs Illinois and in the bowl when he missed 2 FG's, had an xp blk'd and couldn't att the game tying FG's in OT due to injury. His net punting fell from 34.1 to 31.7 and he may just be the K in '10. PR Brendan Smith (6.6) and KR Stephen Simmons (25.3) were both inj'd. Simmons split the KR duties with Jeravin Matthews (17.0). NU dropped to #104. This year they only lose Smith and could have their best finish in my ST rankings in 9 years.

COACHES - Randy Walker did a great job here prior to his tragic death in '06. Walker had actually handpicked his successor, Pat Fitzgerald, who became the youngest coach in the NCAA (by 5 years!) at 31. Fitzgerald was the Big Ten's Def MVP on the 1995 Rose Bowl team and was inducted into the College Football Hall of Fame. He also became the first NU HC since John Pont in 1973 to win his first game. NU went from 4-8 to 6-6 to 9-4 in his first three years and last year took Auburn to OT in the bowl before losing and ended the year 8-5. In '08 he brought in a new OC in Mick McCall, who was BG's OC in '07 (QB cch '03-'06). NU improved its ypg from 358 in '08 to 404 LY. Third year DC Mike Hankwitz was the DC at Wisconsin ('06-'07), Colorado ('04-'05) and served as the Wildcats' interim HC in '03. Hankwitz was also A&M's DC from 1997-'02 and in his 40 years, his teams have had 34 winning seasons.

PHIL'S FORECAST

In the last 15 years NU has won an amazing 3 Big Ten titles (59 years between titles '36-'95). In '05 the Cats became the first NU team since 1931 to win 6+ for 3 consec seasons. After going 1-7 vs the Big Ten in '02 (incl 49 & 52 pt losses), they were 14-10 in Big Ten play from '03-'05. In '06 they had 13 ret st'rs but then suffered the sudden loss of HC Randy Walker over the summer. Under the circumstances, Pat Fitzgerald did a fine job getting the team to 2-6 in the Big Ten (4-8). They led Mich St 38-3 in the 3Q before allowing the NCAA's biggest comeback ever. In '07 Penn St and Wisc rotated off the schedule (Ind & Minn in). I called for the Cats to be bowl eligible for the 5th time in eight years. They had 7 HG (most in 61 yr) and got to 6 wins (6-6) but were home for the holidays. While the Cats only improved their Big Ten record to 3-5 in '07, their ypg went from -105.9 in '06 to -23.1 in '07. In '08 their 47 ret lettermen were the most since '92 and new OC McCall moved them back to the same spread offense they had great success with from 2002-'05 under Mike Dunbar. I called it Fitzgerald's best team yet with 7 sets of my power ratings calling for 7+ wins. For the first time since 1963 they swept their non-conf games. They suffered injuries to top RB Sutton and QB Bachér but got their first win in the Big House since 1995, upsetting Michigan 21-14. Despite going 9-3 the Cats were the biggest underdog of any bowl team, yet outplayed Missouri barely losing in OT. NU was -8.1 ypg in the Big Ten (#7) and benefitted from 3 net close wins. Last year they had to replace 23 seniors but did have 37 sts lost to injury in '08. The Wildcats were #119 in the FBS with just 17.9% of '08's offensive yds ret but were solid at the line of scrimmage. NU opened with a rout of Towson and then got past EMich 27-24. It was a game they led 21-0 but needed a 49 yd FG at the end to pull out the win. Syr got an int with 1:44 left then a FG on the last play to upset NU 37-34. They lost at home to Minn and were on the verge of losing to Purdue (trailed 21-3 2Q). PU turned the ball over 5 times in 17:00 and NU, despite being outgained 375-311, won 27-21. Surprisingly they played in front of just 23,085 vs Miami, Oh and led 16-0 before a garbage TD made it 16-6. They led Mich St 7-0 at the half but lost 24-14. NU got their biggest comeback in school history as they trailed Indy 28-3 in the 2Q but won on a 19 yd FG with :21 left. QB Kafka was injured in the 2Q vs Penn St with NU up 10-3 and they lost 34-13. The next week vs B10 leader Iowa (#4 BCS, #8 AP) led 10-0 when DE Wootton sk'd QB Stanzi in the EZ and the Cats recovered a fmbl for a TD. Stanzi was KO'd and his bkp hit just 9-27-82 in his place and NU knocked off the Hawks 17-10. It was their first win over a Top 5 team since 1959. Illinois was without QB Williams (Charest 1st st). NU jumped out to a 21-3 lead but IL was int'd late in a 21-16 Cats win. NU beat Wisconsin 33-31 in the season finale to finish 8-4 and 5-3 in the Big Ten (+23.3 ypg, 5th best). In the bowl NU had a 621-425 yard edge but lost in OT, partially due to an injury to their kicker. NU is now 24-6 in games decided by 7 or less. In the last 7 years they have been bowl eligible 6 times and are 6-1 vs rival Illinois. NU has not had a bowl win (0-7) since the 1948 Rose Bowl. They did benefit from 4 net close wins (pg 299) but are a more exp'd club with 55 ret lettermen. NU could open up as strong as 6-0 this year and while the 2H schedule is tougher, 7 of my 9 sets of power ratings call for them to at least match '09's 8 win total.

Sep. 18	at Rice	A					NU is 1-4 vs Rice but did win their last meeting (in Houston) in 1998 23-14 with a 317-214 yd & 15-11 FD edge. In non-conf/non-BCS road games NU is only 1-3 the L6Y.
Sep. 25	Central Michigan	G					First meeting. Wildcats have gone 15-9-1 vs current MAC schools (last loss was '03 Motor City Bowl). Coming in 2010, NU is 12-3 since 2004 hosting non-B10 opp's.
Oct. 2	at Minnesota	A					LY NU led 24-21 into the 4Q but allowed 2 UM TD's and totaled 8 yds of offense. Wildcats are 14-22 L9Y in B10 RG's but 6-2 the L2Y outscoring tms by just 3 ppg.
Oct. 9	Purdue	G					LY NU forced 6 TO's to help erase a 21-3 1H deficit scoring the gms final 24 pts. Despite being outgained in 11 of their L/12 gms vs PU (-109 ypg), NU has won 4 of L/6 incl 3 upsets.

Nov. 6	at Penn St	G					LY NU lead 13-10 at HT but was outgained 291-146 in the 2H as PSU scored 24 unanswered. NU is 3-10 vs PSU incl a 14-7 win in State College in 2004. Wildcats are 6-1 the L2Y in Nov.
Nov. 13	Iowa	G					Northwestern took advantage of four 2Q TO's (one directly resulting in a TD) vs Iowa LY to erase a 10-0 deficit. Wildcats held the Hawkeyes to just 121 yds the final 3Q's.
Nov. 20	† Illinois *(Wrigley Field)*	G					LY was the inaugural gm for the Land of Lincoln trophy which replaced the Sweet Sioux Tomahawk trophy. NU has pulled the upset in 3 of L4Y outgaining Illinois in 7 of the L/8.
Nov. 27	at Wisconsin	A					The visitor has dropped 5 straight in this series. These schools have avg 71 ppg the L/3 meetings. Despite just a 2 pt win NU had a 103 yd edge & only trailed once LY (14-10, 2Q).

ILLINOIS FIGHTING ILLINI

POSITION OUTLOOK FOR 2010

QUARTERBACKS - In '06 true frosh Juice Williams (PS#11) threw for just 1,489 (40%, 9-9) but broke Illinois' record for net rush yards by a QB (576). Added to the mix in '07 was athletic rFr Eddie McGee (PS#72). Williams improved to 57% throwing for 1,743 (13-12) with 755 rush (4.6) while leading the Illini to the Rose Bowl. McGee threw for 444 (53%). In '08 Williams led the Big Ten in passing with 3,173 (58%, 22-16, 719 rush). McGee had just 9 att. Last year they added 6'4" rFr Jacob Charest (PS#23). I expected Williams to improve for a 4th straight year but that did not happen. Williams was injured in a couple of games and pulled in others. He threw for just 1,632 (57.7%, 12-7) and was #3 rusher (507, 3.5). McGee started vs Mich St but hit just 2-11 for 31 yards and Williams was solid off the bench. After that game, Charest started getting some reps and when Juice was injured vs Minn, Charest hit 10-19 for 185 in the win. Charest started vs NW but was pulled for McGee before returning and nearly guiding a comeback win. Juice QB'd the final 2 and the Illini put up 36 and 52 pts. Williams leaves as the school's career leader in total offense (#5 in Big Ten) topping Kurt Kittner ('98-'01). McGee moves to WR so battling Charest will be rFr Nathan Scheelhaase (PS#19) and true frosh Chandler Whitmer (PS#24 IFS). Scheelhaase's speed and leadership ability made him the clear #1 out of spring. Despite the loss of a 4 year st'r, the Illini should improve upon the QB's 55.6% and 15-12 ratio of 2009.

RUNNING BACKS - In '07 Rashard Mendenhall (PS#8) added 20 lbs and became Illinois' 1st 1,000 yd rusher since '02 and first ever Big Ten Offensive MVP with 1,681 (6.4). He broke the school's single season record (Antoineo Harris 1,330, '02). Mendenhall was the first IL #1DC RB since Jim Grabowski (1966). In '08 this unit was my biggest concern on the team and QB Juice Williams wound up being the #1 rusher. Daniel Dufrene (PS#207JC) was the top RB with just 663 (5.7) while true freshmen Jason Ford (PS#32) and Mikel Leshoure (PS#63) had 294 (3.6) and 126 (3.6) respectively. Last year those 3 ret'd. Ford rushed for 137 (13.7) vs Ill St but vs FBS foes no RB topped 55 in the first 5. Leshoure had 122 (8.1) vs Purdue and then Leshoure (150) and Ford (128) each topped 100 vs Mich. The next 100 yard effort came in the season finale when Leshoure had 184 (16.7) and he led with 734 (6.8). Ford was #2 with 588 (6.1). Dufrene chipped in with 277 (4.4) and Troy Pollard (5'8" 190 Jr, PS#66) had 67 (6.1). Not in the PSL are Ronald Stewart (5'6" 180 Sr), Bud Golden (6'0" 205 rFr, PS#47) and FB Greg Fuller (6'1" 240 rFr, PS#100). This year they only lose Dufrene and should have their most production from the RB's in 3 years.

RECEIVERS - In '07 HC Zook added PS#1 WR Arrelious Benn who broke the Illini frosh rec record (676, 12.5). In 2008 Benn improved to 1,055 (15.7) and Jeff Cumberland (PS#13) was #3 with 352 (17.6). TE Mike Hoomanawanui was #4 with 312 (12.5). Last year they lost their #2 rec (401, 19.1) but added Florida transfer Jarred Fayson (PS#9QB). Benn was banged up often and dropped to 490 (12.9). Cumberland only had 174 (15.8) and Hoomanawanui (inj) had just 114 (11.4). Chris DuValt (156, 15.6 in '08) was #2 with 361 (15.7). Fayson only had 218 (13.6) and rFr Jack Ramsey (PS#34) had 182 (11.4). This year they lose Benn (11 st, #2DC TB), Cumberland (2 st), Hoomanawanui (5 st, #5DC STL), Duvalt (12 st) and TE Hubie Graham (1 st, 2 rec). Eddie McGee moved permanently to WR (108, 27.0) while also running the Wildcat in the spring. This group is nowhere near as exp'd but could actually improve on '09's poor numbers in the new offense.

OFFENSIVE LINE - In '07 they had to replace 2 st'rs and 3 bkps but all five OL started all 13 and they avg 257 ypg rush (#1 in B10 2nd st'r yr) avg 5.6 ypc and allowed 16 sks (4.9%). In '08 they had to replace their first 1st Tm AP AA since '95 in LG Martin O'Donnell and one other st'r. The numbers dropped to 170 ypg rush (4.4) with 25 sks (6.4%). Last year they had to replace 2 st'rs but brought in a new OL coach and RG Jon Asamoah was the only OL starting at the same position from '08. The unit improved to 200 ypg rush (4.8) but allowed 29 sks (8.8%). This year they lose 2nd Tm B10 G Asamoah (12 st, 3Y st'r, #3DC KC) and C Eric Block (12 st, 2Y st'r). Surprisingly there were only 3 VHT's in the 2 deep (0 st'rs) last year and even with the loss of their top OL, this unit could improve.

DE Clay Nurse

DEFENSIVE LINE - The Illini had an exp'd DL in '05 but surprisingly allowed 5.5 ypc rush (worst modern era). In '06 they had to replace 2 st'rs but made remarkable improvements to 128 ypg (3.3). The next 2 years they had 3 st'rs ret but slipped to 132 ypg (3.7) in '07 and 153 (4.0) in '08. They recorded 40 and 32 sks in those 2 yrs. Last year they had to replace 3 st'rs but ret'd DT Josh Brent (8 st '08) and DE Doug Pilcher (25 st 3Y). The line regressed again to 154 ypg (4.2) with just 19 sks. DE Clay Nurse did have 4 sks vs Minn, the most by an Illini player in one game since 1994. This year they lose Pilcher (12 st, 32 tkl, 3.5 sk), DT Sirod Williams (8 st, 6 tkl), DE Antonio James (6 st, 20 tkl, 3 tfl) and DE Rahkeem Smith (11 tkl). They have 2 st'rs returning (if Brent returns) and while this is a far from overwhelming group it should be tougher vs the run.

LINEBACKERS - From 2006-'08 an Illinois MLB led the Big Ten in tkls pg gm. Last year they had to replace Brit Miller (132 tkl) and two other LB's (comb 11 st, 89 tkl). Martez Wilson (#3 tkl'r in '08) was back and Zook said if he did not lead the Big Ten in tackles their D would be in trouble. Unfortunately, Wilson was lost after 1 start (9 tkl) so their st'rs consisted of a rFr, 2 soph (12 car tkl) and a converted S as six diff LB's started. This year all 6 return (#1, #4, #5 tkl'rs) and Wilson is back. This unit is vastly more exp'd than '09.

DEFENSIVE BACKS - In '08 Illinois had to replace 2 st'rs but dropped from #52 in my PDR in '07 to #85 despite the presence of Vontae Davis (#1DC). Last year they had 6 of their top 8 back losing Davis and Miami Thomas (ACL, 1 st '08). In his first start, true frosh Terry Hawthorne (PS#4) tackled Mich's Roy Roundtree from behind at the 1 as UI got a goal line stand and went on to win. Hawthorne also got Illinois' first pick six since '06. The unit still dropped to #90 (5 int's tied fewest NCAA). This year they lose SS Garrett Edwards (11 st, #2 tkl'r), FS Donsay Hardeman (8 st, 42 tkl, 4 pbu), CB Dere Hicks (9 st, 34 tkl, 6 pbu) and SS Bo Flowers (2 tkl '09, 3 st '08). They return 5 with starting exp and add Arrelious Benn's half-brother, PS#114JC Trulon Henry (IFS). S Walter Aikens (6'1" 180 So, 5 st '09) was susp'd late April and his return is questionable. Despite the losses they should move up in the PDR.

SPECIAL TEAMS - Ron Zook used to be a ST coach in the NFL (PIT) so it was surprising that his first two teams here ('05-'06) were #111 and #116 in my ST rankings. In '07 they moved up to #42 but in '08 slipped back to #95. Last year the unit ret'd almost intact. Summing up an Illini season of unrealized expectations was K Matt Eller. Eller was an outstanding 15-20 on FG's (long 51) in '08 but hit just 4-11 FG's (long 38) in '09 and lost his spot to Derek Dimke (5-5 FG long 48). Dimke had 12 TB's on 53 KO's. P Anthony Santella improved to 41.3 (35.9 net) in '09. Arrelious Benn was limited with inj's. The Illini PR's combined for 50 yards (4.2) and while Benn avg 26.5 on 12 returns, the rest of the KR's avg 17.4 on 45 ret's. This year they lose Benn and LS Tad Keely but should be able to improve (#110 '09).

COACHES - Ron Zook had to replace the legendary Steve Spurrier at Fla and was under fire from day one. He was 23-14 in 3 yrs before being shown the door. He's an excellent recruiter and gained a lot of respect in '06 when Fla's team, comprised mostly of Zook recruits, won the National Title. He enters his 6th year here. Last year Zook needed to replace 4 yr OC Mike Locksley (HC New Mex) and brought in Mike Schultz (OC TCU 8 yrs) in '09. This year he brings in OC Paul Petrino who has served under his brother Bobby at Ark (OC), Atlanta and L'ville S/'03. Co-DC Dan Disch (5 yr) was demoted to LB coach and the new DC is Vic Koenning. Koenning was the co-DC at K-St LY and Clemson's DC from '05-'08. He was the HC of Wyoming from '00-'02. Zook was forced to clean house after LY's 3-9 record with 6 new asst's, and is on the hot seat for 2010.

PHIL'S FORECAST

Illinois has won 15 Big Ten Titles including 2001 (1st S/'90) when they went a stunning 10-1. They were ranked #7 before losing in the Sugar Bowl. Illinois was just 13-45 the next five years and finished above .500 in Big Ten play just once from 1995-2006. In '07 I called the Illini my #2 Most Improved Team. A big part of the reason was they were far better than their 2-10 record in '06. In '06 they had outgained foes by 56 ypg but were -15 in TO's and had 4 net close losses. They could have easily beaten Penn St and Wisc on the road and despite their 1-7 B10 record they were +24.1 ypg. The Illini did not disappoint me. They got their first win over a #1 team since 1956 when they upset Ohio St in Columbus. Illinois, which had a combined 8 wins the previous 4 yrs, actually won 9 and got to the Rose Bowl for the first time since 1983. Unfortunately, USC tied a Rose Bowl scoring record as the Illini lost 49-17. In '08 I didn't make too many friends in the Urbana-Champaign area when I did not have Illinois ranked in my preseason Top 50 even though the Fighting Illini were #20 AP. Illinois was picked 3rd by the Big Ten media. I pointed out that the '07 Illini team had just 2 sts lost all year to injury (2nd fewest FBS) plus they were only +25.9 ypg despite their 6-2 B10 record. Illinois had not had B2B winning seasons since 1989-'90 and I also questioned who would replace #1DC RB Mendenhall. UI struggled to a 3-5 B10 record and 5-7 overall. There were numerous factors pointing for a 2007 type of revival for the Illini in 2009. In '08 they were +86.5 ypg in the B10 (2nd best!). They were -6 in TO's, had 27 sts lost to injury and unfortunately they made my Most Improved List. In the opener against rebuilding Missouri, they lost WR Benn in the 1Q in a blowout loss then LB Wilson was lost prior to the 2nd game. IL opened Big Ten play vs the Big Ten's top 3 preseason tms (Ohio St, Penn St and Mich St). The Illini were shutout in a downpour vs OSU and lost 35-17 to Penn St. At that point Williams had thrown for one 4Q garbage time TD in 3 FBS games. Zook went to McGee at QB vs MSU and after he struggled in the 1H Williams tried to rally them in the 2H but they lost by 10. Versus Indy trailing 13-7, Juice fumbled at the Indy 6 and Indy went on to a 13 point win. Against Purdue, Zook brought in 3rd string QB Charest. They had a 1st & gl at the 2 at the end of the half and a TD was wiped out by a hold. They then missed a 23 yd FG and lost by 10. They stunned Michigan and beat Minn on the road keeping bowl hopes alive but Juice was inj. They started Charest vs NW. With :32 left there was an int off of WR Fayson's chest which could have been ruled a simultaneous poss and they lost by 5. They played a solid game vs Cincy but lost by 13. In the finale Fresno St got a TD with :02 left and on the 2 pt conv their QB threw it up for grabs. It was deflected and then miraculously caught by an OL who rumbled into the EZ for 2 pts and the win. This year they have 12 ret st'rs and last year were -42.3 ypg in B10 play (4th worst). They only lose 16 lettermen (fewest B10) and avoid Iowa and Wisc so they have a legitimate shot at a winning record this year.

PURDUE BOILERMAKERS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - In 2006 Curtis Painter (PS#29) set a Big Ten record with 3,985 yds (59%, 22 TD) although he also led the FBS with 19 int. In '07 he threw for a school record 546 vs CM in the bowl finishing with 3,846 (63%) and improving his ratio to 29-11. Then HC Tiller was impressed with true frosh Justin Siller (PS#44) in bowl practices and created some packages for him in '08. Joey Elliott (PS#27) played in 4 (24 att) in his 2nd year as Painter's backup. Painter was the Big Ten's most exp'd QB in '08 and became the school's #2 career passer but was benched several times midyear. Elliott played in 3 in '08 and was beginning to see more action when he was lost with a shoulder injury. When Painter was inj'd, Siller, who had not taken a snap at QB in 4 weeks (RB), was forced into action. Painter's numbers surprisingly dropped to 2,400 (60%, 13-11) but he was the Colts' backup QB last year. Siller threw for 496 (56%, 3-2) and Elliott hit 8-15 for 81 yds. Siller was dismissed last spring so the job was Elliott's and he preformed better than anyone expected. Elliott became just the 7th QB in PU history joining Painter, Drew Brees, Jim Everett, Mark Herrmann, Billy Dicken and Kyle Orton in the 3,000 yard club as he threw for 3,026 (61.7%, 22-13) and was the #3 rusher (268) in his senior year. 6'5" Caleb TerBush played in just 1 (4-10-22). This year Siller is expected to return to play RB or WR. Battling TerBush will be Rob Henry, Najee Tyler (6'5" 235 rFr, PS#150) and Miami FL transfer Robert Marve (PS#12). Marve (4.5 spd), who had the strongest arm at Miami, threw for 1,293 (55%, 9-13) in 11 starts in '08. This unit is actually a little more exp'd than '09 but it will be tough to top Elliott's solid stats.

RUNNING BACKS - Heading into '08 Purdue had just one 1,000 yard rusher S/'95 (Joey Harris '02). Jaycen Taylor (PS#188JC) split the time with Kory Sheets and had 677 (6.0) in '06 and 560 (5.2) in '07. Taylor tore his ACL in '08 and Sheets became the 6th Boiler RB to top 1,000 (1131, 4.8) and was #4 rec. Sheets set Purdue's single ssn and career rush TD records (16, 48) and departed as PU's #2 career rusher. While Taylor was the expected st'r out of spring, Ralph Bolden took charge in '09 and he also nearly topped 1,000. Bolden, who had just 1 carry in the season finale (hamstring) finished with 935 (4.7). Taylor went out strong rushing for 110 (5.5) with 59 yd rec in the finale and finished with 387 (5.5). They burned the RS on Al-Terek McBurse (PS#41) for ST duty (4 carries). Not listed below are Javeare White (5'9" 201, PS#199), George Brigandi (5'8" 212 So) and FB's Jared Crank (6'2" 235 Jr) and Sean Matti (5'11" 214 Jr). This year they must replace Taylor, FB Frank Halliburton (1 st, 25 yd) and most likely Bolden who tore his ACL in the spring. McBurse is now #1 with ex-WR Carlos (4 st) #2. This group looks to be down a notch if Bolden does not play.

RECEIVERS - Last year Purdue had to replace their top 2 rec and the leading returnee was conv QB/DB Keith Smith (great hands) who was #3 with 486 (9.9) in '08. HC Hope said after spring that half of his WR's were still in high school. Smith became just the 10th Boiler to top 1,000 (1100, 12.1). Aaron Valentin (224, 20.4 '08) was #2 with 621 (11.5). TE Kyle Adams (RS '08) was #3 with 249 (8.6). Keith Carlos (PS#252JC) had 242 (11.5). This year they lose Valentin (9 st) and Royce Adams (2 st, 1 rec). Not listed below are Kris Staats (6'1" 203 Sr), Eric Williams (5'10" 195 rFr, PS#151), Tommie Thomas (6'2" 193 So, PS#53) as well as TE Jeff Panfil (6'5" 245 Sr, PS#239QB). While Carlos moves to RB they do have their top guy back and more exp depth.

OFFENSIVE LINE - In 2008 the Boilers had to replace a pair of 3 year st'rs and then two of the 3 ret st'rs were banged up (comb 7 sts). The inexp'd group opened up holes for 125 ypg rush (3.8) while allowing 24 sks (4.8%). Tiller called Dennis Kelly Purdue's best OT prospect since Matt Light and he burned his RS to play in the L/5. Only one OL started more than 9 at the same position. Last year they also only had to replace 1 st'r but then LG Eric Hedstrom (8 st '08) DNP so they had 3 st'rs back. RG Ken Plue was far from 100% in '08 but was forced to play and was one of their most improved OL in '09. The unit maintained remarkable health (1 st lost inj) and the bkps played very little. This year they lose LG Zach Reckman (11 st, 3Y st'r), RT Zach Jones (12 st, 3Y st'r, HM B10) and C Jared Zwilling (12 st, HM B10). The line improved to 136 ypg (4.2) with 20 sks (4.5%). Plue and Kelly have All Big Ten potential. This year's unit is less exp'd but if Hedstrom is granted a 6th year, they essentially will have 3 ret st'rs just like '09.

LT Dennis Kelly

DEFENSIVE LINE - This unit was dubbed the "Den of DE's" under Tiller with 10 earning an NFL paycheck. In '08 they only had to replace one st'r and 3 bkps and Tiller said DE Ryan Kerrigan is "a player you can build your D around." Surprisingly PU slipped to allowing 175 ypg rush (4.5) with just 24 sks. Last year they had to replace 2 st'rs (#3DC) but Kerrigan earned the nickname "Superman" and Hope said Mike Neal was one of the best DT's he's been around. Surprisingly, PU allowed 173 ypg (4.4) with 32 sks. This year they lose Neal (12 st, 35 tkl, 5.5 sk, #2DC GB), DE Keyon Brown (10 tkl) and DT Nick Mondek (8 tkl) moved to the OL in spring. Five of the top 8 are back including "Superman" so this looks like an improved group with the addition of 4 rFr.

LINEBACKERS - Last year Purdue had to replace its #1 tkl'r but had 5 of the top 6 back. Joe Holland and Chris Carlino started as frosh before they were physically ready in '08 due to depth issues and Carlino called the signals on D. The still young group with 2 soph st'rs were part of a defense that allowed 29.1 ppg (highest S/'96) LY. The unit returns intact as Jason Werner was granted a 6th year and true frosh Dwayne Beckford shared MLB snaps with Carlino in the 2H of '09. Adding depth are Derek Jackson (6'2" 223 So, PS#127), Zack Heiniger (5'11" 204 So) and Kakpindi Jamiru (5'9" 222 rFr). While their top tackler was a FS, the LB's came in at #2, #3 and #4 and now consist of 3 upperclassmen which makes them the only Big Ten team with 3 LB's returning who made every '09 start back.

DEFENSIVE BACKS - In '06 Purdue was extremely inexp'd at DB but only dropped to #69 in my PDR. They finished #42 and #31 the next 2 yrs and in '09 had 3.5 st'rs back. As you would expect, the unit climbed to its best finish of the decade at #21. Tiller thought that David Pender was one of the most physically talented CB's he had coached and Pender departs #2 in PU history with 33 pbu. This year the losses are heavy. Gone are FS Torri Williams (12 st, #1 tkl'r, 2 int, 6 pbu), 2nd Tm B10 Pender (12 st, 40 tkl, led B10 in pd), CB Brandon King (10 st, 30 tkl, 3 int), SS Dwight McLean (12 st, 62 tkl) and FS Josh McKinley (2 st, 11 tkl). Sensing they needed more help, Hope signed JC S Max Charlot after spring. Only one player returns with over 7 career tkls and this unit is my biggest question mark on the 2010 squad.

SPECIAL TEAMS - Purdue finished #87 in my ST rankings in '06 and in '07 I called for them to make a huge leap and they did not disappoint me moving all the way up to #4. In '08 they had to replace their P, top KR and PR. While a drop was expected, it's surprising they fell all the way to #96. True frosh K Carson Wiggs hit a then-school record 53 yd FG on his very first att (8-11, 2 miss 50+). Last year they only had to replace their PR so improvement was expected as they hired a new ST coor in J.B. Gibboney. While Wiggs hit just 14-21 FG's, 3 misses were 50+ (incl 60!) and he crushed his school record with a 59 yarder vs Toledo. Surprisingly he had just 5 TB's and PU allowed a schl rec 1,407 (24.7) KR yds. P Chris Summers (net 29.6 '08) had a net of 32.9. Aaron Valentin was explosive on PR's but also had some costly fumbles. This year they lose Valentin and Summers (Wiggs may take over P). Hope said a goal in the spring was to get more athletic ability on these units and I expect Purdue to make a solid improvement over '09's #92 finish.

COACHES - Joe Tiller had a solid 12 year tenure here (87-62) and left as PU's all-time win leader. The Boilers had 11 losing years out of 12 prior to his arrival! Danny Hope took over LY and he was previously EKU's HC from '03-'07 (35-22). Hope was Purdue's OL coach under Tiller from '97-'01 and recently signed an extension which will take him through 2014. OC Gary Nord was the HC at UTEP (2000-'03). He also was the OC at Fla Atl from '05-'08 (also OC L'ville & Okla). The co-DC's are Donn Landholm who has been an asst for 31 yrs and was the DC at EKU from '05-'07 and LB coach and recruiting coor there in '08. Gary Emanuel returns (PU asst '97-'04) to co-DC and was most recently at Rutgers (DL cch '08-'09).

PHIL'S FORECAST

Purdue's last outright Big Ten Title came in 1929 although they've shared the crown 6 times since. Joe Tiller was the HC from 1997-'08 and guided the team to 10 bowls in 12 years. In Jan '08 he announced that 2008 would be his final year and that Danny Hope would be his successor. They had 12 ret starters (2nd fewest B10). They lost to #16 Oregon in 2OT at home then outgained Ohio St 298-222 in Columbus but still lost by 13. They were down to their 3rd string QB at one point and went from an 8-5 year in '07 to just 4-8. They did send Tiller out on a winning note destroying Indiana 62-10 in his FHG. Despite a 2-6 Big Ten record, Purdue was +42.1 ypg (#6) and they had 42 sts lost to injury (10th most FBS). PU's defense allowed just 317.5 ypg in Big Ten play (4th best) and had 8 of the top 10 tacklers back. All of those signs pointed towards improvement and they came very close to a winning season in Hope's debut. After blowing out Toledo in the opener, they faced eventual Pac-10 champ Oregon in Auzten Stadium, one of the toughest venues in the country. PU had 24-17 FD and 451-356 yd edges but missed a 2 pt conv which would have tied it with 1:01 left. The next week in a letdown spot they were beaten by NIll 28-21. They had a "Blackout" for ND and the Irish needed a TD with :25 left to pull out the win. PU had a 21-3 lead in the 2Q vs NW but they had 5 TO's in a 17:00 span and lost 27-21. They had a 402-281 yard edge vs Minny but had an IR to the 2, 7 yd punt, fmbl'd KO and a blk'd FG which led to 4 Minn TD's in the loss. At 1-5 PU hosted #7 Ohio St and controlled the game leading 23-7 after 3Q's and prevailed 26-18 (361-287 yd edge) over the other Rose Bowl participant for their 1st win over a ranked team S/'03. They were in a letdown spot but still prevailed over Illinois 24-14. Wisc was off a bye and their O-line had a big size edge and they shutout the Boilers (381-141 yd deficit). PU then pulled out their first win in Ann Arbor since 1966 sweeping Mich (38-36) and OSU for the first time since 2000 and were still alive for a bowl. They hosted Mich St and had 21 seniors in their FHG and led 34-23 in the 4Q. They had a 524-362 yd edge but MSU got an 11 yd FR TD and really hurt PU on ST outgaining PU by 174 on KR's and also blocking a pivotal FG. MSU hit a 21 yd FG with 1:51 left which clinched a losing season for PU. The Boilers were outgained 462-329 by Indy but rolled to a 38-21 win. This year Purdue has 11 ret st'rs and had just 3 starts lost all '09 to injury. Despite their 4-4 Big Ten record, PU was +22.4 ypg (6th best) and had 4 net close losses (pg 299). This team has been much better than their record in each of the last 2 years which makes them dangerous. They avoid Iowa and Penn St in Big Ten play and despite the unexpected loss of RB Bolden (ACL) could get to a bowl.

INDIANA HOOSIERS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - In 2006 rFr Kellen Lewis started the last 9 and was the team MVP throwing for 2,221 (55%, 14-7, 441 rush). I named Lewis 1st Tm Big Ten in '07 when he threw for 3,043 (60%) with a 28-10 ratio (#1 rusher, 736) setting IU single-season records for yds and pass TD's. Ben Chappell (PS#44) played in 3 (2 pass att) and tossed a key int that was ret'd 41 yards for a TD vs NW. In '08 Lewis was susp'd in the spring so Chappell got most of the snaps. The two split time in '08 with Chappell (3 st) throwing for 1,001 (52%, 4-3) while Lewis threw for 1,131 (57%, 6-8). Lewis was the #2 rusher (500, 5.4) and was used in some formations at WR. Last year they introduced the pistol offense and Lewis was permanently moved to WR in the spring before being kicked off the team. Chappell had three 300 yard efforts in '09 throwing for 2,941 (62.6%, 17-15). He did a good job throwing the ball away (just 16 sks) and became the first IU QB to complete over 60%. His backup was true frosh Edward Wright-Baker (PS#63, 4.5 spd) who is a perfect fit for the offense. Drawing snaps when they used the Wildcat formation was WR Mitchell Evans with 131 rush (4.0) who will move to S in 2010. Adam Follett (6'5" 236 So, PS#103) played in 2 (3 att's). Not listed below are Teddy Schell (6'5" 227 Jr, PS#69) and Connor Creevey (6'2" 230 So). This unit is much more exp'd and at one point last year HC Lynch said it went 7 deep and he'd line up his 7 vs any other 7 in the country.

RUNNING BACKS - The Hoosiers used a RB-by-committee approach from 2006-'08 with Marcus Thigpen (one of fastest in Big Ten) leading the RB's in rushing all 3 yrs incl 631 (6.7) in '08. Last year they had to replace Thigpen and QB Lewis (top 2 rushers). The leading returnee was Bryan Payton (339, 4.3). Demetrius McCray had 320 (3.6) in '06 but was banged up in '07 and '08 (352, 4.3). I projected rFr Darius Willis (PS#53, best combo spd & power) as the starter but he was banged up in Aug. McCray had 183 (6.1) in the first 2. Willis had an inauspicious debut fumbling his first snap (3 att in 1st 2 gm) before leading vs Akron with 66 (4.4) followed up by 152 (9.5) vs Mich. He got inj again but had 103 (7.4) vs NW and 142 (7.5) vs Purdue. He still led with 607 (4.9). Indy clearly had a stronger offense when he was on the field. McCray finished #2 with 290 (4.8) and Payton added 153 (3.8). This year they lose McCray (5 st) and Payton (1 st) and not listed below are Zach Davis-Walker (5'8" 196 Jr, 10 yd) and Shane Covington (6'1" 208 So, PS#84). Provided Willis stays healthy I give him a shot at being the Hoosiers' first 1,000 yard rusher since Levron Williams in 2001.

RECEIVERS - In 2007 6'7" James Hardy (#2DC) became IU's new career rec leader and he set a school record with 16 TD's (1125, 14.2). Andrew Means was #2 with 559 (11.6) and Ray Fisher was #3 with 482 (9.3). In '08 Means led with 450 (13.2) and Fisher was #2 (373, 8.9). Damarlo Belcher (6'5") looked to fill Hardy's role and had 337 (13.5). Terrance Turner added 289 (10.0). Last year they had to replace Means and then moved Fisher to CB as they thought they had great depth at WR. That turned out to be the case. 6'3" Tandon Doss (186, 13.3 as a true) led with 962 (12.5) and was 1st Tm Big Ten. Belcher was #2 with 770 (12.6) while Turner had 443 (9.6) and Mitchell Evans added 366 (11.1). This year the top 5 are all back but Evans moves to S. The only losses are Chris Banks (2 gm and TE's Troy Wagner (9 st, 6 rec) and Brian Zematis (2 st). The Hoosiers have one of the tallest receiving corps in the Big Ten and they should have another solid season.

OFFENSIVE LINE - With a mobile QB in Antwaan Randle-El in 2001, the Hoosiers avg 5.5 ypc rush but in the next 5 years they failed to top 3.5 ypc rush and that included '06 when they again had a mobile QB in Kellen Lewis (638 gross rush). In '06 then-HC Hoeppner recruited the "Seven Blocks of Limestone." Despite having to replace 3 st'rs and 2 bkps the OL opened holes for 157 ypg rush (4.3) in '07 and improved to 167 (4.5) in '08. Last year 8 of the top 10 ret'd. RG Cody Faulkner (11 st '08) only played in 4 so basically 3 st'rs were back. Without Lewis' mobility, IU only avg 117 ypg (3.8) but allowed just 16 sks (3.6%). Indy switched from a zone blocking scheme so their OL got bigger (avg 308 lb). This year they lose 2nd Tm B10 LT Rodger Saffold (12 st, 4Y st'r, #2DC STL), RG Pete Saxon (10 st, 4Y st'r) and RG Mike Reiter (2 st). Only 2 of the "Blocks of Limestone" return but they have 6 with starting exp and Faulkner's return is the equivalent of having 4 st'rs back so I look for improved numbers.

DEFENSIVE LINE - The Hoosiers allowed 5.0, 5.0 and 4.6 ypc rushing from 2004-'06. In '07 DE Greg Middleton set a school record (Van Waiters' 14 in '87) with 16 sks (#1 NCAA). DE cohort Jammie Kirlew added 12.5 tfl and they allowed 160 ypg (3.8). In 2008 IU had to replace one starter and Middleton struggled (4 sks) with double and triple tms and even lost his spot at times. Kirlew responded with 10.5 sks and 9 tfl but IU allowed 172 (4.1). Last year they had to replace both DT st'rs. True frosh DT Adam Replogle was impressive enough to start 11. Kirlew was named Tm MVP for the 2nd yr in a row and finished tied for #3 in career sks here (23) with Middleton. They also used a 5 man rotation at DT. The rush D numbers improved to 159 ypg (4.0) with 25 sks. This year they lose HM B10 Middleton (12 st, 38 tkl, 3 sk) and 2nd Tm B10 Kirlew (12 st, 62 tkl, 6.5 sk, 9 tfl, #7DC DEN). They do get back Deonte Mack (10 st '08, 2 tkl '09). They used a 3-4 at times last year and more extensively in the spring. This is a veteran group but with the loss of their top 2, I'll call them down a few notches.

LINEBACKERS - For years the Hoosiers emphasized speed over size at LB but last year their starters were 231, 236 and 244 lbs. It's not by a coincidence they had their best rush D (159 ypg) since 2001. Last year's squad only had to replace one starter (#7 tkl'r) and Tyler Replogle (19 tkls vs PU in '08) filled in his spot. This year they lose 3rd Tm B10 MLB Matt Mayberry (12 st, 108 tkl, 5.5 sk), WLB Will Patterson (10 st, #3 tkl'r, 4 tfl) and Justin Carrington (3 st, #9 tkl'r, 2 tfl). Not in the PSL are Greg Svarczkopf (5'9" 208 So) and Brandon McGhee (6'1" 230 Jr). They do add PS#51JC Jeff Thomas and welcome back Tyler Replogle (#2 tkl'r) but this unit is less exp'd.

DEFENSIVE BACKS - In '08 Indiana had to replace their starting CB's (incl Super Bowl XLIV hero Tracy Porter) and then were hit hard by injuries. They were last in the Big Ten in pass D (only 6 int). Last year they had 3 st'rs back and added WR Fisher who became their top CB. Unfortunately Fisher was lost after 6 sts and the unit struggled without him. Indy still moved up to #82 in my PDR. This year they lose SS Austin Thomas (12 st, 67 tkl, 4 int, 2 pbu), FS Nick Polk (11 st, 53 tkl, 2 int, 4 pbu), Fisher (6 st, 40 tkl, #7DC IND), Collin Taylor (3 st, 22 tkl, 2 int) and Matt Kurz (8 tkl). Not in the PSL are Peter St Fort (6'0" 182 So, PS#260), Alexander Webb (6'0" 183 So) and Andrew Pimentel (5'10" 178 So, PS#311QB). Four return who started not to mention the additions of WR's Evans and Matt Ernest. They also add in PS#199JC Lenyatta Kiles (IFS) and hope to get more of an impact from Jerimy Finch (PS#15).

SS Mitchell Evans

SPECIAL TEAMS - After a #115 finish in '05 in my ST rankings (#16 in '04), Indiana moved up to #38 in '06. They were #54 in '07 and #76 in '08. Last year they had to replace their K and top KR. Mitch Ewald (PS#7) looked to be the K but RS (inj). Nick Freeland (PS#55) tied an Indy record with 4 FG's in one game but also had some key misses (14-25 FG's, 0-5 40+). P Chris Hagerup had his net drop from 36.6 to 33.7. Lynch said the PR's main duty was not to turn the ball over (10 PR, 10.3). Ray Fisher was dangerous on KR's (#1 NCAA 37.4, 2 TD's) until he was inj. Freeland had 7 TB's on 58 KO's. They finished #91 and lose Fisher but Ewald should upgrade the kicking game.

COACHES - In 2005 Terry Hoeppner took over a program that hadn't had a winning season since 1994. He rebuilt the Hoosiers with the results paying off in a rare bowl appearance in '07 which sadly came after he lost his battle with cancer in June. Bill Lynch (OC here in '05-06) was the HC at Ball St from 1995-2002 winning the MAC Title in 1996 and finishing as MAC West co-Champs in 2001. The OC is Matt Canada (4th yr) who was IU's QB coach (04-'06) and N Illinois' OC in '03. IU has co-DC's (both 5Y) in Brian George and Joe Palcic. The two shared the position at Miami, Oh in 2004.

PHIL'S FORECAST

Indiana got to six bowl games under the tutelage of Bill Mallory between 1986-1993 but entered 2007 having gone through 12 straight losing seasons. Terry Hoeppner inherited just 13 ret st'rs in his first season here ('05) and nicknamed Memorial Stadium "The Rock" adding emphasis to the home games. He opened up his first year at 4-1 but they lost their last six thanks in part to being -8 in turnovers. In '06 Hoeppner missed two early winnable games and the team lost both. The Hoosiers got to 5-4 but lost their last 3 and narrowly missed out on a bowl. In '07 Hoeppner made the team's motto "Play 13" (# of games if they made a bowl). Hoeppner passed away after courageously battling cancer and the Hoosier players delivered his goal. They went 7-5 to earn a trip to the Insight Bowl and had 5 All-B10 players (most S/'88). In '08 I had one of the few publications which pegged them for last in the Big Ten. Despite their 3-5 conf mark in '07, they were -70.5 ypg (3rd worst) and had just 13 ret st'rs (20 lett lost). Indy lost their top QB Lewis to injury vs Mich St and he was in-and-out of the lineup after that. The Hoosiers lost their final 3 gms by an avg of 50-12 and finished last in the B10 at 1-7 (-177.3 ypg, avg B10 loss 41-14.5). Last year they had a more veteran squad (15 ret st'rs) and had 43 sts lost to injury in '08 (#8 FBS). The Hoosiers outperformed my expectations last year. They had a 372-288 yd edge but WM was at the Indy 5 at the end when they turned it over. Akron susp'd their QB 2 days prior to the game (bkp 1 day of practice) and the Hoosiers won on the road to move to 3-0. Indy basically outplayed Michigan with a 467-372 yd edge in the Big House but UM got a TD with 2:29 left and a controversial int to seal it. Indy settled for 20, 24, 30 and 32 yd FG's, a key in the loss. The next week they were rolled over at home by Ohio St scoring a TD with :00 left to "only" lose by 19. Shockingly they then were destroyed by Virg 47-7 Virg came in avg just 272 ypg and Indy allowed 536! The next week the Hoosiers beat Illinois at home to move to 4-3. They were thinking bowl when they led N'wstrn 28-3 in the 2Q but allowed NW's biggest comeback ever in a shocking 29-28 loss. It was much the same the next week when they led Iowa 21-7 at half. They had a TD pass controversially overturned and then missed the ensuing FG and thanks in part to 3 int's, they lost to the #7 team. The next week vs Wisc, they were on the verge of getting blown out but battled back to only lose by 3. Penn St had a key 73 yard IR TD in the 3Q and won 31-20. In the season finale vs Purdue they lost by 17 despite a 462-329 yd edge as they were -4 in TO's. The Hoosiers finished tied for last in the Big Ten at 1-7 (-44.6 ypg 3rd worst). This year they have just 13 ret st'rs. They should sweep their non-conf games and have a decent shot at bowl eligibility despite having just 3 Big Ten HG's.

MINNESOTA GOLDEN GOPHERS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - Bryan Cupito left as the school's career leader and rFr Adam Weber (PS#47) won a tight battle for the starting job in '07. Weber is a dual threat with a strong arm and he set the school's single season record for passing yards (2,895), completions (258), TD passes (24) and total offense (3,512) but also threw a Big Ten leading 19 int's. In '08 Weber was banged up but his numbers remained steady with a big drop in int (2,761, 62%, 15-8). Unfortunately for Weber, they scrapped the spread in '09 and put him under center and he struggled with the change. He also lost his star WR Eric Decker in the 8th game (OSU). Weber threw for 2,582 but hit just 52% with a 13-15 ratio. He went from 518 gross rush yards in '08 to just 141. True frosh VHT MarQueis Gray (PS#13) was often used in the Wildcat with 47 rush att's (265, 5.6) but hit just 6-15 for 62 yards. He also worked at WR at times and had a crucial fumble when they were in FG range on UM's final play of '09 (bowl). Added to the mix are pocket passer Moses Alipate (6'5" 230 rFr, PS#18), Adam Lueck (6'0" 187 So) and this year's true frosh. Despite being UM's career all-time leading passer, Weber had to win his job this spring (which he did). Gray could continue to see time at WR and as the #2QB (Wildcat as well). Weber is the NCAA's most exp'd QB and should finish his career on a strong note.

RUNNING BACKS - The Gophers had a tremendous tradition at RB under Glen Mason. They produced a 1,000 yard runner each season from '99-'06 and became the first school in NCAA history to have 2 backs each top 1,000 in 3 consec seasons ('03-'05). In Mason's final season Amir Pinnix rushed for 1,272 (5.0). Prior to '07 Brewster said that Pinnix would likely top 1,500 (which would be a schl rec). He did rush for 168 in the opener and 126 vs Miami but was injured and lost his job. He finished with 563 (5.3). True frosh Duane Bennett added 442 (4.1). In '08 Bennett rushed for 92 in the opener but tore his ACL vs BG and that left the job to a pair of true frosh in DeLeon Eskridge (PS#163) and Shady Salamon (PS#74). Eskridge topped 100 twice and led with 678 (3.7) and Salamon added 181 (3.7). Last year they got Bennett back from injury. The new offense was supposed to be more run oriented but they avg just 99 ypg rush (3.0). Bennett led but only had 376 (3.8). Kevin Whaley (PS#55) emerged late and had 367 (4.2). Eskridge rushed for 294 (4.0) and FB Jon Hoese had 103 (3.6) with 11 rec's (7.9). Not in the PSL are RJ Buckner (5'11" 202 Sr, PS#268) and FB Nick Rengel (6'3" 225 rFr, PS#128). This year the only loss is Whaley and while Salamon moved to S, this group can only improve and a true frosh could take control of the unit.

RECEIVERS - In Brewster's first year the leading returning WR was 6'5" Ernie Wheelwright who led in both '04 (654, 21.8) and '05 (568, 15.4). Wheelwright had a fine year in '07 with 775 (11.7) but Eric Decker (378, 14.5 in '06) became the feature WR (909, 13.6). In '08 Decker led the Big Ten with 1,074 (12.8) but was inj'd (3 rec last 3 gm) and UM's offense went south without him. In the bowl he did have 149 (18.6). Brewster brought in an excellent class of WR's in '08 with 5 playing as true frosh. Last year Brewster said Decker should go into the season as a Biletnikoff finalist and he turned down both NFL and MLB opportunities to return. Decker had 758 (15.2) in the first 8 then was lost due to injury. TE Nick Tow-Arnett was #2 with 505 (13.6). Soph Troy Stoudermire had 306 (11.8) and VHT Brandon Green (PS#22) had 293 (14.0). Soph Da'Jon McKnight (6 st), who only played one year in high school (so only PS#189), stepped into Decker's starting spot (311, 18.3, 7 rec bowl). This year they lose their star, Decker (#3DC DEN), as well as Tow-Arnett (13 st). It's unusual when a team replaces its career leader to say they could be in good shape, but the Gophers have talent and exp in this unit.

WR Da'Jon McKnight

OFFENSIVE LINE - In '08 UM had to replace a pair of 3 year st'rs and a 7 gm st'r. Two ret st'rs combined for just 12 sts due to injuries. As you would expect, the numbers dropped greatly to 104 rush ypg (3.1) with 30 sks (7.2%). Last year Brewster switched schemes trying to become more of a power running offense and had 4 st'rs back. They lost starting C Jeff Tow-Arnett after 5. Ryan Wynn and Nedward Tavale (20 st in '08) played in a combined 1 gm in '09 so it was like having 2 st'rs back. The numbers dropped again to just 99 ypg (3.0) while they allowed a Big Ten high 41 sks (10.6%). This year they lose Tow-Arnett, LT Matt Stommes (4 st), Tavale (1 gm), C Trey Davis (1 st) and Ryan Ruckdashel (2nd string). The unit has 110 career sts (#1 in the B10). This is a large unit (323 lbs) and should be one of the most improved O-lines in the country.

DEFENSIVE LINE - In '07 the undersized Gophers were #118 in rush D (229, 5.7!). In '08 DT Eric Small bulked up to 295 lbs and DE Willie VanDeSteeg (miss 6 '07) ret'd healthy and they moved up to #68 (143, 4.1). Their goal last year was to get into the top 20 in rush D. They did have to replace VanDeSteeg (6 of top 8 ret) and I felt the unit would be down a notch as he had 10.5 of the 34 sks. The Gophers' sacks dropped to 22 and the rush D slipped to 152 ypg (3.8). This year the losses are heavy as they must replace DT Garrett Brown (13 st, 35 tkl, 4.5 tfl), Small (13 st, 27 tkl, 3 sk), DE Barrett Moen (13 st, 22 tkl), DE Cedric McKinley (10 st, 35 tkl, 7.5 tfl), DE Derrick Onwuachi (8 tkl, 6 gm '09, 8 st '08) and DE Raymond Henderson (7 tkl, 1 sk). The unit returns only 3 career sts and UM's numbers could slip again.

LINEBACKERS - This was the least exp'd unit on the '09 Gophers as they had to replace 3 LB's (#4, #9 #15 tkl'r, comb 28 sts) but still ret'd their #1 and #5 tkl'rs. It turned out to be their best as SLB Simoni Lawrence added 20 lbs of muscle and he along with Keanon Cooper (PS#49) have 4.41 speed. MLB Lee Campbell was the team's DPOY (#1 tkl'r, 11.5 tfl, 6 pd). WLB Nate Triplett (#2 tkl'r, 5 tfl, 2 int) had 17 tkl and a FR TD vs AF. The Gophers D allowed 23.8 ppg, their best since 2004. This year they lose 2nd Tm B10 Campbell (13 st), Lawrence (13 st, #4 tkl'r, 8 tfl), Triplett (13 st, #5DC MIN) and Rex Sharpe (6 tkl). Only 2 of the top 6 return but they do add in rFr Sam Maresh (PS#25) who is now 2 years removed from open heart surgery. They have 3 VHT's in the 2 deep but are clearly less exp'd.

DEFENSIVE BACKS - In '07 this group was wiped out by departures and finished #118 in my PDR. In '08 Brewster brought in 2 JC's who started in Traye Simmons (PS#77) and Tramaine Brock (PS#45). He also moved WR Marcus Sherels to CB (12 st) who became their shutdown corner. The 4 st'rs had a comb 5 sts in '07 as 1 returnee lost his job. Despite their inexp, the Gophers climbed to #81. Last year they had to replace Brock (13 st, #3 tkl'r) but they added in Wisc transfer Kim Royston (PS#67). As expected, the more exp'd D rose to #54. This year they lose Sherels (9 st, 51 tkl, 2 int, 7 pbu, miss 3) and CB Simmons (10 st, 33 tkl, 2 int, 8 pbu). True frosh Michael Carter (PS#41) started the final 2 and Ryan Collado has 15 career sts and they add in 3 JUCO's (see PSL). Not in the PSL are Bryan Klitzke (6'1" 210 Jr) and Kyle Henderson (5'11" 167 So). Despite the loss of their top guy, the Gophers could move up in my PDR.

SPECIAL TEAMS - In Brewster's first year they finished #61 in my ST rankings. In '08, for the 2nd straight year they lost their top KR/PR over the summer. UM still moved up to #51. Last year they had to replace their K and P. Minnesota still moved up to #43 as KR Troy Stoudermire avg 24.6 and Bryant Allen avg 12.2 PR replacing an inj'd Marcus Sherels. Stoudermire had some fumbles and lost his spot temporarily vs Ohio St. Eric Ellestad (PS#16) hit 13-17 FG's (0-3 40+). He had 8 TB's on 58 KO's. True frosh Dan Orseske (PS#5) avg 44.6 in 2 gms but then came down with mono and RS. Blake Haudan avg 42.6 with an outstanding tm net of 38.7 (#9 FBS). This year the unit only loses Haudan and should move up again.

COACHES - Tim Brewster became the HC in '07 after spending the previous 5 seasons as a TE cch in the NFL (SD '02-'04, DEN '05-'06). He coached under Mack Brown from 1989-2001 at NC and Texas and is a solid recruiter. Jeff Horton becomes UM's 4th OC in the last 5 yrs. Horton has spent the last 4 yrs in the NFL but prior to that was Wisconsin's QB cch ('99-'05). He also was the HC at UNLV (13-44, '94-'98) and Nevada (7-4, '93). The co-DC's are Ronnie Lee and Kevin Cosgrove who also served on Barry Alvarez's staff at Wisc. He was the DC there from '95-'02.

PHIL'S FORECAST

Minnesota had been to 3 bowls in the 20 years prior to Glen Mason's arrival. They went to 7 bowls in the last 8 years under him but never to a Jan bowl. Their highest ranking under Mason came in 1999 (#12). In '06 they had a tough schedule with only 12 ret starters and it looked like a rebuilding year. They were -92.3 ypg in Big Ten play (2nd worst) but benefitted from +18 in turnovers (pg 312) and made it to the Insight Bowl. UM ran a power running game under Mason but switched to the spread under Brewster. I did not make Gopher fans happy in '07 when I pegged them for LAST in the Big Ten after they had been to 5 straight bowls. During the year on PhilSteele.com I predicted that ND St would "upset" Minnesota and the Bison not only won 27-21, they manhandled the Gophers with a 394-125 yd rushing edge. The Gophers did indeed finish last in the Big Ten (1-11). In '08 I made a bold statement by placing the Gophers on my Most Improved List. They were -15 in TO's in Brewster's first season and had 5 net close losses. I say a bold statement because my Most Improved List projects that a losing team will get to a bowl and the Gophers were one play away (missed Miami FG) from 0-12 in '07! The Gophers did not disappoint. UM tied for the biggest turnaround in school history (Murray Warmath's 1960 tm 2-7 to 8-2). They were whipped in the Insight Bowl however by Kansas 42-21. Interestingly with the same Big Ten record and an even worse Insight Bowl loss than Mason suffered in '06, Brewster was given a contract extension while Mason was fired. Despite UM's 3-5 Big Ten record, they were -108.8 ypg (3rd worst) and qualified for my Turnovers=Turnaround (+12). The Gophers were the most exp'd team in the country heading into last season and opened up a brand-new TCF Bank Stadium giving them a larger home edge. They had 93.9% of their offensive yards plus 78% of their tkls returning from '08. After a 3 point OT win over Syr, Minn got a key 52 yd FR TD in the 4Q in their 20-13 win over Air Force (1st gm at TCF Bank Stadium). After expected losses to Cal and Wisc, they were outgained by Purdue 402-281 but won by 15. They were basically shutout the next 2 weeks, losing to Penn St 20-0 and Ohio St 38-7 (garbage TD late). They had a 505-360 yd edge vs Mich St with Weber throwing for 416 in their first game without WR Decker (42-34). Brewster lost 35-32 to his alma mater (IL). They struggled vs SDakSt in their FHG getting a 25 yd FG with 2:22 left to pull out a 3 pt win (only 231 yds). They were shutout for a 2nd straight season vs Iowa (12-0) and in 6 of their last 7 reg season games they failed to top 286 yds. In the bowl they put up 434 vs Iowa St but still only scored 1 TD. They had a tough 1 pt defeat (late fmbl) and finished with a losing record at 6-7. Brewster is 0-9 in Trophy games and 0-8 vs ranked teams. Despite Minn's 3-5 Big Ten mark they were -90.3 ypg (2nd worst) and this year have just 2 ret st'rs on D. With HG's vs USC, Penn St, Ohio St and Iowa most of their winnable games are on the road and I will call for them to miss a bowl for the 2nd time in 9 years.

PHIL STEELE'S 2010 BIG 12 FORECAST

BIG 12 SOUTH

1. OKLAHOMA - If the Sooners would have had better health especially (QB Bradford and TE Gresham) they may have just won the Big 12 Title. As it was, they still were the most impressive team statistically at +133 ypg and had 4 losses by a TD or less (3 by a comb 5 pts). Despite the Sooners losing 3 of the first 4 picks in the NFL draft, and having 7 players drafted overall their offense this year will more resemble the 2008 version (51 ppg) as opposed to the '09 team (31 ppg). The D remains among the elite and all 9 sets of my power ratings call for a perfect 12-0 regular season.

2. TEXAS - The Longhorns were only 3rd best in the league at +94.3 ypg last year and of course had a fortunate last few seconds in the Big 12 Title game. They were unfortunate in the National Title game losing QB McCoy to injury after just 5 offensive snaps. This year they have just 12 returning starters, and of course, play Oklahoma at a neutral site and Nebraska on the road. This will be another wildly successful year for the Horns but I have them coming up short of the Big 12 Title game with the Sooners beating them Oct 2nd.

3. TEXAS A&M - Not much was expected out of the Aggies last year but Sherman guided them to a bowl including their improbable win over Texas Tech. This year A&M is much stronger defensively and last season had one of the most explosive offenses in the country. They have 16 returning starters and last year played a school record 18 true frosh. This much more veteran team is ready to finally move back into the upper half of the Big 12 South standings after a 2 year absence.

4. TEXAS TECH - Tommy Tuberville is an outstanding coach but he does not step into a great situation here as Mike Leach had his recruits for his own unique systems. Tuberville is making tweaks to the offense and I think that will make it less explosive and they also lose DC Ruffin McNeill. Three of my 9 sets of power ratings call for Tech to have a double digit win season. The Red Raiders tied for the 3rd best record (47-33) in Big 12 this past decade behind only Texas and Oklahoma.

5. BAYLOR - Heading into last year I thought the Bears had a great shot at ending their post season drought (no bowl S/'94). Things looked good until QB Robert Griffin was injured in the 3rd game and their season was blown apart. Griffin's QB ratio his 1st two seasons was 19-3 compared to a 7-14 ratio from the bkps LY. Baylor was -125.3 ypg in conf action. This year they have just 12 st'rs back but Griffin returns and so should the offense, which scored over a TD less per game (-7.2) without him. They have just 3 true Big 12 road games and could end up in a bowl.

6. OKLAHOMA ST - The Cowboys are 15-9 in the Big 12 the last 3 years but lose some major players from last year including 6 of their top 7 tacklers. Also gone are RB Keith Toston, QB Zac Robinson, WR Dez Bryant and KR/PR Parrish Cox. Not only do they have a Big 12 worst 8 returning starters but they lose 24 lettermen (42%). They also play in the brutal B12 South and have HG's vs Nebraska and Oklahoma, meaning most of their winnable games are on the road. This looks like a rebuilding year.

3. COLORADO - The Buf

4. KANSAS - I didn't make a lot of friends in Lawrence last year pegging the Jayhawks 4th in the B12 North as some had them ranked in the Top 10 nationally and most magazines had them ranked first in the Big 12 North. Kansas actually finished last in the North. A big part of the reason that I had them so low was the schedule as they had to take on 3 of the top 4 teams out of the Big 12 South and had most of their winnable games on the road. This year they have just 3 true Big 12 road games and avoid both Oklahoma and Texas. Talent-wise last year's KU squad was superior to the 2010 version. The schedule is much more favorable which will allow the KU to move up in the Big 12 standings.

5. KANSAS ST - K-State had a favorable schedule last year which is one of the reasons they made my Most Improved List and they did not disappoint (6 wins). This year K-State is a stronger team but now faces a tougher Big 12 schedule. They have just 3 Big 12 HG's incl Nebraska and Texas, a pair of Top 10 squads meaning most of their winnable Big 12 games are on the road. K-State entered their season finale last year with the Big 12 North Title on the line but with a tougher schedule, probably won't match that this season.

6. IOWA ST - What a great story it was seeing Iowa St get to a bowl last year. They do go from having 15 returning starters to 12 but I feel this year's ISU team is actually stronger than last year's bowl squad. Unfortunately the schedule gets more difficult as they draw both Oklahoma and Texas out of the South (finished 3-9 in '07, last time both powers on schedule) and also play Utah and Iowa in their non-conf slate. They do have just 3 true Big 12 road games but last year were -94 ypg in Big 12 play (2nd worst) and I will call for them to miss out on a bowl this year.

OKLAHOMA SOONERS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - Jason White became the first OU QB to win the Heisman in '03. In his final two years he threw for 7,051 (63%) with a 75-19 ratio. In '07 I projected rFr Sam Bradford (PS#20) to start (3-way battle) and he had a phenomenal season (#1 FBS in pass eff). At 6'4", he became the tallest QB to start at OU and has a powerful arm. He threw for 3,121 (70%, 36-8). In '08 he set an FBS record for pass eff in a season (180.8) and won the Heisman. He threw for 4,720 (68%) with an amazing 50-8 ratio. Last year Bradford opted to return but injured his shoulder in the opener. While he ret'd vs Baylor (389 yds), he was lost for the year vs Texas. Another rFr, Landry Jones (PS#3) took over and threw for 3,198 (58.1%, 26-14). Jones had his ups and downs being int'd 5 times in the loss to Neb, before rebounding the next week to throw for 392 and 5 TD's vs A&M. He threw for 418 in the bowl and eclipsed Bradford's OU Fr passing mark. It took Jones until mid-August to beat out true frosh Drew Allen (PS#45) for the bkp role. Normally a position is weaker with the loss of a #1DC (STL) but Bradford only played 8Q's in '09 and Jones (now exp'd) will be one of the Big 12's best.

RUNNING BACKS - Allen Patrick (PS#50JC) had 761 (4.5) and Chris Brown added 343 (4.9) backing up Adrian Peterson (#1DC) in '06. Patrick and Brown ret'd in '07 but rFr DeMarco Murray (PS#5) was the leading rusher (764, 6.0) when he was lost for the season vs TT. Patrick finished with 1009 (5.8) while Brown added 611 (3.9) and Mossis Madu (6'0" 200 Sr, PS#149) had 232 (5.8). Patrick was a #7DC in '08 and Murray was leading with 1,002 (5.6) and 14 TD's until he missed the last 2. Brown finished #1 with 1,220 (5.6) and 20 TD's while Madu added 475 (4.1). All 3 ret'd in '09 (Madu moved to WR). Murray had hamstring surgery and was not 100% until Miami, Fl but then was inj'd again. Behind an inexp'd O-line Brown led with 749 (4.1) while Murray had 705 (4.1) and rFr Jermie Calhoun (PS#2) added 220 (4.9). True frosh Jonathan Miller (6'0" 190 So, PS#58) had 130 (7.2). Not listed below are FB's Brandon Crow (6'1" 221 Sr, PS#69) and Princz Jones (6'0" 205 Sr). This year they lose Brown and FB Matt Clapp (2 st, 0 rec) but with a healthy Murray and Calhoun both back, this unit could resemble '08 with a pair that totalled 2,222 (5.6) as opposed to '09 where the top 2 comb for 1,454 (4.1).

RECEIVERS - The Sooners had an excellent receiving corps in '08 but had to replace their #1, #3 and #5 rec's (#3, #7 DC). Then in Aug, OU lost the NFL's top TE prospect in Jermaine Gresham (inj). Brody Eldridge the top TE saw plenty of action on the O-line starting 9 (5 at OL, 4 at TE). The unit was banged up with soph Dejuan Miller the only full time player to play in all 13 and he was #3 (434, 12.1). Despite suffering a shoulder injury Ryan Broyles (PS#41) led with 1,120 (12.6). Broyles tied an OU single season rec with 15 TD rec's (Mark Clayton '03). The #2 rec was RB Murray. Brandon Caleb (PS#27) missed 2 and had 408 (15.7) and Adron Tennell (PS#3) had 297 (12.4). This year they lose Gresham (#1DC CIN, 0 gm '09), Tennell (5 st) and Eldridge (2 rec, #5DC IND). This group is much more exp'd (top 3 return), add in 2 VHT frosh, incl spring star Kenny Stills plus 3 other HT's and should remain healthier.

OFFENSIVE LINE - In '08 OU had the best OL in the country with 130 career st (#1 FBS) and all 5 st'rs were NFL prospects. Surprisingly OU's numbers only climbed to 199 ypg (4.7) with 13 sks (2.5%). Last year the losses were heavy replacing #2 and #5 DC's along with 4 and 3 yr st'rs plus 2 bkps. Stoops called the unit out after winter conditioning but could not pull off the magic of '06 when he had 4 st'rs lost but actually had better offensive numbers. As expected the #'s dropped to 135 ypg (3.6, lowest S/'01) but they allowed just 15 sks (2.9%) despite starting 10 different OL lineups due to inj and ineffectiveness. This year they lose LT Trent Williams (12 st, 3Y st'r, #1DC WAS), OL/TE Brody Eldridge (2nd Tm B12) and LG Brian Simmons (7 st). This unit is a much more experienced unit and 8 have starting exp incl 4 VHT's.

DE Jeremy Beal

DEFENSIVE LINE - The Sooners always have an excellent D-line. In '08 they only had 2 st'rs back and slipped some allowing 116 ypg rush (3.5) though the D had 42 sks (tied #3 FBS). Last year DT Gerald McCoy turned down being a #1 DC and they had all 4 st'rs back. As you would expect, the rush D improved to 93 ypg (2.8). Jeremy Beal became the first Sooner to record 3 sks in 2 diff gms in the same year and led with 11 sks. McCoy occupied a lot of double teams which freed up the others to make plays. This year they lose McCoy (1st Tm B12, 13 st, 34 tkl, 15.5 tfl, #1DC TB), DE Auston English (9 st, 23 tkl, 4 sk, HM B12), DT DeMarcus Granger (3 tkl) and DT Cordero Moore (3 tkl). This will once again be a top-notch DL but is less experienced and loses the #3 overall pick in the draft.

LINEBACKERS - Last year the Sooners not only ret'd 5 of their top 6 LB's, but also got back Ryan Reynolds (PS#3) who was their top def player prior to his injury in the '08 Texas loss. Travis Lewis was the B12 Def FPOY in '08 and broke Brian Bosworth's OU frosh record for tkl (144). He continued his strong play earning 1st Tm B12 LY. The Sooners allowed just 14.5 ppg, their best since '01. This year they lose Reynolds (12 st, #3 tkl'r, 8 tfl, HM B12) and Keenan Clayton (12 st, #4 tkl'r, 5.5 tfl, #4DC PHI). Lewis returns along with Austin Box (6 car st, 69 tkl) and PS#6 Ronnell Lewis who started the bowl as a true frosh (22 tkl). Naturally the 3 deep is made up of 8 VHT's and while less experienced, it will still be a top-notch group.

DEFENSIVE BACKS - The Sooners always fare well in my PDR and in '08 despite replacing 3 st'rs, still finished #11. Last year they had to replace 2 st'rs (1st & 2nd Tm B12). It surprised me that 3 of the starters were not VHT's but the Sooners still finished #3. This year they lose 1st Tm B12 CB Dominique Franks (13 st, 47 tkl, 2 int, 5 pbu, #5DC ATL) and 2nd Tm B12 CB Brian Jackson (12 st, 47 tkl, 4 int, 8 pbu). Adding depth are Zach Brown (5'10" 165 Jr, OKSt transfer) and Javon Harris (5'11" 196 So, PS#61). They add in 2 VHT rFr in Gabe Lynn (PS#10) and Kevin Brent (PS#18) as well as true frosh Tony Jefferson (PS#6) and could be even stronger.

SPECIAL TEAMS - In Stoops' first 9 years his ST units were a strength with six top 13 finishes. Surprisingly in '08 they plummeted to #101 with a 33.7 net punt avg and allowing 4 KR TD's. Last year they only had to replace their P and I expected the unit to move back to its usual spot at the top and they did (#12) despite not settling on a FG kicker. Jimmy Stevens hit 11-13 FG's but then lost his job to P Tress Way (1-6). Walk-on Patrick O'Hara hit 6-9 (long 47, miss 50+) in the L/4. Way was #5 in the FBS with a 40.3 net. ST coor Wilson said the KR coverage was an emphasis and would be better. While Matt Moreland had just 6 TB on 81 KO they trimmed it to 20.2 per KR with 1 TD. From 1997 to 2003 the Sooners avg 12.1 on PR's but then went though a 5 year stretch of never topping 9.0 for a season. Last year they were back in form as Ryan Broyles and Dominque Franks had a Stoops era high of 16.3 per PR. This year only Franks departs and with improved FG's, the Sooners will contend for the #1 ST spot.

COACHES - Prior to Bob Stoops' arrival, Oklahoma had five consec non-winning seasons. Stoops won a National Title in his second season then played in the National Title game again in '03, '04 and '08. OU's 110 wins the last 10 years are more than any other BCS team. Kevin Wilson, who was the OC at Northwestern from 1999-'01, has been the co-OC at OU since '02. Jay Norvell was brought in as co-OC in '08 after serving as the OC at Neb from '04-'06 and at UCLA in '07. Co-DC's Brent Venables and Bobby Jack Wright (6th year as co-DC) enter their 12th year here.

PHIL'S FORECAST

In 2000 Okla did not have a single starter miss a single game due to injury. They stunned the nation winning the National Title despite not being ranked in the preseason Top 20. Thanks to a regular season ending loss to Okla St in '01, the Sooners did not get to the Big 12 Title game. In 2002 they won the Big 12 Title and played in the Rose Bowl. In 2003 the Sooners lost the conf title game and then the National Title game (vs LSU). OU had probably their most talented and exp'd team yet under Bob Stoops in '04. They went 12-0 getting to the Title game vs USC but were embarrassed 55-19. In '05 they had just 9 ret starters and topped my NFL Draft Day Party Hangover list with 41 pts. They were #12 in my experience ratings in the B12. They struggled through a 7-4 season even needing 2 OT's to get past Baylor, but did knock off #6 Oregon in the Holiday Bowl. Their offense had amazing balance with 2,130 rush and 2,131 pass. In '06 they suffered some tough losses (Oreg & Boise) but still took home the Big 12 Title. In '07 they only had to replace 10 lettermen yet only 2 preseason magazines called for OU to even win the South. They whipped #1 ranked Missouri in the Big 12 Title game, 38-17. WV manhandled them 48-28 in the Fiesta Bowl and they finished #8. Despite winning the Big 12 they were just +35.5 ypg (5th best in '07). Heading into '08 four of OU's last 7 losses had come on the final play. The Sooners blew an 8 pt 3Q lead vs Texas when their star LB Reynolds was inj'd and they lost. They still made it to the Big 12 Title game where they blasted Missouri 62-21 and it was their 6th straight game of 58+. There was much debate as to whether OU or Texas deserved to be in the Title game but OU got the opportunity to play Florida and lost by 10, Stoops' 5th straight BCS bowl loss. The Sooners have the nation's longest home winning streak at 30 (66-2 under Stoops). Last year QB Bradford, TE Gresham and DT McCoy all turned down probable #1 DC's to return. OU was also coming off a year where they benefitted from +23 in TO's. The season did not go as planned. Gresham was OFY in Aug and Bradford was inj'd at the end of the 1H of the opener vs BYU and they lost 14-13. The D took over recording consec shutouts vs Idaho St and Tulsa (combined 109-0). They led Miami 10-0 but lost 21-20. After dispatching Baylor in Bradford's ret, he was KO'd for the year vs Texas and the Sooners lost a HT lead in the 16-13 loss. A few games later they suffered another tough loss when Jones threw 5 int vs Neb and despite a 23-7 FD edge, they lost 10-3. They failed to score a TD for the 1st time in the Stoops era as in 6 trips inside the NU's 33 they missed 3 FG's, had 1 blk, were SOD 2x and threw an int. After destroying A&M they surprisingly were manhandled at TTech 41-13, by far their worst game of the year. They shutout rival Okla St 27-0 (367-109 yd) and then vs Stanford had a 477-262 yd edge in the bowl but only won by 4. The Sooners had 3 net close losses and this year have 8 ret starters on offense (4 in '09). They also had 42 sts lost to injury (tied #3 FBS) and played a Stoops record 9 true frosh. Despite their 5-3 Big 12 record, the Sooners' +133 ypg was the league's best. The Sooners get my call to go from 8-5 back to the National Title game despite facing 9 teams that were in bowls last year.

TEXAS LONGHORNS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - Vince Young had a memorable career here and became the first player in NCAA history to have 2,500 pass and 1,000 rush yds in a season ('05) and left 30-2 as a starting QB. In 2006 rFr Colt McCoy (PS#11) had a much better season than most expected. He set the school record for TD passes in a season (29). In '07 nobody expected a soph slump. While he narrowly missed the school record for pass yds in a season (Major Applewhite 3,357 in '99), he also nearly set the record for most int. McCoy dropped from 68% (29-7 ratio) to 65% (22-18). In '08 I expected McCoy to return to his '06 form and he did even better hitting an NCAA record 76.7% for 3,859 with a 34-8 ratio. He was also the #1 rusher (561, 4.1, Heisman runner-up). McCoy threw for 3,521 (70.6%, 27-12) in '09 but was injured early in the BCS Title game. True frosh Garrett Gilbert (PS#2) beat out Sherrod Harris (PS#23) for #2 and played in 10 throwing for 310 (45.5%, 2-4). Gilbert was tossed into the fire in the Nat'l Champ game and struggled in the 1H (1-10, 2 int) before leading a 2H comeback. Gilbert is firmly entrenched as the st'r after spring. Not listed below is John Paul Floyd (6'1" 188 So). McCoy departs (#3DC CLE) as the winningest starting QB in FBS history with 45 victories.

RUNNING BACKS - Texas has had a terrific RB tradition including Heisman Trophy winners Earl Campbell and Ricky Williams. Cedric Benson became just the 5th player in NCAA history to top 1,000 for 4 straight years including 1,834 (5.6) in '04. Jamaal Charles led the RB's for 3 consec yrs including 1,619 (6.3) in '07. In '08 Vondrell McGee was the top RB with a paltry 376 (4.3). Cody Johnson had 338 (4.4) and Foswhitt Whittaker (PS#18) had 284 (4.4). Last year McGee had 2 fumbles vs ULM (1st RB fmbl in 17 gm) and then missed 2 (inj). He dropped to 300 (5.4). Tre' Newton (PS#29) led with 552 (4.8), FB Cody Johnson was the #2 RB (335, 3.9) and Whittaker added 212 (4.0). Not listed below are Jeremy Hills (6'0" 195 Jr, PS#19, 170 yds 2Y) and FB's Chris Whaley (6'3" 245 rFr, PS#14), Aaron Smith (6'2" 235 Jr) and Jamison Berryhill (5'11" 232 So). During the spring Brown admitted that the Horns could not have won a game just running the ball in '09. They used the I-formation with Gilbert under C instead of the zone-read option shotgun, which has been their bread and butter since Vince Young was the starter. UT avg'd just 148 rush ypg (4.0) LY, their lowest total S/'02 (the year before Young emerged) and I look for a feature back to finally break out of the pack.

RECEIVERS - In 2008 Jordan Shipley (PS#7) and Quan Cosby (PS#9), who comb for 1,097 yds in '07, became UT's first duo to each top 1,000. Malcolm Williams (PS#11) had 304 (17.9). In '09 they had to replace Cosby but Shipley was a Biletinikoff finalist and led with 1,485 (12.8). Malcolm Williams was #2 with 550 (14.1), James Kirkendoll (PS#28) was #3 with 461 (9.6) and conv QB John Chiles added 319 (9.4). Last year their TE's were wiped out prior to the season as PS#36 Greg Smith (worked with the OL) became the starter and backup DL Ahmard Howard (PS#29LB) was #2 (comb 6 rec). Not listed below are Brock Fitzhenry (5'9" 171 So, PS#79), and TE's Ian Harris (6'3" 250 Jr, PS#22), DJ Grant (6'3" 220 So) and Trey Graham (6'5" 242 rFr, PS#28). Gone are 1st Tm AA Shipley (#3DC CIN) and Dan Buckner (8 st, 442, 9.8). This unit is loaded with VHT's and should be fine despite the loss of UT's all-time reception leader Shipley.

OFFENSIVE LINE - In 2008 the Horns had 3 sts back but they avg just 167 ypg rush with their 4.3 ypc being their lowest since '02. Last year they only had to replace 1 starter and had 91 career sts back. Surprisingly the numbers dropped to 148 ypg (4.0) with 31 sks (5.7%) with UT running for a combined 99 yds (1.5) while allowing 10 sks vs Neb and Alabama. This year they lose 2nd Tm B12 C Chris Hall (14 st, 3Y st'r), 2nd Tm AA LT Adam Ulatoski (14 st, 4Y st'r) and HM B12 LG Charlie Tanner (14 st, 3Y st'r). All 10 in the 2 deep are VHT's and while they only have 2 ret st'rs (47 car sts), they should be able to top '09's numbers which were their weakest since 2002 with the emphasis on downhill running.

DEFENSIVE LINE - In '06 Texas had 3 st'rs back and had their best rush D S/'42 allowing 61 ypg (2.3). In '07 despite just 1 ret st'r, Texas allowed 93 ypg (2.9). In '08 they had to replace two DT's. DE Brian Orakpo earned Big 12 Def POY and won the Nagurski, Lombardi and Hendricks Awards. Texas allowed just 84 ypg (3.1) with an FBS leading 47 sks. Last year they had to replace 3 st'rs (#1, #3, #4 DC's) but LB Kindle moved to DE and they allowed just 72 ypg rush (2.2) with 44 sks. Kindle was the first player ever to be a finalist for both the Hendricks (DE) and Butkus (LB) awards. This year they lose 2nd Tm B12 DT Lamar Houston (68 tkl, 8 sk, #2DC OAK), Kindle (14 st, 70 tkl, 22 tfl, #2DC BAL) and DT Ben Alexander (4 st, 39 tkl, 7 tfl). Sam Acho had 10 sks and filling in the 2 open spots figure to be senior PS#1 Eddie Jones and soph PS#4 Alex Okafor. The Horns are used to restocking with more quality DL.

LINEBACKERS - Texas splits the playing time at their LB positions as sometimes the backups have more tkls than the starters. Last year they returned their #1 & #4 tkl'rs. They lost Jared Norton early and Muckelroy moved to his MLB spot. This year they lose Muckelroy (2nd Tm B12, 13 st, #1 tkl'r, 11 tfl), who was only the 2nd Horns LB to be drafted in the last 15 years (#4DC CIN). Norton's return is ? as of press time. Look for some of the outstanding true frosh (PS#1, #7 & #19) to gain significant time and also watch for rFr Tariq Allen. Despite replacing a DC, this unit still makes my Top 10.

DEFENSIVE BACKS - After a #6 finish in my PDR in '05, the Horns yielded a school record 236 ypg passing and shockingly dropped to #63 in '06. In '07 they had to replace 3 st'rs (all DC's) including a Thorpe Award winning CB and finished #45 allowing a new record of 278 ypg (#109 in FBS!). In '08 they had to replace 3 st'rs again but moved up to #19. Last year they only had to replace one starter (2nd Tm B12). Earl Thomas had a 92 yd IR TD vs Colo (longest S/'36) and set a school rec with 8 int's (2 TD's). Texas climbed again to #4 allowing 55.4% and a 14-25 (180 ypg). Not listed below are Cody Hill (5'10" 177 Jr), and Jorge Martinez (6'0" 200 Sr, PS#315). This year they lose their star 1st Tm AA SS Thomas (14 st, 77 tkl, 8 int, 16 pbu, #1DC SEA), Deon Beasley (1 st, 15 tkl), Clark Ford (17 tkl) and Marcus Davis (10 tkl). Since they started 5 DB's, they return 4 full-time st'rs and 11 of 12 on the 3 deep are VHT's. This is a very exp'd group and is my #1 rated secondary.

SPECIAL TEAMS - With Brown's great recruiting classes, most of the bkps are VHT's and contribute here. Since 2000 they have finished #18, #10, #16, #15, #36, #1 (in '05), #12, #26, #10 and #3 ('09) in my ST rankings. Last year all of the top players were back and the unit accounted for 3 KR, 2 PR and 2 blk'd punts for TD's with Mack Brown saying that ST coach Duane Akina is the best in the country for setting up blk'd kicks. RFr DJ Monroe's first collegiate touch was an 89 yd KR TD (1st UT player 2 career KR TD) and he avg'd a super 33.6. Hunter Lawrence hit the winning 46 yd FG in the Big 12 Title game while hitting 24-27 (long 49, 1 miss 54) on the season. Justin Tucker had 14 TB's on 99 KO's and a 40.4 avg on punts (rugby-style), but they switched to John Gold (44.1). This year they must replace PR Shipley (13.0) and K Lawrence but once again should finish near the top.

COACHES - Mack Brown took over a team that had 3 winning seasons the previous 7 yrs (4-7 prior yr). He has now won or tied for 6 Big 12 South Titles and has had 20 consec winning seasons as a HC (18 st bowls). He is also the only coach to have 14 consec 9 win seasons. In '08 Mack Brown won the Bobby Dodd Nat'l COY. OC Greg Davis was with him at N Car and his offense has had 10 of Texas' top 11 seasons in passing yds. They've recorded 35 offensive team records and 41 fifty-point games in his tenure. They had co-DC's in '07 but after the D allowed 25.3 ppg (most S/'98), Brown made a tremendous hire bringing in Will Muschamp who was the DC at Auburn ('06-'07). He was also the DC at LSU (01-'04) and the asst def HC with the Miami Dolphins in '05 under Nick Saban. He guided LSU's Nat'l Title D in '03 (#1 in the FBS). Muschamp will take over as HC when Brown eventually steps down and turned down an offer to become Tenn's HC.

PHIL'S FORECAST

Mack Brown came into '05 with just a 1-12 record vs Top 5 tms but things changed in a big way. UT defeated #4 Ohio St on the road and after having lost 5 straight to Okla, won comfortably 45-12. They beat defending National Champ #1 USC in the Rose Bowl winning their first National Title since 1970. In '06 Vince Young left for the NFL and they had their 21 gm win streak snapped vs #1 Ohio St. They still knocked off Okla and were #4 with a shot at the National Title game when QB McCoy was inj'd and they lost B2B gms to K-St and A&M not even getting to the Big 12 Title game. They barely got past Iowa in the bowl to finish 10-3. They were 6-2 in the Big 12 but only +43.9 ypg (4th best), a big drop from 2005 (+211 ypg). UT had 13 st'rs back in '07 and while they had many unimpressive performances (dropped as low as #23), they ended up at #10. They started 0-2 in the conf for the first time S/'56 (1-9 SWC). After being upset by A&M in the finale, Brown was determined to win the bowl and said every starting job was open in bowl practices. Texas responded with a 52-34 wipe out of #12 Ariz St getting their 7th straight year of double digit wins. Texas had just 11 ret st'rs in '08 and drew KU and MO out of the North and had to play TT and Okla away from home. It looked like '08 would be a good year but '09 would be the year they contended for the Nat'l Title. At 5-0 Texas did trail #1 Okla by 8 in the 3Q but won. They knocked off #11 MO and got past #7 Okla St but then vs #6 TTech, gave up a TD with :01 left and lost. After routing their final 3 opp's, they were denied a chance to play in the Big 12 and National Title games thanks to the league's tie-breaker. A disappointed Longhorns team still beat #10 Ohio St in the Fiesta Bowl. Texas was +115.3 (3rd best) in the B12 (LY Texas ret'd 14 st'rs) and I projected them to get to the National Title game which they did. They were 5-0 when OU QB Bradford was inj'd in the 1Q and the Longhorns rallied for a 16-13 win. They rolled through the rest of the season but had a close call in the Big 12 Title game as McCoy's final pass was orig ruled OOB with no time left but :01 was put back on and a 46 FG snuck through the uprights. In the BCS Title game UT led 6-0 but unfortunately McCoy was inj'd (just 5 offensive snaps) and despite a 276-263 yd edge, 5 TO's did them in and they lost by 16 to Bama. Some signs are pointing down this year as Texas loses McCoy and has just 12 ret st'rs. They had only 8 sts lost to injury in '09 and were +9 in TO's. They had an incredible off ypp of 10.7 (see pg 299) and their +94.3 ypg was only 3rd best in the B12. This will be another outstanding year but I have them 2nd in the South and they won't match LY's 13 win total.

Oct. 2	† Oklahoma *(Dallas)*	G					LY UT held OU to -16 rush yds, lowest ever in RRR history (9th best all-time by the Horns). After dropping 5 straight from 2000-'04, Texas has now won 4 of the L/5 in this series.
Oct. 9

TEXAS A&M AGGIES

POSITION OUTLOOK FOR 2010

QUARTERBACKS - Stephen McGee had an excellent soph season throwing for 2,295 (62%, 12-2, 666 rush). In '07 his backup was Jerrod Johnson (PS#27WR) who also played on the basketball team in '06 and has a cannon for an arm. McGee played all of '07 with a shoulder inj and threw for 2,311 (58%, 12-8) and set an Aggie QB rushing record with 899 (5.0). Johnson played in just 5 (7 passes, 111 yds rush). Both mobile QB's were plugged into HC Mike Sherman's pro-style passing offense in '08. McGee barely beat out Johnson and both were banged up. Johnson took over and in his first 7 sts, threw for 263 ypg (64%, 15-4). In his last 3 he threw for 156 (47%, 3-6). McGee threw for just 586 (66%) and was a surprising #4DC of DAL (see Hardcore Fans). Ryan Tannehill was the team's #1 receiver in '08 but was also the Aggies only exp'd bkp QB LY. Johnson, despite sometimes being under heavy pressure due to a leaky O-line, set several school records incl 3,579 yds (59.6%) with a 30-8 ratio and had 506 rush (3.5). Tannehill hit just 4-8 passes (#2 rec). Adding depth are Patrick O'Quinn (6'2" 190 rFr) and this year's true frosh (both IFS). Johnson is one of the Big 12's top QB's.

RB Christine Michael

RUNNING BACKS - A&M has had just one 1,000 yard rusher S/'98 and that was Courtney Lewis (1,024 in '03). In '08 their leading rusher was Mike Goodson who had just 406 (4.3) and the leading returnee last year was soph Cyrus Gray (PS#13) who had 363 (4.8). In '08 it was surprising that the Thunder and Lightning combo of Jorvorskie Lane and Mike Goodson totalled just 499 rush yards (1,491 in '07, 1,572 in '06). Last year despite their losses, I projected improvement and Gray had 757 (4.8) and 5TD's (226 yds rec). Explosive true frosh Christine Michael (PS#6) led with 844 (5.1) thanks in part to a school record 97 yard TD run vs Baylor. Bradley Stephens (PS#12) added 132 (4.9) despite fumble problems. Kalvin Guyton (5'10" 201 rFr, PS#123) and 3 HT frosh round of the unit. This year the Ags should finally produce another 1,000 yard rusher but will it be Michael or Gray?

RECEIVERS- Surprisingly A&M has never produced a 1,000 yard receiver (Robert Ferguson's 885 in 2000 school rec). In '08 A&M had to replace its top 3 and the two top WR's turned out to be frosh. True frosh 6'4" Jeff Fuller was #2 with 630 (12.6) setting the school record for rec TD's (9). Backup QB Tannehill (6'4") set the school frosh record with 844 (15.3). TE Jamie McCoy had 500 (11.6) and 6'4" Terrence McCoy had 237 (9.9). Last year everyone ret'd but Tannehill wasn't on the field full-time due to his bkp QB duties (609, 13.2). Fuller was dominant in the spring but cracked his fibula (miss 4). He still finished #3 with 568 (13.9). True frosh Uzoma Nwachukwu led with 708 (17.7) and while only 6'0", catches passes at their highest point with his leaping ability. This year they lose #4 Howard Morrow (12 st, 449, 10.4) and 2nd Tm Big 12 TE McCoy (13 st, 367, 10.5). Not listed below are Kenric McNeal (6'1" 170 So, PS#68), Keon Furtch (6'2" 200 So, PS#50), Taylor Randle (6'0" 183 Jr), Nick Trice (6'2" 204 Jr, PS#89) and TE's Michael Lamothe (6'3" 227 So, PS#156) and Don Bishop (6'2" 217 Sr). Despite the loss of 2 st'rs, I'll call for improved production as the top 3 rec's are back.

OFFENSIVE LINE - In '07 A&M had 4 senior st'rs and opened holes for 212 ypg rush (4.8) with 16 sks. Naturally, the losses were heavy in '08 (21 car sts, 4th fewest FBS) not to mention the fact that they had to learn a new system. In the spring, A&M had just 8 scholarship OL and then the unit was hit hard by injuries during the year. As you would expect, the numbers dropped dramatically to 89 ypg (2.9) with 39 sks (9.5%). Last year they had all 4 st'rs returning (LT Patterson moved to DL late Aug) but Sherman said at midyear that the line was ravaged by injuries and he was constantly patching holes. Still, the more veteran unit improved to 184 ypg (4.4) with 29 sks (5.7%). This year they lose C Kevin Matthews (13 st, HM B12, 2Y st'r), 2nd Tm B12 RT Lee Grimes (12 st, 2Y st'r) and LT/LG Michael Shumard (12 st, 3Y st'r). LT Stephen Barrea (3 st) moved to DE in the spg with the emergence of true frosh Luke Joeckel (PS#31). Four return who started last year (3 VHT's). While this unit is less exp'd, they should stay healthier and could come close to last year's numbers.

DEFENSIVE LINE - In 2008 A&M had to replace 3 st'rs from the DL and the unit was overrun yielding 219 ypg rush and 5.2 ypc (worst ypc over 20 yrs). Last year they had to replace 2 st'rs and 2 bkps. After a brief stint on the OL, Lucas Patterson (11 st DT '08) moved back to DL in August (4 ret st exp). The sacks jumped from 16 to 36, and they also improved their run D yielding "only" 172 ypg (4.6). This year they lose DE Matt Moss (13 st, 25 tkl, 2.5 sk). Not in the PSL are KJ Williams (6'3" 250 Jr, PS#90TE), Rod Davis (6'1" 300 So, PS#42), Michael Ebbitt (6'4" 265 Jr, PS#61) and Adren Dorsey (6'2" 305 So, PS#88). Three DL return who had 5+ sts last year and I look for an improved rush D.

LINEBACKERS - A&M with its Wrecking Crew defense used to be known as "Linebacker U" but they have had a dry spell at the position with no former Aggie LB currently playing the position in the NFL. Last year's group had 10 career sts with 3 of the 4 st'rs being a true frosh, a rFr and a soph. Michael Hodges started the final 9 (#5 tkl'r) and rFr Kyle Mangan (10 st) still finished as the #4 tackler. Von Miller nearly broke DE Jacob Green's 1979 record of 20 sks as he led the NCAA with 17 along with 4.5 tfl. Not listed below are Jomo McDuff (6'5" 215 rFr), Kody Johnston (6'1" 211 rFr) and Caleb Russell (6'2" 228 So). This year they only lose Derek Dumas (8 tkl) and Matt Featherston (28 tkl, 3 sk). They return their #3, #4, #5, #7, #8 and #13 tkl'rs and Miller will spearhead a much more exp'd LB corps.

DEFENSIVE BACKS - In 2005 with just one starter back the Aggies were shredded for an FBS worst 305 ypg passing and finished #104 in my PDR. In '06 a much more veteran secondary moved up to #32. In 2007 A&M had one ret starter and were #84. In '08 they had 6 back with 8+ sts but with an inexperienced front 7, the Aggies finished #103. Last year they had to replace 4 DB (comb 19 sts) and then proj'd starting CB's Coryell Judie (PS#10JC) RS and Jordan Peterson (4 st '08) missed the first 5 (8 tkl). Their 4 st'rs included a true frosh and 2 soph (comb 14 sts '08). In the magazine I said while they were less exp'd, with a stronger front 7 I expected them to move up and they did to #61. This year the unit loses HM B12 FS Jordan Pugh (12 st, #2 tkl'r, 3 int, 9 pbu, #6DC CAR), Justin McQueen (2 st, 38 tkl) and Peterson. Adding depth are DeMaurier Thompson (6'1" 192 Sr, PS#77) and DeAndre Thompson (6'1" 185 So, PS#464). Four return with starting experience and Judie could take someone's spot so I look for continued improvement.

SPECIAL TEAMS - The Aggies are famous for their "12th Man" ST unit (4 top 10 finishes). They have a history of accomplished K's but since 2000 they have made only one 50 yard FG and that was last year. After a slow start in former HC Dennis Franchione's first three years ('03-'05) at #73, #99 and #89 they finished #27 and #31 in my ST rankings in his final two. Sherman said he would put an emphasis on the unit and P Justin Brantly became the first Aggie to avg over 43.2 in all four of his years (45.7 in '08, net 36.0). Cyrus Gray (PS#13) set a school frosh record with 1,592 all-purp yards (23.9 KR). Surprisingly the unit only finished #61 in '08. Last year A&M lost Brantly but Gray's KR's remained solid (23.8). Randy Bullock hit 12-19 FG's (4-8 from 40+) and had 9 TB's on 80 KO's. Montana transfer Ken Wood started the yr at P before they switched to Ryan Epperson (33.0 tm net). A&M pretty much handed the bowl gm to UGA with this unit by having 2 kicks blk'd, allowing a KR TD, fumbling a punt and snapping the ball over the P's head and they finished #98 for the yr. With everyone back they should clearly have their best ST finish in the Sherman era.

COACHES - Mike Sherman took over in '08 and was previously the OL coach here from '89-'93 and '95-'96 under Slocum. He was the HC of GB (57-39 with 4 playoff trips) from '00-'05 and the OC of the HOU Texans in '06 & '07. OC Nolan Cromwell left for the NFL after 2 years and Sherman will serve as his own OC this year but he brought back Steve Kragthorpe (A&M OC '98-'00) as the Passing Gm coor/WR coach. Kragthorpe was 15-21 as HC of L'ville ('07-'09) and 29-22 as the HC of Tulsa ('03-'06). The new DC is Tim DeRuyter who was the DC at AF S/'07 and was co-DC at Nevada from '05-'06. He also was DC at Ohio twice in his career ('02-'04 and '95-'98).

PHIL'S FORECAST

A&M took a streak of 20 consecutive non-losing years into Dennis Franchione's first season in '03. In his first 4 years he had Holiday and Cotton Bowl berths but also TWO losing seasons. In '07 they had a killer schedule and after opening up 6-2 they lost to the #12, #5 and #7 teams but then did knock off #13 Texas for a 2nd straight year. Franchione stepped down and Gary Darnell was the interim HC for the bowl and they finished 7-6. In '08 A&M had just 10 ret st'rs and a new HC in Mike Sherman. They were upset by Ark St in the opener and then suffered their worst non-conf defeat at Kyle Field since 1988 in a 41-23 loss to Miami, Fl. Their 4 wins in '08 tied for fewest in a season since their 3-8 record in 1972. The '08 season marked the first time A&M finished either tied or below Baylor in the Big 12 South. A&M was -147 ypg (2nd worst) in conf play. Last year's squad was more exp'd with 16 ret st'rs and they were coming off a season in which they were -10 in TO's. I mentioned that they should open with 3 big wins and be playing with a lot more confidence. They did indeed open 3-0 but then had 3 straight losses including a humiliating 62-14 rout at Kansas St. The next week they took on a Texas Tech team that had drilled the same K-St team 66-14 two weeks prior and shockingly A&M rolled over Tech 52-30. After beating Iowa St 35-10 they stood at 5-3 needing 1 win for bowl eligibility. They blew a 21-10 lead vs Colo then were pummeled by Oklahoma. They did beat Baylor 38-3 to wrap up a bowl. They gave Texas a test on Thanksgiving night only losing by 10. In the bowl they had a 471-366 yd edge but lost 44-20 thanks to several costly ST errors. While the team had just a 6-7 record, it was a better than expected season as they played a school record 18 true frosh. Interestingly, back in 1990 they played 16 true frosh and in 1991 they followed that up with an SWC Championship and a 10-1 regular season (only loss by 1 pt) beating teams on avg 37-13. They had just 8 sts lost to injury all year. The Aggies have 16 ret st'rs which is #2 in the Big 12 and had 2 net close losses. They also had a defensive ypp of 12.7 (see pg 299). They gained 450+ yds 9 times in '09 and became the first Aggies team to top 6,000 yards with 6,055 S/'90 (6,331). This is a much stronger team with one of the top offenses in the NCAA and after their 6-7 season of '09 and B2B losing seasons (1st time S/'72-'73) they make my Most Improved List.

TEXAS TECH RED RAIDERS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - Mike Leach's QB's always had great stats and he even had a streak of using a 5th yr senior (mostly walk-ons) for 3 straight years. In '06 the position was finally filled by a VHT, Graham Harrell (PS#16). Harrell threw for 4,555 (67%, 38-11). In '07 Harrell improved to 5,705 (72%, 48-14). Backup rFr Taylor Potts (PS#19) hit 32-49 for 409. In '08 Harrell threw for 5,111 (71%, 45-9, #4 Heisman). Potts saw action in 10 (23 of 36). Last year I expected Potts, who is 6'5" 218 with a stronger arm than Harrell, to have a fine season. Potts opened with 3 int's vs NDakota. He had 7 TD passes vs Rice but had 2 costly 4Q TO's vs Texas and was SOD at Houston's 1 on a QB sneak in B2B losses. He was inj'd vs NMex (tied 7-7 2Q, conc) and Steven Sheffield guided the win. Sheffield became the 1st backup QB in the Leach era to start due to injury and had 7 TD's vs Kan St. His 370 1H yards set a TT record topping BJ Symons' 2003 mark. Sheffield led the road win vs Neb despite breaking his foot. Potts started in the A&M loss but was benched for rFr Seth Doege (6'2" 205 So, PS#28) in the 3Q and Doege started vs KU. When Doege struggled (2 fmbl set up 2 KU TD's), Potts saved the day in the 2H. Potts started vs Okla St but Sheffield came in for 13 snaps (2Q). Potts took every snap the rest of the season prior to Sheffield's 4Q bowl comeback. Potts threw for 3,440 (65.7%, 22-13) while Sheffield threw for 1,219 (74.3%, 14-4). Not listed in the PSL are Jacob Karam (6'1" 205 rFr, PS#33) and Brant Costilla (6'3" 210 Fr). Both Potts (hand) and Sheffield (foot) were inj'd in the spring but are expected to resume their QB battle in Aug. The unit is much more exp'd but their QB guru is gone.

RUNNING BACKS - In 2008 Baron Batch (PS#40) who RS in '07 due to injury, split the snaps with incumbent starter Shannon Woods. Batch led with 758 (6.7) and added 449 (10.0) receiving. Woods had 716 (5.1) and 397 (11.0) rec. Last year they had to replace Woods and Batch (elbow) was not 100% to start. He had his first 100 yard game vs Houston. Eric Stephens was the talk of August but finished with just 254 (5.2). Batch led with 884 (5.3) with 395 (6.9) rec. Leach said that Harrison Jeffers (5'9" 204 So, PS#47) was the most explosive back but had trouble with blitz pickups. They often lined him up in the slot and he took handoffs while in motion (217, 6.2). Adding depth are Aaron Crawford (5'11" 204 Jr, PS#54), Gerardo Acevedo (6'1" 197 Sr) and Andre McCorkle (6'2" 204 Jr). Everyone returns and they add in Delans Griffin (PS#44) so I look for increased production especially with the new HC.

RECEIVERS - Naturally Tech had many 1,000 yard receivers in Leach's pass happy offense. In his brief two year career, Michael Crabtree was unquestionably Leach's best WR winning the Biletnikoff Award in both 2007 and '08. They had to replace him and their #3 rec last year with the leading returnee being Detron Lewis (913, 12.0) while the #4 and #5 rec's in '08 were Edward Britton (577, 16.5) and Tramain Swindall (561, 12.2). Swindall was in the doghouse but regained his starting job and finished #3 LY with 694 (12.6). Despite inj, Lewis was #1 with 844 (13.0) and Air Force trans rFr Alexander Torres was #2 with 806 (12.0). This year they lose Britton (9 st, 383, 12.0), Ryan Hale (12 gm) and Brik Brinker (31, 10.3, 2 gm). While I don't see a player the caliber of Crabtree, this is a more exp'd and improved unit.

OFFENSIVE LINE - In 2008 TT had one of the largest O-lines in the NCAA and had all 5 starters returning. Not surprisingly they had their best rush ypg (118, 4.8) since 1999 while leading the NCAA by allowing just 1.96% sacks. Last year they had to replace a 1st Tm B12 LT, 2nd Tm B12 LG and their starting C. They welcomed back OG Brandon Carter who did an outstanding job vs Ndamukong Suh. The numbers dropped to just 84 ypg (3.4) while the sacks climbed to 31 (4.6%). This year they lose RT Marlon Winn (13 st, HM B12, 3Y st'r), 1st Tm B12 Carter (12 st, 3Y st'r), C Shawn Byrnes (11 st, 2Y st'r) and Joe King (2 gm). They did not settle on a starting lineup until wk 11 last year and 6 return with starting exp including 3 VHT's but they have just 29 career sts. The new staff is emphasizing quickness and conditioning so expect the line to be slimmer this yr. While their 2 ret st'rs are equal to last year, they must learn new schemes including smaller splits and they also lose their star.

DEFENSIVE LINE - In 2007 TT had to replace 5 of their top 6 DL's and slipped to allowing 177 ypg rush (4.0) while the D had just 25 sks. In '08 the unit ret'd intact and they added in JUCO McKinner Dixon who became the B12 Def Newcomer of the Year (9 sks). While they allowed just 140 ypg rush, the ypc remained at 4.0 (34 sk). Last year they lost 2 st'rs (1st Tm B12 DE) and then Dixon (0 sts '08) left for the supplemental draft (not selected). With 2 st'rs back (3 DT's with 5+ sts) they improved to 127 ypg (3.4) and 41 sks. This year the losses are heavy. Gone are 2nd Tm B12 DE Daniel Howard (13 st, 42 tkl, 8 sk), DT Richard Jones (41 tkl, 2.5 sk), 1st Tm B12 DE Brandon Sharpe (9 st, 36 tkl, 15 sk), DE Rajon Henley (2 st, 31 tkl, 5 sk) and DT Victor Hunter (1 st, 16 tkl). They return 3 year starting NT Colby Whitlock but switch to a 3-4 and will be down a few notches.

MLB Bront Bird

LINEBACKERS - Last year Tech ret'd all 3 starters (#1, #3 and #4 tkl'rs) and the 2 deep included 3 VHT's. TT trimmed their ppg allowed to 22.5, their best since 2005. This year they lose LB Marlon Williams (13 st, #3 tkl'r, 8.5 tfl) and Riley Harvey (9 gm, 5 tkl). They now have 4 of the top 6 back (2 VHT) which is fortunate as they now add a 4th spot. While not as exp'd overall as '09, Bront Bird and Brian Duncan have combined for 61 career sts while last year's unit had 60.

DEFENSIVE BACKS - In 2007 TT only had to replace one starter and allowed the fewest passing yards in the Big 12. TT climbed to #33 in my PDR. With 2 starters back in '08 they slipped to #45. Leach noted that LaRon Moore had as much talent as his starting CB's but a concussion slowed him (1st st was bowl). LY they had to replace two 1st Tm B12 st'rs (#2DC) and 4 bkps (comb 88 tkl). Despite losing their top 4 S's, TT still climbed to #22 (12-10 ratio). This year they lose 2nd Tm B12 CB Jamar Wall (13 st, 58 tkl, 2 int, 15 pbu, #6DC DAL), CB Taylor Charbonnet (15 tkl), Brent Nickerson (8 tkl, 10 gm) and Nathan Stone (6 tkl, 5 gm). Seven of the top 10 are back. TT is unlikely to duplicate the 41 sks they had last year (#4 NCAA) so this unit should be tested more often. Despite being more exp'd and stronger, they could actually drop a little in the PDR.

SPECIAL TEAMS - Surprisingly Leach's best KR team avg in his first 7 yrs was 19.9 but they have since improved to 21.9, 22.2 and 24.4 over the last 3. Coincidently, Tech's ST rankings have risen as well with a #18 finish in '07, #25 in '08 and #39 in '09. Last year P Jonathan LaCour (29.2 net '08) was susp the first six. Donnie Carona punted in the first 3 but true frosh Ryan Erxleben (PS#66) took over (40.8, 35.0 tm net). Jamar Wall was the top KR in '08 (23.9) but true frosh Eric Stephens took over (25.7). rFr Austin Zouzalik was the PR (9.6). K Matt Williams hit 11-14 (long 43) but with just 4 att's from 40+. Carona had 17 TB on 84 KO. With 3 of the primary 4 positions in the hands of frosh LY, there will be a move up to the top 25 in '10.

COACHES - The Mike Leach era came to an abrupt end as he was susp'd then subsequently fired prior to the bowl. DC Ruffin McNeill became the interim HC for the bowl and was the players' choice for HC but instead TT hired former Auburn HC Tommy Tuberville. In 10 years at Auburn, Tuberville had an 85-40 record but resigned after a 5-7 season in '08. He was also HC at Ole Miss from '95-'99 (25-20 there). Tuberville hired 29 yr old Neal Brown from Troy as his OC to maintain TT's "Air-Raid" offense. Brown had been the OC at Troy L2Y. In Tuberville's final year at Aub he installed a spread offense with former Troy OC Tony Franklin, but it failed miserably and Franklin was fired at midseason. The new DC is James Willis who was Tuberville's LB coach at Aub from '06-'08 (LB cch at Alabama LY).

PHIL'S FORECAST

Tech has now had 17 straight non-losing seasons. Even more impressive to me is that they are the ONLY member of the Big 12 with 15 straight winning seasons despite playing in the same division as Texas and Okla. Tech is 20 games over .500 all-time in Big 12 play. They outgained Big 12 foes by 134.9 ypg (3rd best) in '03, 103.7 in '04, 115 (2nd best) in '05, 95.3 (2nd best) in '06, 104.4 (2nd best) in '07, 133.5 (2nd best) in '08 and 106.8 (2nd best) in '09. In '04 they were 8-4 and their #18 AP finish was the highest here since 1976. In '05 TT was ranked in the preseason Top 25 (#21) for the first time since 1977 (#8). At 8-1 they were #13 and played in their 3rd all-time Cotton Bowl and finished #20. Graham Harrell's first year as a starter came in 2006 (first non-senior st'r QB S/'01). TT had the biggest comeback ever in a bowl (down 31) to beat Minn and finish 8-5 (unranked). In '07 they had the fewest amount of ret starters (10) in Leach's 8 years and were picked 5th in the Big 12 South media poll. TT knocked off #3 Okla in the season finale (Sam Bradford inj'd) and made their 2nd straight big comeback in a bowl (17 pts final 3:31) to beat Virginia to finish 9-4 (#22). Heading into '08 the team had not won 10 reg season games since 1976. In my forecast I noted that all of my sets of power ratings called for TT to get the elusive 10 win season and most of them had TT a perfect 10-0 when they travelled to Norman to face Oklahoma. They were ranked #12 AP (highest S/'77) in the preseason. Tech lived up to my power ratings forecast and knocked off #1 Texas 39-33 then whipped #8 Okla St 56-20. Tech was 10-0 and #2 but #5 Okla thrashed them 65-21 and the disappointed Raiders barely got past Baylor and then lost to Ole Miss in the bowl. Tech benefitted from +8 in TO's. TT had to replace Harrell and WR Crabtree in '09 and had 11 ret st'rs (2nd fewest B12). They also had 3 net close wins. As expected TT, which had just 33.3% of their offensive yards ret (8th fewest FBS) and also were #6 in points lost to the NFL draft (19), had a weaker record. They did only lose to #2 Texas by 10 on the road and then were SOD at the 1 in the 4Q vs Houston and lost by 1 on a TD with :49 left. Tech moved into the rankings at #21 after their 31-10 win vs Neb but were stunned by the Aggies (52-30) which Mike Leach pinned on the players' "fat little girlfriends" (see Hardcore Fans). They had never beaten Oklahoma by more than 10 but thrashed the Sooners 41-13. With a pro-TTech crowd behind them they barely got past Baylor 20-13 (Baylor SOD at 5) at Cowboys Stadium. Mike Leach was shockingly susp'd then let go prior to the bowl and Ruffin McNeill was the interim HC in their 41-31 win over suspension-ravaged Mich St. New HC Tommy Tuberville did a tremendous job at Aub (see COACHES) but steps into a tough situation as Leach was a unique coach with a different style of offense and they also lose DC McNeill. Tech does have 14 ret starters but had just 8 sts lost to injury last year. Three of my 9 sets of power ratings call for double digit wins but with the coaching change, I do not see them topping LY's 9 wins.

BAYLOR BEARS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - In Art Briles' first season in 2008 returning starting QB Blake Szymanski (2844, 57%, 22-18 in '07) had to battle Miami, Fl transfer Kirby Freeman (PS#14) and true frosh Robert Griffin (PS#34). Freeman won a tightly contested battle but was replaced in the opener by the exciting Griffin who set TX state records in HS in the110m and 300m hurdles (AA on Baylor track tm). Griffin had a phenomenal season despite being the youngest starting QB in the NCAA. He set a school QB rush record (217) vs Wash St and another BU record by hitting 21 of 24 (87.5%) vs Iowa St. Griffin also set an NCAA frosh record by throwing 209 straight passes without an int, tied BU's all-time mark with 13 rushing TD's (1974 Steve Beaird) and set the record with 28 TD's overall. His teammates marvel at the amount of hits he takes and yet he gets back up so they love his toughness. Griffin threw for 2,091 (60%, 15-3) and was the #2 rusher (843, 4.9). Freeman played in just 3 and Szymanski threw 7 passes. Last year Griffin added 10 lbs of muscle and increased his accuracy. Unfortunately in wk 3 Griffin tore his ACL in the 1Q but still played until the half. Szymanski played the 2H vs NWSt but hurt his shoulder so GS frosh Nick Florence (PS#76) started vs Kent St and OU. Szymanski started vs Iowa St but had 3 int and Florence reclaimed the job. Florence set a school record with 427 vs Missouri (32-43, 3-0) which broke Szymanski's '07 record of 412 (vs Rice). Because he was a senior, Szymanski (605, 61.8%, 1-5) played the entire season finale. Florence led with 1,786 (62%, 6-9) while Griffin threw for 481 (65.2%, 4-0). This year the only loss is Szymanski (2 st). Added to the mix are GS frosh Bryce Petty (6'2" 220, PS#48) and Brody Trahan (5'11" 195 rFr, PS#82). Griffin should be one of the B12's premier QB's making this one of the most improved QB positions in the country.

RB Jay Finley
Jersey #23 in 2010

RUNNING BACKS - Heading into '08 Baylor had not avg'd over 3.2 ypc rush as a team since 1997 (4.7) despite the fact they have had plenty of VHT RB's. In '06 Baylor rushed for just 40 ypg (2.1) and in '07 just 78 (3.1). In '08 the top returning rushers were Jay Finley (207, 3.8) and Jacoby Jones (192, 3.9). QB Griffin's 843 yds helped and HC Art Briles' new offense saw them almost triple their rush to 196 ypg and a school rec 4.9 ypc (4.75 in 1980). Griffin had four 100 yard rushing efforts (one 99 yd) and the RB's comb for just 3, all by Finley who led with 865 (5.8). Last year Finley was back and they added in 6'0" 240 lb Terrance Ganaway (1 st, 550, 5.0 in '07 - Houston) and speedy rFr Jarred Salubi (PS#177). Finley got a 72 yd run in wk 2 which was the longest by a Baylor player since 2002 (longest TD run S/'97) but had 2 carries in the next 4 (inj). When he ret'd, he had just 158 (2.8) in conf action but still led with 370 (4.7). Salubi was #2 with 298 (6.0) and Ganaway had 200 (2.9). Without Griffin, the rushing total dropped to 101 ypg (3.5). Added to the mix are Glasco Martin (6'0" 200 rFr, PS#156), Isaac Williams (PS#274JC), Evan Hearn (5'10" 195 Jr) and FB's Lance Hollandsworth (5'8" 200 Sr) and Erik Wolfe (6'1" 245 rFr, PS#265). I look for significant improvement from the Bears RB's.

RECEIVERS - In 2008 the Bears rec corps ret'd intact (4 WR's 400+ yds in '07). True frosh Kendall Wright (PS#60) led with a frosh school record 649 (13.0). Wright has a 40" VL and joined the basketball team after the season. David Gettis (407 '07) was #2 with 391 (13.5). Thomas White (475 '07) was #3 with 385 (11.0). Last year they only had to replace White. Wright led with 740 (11.2) while Gettis added 675 (13.0). Ernest Smith was #3 with 360 (9.2). RFr Lanear Sampson (PS#65) had 297 (10.2). This year they lose Gettis (HM B12, 11 st, #6DC CAR), Smith (6 st) and TE Justin Akers (8 st, 249). I look for a bigger contribution from 6'6" Willie Jefferson (5 rec, 20.2). Wright is on pace to be the school's career leader. Not in the PSL are Stacy Williams (5'11" 190 Jr, PS#226), Andrew Sumpter (6'2" 200 Jr), Bryan Swindoll (6'2" 235 Jr), Travis McClain (6'0" 195 Jr) and Steve Drain (6'3' 235 rFr). This unit is less experienced but with the return of Griffin could put up better numbers.

OFFENSIVE LINE - In '07 the team allowed just 9 sks in the first 8 but when LT Jason Smith was inj'd they gave up 12 in the final 4. In '08 they had to replace one starter and improved to 196 ypg rush (4.9) but allowed 28 sks (9.7%) in Briles' first year. Last year they had to replace 1st Tm AA LT Smith who was BU's first #1DC since 1996, a 3 year starting RT and a LG (7 sts). They had 53 career sts and brought in a couple of JUCO's. Naturally with the loss of a mobile QB like Griffin the numbers dropped to 101 ypg rush (3.5) with 31 sks (7.2%). This year they lose 2nd Tm B12 C JD Walton (12 st, 3Y st'r, #3DC DEN), RG James Barnard (12 st, 3Y st'r) and bkp Chris Griesenbeck. They have 6 VHT's in the 2 deep and despite just 37 career sts (tied #104 FBS), should improve.

DEFENSIVE LINE - In '08 the Bears only had to replace one starter and had their best rush D since 1995, yielding just 138 ypg (3.6). Last year they did have to replace 2 st'rs but Briles was extremely high on Penn St transfer Phil Taylor saying, "There aren't 5 guys in America like Phil. He's a big guy with fast feet." Taylor did not live up to expectations, starting just 9 (25 tkl, 2.5 tfl) and was frequently rotated due to conditioning. Baylor's numbers regressed to 179 ypg (4.5) with 18 sks. This year they lose DE Jason Lamb (HM Big 12, 12 st, 32 tkl, 3 sk), DT Trey Bryant (12 st, 24 tkl's, 1 sk) and DE Jameon Hardeman (10 tkl). Three return who started 7+ and I look for improved defensive numbers (and more out of Taylor).

LINEBACKERS - The Bears had a veteran LB corps last year with all 3 st'rs ret including 1st Tm B12 MLB Joe Pawelek. The unit was the strength of the D as all 3 started all 12 in '09 and Baylor's 27.3 ppg allowed was their best since 2005. This year they lose 2nd Tm B12 Pawelek (#1 tkl'r, 4 tfl, 4Y st'r) and Antonio Jones (#3 tkl'r, 4 tfl). While those are 2 big losses, they do return seniors Antonio Johnson (2Y st'r, #4 tkl'r), Earl Patin (PS#53, 119 car tkl's) and Chris Francis (PS#109, 87 car tkl). This is a less exp'd group but there won't be as big of a dropoff as you would expect.

DEFENSIVE BACKS - Baylor finished #89 in my PDR in '07 and #82 in '08 having to replace their starting CB's both years. LY they had 6 back with starting exp. A pair of true frosh, Chance Casey (PS#227) and Mike Hicks (PS#317) earned time at CB as Baylor moved all the way up to #37. This year the Bears lose their best DB, 2nd Tm B12 FS Jordan Lake (92 tkl, 2 tfl), SS Jeremy Williams (9 st, 54 tkl) and Jeremy Sanders (7 tkl). Not in the PSL are Tyler Pratt (6'0" 190 Jr) and Anthony Moore (6'2" 205 So, PS#265, ? for '10). This is the most exp'd they've been at CB in 4 years, but with the loss of two top-notch S's, they may drop a few notches. They do add in 3 VHT true frosh and 2 should play immediately.

SPECIAL TEAMS - Thanks to the presence of two-time Ray Guy Award winner, P Daniel Sepulveda, Baylor finished #28 in my ST rankings in '04, #14 in '05 and #32 in '06. Sepulveda was BU's fifth unanimous 1st Tm AA (#4DC). In '07 true frosh Derek Epperson only had a net of 31.0. Two K's combined to hit just 6-14 FG's and BU dropped to #119. Briles' last 4 teams at Houston only had ST rankings of #115, #106, #92 and #90 but I still expected improvement in '08. Briles signed frosh K Ben Parks (PS#22) while Epperson greatly improved his net to 38.8 and Mikail Baker was #6 in the Big 12 in KR's (25.3). Baylor moved up to #42 and last year their top 3 were back. Parks (4-8 FG) lost his spot to Dary Stone (5-6 long 40) but still had 6 TB's on 51 KO's. Epperson improved his punting avg to 44.8 (net 35.9). Baker tore his ACL in Wk 3 and their top KR was Terrance Williams (24.1). Not in the PSL are PK's Kolton Lye (6'0" 175 rFr), Carson Fabian (5'11" 175 rFr) and P/QB Brody Trahan (PS#82). With Stone being the only loss, I look for significant improvement in 2010 (#87 '09).

COACHES - In '08 BU brought in a proven winner in Art Briles who guided Stephenville HS (TX) to 4 state titles (90-2-1 in 6 yr stretch). In his 5 years at Houston the Cougars went to 4 bowls. So far he's been unable to break through at Baylor posting B2B 4-8 seasons. Co-OC's Randy Clements and Philip Montgomery followed him over from Houston. Briles calls the plays himself. The DC is Brian Norwood who spent 7 years at Penn St coaching safeties and worked with Briles at TTech where he was the DB coach in 2000.

PHIL'S FORECAST

Baylor has been the worst team in Big 12 history with a 14-98 league record. Heading into 2005, the Bears were outscored in B12 play by 35.8, 32.5, 27.5, 34.2, 30.7 and 21.3 ppg. Former HC Guy Morriss' first squad ('03) had just 12 ret st'rs, 76 scholarship players and was -232 ypg in B12 play. In '05 they finished 5-6 including their first Big 12 road win (0-37 prior). The Bears opened 3-0 (1st time S/'96) and led A&M 10-7 before losing in OT. They nearly stunned Oklahoma losing in 2 OT's on the road. In '06 Baylor jumped out to 3-1 in the B12 but lost their final 4 (last 3 by 34, 42 and 26). Their 3 Big 12 wins were the most ever but they were a Big 12 worst -134.2 ypg. They finished 4-8 after an ill-timed QB switch. BU only had 11 ret st'rs in '07 and finished 0-8 in the Big 12 (league worst -181.4 ypg). In Art Briles' first year ('08) they had 15 st'rs back. True frosh QB Robert Griffin had them exceeding expectations. They snapped a 13 game B12 losing streak with a 38-10 win over Iowa St. They only lost by 3 to #14 Missouri at home and got their 2nd win vs A&M since 1985 in front of 43,549 by a 41-21 margin in their FHG. Versus TTech they led 28-14 in the 3Q but lost making it their 13th straight losing year. They were -83 ypg in league play (8th best) but benefitted from +16 in TO's. LY they had just 3 B12 HG's as their HG vs TTech was moved to Arlington (TT had crowd edge). Baylor ret'd 15 st'rs and had 76.1% of their tackles ret with 91.2% of their offensive yards ret. They did lose both starting OT's to the NFL but a breakthrough year was expected. They beat WF on the road 24-21 for a promising start. The next game vs Conn they trailed 30-14 and lost at home. QB Griffin was injured early vs NWSt and the Bears' bowl hopes went out the window. BU beat Kent St but lost their first 4 conf games. They trailed Missouri 27-16 at the half but rallied for a 40-32 win. After being blown out by both Texas and Texas A&M, they had a 4th & gl at the TT5 in the 4Q but were SOD and lost by 7. The Bears finished with an identical 4-8 mark but BU went from 2-6 in the Big 12 (-83 ypg) to 1-7 and a league worst -125.3 ypg. This year the Bears get Griffin back at QB but have just 12 ret st'rs. They have just 3 true Big 12 road games and as long as Griffin stays healthy, this team has a shot at its first bowl since 1994.

OKLAHOMA ST COWBOYS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - Unbelievably, since OSU joined the Big 8 in 1960 they have never had an all-conf QB. In 2005 OSU's 3 QB's combined for 49.4% with an 11-17 ratio. Bobby Reid (PS#5) threw for 2,266 (55%, 24-11) in '06. Zac Robinson beat out Reid in '07 and set an OSU season record for total off (3,671). Robinson threw for 2,824 (60%, 23-9, 847 rush). In '08 Robinson threw for 3,064 (65%, 25-10, 562 rush). His backups the last 2 years have been Alex Cate (PS#17) and Brandon Weeden who spent 5 years as a minor league baseball pitcher (#2DC). They had 8 att's in '08. In '09 Robinson broke Mike Gundy's single game % record hitting 23-27 (85%) vs Baylor. He had just 3 int's the first 7 but then had 4 vs Texas. He did pass Gundy as the school's career leading passer vs Iowa St but suffered a concussion late. He missed Colorado and Cate started (0-9 1H). Weeden came in for the 2H and guided the comeback win. Robinson ret'd for the reg season finale but hit just 9-21-44. This year they lose Robinson who threw for 2,084 (59.8%, 15-12, 305 rush) and Cate. Weeden will battle rFr Clint Chelf (PS#97) and a couple of true frosh. Robinson (#7DC NE) had the weakest numbers of his career LY and with the installation of the TTech style offense the pass numbers will increase, but the talent level at this position is down a few notches.

RB Kendall Hunter

RUNNING BACKS - OSU has had some great RB's like Barry Sanders, Thurman Thomas and Terry Miller. In '07 Dantrell Savage (PS#11JC) won the TB job over true frosh Kendall Hunter. Savage had 10 straight 100 yd games finishing with 1,272 (5.7). Hunter had 696 (6.5). In '08 they had to replace Savage but got back Keith Toston (631, 6.0 in '06, ACL '07). Hunter was 1st Tm AA rushing for 1,555 (6.5) with 16 TD's including 161 at #1 Texas. OSU RB's had 25 plays of 20+ yards and Hunter had 19 of them. Unfortunately Hunter suffered an ankle inj and played in just 8 in '09 (382, 4.3). Toston had a career high 206 vs Iowa St and became the 3rd straight Cowboy back to top 1,000 with 1,218 (5.4). Beau Johnson (PS#7JC) was #4 with 304 (3.9). True frosh Jeremy Smith (PS#22) played in just one but had 160 (15 att) vs Grambling before a shoulder inj. This year they lose Toston (11 st) and Johnson. Not listed below are Michael Roberts (5'8" 191 Sr), Bryant Ward (5'11" 223 Sr, 5 st at FB, 3Y) and Kye Staley (5'10" 213 So, PS#14) who tore his ACL LY. Hunter ret'd to his '08 form in spring which means this unit could be even stronger despite losing a 1,000 yd rusher as Hunter is backed by 3 VHT's.

RECEIVERS - In 2006 Adarius Bowman (6'4", PS#16) led with 1,181 (19.7) and 2005's #1 receiver, D'Juan Woods (879, 15.7) was #2 with 647 (15.8). In '07 true frosh Dez Bryant (PS#5) had 622 (14.5) and TE Brandon Pettigrew 540 (15.4). In '08 they only had to replace Bowman and 1st Tm AA Bryant led with 1,480 yds (17.0) while Pettigrew was #2 with 472 (11.2). Last year they lost 4 of their top 5 and then Bryant was susp'd after 3 gm so the unit was very young. Hubert Anyiam (PS#105) was the Big 12 OPW vs Missouri (10 rec) and led with 515 (12.3). Bryant (3 gm) was #2 (323) followed by RB Toston (261), rFr Justin Blackmon (260, 13.0) and soph Josh Cooper (234, 11.7). Tracy Moore was one of the few true frosh to play (183, 16.6). This year they lose Bryant (3 st, #1DC DAL), DeMarcus Conner (11 st, 10 rec), Dameron Fooks (10 rec) and TE's Wilson Youman (12 st) and Cooper Bassett (1 st) who both move to defense. Not listed in the PSL are Anthony Hill (5'11" 193 Sr) and Nick Cash (5'11" 185 rFr). Since Bryant was only around for 3 gm, this unit is just as exp and will catch a lot more passes in the new offense.

OFFENSIVE LINE - In 2008 the Cowboys had 9 of their top 10 back (lost 2nd Tm B12 OG) and the same 5 OL started each week. Naturally, the numbers were impressive as they had 245 ypg rush (5.5) with just 16 sks (4.9%). Last year they had to replace 2 st'rs but ret'd star LT Russell Okung. They actually started a different OL in each of the first 3 and then lost RT Brady Bond for the final 4 (inj). It was still surprising that OSU's rush numbers dropped to 188 ypg and their 4.4 ypc was the lowest since 2005 but they did trim the sack total to 12 (3.6%). This year the losses are heavy. Gone are 1st Tm AA Okung (#1DC SEA, 13 st, 4Y st'r), C Andrew Lewis (13 st, 3Y st'r), LG Noah Franklin (13 st), RT Bond (9 st, 3Y st'r) and RT Andrew Mitchell (5 st). While last year's numbers were below expectations, this unit is much less exp (12 career sts, #117 FBS).

DEFENSIVE LINE - In 2007 the Cowboys had to replace all 4 DL st'rs and allowed 157 ypg rush (4.2) with the D's sacks dropping from 37 to 22. In '08 they had to replace 3 st'rs but added a couple of JUCO's. While they trimmed the ypg rush allowed to 138 (4.3), the sacks dropped to 15. Last year they had to replace 2 DL (comb 14 sts) so they had their most exp unit in 3 years. As expected, they were much stronger, yielding a school record low 96 ypg rush (3.0) with 29 sks. This year they lose DT Derek Burton (13 st, 14 tkl, 2 tfl), DT Swanson Miller (13 st, 24 tkl, 3 sk) and DE Jeremiah Price (6 st, 23 tkl, 2 sk). Adding depth are Cooper Bassett (6'5" 259 So, PS#40TE) and Andrew Hudson (6'5" 225 rFr, PS#225). Last year they had to replace 14 sts and 3 sks and this year they lose 32 sts (5 sk). They did use a 10 man rotation and now return 7 of the top 10 but figure to be down a few notches.

LINEBACKERS - The Cowboys have had an exp'd LB corps the last few years. Last year it appeared all three 13 gm st'rs (#1, #2, #4 tkl'r) ret'd along with the #7 and #9 (tied) tkl'rs and the 2 deep included 4 VHT's. The week prior to the opener they lost '08's #2 tkl'r Orie Lemon (ACL) so 2 st'rs were back. Donald Booker (PS#50JC) did a fine job replacing Lemon (#1 tkl'r, 5 sk). Due to their strong LB corps, OSU trimmed their ppg allowed to 21.7 (best S/'97). This year they lose MLB Booker (13 st, 99 tkl, 8 tfl), Patrick Lavine (13 st, #2 tkl'r, 8.5 tfl) and SLB Andre Sexton (13 st, 71 tkl, 4 tfl, HM B12). Lemon returns and this time the 3 deep consists of 5 VHT's but it is a less exp group.

DEFENSIVE BACKS - The Cowboys finished a poor #98 ('05), #80 ('06) and #92 ('07) in my PDR. They had an exp group in '08 and moved up to #64. Last year they had to replace 3 st'rs (2nd Tm B12 CB) and a bkp (5 st). They did return their star, CB Perrish Cox. FS Victor Johnson (PS#50) missed the last 4 (ACL) and Cox missed 2 (susp bowl). Surprisingly the inexp unit moved up to #8 allowing 56.5% with a 16-18 ratio vs a super slate of opposing QB's. This year they lose 1st Tm B12 Cox (11 st, 36 tkl, 4 int, 15 pbu), SS Lucien Antoine (13 st, 65 tkl, 2 int, 2 pbu), CB Terrance Anderson (13 st, 35 tkl, 3 int, 3 pbu) and Maurice Gray (4 tkl). They add in PS#32JC Malcolm Murray and while they match '09 exp (1 st'r ret), they lose their star (#5DC DEN) and will definitely drop in the PDR.

SPECIAL TEAMS - The Cowboys finished #3, #18 and #11 in ST coor's Joe DeForest's first 3 years and added a #19 finish in '06. After an unusual #70 finish in '07, they were back near the top in '08 (#14). Last year they had to replace P Matt Fodge (39.1 net) and then lost super returnman Dez Bryant (3 gm). RFr Quinn Sharp (PS#11) avg 45.1 but the net did drop to 36.0. His strong leg boomed an NCAA best 35 TB on 70 KO. Dan Bailey, who made 15-19 FG's (long 45) in '08, hit 13-18 (long 51). Perrish Cox was the top KR (20.9) and PR (10.4) and became the school's career leader in KR yards. The drop to #50 was to be expected after Bryant was susp'd. This year they lose Cox but with their P and K back plus a history of developing solid returnmen, I look for a rise in the ST rankings.

COACHES - Mike Gundy was a star QB here and later was the QB coach and OC in the early '90's. He ret'd here in '01 as the asst HC and OC and took over as HC in '05. Gundy, at 38, was the youngest HC in the NCAA in '05 but he had paid his dues with 15 years as a full-time asst. The new OC is Dana Holgorsen who was at Houston the L2Y and OC at TTech from '05-'07 (co-OC S/'00). Last year Gundy made a great hire bringing back DC Bill Young who is in his 3rd stint at OSU (last here in '78). He was the DC at Miami, Fl in '08, Kansas from '02-'07 and also the DC at Ohio St, Okla and USC and they improved from 406 ypg to 333 allowed.

PHIL'S FORECAST

In 2005, despite a weak non-conf schedule, I mentioned the possibility of a losing season for OSU. The Cowboys dropped from 7-5 to 4-7 including their first shutout loss in 14 years. In 2006 they had 9 starters back on off. They finished 7-6 with 4 close losses decided on the final play. In '07 the Cowboys had 8 off st'rs back (top QB, RB, WR) from the 4th most productive offense in school history so expectations were raised. They did have 5 road games vs '06 bowl teams. When they beat Indiana in the bowl they matched 2006's record at 7-6. It marked the first time they recorded B2B bowl wins since 1987 when the original "triplets" QB Mike Gundy, RB Thurman Thomas and WR Hart Lee Dykes played together. In 2008 the Cowboys had to replace 45% of their lettermen (13 ret st'rs) and had a tough schedule. They upset #3 Missouri on the road and at 7-0 were ranked #7 when they travelled to #1 Texas where they only lost by 4. The Cowboys played the #1, #2, #3 and #3 AP teams in the reg season but still went 9-3. In their bowl they led 17-7 at the half but lost 42-31 to Oregon with QB Zac Robinson, RB Kendall Hunter and WR Dez Bryant all banged up. Their 9-4 finish was their best since 2003. Despite facing four Top 3 teams the Cowboys were +25.6 in Big 12 play (6th best). Last year they ret'd another version of the triplets in Robinson, Hunter (1st Tm AA) and Bryant (1st Tm AA) and were ranked #9 in the preseason. When they knocked off Georgia, the Cowboys entered the Top 5 for the first time since 1985 and also made the cover of *SI* that week. In a letdown spot they were upset by Houston at home. Bryant was susp'd after just 3 starts and Hunter was injured (just 3 sts). They still moved to 6-1 and played Texas closer than the 41-14 margin (277-275 yd edge). They won their next 2 and then beat Colo without QB Robinson in a game they trailed 21-10 in the 3Q. With a Fiesta Bowl bid on the line vs rival Oklahoma the Cowboys were outgained 367-109 getting shutout 27-0. The Cowboys then lost to Ole Miss in the bowl to drop to 9-4 and finished unranked. They had 40 sts lost to injury (#6 FBS). On the negative side they do have just 8 ret st'rs and despite their 6-2 Big 12 record they were only +35.4 ypg (5th best). OSU had 2 net close wins plus an offensive ypp of 12.9 (see pg 299). They now move to Texas Tech's spread offense which is a big change especially with a new QB. They have just 58% lettermen ret (24 lost) and play in the brutal B12 South. I will actually call for their 1st losing season since 2005.

NEBRASKA CORNHUSKERS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - Joe Ganz started the last 3 of '07 throwing for 1,435 (59%, 16-7) including a school record 510 vs K-St with 7 TD's. HC Bo Pelini retained OC Shawn Watson in '08 making Ganz a good fit for the offense and he set a new school record throwing for 3,568 (68%, 25-11). Zac Lee (PS#13JC, 2 gm, 2 pass) was the only QB with exp in '09. He battled a couple of Pelini recruits in rFr Kody Spano (6'2" 210 So, PS#38) and true frosh Cody Green (PS#21). After Spano tore an ACL, they moved in LB Latravis Washington (6'3" 230 Sr, PS#48) to compete. Also on hand was true frosh Taylor Martinez (6'1" 195 rFr, PS#99, fastest QB). Lee hit 76% in 3 gms vs Sun Belt teams but in his first 2 road starts (VT's tough D, rain vs Missouri), he hit just 39.7%. Green saw his first significant action vs TT and started vs Baylor (1st true QB to start here since '92, Tommy Frazier), leading scoring drives on his first 3 poss. NU did not score after that and in his 2nd start vs Okla, Green had zero FD's (19 yds) in 5 poss and Lee reclaimed the job (Green 3 pass last 5). Lee threw for 2,143 (58.6%, 14-10) and Green for 317 (53.2%, 2-2). Lee was banged up all of '09 and missed spring after elbow surgery. Green and Martinez took all of the #1 snaps and it looks to be a 3-man race in August. I look for improved passing numbers from the Husker QB's.

RUNNING BACKS - In '07 Marlon Lucky (PS#3) led with 1,019 (4.9) and true frosh Roy Helu (PS#98) rushed for 209 (4.6). In '08 Lucky started 11 but was just #2 with 517 (4.1). Quentin Castille (235 lb) had 467 (4.4). Helu was bothered by a shoulder injury but still led with 803 (6.4). Last year they had to replace Lucky then Castille was dismissed in August. The top backup became true frosh Rex Burkhead (PS#39). Helu had a fine year rushing for 1,147 (5.2) despite another shoulder injury (24 yds, 2 fmbl vs Iowa St). He was not 100% after and had just 3 carries in the bowl. Burkhead missed 5 (inj) but rushed for 346 (4.3) incl 89 (5.2) running the Wildcat in the bowl. True frosh Dontrayevous Robinson (PS#82) added 165 (4.2) and rFr Lester Ward (6'3" 225, PS#86) had 38 (3.8). This year the unit returns intact and not listed below are Collins Okafor (6'1" 225 So, PS#38) and FB's CJ Zimmerer (6'0" 230 rFr, PS#101) and Mike Hays (6'1" 235 Jr). This group is deeper and will have improved rushing numbers.

RECEIVERS - In '08 Nate Swift and Todd Peterson combined for 1,727 (13.8) but both had to be replaced in '09. The leading returnee was Mike McNeill who set the Husker school record for rec by a TE (32, 13.8) in '08. The top returning WR was Menelik Holt (355,11.8). Heading into '09 their WR coach said he wanted to have 6 or 7 WR's in the rotation but the only one assured of a spot was Niles Paul (PS#7). Despite some inconsistent play, Paul was far and away #1 with 796 (19.9) while McNeill had just 259 (9.3). Curenski Gilleylen had 302 (17.8). Not in the PSL are Nick Failla (5'10" 185 rFr, PS#231), Ty Kildow (5'7" 175 rFr, PS#156), Steven Osborne (6'4" 205 So, PS#170) and TE's Ryan Hill (6'3" 255 Jr, PS#56) and JT Kerr (6'4" 240 rFr, PS#59). This year they lose Holt (5 st, 15 rec) and Chris Brooks (179, 12.8). This is a much improved rec corps with good size (proj WR st'rs avg 6'3" 225) as TE McNeill moves to WR.

OFFENSIVE LINE - For years NU was famous for its "Pipeline" O-line but OL coach Milt Tenopir moved on after the 2002 season and the Huskers haven't had a 1st Tm B12 OL S/'01. In '08 they had to replace two st'rs but opened holes for 170 ypg rush (4.5). Last year they had to replace 2 NFL DC's but did have 5 back with 7+ career sts and Pelini noted that Ricky Henry (PS#67DL) was one of the most physical players on the team. VTech Coach Beamer said "We haven't played an OL this good in a while. Up front they are exceptional." Surprisingly the numbers dropped to 147 ypg (4.0) with 19 sks (5.2%). This year they lose C Jacob Hickman (14 st, 3Y st'r, HM B12) and backups Derek Meyer (3 sts) and Andy Christensen (9 car st). Adding depth are Cole Pensick (6'2" 270 rFr, PS#132) and Brian Thorson (6'3" 285 So, PS#197). This will be the best O-line that OL Coach Barney Cotton has fielded here (75 career sts).

DEFENSIVE LINE - In '07 NU had to replace 4 st'rs (#1 & #4 DC's). A drop off was expected but it's almost unheard of that a team allows 99% more ypg rush. The Huskers yielded 232 (5.2) which is their worst total in modern history (just 13 sks). In Pelini's 1st season in '08 almost everyone was back and PS#7 NT Ndamukong Suh was NU's first 1st Tm All Big 12 DL since 1999 (#1 tkl'r). The Huskers cut their ypg rush allowed in half to 116 ypg (3.6) with 35 sks. Last year they had to replace 2 st'rs and 2 bkps but Suh turned down the NFL and DE Barry Turner (11 st '07, 2 st '08 inj) ret'd. The DT combo of Suh/Jared Crick was the best in the country (comb 158 tkl, 21.5 sks). The Huskers' D-line had not had an AA S/'97! Suh remedied that situation by nearly winning the Heisman Trophy but instead had to "settle" for almost every major def award in the country. As you would expect, NU's rush D improved to 93 ypg (2.8) with 44 sks. This year they lose Suh (14 st, Outland, Lombardi, Nagurski, Bednarik winner, #1DC DET, #1 tkl'r), Turner (14 st, 51 tkl, 16 tfl) and DE David Harvey (1 st, 1 tkl). They plug in Baker Steinkuhler (PS#1OL) into Suh's spot. While this unit returns 2 st'rs just like LY, it will be tough to replace the #2 pick in the draft (1st Husker in Top 10 S/'98) but it will still be a top-notch unit.

LINEBACKERS - NU was very inexp'd in '08 even opening with 5 DB's in the majority of their games. Last year they had to replace 2 LB's (comb 15 sts, 87 tkls, #5DC). They then lost starting LB Blake Lawrence to injury and the starting trio included 2 rFr and Phillip Dillard (PS#16, 5 sts, 38 tkl '08). Having a D-line like they did helped and the Huskers allowed an NCAA best 10.4 ppg (fewest S/'84). This year they lose 2nd Tm B12 Dillard (9 st, #2 tkl'r, 11 tfl, #4DC NYG) and Lawrence (2 st, 10 tkl). Sean Fisher and Will Compton were only #11 and #12 in tackles (comb 14 sts) but should be improved as soph and they add in PS#6JC Lavonte David. The 3rd LB spot is now officially called Peso and is a S/LB hybrid which was used all but 50 plays LY. Not in the PSL are Graham Stoddard (6'2" 235 So), Jay Martin (6'2" 230 Jr), Thomas Grove (6'2" 225 Sr) and Alonzo Whaley (6'1" 225 So, PS#159). The staff is really impressed with Eric Hagg's play and I expect more big plays out of this unit.

DEFENSIVE BACKS - In '07 the Huskers had 3 st'rs back and were #58 in my PDR. In '08 they had to replace a pair of 3 yr st'rs and 4 bkps (comb 6 st, 101 tkl) yet NU moved up to #39. Last year they had to replace one starter (ret 7 w/ 55 sts '08). Thanks in part to a dominating D-line, the Huskers climbed all the way to #1 allowing just 47.8% (7-20 ratio). This year they lose 1st Tm B12 SS Larry Asante (#3 tkl'r, 2 int, 7 pbu, #5DC CLE) and FS Matt O'Hanlon (14 st, 69 tkl, 6 int, 5 pbu). They do return 1st Tm All-Big 12 CB Prince Amukamara (5 int, 11 pbu) who headlines my #2 secondary (pg 15). Not listed below are Dijon Washington (6'0" 185 rFr, PS#96), Marcus Mendoza (5'10" 195 Jr, PS#41) and Courtney Osborne (6'3" 200 So, PS#297).

SPECIAL TEAMS - In the last 15 yrs, the Huskers have ranked in the top 10 of my ST rankings 5 times. In '08 they had their K and P back including fan favorite KO man Adi Kunalic (PS#23). Kunalic elicits chants from the crowd when he records a TB and is #1 over the past 3 years in the NCAA with 86 TB's. K Alex Henery hit 18 of 21 (NU record long 57, 2 miss 50+) in '08 as NU finished #41 in Pelini's first season. Last year they had to replace their P (32.1 net) and top PR. Henery also took over at P (net 34.7) while hitting a school record 24-28 FG's (long 52, 3 miss 50+). Niles Paul was the top KR (27.9) and PR (10.7). NU finished #16 and with everyone back, could contend for the top spot as long as Kunalic does not RS.

COACHES - Bo Pelini was the interim HC for NU's 2003 bowl win over Mich St (17-3). He was the DC here in '03 and the DC at LSU from 2005-'07. He ret'd as HC in '08. Last year Nebraska added a year to his contract (thru 2015) raising his annual base pay to $2.1 mill. Defense was NU's problem in '07 as it allowed a school record 477 ypg which topped 1948's 380 ypg. Carl Pelini (Bo's brother) served 3 years under ex-NU HC Frank Solich at Ohio and became the DC here in '08. Shawn Watson is in his 5th year at OC as a holdover from the previous regime.

PHIL'S FORECAST

Nebraska was 11-0 and headed for the Big 12 Title game in 2001 when they were upset at Colo 62-36. From that point through the end of '04, the team had 9 losses by 22+ points. Frank Solich's last team earned an amazing 35th straight bowl bid in '03 but he was let go despite a record of 58-19! After interviewing DC Pelini among others, NU chose ex-OAK Raiders HC Bill Callahan. In 2004 they were making a dramatic switch going from the option to the West Coast offense. That year I called for Iowa St (2-10 in '03) to top NU in the Big 12 North. NU's loss to Colo in the finale gave them their first losing season since 1961. Callahan's teams improved to 8-4 in '05 and 9-5 in '06 with an appearance in the Big 12 Title game. I was one of the few NOT to pick NU to win the Big 12 North in '07. Callahan had been given an extension by then-AD Steve Pederson. Pederson was fired midyear and Callahan was let go after a 5-7 season. The '07 Huskers D set school records for most pts (455) and yds (5,722) allowed. In '08 Nebraska made my Most Improved List despite having just 10 ret st'rs and a schedule which included 5 opponents who were in Jan bowls in '07. The Huskers did not disappoint me winning 6 of their last 7. NU did need a 57 yd FG to take the lead with 1:43 left vs Colo giving them a tie for the Big 12 North Title. Pelini was able to RS all but 3 frosh. They knocked off Clemson in the Gator Bowl. They were -11 in TO's in '08 and had 34 sts lost to inj. NU was +112 ypg (best North). Last year they had to replace 12 fifth year seniors (23 lett). I was in the minority calling for NU to win the Big 12 North in '09 (most had KU) and once again the Huskers did not disappoint me. They did suffer B2B home losses by 21 to TT and 9-7 to Iowa St a game in which they were an amazing -8 in TO's fumbling it into the EZ 2 times for a TB (362-239 NU yd edge). They also could have beaten VTech in Wk 3 (343-278 yd edge) but allowed a TD pass with :21 left. They got some of that back vs Okla when they were +4 in TO's and won (outgained 325-180). After knocking off Kansas they beat K-St for the Big 12 North Title 17-3. The next week, in a letdown spot vs Colo, they were outgained 403-217 but won. While NU had just 106 yards in the Big 12 Title game vs Texas, the Horns needed a 46 yd FG which barely snuck thru the uprights after the officials controversially put :01 back on the clock. The Huskers easily handled Ariz in the bowl 33-0. An interesting stat is that since Nov 2001, 63 out of 65 BCS teams have beaten a top 19 tm and the only 2 that have not are Duke and Neb. This year NU has 15 ret st'rs and had 2 net close losses but benefitted from great ypp's (Off 12.8, Def 26.1). Despite a 6-2 reg ssn B12 record, NU was actually -12.3 ypg. Despite those factors they are the most talented team in the Big 12 North and 6 of my 9 sets of power ratings call for a 12-0 regular season.

MISSOURI TIGERS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - Brad Smith arrived in Pinkel's first recruiting class and wound up setting 69 Big 12, school and NCAA records in his career. He left (#4DC) as the career leader for yards passing, rushing and total offense. In '05 true frosh Chase Daniel (PS#7) was Smith's backup. Four years later he smashed Smith's career passing record and in '08 threw for 4,335 (73%, 39-18, 281 rush). Blaine Gabbert (PS#10) who is 6'5" 240, played in 5 as Daniels' backup as a true frosh (13 att) and was groomed to take over the Tiger offense in '09. In his starting debut Gabbert was the Big 12 OPW vs Ill hitting 25-33-319. After 4 gms, Gabbert had thrown for 1,161 (66%) with an 11-0 ratio before he suffered an ankle inj in the 1Q vs Neb. He played through it at less than 100% throwing 7 int in the next 4 gms (184 ypg) before rebounding in the last 4 (352, 64%, 8-0). He struggled in the bowl (291, 48%, 1-2) vs Navy. For the season Gabbert threw for 3,593 (58.9%, 24-9), att 83 fewer passes than Daniel did in '08. Backup Jimmy Costello got in 3 games (17 pass). Two VHT newcomers, James Franklin (PS#19) and Blaine's brother Tyler (PS#25) enrolled in the spring with Franklin possibly earning the backup job. Gabbert has more experience and should be one of the Big 12's best QB's.

RUNNING BACKS - Tony Temple (PS#4) led in rushing for 3 straight years with B2B 1,000 yard seasons in 2006 and '07. In '08 Derrick Washington (PS#26, 185 '07) was my projected starter. He bulked up (202 to 220) and became the 3rd straight 1,000 yard rusher with 1,036 (5.9). Washington was back last year but with fewer weapons, defenses were able to key on him more. While he had more attempts (190) he finished with just 865 (4.6). His TD's dropped from 17 to 10. Washington had a concussion in the 2Q vs Iowa St and De'Vion Moore (PS#295) had 1 st (258, 4.1). True frosh Kendial Lawrence (5'9" 185, PS#57) had 219 (4.2). This year the unit returns nearly intact. I look for improved production from the Tiger RB's behind a veteran O-line and Washington should once again top 1,000.

RECEIVERS - In the 2007 opener Danario Alexander started ahead of Jeremy Maclin but then broke his wrist and later that season tore his ACL. Maclin had a phenomenal 2 seasons and led in '08 with 1,260 (12.4) while TE Chase Coffman (12 st, #3CIN) won the Mackey Award and Tommy Saunders finished #3 with 833 (11.6). Alexander was far from 100% and had just 329 (12.7). Jared Perry was #4 with 567 (13.8). Last year they had to replace Maclin (#1DC PHI), Coffman and Saunders so naturally the group looked weaker. Alexander responded with the best season of any WR in the country. Alexander (6'5") regained most of his speed (#1 NCAA, 1781, 15.8) and was the difference maker in most of Missouri's wins down the stretch. Perry (#8 car rec here) added 696 (15.1). Soph's Jerrell Jackson and Wes Kemp (PS#31) were the #3 and #4 WR's. There was a big difference at TE as Andrew Jones (PS#7) only had 8 rec. This year they lose their star in Alexander (13 st) as well as Perry (11 st). Not listed in the 3 deep are Terry Dennis (6'3" 200 Jr), Forrest Shock (6'2" 210 Sr) and TE Alex Sanders (6'5" 225 rFr, PS#41) and Chris Willett (6'2" 225 So). While this unit is actually more exp, I do not see a player ready to duplicate the type of season Alexander had.

OFFENSIVE LINE - In 2008 the Tigers had to replace Big 12 OL POY C Adam Spieker and a 2nd Tm B12 LT. Despite having to replace 2 critical positions (C and LT), the ypc rush improved to 5.2 and the sacks dropped to 16 (2.8%). Last year they only had to replace 2 st'rs so it was perhaps the most veteran unit on the offense. The numbers still dropped to 127 ypg (3.7) with 20 sks (4.3%). This year they lose 2nd Tm B12 RG Kurtis Gregory (13 st, 3Y st'r) and bkps JT Beasley (12 gm), Mike Prince (4 gm) and Ryan Schleusner (2 gm). Seven of the top 10 return (including 4 VHT's) and the unit has 80 career starts (#45 FBS) and should produce better numbers.

C Tim Barnes

DEFENSIVE LINE - In 2008 the Tigers had 3 st'rs back, but the 4 bkp were rFr. Missouri improved to allowing just 3.4 ypc (Pinkel era best). Last year they had to replace 3 st'rs (#1, #6 DC). I expected a big drop off but surprisingly they yielded just 119 ypg with a new Pinkel best 3.3 ypc (30 sk). Those numbers were just 2.9 ypc and 96.4 ypg prior to the bowl vs Navy. This year they lose 2nd Tm B12 NT Jaron Baston (13 st, 25 tkl, 1.5 sk) and DE Brian Coutler (9 st, 44 tkl, 2 sk). Six of the top eight are back including team sack leader Aldon Smith (11.5) and they have good size inside. This unit is much more exp'd.

LINEBACKERS - MU has not had a 1st Tm AA LB in 119 years of football but nearly got one when MLB Sean Weatherspoon earned my 2nd Tm AA honors in '08 as he led the NCAA in tackles (155) and added 18.5 tfl. Last year they had to replace their #2 tackler but had 2 st'rs back including their star. Luke Lambert (9 st '08) was lost after 6 sts and was replaced by Will Ebner (78 tkl, 9.5 tfl). Weatherspoon departs (13 st, #1 tkl'r, 14.5 tfl, #1DC ATL) after being the 1st MO player to be 1st Tm B12 three straight yrs. They have 3 back who have 6+ starts including their #2 and #3 tkl plus Lambert returns. Not listed in the PSL are Jeff Gettys (6'3" 235 Sr), Andrew Wilson (6'3" 230 rFr, PS#72) and Adam Burton (6'2" 235 rFr, PS#110). They also add in PS#11JC Josh Tatum who RS LY. Even with the loss of Weatherspoon, they could be just as strong as the unit overall is more experienced.

DEFENSIVE BACKS - Missouri had been making steady climbs in my PDR moving from #63 in '05 to #46 and #37. In '08 they had 3 st'rs back including star FS William Moore but surprisingly plummeted to #90. Last year they had to replace 3 st'rs (#2DC) and a backup (2 st, 49 tkl). They added in PS#26JC Jarrell Harrison at SS and the other 3 st'rs all earned HM B12. Despite the accolades the inexp'd unit finished #100. This year they only lose SS Hardy Ricks (1 st, 8 tkl) but do add in PS#62JC Kenronte Walker and a solid true frosh class. I also expect more production from ND trans Munir Prince (PS#21). This should be one of the most improved pass D's in the country.

SPECIAL TEAMS - Going into '07 Missouri had the longest streak in the NCAA without a KR TD (1982), but exciting rFr Jeremy Maclin got one and also became the first Tiger in 32 yrs to have 2 PR TD's in a season. Pinkel's highest finish in my rankings was #17 in 2002 but prior to '08 they had finished just #65, #104, #59, #79 and #73. In '08 they moved up to #39 as JUCO Jake Harry took over at P (net 37.7) and Jeff Wolfert hit 20-27 FG's (long 51). Last year they had to replace Wolfert and Maclin (top KR/PR) so a drop was expected. The Tigers surprisingly managed a #33 finish. With a less effective offense, Harry was called in more often (team 34 punts '08, 63 '09) and he had an outstanding net of 40.5 (#4 FBS). Tanner Mills had 8 TB on 64 KO's and Grant Ressel hit an NCAA % record 26-27 FG's (7-8 from 40-49) and his lone miss came in a downpour vs Neb. This year they lose Harry and Mills. They are actually a little more exp but I wonder if Ressel can possibly match his record '09 numbers and the unit should drop a notch or two.

COACHES - Gary Pinkel came to Mizzou from Toledo where he was highly successful (73-37-3 in 10 yrs) and is now 67-46 in his 9 years here. David Yost is in his 2nd yr as OC after serving as the QB coach the previous 8 years. DC Dave Steckel (LB cch 8Y) is also in his 2nd year as DC after serving as the LB coach the previous 8 years.

PHIL'S FORECAST

Gary Pinkel had two losing seasons in his first two years here but has guided the team to bowls in 6 of the last 7. In 2004 they were the preseason favorite to win the Big 12 North and had their highest preseason ranking (#18) since 1980. They had dreams of their first league crown since 1969. They stunningly blew big leads vs Troy, Okla St and K-St and finished just 5-6. In 2005 Brad Smith led them to an Indep Bowl win (7-5). Chase Daniel took over as the starting QB in '06 and set numerous school records. They beat K-St for the first time since 1992 and their 7-1 start was the best since 1973 but a tough ending schedule had them finish just 8-5. In '07 I was one of the few to pick Missouri to win the Big 12 North. Missouri had not compiled a better league record than 4-4 nor had they entered the final week with a chance to win the North since 1998. The Tigers rolled to a 12-2 record with their only reg season loss to Okla. They rose to #1 after beating #2 Kansas to win the Big 12 North but then lost to the Sooners for a 2nd time in the B12 Title game. Missouri was not invited to a BCS bowl and steamrolled Ark 38-7 in the Cotton Bowl. That Missouri squad was +13 in TO's and only had 8 sts lost to injury. They were +135 ypg (best B12). In '08 Missouri was the preseason favorite to win the North and looked like a National Title contender. They romped over their first 5 foes incl a 52-17 win at Nebraska (worst home loss in 53 yr). Missouri moved to #3 but was upset by #17 Okla St at home then were buried by Texas (trailed 35-0). They clinched the North by winning their next 4. With the Big 12 Title game on deck, they lost 40-37 to Kansas then were humbled by the Sooners 62-21. They were outgained by NW 376-311 in the bowl but managed to win in OT. Their +60.9 ypg in conf play was 5th best and they were #19 in the final '08 poll. Last year Mizzou suffered massive losses like QB Daniel, WR Maclin and 7 All-Big 12 defenders (56% tkl's ret, #95 NCAA). It sure looked like a rebuilding year as only 25.2% of their off yards (#114) returned. They had 27 underclassmen on the 2 deep and 2 new coor's. After dominating a veteran Illinois team, they struggled against BG (trailed 20-6 mid3Q) but won. After dominating Furman, they went on the road to beat Nevada 31-21. A key play happened when Blaine Gabbert inj'd his ankle in the 1Q vs Nebraska. MO blew a 12-0 4Q lead losing 27-12. With Gabbert less than 100%, they lost to Okla St by 16 and Texas by 34. They dominated Colo on the road but stunningly blew a 27-16 halftime lead vs Baylor. Missouri never trailed K-St in the 38-12 win. Mizzou trailed ISU at the half and were booed heading into the lockerroom. They rallied for a 34-24 win and trailed Kansas but got a game winning 27 yd FG with :00 left. In the bowl they could not stop Navy's option and also blew some scoring opportunities and were whipped 35-13. This year Missouri is a much more veteran unit with 16 ret st'rs and despite a 4-4 record last year they were +38.1 ypg in Big 12 play (4th best). This year's Tigers squad is much more exp'd and stronger than the '09 version but they do have a killer B12 schedule and only have 3 B12 HG's with one of them coming vs Oklahoma (1-19 last 20).

COLORADO BUFFALOES

POSITION OUTLOOK FOR 2010

QUARTERBACKS - Cody Hawkins (PS#38) followed his father from Boise to Boulder. In 2007 he became the first IA starting QB to be the HC's son since Rodney Bryant played for Ohio under Cleve Bryant in 1989-'90. He threw for 3,015 (57%, 22-17, 9-3 ratio in final 5). In the first 3 of '08 he hit 70% with a 6-3 ratio (218 ypg). Over the final 9, he threw for just 138 ypg (51%, 11-7) playing with a banged up offense. HC Dan Hawkins pulled the RS off of mobile Tyler Hansen vs K-St. Hansen's running ability took K-St by surprise and he led CU to 2 TD's on his first 3 poss, the only 2 TD's CU scored. Hansen started 2 but threw for just 280 (52%, 1-4 ratio, 261 rush). Last year Hansen had thumb surgery (not 100% Aug). They had planned to RS him but Hawkins struggled throwing for 1,277 (50.6%, 10-11). In Wk 5 vs Texas, Hansen burned his RS again and they named him the starter for the rest of the year. Hawkins did relieve him a couple of times but Hansen threw for 1,440 (55.8%, 8-7, 339 gross rush). Hawkins is CU's career leader in TD passes (49) and int (38). Both return and Hansen led the QB competition out of the spring. Adding depth are WR/QB Seth Lobato (6'5" 210 rFr), Matt Johnson (6'4" 200 So) and true frosh Nick Hirschman (PS#38, IFS). CU should have much improved passing numbers.

RUNNING BACKS - When he was hired, Hawkins vowed to keep the run game as much of important part of the offense as it was under his smash-mouth predecessor Gary Barnett. In '06 the Buffs avg 173 ypg (4.5) and in '07 Hugh Charles led with 1,058 (5.3) and rFr Demetrius Sumler (PS#60) had 335 (3.4). In '08 they signed PS#1 RB Darrell Scott. Surprisingly it was another true frosh RB who had a bigger impact. Rodney Stewart rushed for 622 (4.7) in just 5 sts but was lost for the year. Scott was banged up and rushed for 343 (3.9) and Sumler had 251 (4.0). Last year all 3 ret'd but Scott was banged up and opted to transfer after Wk 8 (95, 4.1). He was the 2nd PS#1 RB to transfer out of Boulder this decade. Stewart (also banged up) had 804 (4.1) while Sumler was #2 with 128 (3.6). CU avg a paltry 88 ypg (2.8), its worst numbers since 1984. This year they lose Scott, Sumler and FB Jake Behrens (PS#69, 2 st, 0 rush yds). Not listed in the PSL are Corey Nabors (5'9" 190 Sr, PS#156, 1 st LY) and spring star Quentin Hildreth (5'8" 185 rFr). This year they should have increased production despite the loss of Scott.

RECEIVERS - Scotty McKnight was a childhood friend of Cody Hawkins and as a rFr in '07 became the second frosh in CU history to lead in rec with 555 (11.8) while true frosh Josh Smith had 491 (19.6). In '08 those 2 ret'd and big things were expected from rFr Markques Simas (PS#20) but he was ineligible. McKnight led again but with just 519 (11.3). Surprisingly Smith dropped to 387 (13.3). Last year they had to replace Smith (trans) and their #3 and #4 rec's. McKnight was Hawkins' frequent target early on. Simas finally became eligible in Wk 3 but didn't have a rec until WV, a game in which he had a TD grab on the last play. He got hot down the stretch and became the first CU rec to have B2B 100 yd gms since 1999 (Javon Green). McKnight finished #1 with 893 (11.8) but Simas had 585 (13.6). This year they lose TE's Riar Geer (11 st, 402, 11.2) and Patrick Devenny (154, 11.8). Not listed in the PSL are Kendrick Celestine (5'11" 180 Jr, PS#116), Cameron Ham (6'1" 205 Sr), Jarrod Darden (6'4" 210 rFr, PS#77), Ryan Maxwell (5'8" 180 Jr, PS#193), Kyle Cefalo (5'10" 165 Jr) and TE Luke Walters (6'3" 240 Sr, PS#186, granted 6th yr). McKnight and Simas form a potent duo and with the addition of Michigan transfer Toney Clemons (PS#16), they should have their best numbers in at least 3 years.

OFFENSIVE LINE - In Hawkins' 2nd season ('07) it was the first time since 1991 that the Buffs had 2 true frosh st'rs (Kai Maiava and Ryan Miller) on the O-line. The unit dropped to 144 ypg rush (3.9) but trimmed the sacks allowed to 17 (3.6%). Surprisingly Maiava transferred in '08 and then Miller was lost after 4 starts and RS. They only had one ret starter who made it to October and as you would expect, the numbers dropped to 125 ypg (3.4) with 30 sks (7.4%). Last year they had 4 st'rs return. Returning starter Blake Behrens (12 st '08) lost his LG spot to Ethan Adkins but after the team allowed 8 sks each in B2B weeks vs MO and A&M, he reclaimed his spot. Also finding the bench was rFr Bryce Givens (PS#17). The only OL to start every game at the same position was 1st Tm B12 LT Nate Solder. The rush numbers plummeted to 88 ypg (2.8) and 44 sks (9.3%). This year the entire 2 deep returns including 9 with starting exp. Adding depth are David Clark (6'4" 310 Jr), Scott Fernandez (6'3" 260 rFr) and Gus Handler (6'2" 290 rFr, PS#216). This unit should be a strength in 2010.

RG Ryan Miller

DEFENSIVE LINE - In 2008 the Buffs, which had not allowed over 4.2 ypc rush since '02, had 7 of their top 8 back. CU surprisingly yielded 166 ypg rush and the 4.4 ypc was their highest since '02. Last year they had to replace 3 st'rs and a bkp. Projected starting DE Nick Kasa (PS#6) played in just 4 (2 tkl, inj). Marquez Herrod was the team's top pass rusher (6 sk). Surprisingly, despite the inexp'd D-line, the Buffs improved to 161 ypg (4.1) while the sacks rose to 27. This year the unit returns intact and despite listing themselves as a 4-3, they only started 4 DL's once all last year. Not listed below is Sean Gomerdinger (6'2" 240 So). Naturally this group is vastly more exp'd and should improve.

LINEBACKERS - Despite allowing 29.5 ppg in 2007 Colorado's D actually had the B12 DPOY in Jordon Dizon. In the last 2 years they have had 5 of their top 6 back and while they lost their #5 tackler LY, they ret'd #1 Jeff Smart and #2 Shaun Mohler. Surprisingly rFr Jon Major (PS#2) did not take over the open LB spot as he was coming off an ACL in '08 (13 tkl, 110 pl). They mixed and matched as 7 LB started. This year they lose HM B12 Smart (11 st, #2 tkl'r, 5.5 tfl), Marcus Burton (7 st, #7 tkl'r, 9 tfl), Mohler (2 st, #8 tkl'r, 2 tfl) and Bryan Stengel (1 st, 9 tkl). Despite having 5 with starting exp (Patrick Mahnke moves in from S), the top returnees are Michael Sipili (#11) and BJ Beatty (#14). They do add in some rFr and a JUCO. Adding depth are Guy Sergent (6'1" 220 So), Geoff Sissom (6'1" 220 rFr), Evan Harrington (6'0" 225 Jr) and Derrick Webb (6'0" 220 rFr, PS#83). Despite being less exp'd, this unit should be more stable in 2010.

DEFENSIVE BACKS - CU finished #29 in my PDR in '07 and in '08 only had to replace 1 st'r (#2DC) but surprisingly slipped to #63. Last year they had to replace 2 st'rs but ret'd 5 who started in '08 and got the return of Benjamin Burney (13 st '07, RS '08). Despite the presence of good-sized HM B12 CB Jimmy Smith (6'2"), they only moved up to #53. This year they lose CB Cha'pelle Brown (12 st, #1 tkl'r, 2nd Tm B12) and SS Burney (11 st, #4 tkl'r, 2 int, 4 pbu). They return 3 who had 9+ sts (2 CB comb for 4 int, 25 pbu). Not in the PSL are Josh Moten (6'0" 190 Fr, GS, PS#123) and Cody McAninch (6'0" 200 rFr). They should move up in my PDR.

SPECIAL TEAMS - In Hawkins' first year here ('06) CU did not block a punt (6 in '04 & '05) and despite the presence of outstanding K Mason Crosby shockingly dropped to #74. In '07 they had to replace Crosby but surprisingly climbed to #25. In '08 they had to replace their K, KR and PR and dropped to #105. Last year they got the unexpected loss of KR/PR Josh Smith in May. Aric Goodman took over the KO duties (15 TB). While Goodman hit a 54 yard FG, he finished 10-18 (2 miss 50+) and is just 2-12 from 40-49 the last 2 years. P Matt DiLallo (40.5, 38.6 net in '08) dropped to 38.6 (31.9 net). PR Jason Espinoza played part of the year with a broken thumb (3.1). Darrell Scott was the top KR (26.9) but after he quit Brian Lockridge filled in (23.3). Overall they finished #101. This year they lose DiLallo and Scott but they really can only improve.

COACHES - Dan Hawkins enters his fifth year at CU but barely survived year 4. Previously he was the HC at Boise St from '01-'05. He guided BSU to its first Top 10 finish in the polls and was ranked for three straight years earning WAC COY twice and four straight WAC Titles. He was also the HC at Willamette from 1993-'97 (22-3 final 2Y). OC Eric Kiesau took over in June LY when Mark Helfrich left for Oregon. Kiesau served as the WR cch and passing game coor in Hawkins' first 3 years. The DC is Ron Collins (5th yr) who was Boise's DC for four years. Hawkins has one more shot to make it work in Boulder.

PHIL'S FORECAST

After a stunning 3-8 season in 2000 (4 losses by 4 pts or less), I called Colorado a surprise National Title contender in my 2001 magazine. They finished the reg season 10-2 and #3 narrowly missing out on playing in the National Title game. They won the Big 12 North again in '02 & '04. In '05 they were my pick to win the North and did so again. Coming into the year, Barnett said it didn't appear that they had any weaknesses. They were 7-2 with their only losses coming to #12 Miami and #2 Tex but then gave up two 66 yd TD ret's (int & fmbl) vs Iowa St and lost. Embarrassing blowouts followed to both Neb and Texas (Big 12 Title gm). Barnett was let go before the bowl and DC Mike Hankwitz was interim HC for the 19-10 loss to Clemson. In Hawkins' first year ('06) they had just 11 ret starters and did not catch many breaks. They stunning lost to their first game ever to a IAA foe (Mont St) and went just 2-10. In '07 they had 14 st'rs back and managed to land a bowl bid at 6-6 (lost to Bama). Despite their 4-4 record, they were -55.4 ypg in B12 play (3rd worst). In '08 Hawkins had 13 ret st'rs but drew Texas, WV and Fla St and had 3 of their North rivals on the road. They upset #21 WV on the road in OT and moved to 3-0 but finished just 5-7. A win over Nebraska would have given them a bowl bid and they were up 31-30 but NU got a 57 yd FG with 1:43 left. CU was -97.4 ypg (3rd worst B12). Last year the Buffs made my Most Improved list despite having just 11 ret st'rs (13 at the time my magazine went to press). Hawkins himself coined the team's motto which was "10 wins, no excuses." CU came nowhere close to 10 wins as they were dominated by Colo St. Playing on a short week (Sun-Fri), they then lost at Toledo. After shutting out WY, they only trailed WV 21-17 in the 4Q but lost. The next week against Texas, CU led 14-3 but gave up a 39 yd TD with :46 left in the 2Q and Texas scored on an IR, PR and blk'd punt for TD's. The next week CU upset Kansas but lost at K-St by 14 and then were destroyed by Missouri to fall to 2-6. Needing a win to keep their bowl hopes alive, they upset A&M and had a 390-310 yd edge at Iowa St. Three times they got inside the ISU 10 for a comb 3 pts (SOD 1, fmbl 8) and they lost 17-10. Okla St was without QB Robinson and the Buffs led 21-10 dropping 2 key int. OSU rallied to pull out a 31-28 win. NU had the B12 Title game on deck which was a great situation for CU and the Buffs did have a commanding 403-217 yd edge but once again 2 return TD's did them in. Hawkins is the 1st coach in CU history to open with 4 straight losing yrs and they have an active 11 gm road losing streak. Amazingly CU kept Hawkins as HC with the economy reportedly having something to do with it. This year they have 17 ret st'rs and were -6 in TO's LY. Thanks to all of the return TD's the defensive ypp was 12.6 (pg 299). I was calling for Hawkins to be ousted last year after they underachieved but CU becomes a rare team that makes my Most Improved list in 2 straight years.

KANSAS JAYHAWKS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - In former HC Mark Mangino's first 5 yrs he used 9 different QB's and only once in that span did they top 55.9%. In '06 rFr Kerry Meier (PS#34) was the clear-cut starter but was inj and missed 3. After the backups struggled, Mangino took the RS off true frosh Todd Reesing (PS#95) in the 9th game. Reesing threw just 24 passes and rushed for 106 yards. Despite being just 5'11" and not having as strong an arm as Meier, Reesing won the starting job in '07 and threw for 3,486 (62%) with a 33-7 ratio (2nd Tm B12). He began his career 11-0 as the starting QB and threw for 349 vs #3 Missouri in KU's first loss. Meier moved to WR but hit 25-29 for 275 as the backup. In '08 Reesing set a school record by completing 66.5% (3,888, 32-13 ratio) and became KU's career passing leader. He was 20-6 as a starter and owned 30 school records heading into '09. As a senior, Reesing threw for 3,616 (63.1%, 22-10) but lost some costly fumbles. He was benched in the 4Q after losing 2 fmbls vs TT. RFr Kale Pick (PS#51) played in 7 (167 rush, 5 passes) and actually had KU's 2 longest runs of the season (32 & 55). Meier only threw 3 passes (WR). This year they lose their 3 year starter and Pick will battle Jordan Webb (PS#40), QB/WR Christian Matthews (6'1" 186 rFr, PS#78) and JC Quinn Mecham (PS#66). Pick and Webb separated themselves out of spring but it will be tough to match Reesing's production.

RUNNING BACKS - Jon Cornish rushed for a KU record 1,457 (5.8) in '06. Jake Sharp (PS#29) was #2 (129, 6.1). Brandon McAnderson added 122 (3.9). In '07 they had to replace Cornish. Sharp topped 100 in 3 of the first 6 but McAnderson led with 1,125 (5.9) while Sharp added 821 (5.6). In '08 they had to replace McAnderson. Sharp led with 860 (4.6) and was #4 rec'r. Sharp rushed for 227 (6.1) in the first 2 of '09 but he was inj'd and not 100% (only 202 more yds). True frosh Toben Opurum (PS#74) led with 554 (4.2) but he had just 2 carries in the final 2 (inj). This year they lose Sharp (10 st). Not listed below are Tyler Hunt (6'2" 240 So), Ryan Burton (5'9" 187 rFr), Angus Quigley (6'1" 231 Sr) and FB Justin Puthoff (6'3" 252 rFr). Turner Gill did a great job with RB's at Buffalo and look for true frosh Brandon Bourbon (PS#53) and James Sims (PS#80) to make an impact. While KU is losing a quality back, they should improve upon last year's poor numbers.

RECEIVERS - In 2008 KU had to replace 1,000 yard receiver Marcus Henry (#6 DC) and TE Derek Fine (#4 DC). The top returnees were Dexton Fields (834, 13.2) and Dezmon Briscoe (496, 11.5). Kerry Meier (conv QB) had 274 (10.5). In '08 Meier and Briscoe became the only WR combo in the country to both top 90 rec with both having over 1,000 yds. It was said in Aug that Johnathan Wilson was likely to be KU's biggest surprise and he finished #3 (573, 13.3) as KU operated mostly in a 4-WR set (TE's 3 st, 8 rec). Last year they were 1-2-3 again. Meier set the school record with 16 rec's vs Iowa St and became the career leader in rec's. He led with 102 rec's (9.7). Briscoe led with 1,337 yds (15.9) and the two comb for 17 TD's. Wilson had 449 (12.8). Not in the PSL are Erick McGriff (6'3" 209 rFr, PS#178), Willie O'Quinn (6'0" 181 So), Chase Knighton (5'11" 184 So) and TE's Nick Plato (6'4" 235 So, PS#31) and Ted McNulty (6'5" 230 Jr). This year they lose Meier (12 st, #5DC ATL) and career receiving yds leader Briscoe (10 st, #6DC CIN). They add in DB's Daymond Patterson and DJ Beshears who started a combined 9 at CB in '09, but this unit will clearly be down a few notches.

OFFENSIVE LINE - In 2008 KU had to replace a 1st Tm AA LT and a 4 year starting RT. While they had 3 st'rs back, their 46 career starts were #90 in the FBS. They only opened holes for 127 ypg rush (3.7) while allowing 31 sks (6.2%). Last year they had to replace 3 st'rs and had just 25 car sts ret. The numbers dropped to 112 (3.5) while they allowed 32 sks (6.3%), the most since 2002. This year the entire 2 deep returns. Despite having to learn new schemes, the Jayhawks are much more exp'd (85 sts) in this crucial area.

#76 LG Brad Thorson

#72 LT Tanner Hawkinson

DEFENSIVE LINE - In 2008 KU had 6 of their top 8 DL's back but allowed 123 ypg rush (3.9), their highest total since '03 and the team had just 28 sks. Last year they had 3 st'rs back but had inexp LB's. The numbers were similar allowing 138 ypg rush (4.0) with 30 sks. This year they lose DT Caleb Blakesley (10 st, 17 tkl, 3 tfl), DE Maxwell Onyegbule (8 st, 37 tkl, 6 sk) and DE Jeff Wheeler (6 st, 18 tkl, 5.5 sk). This year they have 3 back (comb 23 sts '09) and may be down a notch in 2010, but I like the solid group of RS's who are now in the mix (see PSL).

LINEBACKERS - In 2008 KU's LB's ret'd intact and the starters finished #1, #3 and #4 in tackles but surprisingly the Jayhawks allowed 397 ypg and 28.8 ppg, their highest totals in 5 yrs. Last year they had just 6 career sts back and in Sept Mangino said the only guaranteed starter was true frosh Huldon Tharp (PS#88). They used a 2 LB set 80% of the time (4-2-5). This year they must replace Arist Wright (9 st, #6 tkl'r, 5 tfl). They had moved Drew Dudley (12 tkl '08) to FB in the spring but he moved back in the fall and was the #2 tackler (9 st). Surprisingly Tharp started just 7 (#5 tkl'r) but was a 1st Tm Frosh AA. This year the unit is much more exp'd.

DEFENSIVE BACKS - Led by its star CB Aqib Talib, KU finished #11 in my pass D rankings in '07. In '08 they had 3 st'rs back but had to replace Talib (#1DC) and I called for a drop and they fell to #43. Last year they basically had all 4 st'rs back but struggled at one CB spot and only finished #50. This year they lose HM B12 SS Darrell Stuckey (12 st, 93 tkl, 1 int, 2 pbu, #4DC SD), Justin Thornton (9 st, 80 tkl, 1 int, 6 pbu) and CB's Patterson (6 st) and Beshears (3 st) move to WR. Not in the PSL are Brandon Hawks (5'10" 189 So), Brian Blackwell (5'11" 191 Jr), Corrigan Powell (5'11" 180 So, PS#167) and Taylor Lee (6'0" 190 So). They do return 7 who have started but are a little less exp'd.

SPECIAL TEAMS - KU finished #38, #29 and #47 in my ST rankings from 2004-'06 but surprisingly dropped to #92 during the '07 campaign. In '08 they had to replace their K and P and finished #90. Last year they only had to replace their KR (15.4) so solid improvement was expected. K Jacob Branstetter (9-12, long 34 in '08) hit 13-19. He did hit a remarkable 57 yd FG vs Okla (4th longest KU hist). Alonso Rojas (PS#43) avg 40.7 (33.9 net) in '08 and improved to 41.4 (34.7 net). Daymond Patterson was the top PR in '08 (11.0) and '09 (8.0). The unit moved up to #65. Turner Gill's 4 units at Buffalo finished #94, #71, #109 and #117. This year they lose KR Briscoe (22.7) and 4 yr LS Kayl Anderson but could continue their move up in the ST rankings.

COACHES - The Mark Mangino era came to an ugly end with allegations of player mistreatment and he finished 50-48 with the program in much better shape than when he took over. Turner Gill comes in from Buffalo (20-30 4 yr) where he led the Bulls to a MAC Title in '08. Gill was a longtime offensive asst at Nebraska and a Heisman finalist as a QB for the Huskers. Former San Diego St HC Chuck Long (9-27 '06-'08) is the new OC. Long was the OC at Okla('02-'05) and was a Heisman runner-up QB at Iowa. The new DC is Carl Torbush who was DC at Miss St LY, Tex A&M's DC from '03-'05, Alabama's DC '01-'02 and the HC of North Carolina from '98-'00 (17-18) and at LA Tech in '87 (3-8).

PHIL'S FORECAST

Prior to '07, KU had never finished in the upper half of the Big 12 North. In fact, its best conf record since the B12's inception (1996) was 3-5 and they were 23-65 in 11 yrs. In '02 Mangino inherited a team with just 8 ret st'rs that was -219.5 ypg in conf play in '01. I called for a winless B12 season and KU was 0-8 in '02 (-31.9 ppg). Mangino weeded out a lot of bad apples and 31 underclassmen from the '02 spring roster had left by the start of '03. Bolstered by a heavy JC infusion, KU went to its first bowl S/'95 finishing 6-7 in '03. They were a veteran team (15 ret st'rs) in '04, but I pegged them for last in the North due to a tough schedule (8 foes in '03 bowls). They finished 4-7. Mangino had his best team yet in '05 but they were picked 6th in the North (media). KU drew another tough schedule with the top 3 South teams (TX, TT and Okla). In my magazine I broke their season down into 3 parts calling for a 3-0 start, an 0-4 middle and a strong finish and that is what happened. The D allowed just 303 ypg which was the key to KU's first winning season S/'95 despite finishing -8 in TO's. They destroyed Houston in the bowl. In '06 KU had just 3 st'rs back on D and suffered 4 close losses and could have finished 10-2. KU led in the 2H in 5 of its defeats and finished 6-6 (no bowl). In '07 KU avoided TX, Okla and TT and had a dream year. They went 7-0 at home improving their home record to 18-2 from '05-'07. KU opened 11-0 and were a shocking #2 when they played #3 Missouri at Arrowhead, which marked the biggest meeting ever in the oldest rivalry west of the Mississippi. They lost but only dropped to #8 and were picked for their first Orange Bowl S/'69 over that same Missouri squad. No Kansas team had ever won 12 games but they did it by knocking off VT and finished #7. In '08 I pointed out that KU was +21 in TO's and had just 3 sts lost due to injury in '07. Okla, TX and TT were also back on the schedule. I didn't make KU fans happy when I was the only publication that had them finishing 3rd in the North and the ONLY preseason source that did not have them ranked in my Top 25 (7 had KU in the Top 15). KU opened the season #14 and even had some good fortune when they rallied from a 20-0 halftime deficit vs Iowa St for a 35-33 win. At year's end they caught Missouri with the Big 12 Title game (shot at BCS bowl) on deck and pulled the upset 40-37. KU dominated Minn in the bowl to finish 8-5. Despite a 4-4 record in the Big 12 they were -36.7 ypg (6th worst). KU had at least 6 wins for 4 straight yrs for the first time since 1903-'06. Their 20 wins in 2 years were a school record and they went to their first ever B2B bowls. Their 306 ypg pass was a school record. Kansas had the best offense and by far the best QB in the Big 12 North but did allow 447.1 ypg in Big 12 play. Last year once again I did not make many friends in Kansas. The Jayhawks were picked 1st in the B12 North by most major magazines. I picked KU 4th in the North and things did not look good for my prediction early. Once again vs Iowa St, KU barely escaped (ISU missed open TD pass late). KU was 5-0 and ranked #17 when they lost to 1-4 Colo. The Jayhawks went on to lose their final 7 including a tough loss vs Missouri (led 21-10) with MO getting a 27 yard FG on the last play. KU slipped to 5-7 (1-7 B12) and Mangino was shown the door. Turner Gill inherits 13 ret st'rs and I like his hires at OC and DC. Kansas also plays a much more favorable B12 schedule. This year's squad may not be as talented as the '09 version but will move out of the B12 North basement (where they finished LY) which should give them a shot at a bowl.

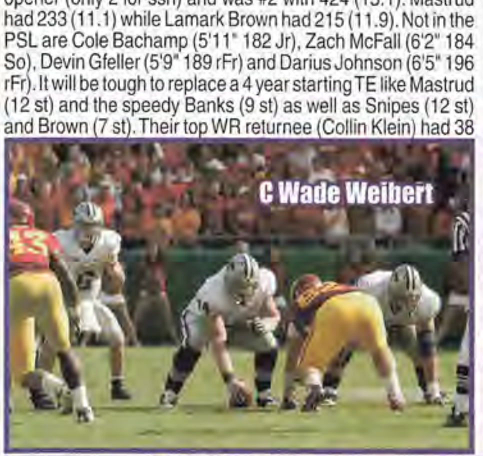
KANSAS ST WILDCATS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - In Josh Freeman's 3rd year as a starter ('08), he threw for 2,945 (59%, 20-8) leaving as K-St's career passing leader (#1DC TB). Carson Coffman (PS#76) saw action in 10 games in '07 and '08 throwing for 304 (61%, 1-2). In the spring of 2009 he battled Joseph Kassanavoid (PS#55) and Collin Klein for the job. Over the summer Grant Gregory (384 yds pass, 154 rush, in 3 yrs) transferred in from USF to join the QB battle. Coffman started the first 4 but lost his job to Gregory. Gregory added a running threat to the position and threw for 1,096 (57.1%, 4-4) with 441 gross rush. Coffman (6 gm) threw for 860 (60.7%, 2-4, 183 gross rush). This year they lose Gregory, Kassanavoid (moved to DE LY) and added to the mix are Sammuel Lamur (6'4" 221 Jr, JC), Ryan Manes (6'4" 194 rFr) and true Billy Cosh (PS#45, IFS). Despite the loss of their starter, this unit has more experience and could have improved numbers.

RUNNING BACKS - In '07 James Johnson (PS#6JC) became K-St's first 1,000 yard rusher (1,106, 6.4) since '04 (Darren Sproles). K-St entered '08 with zero career snaps at RB. Former HC Ron Prince moved 6'3" WR Lamark Brown (PS#36) to RB in Wk 4 and he led with 412 (3.5). True frosh Logan Dold (PS#83) started 3 (333, 4.1). Snyder moved Dold to DB and Brown back to WR. Daniel Thomas (PS#25JC) was a QB in JC but adapted well. He became the first Wildcat to open his career with B2B 100 yard games since Cornelius Davis in 1966. He became the 9th 1,000 yard rusher in school history with 1,265 (5.1). Keithen Valentine (129, 3.8 '08) rushed for 357 (6.5). This year they only lose Valentine. Not listed in the PSL are William Powell (5'9" 205 Sr) as well as FB's Lucas Hamm (6'1" 229 Sr), Jay Hanley (6'3" 233 So), Frank Delarue (5'7" 212 Jr), Ben Kall (5'9" 230 So) and Rodney Kenner (5'9" 214 Jr). It will be tough for Thomas to top 2009 but I look for improved overall numbers in '10.

RECEIVERS - In '08 K-St had to replace Jordy Nelson (4.36 spd, #2 DC) who was the #1 receiver the previous 3 years and blew away the school record for rec in a season in '07 (75, Darnell McDonald '98) with 122 for 1,606 (13.2). Deon Murphy was the top returnee (605, 10.6, '07). JUCO Brandon Banks (4.28 spd) emerged (8 sts) as the big play man with 1,049 (15.7). Murphy was #2 with 555 (15.0) and TE Jeron Mastrud had 435 (11.4). They had to replace Murphy and their #4 rec but Banks and Mastrud were back in '09. With the instability at QB, Banks' numbers dropped to 705 (12.6) with just 1 TD. Attrail Snipes (PS#110JC) had 2 TD's in the opener (only 2 for ssn) and was #2 with 424 (15.1). Mastrud had 233 (11.1) while Lamark Brown had 215 (11.9). Not in the PSL are Cole Bachamp (5'11" 182 Jr), Zach McFall (6'2" 184 So), Devin Gfeller (5'9" 189 rFr) and Darius Johnson (6'5" 196 rFr). It will be tough to replace a 4 year starting TE like Mastrud (12 st) and the speedy Banks (9 st) as well as Snipes (12 st) and Brown (7 st). Their top WR returnee (Collin Klein) had 38 yds in '09 but moves to QB. They do add Oregon transfer VHT Chris Harper (PS#17), Brodrick Smith (2 st @ Minny in '08), some JUCO's and get back Aubrey Quarles (407, 12.0 in '08) who missed '09 (inj). This is a much less exp'd unit.



OFFENSIVE LINE - In 2008 the K-St O-line was a veteran unit. They were shuffled often using four diff st'rs at LT, 3 at LG, 2 at C, 3 at RG and 2 at RT. They avg 133 ypg rush (3.9) but allowed just 16 sks (3.8%). Last year they had to replace 6 OL (comb 37 sts) and they ret'd 4 who had 23 sts in '08. The rush numbers improved to 180 ypg (4.3) with 26 sks (8.7%). This year they lose 1st Tm All B12 LT Nick Stringer (12 st, 3Y st'r) and G Eric Benoit (3 st '08). They return 8 of their top 10 (63 car sts) and are now in the 2nd year of Snyder's system.

DEFENSIVE LINE - In 2008 they only had 1 ret starter and the unit allowed 218 ypg (5.2) which was its highest since '90. Last year they had to replace 2nd Tm B12 DE Campbell and 2 DT's (comb 6 sts, 35 tkl) then starting DE Brandon Harold (10 st '08) RS (inj). Snyder likes to bring in a lot of JUCO DL and almost always has had a tough rush D. They did add in Jeffrey Fitzgerald who was at Virginia in '06 and '07 (25 sts) so it was like having 2.5 st'rs back. The rush D did get a lot tougher as they allowed 105 ypg (3.5). This year they lose DE Fitzgerald (12 st, 40 tkl, 7 sk), DT Daniel Calvin (11 st, 31 tkl, 2 sk), DT Chidubamu Abana (2 st, 12 tkl), DE Hansen Sekona (2 st, 8 tkl) and DE Eric Childs (1 st, 9 tkl). Snyder is back to his old tricks as he brings in 3 VHT JC's (5 total). They return 4 DL (comb 19 sts) and get the return of Harold so once again it's like having 2.5 st'rs back.

LINEBACKERS - Last year K-St had to replace 4 LB's (comb 17 sts, 84 tkl) but I did list them as having 2 st'rs back as they ret'd their #2 and #4 tkl'rs. After allowing 35.8 ppg in '08 they improved to just 23.3 last year. This year they lose John Houlik (12 st, #5 tkl'r, 7.5 tfl) and Ulla Pomele (8 st, #3 tkl'r, 4 tfl). Ex walk-on Alex Hrebec had 68 tkls in '08 but dropped to 32 last year (only 4 sts) and now returns as does PS#92JC Troy Butler (#6 tkl'r). Not listed in the PSL are Roman Fields (5'10" 211 So, PS#419), Taylor Kuhlman (6'1" 206 rFr), Jarett Wright (5'11" 224 Sr), Nick Briney (6'0" 219 So) and Sean Bighems (6'0" 216 So). This is a less exp'd group and figures to be down a notch in 2010.

DEFENSIVE BACKS - Snyder has always used a deep rotation in the secondary which allows them to offset large graduation losses. The Cats had 4 consec finishes in the top 10 in my PDR but then slipped to #19, #61 and #55 (lost all 4 st'rs) in his last 3 years ('03-'05). Under Prince, K-St finished #54, #73 and #72. Last year they had to replace 4 DB (comb 18 sts) but I called for them to have their best finish since 2003 and they moved up to #48. Not in the PSL are Charles Melton (6'0" 200 rFr), Marc St Felix (6'0" 205 Jr) and ex-QB Ty Zimmerman who GS last year. This year they lose HM B12 CB Joshua Moore (12 st, 64 tkl, 2 int, 11 pbu, #5DC CHI), Courtney Herndon (10 st '08, 13 tkl '09) and Billy McClellan (7 tkl). TX A&M QB Johnson had 225 att's without an int but vs K-St he had 3. FS Tysyn Hartman led with 5 int). Snyder now brings in PS#69JC Matthew Pearson and I look for continued improvement.

SPECIAL TEAMS - While not a lot went right in the Ron Prince era, he did an exceptional job in this area as they finished #1 in my ST rankings in his first year ('06), #3 in '07 and #7 in '08 (4 blk punt TD's). LY they had to replace their K and top PR but KR Brandon Banks had an amazing 4 TD's (28.9) and was the top PR (9.1). Punter DJ Fulhage (32.2 net in '08) was beaten out by Ryan Doerr (35.5 net). K Josh Cherry missed 5 of his first 6 FG's but Snyder stuck with him and he hit 12-20 (3-5 40-49, 1 miss 51). He also had 6 TB's on 58 KO's. Thanks to Banks they finished #23 in my ST rankings. Not listed in the PSL is K James French (5'8" 187 rFr). This year they lose Banks and figure to drop a few notches.

COACHES - Bill Snyder accomplished the greatest rebuilding job in college football history taking over a K-St team that had gone 0-21-1 the 2 prev years (NCAA's worst combined record in history) and guided them to bowls in 11 straight years. They were even a Nat'l Title contender in 5 diff seasons. When Snyder opted to step aside after '05, he had more than triple the wins of the #2 coach (Mike Faheam w/39) and his 136 wins were 2 more than all of the previous K-St coaches combined since 1940! The stadium was renamed Bill Snyder Family Stadium. The Legend ret'd home last year and turned 70 last October. Dana Dimel and Del Miller are co-OC's for the 2nd year. Dimel was the HC at Wyoming ('97-'99) and the HC at Houston (2000-'02). Before returning to K-St he spent 3 years as an asst at Ariz ('06-'08). Miller was the OC at SDSt ('06-'08), and now enters his 14th year overall at K-St. Last year they had co-DC's in Chris Cosh (DC MD '06-'08) who was the LB coach for Snyder in '04 and '05 and Vic Koenning who succeeded Dimel as WY's HC from '00-'02. This year Koenning left to become the DC at Illinois leaving Cosh to be the sole DC.

PHIL'S FORECAST

From '97-'03 Bill Snyder had 11 wins in 6 out of 7 seasons but in his final 2 years K-St slumped to 4-7 and 5-6 and he left to spend time with his family. Ron Prince was hired as HC in '06 and change was all around. Most of Snyder's asst's either left or were booted out and many of the old players were shown the door. They even shifted from the read option to a more pass-based attack. K-St did get to a bowl in Prince's first year going 7-5 (upset #4 Texas) before being wiped out by Rutgers. The next 2 yrs, even with future NFL'er QB Josh Freeman at the helm, K-St finished with identical 5-7 records despite starting '07 at 5-3 and 4-2 in '08. The defense allowed 49.5 ppg the final 4 of '07 and 47.4 ppg over the final 5 of '08. After being -18 and -16.8 ypg in Prince's first 2 years of Big 12 play, they were -150.9 in '08. Prince's teams were 3-12 in AG's and he finished 0-9 vs Big 12 North rivals KU, MO and Neb. In 2009 Bill Snyder had just 12 ret st'rs but made my Most Improved list as K-St had the most manageable schedule of the Big 12 North teams. I projected a tie for 2nd in the North (only mag to have them ahead of rival Kansas) and they were the media's pick for 5th. They led UMass by 18 at the half but needed to hang on for a 21-17 win (407-212 yds). The next week at UL they missed 2 FG's and UL's K made his first ever FG from 48 yards with :32 left. After a loss at UCLA, they beat their 2nd FCS foe in Tenn Tech and then blocked an xp in the final minute to get past Iowa St in Kansas City, 24-23. They were destroyed by TTech 66-14 but surprisingly as a home dog destroyed A&M the next week 62-14. They took control of the Big 12 North with a 20-6 win over Colorado. Versus Oklahoma they were within 5 in the 4Q but came up 12 pts short. After beating Kansas they moved to 6-4 and could have clinched a bowl but on a key play, fumbled into the EZ tied 3-3 and were then rolled by MO. It was winner-take-all for the Big 12 North Title vs Neb and for K-St a loss meant 6-6 and no bowl. Despite K-St having a 293-267 yd edge, they lost 17-3. Kansas St did have 2 net close wins and has just 11 ret st'rs. Despite their 4-4 B12 record they were actually -52.8 ypg (3rd worst) and benefitted from +7 TO's. Snyder is one of the best and despite a new QB, this is a stronger team compared to last year. They take on a much tougher B12 schedule, however, I will still give them a shot at the postseason.

IOWA ST CYCLONES

POSITION OUTLOOK FOR 2010

QUARTERBACKS - Bret Meyer started 48 consec games and left as Iowa St's career leading passer after '07, a season in which he threw for 2,151 (61%, 9-13). The bkp rFr Austen Arnaud (PS#26) hit 20 of 37 for 267 in '07 (23 passes L/2 gm). In '08 Arnaud battled Phillip Bates (PS#30). Arnaud was named the starting QB 4 days before the opener but former HC Chizik alternated the two. Bates DNP vs Kan and opted to transfer to Ohio. Arnaud struggled the first couple of games after Bates' departure but Chizik had no real backup as he wanted to RS both true frosh, Jerome Tiller (PS#54) and Brett Bueker (6'3" 234 So, PS#292). Arnaud hurt his shoulder prior to Neb (113 yds), but said he was close to 100% and threw for 371 vs A&M. Arnaud exploded in the final 2 with 326 vs Missouri (school rec 36 comp) and a school rec 440 vs K-St (old record Todd Bandhauer, 437 in '98 vs Texas). Arnaud threw for 2,792 (62%, 15-10) and was the #2 rusher (401, 3.7). Last year Arnaud had to learn his 3rd offensive system in 3 years with new OC Tom Herman. Arnaud struggled vs Iowa (10-22-79, 4 int) and Tiller QB'd the last 1.5Q's. In the first 5 Arnaud avg just 53%. He bruised his hand vs Baylor and Tiller played most of the 2H and then the entire game vs Neb and A&M. Arnaud ret'd and att every QB pass in the final 3. For the season he hit 58.7% (2015, 14-13) while Tiller hit 56.2% (1-4). Arnaud (561, 3.8) was the #2 rusher and Tiller (216, 4.9) finished #4. Added to the mix is James Capello (5'11" 200 rFr, PS#223). Now that Arnaud is finally in the 2nd year of the same system, I look for good-sized improvement as he has cut down the "windup" in his throwing motion.

RUNNING BACKS - Former HC Dan McCarney did a great job developing RB's. They had a 1,000 yard rusher in each of his first 7 yrs. However, from 2001-'08 the team had just one 1,000 yard rusher. Alexander Robinson (PS#113) led in '07 with 465 (3.9). He was plodding along with 230 in the 1st 6 of '08 then he rushed for 473 (5 TD) over the final 6 ending with 703 (4.6). He was a workout warrior in the offseason and despite missing 12Q's in '09, Robinson still became ISU's 1st 1,000 yd rusher since 2004 (1195, 5.2) and was the #5 rec (261, 15.4). Jeremiah Schwartz (PS#106) was the #2 RB with 264 (3.7). Surprisingly Florida transfer Bo Williams (PS#33) only had 2 rush att's (50 yd). This year they lose Schwartz (1 st) and not listed below are James White (5'8" 182 rFr, PS#133), Jeff Woody (5'11" 234 rFr, PS#174), Brad Adams (5'10" 184 So) and Walker Lee Woods (5'10" 189 rFr). I look for continued improvement especially if Robinson can stay healthy all year.

RECEIVERS - In '08 the Cyclones had to replace their top WR and Marquis Hamilton (PS#87) who had 534 (11.9) in '07 only had 301 (11.6, #4 tm). Darius Darks (PS#197) set a school frosh record with 477 (9.7) and Houston Jones (PS#75) had 384 (12.0). RJ Sumrall led with 750 (13.2). Last year they had to replace Sumrall and Jones only played in 1 (ankle). Their top 2 WR's, Sedrick Johnson and Darks both were banged up early (0 rec 1st 2 gm) and Johnson had just 7 rec all year. Hamilton led with 606 (12.1). Former walk-on Jake Williams was #2 with 403 (11.2) and TE Derrick Catlett (PS#45) had 301 (10.4). Darks was #3 with 303 (10.8). Darius Reynolds was their top rec when he was inj'd in week 4 and he returns and they add PS#30JC Chris Young. This year they lose Hamilton (13 st), Catlett (11 st) and Jones. Not in the PSL are Justin Amick (6'2" 194 rFr), Patrick Mulcahy (6'5" 202 So), Jason Carlson (6'0" 205 Sr, PS#152JC), David Weber (5'8" 161 rFr) and TE Vince Ewald (6'5" 233 So). This group is on par with '09 in terms of exp and should be stronger.

OFFENSIVE LINE - Iowa St led the Big 12 in rushing 4 times in McCarney's tenure. Surprisingly in his final 4 yrs, the top ypc rushing was just 3.2 and even with 4 seniors starting all 12 in '06 they had their lowest ypg (102) since 1997 with 38 sks (10.1%). In Chizik's 2 yrs they showed improvement with 124 ypg (3.1) then 138 (4.1) (#20 in FBS in % sts ret). Having a mobile QB like Arnaud helped those numbers. Last year they only had to replace one starter and 2 bkp (comb 6 st). Six ret'd who had started 4+ in '08 but they were learning a new system. They were among the NCAA's biggest OL avg 322. The Cyclones improved to 180 ypg (4.5) which was their best since '01 and they allowed just 16 sks (4.2%). OC Herman called it the strength of the offense. This year they lose C Reggie Stephens (12 st, 1st Tm B12, #7DC CIN). Despite the loss of their top guy, I look for continued improvement.

DEFENSIVE LINE - In 2008 ISU had to replace both starting DT's (#6DC) and they allowed 176 ypg (4.8) while the D recorded just 17 sks. Last year they had to replace 2 st'rs and 3 bkps but ret'd DE Christopher Lyle who led the DL in both sks and tkls as a backup in '08. Their top DE Rashawn Parker was lost after 4 to injury and surprisingly the numbers improved as they allowed 166 ypg rush (4.4) with 16 sks. This year they lose NG Nate Frere (13 st, 34 tkl, 1 sk) and Lyle (13 st, 69 tkl, 5 sk, 8 tfl). While they lose their top 2 DL's they get back Parker and add in JUCO Rony Nelson and could be stronger.

LINEBACKERS - In 2008 the Cyclones had to replace their #1 and #2 tacklers (#5DC). Last year they only had to replace 2 LB's (comb 10 sts, 67 tkl) and ret'd their #2 and #3 tacklers. ISU's D allowed just 21.8 ppg, 2 TD's better than the '08 version. This year they do lose Jesse Smith (13 st, #1 tkl'r, 5.5 tfl), Fred Garrin (13 st, #3 tkl'r, 5 tfl), Josh Raven (7 st, #10 tkl'r, 3 sk), Derec Schmidgall (5 tkl) and Brian Ekwelundu (7 tkl). They did sign a couple of good sized JUCO's last year in Matt Tau'fo'ou (246 lb) and Jacob Lattimer (244 lb) who figure to make a bigger impact. This unit is my major question mark for 2010 as they have zero career starts back (just 59 car tkls) and are likely to play more of a 4-2-5 this year.

DEFENSIVE BACKS - The Cyclones finished #118 in my pass D rankings in '06, #108 in '07 and dead last at #119 in '08 allowing 67% with a 31-11 ratio. Last year they had to replace 2 st'rs but were expected to have 8 DB's back with starting exp before 4 players off the 3 deep left the program by mid-season (6 exp). The Cyclones made strides moving up to #86 allowing 62% with a 23-15 ratio. This year they lose CB Kennard Banks (12 st, 55 tkl, 1 int, 5 pbu) and FS James Smith (11 st, 92 tkl, 1 int, 5 pbu). They add in PS#45JC Anthony Young and PS#128JC Durrell Givens and while equal to LY (2 st'rs ret), they should continue to move up in the PDR.

SPECIAL TEAMS - In McCarney's final 2 years ISU finished #45 and #63 in my ST rankings. Chizik's 1st unit was #115. In '08 true frosh K Grant Mahoney (PS#33) hit 17-25 FG's (long 48). Leonard Johnson set an NCAA (single gm) record with 319 KR yards vs OSU. ISU improved to #40 in '08. Last year everyone ret'd and they finished #31. Mahoney only hit 13-20 FG's (miss 4 xp) but connected on 3 of 5 from 50+. P Mike Brandtner improved his net to an outstanding 38.3. The team's KR's dropped from 24.2 to 21.4 and PR's from 9.3 to 6.1. Even with the loss of their top-notch P, they could come close to '09's fine finish.

COACHES - In '07 Iowa St got rid of its all-time career win leader in Dan McCarney, who was the Big 12 COY in '04 and brought in Gene Chizik. It was a pretty surprising '09 offseason as Chizik (5-19, 2 yrs) left for Auburn in what turned out to be a trade of sorts as Auburn's DC Paul Rhoads came to Iowa St as the new HC. Rhoads, who signed a 5 year $5.75 mill deal, was the DC at Pitt from 2000-'07. Rhoads did an outstanding job leading ISU to its first bowl since '05! OC Tom Herman is in his 2nd yr here after 2 very successful yrs as the OC at Rice and also was the OC at Texas St ('05-'06). The DC is Wally Burnham who was USF's DC for 8 years prior to coming here in '09.

PHIL'S FORECAST

After going 13-42 in his first 5 years, Dan McCarney went on a streak of 25-15 in his next 40 games including 2-0 to open 2003. ISU was ranked as high as #9 in '02 but the '03 team was injury-plagued and dropped their last 10 finishing an amazing -261.7 ypg and -34 ppg (Big 12 worst). In '04 I picked them to finish ahead of Nebraska (10-3 in '03!) in the Big 12 North. ISU did not disappoint me. They very nearly took home the undisputed Big 12 North Title (missed FG vs MO in OT loss). **In '05, they made it to their 5th bowl in 6 years.** They knocked off #8 Iowa at home but suffered 4 close losses. They also stunned A&M 42-14 in College Station. That team benefited from +14 in TO's. In '06 they had a young defense (4 st'rs back) and had to play the top 3 out of the South (Okla, TX and TT). The Cyclones opened 3-2 but finished just 4-8. They actually benefited from 4 net close wins and were -113.1 ypg vs the B12 (2nd worst). In Gene Chizik's first year ISU only had 11 ret st'rs (2nd lowest B12) and I called for their 3rd losing year in the last 8. ISU went just 3-9 but upset Iowa, K-St and Colo. They were -117.9 ypg in Big 12 play (2nd worst). That ISU squad had just 4 sts lost due to injury. In '08 they had 14 ret st'rs but lost 25 lettermen (51.9%, #118), factors pointing to a weaker record. ISU opened 2-0 but then lost their final 10 and it was their first winless Big 12 campaign since '03. Their first 3 losses in '08 were by 6 ppg but the last 7 came by 22 ppg and Chizik burned 11 RS. Despite its 0-8 conf record, ISU was only -91.4 ypg (4th worst). Last year they had 15 ret st'rs, their most since 1999 and had 3 net close losses in '08. I mentioned in last year's magazine that new HC Paul Rhoads stepped into a positive situation. After beating NDSt and losing to Iowa, they benefitted from Kent St playing without their QB or RB and won 34-14 ending their 17 game road losing streak. They beat Army at home 31-10 for a 3-1 start. Against K-St they had an xp blk'd at the end in a 1 pt loss in Arrowhead Stadium. Against Kansas, ISU had an open receiver on 4th down but Arnaud missed him by inches on what would have been a TD in a 41-36 loss. They got their first B12 win since '07, 24-10 over Baylor. Against Nebraska they were without QB Arnaud and RB Robinson and were outgained 362-239 but benefitted from +8 in TO's and the Huskers amazingly fumbled it away 4 times inside the 5 including 2 into the EZ for TB's. It was ISU's first win at NU since 1977. With backup QB Tiller starting his 2nd straight gm they lost in College Station (35-10) and were wiped out by Okla St 34-8. They were outgained by Colo 390-310 but the Buffs had 3 pts on 4 trips inside the 20 and ISU won 17-10 to wrap up a bowl. They led MO by 7 at the half but lost. In the bowl game they got past Minn 14-13 for their first winning season since 2005. This year the Cyclones have 12 ret st'rs. They did benefit from a high defensive ypp of 19.0 (pg 299) and despite a 3-5 B12 record, were -94.0 ypg in league play (2nd worst). They are also the only team in the North to draw Okla and Texas out of the South (both on the road). This is an improved team but faces a tougher schedule (#1 FBS, see page 318) and I will call for a drop below .500.

Oct. 2	Texas Tech	G					The Cyclones are just 6-26 the L4Y in B12 action. ISU is 1-7 vs TT, just 9th meeting. In the last gm in '07, TT jumped out to a 28-0 lead and ISU never recovered (42-17 loss).
Oct. 9	Utah	G					The Cyclones are 4-0 vs the Utes but the last gm was in 1976. All 3 of ISU's FBS non-conf opp's this year went to a bowl last year. Into 2010, ISU is 16-9 vs non-conf foes.
Oct. 16	at Oklahoma	G					Since '05 ISU is 2-18 in B12 true road gms w/a '05 win at Kyle Field & LY in Lincoln. ISU is just 3-35 in Norman. L/met in '07 & ISU has been held to 10 pts or less in 18 of L/24.
Oct. 23	at Texas	A					The Cyclones have never beaten the Longhorns in school history dropping all 7 gms. ISU was outgained 514-228 & outFD'd 28-14 in their 56-3 loss in '07 (last meeting).
Oct. 30	Kansas (HC)	G					LTH, ISU had a 20-0 HT lead only to lose by 2 for a 6th straight series loss. Last year ISU missed a pass late by inches to a WR wide open in the endzone falling by 5 points.
Nov. 6	Nebraska	G					Last year's 8-0 TO edge gave ISU their first win at Lincoln since 1977. Fr QB Tiller made his first start and the Cyclones were also without B12 leading rusher Robinson.
Nov. 13	at Colorado	G					The visitor has lost 6 straight games but four were by 7 points or less incl last year. The Cyclones have been outgained each of the last 5 years by 79 ypg (80 yds LY).
Nov. 20	Missouri	G					LY the gm was tied 24-24 heading into the 4Q w/OL Scott Haughton scoring a 3Q TD (1st ISU OL to score TD S'92). ISU has won 4 of their L/5 home finales (only loss to MO).
Nov. 27							BONUS: With the win last year at NU, HC Rhoads became the 1st ISU rookie coach to win 5 games in his inaugural season since 1931 (George Veenker).
Dec. 4							BONUS: With its win over CU last year ISU became bowl eligible (1st time since 2005) as RB Robinson went over the 1,000 yd rush mark (just 12th player in ISU history).

PHIL STEELE'S 2010 ACC FORECAST

COASTAL DIVISION

1. MIAMI, FL - I could have picked any one of the top 4 teams in the Coastal as my division champ and felt pretty good about it as they have four legitimate Top 25 teams. Miami has a killer non-conf schedule and does face a pair of top teams out of the Atlantic in Clemson and FSU. They do however get to host 2 of the top 3 Coastal teams. Miami was arguably the most talented team in the ACC last year and looks even stronger in 2010.

2. VIRGINIA TECH - VT was an ACC best last year at +126.4 ypg in conf action but they have just 12 returning starters, lose 23 lettermen (most in ACC) and also benefitted from +9 in TO's last year. Despite those factors, they are not only an ACC Title contender, but a legitimate National Title contender if they can knock off Boise St in the opener. They do have to play both NC and Miami on the road in B2B weeks and the Coastal was the toughest division for me to pick this year.

2. NORTH CAROLINA - The Tar Heels had the best defense in the ACC, but were just 4-4 in conf play last year and were actually -9.4 ypg in league play. They do have 19 returning starters (#1 ACC), only lose 11 lettermen (least on ACC), and again have the best defense in the conference. They get to host 2 of the top 3 competitors in the Coastal. With this defense, they are a legitimate ACC Title contender. By the time the 2011 draft rolls around you will be very familiar with all the names on this loaded Tar Heel defense.

4. GEORGIA TECH - Last year I picked GT 3rd in the ACC Coastal and they surpassed my expectations, not only winning the Coastal but the overall ACC Title. I knew the Coastal would be a tough division for me to forecast back in December when I looked at four potential Top 25 teams and wondered who I would pick. It troubles me that I have the defending ACC Champ slotted down here in 4th, but they do have to play NC, Clemson and VT all on the road and I think they will be a dog in each. Despite my 4th place projection, GT is a legitimate ACC Title contender.

5. DUKE - I thought HC David Cutcliffe did a great job last year getting the Blue Devils, with just 11 returning starters, to a 5-7 record (nearly 6-6). This year Cutcliffe has a much more veteran team with 15 returning starters. Naturally, playing the Coastal division with 4 potential Top 25 squads, the schedule is tough but they avoid both FSU and Clemson out of the Atlantic and could surprise. Duke was just 7-73 in ACC play this past decade but won 3 ACC games last year and avoided the basement for the first time since 2003.

6. VIRGINIA - The Cavaliers have a new coaching staff and are changing schemes on both sides of the ball. They draw FSU and BC out of the Atlantic and also have to face Duke on the road (plus USC in non-conf play). The Cavs actually finished in the basement of the Coastal last year and with only 12 ret starters (tied for last in the ACC), it looks like a rebuilding season.

ATLANTIC DIVISION

1. FLORIDA STATE - While FSU has a new HC, Jimbo Fisher knows the team inside and out and he had a big part in running the team last season. FSU has underachieved the last few years and their D was horrific last season allowing 435 ypg. This year FSU will have a much improved D and one of the most explosive offenses in the country. They also get most of their toughest ACC games (Clem, NC, BC) at home and should find their way to the ACC Title game for the first time since 2005.

2. BOSTON COLLEGE - My talent ratings have BC 3rd best in the Atlantic but they draw a more favorable schedule than Clemson. They pull Duke and Virginia out of the Coastal and host VT while CU must play NC, GT and Miami. BC also gets Clemson at home. Six of my 9 sets of power ratings calls for a double digit win season for BC. They should get much better QB play and if Mark Herzlich is 100% they'll have a dominant LB corps.

2. CLEMSON - The Tigers are a true wildcard in the Atlantic race. My talent ratings have them #2 in the division and not too far behind FSU. Unfortunately, they take on both of the Atlantic upper division teams on the road and pull 3 potential Top 25 teams out of the Coastal giving them the toughest schedule of the Top 3 in the Atlantic. I picked the Tigers to win the Atlantic last year and they did not disappoint me. They are capable of defending their crown.

4. MARYLAND - A lot of things pointed downward for Maryland last season. Even coming off an 8-5 year and a bowl win, I projected them last in the Atlantic. This year they do have just 12 returning starters but pull both Virginia and Duke out of the Coastal avoiding 3 potential Top 25 teams. They have the best schedule of the bottom half of this division and I put them on my Most Improved List which means they should get back to the post season.

5. WAKE FOREST - Jim Grobe usually has his troops play above their talent level and exceed their expectations so sliding them in 5th is troublesome to me. They do have just 13 returning starters and lose QB Skinner and 4 of their top 6 tacklers. They will transition back to more of an option offense this year and do keep in mind, last year they were 5-7 but had 5 losses by 3 points or less or could have easily been a 10-2 team.

6. NC STATE - HC Tom O'Brien could have had 3 out of 3 winning seasons but has not caught very good fortune in his tenure here at NCSt. This year they have the toughest schedule of any of the Atlantic teams as they draw NC, GT and VT out of the Coastal. It's tough to pick them in the basement as they were -11 in turnovers and yet were 5-7 last season but due to the schedule, I will peg them here.

ACC Notes: In 2008 VT became the first ACC team to win a BCS game since 1999 when ironically Florida St beat Big East member VT. GT lost to Iowa last year so the ACC went 1-9 this past decade in BCS bowls. The conference had 0 teams finish in the Top 10 in both '06 and '08 with 2 in '07 (VT & BC) and 1 in '09 (VT). In '06 they were 4-9 vs BCS conf tms in the reg season, and improved to 13-8 two years later in '08. Last year they went 12-15 which does not sound great but that is the 3rd best. 2008 was the first year Florida St was not picked as the favorite to win the title in ACC history and in '09 they were only the #2 pick with VT the preseason selection (69 of 87 votes). The conf is steadily improving in post season play going from 2-6 in '07 to 4-6 in '08 and 3-4 LY. Prior to the '10 draft, the ACC led the way (S/'06) with 30 1st RD DC's (SEC 29) but they were overtaken in April. In that same span they have had 195 players taken in the draft, incl 31 last year. Florida St is only 21-19 in the ACC the last 5 years which is tied for 5th best but they were so dominant the 1H of the last decade that they are still out front over the last 10 years. I know Paul Johnson has done a great job at GT the last few seasons but GT is actually #2 in the ACC in overall wins the last 10 years with 50. VT, BC and Miami were added from the Big East and VT has the best record of any ACC team in its 6 years at 38-10 while BC is 26-14 and surprisingly Miami is just 25-23. The ACC is the strongest it has been in years as I see 5 to 7 potential top 25 teams and the top 4 teams in the Coastal can knock off any team in the country.

MIAMI HURRICANES

POSITION OUTLOOK FOR 2010

QUARTERBACKS - UM has had some great QB's in its history. In 2008 the battle was between rFr Robert Marve (PS#12) and true frosh Jacory Harris (PS#7). Marve started 11 but threw for just 1,293 (55%, 9-13). Harris came off the bench vs Duke and led 4 TD drives in the final 2.5 Q's. He threw the TD pass to force OT and another TD in OT for the win vs UVA. He finished with 1,195 (61%, 12-7). Last year all of Harris' competition transferred. Marve went to Purdue in May and his backups Taylor Cook (PS#47) and Cannon Smith (PS#64) left over the summer. That left his bkps as true frosh AJ Highsmith (PS#61) and walk-ons Matt Perrelli and Spencer Whipple (6'2" 210 Jr, OC's son). Harris had a phenomenal first 2 gms (656 yd) and was receiving Heisman mention but was harassed vs VT in UM's 1st loss. Versus Duke, Harris practiced with a soft cast on his throwing hand and was barely able to grip the ball but was still the ACC POW hitting 25-43-348. He threw for 3,352 (59.6%) with 24 TD's becoming just the 7th QB (1st S/'02, Ken Dorsey) in UM history to top 3,000 passing. Unfortunately Harris also threw 17 int (#2 FBS). Harris should be one of the top QB's in the country but there would be a large drop-off if he is injured.

RUNNING BACKS - It surprises me that the "U" has had just six 1,000 yd rushers (Edgerrin James twice) in its history. In '06 Javarris James (PS#22) led with 802 (4.6). In '07 he started 12 and rushed for 582 (3.7) but Fr Graig Cooper (PS#62) led with 682 (5.5). Both ret'd in '08 but Javarris James (ankle inj) only rushed for 286 (4.2). Cooper led again with 841 (4.9) while rFr Lee Chambers (5'10" 192 Jr, PS#35) had 116 (6.4). LY all 3 ret'd and they added Damien Berry (PS#37), true frosh Lamar Miller (PS#15) and Mike James (PS#58). FB Patrick Hill (255 lbs) is a solid blk'r and was impressive early but RS (inj) with Mike James (220 lbs) taking over at FB. Cooper led again (695, 5.2) but Berry (no att first 4) had 162 (11.6) vs Fla A&M and finished #2 with 616 and a tm high 6.6 ypc. Javarris James contributed 492 (4.8) and Chambers (miss 4) had 153 (3.6). Not listed below are FB's John Calhoun (6'3" 255 Jr, PS#315) and David Thompson (5'10" 245 So). They lose Javarris James (2162 car rush yd) and Cooper is doubtful after an ACL. They add 2 VHT true frosh and could still be close to the '09 version.

RECEIVERS - In 2008 Miami had to replace 2 of their top 3 rec's and the top returnee was Sam Shields (346, 12.8 in '07). They used a lot of true frosh including Aldarius Johnson (PS#9) who led with 332 (10.7), Thearon Collier (PS#52, 324,12.5), LaRon Byrd (PS#44, 228, 10.9) and Travis Benjamin (PS#56, 5 st, 293 yd). TE Dedrick Epps (PS#24LB) started 10 (304, 13.8). Epps tore his ACL in Jan of '09 but ret'd for camp. The unit ret'd basically intact last year and a new star emerged. Leonard Hankerson, who is 6'3" and was compared to Andre Johnson, had a problem with drops his first 2 yrs. He led with 801 (17.8). Benjamin was #2 with 501 and an impressive 17.3 ypc and 6'4" Byrd was #3 (460, 13.9). Aldarius Johnson missed 3 and dropped to 276 (17.2). Epps was #6 with 247 (13.0). TE Jimmy Graham (basketball) was added in the fall and his first 3 catches all went for TD's (213 ,12.5). Not listed below are Kendal Thompkins (5'10" 180 So, PS#263), Devon Hill (6'1" 165 rFr, track team), Ben Bruneau (6'2" 205 Jr, PS#243) and Davon Johnson (6'0" 192 So, PS#47). This year they lose TE's Epps (9 st, #7DC SD), Tervaris Johnson (8 rec) and Graham (1 st, #3DC NO). This is their most exp'd unit in at least 3 years.

OFFENSIVE LINE - Last year UM had to replace 2 st'rs and for the first time in the Randy Shannon era, had an exp'd O-line. Still, they only avg 138 ypg rush (3.9) while allowing 35 sks (8.4%) which is the 6th straight ssn under 4.0 ypc. This yr they lose 1st Tm ACC LT Jason Fox (11 st, 4Y st'r, #4DC DET), RT Matt Pipho (13 st) and C AJ Trump (13 st, 2Y st'r). Seven of the top 10 return. Despite being a little less experienced, they could put up stronger numbers in 2010.

DE Allen Bailey

DEFENSIVE LINE - Due to an inj to DE Eric Moncur in '08, Miami basically had 1 ret st'r. That unit allowed 152 ypg rush and their 4.0 ypc allowed was their highest S/'97 (31 tm sks). Last year they had to replace 2 DL (comb 16 sts) but ret 7 with starting exp. Unfortunately the unit was extremely banged up (especially at the start). Moncur failed to make a start (6 gm) and 8 diff players started (11 sts was the most). Due to the injuries, they only improved to 122 ypg rush (3.5) with 24 sks (DL had 18). TY they lose 3rd Tm ACC DT Joe Joseph (11 st, 29 tkl) and Moncur (10 tkl). Eight ret with starting exp (all 4 proj'd st'rs VHT's). Not listed below are Adewale Ojomo (6'4" 262 Jr, PS#58, missed LY due to a broken jaw), Dyron Dye (6'5" 240 rFr, PS#31) and Gavin Hardin (6'4" 245 So, PS#62). If they stay healthier, this is one of the top D-lines in the country.

LINEBACKERS - Last year the Hurricanes had to replace their #1 tackler (#6DC) and 2 players who comb for 4 sts (51 tkl). They got back Colin McCarthy (9 st, 74 tkl, '07) who had 4 sts in '08 but RS (inj). UM's D was dominant early in '08 but when McCarthy went out it was noted that they were a totally different D without him. Last year McCarthy played all 13 (10 st) but the group was hit hard by inj as they had just 3 healthy LB's who took meaningful snaps (5 LB's played). This year they lose their #1 tackler for a 3rd straight season in 2nd Tm ACC Darryl Sharpton (12 st, 8.5 tfl, #4DC HOU) and Arthur Brown (13 tkl) but have 4 of the top 6 back. Despite the loss of its #1 tackler, this looks like one of the premier units in the ACC.

DEFENSIVE BACKS - UM opened the decade with finishes of #5, #2, #9, #3, #13, #1 and #24 in my pass D rankings. They surprisingly dropped to #53 and #66 in '07 & '08. Last year they had to replace 2 st'rs then CB Ryan Hill and S JoJo Nicolas (7 st '08) each just played in 3 and RS. CB Chavez Grant (7 st '08) only had 2 starts (10 tkl). SS Randy Phillips put off surgery until after the season (torn labrum) and was not 100%. They moved the team's fastest player, WR Sam Shields to CB (10 st). True frosh FS Ray-Ray Armstrong (21 tkl) drew comparisons to the hard hitting Sean Taylor. UM moved up to #39. This year they lose Shields (41 tkl, 2 pbu), Phillips (7 st, 53 tkl, 2 int) and Grant (2 st, 10 tkl). With the return of Hill, they have 6 back with 5+ starts in a season and 7 VHT's in the 2 deep and should have their highest finish in my PDR in at least 4 yrs.

SPECIAL TEAMS - Miami has produced some excellent ST players including Devin Hester and have finished #1, #27, #53, #8, #5, #28 and #52 in my ST rankings from '00-'06. In '07 they had to replace their P and K and the return game was below avg causing them to plummet to #104. In '08 they improved to #33 and two players were key. P/K Matt Bosher (PS#4) had a 36.2 net in '08 and was a Groza Award semi-finalist hitting 18 of 20 (long 52). Speedy true frosh Travis Benjamin avg 11.3 on PR's and 22.5 on KR's. Bosher improved his punting avg to 42.5 in '09 (net 35.7) while hitting a solid 14-16 FG's (long 51). Surprisingly the top PR was Thearon Collier (13.2) who had 2 TD's and brought back memories of Hester. The top KR was Graig Cooper (22.4). They did however allow 3 blk'd punts (2 vs UVA) and surprisingly slipped to #53. With everyone back (Cooper ?), this should be one of the most improved ST units in the country.

COACHES - Although Randy Shannon starts his 4th season as HC, he enters his 17th year here. He was the DC here for 6 years ('01-'06) prior to taking over and has fielded fine units each season. He replaced 6 year HC Larry Coker who was 60-15 with a National Title. Four diff coaches have accounted for Miami's 5 National Titles over the last 27 years. LY they brought in their 3rd OC in 5 years in Mark Whipple. Whipple graduated from Brown where he was the starting QB from '77-'78. He spent 16 years as a HC (121-59) including 6 at UMass taking them to the IAA Title in '98. He owns a Super Bowl ring as the Steelers' QB cch from 2004-'06 and was an off asst with PHI in '08. DC John Lovett is in his 2nd year and was UNC's ST cch in '07 and '08 and the DC previously at BG, Clem, Auburn, Cincinnati and Maine.

PHIL'S FORECAST

Howard Schnellenberger guided Miami to a National Championship in 1983 and UM also won a National Title under Jimmy Johnson (1987) and two under Dennis Erickson (1989, 1991). They had a rare losing year in 1997 due to scholarship reductions but Butch Davis had them pointed in the right direction and in 2000 they went 11-1 and finished #2. Larry Coker guided them to a National Title in his first season (2001) and almost repeated the next year when they came up just short in the Fiesta Bowl vs Ohio St (2OT). After an 11-2 season in '03, they won 9 games in each of the next 2 years but suffered a blowout loss to LSU in the 2005 Peach Bowl. At 6-6 in '06 they needed a 1 pt win over Nevada just to have a winning season. The Randy Shannon era then began. Miami was unranked in the preseason for the first time since 1998 and went through an up and down 2007. The highs included a 31-0 lead over #20 TX A&M at home (34-17 final) and a fortunate win over Fla St on the road. The lowest of lows was being embarrassed in the final game of the Orange Bowl 48-0 by Virginia (previous worst home loss was to ND 44-0 in 1973). Their 5-7 record was their worst since 1977. The team went 2-6 and was -66.4 ypg (3rd worst) in the ACC. They limped into 2008 12-13 over the previous two seasons but moved in to Dolphin Stadium and had 18 seniors in the 2 deep but just 9 ret st'rs. They again had their moments as they only trailed eventual National Champ Florida 9-3 in the 4Q. After they beat VT 16-14, they were in 1st place in the Coastal and ranked (#23) for the first time in 2+ yrs. On a cold night in Atlanta they were whipped by GT, lost to NCSt on the road and later dropped their bowl to Cal to fall to 7-6. Coming into last year they were a .500 team over the previous 3 years. They had to replace both coor's but qualified for Turnovers=Turnaround (-10 in '08) and six of my 9 sets of power ratings called Miami the most talented team in the ACC. They were the first team in ACC history that opened the year facing 4 ranked foes (killer sked) taking on Fla St, GT, VT and Okla and when I did my preseason radio shows, many speculated an 0-4 start. They got a narrow win over Fla St on the road then dominated #14 GT (454-228 yd). After being whipped by VT in the rain on the road, they rebounded to knock off #8 Okla. At 5-1 and ranked #8, Miami lost in OT to Clemson. At 7-2 NC had 77 & 44 yd IR TD's and UM lost despite a 435-329 yd edge. They knocked off Duke and USF to move to 9-3 but were bothered by the cold weather in the bowl and lost to Wisconsin. This year they have 13 ret st'rs and had 11 sts lost to injury in '09. While they were just 5-3 they were +71.4 ypg in ACC play (4th best). UM had the NFL record for consec years with a 1st Rnd DC (1995-2008) end LY. Despite a killer schedule with road trips to Ohio St & Pitt, pulling the top 2 teams out of the Atlantic (FSU & Clem) plus having to face 3 potential Top 25 teams in the Coastal, I give Miami a solid shot at the ACC Title.

Sep. 2	Florida A&M (Thur)	G					Miami is 3-0 in openers under Shannon. Miami is 7-1 vs FAMU (only loss in '79). Including LY UM has outgained FAMU by 298 ypg the last 4. The Rattlers went 8-3 last year.
Sep. 11	at Ohio St	A					UM is 1-2 vs OSU with the last meeting the 2002 National Champ game as #2 OSU defeated #1 UM 31-24 (2 OT). Canes are 26-16 vs the Big 10 but just 1-4 in road openers.
Sep. 18							BONUS: Miami is 138-2 when scoring at least 34 points since 1985.
Sep. 23	at Pittsburgh (Thur)	G					This is the 1st meeting between these two since Miami left the Big East in 2004. Miami is 21-9-1 all-time vs the Panthers but finished winning 6 straight and 14 out of 15.
Oct. 2	at Clemson	G					Last year Miami led but allowed a 47/10pl drive and a 30 yd FG w/:05 left. In OT UM got a FG but surrendered a TD.
Oct. 9	Florida St	G					UM's 476 yds vs FSU LY not only were the most S/'06 (FAMU) but the most vs a FBS school S/'05 (Duke). As ACC members the 6 gms here have been decided by 4 ppg (8 pt largest margin).
Oct. 16	at Duke	G					In the L/4 meetings, Duke has built a lead and Miami has battled back for the win. LY QB Harris played with his thumb and index finger on his throwing hand heavily wrapped.
Oct. 23	North Carolina	G					The home team is 9-1. HC Shannon was a player and assistant under Davis at Miami. Last time here NC drove 56/7pl & scored the game winning TD w/:46 left on a 14 yd TD pass.
Oct. 30	at Virginia	G					UM is 5-2 all-time in this series. Last visit here, UM needed a TD in the final minute & another in OT for the 24-17 win. The 35 pt win LY was UM's biggest in ACC play S/'05.
Nov. 6	Maryland	G					Miami is 7-8 all-time vs Maryland but last met in 2006 (just the 2nd ACC meeting). The Hurricanes did go 3-1 in November last year but over the last 4 seasons are 6-10.
Nov. 13	at Georgia Tech	G					Last year QB Jacory Harris threw for 270 yds & 3 TD's & UM's D held GT to 228 ttl yds. Miami snapped a 4 gm losing streak to GT after allowing 472 yds rush last time here.
Nov. 20	Virginia Tech	G					The Hurricanes are 2-5 vs the Hokies and have topped 16 points just once since 2003. LTH on Thursday night Miami had a season high 7 sacks in the 16-14 win.
Nov. 27	USF	G					LY's win completed UM's sweep of non-conf foes. These 2 are signed to play each other every yr till '13 on TDay wknd. USF is 10-2 vs tms from the state of FL, but both losses are to UM.

VIRGINIA TECH HOKIES

QB Tyrod Taylor

POSITION OUTLOOK FOR 2010

QUARTERBACKS - In '06 Sean Glennon (PS#21) started all 13 and threw for 2,191 (56%, 11-11). In '07 VT signed Tyrod Taylor (PS#3) who drew many comparisons to Michael Vick. Due to injuries and coaches decisions, Glennon and Taylor split time. Glennon took control by year's end and threw for 1,796 (61%, 12-5). Taylor threw for 927 (54%, 5-3) with 429 rush (4.2). In '08 HC Frank Beamer made a surprising announcement that Taylor would RS. After losing the opener to EC, Beamer reversed his decision. Taylor started 10 and threw for 1,036 (57%) but with a poor 2-7 ratio (738 rush, 5.0). Glennon (4 st) threw for 743 (60%, 3-5). They also used TE Greg Boone in the "Wild Turkey" formation (1 pass, 76 rush yds). Taylor was the clear-cut starter in '09 and showed obvious improvement (2311, 56%, 13-5, 370 rush) as 31.6% of his comp's were for 20+ yds (11.1% in '08). He had streaks of 105 and 84 att's without an int. Without an exp'd bkp Taylor ran less. RFr Ju-Ju Clayton's (PS#185) first collegiate pass was an 80 yd TD vs BC but that was his only completion on 5 att's (5 gm). Logan Thomas (PS#3TE) battled Clayton in Aug but RS. Not in the PSL is Will Cole (6'0" 195 rFr, PS#267). VT did not run the Wild Turkey until late in the yr (Boone 2 rush, 1 pass). Taylor should be one of the ACC's top QB's in 2010.

RUNNING BACKS - In 2008 rFr Darren Evans (PS#16) took the starting job and set the ACC single season frosh rushing record with 1,265 (4.4). Unfortunately Evans tore his ACL in Aug '09 so the top returnee was soph Josh Oglesby (PS#75, 88, 2.3 '08) and he battled rFr Ryan Williams (PS#11) and true frosh David Wilson (PS#8). All 3 RB's were banged up in Aug so they moved in WR Tony Gregory (6'0" 186 rFr, PS#113) and prepped walk-on rFr Zac Evans (5'10" 194 So) for PT. They opted to play true frosh David Wilson (5'10" 211 So) more in Wk 2 and he along with Williams, became the first VT duo ever to top 160 each in the same game. Williams did have a costly fumble vs NC (4Q) but after that played with a vengeance and broke Evans' frosh record with 1,655 (5.6) with an ACC record 22 total TD's (1st Fr in ACC to lead conf in rush and scoring). QB Taylor was #2, Oglesby was #3 (335, 4.3) and Wilson #4 (334, 5.7). Not listed below is Kenny Lewis (5'9" 206 Sr, PS#49, 657 career yd, inj LY). This yr the only loss is FB Kenny Jefferson (2 st) and RB coach Billy Hite calls this his strongest backfield in 32 years and I rank it the #2 overall RB unit in '10 (pg 12).

RECEIVERS - In '08 VT had to replace THREE NFL DC's and their top returning WR had just 3 rec. The inexp showed as there were numerous games with key dropped passes. VT was one of just 2 teams left in the FBS that did not have a WR with a TD catch when they finally got one in Wk 11. True frosh Jarrett Boykin led with 441 (14.7) while rFr Danny Coale was #2 with 408 (11.3). TE Greg Boone added 278 (12.6) while true frosh Dyrell Roberts (PS#94) had 227 (13.4). Last year all 4 ret'd and Boykin improved to 835 with an outstanding 20.9 ypc and Coale was #2 with 614 (20.5). Roberts had 390 (17.7) and rFr Xavier Boyce added 88 (11.0). This year they lose TE's Boone (12 st, 7 rec) and Sam Wheeler (2 st, 2 rec). Not in the PSL are Nubian Peak (5'11" 183 rFr, PS#125), DJ Coles (6'3" 222 So, PS#38), Ben Barber (5'11" 212 rFr, PS#92), Austin Fuller (6'2" 205 So, PS#126) and TE's George George (6'3" 265 So), Randall Dunn (6'2" 245 So) and Rob Stanton (6'5" 234 Sr). This is VT's most experienced rec corps in 3 yrs.

OFFENSIVE LINE - VT had mostly exp'd O-lines in the first six years of the decade with the avg ypc during that span being 4.55. In '06 they had to replace 3 st'rs (all 1st or 2nd Tm ACC). The less exp'd unit had their worst ypg (113, 3.2) rush since '72 (107) while allowing 9% sks (29). In '07 VT had to replace 2 st'rs and RT Ed Wang only started the last 8. The rush total improved to 134 ypg (3.3), but VT allowed a mind-boggling 54 sks (14.2%). In '08 VT had to replace a #1DC but moved up to 174 ypg (3.8) but still allowed the highest sk% (14.5) in FBS. Last year they had to replace 2 multi-yr starters but returned 4th yr starter OG Sergio Render. They were more athletic with 4 ex-TE's in the spg 2 deep. VT improved to 208 ypg rush (4.7) with 31 sks (12.4%). This year they lose 2nd Tm ACC LG Render (12 st, 4Y st'r), 2nd Tm ACC LT Ed Wang (13 st, 3Y st'r, #5DC BUF) and C Richard Graham (5 gm). Six return with starting exp and while their career starts dropped from 90 to 54, this unit should be just as solid as the '09 version.

DEFENSIVE LINE - VT always has an exceptional run defense but in '08 they had to replace 3 st'rs (1st Tm ACC DT, #5DC DT, #3DC DE). Their numbers slipped to their "worst" in 4 yrs at 104 ypg (3.2) with 35 sks. In '08 they rotated 3 DT's and 3 DE's and 5 of the 6 ret'd in '09 so it was very surprising to me that VT allowed 128 ypg rush and 3.6 ypc (highest S/'92!) This year the losses are heavy as gone are 2nd Tm ACC DE Jason Worilds (13 st, 49 tkl, 4.5 sk, #2DC PIT), DT Cordarrow Thompson (13 st, 25 tkl, 1.5 tfl), DE Nekos Brown (13 st, 56 tkl, 6.5 sk) and DT Demetrius Taylor (5 st, 31 tkl, 5 tfl). Not in the PSL is Andrew Hutchings (6'2" 275 Sr). This unit is not as exp'd or talented as '09 and will not match the last 2 years' sack totals but could actually improve vs the rush.

LINEBACKERS - In both 2008 & '09 VT had to replace their #1 and #2 tkl'rs. While they had just one starter ret last year, backup Cody Grimm was actually the #3 tkl'r (71, 7.5 sks) in '08. Cam Martin (13 st '08) was not 100% and lost his job (20 tkl). This year they lose their #1 tackler in 3rd Tm AA Grimm (13 st, 106 tkl, 12.5 tfl, #7DC TB), Martin, Mark Muncey (6 tkl, 1 sk) and Jake Johnson (8 sts, #6 tkl'r) who transferred. Not in the PSL is Jack Tyler (5'11" 223 rFr, PS#329). Grimm was ACC POW 3 times and was tied for 1st in the FBS with 7 FF. This time they return their #2 and #7 tkl'rs making them equal to '09.

DEFENSIVE BACKS - VT always has a solid pass D and in the last 6 years they have finished #11, #2, #13, #2, #25 and #9. Last year's unit had 3 st'rs back and yielded 47.4% (9-11 ratio). This year they lose 2nd Tm ACC FS Kam Chancellor (13 st, 68 tkl, 2 int, 5 pbu, #5DC SEA), CB Stephan Virgil (10 st, 36 tkl, 1 pd), ROV Dorian Porch (9 st, 42 tkl, 4 pd) and ROV Matt Reidy (21 tkl). CB Rashad Carmichael snagged 6 int LY (4.26 spd) and is one of the ACC's top CB's. Not in the PSL is Mark Carter (6'0" 177 rFr). Three return who started in the bowl. ROV Davon Morgan started the last 4 and had more tkls (47) than Porch. Despite all that, this unit figures to drop a few notches in my PDR.

SPECIAL TEAMS - Beamer coaches this unit himself and VT almost always finishes near the top of my ST rankings (#1 finish in '07). In '08 they had to replace their K and top KR and it was shocking to me that VT finished a lowly #79. They gave up 3 PR TD's for the first time in over 50 yrs and also had 2 punts blk'd incl one that was ret'd for a TD vs EC. VT did lose their 2 gunners Zach Luckett (susp) and Brandon Dillard (inj) unexpectedly. Last year I called for them to be one of the most improved ST units in the country and VT did not disappoint (#13). For the 3rd straight year they had a 1st time senior starter at K and Matt Waldron (PS#17) hit 20-23 (long 46). P Brent Bowden improved his net from 33.2 to 37.6. True frosh PR Jayron Hosley (PS#60) did well (11.2) while David Wilson (19.1) and Dyrell Roberts (31.9) split the KR duties. This year they lose both their K and P (#6DC TB) but I am sure Beamer will field another solid unit.

COACHES - I think Frank Beamer is one of the most outstanding coaches in the NCAA. He was a DB at VT from '66-'68 and the Hokies were in just 6 bowl games prior to his arrival ('87). Beamer filled the large shoes of Bill Dooley who went 64-37-1 from '78-'86. Beamer had four losing seasons in his first six including 2-8-1 in '92, but amazingly VT stuck with him and has been greatly rewarded. Beamer has not only taken them to 17 bowls since '93 but has made them a National Title contender. He has been the ACC COY twice. OC Bryan Stinespring is entering his 18th year here (OC S/'02). Stinespring has been much maligned recently with VT's offense ranking #100 and #103 in '07 and '08 but they improved to #50 in '09. Bud Foster has been with VT S/'87 and the DC since 1995. He was a Broyles Award finalist in '99, '01 and '05 and won the Award in '06 (only 4x finalist in awards history). Foster's defense was #1 in the FBS in '05 and '06, #4 in '07, #7 in '08 and #12 last year. He interviewed for the Clemson HC job in '08 and turned down a DC offer from Georgia in Dec.

PHIL'S FORECAST

In 1999, the Hokies played in the National Title game going 22-2 in a two year stretch. They are one of just 3 teams in the NCAA that have been to 17 straight bowls (Fla, Fla St). In their first year in the ACC (2004) they had just 10 st'rs back and were actually picked to finish 6th, 7th or 8th. I had them rated higher than all the others at #4 and they even exceeded my expectations as they won the ACC Title. VT almost knocked off undefeated Auburn in the Sugar Bowl finishing #10 at 10-3. The Hokies were 8-0 and #3 in '05 but lost to #5 Miami at home and later dropped the ACC Title game. After the Gator Bowl win they finished #7. VT outgained ACC foes by a conf best +128.8 ypg. In '06 they had just 9 ret st'rs (fewest ACC) but went 6-2 in the conf and 10-3 overall. Their D allowed just 9 FD's in the bowl but VT came up short vs UGA and finished #19. In '07 the Hokies had 14 fifth year seniors and were the preseason pick to win the ACC (#9 AP). They were destroyed by eventual Nat'l Champ LSU 48-7 and they also had some unimpressive wins early but got back to the ACC Title game and beat BC for their 2nd title in four years. Surprisingly, they fell short in selling their allotment of bowl tickets and lost the Orange Bowl to Kansas finishing #9. Beamer came into '08 at 5-24 vs Top 10 teams (only 2 wins vs #8 or better). VT was +11 in TO's in '07 and lost its top rusher, top 4 rec and top 3 tacklers and had just 10 ret st'rs (2nd fewest ACC). Despite those factors, I still picked them first in the Coastal. Beamer may have done his best coaching job yet. With a very young team they had numerous close wins incl getting an int vs Virginia in the EZ. Despite a 3-3 start in the ACC they won their final 2 and had the right teams lose to amazingly get to the ACC Title game where they throttled BC 30-12. VT was 0-4 in BCS bowls since 1996 but in the least anticipated BCS bowl, beat Cincy 20-7. Despite the Hokies' 5-3 reg ssn record in the ACC they were only +34.0 ypg (5th best). Last year Tech had 15 ret st'rs as they lost 1,000 yard rusher Darren Evans (ACL) over the summer. They did have to play their 2 toughest games on the road (in Atlanta) facing eventual National Champ Alabama and ACC Champ GT. VT is almost unbeatable on Thurs night games but lost at home to NC and finished the regular season 9-3. They had climbed as high as #4 in the polls (prior to GT) but dropped as low as #22. They won their last 5 by 24 ppg and finished #10 in the AP poll. This year VT only has 12 ret st'rs but their +126.4 ypg was the best mark in the ACC (34.4 ypg better than GT). They now have 2 RB's that have topped 1,000 yards and an exp'd QB. VT faces Boise St, NC and Miami all away from home and loses 8 of their top 13 tacklers but still remains a legitimate National Title contender.

NORTH CAROLINA TAR HEELS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - In '07 NC ret'd both players who started in '06 in Joe Dailey (7 st) and Cameron Sexton (5 st). I projected that rFr TJ Yates would win the starting job and he did, becoming the 4th straight 1st year starting QB for NC. Yates had just 13 practices as the #1 QB prior to the opener. After 3 games, he was completing 66% (9-3) and had 2 of the school's all-time Top 10 passing performances (344 vs EC and 339 vs UVA). Surprisingly, Yates' numbers regressed over the final 9 (58%, 5-15 ratio). The coaches did notice a loss of velocity and he had shoulder surgery in the offseason and missed spring '08. Yates bulked up to 215 lbs and had the team poised for a big season as they led Virg Tech 10-3 but he broke his ankle and missed 6. Mike Paulus (PS#6) came in vs VT but Sexton started the next 6 until Yates ret'd. Yates threw for 1,168 (60%, 11-4). Last year Sexton transferred and Paulus lost the bkp job to rFr Braden Hanson (PS#11). Yates started all 13 and threw for 2,136 (60.3%) but with only a 14-15 ratio. He is already the school's #2 career passer. Hanson played in 3 (2-6 pass, 2 int). They also used RB AJ Blue (PS#81) in the Wildcat (1 pass). Despite returning a 3 year starter I expect rFr Bryn Renner (PS#20) to strongly contend for (and possibly win) the job. No matter who starts, they should have improved stats.

RUNNING BACKS - NC used to be called "Running Back U." They have had twenty-four 1,000 yard rushers (most in NCAA until USC passed them in '05). They had 12 straight 1,000 yard rushers from 1973-'84 but have had just one in the last 16 years ('97 Jonathan Linton)! In 2007 true frosh Greg Little (PS#6) moved over from WR at the end of the year and started the last 2. He was the clear cut starter into '08 but lost his job to Shaun Draughn (PS#128), who was at SS as a rFr (5 tkl). Draughn (6 st) led with 866 (4.4). Little had 339 (4.3). Ryan Houston (PS#21) entered when NC was inside the 10 and rushed for 299 (3.9) and led with 8 TD's. Last year Draughn bulked up 10 lbs and had 199 (5.9) vs 2 FCS foes but vs 8 FBS foes had just 359 (4.0). He suffered a shoulder injury vs Duke (1 att, 9 yd) and missed the last 4. Houston, who does not have the breakaway speed (bruiser), rushed for 713 (3.7). Johnny White (PS#84) added 143 (7.5), AJ Blue (6'2" 225 So) had 33 (1.8) and FB Anthony Elzy (5'10" 215 Sr, PS#52) had 40 (3.6). This year they only lose FB Bobby Rome (PS#48QB, 3 st). Not listed below are Matt Kolojejchick (5'10" 185 So), Hunter Furr (6'0" 205 So, PS#90), Steven Hatley (5'10" 210 Jr), Kenny Owens (6'0" 225 Jr) and FB Curtis Byrd (6'1" 230 Sr). The unit should maintain better health and have much improved numbers.

RECEIVERS - As a true frosh in 2006 Hakeem Nicks led with 660 (16.9). In '07 he set the school record for rec in a season (74). In '08 Nicks became NC's career rec leader as a Jr and was the first Tar Heel to top 1,000 rec (1222, 18.0). He holds 14 NC records (217 yds in bowl). Brandon Tate, who was leading the ACC in all-purp yd, had 376 (23.5) in the first 6 of '08 but was lost for the year. RB Greg Little moved back to WR and had 146 (13.3). Nicks became the Heels' 1st ever #1DC WR in '09. They also had to replace Tate (#3DC), TE Richard Quinn (#2DC) and Brooks Foster (#5DC). The Nicks-Tate-Foster combo combined for 1,932 (16.9) while last year's inexp'd top 3 comb for 1,483 (11.2). Little led with 724 (11.7) and became only the 5th UNC player to top 60 rec's. True frosh Erik Highsmith (PS#166) surprisingly beat out a lot of VHT's and had 425 (11.5). Zack Pianalto (miss 4) had 334 (10.1) and is NC's all-time rec leader at TE (old record, Freddie Jones '96). True frosh Jheranie Boyd (PS#8) had 214 (17.8) and was also used on reverses (130, 6.5). Adding depth are Ryan Taylor (6'3" 240 Sr, PS#118), Christian Wilson (6'3" 235 Jr, PS#33, 3 st 2Y), Lee Browne (5'10" 175 Jr), Quentin Plair (6'1" 185 Sr) and TE's Nelson Hurst (6'4" 245 So, PS#53, Miss St trans) and Alex Asher (6'3" 210 So, PS#284). This year the unit returns intact with good talent and a lot more experience.

OFFENSIVE LINE - In Davis' first year NC had 2.5 st'rs ret but their C missed 6 and they avg just 99 ypg rush (3.0), their fewest since 1944 (49 ypg), while allowing 37 sks (10.1%). In '08 they had 4.5 st'rs back but only improved to 123 ypg (3.5) with 28 sks (8.8%). Last year they had to replace a pair of 3 year st'rs then 3 OL from the 2 deep were lost over the summer. They had 3 st'rs back (30 '08 sts) but C Lowell Dyer only started 4 (inj). They only improved to 133 ypg rush (3.6) with 26 sks. This year they lose LT Kyle Jolly (13 st, 3Y st'r) and Dyer (18 car st). Not listed below is Sam Ellis (6'5" 285 Sr). They have 4 st'rs ret (7 w/st exp) and add in PS#3 James Hurst (IFS). I will call it the best O-line that Davis has fielded here at NC.

DEFENSIVE LINE - The Tar Heels had one of the best D-lines in the country in both 2000 and '01 but then allowed 4.8, 4.9, 5.2, 3.5 (4 ret st'r) and 4.5 ypc the next five years. In Davis' first year they had to replace 2 st'rs but improved to 3.5 ypc. In '08 Davis had to replace 2 st'rs (#1 and #7DC's) and they allowed 139 ypg (3.7). Last year in the magazine I said they had their best D-line since '01 as the entire 2 deep ret'd and they had 6 VHT's. They also had great bulk inside with 4 DT's at 300+ lbs. That forecast was spot on as the Heels allowed just 96 ypg rush (2.8) with 33 sks. DE Robert Quinn was #2 in the NCAA in negative yds (117). They lose DT Cam Thomas (13 st, 23 tkl, 2.5 tfl, #5DC SD), DE EJ Wilson (12 st, 49 tkl, 12 tfl, #4DC SEA) and DT Aleric Mullins (15 tkl). Four return with starting exp (6 VHT in 2 deep) incl 1st Tm ACC Quinn and 2nd Tm ACC DT Marvin Austin. While not as exp'd as '09, this unit is loaded with NFL prospects.

DT Marvin Austin

LINEBACKERS - When Davis took over he did bemoan a lack of depth at LB saying most teams that play a 4-3 have 10 to 13 LB's, and they were nowhere near that. They've gotten better depth in each of his years. Last year they lost their defensive MVP (#2 tkl'r) but had 2 of 3 st'rs returning. They moved WLB Quan Sturdivant to MLB but he moved back to WLB for the final 5 while "true" frosh Kevin Reddick (Hargrave), started the final 5 at MLB. NC allowed just 17.1 ppg, their best since 1997. This year they only lose SLB Kennedy Tinsley (#11 tkl'r, 0 st) and return their #1, #3, #8 and #9 tkl'rs. Sturdivant earned 1st Tm ACC and Bruce Carter was 2nd Tm and this figures to be one of the ACC's elite LB corps.

DEFENSIVE BACKS - In 2007 NC had 3 frosh starting but their inexp'd unit (1 ret st) climbed from #103 in my PDR to #94. FS Deunta Williams (PS#30) was the ACC Rookie of the Year (1st Tm Frosh AA). A veteran unit in '08 only improved to #74 allowing a solid 15-20 ratio. Last year they had to replace a 1st Tm ACC SS but had 7 of the top 8 back. CB Kendric Burney set an ACC record with 170 IR yds vs Mia then set a school record with his 3rd career IR TD vs BC. He did have another int result in a TD when he handed the ball off on an 89 yard IR. As expected, NC made big strides moving up to #17 (58.6%, 10-19). They only lose FS Melvin Williams (31 tkl) and CB Jordan Hemby (12 tkl). NC has all 4 who started all 13 back including two 1st Tm ACC (FS & CB) and a 2nd Tm ACC SS. Adding depth are Peter Mangum (5'10" 175 Jr), Josh Hunter (6'2" 185 rFr, PS#80), Brian Gupton (6'3" 195 Jr) and Curtis Campbell (6'2" 205 rFr). This is the ACC's best secondary and is my #8 DB unit in the FBS.

SPECIAL TEAMS - In '07 Davis inherited my #22 ST unit including K Connor Barth (10-10 FG's, long 54 '06) as well as their top returnman, Brandon Tate. Davis said for the team to have outstanding ST's coverage, they needed to have more than 10 LB's and be deeper in the secondary. NC dropped to #47 but did block 3 punts. In '08 they had to replace Connor Barth (NC all-time FG leader). His brother Casey hit 10-15 FG (L/42). Tate was on his way to becoming an AA returnman as he had 397 all-purp yards vs McNeese topping Derrick Fenner's 1986 school record (339). Tate set the school record for career ret TD's (6) topping Charlie "Choo-Choo" Justice's record ('46-'49) before being lost vs ND (22.6 avg PR). LB Bruce Carter had 5 blk'd kicks in '08 incl 3 punts vs Conn. Overall they finished #22 but had to replace Tate and their P (34.0 net) in '09. Barth hit 21-25 FG (ties UNC single season record) but had a long of just 42 with 2 TB on 66 KO. New P Grant Schallock avg 40.3 (35.2 net). Johnny White was the top KR in '08 (25.3), but slipped to 20.5. The top PR was Da'Norris Searcy (14.6). NC slipped to #86 but with everyone back, should crack the Top 25.

COACHES - In 2007 the Tar Heels brought in Butch Davis, who helped assemble a Miami team that went on to a couple of undefeated reg seasons in 2001-02, guiding them out of probation. Davis was 51-20 in 6 years at Miami (4 bowl wins). He did not have much success in the NFL with Cleveland but is acknowledged as a solid college HC and a fantastic recruiter. His OC is John Shoop who was the OC for the OAK Raiders at the end of '06. In '08 he brought in DC Everett Withers who was the TEN Titans' DB coach from 2001-'06 and the DC at Minnesota (Big Ten) in '07. In his first year here NC trimmed the ppg allowed from 24.5 to 21.2 (17.1 '09). In '07 Davis brought in assoc HC/DL coach John Blake from Neb who is one of the top recruiters in the nation and was Okla's HC from 1996-1998. For the first time S/'99 the staff returns intact.

PHIL'S FORECAST

In 2007 Butch Davis took over a team that had been to one bowl the previous five years and had not finished above .500 in that span. The 2006 squad finished 3-9 (-66.1 ypg ACC play, 3rd worst). In '07 he had just 9 ret st'rs (fewest in the ACC) and I thought Davis did a tremendous job. They could have easily had a much better record than 4-8 as they had 6 close losses. Davis was the first NC coach to win his first reg ssn game here since Dick Crum (1978). In '08 he had 18 ret st'rs and they were my #2 Most Improved Team. If not for two key injuries, NC could have been playing for the ACC Title, which they have not won since 1980. They did have only 11 seniors on the '08 roster. The first key injury was when QB TJ Yates was injured vs VTech. NC led at the time but lost thanks in part to 4 TO's. Yates started just 6. The second came when WR Brandon Tate was lost for the year (Tm MVP at that pt). They still managed to finish 8-4 and had a close loss in the bowl (WV QB Pat White's final gm). Despite their 8-5 overall record, they were actually outgained by a 365-321 avg. Last year while they had just 5 road games, they were all vs '08 bowl teams and NC was fortunate to match the previous year's 8 win total. Against Conn they trailed 10-0 but UC lost their starting QB and NC rallied for the win. At 3-0 they were destroyed by GTech (406-154 yd deficit) and then were upset by Virginia 16-3. The next Thur, in their first ever Thur night HG on ESPN, they led Fla St 24-6 in the 3Q but lost 30-27. They stunned VT on the road on another Thur night, where the Hokies are almost unbeatable and after beating Duke they got a couple of return TD's to get past Miami 33-24 despite being outgained 435-329. BC turned it over 6 times including 2 return TD's which put NC up 21-0 early and the Tar Heels won 31-13. They led NCSt 24-14 but lost by 1 and in the bowl, lost to a solid Pitt team, 19-17. This year they have 19 ret st'rs which is #1 in the ACC. They were 4-4 in the ACC (-9.4 ypg). The D has an ACC high 233 career sts ret incl 6 who turned down a shot at the NFL. NC has one of the best D's in the country (best ACC) and 7 of my 9 sets of power ratings call for a double digit win season. They are a darkhorse National Title contender.

GEORGIA TECH YELLOW JACKETS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - In former HC Chan Gailey's 6 year tenure this position was not a strength. They completed 55% in his first year. With a true frosh starter in '03 they dropped to 53%. The next 4 yrs GT QB's combined to hit 49, 47, 47 and 49%, the 2nd lowest 4 year comp % in the FBS. The '07 starter opted to transfer in '08, and the '07 backup, true frosh PS#16 Joshua Nesbitt (13 att, 339 yd rush) became the frontrunner. Nesbitt was the perfect fit for the new offense in '08 and was backed by true frosh Jaybo Shaw (PS#57). Nesbitt threw for just 808 (44%, 2-5) with 693 rush (4.0). He missed all or parts of 4 with injury. Shaw threw for 321 (63%, 2-1) with 200 rush (3.2). Last year Shaw broke his collarbone in Aug (miss 1H yr). Nesbitt doubled his pass yds to 1,701 (46.3%, 10-5) and rushed for 1,037 (3.7). Shaw played in 6 (2 att, 51 rush yd). RFr Tevin Washington (6'1" 203 So, PS#136) hit 1-1 but lost a fumble in his only game. Shaw transferred after the season. Not listed below are David Sims (5'11" 219 rFr, PS#42) and Quentin Sims (6'3" 197 So, WR who may get a look at QB in spg). I look for Nesbitt's numbers to improve again.

QB Joshua Nesbitt

RUNNING BACKS - Oklahoma transfer Tashard Choice (PS#59) rushed for 1,473 (5.0) in '06 and 1,379 (5.3) in '07. True frosh Jonathan Dwyer (PS#5) was #2 in '07 (436, 5.3). In '08 they had to replace Choice. In the new offense, Dwyer broke off some big runs including a school record 88 yd TD run vs Miss St (Bob McCoy, 87 yd'r in 1948) and an 85 yd TD run vs NC. He finished with 1,395 (7.0) and was named the ACC OPOY. Roddy Jones (drafted by White Sox out of HS), set a school record with 16.5 ypc vs Georgia (214 yd) and was the #2 RB (690, 8.5). Connecticut transfer Lucas Cox (6'0" 251 Sr) rushed for 200 (7.7). Last year all 3 ret'd and they added in Anthony Allen, who rushed for 1,102 (4.6) in 9 starts at L'ville (2 yr). Dwyer took the first play of '09 74 yds for a TD. Dwyer did not top 100 in any of the first 3 but led with 1,395 (5.9). Jones finished with 345 (6.5) and Embry Peeples had 170 (5.5) and was the #2 rec (244, 30.5!). Allen avg 9.7 ypc on his 64 att's (618) and avg 22.4 ypc on his 5 rec. Not listed below are Preston Lyons (6'0" 189 Jr, PS#351) and Daniel Drummond (6'3" 234 rFr, PS#80, inel 1st 10 TY). Dwyer left early for the NFL (#6DC PIT) but this will still be a productive unit.

RECEIVERS - In '03 under Gailey, Jonathan Smith (#7DC '04) set school season records with 78 rec and 1,138 yds. Calvin Johnson (#1DC '07) broke Smith's yardage record with 1,202 (15.8) in '06. In '07, Demaryius Thomas was #2 with 558 (15.9). Greg Smith led with 588 (15.9) but moved to AB in '08 and Thomas led with 627 (16.1) in the option offense. Last year Thomas set a school record avg 25.1 ypc on his 46 rec (1154 yd). Walk-on Kevin Cone started the first 3 but then played ST and was lost to injury (0 rec). True frosh Stephen Hill (PS#97) added 137 on 6 rec. Not listed below are Tyler Jarry (5'11" 172 rFr, PS#356) and Jamal Paige (5'10" 182 So, PS#348). Thomas opted to leave early for the NFL draft (#1DC DEN) so naturally this unit is weaker.

OFFENSIVE LINE - In '07 Tech ret'd 113 career sts. I called it the top OL of Gailey's tenure and indeed it was. The OL paved the way for a Gailey-era high 199 ypg rushing (4.7), their best totals since 1999 despite QB Bennett rushing for -13 yds (22 sks). Paul Johnson had to replace 2.5 st'rs (58 car sts ret) in '08. They lost 1 OL after 8 sts and another after 9. Naturally, running the option offense (QB Nesbitt 693 rush), the rushing numbers increased dramatically to 273 ypg (5.6) but they did allow 19 sks (11.5%, 4th worst FBS). Last year they had to replace 2 st'rs (#6DC) and 3 bkps but the 5 who started the final 4 were back. GT rushed for 295 ypg (5.2) with just 12 sks (7.1%). This year they lose 1st Tm ACC LG Cord Howard (14 st, 3Y st'r), RT Brad Sellers (14 st), RG Joseph Gilbert (14 st, 2Y st'r), C Dan Voss (13 gm, 13 st '08) and RT Clyde Yandell (9 gm). They do return 1st Tm ACC C Sean Bedford but have just 37 career sts back.

DEFENSIVE LINE - GT had one of the top DL's in the country in '08 but due to inexp at LB and a new DC, they allowed 120 ypg rush, with their 3.6 ypc their highest since '02. Last year they had to replace 3 longtime st'rs (#3, #7, #7 DC's) and one top backup. They did return super DE Derrick Morgan who earned ACC DPOY (12.5 sk) in '09. As expected, GT's numbers dropped to 152 ypg rush allowed and their 4.9 ypc was their worst in 27 yrs, with the D's 25 sks the lowest total of the decade. This year they move into a 3-4 and it's a more veteran group overall (6 w/st exp) despite the loss of Morgan (14 st, 1st Tm AA AFCA, #1DC TEN). Not in the PSL are Euclid Cummings (6'4" 264 rFr, PS#153) and Albert Rocker (6'1" 244 Jr, PS#131, 6 tkl LY). Even with the loss of their star, I look for improved numbers.

LINEBACKERS - In 2009 GT appeared to only have to replace 3 players (comb 7 sts, 43 tkls). They then lost '08's #3 tackler, Kyle Jackson in July so they returned just one starter (#4 tkl'r) and 2 who had comb for 7 sts (32 tkl). This year they lose OLB Sedric Griffin (14 st, #3 tkl'r, 4 tfl) but return their #1, #7 and #8 tkl'rs and also get the return of Jackson. This is a much more exp'd unit but does have an extra spot to fill in the 3-4.

DEFENSIVE BACKS - In Paul Johnson's first year they had to replace 3 st'rs but SS Morgan Burnett tied for the lead in the FBS with 7 int and they finished #58 in my PDR. Last year the unit ret'd basically intact but surprisingly slipped to #88 allowing 61.6% and a 23-12 ratio. This year they lose Burnett (14 st, #2 tkl'r, 4 int, 4 pbu, #3DC GB), FS Martin Frierson (12 tkl) and DeRon Jasper (4 tkl) but have 7 back with starting exp (6 have 5+ career sts). Not in the PSL are Correy Earls (6'0" 196 Sr, PS#154), Jon Lockhart (6'0" 194 So, PS#207), Carl Miles (6'0" 178 rFr), Michael Peterson (5'11" 194 Jr, PS#264, 1 st LY) and Patrick Nordmann (5'9" 177 Sr). Despite the loss of their top guy, I look for GT to make solid strides in my PDR as they add in 2 VHT true frosh.

SPECIAL TEAMS - After finishing #119 in the FBS in KR D in '06 and #81 in my ST rankings, GT rose to #5 behind P Durant Brooks in '07. In '08 they had to replace their K and P. Paul Johnson's ST units at Navy finished #78, #76, #113, #69, #107 but improved to #15 in '07. GT dropped all the way to #97 in his first year here with the weaknesses being net punt (33.1), FG's (0-6 40+) and PR's (6.7). Last year Chandler Anderson took over at P and avg 42.3 (net 38.1). Soph Jerrard Tarrant had 2 PR TD's (13.4) and true frosh Orwin Smith was the top KR (24.0). Scott Blair struggled at times on FG's but hit 14-20 including 5-7 from 40-49 (long 49). He had just 1 TB on 86 KO. Tech moved up to #64 and with everyone back, should show continued improvement.

COACHES - Paul Johnson was 62-10 at Georgia Southern and was IAA National Coach of the Year for four straight seasons (1997-2000). In six years at Navy, he guided them to 5 bowls and won five straight Commander-in-Chief's Trophies. In 2004 he was named the Bobby Dodd National COY. In his first year here Johnson was named the ACC COY and GT knocked off rival Georgia for the 1st time since 2000. Johnson serves as his own OC as he did at Navy. The new DC is former Virginia HC Al Groh. Groh was 59-53 in 9 seasons at UVA and hasn't been a college coor since 1998, when he was OC at South Carolina. Groh will change the defense from a 4-3 to a 3-4 in 2010.

PHIL'S FORECAST

GT has now been to a school record 13 straight bowls. In five of Gailey's six seasons, they finished with exactly 7 wins and in 2006 GT got to the ACC Title game (9-5). That '06 squad was led by AA WR Calvin Johnson and they landed their first Jan 1 bowl since 1999 getting as high as #13 AP. In '07 they opened strong demolishing ND in South Bend 33-3 and also beat #13 Clemson at home, 13-3. Unfortunately, after losing to rival GA for the 7th straight time they fell to 7-5 and Gailey was let go. DC Tenuta was the interim HC for the bowl (40-28 loss). GT was 4-4 in the ACC but +32.3 ypg (4th best). In '08 GT had to replace its top 4 tkl'rs and had just 9 st'rs back. Their 75 frosh and soph on the roster made them the youngest in the ACC. GT also only had 76 scholarship players. The Yellow Jackets exceeded my expectations by rolling to a 9-3 regular season. They did catch a break when Fla St fumbled into the EZ for a TB at the end trailing by 3. They ended their 7 year losing streak to Georgia despite trailing 28-12 at the half. GT was a league best +68.1 ypg. In the bowl they were thrashed by LSU 38-3. Last year they were a much more veteran team with 17 ret st'rs and 61 returning lettermen, tops in the ACC. In their conf opener, both GT and Clemson att'd a fake FG and amazingly GT scored a TD on both which was a key in their 30-27 win. The next week they were dominated by Miami on the road and went from #14 to out of the Top 25. GT rattled off 8 straight wins and rose to #7. They beat 2 ranked foes in that span (#22 NC, #4 VT) and also had not won in Charlottesville since 1990 but ended that streak. With a BCS berth riding on the ACC Title game the next week vs Clemson, GT was not fully focused for Georgia (6-5) and lost 30-24. They then beat Clemson for a 2nd time. In the bowl GT's powerful offense was held to just 155 yards in a 24-14 loss to Iowa. This year they once again are a veteran unit with 14 ret st'rs. GT was +8 in TO's in '09 and had 4 net close wins (pg 299). They were #2 in the ACC at +92.0 ypg. Their ACC Title was their first outright since 1990 and it was their first major bowl since 1966/'67. They have 434 wins in Bobby Dodd Stadium (most of any school at current site). GT is fully capable of repeating as ACC champs as QB Nesbitt works behind my #4 rated ACC O-line and despite losing RB Dwyer, they have my #2 set of ACC RB's. Al Groh brings in his 3-4 D so they will be stronger on that side. They play 4 Top 25 teams on the road and won't match last year's 11 win total but they are a legit ACC contender.

DUKE BLUE DEVILS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - In 2006, three QB's left the program knowing that the job was in Zack Asack's hands but he was susp over the summer. True frosh Thaddeus Lewis (PS#71) started the final 11 and threw for 2,134 (53%, 11-16). In '07 Lewis threw for 2,430 (55%, 21-10) while Asack played in 6 (22 att). Both ret'd in '08. Lewis was inj vs Clemson and missed VT (Asack started) and the team struggled without him, even going to the option. Lewis threw for 2,171 (62%, 15-6) while Asack threw for 162 (48%). Last year I called Lewis one of the top QB's in the ACC but mentioned that Sean Renfree (PS#16) would start to see time. Lewis had a great season throwing for 3,330 (61%, 20-8). Renfree led a comeback win vs Army and split plenty of snaps early but then tore his ACL in the 2H vs GT. He threw for 330 (68%, 4-2) and missed the spring but should be fine for the fall. They wanted to RS true frosh Sean Schroeder (PS#57) so after Renfree went down the bkp was soph P Alex King. Lewis leaves with 49 Duke school records (26 career) and is also only the 2nd QB in ACC history to top 10,000 yards passing (Rivers, NCSt). As Duke's first 2-time All-ACC QB, he will clearly be missed and with Renfree coming off the ACL injury, it may take him a while to regain last year's form.

RUNNING BACKS - Chris Douglas departed after the 2003 season as the school's career leading rusher and in his final year Duke avg 172 ypg rushing. They have struggled to run the ball since with the team avg just 94 (2.7), 127 (3.2), 98 (2.9), 64 (2.0), 106 (3.0) and 64 (2.2) the last 6 seasons. Re'quan Boyette led Duke in rushing in '07 with 432 (4.2) but missed '08 (MedRS) and numerous RB's took a crack at the #1 spot. True frosh Jay Hollingsworth (PS#110) led with 399 (3.7). Last year they had to replace their #2 and #3 backs. Boyette had regained his explosiveness in June but was then hampered with injuries. He played in just 9 (130, 2.1). Hollingsworth rushed for 179 (3.3) and rFr Patrick Kurunwune (PS#212) had 149 (4.4). VHT true frosh Desmond Scott (PS#19) DNP until gm 4 but rushed for 100 in his first start and led with 262 (3.7). This year they only lose Boyette (4 st) and true frosh Josh Snead (PS#64) was impressive in the spring. Scott will give them an improved rush attack this year and should have the Blue Devils' highest single season RB total since 2003.

RECEIVERS - Eron Riley (PS#151) led for 3 straight years with 643 (20.1) in '06, 830 (20.8) in '07 and 693 (11.4) in '08. True frosh Johnny Williams was #2 with 327 (10.9) in '08 and RB Hollingsworth was #3 with 188 (7.5). Last year they had to replace Riley but got some great additions. Soph Donovan Varner, who had 164 (7.8) as a true, led with 1,047 (16.1). True frosh Conner Vernon was #2 (746, 13.6) and Austin Kelly (142, 6 sts '08) was #3 (625, 11.6). Williams' numbers improved to 385 (12.4) and TE Brett Huffman added 167 (9.3). This year they lose 6'4" Sheldon Bell (5 rec) and Williams (5'10" 190 Jr) moves to CB. Not listed below are Georgie Kerber (6'2" 185 So) and TE's Danny Parker (6'4" 230 Sr, PS#44), Jack Farrell (6'2" 225 rFr, PS#69) and Ryan Hall (6'3" 235 rFr, PS#48). This is actually one of the ACC's top receiving corps and is much more experienced.

WR
Conner Vernon

OFFENSIVE LINE - From 2004-'06 Duke had just one returning starter on the front wall each year and they avg just 2.7, 3.2 and 2.9 ypc while allowing 39, 31 and 43 sks. Duke had just 12 career sts ret in '06 (FBS' youngest O-line). They finally had an exp'd group in '07 (5 st'rs ret'd). Stunningly, Duke dropped to 64 ypg rush (2.0), their lowest ypg of the modern era and also allowed 45 sks (11.7%). In '08 they only had to replace 2 st'rs and had the same starting 5 for all 12 but only improved to 106 ypg (3.0). They did cut their sack total in half to 22 (5.4%). Last year they had to replace 3 st'rs and the numbers dropped to a paltry 64 ypg rush (2.2), which was last in the FBS with 28 sks (5.6%). This year they only have to replace RT Jarrod Holt (11 st) and reserves Jeffrey Cowart (2 gm) and Robert Drum (1 gm). Seven of the top 8 return (6 w/st exp, 74 car sts) and this is by far Cutcliffe's best O-line here.

DEFENSIVE LINE - Duke had exp'd D-lines in '06, '07 and '08 and improved their rush D from 5.1 ypc in '05 to 4.6, 4.3 and 3.8 the next 3 years. Last year they had to replace 2 starters but Vince Oghobaase (PS#18) turned down a shot at the NFL. Oghobaase missed 4 (inj) and the stats were similar as they allowed 153 ypg (4.0) but the D had just 19 sks (27 in '08). This year they lose 3rd Tm ACC DT Oghobaase (8 st, 37 tkl, 7.5 tfl), DE Ayanga Okpokowuruk (12 st, 40 tkl, 6 sk), DT Kinney Rucker (4 st, 15 tkl), DT John Drew (1 st, 34 tkl, 4 tfl) and DE Jeremy Ringfield (7 tkl, 2.5 sk). Even with 24 sts ret from '09 (41 career), this unit is down a few notches.

LINEBACKERS - In 2008 Duke had a veteran squad with all 3 starters back. Last year they had to replace 3rd Tm AA Mike Tauiliili as well as their #8 and #17 tacklers. They did have 1 starter back in #2 tackler Vincent Rey. Rey, who moved from WLB to MLB, set a Duke record with 3 career FR TD's and led the team in tackles. This year they lose 2nd Tm ACC Rey (12 st, 98 tkl, 8.5 tfl) but are a more veteran group with 5 of the top 6 back including their #4, #7 and #14 tacklers.

DEFENSIVE BACKS - Duke finished #98, #102, #110, #109 and #99 from 2004-'08 in my pass D rankings. The 2008 unit was hit hard by injuries as their star CB Leon Wright was lost after 6 and Duke was down to 2 CB's and 3 S's at one point and couldn't play 6 DB's even if they wanted to. Last year they had to replace 3 DB's (comb 30 sts) but had Wright back and Cutcliffe said that he had to stay healthy as he was the best player in the secondary. Wright did start all 12 (3rd Tm ACC) leading with 5 int and 8 pbu. Duke improved to #85. This year they lose their top guy in Wright (12 st, #5 tkl'r) and S Catron Gainey (12 st, #2 tkl'r, 5 pbu) but have 6 of the top 8 back. Adding depth this year are Randez James (5'11" 185 So, PS#253) and Garett Patterson (6'0" 180 rFr, PS#222). While they do lose their top guy, this unit is more exp'd overall and they add in WR Johnny Williams (7 st, 31 rec '09) and should continue to improve in my PDR.

SPECIAL TEAMS - Under former HC Ted Roof, Duke finished #27 and #41 in my ST rankings in '04 and '05. The next two years they finished just #109 and #98 (3 of 11 FG's '07) and their spotty performances cost them many wins. Cutcliffe's final 2 units at Mississippi finished #37 and #31. Duke had everyone back in '08 but finished just #83. K Nick Maggio began the year as the starter but got the flu in August and lost some weight and strength. Maggio missed 2 FG's in the opener. Will Snyderwine took over and hit an outstanding 17-20 FG's (long 51) but had just 2 TB on 47 KO. P Kevin Jones had a 39.3 avg (32.9 tm net). Desmond Scott was the top KR (25.1) and Johnny Williams was the top PR (8.3). This year the unit returns intact and should improve upon their #71 finish of 2009.

COACHES - From 2004-'07 Duke won a grand total of one ACC game and in '08 they brought in veteran HC David Cutcliffe. Cutcliffe was the HC at Mississippi from the '98 bowl through 2004 (44-29) guiding UM to 4 bowls (3 wins). He was the only coach at UM to have 7+ wins in each of his first 5 years. Amazingly, Ole Miss fired him after his first losing season and then suffered through a 10-25 record the next 3 years. Cutcliffe coached with Tenn for 17 years and ret'd there in '06 for a 2 year stint as the OC. This year he turned down an offer to return to Tennessee as HC! He is known for working closely with QB's and some of his prized pupils include the Manning brothers and Heath Shuler. His co-OC's are Kurt Roper, who was the Tenn RB coach in '06-'07 and Matt Luke, who was the TE coach/recruit coor at Tenn ('06-'07). Last year the co-DC's were Mike MacIntyre and Marion Hobby, who was the NO Saints' DL coach in '06-'07. This year MacIntyre left to become the HC of San Jose St and Jim Knowles will share the DC duties with Hobby. Knowles was the HC of Cornell for 6 yrs ('04-09, 26-34).

PHIL'S FORECAST

In the past 47 years Duke has had just three 7+ win seasons! They occurred in 1988 and 1989 with Steve Spurrier at the helm and in 1994 during Fred Goldsmith's first season. Since their Hall of Fame Bowl game in 1994, Duke is just 31-140. That includes a 13-107 record in ACC play with EIGHT winless ACC seasons. In Ted Roof's final year as HC (2007) they only won one game, which broke the NCAA's longest losing streak at 22. Not only was Duke 0-8 in the ACC, they were -138.5 ypg (58.9 worse than #11). Prior to the year Roof did not make any promises about his 2007 squad but did say that the 2008 team would be bowl eligible before he was let go. David Cutcliffe inherited 16 ret st'rs with just 15 lettermen lost and Duke was coming off a year where it had 3 close losses. In my 2008 magazine I called for Duke to have as many wins as they had the previous four years combined (4) and the Blue Devils did not disappoint. Cutcliffe became the first Duke coach to win his opener here since 1994 (Goldsmith). Duke opened 3-1 (best start S'/94) and even beat a bowl bound SEC team (Vandy) on the road to move to 4-3. They suffered a tough OT loss at WF (missed FG in regulation) and QB Lewis missed a couple of games. Duke only finished 4-8 with a 1-7 ACC record and was -113 ypg which was 79.7 ypg worse than the #11 team. That 2008 squad had 21 seniors and last year they had just 11 ret st'rs and 8 scholarship seniors (five 5th year). They had just 56% lettermen returning but Cutcliffe did a great job. They had only 4 ACC wins this decade prior to LY's 3 wins. In a game that ended up being the difference between a winning and losing season, they lost to FCS Richmond in the opener despite playing in front of a crowd of 33,311 (largest at home S/'01). They were outgained by Army 385-236 but won by 16 thanks to 2 late IR TD's in a :16 span. After an expected 28 point loss to Kansas, they beat NC Central to go 2-2. They caught #6 VT the week after the Hokies' upset #9 Miami and only lost by 8. The next week Duke stunned NCSt on the road with QB Lewis throwing for 459 yards and a 28-28 game turned into a 49-28 win. After a bye, they had a 394-249 yard edge and beat Maryland 17-13. They then beat Virginia on the road, 28-17 with a 424-196 yd edge and were 3-1 in the ACC (first time they had 3 wins in a row in the ACC S/'89). Unfortunately they dropped their final 4 ACC games. Cutcliffe is now 0-9 in Nov here. Duke has won more away games under Cutcliffe in 2 years than they had in the previous 8 seasons combined. Cutcliffe surprisingly turned down the Tenn job to stay at Duke and the players believe they have turned the corner. Last year's squad did have just 4 sts lost all year but they are a more veteran team with 15 ret st'rs in 2010. While they were 3-5 in the ACC, they were -18.6 ypg which was 8th best. They do have to replace QB Lewis and face 8 teams that had 8 or more wins last year. While they play in the Coastal with 4 potential Top 25 teams and also draw Alabama, they do have 7 HG's. With Cutcliffe as HC, I give this much more veteran team a decent shot at bowl eligibility.

VIRGINIA CAVALIERS

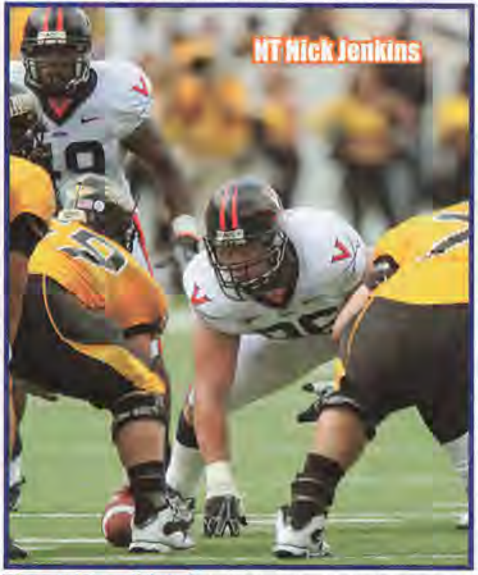
POSITION OUTLOOK FOR 2010

QUARTERBACKS - Jameel Sewell (PS#68) started the last 9 in '06 and threw for 1,342 (58%, 5-6). In 2007 he started all 13 and threw for 2,176 (59%, 12-9) with 279 rush (2.2). Sewell missed '08 (acad) and Peter Lalich (PS#15) started the first 2 but was susp and then transferred (Oregon St). Marc Verica (PS#113) became UVA's only option at QB. He threw for 2,037 completing a solid 64% but with just an 8-16 ratio. Against VT in the finale, CB Vic Hall started and rushed for 109 (6.8) with just 1 pass att. Last year they brought in a new OC in Gregg Brandon who likes mobile QB's. Sewell was eligible again and battled both Hall and Verica. Hall started the opener but missed the next 2 (hip) and Sewell took control. Sewell threw for 1,848 (53.8%, 7-7) and was the #3 rusher (167, 1.2, 7 TD's). He became just the 9th UVA QB to top 100 yds rushing in a game (104 vs VT). Hall spent most of his time at WR and hit just 4-7 passes (102, 5.1 rush). Verica got 1 start vs Miami and struggled. He threw for 156 (44.4%, 0-1) in 6 gms. This year Sewell (10 st) and Hall both depart. Adding depth are JC Poma (6'2" 225 Sr, PS#241) and this year's true frosh. While coaches like their own recruits, new HC Mike London made it clear that Verica is his starter out of spring. Despite losing their starter, the Cavs could improve upon last year's combined 52.1% and 8-8 ratio.

RUNNING BACKS - The Cavs have had just one 1,000 yard rusher the last 9 years (Alvin Pearman, 1037 in '04). In 2007, Cedric Peerman (PS#29) was leading the ACC in rushing and was on pace for 1,000, but he missed the final 7 (inj). He still led with 585 (5.2) and Mikell Simpson (PS#31) had 570 (5.0) and 402 rec (9.3). In '08 Peerman had just 96 in the first 4 (inj) but later emerged to lead with 774 (5.1) and led the ACC in receptions by a RB with 44 (4.4). Simpson played in 9 (inj, 262, 3.0). FB Rashawn Jackson had 62 (3.9). Last year they had to replace Peerman (#6DC). Simpson ran for 4 TD's vs Ind but injured his neck, was carted off the field and was never really the same. He finished #2 with 386 (4.5) and was the #3 rec (236, 8.7). The 245 lb Jackson led with 461 and an impressive 4.8 ypc. RFr Torrey Mack (6'0" 195, PS#24) had 73 (3.2) missing 3 (ankle). Dominique Wallace (PS#35) had 49 (3.5) but RS (inj, OFS '10). At the end of the year, true frosh Perry Jones got in 9 rush att's. This year they lose Simpson (4 st) and Jackson (10 st). Not listed in the PSL are FB's Raynard Horne (6'0" 210 Sr, PS#229), Max Milien (6'0" 210 Jr, PS#96), Curt Orshoski (6'2" 250 Jr) and Billy Skrobacz (5'9" 205 rFr). Despite losing their top 2 rushers, I look for improved numbers from the Cavs' RB's.

RECEIVERS - Last year the Cavs had to replace their top 4 rec's. The leading returnees were Jared Green (144, 12.0) and Kris Burd (7 rec). Green, who's one of the Cavs' fastest had just 124 (8.3) in '09. Burd led with 413 (13.3). Converted CB/QB Vic Hall (PS#5) was #2 with 274 (11.4). RB's were #3 and #4 while Tim Smith had 204 (13.6). Javaris Brown, who seemed to make a spectacular catch everyday in practice, was injured (6 gm, 136,19.4). This year they lose Hall (8 st at WR) but everyone else is back. Not listed in the PSL are Matt Snyder (6'4" 205 Jr, 1 st LY), Brian Oden (5'10" 190 So), Johnny Pickett (5'11" 160 So), Eric Thornton (6'3" 205 So) and TE's Kyle McCartin (6'4" 210 So, PS#295QB), Brendan Lane (6'6" 220 Jr) and Ryan Shaw (6'4" 220 So). Last year the top 3 WR's comb for just 891 yds and this is a much more exp'd group and should greatly improve upon that.

OFFENSIVE LINE - The Cavs' O-line struggled in each of former HC Al Groh's final 4 years ('06-'09). In '08, they had to replace 3 starters (#1DC) but LT Eugene Monroe ret'd. UVA dropped to 97 ypg rush (3.4), its lowest since 1959 (93.3) but allowed just 16 sks (3.6%). Last year they had 4 st'rs back but had to replace Monroe (#1DC, Jacobs Award winner). They expected true frosh Morgan Moses to start at LT but he went to Fork Union. They moved to wider splits, more like TTech's O-line but at the start of the year were unable to grasp the new blocking schemes. They allowed 17 sks in the first 4 gms (more than all of '08). Four OL's started all 12 but surprisingly they averaged just 99 ypg rush (2.9 ypc, lowest since 1981) and they allowed 41 sks (11.3%, highest S/'97). This year they lose C Jack Shields (12 st, 2Y st'r) and RT Will Barker (12 st, 4Y st'r). They have to learn new schemes again but have 57 career starts ret and get back true frosh Moses (PS#4) and this unit could improve.



DEFENSIVE LINE - In '07 the Cavs had all 3 st'rs back including star DE Chris Long. UVA improved to allowing just 107 ypg rush (2.9), its best total since 1994 (64 ypg, 2.2) with 43 sks. In '08 they had to replace all 3 st'rs (Long #1DC). Predictably the Cavs slipped to allowing 150 ypg (3.7) with 29 sks. Last year they only had to replace 1 starter but shockingly the numbers dropped to 174 ypg (4.2) with 22 sks. This year they only lose DE Nate Collins (12 st, 77 tkl, 6 sk). Not in the PSL is Tory Allen-Ford (6'6" 210 So, PS#382). UVA is switching to a 4-3 D under London and move OLB Cam Johnson (PS#59, 10 st) into the open DE spot and figures to be much improved.

LINEBACKERS - In '08 the Cavs ret'd their #1, #3 and #7 tkl'rs and despite having just two other starters back on defense, they still allowed just 21.7 ppg. Last year they had to replace a 2nd Tm ACC OLB (#2DC) and 2 other st'rs (top 3 tkl'rs gone). The top returning LB was Denzel Burrell (48 tkl) so the group was very inexp'd. ILB Steve Greer had 92 tackles, the most for a frosh since Darryl Blackstock (108) in '02. UVA allowed 26.3 ppg, their most since 2001. This year they lose OLB Burrell (11 st, #6 tkl'r, 2 sk), ILB Darren Childs (11 st, #3 tkl'r), OLB Aaron Clark (2 st, 17 tkl) and Cam Johnson (moves to DE). Not below is Darnell Carter (6'3" 250 Jr, PS#164). Even though only one starter returns, it is Greer, their leading tackler.

DEFENSIVE BACKS - The Cavs were just #83 in my PDR in '08. Last year they had to replace 2 st'rs as CB Vic Hall moved to offense but they did get the return of CB Chris Cook (18 st '06 and '07, miss '08 inj). In LY's magazine I projected them to have their best pass D finish since 2003 (#40) and the Cavs did not disappoint as they finished #30 (56%, 10-12). This year they lose CB Cook (12 st, 40 tkl, 4 int, 6 pbu, #2DC MIN) and SS Brandon Woods (9 st, 36 tkl, 3 pbu). Not in the PSL are Aaron Wilson (5'8" 165 So), Mike Parker (6'2" 210 Sr, PS#286) and Chris Broadnax (5'11" 205 So). Just like LY, they ret 2 st'rs and Corey Mosley (13 sts in 2 yrs) figures to plug into the FS spot so this unit is just as strong.

SPECIAL TEAMS - In Al Groh's 9 years ('01-'09), the ST units finished #76, #84, #39, #47, #7, #53, #68, #88 and #90. LY Robert Randolph hit a strong 17-19 (long 49). P Jimmy Howell avg 39.0 (35.6 net) in '08. Last yr he lost his job at one point to Nathan Rathjen (36.1) but Howell reclaimed it (tm net 34.6). Chris Hinkebein had 7 TB's on 33 KO's and Randolph had 0 on 19. Chase Minnifield did well on KR's (23.3) but the team avg just 6.3 on PR's. This year the unit returns basically intact and should improve.

COACHES - Al Groh was named ACC COY in 2002 and 2007 but did not get his contract extended. Last year his luck finally ran out and he was fired (59-53 in 9 years). Mike London returns to Virginia for the 3rd time (DC '06-'07 and DL coach/recruit coor '01-'04). London was the HC of Richmond the last 2 years leading the Spiders to a 24-5 record and an FCS Title in '08. The new OC is Bill Lazor who spent the last 7 years in the NFL (QB cch Seattle '08-'09). Lazor's last college post was as OC at Buffalo in '01 and '02. The DC is Jim Reid (Miami Dolphins OLB cch '08-'09). Reid has been HC of VMI ('06-'07), UMass ('86-'91) and Richmond ('95-'03) and London served on Reid's staff at Richmond in '95 and '96 (OLB coach).

PHIL'S FORECAST

Al Groh guided UVA to winning records in 5 of the last 8 years (5 bowls). They finished ranked twice as they were #22 in '02 and #23 in '04. In 2006 Groh called it a rebuilding year and in '07 had 19 st'rs back and made my Most Improved List. UVA won 9+ games only 5 times in the 112 years prior but Groh thought he had a shot at it in '07 and he was not disappointed. They did become the first team in NCAA history to have 5 wins by 2 pts or less in the same year. UVA climbed to #16 and hosted #8 VT with the ACC Coastal Title on the line. They lost that game and then blew a 28-14 4Q lead in the bowl vs TT to finish 9-4. In '08 they had just 11 ret st'rs and I termed it a rebuilding year. UVA opened up miserably at 1-3 including a 31-3 loss to Duke but would rally for a 5-7 finish including wins over #18 NC and #21 GT. If not for an int in the EZ with 2:15 left at VT, they would have made it to a bowl again. Last year they once again had just 11 ret starters losing their top RB, top 4 rec's, top 4 tacklers and had just 36 lettermen back. They had just 54.9% of their tackles and 47.3% of their offensive yards returning and had to replace four NFL DC's including a #1 and #2. UVA also played a tough sked facing 9 bowl tms. For the 2nd straight year the season started out miserably at 0-3 incl a loss to William & Mary. They could have beaten SMiss on the road as they led 27-10 at the half and the next week Groh appeared to be turning it around for a 2nd straight year as they upset NC 16-3. They routed Indiana 47-7 and then beat MD on the road 20-9 to move to 3-3. They were 2-0 and in first place of the Coastal when they blew some scoring opportunities early and lost to GTech by 25. After GT ran for 362 yards on them, Duke passed for 343 the next week. After a blowout loss to Miami, UVA was SOD at the BC12 with :17 left and lost by 4. They suffered expected losses to Clemson and VT to drop their final 6 and Groh was shown the door. UVA did not gain 300 yards in an ACC game all year and was -141.5 ypg. This year the Cavs have 12 ret st'rs and surprisingly last year's squad had just 6 sts lost all year to injury. With the new HC they are shifting from a spread offense (shotgun) to a pro-style offense (snap under C) and move the defense from a 3-4 to a 4-3. They drew Florida St and BC out of the Atlantic and have USC in the non-conf. They are capable of topping LY's 3 wins but this looks like a true rebuilding year and a 3rd straight losing season.

FLORIDA ST SEMINOLES

POSITION OUTLOOK FOR 2010

QUARTERBACKS - Drew Weatherford (PS#15) was a 3 year st'r who threw for an avg of 2,470 (57%) with just a career 39-32 ratio. RFr Christian Ponder (PS#22) played in one (8-18-105, 2 int) game in '07 when Weatherford was inj'd. Surprisingly Weatherford was #3 QB in '08 with Ponder the clear-cut starter. Ponder was the Off MVP and threw for 2,006 (56%. 14-13). Ponder had a tremendous spring in '09 (0 int until spring gm). He threw for 2,717 (14-7) and his 68.8% was 2nd best in FSU history. He was having the best season here since 2000 (Chris Weinke) but unfortunately was lost vs Clemson. RFr EJ Manuel (PS#4) got his first start vs WF (15-20-220) but struggled in his next 2 sts (1-5 ratio). He said he was not 100% healthy but still earned the Bowl MVP. Last year was the first time FSU completed over 60% since Weinke's Heisman season of 2000 (only 5th time S/'93). Adding depth will be Will Secord (6'1" 214 rFr, PS#116), Ridge Read (5'10" 191 So, PS#248), Andrew Nowels (6'2" 216 Jr) and Brandon Parks (5'11" 205 Jr). Ponder should be one of the best QB's in the country and Manuel is a excellent backup.

RUNNING BACKS - With all of the VHT's and NFL caliber talent former HC Bobby Bowden compiled at the RB position, it's amazing that FSU has not had a 1,000 yard rusher since Warrick Dunn ('96). In '05, FSU had their worst ypg (94, 3.3) rushing S/'47 and "improved" to just 97 ypg (3.5) in '06. In '07 Antone Smith (PS#4) rushed for 819 (4.3) and FSU jumped to 128 (3.7). In '08 Smith had just 792 (4.5). Jermaine Thomas (PS#81) was not cleared until late Aug but he had 91 in the opener, 130 vs GT and 94 vs Clem where he suffered turf toe (49 over final 4, 482, 7.0). Thomas was the expected starter last year but was banged up and rushed for just 77 (3.0) in the first 5 (inj). Thomas became the first RB here S/'02 to record 3 straight 100 yd gm incl 186 vs NCSt. Prior to MD he had his sights on 1,000 but finished with just 832 (5.1). Ty Jones (5'10" 211 Jr, PS#197) finished #2 with 251 (4.9). The unit got a boost late from true frosh Lonnie Pryor (156, 5.8). True frosh Chris Thompson (PS#29) added 120 (5.2). They lost their top 2 FB's prior to '09 then starting FB Daniel Gard (5'10" 204 Sr) missed 8 so they did not use a FB often (Pryor did st 4). Not listed in the PSL is FB Matthew Dunham (6'1" 258 Sr, PS#28). This year the unit returns intact, adds some talent and should have their best RB production in several years.

RECEIVERS - The FSU rec corps was hit hard by susp and inj's in '08 and in fact had its lowest ypg avg in 24 years (S/'85). The top 2 WR's combined for just 914 (11.6). Last year they had to replace the top 2 and the top 3 returnees were Taiwan Easterling (PS#310, 322, 10.7), Bert Reed (295, 12.8) and Rod Owens (PS#68, 183, 12.2). In '09 Owens was #1 (729, 12.0) and Reed, who became more physical, was #2 with 710 (11.8) despite just 3 sts. Soph Jarmon Fortson (PS#75) had 610 (13.6) and Easterling had 442 (12.6). Richard Goodman (miss 5) had 355 (13.1). TE Caz Piurowski was lost after 6 sts (182, 14.0). This year they only lose Owens (13 st), Goodman (5 st) and Piurowski. Not listed below are Cameron Wade (6'5" 215 Jr, PS#144), Gerald Rogers (5'8" 139 rFr) and TE Anthony Porterfield (6'3" 218 rFr). With 3 of the top 4 rec's back, this unit is more experienced.

OFFENSIVE LINE - The OL struggled in '05 and '06. In '07 they had to replace 3 st'rs but brought in OL coach Rick Trickett who had outstanding success at WV. Two frosh and 1 soph started. At one point Trickett was down to just 7 healthy OL's (8 diff st'rs) but they still improved, avg 128 ypg rush (3.7) while allowing 22 sks (4.7%). In '08 they had to replace 4 st'rs (24 car sts ret, 5th fewest FBS). Trickett trimmed down a once hefty O-line (0 players 300+) and despite being very inexp'd, the unit improved to 179 ypg (4.8). Last year they had 89 career sts ret (#22) and only lost 3 sts to injury. Under those circumstances, I expected significant improvement but they avg'd just 150 ypg rush (4.6) with 20 sks (4.6%). LG Rodney Hudson did win the Jacobs Blocking Award while earning 1st Tm AA. This year they only lose LG Brandon Davis (2 st) and should be one of the top O-lines in the country (146 car sts ret, #2 in FBS).

DEFENSIVE LINE - FSU almost always has a tough rush D and in '08 they had to replace 3 DL (19 st) and allowed 133 ypg (worst S/'95, 3.8) but the D did have 39 sks. Last year they had to replace 2 st'rs (#2 DC). FSU almost always had 1 or 2 super pass rushing DE's but have not had one recently as LY their DE's comb for 4 sks (big focus in spg '10). The unit was hit hard by inj's (1 DL 12 st). The #'s were amazing as they allowed an ACC high 205 ypg and 5.4 ypc (26 sks), their worst total S/'76. This year they lose DE Kevin McNeil (9 st, 19 tkl, 2 sk), NT's Kendrick Stewart (6 st, 12 tkl), Justin Mincey (4 tkl) and Budd Thacker (3 st, 16 tkl). I expect a much bigger impact from PS#1DL Jacobbi McDaniel (2 st as true) and this unit can only improve.

LINEBACKERS - Last year the Noles had to replace their top 2 tkl'rs and a bkp with 4 sts. It was the first time in a few years they did not have to replace an NFL DC and they returned their #4, #7 and #13 tkl'rs. Kendall Smith (PS#21) finished as the #2 tkl'r and Nigel Bradham (PS#4) was #1. This year they lose 2nd Tm ACC SLB Dekoda Watson (12 st, #4 tkl'r, 6.5 sk, #7DC TB), Recardo Wright (16 tkl) and Maurice Harris (1 st, 15 tkl). SLB Mister Alexander had just 17 tkls but did have 5 sks. With the additions of true frosh Jeff Luc (PS#4, IFS) and Christian Jones (PS#2) they have 7 VHT's in their 3 deep. I look for improvement after the D yielded 30.0 ppg, their worst since 1973.

DEFENSIVE BACKS - FSU always used to rank at the top of my PDR (4 top 2 finishes, 16 yr). In '05 they had their worst finish ever at #74 and the next 3 yrs were a mediocre #43, #50 and #60. They had to replace 2 st'rs and a bkp with 7 sts. They had 3 ret with 19 combined sts in '08. FSU had their lowest finish ever at #102. This year they lose 2nd Tm ACC CB Patrick Robinson (12 st, 52 tkl, 11 pbu, #1DC NO), ROV Korey Mangum (11 st, 34 tkl) and FS Jamie Robinson (13 st, 74 tkl, 4 int, 6 pbu). They return Ochuko Jenije (PS#47), who had 4 int and Greg Reid (1st Tm Fr AA) who had an outstanding spring at CB this year. Seven in the 3 deep are VHT's including true frosh Lamarcus Joyner (PS#2) and PS#43JC Mike Harris. While they lose 3 st'rs, they have 16 sts back which is close to the '09 version. They can only improve.

CB Greg Reid

SPECIAL TEAMS - FSU normally ranks in the Top 25 of my ST rankings. In '08 Graham Gano had a phenomenal season. He won the Lou Groza Award hitting 24-26 FG (long 53), had 9 TB on 37 KO and avg 42.7 (36.4 tm net) on punts. Gano set the school record with 13 straight FG's (Bill Capece '80). KR Michael Ray Garvin (30.1) and PR Tony Carter (14.1) helped them to a #3 finish. Unfortunately all 3 had to be replaced last year. Exciting true frosh Reid (PS#9) was the top KR (25.5) and PR (18.4). New K true frosh Dustin Hopkins (PS#1) had a 65 yd FG in practice in HS and hit 19-27 FG's (long 52) and was #5 in FBS with 24 TB on KO. Soph P Shawn Powell avg 41.6 (36.1 net). Battling at LS are Chris Revell (6'0" 203 rFr) and Franklin Nicholas (5'10" 195 rFr). The unit finished #26 and should be near the top again this year.

COACHES - College Football Hall of Famer Bobby Bowden reluctantly retired #2 in the FBS for career wins (389 in 44 yrs) after 34 seasons at FSU. In '07 OC Jimbo Fisher came over from LSU (OC 7 yrs) but surprisingly the team had its lowest ppg (23.3) since 1981 (21.8). In Fisher's 2nd year the team improved to 33.4 and he was named Bowden's successor and took over many duties, even some on game day. He now is tasked with replacing a legend and has made many staff changes. The new OC is James Coley who also coached FSU's TE coach and was recruiting coor the last 2 yrs. Coley was the OC at FIU in '07 and was an off asst with the Miami Dolphins prior. DC Mickey Andrews (26 yrs) also retired and the new DC is Mark Stoops. Stoops spent the last 6 years as the DC at Arizona under his brother Mike. Greg Hudson has been named asst HC of Defense after 5 years as the DC/DL/LB cch at East Carolina.

PHIL'S FORECAST

FSU had an amazing run of 14 straight years of finishing in the Top 5 in the final polls but has not been back since 2000! In '05, they had an inexp'd and injury-plagued squad that got as high as #4. FSU was 7-1 but then suffered 3 straight losses for the first time S/'83. At the time their 3 ACC losses were the most ever, but they still took home the Atlantic Title and upset VT to win their 12th ACC Title (only +28.5 ypg, 6th best). FSU was the only team in the country to appear in a Jan bowl 15 straight years heading into '06. In '06, they "earned" 39 points in my Draft Day Party Hangover (pg 308). FSU opened #11 but went just 6-6 including their first-ever shutout loss at home (WF 30-0!) under Bowden (31 yr). They had a big 4Q in the bowl to rally past UCLA to squeak out a winning season. After having just 9 scholarship Sr's in '06, they had 18 in '07 and with the infusion of new coaches, things looked to be on the rise. Surprisingly FSU finished just 7-6 after a bowl loss with 20+ players susp or inj'd. They finished 4th in the Atlantic. In '08 they had 15 ret st'rs, the most since the '99 Nat'l Title team. FSU basically had 8 HG's but had some key players susp'd the first 3 and lost to WF again. The Noles rose to 6-1 (#16) when they fmbl'd into the EZ for a TB vs GT and lost by 3. They did beat Wisconsin 42-13 in the Champs Sports Bowl and finished 9-4 (#21). Last year they had 13 ret st'rs and were the media preseason favorite to win the Atlantic (I had Clemson). They ret'd just 47.6% of their total tkls from '08. They also faced my #2 toughest schedule. Their final pass into the EZ was dropped in a Monday night loss to Miami. On a short week vs an FCS opponent, FSU trailed Jax St but scored twice in the final :35 to escape. They were a large underdog to #7 BYU but made it a "sod" game and won 54-28. USF was playing without starting QB Matt Grothe but backup frosh BJ Daniels (from Tallahassee) led the Bulls to a 17-7 upset. BC had Gameday on hand and on a rainy day, beat FSU 28-21. FSU scored all 5 times they had the ball in the 1H vs GTech (403 yd) and led 35-28 but couldn't hold serve in the 2H and lost by 5 falling to 2-4 (their worst mark to open S/'76 - Bowden's first yr). On a Thurs night they trailed NC 24-6 but rallied for a 30-27 win. They had their smallest home crowd since 1993 and got a TD with 1:36 left to get past NCSt. Ponder had 4 int and was inj'd in a 40-24 loss to Clemson. Manuel led the wins over WF and MD. The Terps led 26-22 with 4:29 left and although FSU was int'd at the MD40 with 2:57 left, they still won. After an expected loss to Florida, Bowden was basically forced out and the team sent him out on a winning note with a 33-21 win over WV in the Gator Bowl. Jimbo Fisher steps into a good situation as this team has not had DD wins since '03. FSU has been to 28 consec bowl games. They are loaded on offense with 9 ret st'rs and Christian Ponder figures to be one of the top QB's in the country. They get most of their toughest ACC foes at home and 7 of my 9 sets of power ratings call for a double digit win season.

BOSTON COLLEGE EAGLES

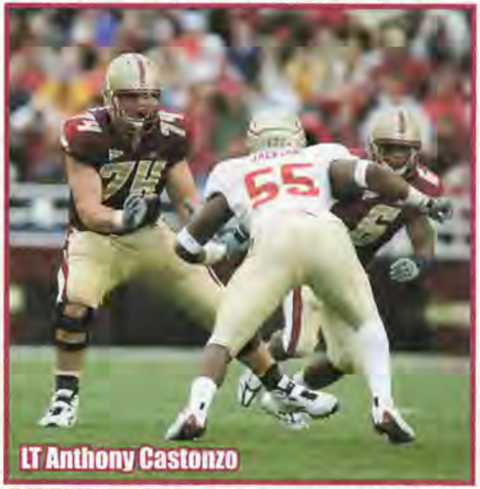
POSITION OUTLOOK FOR 2010

QUARTERBACKS - Matt Ryan was a Heisman contender in 2007 and broke Philip Rivers' ACC single season passing yardage mark throwing for 4,507 (59%, 31-19). Ryan has excelled in the NFL (#1DC). Into '08 BC's QB corps had just 40 career att's. Chris Crane (PS#65) won the starting job and threw for 1,721 (55%, 10-13). He was injured and rFr Dominique Davis threw for 741 (46%, 6-4). They appeared to be in great shape last year but Davis was ruled ineligible in May and transferred to E Carolina. The '09 unit then had zero career att's. They added in 25 year old Dave Shinskie (PS#53) who spent 6 years playing minor league baseball. Shinskie was the frontrunner but broke a rib in Aug (miss 2 wk) and Justin Tuggle (PS#39) took the #1 spot. Tuggle and Shinskie split snaps early and Shinskie took over as the starter in Wk 4. He threw for 279 vs ND but on the season only threw for 2,049 (51.7%, 15-14). Tuggle played in 4 (229, 35%) and transferred after Wk 8. True frosh Mike Marscovetra (PS#207) played in 4 (135, 59%). This year Shinskie and Marscovetra both return and adding depth are two true frosh (both IFS) in Chase Rettig (PS#39) and Joshua Bordner (PS#118). This is the most exp'd BC QB corps in the last 3 years.

RUNNING BACKS - In 2003 Derrick Knight was 5 yards short of tying a school record with 1,721 (5.4) and was the 6th straight BC rusher to top 1,000. Over the next 4 years Andre Callender (PS#30) and LV Whitworth (PS#82) split the job and neither topped 1,000 with Callender's 969 (4.6) in '07 the closest either came. In '08 they had to replace their top 3 rushers and a pair of true frosh, Josh Haden (PS#21) and Montel Harris (PS#159) took the bulk of the snaps. Haden had 479 (4.0) and Harris broke the team's frosh rushing record (776, Shelby Gamble, 1979) with 900 (5.0). Last year Harris took command. Haden had just 58 att in 7 games (213, 3.7) and transferred out after the ND game. Harris set the BC soph rushing record and his 264 vs NCSt broke Phil Bennett's overall single game mark (253, 1972). His 41 carries vs MD tied Fred Willis' 1970 record. Harris finished with 1,457 (4.7) and 14 TD's topping 100 in each of the last 5. True frosh Rolandan Finch (PS#32) had 134 (4.8) despite missing 6. This year the only losses are Jeff Smith (8 yds) and Haden. Not listed below is Mike Javorski (5'7" 164 So). While it will be tough for Harris to top 2009's outstanding numbers, this unit is more experienced.

RECEIVERS - In 2007 Rich Gunnell (PS#70) led with 931 (14.5). He was #2 with 551 (11.2) in '08 while Brandon Robinson (PS#20) led with 646 (15.4). Last year they had to replace Robinson and TE Ryan Purvis (14 st). Gunnell (best hands in ACC) led with 880 (14.7). Colin Larmond (PS#123) became the big play WR (20.6!) and was #2 with 596. TE Chris Pantale (PS#27) had 223 (8.9) while Justin Jarvis (6'5", PS#190) added 229 (12.7) and TE/FB Lars Anderson (PS#32TE) had 102 (12.8). This year they lose Gunnell (13 st), Jarvis (12 st) and Clarence Megwa (3 rec). Not in the PSL is Donte Elliott (6'0" 197 So, PS#220) who moved from RB in spring. Despite the loss of their career leader, this unit is about as exp'd.

OFFENSIVE LINE - BC could be called "O-line U" as they have had 12 NFL DC's over the last 14 yrs. When former HC Jeff Jagodzinski took over in '07, he switched BC to a zone blocking scheme and their OL coach Jim Turner resigned due to a "difference in philosophies" after the spring. Jagodzinski signed Anthony Castonzo (spent '06 at Fork Union) who became the first "true" frosh to start on the O-line since Paul Zukauskas in 1997. BC's numbers plummeted to just 99 ypg rush (3.4), their lowest avg since 1990. Thanks in part to Ryan's quick release the team yielded just 3.3% sacks. In '08 they had to replace 3 st'rs (#1DC) and had just 5 of their top 10 back. Despite the losses, I speculated they could improve and they did (143 ypg, 3.9, 4.7% sk). Last year they only had to replace one starter (1st Tm ACC) and a bkp. Surprisingly the numbers stayed the same with 137 ypg rush (3.8) and 20 sks (5.7%). Castonzo has started every game of his BC career (1st Tm ACC LY). This year they lose 1st Tm AA C Matt Tennant (13 st, 3Y st'r, Rimington finalist, #5DC NO) but 9 of the top 10 are back (108 career sts, #8 FBS). This should be BC's most productive O-line in over 5 years.



LT Anthony Castonzo

DEFENSIVE LINE - BC always has a strong rush D. In '08, led by the outstanding DT combo of BJ Raji and Ron Brace (both 325 lbs), they yielded 91 ypg (2.8). Last year those two were #1 and #2 DC's but they did have 3 back who had been full-time starters at DE. They were less exp'd and much smaller in the middle (no st'r over 295). They only slipped to 103 ypg (3.0) but only had 18 sks. The unit was hit by injuries with just one player starting all 13 and that was Jim Ramella who played most of the yr in a cast. This year they lose DE Ramella (28 tkl, 3 sk), DE Austin Giles (11 st, 30 tkl, 2 sk), DT Nick Rossi (1 st, 18 tkl) and Brendan Deska (1 tkl). They return 4 with starting exp and add PS#35 rFr Dillon Quinn giving them another top-notch unit.

LINEBACKERS - Last year BC had to replace 2 LB's (comb 14 sts, 124 tkl) but did have back their top 2 LB's in Mark Herzlich and Mike McLaughlin. Unfortunately, McLaughlin tore his Achilles and missed the first 3 and saw his tackles drop from 89 to 56. Herzlich was diagnosed with cancer and missed the season but was still a leader from the sideline. This year they lose McLaughlin (9 st) but Herzlich returns and joining him are 4 who started last year, including super true frosh Luke Kuechly (1st Tm ACC) who had 158 tkls (#1 ACC, #2 FBS) and 13 tfl. Not in the PSL is Andre Lawrence (6'1" 210 rFr). If Herzlich can return close to 100% this could be the best LB corps in the NCAA.

DEFENSIVE BACKS - In '07 BC had to replace 2 st'rs and surprisingly allowed 252 ypg passing (58%) which was the most in BC history, despite having a 21-25 ratio (#44 PDR). In '08 they only had 1 starter ret but moved up to #29 with an outstanding 9-26 ratio. LY they had to replace 2 st'rs but had 3 back with 6+ sts. BC slipped to #38 (61.8%, 12-15 ratio). This year they lose CB Roderick Rollins (11 st, 43 tkl, 6 pd) and SS Marcellus Bowman (13 st, #2 tkl'r, 4 pd). Not listed below are Dan Mulrooney (6'1" 209 Jr, PS#149) and Stephen Atkinson (6'1" 209 So, PS#201, 2 tkl). They have 3 exp'd CB's and FS Wes Davis back and could move up in my PDR.

SPECIAL TEAMS - Former HC Tom O'Brien's top finish in his first 7 yrs ('97-'03) in my ST rankings was just #48. They finished #6 in '04 (#97 in '05) and #18 in his final year ('06). In '07 they had everyone back but dropped to #67 and in Jag's 2nd year fell to #110. Last year everyone ret'd including K Steve Aponavicius ("Sid Vicious"). Aponavicius had a great year hitting 13-14 FG's with his lone miss coming in the 12th game (1 att 40+). Soph Ryan Quigley (PS#42) had 7 TB's on 61 KO's and avg 40.8 punting (36.9 net). Jeff Smith was the top KR again (22.1) and Rich Gunnell improved his PR avg to 13.7. The unit was #42. This year they must replace Aponavicius and both returnmen and figure to drop a notch or two.

COACHES - Twice in the last 4 yrs this position has left me scratching my head. Tom O'Brien, who had the most wins in BC history (75), made what I thought was a lateral move to NCSt in '07 despite the fact he had perhaps his most talented team returning. Jeff Jagodzinski, who was the OC here from '97-'98 and the GB Packers' OC in '06, took over. He was my pick for ACC COY with 11 wins being the most ever for a 1st year ACC coach. Jag was successful again in 2008 and then came the 2nd head scratcher. He opted to interview for an NFL HC job knowing that BC would fire him if he did. Jag ended up as Tampa Bay's OC (fired by Bucs before ssn started). One constant for BC has been DC Frank Spaziani (14th yr) who was the interim HC for the bowl in '06 (won). He stayed on the staff despite not getting the HC job in '07 and then took over last year. The OC is Gary Tranquill (2nd yr) who has worked under Bill Belichick, Nick Saban and Woody Hayes. He was the HC at Navy for 5 years ('82-'86). The DC is Bill McGovern (2nd yr) who was the LB coach under Spaziani for 9 years prior.

PHIL'S FORECAST

As I mentioned in the coaches section, Tom O'Brien made a surprising move to NC State in late '06 and his final edition on Chestnut Hill finished 10-3. Jeff Jagodzinski inherited a veteran squad including QB Matt Ryan. BC joined the ACC just 5 yrs ago and in that span has the best conf record of any ACC Atlantic team at 26-14. They tied for the Atlantic Title in '05 and played in the ACC Title Game in '07 and '08. From 2004-'08 they had 5 straight seasons of 9+ wins for the first time in school history. BC's '07 edition had 17 fifth year seniors and 8 fourth year juniors in the 2 deep. They survived some close calls on the way to the ACC Title game. They rose as high as #2 AP, their highest since Nov 1942 (#1). They had a miracle comeback vs VT with 2 TD's in the final 2:11 but at 10-2 lost the ACC Title game. Then they took on a Mich St team playing without 4 susp players and got past them by 3. Their 11 wins were the most in school history tying Frank Leahy's 1940 squad (11-0). In '08 they had to replace QB Ryan and had the 2nd fewest ret st'rs in the ACC (9). After a 6-3 start, they were a long shot for the Atlantic Title. They needed to win their final 3 (2 away) vs the top 3 in the Atlantic and did just that. In the ACC Title game they were pounded by Virg Tech 30-12 and then had their NCAA-leading streak of 8 consec bowl wins snapped by Vandy. Last year they had 13 ret st'rs but lost proj starting QB Davis in the summer creating a mess. Also top def player Mark Herzlich missed the season. They were picked LAST in the Atlantic by the preseason ACC poll (I had them 3rd). The team struggled in its first 2 road games with 1 FD in the first 43:00 vs Clemson. Against Virg Tech they were outgained 293-3 in the 1H. They thrashed ex-coach O'Brien's NCSt team 52-20. They were done in by -5 in turnovers at ND. After beating CM and escaping Virginia, BC stood 7-3. The Eagles gave up FR and IR TD's early vs NC putting them in a 21-0 hole and they lost 31-13 but beat MD to finish 5-3 in the ACC. They did drop their 2nd straight bowl (to USC). BC was -62.5 ypg in ACC play (3rd worst) and had a 3 net close wins (see pg 299). They have 14 ret st'rs and are in Spaziani's 2nd season and last year had 32 sts lost to injury (#13 in FBS). Six of my 9 sets of power ratings call for a double digit win season as they take on my #64 rated schedule. If Herzlich is 100% healthy this team is a contender for the ACC Title.

CLEMSON TIGERS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - In Cullen Harper's first year as a starter ('07) he threw for 2,991 (65%) with a 27-6 ratio. He was the 2008 preseason ACC OPOY but dealt with a sore shoulder in the 1H of the year. Harper ret'd from shoulder surgery and had a big 2H of the year but on the season his numbers dropped to 2,601 (61%, 13-14). In 6 games Willy Korn threw for 216 (68%, 1-1). Last year Harper departed and rFr Kyle Parker (PS#31), who has a cannon for an arm beat out Korn. HC Dabo Swinney told Korn he'd like to have him play in every game, but he actually played in just 6 (12-17-90). Parker broke Charlie Whitehurst's frosh passing records throwing for 2,526 (55.6%, 20-12) and was also the #4 rusher (135, 2.2). Korn opted to transfer, so Parker's backup will be rFr Tajh Boyd (PS#8). Adding depth are Donny McElveen (6'2" 190 rFr, PS#106) and Taylor Ogle (6"5" 190 rFr, PS#203). This unit is much more experienced (provided Parker does not sign a MLB contract) than it was heading into last year and Parker should be one of the ACC's best.

RUNNING BACKS - James Davis (PS#21) was the ACC Rookie of the Year in '05 with 879 (5.3) despite a broken wrist at midseason. Reggie Merriweather (PS#73) led with 670 (4.9) in '04 and had 715 (4.8) in '05. They added true frosh CJ Spiller (PS#10) in '06. Davis rushed for 1,187 (5.8) and Spiller added 938 (7.3). In 2007 the "Thunder and Lightning" duo of Davis (1064, 5.0) and Spiller (768, 5.3) ret'd. In '08 Davis (751, 4.4) finished as the #2 career rusher. He was the first CU RB to lead in rushing in each of his 4 yrs. When true frosh Jamie Harper was signed (PS#31) he was promised the first carry of the season (which he fmbl'd) and he rushed for just 133 (3.9) in '08. Spiller was bothered by a nagging foot injury but had the best ypc of the RB's (629, 5.4) with 436 (12.8) receiving. Spiller entered last year already CU's career leader in all-purp yds (4,908). They had to replace Davis (#6DC CLE) but Spiller finished with 31 CU records as well as many ACC and NCAA records. Spiller rushed for 1,212 (5.6) and was the #3 rec (503, 14.0). Spiller set an ACC record (#2 NCAA) for career all-purp yds with 7,588 yds. RFr Andre Ellington (PS#37), who is a Spiller clone, finished #2 with 491 and an impressive 7.2 ypc. Harper was #3 with 418 (5.2) and is more of a power back with speed. They managed to RS Roderick McDowell (PS#30). Not listed below is Daniel Barnes (5'10" 195 Sr). They lose FB Rendrick Taylor (3 st, 37 yds) and it's tough to replace an AA like Spiller (#1DC BUF), but remember last year they had to replace Davis and I expect excellent production out of the Ellington/Harper combo.

RECEIVERS - Last year CU had to replace their career leading receiver Aaron Kelly and another starting WR (#4 rec). The WR unit was a ? coming into the year but they were high on TE's Michael Palmer and Dwayne Allen. Those two set a CU record for TE rec's in a season with 53 (old record 45 in 1970). Jacoby Ford was #2 in '08 with 710 (12.9) and was the NCAA indoor track champ in the 60M. Ford had 3 drops in the opener but led with 779 (13.9). Palmer was #2 with 507 (11.8). Xavier Dye (hamstring inj Aug) dropped a FD pass in the opener and was demoted. He briefly quit but started the last 9 (236, 16.9). Adding depth this year are this year's true frosh including 2 VHT's. They lose Ford (14 st, #4DC OAK) and Palmer (13 st). This year's group looks to be down a few notches with the loss of their top 2.

OFFENSIVE LINE - With all 5 st'rs back in '06, the Tigers paved the way for an outstanding 5.7 ypc (best prior was 5.3 in 1950) and allowed just 15 sks (4.6%). They had to replace 4 st'rs and 2 bkps in '07 and as you would expect, the numbers dropped drastically to 161 ypg (4.1) with 35 sks (7.7%). In 2008 they had to replace 4 st'rs again (34 car sts ret,14th lowest FBS). Despite having the top 3 candidates for ACC Preseason OPOY in the backfield, CU's numbers dropped to 112 ypg rush (3.4) with 34 sks (8.5%). Due to injuries, 9 different players started. Most teams were using smaller OL's and zone blocking schemes but Swinney wanted a large offensive front and the starting lineup was the largest in the ACC (315 lbs). It was a veteran unit LY (71 car sts, 7 w/st exp) and they improved to 170 ypg rush (4.8) with just 19 sks. This year they lose 2nd Tm ACC LG Thomas Austin (14 st, 3Y st'r), RT Cory Lambert (4 st) and LT Jamarcus Grant (47 snaps). The starting 5 consists of 4 VHT's and 2nd Tm ACC LT Chris Hairston. They are my 7th ranked OL in the NCAA and should be one of the premier units in the country (88 car sts).

DEFENSIVE LINE - In 2008 Clemson had 2 st'rs back but it was still surprising that they yielded 3.7 ypc rush (127 ypg) and the D was last among BCS tms with just 14 sks. Last year they had to replace one starter and two bkps but ret'd the "Bamberg Bookends," DE Da'Quan Bowers (PS#1) and PS#5 Ricky Sapp (both attended Bamberg Ehrhardt HS in SC). GT coach Paul Johnson said that both DT's Jarvis Jenkins and Brandon Thompson have NFL futures. It surprised me that the unit allowed 152 ypg rush (3.5), their highest since '02. Of course facing GT's option offense twice had something to do with that as they allowed just 124 ypg (3.0) in the other 12. This year they lose 2nd Tm ACC DE Sapp (60 tkl, 5 sk, 10 tfl, #5DC PHI) but return Bowers plus 4 outstanding DT's with starting exp and DE Malliciah Goodman (PS#5) had 31 tkls and 2 sks as a true frosh. Adding depth is John Wright (6'2" 250 Sr). Despite the loss of Sapp, I look for improved numbers and they earned my #2 DL rating (pg 14).

LINEBACKERS - In 2008 Clemson had to replace their #1, #4 and #6 tkl'rs. Last year they were in much better shape as the only starter lost was DeAndre McDaniel who went back to SS (ret #1 & #4 tkl'rs). They moved Kevin Alexander (10 st DE in '08) into the SLB spot (7 st SLB, 3 st DE). This year they lose WLB Kavell Conner (12 st, #1 tkl'r, 8 tfl, #7DC IND), SLB Alexander (50 tkl, 3.5 sk, 3 tfl) and SLB Jeremy Campbell (25 tkl, 2 sk). Not listed below is Brock Henderson (6'1" 215 Sr). They return Brandon Maye (#3 tkl'r) and Scotty Cooper (6 st, 77 tkl 3Y) but this unit is less experienced and will be weaker.

DEFENSIVE BACKS - In the last six years Clemson has finished #14, #25, #22, #24, #21 and #15 in my PDR. Last year they managed their strong finish despite having to replace 2 st'rs (both #5 DC's). They moved LB DeAndre McDaniel (PS#19, 8 st '08) to S and he tied a school record with 8 int (Robert O'Neal '89, Justin Miller '02). He finished 2nd in the ACC DPOY balloting. All 4 st'rs managed to start all 14. This year they lose their solid CB combo of Crezdon Butler (14 st, 36 tkl, 11 pd, #5DC PIT) and Chris Chancellor (14 st, 41 tkl, 10 pd) as well as FS Sadat Chambers (2 st, 20 tkl). McDaniel opted to return along with FS Marcus Gilchrist (107 tkl) who moves to CB.

SS DeAndre McDaniel

SPECIAL TEAMS - In the last 7 years CU has finished #32, #7, #104, #31, #75, #45 and #14 in my ST rankings. The last 2 yrs were due to returnmen CJ Spiller and Jacoby Ford. Spiller set an NCAA career record for KR TD's with 7 and was a threat to score anytime a team kicked to him. He had an amazing 32.8 KR avg (4 TD) last year. Spiller's PR avg was even more amazing at 26.3 although teams only punted to him 8 times while Ford avg a nifty 14.3. Spencer Benton had the edge at K heading into Aug but was inj'd and Richard Jackson tied a school record with 6 FG's vs BC and was 'Mr. Automatic' before missing a couple of key FG's vs MD and 2 xp's and 2 FG's vs Fla St. Jackson had academic issues so Benton started vs NCSt. Jackson hit 20-31 FG's (3 from 50+). Benton had 7 TB's on 87 KO's. Dawson Zimmerman took over at P and avg 39.1 (34.4 tm net). LY LS Matt Skinner handled all of the snaps. This year with the loss of Spiller and Ford, they figure to drop some in my ST rankings.

COACHES - Two years ago I mentioned that it was pretty amazing Tommy Bowden was around for his 10th year at Clemson as he appeared to be on his way out on many occasions. In '08 they were the preseason favorite to win the ACC and he was fired at midseason after a 3-3 start. WR coach Dabo Swinney surprisingly got the interim job and immediately fired the OC and the DC resigned one day after Swinney was named permanent HC. Swinney lettered 3 years at Alabama (on '92 Nat'l Title tm). He is now in his 8th year here and was also a WR/TE coach at Bama from 1996-2000. OC Billy Napier coached TE's here from '06-'08 (also QB's '08) and served as the recruit coor ('07-'08). Swinney made a solid hire in DC Kevin Steele, who was Baylor's HC from 1999-2002 and the LB coach at Fla St from '03-'06. He was Alabama's DC in '07 and '08. Steele turned down a lucrative offer to return to his alma mater Tennessee in the offseason.

PHIL'S FORECAST

Tommy Bowden was hired in 1999 and his career had a lot of highs and lows. In 2005 Clemson had a 3 game losing streak for the 2nd straight year (1st time S/'73) and Bowden appeared on the way out, but they had a great ending and finished 8-4. They won their bowl and had 3 wins over Top 20 opp for the first time since 1989. In '06 they opened up 7-1 and rose to #10 and there was talk of a BCS Title berth. Clemson went 1-4 down the stretch despite being just one of two teams in the country to rank in the top 16 in all four categories of PF, PA, total off and total def. CU was arguably the best team in the ACC in '07 as they had a league best +108 ypg (+138.1 in '06 also #1). Unfortunately they finished just 9-4 after losing in the bowl to Aub in OT. CU had 14 ret starters in '08 and was the preseason ACC favorite as QB Harper, RB Davis and RB Spiller were #1, #2 and #3 in the ACC preseason OPOY vote. Stunningly #9 CU was destroyed by #24 Alabama in the opener and at 3-3 Bowden was let go. Dabo Swinney was named interim HC and he reinstated the Tiger Walk. They ended a 50 year losing streak to BC (0-5-1) when they upset the Eagles on the road, 27-21. After going 1-2 under Swinney with the team at 4-5, CU rallied to win their last 3 including a 31-14 win over rival SC which basically won him the permanent HC position. CU had 3 net close losses in '08 and was much stronger on the O-line and D-line in '09. Despite having to replace their starting QB, top RB and top WR, my magazine was the only major publication to call for CU to win the ACC Atlantic as they were picked as low as 4th by others. After beating MT, CU was done in by a pair of fake FG's, one by CU and one by GT which both went for GT TD's. They destroyed BC. They led TCU, a tm that finished #6, 10-7 in the 4Q, but trailed 14-10 with 6:52 left and had a 1st and 10 from TCU's 13 but were SOD. The next week they jumped out to a 10-0 lead vs MD but were stunned, losing 24-21. CU then rattled off 6 straight wins including an impressive 40-37 OT victory at Miami and 40-24 home win over Fla St and wrapped up the Atlantic Title. With the Title game in hand and possible BCS bowl berth riding on the game vs GT they mailed it in vs SCar and lost by 17. In the ACC Title game, GT got a TD with 1:20 left and CU lost by 5. The Tigers rebounded to beat Kentucky in the bowl to finish 9-5 and #24. **CU has not won the ACC Title since 1991.** This year they lose their 2 most dangerous players in RB Spiller and WR Ford and had just 5 starts lost to inj last year. They had 3 net close losses and despite just 13 ret st'rs (6 on D) they have 7 of their top 9 tkl'rs back. Their +74.9 ypg in ACC play was 3rd best. Since 1965 CU has avg 9 wins per year when they return 4 or more st'rs from the O-line (like LY). CU has my #2 O-line and #1 D-line in the ACC but have a tough ACC schedule. They face both BC and FSU on the road but are capable of defending their Atlantic Title.

MARYLAND TERRAPINS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - MD has produced 5 QB's that have played in the NFL, but none since HC Ralph Friedgen took over. In '07 Chris Turner (PS#56) started the last 8 and threw for 1,958 (64%, 7-7). In '08 Turner started 12 and threw for 2,516 (57%, 13-11). Last year they lost both backups so the mobile Jamarr Robinson (Off Scout Tm POY '08) took over the #2 spot. True frosh Danny O'Brien (PS#67) moved ahead of CJ Brown (6'3" 195 rFr, PS#42) for the #3 spot and they nearly took off his RS late. Turner added muscle (16 lbs) in '09 but had a 4 TO game vs Rutgers. Turner is not known for his mobility but started to run more after RB Da'Rel Scott went down. Turner threw for 2,069 (59.4%, 10-10). He was injured vs NCSt and missed both VT and Fla St. Robinson started 2 and threw for 459 (54.1%, 2-0) and was the #3 rusher (229, 4.3). Turner departs as the school's #2 career passer and Robinson will battle 2 rFr and 2 true. They add Miami, OH transfer Clay Belton (6'6" 225 Jr, PS#36) who threw for 639 (55%, 2-3) in 3 sts at MU in '08. Despite the loss of a veteran starter, MD could actually improve their passing numbers.

RUNNING BACKS - In '08 MD had to replace a pair of backs who combined for 1,573 (4.0). The leading returning rusher, Da'Rel Scott (PS#73, 4.29 spd) had 135 (9.6) as a rFr. Scott rushed for 407 (7.3) in the first 3 of '08 but was banged up the rest of the year. He still became the first Terp since '02 (Chris Downs) to top 1,000 (7th overall) with 1,133 (5.4). He was susp for the 1H of the bowl but still rushed for a MD bowl record 174 (12.4). Morgan Green (5'11" 220 Sr, PS#23) was not 100% all year and had just 112 (4.7). Davin Meggett rushed for 457 (5.1). Last year those 3 ret'd and added in was rFr Gary Douglas (6'1" 205, PS#86) and true frosh Caleb Porzel (PS#48). Scott broke his wrist (miss 5) but still led with only 425 (5.0). Meggett (4 st) had 338 (3.4) while Douglas added 81 (5.1) and Porzel 75 (2.5). Green had just 5 rushes. This year the only loss is FB Cory Jackson (8 st, 24 yd). Not listed in the PSL are Andrew Braxton (5'8" 200 So) and FB's Haroon Brown (5'11" 260 Jr, PS#213) and Louis Berman (6'0" 230 Jr). With a more stable O-line and Scott's return to health, I look for a huge increase in RB production.

RECEIVERS - Darrius Heyward-Bey (PS#28) led in '06 with 694 (15.4) and in '07 with 786 (15.4). In '08 the new offense featured the TE more and Dan Gronkowski was #4 (287, 9.9). Heyward-Bey's numbers dropped to 609 (14.5) and he left early for the NFL (#1DC OAK). Last year the leading returnee was star KR Torrey Smith, who had 336 (14.0) in '08. Smith (550 squat) was by far the team's top WR with 824 (13.5). Adrian Cannon (PS#36) finally lived up to his VHT billing (6 rec '07-'08) and was #2 (468, 10.6). Soph Ronnie Tyler (PS#75), who had 225 (11.3) in '08 had 346 (12.4). TE Tommy Galt added 146 (10.4). This year they only lose Galt (7 st). Not listed below are Webb Dulin (5'8" 175 Jr) and TE's Ryan Schlothauer (6'5" 250 So), Matt Furstenburg (6'4" 245 So, PS#98, 1 st LY) and Will Yeatman (6'6" 265 Jr, PS#33). This unit is much more exp'd than '09 when they lost 3 of their top 4.

OFFENSIVE LINE - The Terps had a veteran O-line in '08 (4 st'rs ret) and they avg 144 ypg rush (4.3), their best totals since '03 while allowing 28 sks (7.0%). Last year the unit was a major question mark as they had to replace 3 full time st'rs (1st Tm ACC C, NFL DC LG, 2Y st'r RT) and 2 bkps (comb 8 sts). They had just 27 career sts and 2 st'rs, Andrew Gonnella and Paul Pinegar, were both former-walk-on's. They did start their first true frosh on the O-line since '05 (Bennett Fulper) in the opener but he was lost after 7 gms. They used 8 different starting O-lines in the first 9 and not surprisingly the numbers dropped to 106 ypg rush (3.1) with 36 sks (9.2%). This year they lose C Phil Costa (12 st, 3Y st'r) and LT Bruce Campbell (9 st, #4DC OAK) while Maurice Hampton (1 st, PS#74) moved to DL in spring. Last year they lost 5 of their top 7 and this year while they lose the top 2 and the next 6 returning comb for just 39 career sts. Friedgen said the line was "vastly improved" in the spring.

DEFENSIVE LINE - Friedgen's first four D-lines allowed 2.9, 3.4, 3.5 and 3.3 ypc. The last 5 years they have yielded 4.0, 4.6, 4.1, 3.9 and 3.9. In '08 the unit was undersized with the DT's avg 278 lbs. They allowed 147 ypg (same as '07). Last year they had to replace 6 DL (comb 42 sts, 12 sks) and had just 7 sts returning but only slipped a little to 151 ypg with 27 sks. This year they lose DT Travis Ivey (12 st, 25 tkl, 1 sk), DE Jared Harrell (12 st, 28 tkl, 1.5 sk) and DE Deege Galt (12 st, 26 tkl, 4.5 sk). Not in the PSL are Bradley Johnson (6'1" 220 rFr, PS#203), Ian Davidson (6'3" 300 Jr, PS#187) and Herbert Law (6'2" 240 Jr). Usually when a team loses 3 st'rs, they look to be weaker but their 12 career starts returning is 5 more than last year.

LINEBACKERS - Friedgen has produced a star LB in each of his 9 years. EJ Henderson won the Butkus and Bednarik Awards and was ACC DPOY in '03. D'Qwell Jackson was 1st Tm ACC in '04 and 1st Tm AA in '05 (ACC DPOY). Erin Henderson was 2nd Tm ACC in '06 and 1st Tm in '07. In '08 Alex Wujciak was 2nd Tm ACC taking over the fabled MLB spot. Last year they had to replace 2 st'rs (#7DC) and a backup (35 tkl). Wujciak earned 1st Tm ACC (131 tkl, 8.5 tfl). Naturally, with a much less exp'd D, they allowed 31.3 ppg (worst S/'97). This year Wujciak returns and is now surrounded by veterans including Adrian Moten (PS#68, #2 tkl'r), Demetrius Hartsfield (#5 tkl'r) and Ben Pooler (#9). Not in the PSL are Isaiah Ross (6'1" 260 So, PS#84, 6 tkl, OFS '10) and Steffan Lazerow (6'2" 230 Jr). Wujciak also set a school record for most IR yards (152) in a season, LY (just 2 int) topping Joe Horning's 1951 mark of 147.

DEFENSIVE BACKS - In '08 the Terps had to replace 3 st'rs then the lone returnee was lost after 7 sts. As you would expect, they finished #86 in my PDR. LY they had to replace 2 st'rs (#3DC) but had 5 back with starting exp. New DC Don Brown planned to use more bump-and-run with his CB's in '09. Starting CB Nolan Carroll (4 st '08) broke his leg in Wk 2. They later took the RS off true frosh Eric Franklin in Wk 8. The unit dropped again to #98. This year they lose CB Anthony Wiseman (12 st, #6 tkl'r, 9 pbu), SS Jamari McCollough (9 st, 31 tkl, 1 int), FS Terrell Skinner (12 st, #3 tkl'r, 4 pd), Carroll (10 tkl, #5DC MIA) and Richard Taylor (8 tkl,1 int). They do have 3 VHT's in the 2 deep and are close to LY in terms of experience. Not in the PSL is Jonathan Pillow (6'0" 200 rFr).

SPECIAL TEAMS - The Terps have had some fine ST players under Friedgen including K Nick Novak (ACC's all-time leading scorer), Steve Suter (NCAA record for most PR and KR in a ssn) and P Brooks Barnard (MD leader career punt avg). They finished #6 in my ST rankings in '02 and #13, #44, #42 and #40 the next 4 yrs. In '07 they dropped to #58. Everyone ret'd in '08 (except ST cch Ray Rychleski) and P Travis Baltz had a 37.4 net and The Terps finished #44. Last year they had to replace their K and their top PR. P Baltz missed time with inj and true frosh Nick Ferrara had 35 punts (tm net drop 34.8). Ferrara, who has a strong leg, hit 18-25 FG's (long 50) but had just 4 TB's on 55 KO's. Torrey Smith is a dangerous KR (25.7, 2 TD's). They enter 2010 with a streak of 123 gms without a P blk'd (longest NCAA). With everyone back this unit has Top 20 potential (#45 in '09).

COACHES - Ralph Friedgen took over a team that had 5 straight losing seasons and led them to a 31-8 record in his first 3 yrs, the best start ever for a HC in ACC history. He was the consensus National COY in his first season (2001 ACC Title). Friedgen also acted as the OC in both '06 and '07 but in '08 brought in James Franklin who was K-St's OC ('06-'07). Franklin was with the GB Packers in '05 and the WR cch here '00-'04. Franklin (38) is in line to be the Terps' first African-American HC as he has been named the eventual successor to Friedgen (63), whose contract expires after 2011. Last year they had a new DC in Don Brown who was the HC at UMass from 2004-'08. His Minutemen played in the FCS Championship Game in '06 and finished among the Top 20 in total defense in three of his five years.

PHIL'S FORECAST

In Ralph Friedgen's first year ('01), I gave the Terps an excellent shot at having their first winning season in 6 yrs and getting to a bowl. The Terps did not disappoint and in fact they won the ACC Title outright (picked 7th by media). It was their first ACC Title since 1985 and first 10 win season since 1976. In '02 I called for them to match the previous year's 10 win total. They started out 1-2 before winning 10 of their last 11 including a 30-3 trouncing of Tenn (Peach Bowl). In '03, I called for them to have their 3rd straight 10 win season. With 15 st'rs back they opened 0-2 but went 10-1 down the stretch, demolishing WV in the bowl, 41-7. They were one of just 5 teams to have 10+ wins in each season from 2001-'03. Friedgen's first inexp'd squad was in '04 (9 ret st'rs) and after avg 34.4, 32.2 and 31.2 ppg on offense his first 3 years, they slumped to just 17.7 and went 5-6. In '05 they were young again (10 Sr in 2 deep, least exp ACC). The team had 3 close losses and finished 5-6 again. In '06 I noted it was Friedgen's most exp'd team in 3 years and MD made my Most Improved List. The Terps went 9-4 including a 24-7 bowl win over Purdue. They did benefit from 5 net close wins and while 5-3 in ACC play, they were -86.0 ypg (2nd worst) and were outgained in all but 2 gms. That year they climbed as high as #21. In 2007, at 2-1, the Terps suffered an unbelievable loss to WF (led 24-3 with a 1st & gl at the 3 before a tide turning 100 yd IR TD). While MD knocked off a pair of Top 10 foes (#10 Rut, #8 BC), they also blew a 14-3 lead over UVA as they gave up a TD with :18 left. At 6-6 they lost their bowl for their 3rd losing season in four years. That '07 squad had 3 net close losses and 29 sts lost to injury making them more exp'd than their 13 ret st'rs in '08. They had 46 of 62 lettermen back and 7 sets of my power ratings called for at least an 8 win season. MD was wildly inconsistent knocking off #23 Cal, #20 Clemson, #21 WF and #17 UNC, but lost two games they were expected to win by almost 2 TD's by a combined 55-14. They could have been in the ACC Title game but dropped their last 2. They beat Nevada 42-35 in the bowl to finish 8-5. Last year Maryland had just 9 ret st'rs (fewest ACC) and had benefitted from 5 close wins in '08. They had just 56% lettermen ret, the fewest for a non-service academy. Not only did they have to replace 30 seniors (23 started at least 1 gm) but 13 were either an NFL DC or signed as a FA. Everything pointed down and I picked them last in the Atlantic and they suffered their first 10 loss season in school history. They stunningly knocked off eventual ACC Atlantic Champ Clemson 24-21 and were in 1st place in the ACC at 1-0. They had a 17-9 FD edge but lost to Virginia and were non-competitive in 3 other ACC battles. They did lead Fla St 26-22 late in the 4Q but gave up a TD with :32 left and lost. In MD's FHG, BC got a 42 yd FG with 3:59 left to go up 19-10 (MD scored w/1:34 left). The Terps had the weakest record of any ACC team at 1-7 and were -91.3 ypg (2nd worst). Perhaps due to the economy they opted to keep "the Fridge" for another year. They had 4 net close losses (pg 299) but once again are inexp'd with just 12 ret st'rs. They do lose just 15 lettermen (54 ret) and draw both Duke and Virginia out of the Coastal and make my Most Improved List in 2010.

WAKE FOREST DEMON DEACONS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - Riley Skinner (PS#304) was lightly recruited and got one of the last scholarships that WF offered back in 2005. In '06 returning starter Ben Mauk was lost in the opener and amazingly rFr Skinner led WF to the ACC Title, throwing for 2,051 (66%, 9-5). Skinner had barely beat out Brett Hodges for the #2 spot prior to the season! Skinner missed 2 sts (shoulder) early in '07, but still completed an FBS leading 72.4% throwing for 2,204 (12-13). In Skinner's 3rd year he threw for 2,347 (64%, 13-7) and became the winningest QB in WF history. Hodges transferred to UCF and Skinner's backup last year was Ryan McManus, who beat out Ted Stachitas (PS#52). Skinner set the NCAA bowl record for comp % hitting 11-11 vs Navy in '08 and had a fine '09. After not topping 300 passing in any game in his first 3 years, Skinner had 2 straight career highs topping 300 yds five times in '09. He became the 2nd QB in ACC history to pass for more than 2,000 in 4 consec yrs and became the first WF QB to top 3,000 with 3,160 (66.0%, 26-12). He finished #4 all-time in the ACC with 9,762 yds and #2 in accuracy (66.9% missed #1 by .0005). He suffered a concussion late vs Miami and McManus hit 5-9 off the bench (6-14 on yr). This year both depart. I was surprised Stachitas did not take over the backup role last year and he missed most of this spring. Skylar Jones (PS#71), who moved to WR in '09, was #1 QB out of spring (although Grobe said the competition is still open and hasn't ruled out starting a true). This unit is transitioning back to the option and goes from having a near 10,000 yard passer to 0 career att's.

RB Josh Adams

RUNNING BACKS - At one point in 2006, WF was down to their 5th string RB and their leading rusher was a converted WR because of inj's. Grobe held his ground and still RS true frosh Josh Adams (PS#34), who had the best speed. In Adams' first year as a starter ('07) he rushed for 953 (4.4). In '08 Adams was banged up and finished with just 402 (3.3). RFr Brandon Pendergrass (PS#115) led with 528 (3.5). Kevin Harris (PS#91) had 176 (5.3) with 136 of that in the bowl! Last year all 3 ret'd but Harris missed 6 (156, 4.3). Pendergrass was #2 with 399 (4.8). Surprisingly Adams did not recapture his rFr form and had just 541 (4.8) although he was the #4 rec (307, 11.0). True frosh FB Tommy Bohanon (PS#140) earned PT (51, 3.2). This year they lose Harris (3 st) and FB Mike Rinfrette (8 st, 261 ttl yd). Not listed below are Lovell Jackson (5'10" 170 So, PS#210), Josh Harris (5'10" 190 rFr, PS#296, 4.34 spd), Willie Dixon (5'11" 220 Jr, 56 yds) and FB Zach Massey (6'1" 210 rFr). They add in rFr Michael Campanaro (5'10" 173, PS#42) and I look for much better production from this unit in 2010.

RECEIVERS - Last year WF had to replace DJ Boldin (#1 ACC in rec's '08) and their #3 rec. Grobe said he wanted to get Devon Brown and Chris Givens more involved in the running game like he did with Kenneth Moore in '06. Grobe also said the team lacked a game breaker at WR and felt those two rFr provided that. Brown was #2 with 671 (11.0) and 150 (4.2) rush. Givens (10.44 in 100m) was #3 with 629 (14.0) and 98 (6.5) rush. Marshall Williams (390 '08) led with 867 (14.4). TE Ben Wooster (9 st '08) played in just one game and FB Rinfrette started at TE late, due to injuries. This year they only lose Wooster (1 rec). Not listed in the PSL are Terence Davis (6'1" 180 So), Chris Langley (6'2" 185 Sr) and TE Spencer Bishop (6'2" 202 rFr, PS#264). The numbers will go down for the rec's with a less exp'd QB, but this group is much more experienced than it was in 2009.

OFFENSIVE LINE - With QB Skinner and an NFL caliber OL, WF used more of a traditional pro-style offense the L/3Y. This year they are transitioning back to the option where they put their strongest OL's on the inside to lead the rush attack and use the chop block like many option teams. In '07 they had 4 st'rs back but dropped to a then-Grobe era low of 143 ypg rush (3.4) while allowing 27 sks (7.1%), although C Steve Justice did become the first Deacon to win the ACC's Jacobs Blocking Trophy since Ben Coleman in 1992. In '08 they had to replace 4 multi-year starters and not surprisingly dropped to a new Grobe era low (4th straight yr ypg and ypc drop) of 121 ypg (3.1) with 30 sks (8.1%). Last year they had 9 of the top 10 back. Surprisingly WF's numbers only improved to 132 ypg rush (3.7) with 28 sks (6.7%). This year they lose RG Jeff Griffin (12 st, 4Y st'r), LG Barrett McMillin (10 st, 3Y st'r), LT Chris DeGeare (12 st, 3Y st'r, #5DC MIN), C Trey Bailey (9 gm, 6 sts '08) and RT Joe Birdsong (3 st). They go from 119 (#2 FBS) career sts down to 45 (#94) and the less experienced group figures to be down a few notches.

DEFENSIVE LINE - In Grobe's first 3 years WF played a 3-3-5 due to a lack of depth on the D-line. The depth has gotten better each year. In '07 they had to replace 2 st'rs but allowed just 109 ypg (3.2). In '08 they had 6 of their top 8 back but surprisingly slipped to 124 ypg (3.5) with 25 sks. Last year they had to replace 1.5 st'rs but then Kyle Wilber (7 st '08) broke his leg after just 4 sts. They were strong at DT but small and inexp'd at DE as LB Gelo Orange (225 lbs) started 5. Against Miami they used mostly 3 DT's. WF allowed 164 ypg rush and their 4.6 ypc was a Grobe era high (only 24 sks). This year they lose NG Boo Robinson (11 st, 37 tkl, 3 tfl), DT John Russell (12 st, 46 tkl, 4.5 sk) and NG Michael Lockett (1 st, 16 tkl). Not in the PSL is Derricus Ellis (6'2" 235 So). They get Wilber back but this unit is still a question mark with the inexperience in the middle (DT's 7 car tkls).

LINEBACKERS - From 2006-'08 WF had an outstanding LB combo of Aaron Curry and Stanley Arnoux. In '08 all 3 st'rs ret'd and the D allowed just 18.3 ppg. Last year they had to replace Curry (#1DC), Arnoux (#4DC) and their #5 tkl'r. The unit returned just 3 career sts and despite Grobe saying it was the deepest unit in his 9 yrs, the ppg rose to 26.3. This year they lose SLB Jonathan Jones (8 st, #6 tkl'r) and MLB Dominique Midgett, who only started the last 6 but was the #1 tackler. Normally with the loss of the #1 and #6 tkl'rs (return #4, #8), I would call the unit weaker but this group is much more exp'd (25 car sts) than '09's.

DEFENSIVE BACKS - WF had a strong secondary with CB Alphonso Smith in the lineup, as they finished #41 in my PDR in 2005 and their 22 int in 2006 were #2 in the FBS. In 2007 despite having to replace 3 st'rs, Smith had 8 int and WF moved up to #21. Surprisingly with all 4 st'rs back, including Smith, in '08 they fell to #36. Last year they had to replace 3 st'rs (#2, #4 DC's) and slid down to #56. Grobe said that rFr CB Kenny Okoro (3rd Tm ACC) had a bit of Smith in him and he led with 3 int. Alex Frye started the first 4 (then doghouse) and the final 2 at FS. Not listed below are CJ Washington (5'8" 160 Jr) and Jason Green (5'11" 195 rFr). This year they lose CB Brandon Ghee (12 st, 56 tkl, 8 pbu, #3DC CIN). With 7 of the top 8 returning, incl FS Josh Bush, who ended Russell Wilson's streak of 379 att without an int, I look for a big jump in my PDR.

SPECIAL TEAMS - WF was led by outstanding K Sam Swank for 4 years. WF finished #16 in my ST rankings in '05, #7 in '06 but surprisingly fell to #52 in '07. In '08 Swank missed 6 gms and was not 100% in the others and Shane Popham took over both duties at times (7-12 FG's, 37.5 net). The longest PR allowed all year was 2 yds (#1 NCAA). WF finished #34 thanks to 4 blk'd punts. Last year they had to replace Swank and their top 2 PR's. Grobe felt that with Popham handling all 3 duties, he was turning into an avg K and avg P so true frosh Jimmy Newman took over the FG's (11-17, long 44, 3 miss 50+ incl 60!). Popham only had a 35.0 net. Cline Beam (soccer tm) had 13 TB's on 62 KO's. RFr Lovell Jackson was the top KR (24.2) and WF avg just 4.5 on PR's. Overall, WF finished just #82. With everyone back, including DE Gelo Orange (3 blk punts), I look for good sized improvement this year.

COACHES - Jim Grobe is just the 5th coach in school history to lead the Demon Deacons to a bowl. After recording B2B winning seasons in his first 2 years, he led the team to their first ACC Title S/'70 (2nd ever) in his 5th year ('06). That year he was AP National COY and has 3 bowls in 4 yrs. OC Steed Lobotzke enters his 8th year as OC (10th overall) here. Brad Lambert was elevated to DC in '08 (LB cch 7Y). Steve Russ coached TE/FB his first 2Y but moves to LB's TY. He played for Grobe at Air Force and was the DC at Syr in '07. WR coach Brian Knorr was the HC at Ohio from '01-'04.

PHIL'S FORECAST

Jim Grobe had veteran teams during his first two years and went 6-5 and 7-6. He had just 10 st'rs back in '03 and they were just 5-7 (-80.1 ypg ACC play). In '04 they had just 10 scholarship seniors. Bobby Bowden commented after a narrow win over WF that with 4 more plays, WF could have been 7-0. Instead they opened 3-4 and finished just 4-7 (6 close losses). They had 15 st'rs back in '05 (most ACC) but did have just 9 Sr's in the 2 deep. Surprisingly they blew a couple of leads and finished just 4-7 (3-5 ACC, -53.8 ypg). In '06 they had 16 ret st'rs, (most ACC) and ret'd 13 of their top 14 tkl'rs. I gave WF a shot at winning their first 5 and they did just that. WF was picked last in the ACC preseason poll but won their first ACC Title since 1970 after not being over .500 in ACC play S/'88 (17 yrs). Over the last 57 yrs of ACC play, WF has had 8 winless yrs compared to just 8 winning ACC records. Their best game in '06 was a 30-0 shutout of Fla St IN TALLAHASSEE! WF was also the first team in ACC history to record six road wins! They accomplished all this despite the fact that they lost their starting QB in Wk 1 and starting RB in Wk 3. In '06 they were +13 in TO's, had 5 net close wins and were -57.1 ypg in ACC play (4th worst). WF had 13 ret st'rs in '07 and nearly won the Atlantic again with some key int's in the EZ vs BC costing them. They did get a miracle win vs MD and won 6 in a row for the first time S/'92. They missed a 47 yd FG on the final play vs Virginia but won their bowl vs Conn, 24-10. While WF was 5-3 in the ACC, they were -18.5 ypg and benefitted from +9 TO's. That '07 squad had 4,425 yards on off and allowed 4,425 yards on def. WF came into '08 with 14 ret st'rs. For the first time in school history they were ranked in the preseason (#23). WF needed a win in the season finale vs Vanderbilt to wrap up a bowl and then knocked off Navy in the EagleBank Bowl to finish 8-5 (not ranked). WF was 4-4 in the ACC (-20.9 ypg) which gave them their 3rd straight .500 or better season for the first time since before the ACC was formed (1953). They benefitted from +17 in TO's. Last year the big concern was their defense as they had allowed just 297 ypg but had to replace a #1, #2, #4 and #4 NFL DC's. Their 36.3% tackles ret was 4th lowest. I said they would not match their 8 win total. WF lost at home to Baylor then got some fortunate ref calls to get past Stanford in Wk 2. Grobe turned QB Riley Skinner loose and he had some big games. WF did lose in OT to BC but beat NCSt and MD at home to move to 4-2 (2-1 ACC, 1st place Atlantic). They were throttled by Clemson and then in the rain were upset by Navy (Navy 0 pass att). They led Miami 27-14 but Skinner suffered a concussion with 6:22 left and UM rallied for the win. They lost to GT by 3 then suffered their 5th straight loss on the season to Fla St (longest losing streak since '00) but then beat Duke in the season finale for a 5-7 record. WF was +17.6 ypg (5th best) and had 3 net close losses (see pg 299) with 5 losses by 3 or less. They do have just 13 ret st'rs and lose QB Skinner. Four of my 9 sets of power ratings do call for bowl eligibility and Grobe usually exceeds my expectations.

USC TROJANS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - In the past decade five Trojan QB's have been drafted and Carson Palmer and Matt Leinart both won Heisman Trophies. Soph Mark Sanchez (PS#2) had 3 sts and threw for 695 (61%, 7-5) in '07 when starter John David Booty (PS#1) was inj'd. The Trojans' 238 ypg passing in '07 was their lowest since Carroll's first season in 2001 (227). In '08 Sanchez battled the mobile Aaron Corp (PS#9) and Ark transfer Mitch Mustain (PS#1). Mustain was 8-0 as a starter for the Hogs in '06 throwing for 894 (52%, 10-9). I said even with the loss of 2 yr st'r Booty, they could improve. Sanchez threw for 3,207 (66%) with a 34-10 ratio (#1 P10 pass eff). Mustain played in 8 (157 yd) while Corp played in 5 (14 yd). Carroll was not happy when Sanchez opted to leave early for the NFL which left the Trojans with the least exp'd QB's of his tenure. Corp was the starter out of spring but suffered a cracked fibula and true frosh Matt Barkley (PS#5) took most of the snaps in Aug. Barkley was impressive early but inj'd his shoulder leading the comeback vs Ohio St. Corp started vs UW but hit just 13 of 22 (110 yd) in the upset loss. Barkley played well upon his return (278 ypg, 60%, 6-4) during the Trojans' 4 game win streak. As the season began to turn south he struggled hitting 7 of 22 for 112 yds vs Ariz St, tossing 3 int vs Stanford and passing for just 144 in the home loss to Arizona. In the bowl he hit 27-37 for 350. Overall Barkley threw for 2,735 (59.9%) with a poor 15-14 ratio. The Trojans avg'd just 222 ypg passing (lowest under Carroll). At times Mustain passed Corp for the #2 spot. Not in the PSL is Princeton transfer Brett Kan (6'2" 190 PS#120). Corp transferred but this is a much more exp'd unit and Barkley should step it up as a sophomore.

RUNNING BACKS - This is a school known for its RB's with five Heisman Trophy winners in Mike Garrett, OJ Simpson, Charles White, Marcus Allen and Reggie Bush. In '06 they had to replace a tremendous set of RB's in Bush and powerful LenDale White (comb 3042, 7.7, 40 rush TD's) who were the only 2 RB's in the Carroll era at that time to run for 1,000. Stafon Johnson (PS#3), who was #2 in '07 (673, 6.9) led in '08 with 705 (5.1). Joe McKnight, who had 540 (5.7) in '07 was #2 in '08 with 659 (7.4). CJ Gable (PS#9) was #3 with 617 (5.8). Last year Johnson suffered a horrific weight room injury and played in just 4 but was still the #3 rusher. Allen Bradford (PS#3) was #2 with 668 (5.8). Carroll finally had a feature RB in McKnight, who became the Trojans' 26th 1,000 yard rusher with 1,014 (6.2). This year they lose McKnight (#4DC NYJ, 11 st), Johnson (1 st) and FB Adam Goodman (9 gm). Adding depth are Curtis McNeal (5'8" 190 So, PS#34) and FB Hunter Simmons (6'2" 235 rFr). Despite the loss of 2 of their top 3 rushers, this unit is still loaded with talent with true frosh Dillon Baxter (PS#4) compared to Bush by Kiffin in the spring.

RECEIVERS - In '08 Ark (5 st '06) transfer Damian Williams (PS#11) led with 869 (15.0). Last year they had 4 of their top 5 back. Ronald Johnson (PS#14) was #3 in '08 but he broke his collarbone and missed the first 5. Anthony McCoy was one of the most impressive TE's in the country but did miss 3 and was #2 with 457 (20.8!). Williams had more than twice as many yds as McCoy with 1,010 (14.4) and was Off Bowl MVP (12-189) while Johnson was #3 (378, 11.1). RFr Brice Butler (PS#17) added 292 (14.6) and David Ausberry (PS#2) had 123 (10.2). This year they lose Williams (#3DC TEN) and McCoy (9 st, #6DC SEA). They add in a host of VHT's and not listed below are Travon Patterson (5'10" 175 Sr, PS#58), Spencer Vigoren (6'4" 220 Sr), Robbie Boyer (6'0" 185 So, PS#132), and TE's Ian Wandler (6'4" 270 Sr) and Jordan Cameron (6'5" 220 Sr), who was #1 out of spring. Despite being less exp'd, with a seasoned QB they could put up better numbers.

WR
Ronald Johnson

OFFENSIVE LINE - In '07 USC had to replace 2 st'rs and the unit was hit hard by inj's. They still paved the way for 197 ypg rush (5.0) with just 17 sks (3.7%). In '08 they lost their 20th 1st round OL DC since 1968 in LT Sam Baker and had just one starter ret but did have 5 with starting exp. Surprisingly the inexp'd O-line matched '07's numbers with 195 ypg (5.0, 18 sk). Last year the entire 2 deep ret'd and SJSt HC Dick Tomey said that USC's O-line was the best he'd seen in his long career. They did lose star C Kristofer O'Dowd for 5 gm (inj) but the numbers actually slipped a little to 167 ypg rush (4.9) with 18 sks (4.7%). This year they lose 1st Tm P10 C/G Jeff Byers (13 st, 3Y st'r), 1st Tm P10 LT Charles Brown (13 st, 2Y st'r, #2DC NO), RG Alex Parsons (11 st, 2Y st'r) and bkp Nick Howell (9 gm). O'Dowd returns and the PSL includes 9 players who are PS#20 or better. This unit is less exp'd but '09's numbers were lower than expected.

DEFENSIVE LINE - The Trojans always field a premiere D-line. In 2003 they allowed just 1.8 ypg rush with 55 sks. Their "worst" year of the decade was '05 when they yielded 3.8 ypc. Last year they had to replace 3 st'rs (#1, #2 and #4 DC's). After gm 6, they led the nation in sacks per game and were 2nd in tfl. Shockingly in 2 of the next 3, they would yield 391 rush (8.0) vs Oregon and 325 (6.5) vs Stanford (0 sks in those 2). For the season USC allowed 128 ypg (3.7) with 35 sks. This year they lose 1st Tm Pac-10 DE Everson Griffen (12 st, 45 tkl, 8 sk, #4DC MIN) and DT Averell Spicer (2 tkl, inj). NT Christian Tupou (11 st, 25 tkl) tore his ACL in the spring game and is expected to miss the season. Six of the top 8 return with all 12 in the 3 deep being VHT's (5 w/st exp). This remains one of the premiere D-lines in the country.

LINEBACKERS - In '08 the Trojans led the NCAA in ppg allowed (9.0) with the best set of LB's in the country. While that '08 unit had to replace #1 and #5 DC's, they produced the Bednarik Award winner, a 1st Tm AA and #1, #2 and #4 NFL DC's. DC Rocky Seto said the '09 version was faster and while they played well early, they had 4 poor games and allowed 19.8 ppg (worst S/'05). Chris Galippo battled neck and back injuries while Malcolm Smith (PS#12) missed 3. This year they only lose Luthur Brown (9 tkl) and Uona Kaveinga (2 tkl) as the top 5 return (4 w/7+ car sts). Not listed in the PSL are Will Andrew (6'2" 225 rFr) and Ross Cumming (6'1" 220 Jr). The 3 starters are a PS#2, #12 and #12 and this is a vastly more exp'd unit.

DEFENSIVE BACKS - Under Pete Carroll, the Trojans finished #16, #12, #7, #1, #9, #10, #6, #1 and #14 in my pass D rankings. Last year they had to replace a pair of #6DC's and then proj'd starting CB Shareece Wright missed the entire reg season. Taylor Mays turned down the NFL, but wasn't 100% due to a knee injury suffered vs Ohio St. This year they lose 1st Tm AA FS Mays (12 st, #1 tkl'r, 4 pd, #2DC SF), SS Will Harris (13 st, #4 tkl'r, 4 int, 4 pbu), 2nd Tm P10 CB Kevin Thomas (13 st, 57 tkl, 11 pbu, #3DC IND) and 2nd Tm P10 CB Josh Pinkard (12 st, 59 tkl, 2 int, 9 pbu). This unit is my biggest question mark on the 2010 team as they have just 5 career starts ret (lose 116 car st). Not listed below are CB's Allen Noble (6'0" 190 Jr) and Spencer Spiegel (5'11" 175 Jr). Naturally 8 players in the 3 deep are VHT's. This is the first time since I began publishing my magazine (1995) that USC returns zero starters at DB.

SPECIAL TEAMS - USC finished #29, #15, #87 and #36 in my ST rankings from '03-'06. In '07 they surprisingly dropped to a Carroll era low of #101. In '08 I called for a large improvement and they were #50. Last year they had to replace their K and P and then top PR Stafon Johnson was inj'd after 4. Carroll did hire the first full-time ST coor (Brian Schneider) at USC since '01. Nebraska transfer Jordan Congdon (24-30 FG's w/NU) hit 12-16 (long 42). P Jacob Harfman (PS#36JC) missed a 50 yd FG vs UCLA. Billy O'Malley opened as P (37.3) but Harfman took over and avg 39.8 (37.0 tm net, 12 in 20). PR Damian Williams avg 14.2 with 2 TD's. The Trojans only finished #59. This year they lose Congdon and Williams but should have their best finish since at least '06 especially with the addition of ST cch John Baxter (Fresno '97-'09).

COACHES - Pete Carroll had been an NFL HC (NYJ and Patriots) and was lured back to the pros by SEA this year. Carroll led USC to a 97-19 record with two National Titles and an unprecedented 7 consecutive P10 Titles ('02-'08) in 10 years. The Trojans nabbed Carroll's former OC Lane Kiffin to take over. Kiffin was an asst at USC under Carroll for 6 years (OC L/2) before becoming the youngest HC in modern NFL history at 31 in '07. He was fired by the Raiders 4 gms into the '08 ssn (5-15 2Y). Tennessee hired him to revitalize a stale program LY and he led them to a 7-6 record, but disappointingly left them in the lurch after 1 ssn. Kiffin is his own OC and he brings his father, legendary DC Monte Kiffin, with him. Monte was the DC of the Tampa Bay Bucs for 13 yrs prior to joining his son at UT LY. DL cch/recruiting coor Ed Orgeron also returns to USC (DL coach here '98-'04) to help run the D.

PHIL'S FORECAST

Pete Carroll had inherited a team that had only topped 6 wins in a season once ('98) in the 5 yrs before he arrived. Not too many fans were excited about Pete Carroll's hiring but his was the only team in the country to finish in the AP Top 4 in each of the 7 yrs from 2002-'08. They won a National Title in '04 and nearly again in '05. In '07 they were the consensus preseason #1. The Trojans dropped as low as #13 after losing 2 P10 games but finished #3 after winning their last 5. In '08 the Trojans had just 11 ret starters but had most of their tough Pac-10 games at home so were favored for the conf title again. USC had the most impressive ypg in Pac-10 play (+232.7) since 2005 (Bush, Leinart, White +274.5). After beating Ohio St at home they were upset by Oregon St on the road but were 12-1 (#3) including a 38-24 thrashing of Penn St in the Rose Bowl. Their D allowed just 9.0 ppg (#1 NCAA) and is the top mark here S/'67 (7.9). The D was a question mark heading into '09 (3 st'rs back). They performed well early and after USC beat Ohio St on the road, they appeared on the fast track for a potential National Title game. Unfortunately they once again lost the game after Ohio St to a P10 team on the road (Wash) playing without QB Barkley (inj). The Trojans destroyed Wash St and Cal the next 2 weeks (combined 57-9) and got past both ND and Oregon St. They were #4 and favored in Autzen Stadium one week after allowing 36 pts to OSU. They yielded 47 to UO (worst loss S/'97), the most pts allowed by USC in Carroll's tenure. They escaped Ariz St (14-9) but then Jim Harbaugh and Stanford handed it to them 55-21. It was their worst home defeat since 1966 and the most points EVER allowed by a USC team. The score was 28-21 going into the 4Q. While Carroll was upset at Harbaugh for piling it on late, he used a similar tactic when they threw a TD pass after UCLA called a TO in the final minute in a 28-7 win. In the battle for the Holiday Bowl berth, Ariz got a 36 yd TD pass with 3:14 left sending the 8-4 Trojans to the Emerald Bowl. I wondered if Carroll could get his team up for their first non-Rose Bowl since '04 especially after falling out of the AP Top 25 (102 wk streak). They rebounded to beat BC 24-13. Their 2 losses at home LY were the most since Carroll's first season ('01). They made a controversial hire bringing in Lane Kiffin when Carroll ret'd to the NFL. The Trojans were 5-4 in the Pac-10 but were actually -19.4 ypg (4th worst). USC does have just 10 ret st'rs but they have a more seasoned D (best in P10) and now have a veteran QB. The Trojans should open up 5-0 which would have them buying into Kiffin and gaining confidence. They have five P10 HG's and a great shot at their 8th Pac-10 crown in 9 years.

NC STATE WOLFPACK

POSITION OUTLOOK FOR 2010

QUARTERBACKS - Philip Rivers had a fantastic 4 year career here capping it off in 2003 with 4,491 (72%, 34-7, ACC POY). The Wolfpack received uneven play from the QB's for the next 4 seasons as the overall QB numbers dropped 3 straight years from 202 ypg (56%) in '04 to 190 (55%) to 182 (52%) in '06. They did improve to 246 (56%) in '07. In '08 true frosh Mike Glennon (PS#2) who is a Rivers-type QB (6'6") battled rFr Russell Wilson who is more mobile (5'11"). Glennon had not grasped the offense enough and O'Brien opted to RS him and Harrison Beck (4 sts '07, 903, 53%, 2-9) was the backup. Wilson suffered a concussion early and Beck and Daniel Evans both played at times and combined to hit just 47-115 (41%) with a 3-12 ratio. The offense was dynamic with a healthy Wilson as he was the first ever frosh to earn 1st Tm ACC QB throwing for 1,955 (55%) with a 17-1 ratio. Last year expectations were huge for Wilson and he did manage to start all 12. He also set the NCAA record for most passes without an int, topping UK André Woodson's mark (325) with 379. Over the last 5, he did toss 7 int (31-11) but did throw for 3,027 (59.3%) and was the #3 rusher (260, 2.5). They used Glennon in 7 and he threw for 248 (61.5%, 1-2). Third string walk-on Daniel Imhoff (6'0" 202 Sr) played in 2 (1 att) and adding depth is Ross Snotherly (6'4" 250 So). Wilson, who already graduated, played baseball in the spring but should return to his '08 form and the Wolfpack have arguably the best backup QB in the country in Glennon.

RUNNING BACKS - Former HC Chuck Amato brought many VHT RB's here. Last year they had to replace Andre Brown (PS#10) who led in '08 (#4DC) with 767 (4.4). They did get Toney Baker (PS#7) back (miss '07 & '08). As expected, Baker led and his 773 (4.8) was the top total for a leading rusher since 2002 (TA McLendon, 1101). Jamelle Eugene (PS#90) missed 2 and rushed for 309 (3.1). RFr Brandon Barnes (6'0" 209 So, PS#16) surprisingly had just 79 (3.2) in 3 gm. True frosh James Washington (PS#154) played in 6 (inj) and had 76 (3.6). Baker (11 st) was awarded a 6th yr but opted to leave for the NFL and also gone is Eugene. Curtis Underwood (200 yd, 3.9 in his 1st 2Y) RS LY. Not listed below are Zach Gentry (6'0" 204 So), Ben Areno (5'9" 205 Sr) and Travis Leggett (5'11" 217 So) who led all rushers in the spring gm. You may see a frosh starting, especially after Barnes' ankle inj in spring. I wasn't overwhelmed with the overall RB production last year, so this year's unit could be more productive but is clearly less exp'd.

RECEIVERS - In 2008 the Pack had to replace 3 st'rs (#2, #3, #4 rec) and then #1 WR Donald Bowens missed the season (inj). Projected starting TE Anthony Hill was supposed to be a key player but missed 4. Owen Spencer (6'3") led in dropped passes but also was #1 with 691 and an eye opening 22.3 ypc (ACC record) as the team's game-breaker. Jarvis Williams was #2 with 432 (16.6) and 3rd string TE George Bryan added 201 (11.2). True frosh WR TJ Graham (PS#105) had 251 (15.7). LY 3 of the top 5 ret'd and they welcomed back Bowens. Williams was #2 with 547 (12.2) and while Spencer had just 30 rec (15 less than Williams), he led with 765 yards and broke his own record avg 25.5 ypc (NCAA best LY). Bowens missed the first 2 and was never really 100% finishing #6. TE Bryan made the John Mackey Midseason Watch list (422, 10.6). This year they only lose TE Matt Kushner (0 rec, 3 st) and Bowens. Not listed below are Paul Horst (6'3" 242 Sr), Morgan Alexander (5'11" 180 rFr, PS#105) and TE Anthony Talbert (6'4" 246 rFr, PS#67). This is a very exp'd receiving corps.

WR Jarvis Williams

OFFENSIVE LINE - Despite the presence of some fine RB's, it's been 11 seasons (1998) since NCSt avg 4.0 ypc! Tom O'Brien is a known molder of NFL caliber OL's. Having to replace 3 st'rs in his first year ('07) they opened holes for just 89 ypg rush (3.0), their fewest S/'86. They had just 2 ret st'rs in '08 but only 1 that would start more than 9. The numbers still rose to 123 ypg rush (3.6). They did move in 2 DL's with starting exp and each started all 13. Last year they had 3 st'rs, back but due to injuries only 2 OL's started all 12. The numbers stayed flat at 121 ypg (3.5) with 32 sks (7.6%). This year they lose C Ted Larsen (12 st, 2Y st'r, #6DC NE), LG Julian Williams (11 st, 2Y st'r), RT Jeraill McCuller (12 st, 2Y st'r) and RG Andy Barbee (6 st). This group has just 30 career starts (#109 FBS) and despite O'Brien's presence (he says, "we've got some very good players on the O-line"), this unit is a question mark for me in 2010.

DEFENSIVE LINE - In 2007 NCSt had to replace one st'r from the D-line but surprisingly allowed 186 ypg (4.3), their worst since 2000. In 2008 they had to replace 2 st'rs but the less exp'd line improved to 142 ypg (4.2). Last year they had to replace 2 DL (comb 13 sts, 10.5 tfl) but DE Willie Young turned down a shot at the NFL. Surprisingly with 3 st'rs back, they only improved to 139 ypg (3.9) with 24 sks. This year they lose 2nd Tm ACC DE Young (55 tkl, 8 sk, 6 tfl, #7DC DET), DE Shea McKeen (11 st, 36 tkl, 3 tfl), DT Leroy Burgess (12 st, 29 tkl, 2 sk) and DT Alan-Michael Cash (11 st, 58 tkl, 2 sk). Not listed below are Zach Miller (6'2" 271 So) and Keegan Ray (6'4" 220 So). This is a lightly experienced group returning only 8 career starts.

LINEBACKERS - In 2008 NCSt had to replace 3 st'rs (#2, #3 and #5 tkl'rs). Nate Irving emerged and was the #4 tackler (11 tfl) while setting a school record for int in a season by an LB with 4. Last year they only lost 1 st'r and Irving was called the best player on defense. Unfortunately, Irving was in a car accident (non-life threatening) and missed '09 so they only had 1 st'r back in Ray Michel. Michel missed 3 sts and they struggled even more when he was out. This year they lose Michel (#3 tkl'r) but have 5 of the top 6 back including #1 tkl'r Audie Cole (PS#54), #7 Dwayne Maddox, #9 Sterling Lucas and #10 Terrell Manning (PS#12). Adding depth to the unit is Patrick Apple (6'0" 225 Sr). They get back Irving so this figures to be one of the most improved LB units in the country.

DEFENSIVE BACKS - The Wolfpack finished #4 in my PDR in both '04 and '05 and were #47, #38 and #79 the next 3 years. Last year they had to replace 2 st'rs but then 2 proj st'rs left over the summer and Justin Byers (8 st '08) only started 2 (lost job). The other ret st'r, DeAndre Morgan (11 st '08) missed the first 2 (ankle) and had just 6 sts. It seemed like every week they shuffled the secondary trying to find a solution for the mental errors and missed tkls and used 8 diff starting lineups. NCSt dropped to #101 (62.6%, 20-8). This year they lose SS Clem Johnson (9 st, #2 tkl'r, 2 int, 1 pbu), CB Morgan (24 tkl, 4 pbu), CB Koyal George (5 st, 16 tkl, 1 int, 3 pbu) and CB Bobby Floyd (2 st, 56 tkl). Six return who started last year and they add in some solid true's that could play immediately. Seven of the top 8 are underclassmen but they can only be more stable than the '09 version.

SPECIAL TEAMS - O'Brien's BC units were #6 in '04 and #18 in '06 in my ST rankings. In his first year here ('07), NCSt finished #24 and in his 2nd they had to replace their outstanding K, top PR and KR and slipped to #54. True frosh TJ Graham set a school record with 1,028 KR yards (25.1) and was the top PR (8.2). New K Josh Czajkowski hit 16-19 FG's (long 42). Last year they had to replace their P (35.2 net). Most coaches feel that DB depth is a key to the ST unit and if you read the secondary, you know the Wolfpack was deficient in that area. They allowed 22.1 on KR and 10.2 on PR. Czajkowski hit 10-12 FG's (4-4 from 40+). New P Jeff Ruiz (JC) only avg 37.9 (34.7 net). Graham missed the last 5 and Clem Johnson filled in. Overall the unit dropped to #76. This year Ruiz graduated but did return to P during spg. They do lose Johnson but should climb in my ST rankings.

COACHES - While at BC, Tom O'Brien had losing seasons his first two years, but then guided the team to 8 straight bowls (won last 6). He was the first coach in BC history to have 8+ wins for 6 straight years. Dana Bible has been O'Brien's OC S/'99 and was also the OC for the PHI Eagles ('98). Bible was diagnosed with leukemia last year and missed the last 2 gms while undergoing treatment. He was limited this spring but is expected to continue as OC. DC Mike Archer was the DC at Kentucky from '03-'06 and was the LB coach for the Steelers from '96-'02. Archer was the HC at LSU from '87-'90 and enters his 4th year here. Jon Tenuta (16 yrs as a DC) was added as the LB coach this year.

PHIL'S FORECAST

Chuck Amato did have five bowl trips in his seven years but four came with Philip Rivers at QB. In Amato's final season in '06, NCSt had 7 close losses and had they gotten some breaks, could have finished as high as 10-2 but stumbled to 9 losses, the most here since 1959. In Amato's 3 post-Rivers years the Wolfpack went 8-16 in the ACC. NCSt was also -11 in TO's ('06) and despite their 2-6 ACC record, they were +2.3 ypg. I had high expectations for Tom O'Brien's first season here ('07). Things did not look good at midyear as they were -17 in TO's in the first 6 gm and opened 0-5 vs FBS tms. O'Brien switched things up during the bye week and they would go 4-1, but playing for a bowl berth they were thumped by Maryland 37-0, stopping the ACC's longest streak without being shutout at 150 gm ('95). NCSt finished -16 in turnovers but had 2 net close wins. Their -79.6 in ACC play was 2nd worst. They did have 40 sts lost to injury. In 2008 they had just 9 ret st'rs (fewest in ACC) and lost 47% of their lettermen. They also drew a tough non-conf slate. Things did not start out well. They had just 76 scholarship players after losing 9 over the summer and of the 2006 recruiting class, just 7 remained. Once again things looked bad for NCSt as they opened up 2-6 but they got a 4 gm sweep of Duke, WF, NC and Miami and in what looked like a rebuilding season, made it to a bowl. They played a solid Rutgers team but came up 6 points short after QB Wilson was KO'd. NCSt was -33.3 ypg in ACC play (2nd worst) but was +8 in TO's and finished in a 4-way tie for 3rd in the Atlantic (also tied for last). New HC's usually hit their stride in their 3rd season and in '08 they had 43 sts lost to injury. With a soft schedule it appeared NCSt was poised for a big year in '09. Against SC they dropped a 32 yd TD pass at the end and SC's only TD was a 14 yd drive set up by a fumble. After a couple of wins over FCS teams, they had a 530-300 yd edge vs Pitt and won 38-31 for a solid 3-1 start. In their first road game, Wilson had his int streak end with 2 picks and they lost 30-24. Duke had lost 20 straight ACC road games and despite the game being tied at 28 in the 3Q, NCSt lost by 21. Injuries to the DB's hurt as they allowed 52 pts to BC and 45 to Fla St and fell to 3-5. They got past lowly MD with a 482-270 yd edge but were then pounded by Clemson and VT before upsetting rival NC in the finale. Over O'Brien's first 3 seasons he has 99 sts lost in 37 gms. They did have a def ypp of 11.6 last year (pg 299) and also qualify for my Turnovers=Turnaround (-11). The Wolfpack were 2-6 in the ACC and -53.5 ypg (4th worst). They lose 20 of 49 lettermen and have just 12 ret st'rs plus draw VT and NC out of the Coastal. They face 9 bowl teams including three 2009 conf champs (GT, Cincy, EC). They have not caught a lot of breaks in O'Brien's first 3 years but if their fortune turns around, this team is capable of breaking the streak of 4 straight losing seasons, despite the tough schedule.

PHIL STEELE'S 2010 PAC-10 FORECAST

1. USC - This is the first time since 2002 that USC has not been the consensus preseason favorite to win the Pac-10. They will be a motivated squad however, despite the fact they have just 10 returning starters and lose their HC while replacing 26 lettermen. Last year the Trojans had to play some of the league's top teams on the road and this year get Oregon and California at home. The Pac-10 is highly competitive with very little difference between #1 and #9 and it was my toughest conference to forecast.

1. OREGON - Eight of my 9 sets of power ratings call Oregon the best team in the Pac-10 this year and it probably would have been 9 of 9 if QB Jeremiah Masoli was not suspended. I happen to like the replacements at QB and this year's Oregon team is much more experienced than last year's version which had just 9 starters back. They have 17 starters back this year and have the league's best RB's, O-line and DB's. Autzen Stadium is the toughest venue to play in but the Ducks have just 4 Pac-10 HG's this year. They do have to travel to USC and California. The Pac-10 Title just may be decided in the Coliseum on Oct 30th.

3. ARIZONA - The Wildcats could have easily won the Pac-10 last year but had a pair of 3 pt losses and came up just short. I am concerned that they have just 4 returning starters on D but in 2008 they had 3 returning starters and allowed just 21.3 ppg. Arizona is one of the fortunate teams with five Pac-10 HG's and one of their road games is at Wash St. While they have not been to the Rose Bowl since they joined the conf in 1978, they have a shot at it this year and that would make a great story.

3. CALIFORNIA - Cal has not done well when expectations are high and they are not one of the preseason favorites to win the Pac-10 for 2010. They do have a veteran O-line to go with outstanding skill players and my #2 rated D-line in the league. Cal's had some poor finishes in the past few years but they finish this season with 3 straight HG's. Cal has five Pac-10 HG's overall and one of their road trips is at Wash St. Now that they are back in the preferred "hunters" role, I look for Cal to pull some surprises and they are a legit Pac-10 Title contender.

5. OREGON ST - Since I'm picking Oregon St in a 3-way tie for 5th in the brutal Pac-10, you can pretty much count on the fact that they'll finish #1, #2 or #3 in the league as Mike Riley overachieves my expectations each and every year. Oregon St's starting QB's do much better in their 2nd year as a starter than they do in their first and this season they have a 1st year starter. They do return Quizz Rodgers and his brother James as part of 8 starters on offense and also return 7 on defense after having just 3 in B2B years. I actually feel the top 7 teams in this league are all capable of winning the title.

5. STANFORD - It surprises me that I am picking the Cardinal at this spot in the Pac-10 because all 9 sets of my power ratings have them rated either #1, #2 or #3 in the conf in terms of talent. Unfortunately they must face 5 bowl caliber Pac-10 teams on the road while they host Wash St. I feel that Stanford will have back-to-back winning years and even with the loss of Toby Gerhart, this year's team is stronger than the 2009 version.

5. WASHINGTON - Washington has dropped 12 straight road games and has 5 Pac-10 away games this year. They do return 18 starters and made some drastic strides last year, going from 0 to 5 wins. Led by the potential #1 NFL draft pick, Jake Locker, they have one of the top offenses in the Pac-10 while the defense should be stronger. The Huskies have made my Most Improved List so you can pretty much count on them going from a losing season to a bowl.

8. UCLA - The Bruins have the benefit of five Pac-10 HG's this year and will also have their best offense in five years. The D, despite having just 5 starters back, still ranks in the upper half of the league. UCLA finished 8th last year at 3-6 but were only -15.4 ypg. HC Rick Neuheisel has his best squad yet at UCLA so it's tough to peg them down here in the brutal Pac-10. The Bruins face the 3rd toughest schedule in the country and despite a low placement, they are a darkhorse Pac-10 Title contender.

9. ARIZONA ST - After last season ended, I thought Arizona St was guaranteed a spot on my Most Improved List. 2009 looked like a rebuilding year and the Sun Devils actually played better than I expected as despite their 2-7 Pac-10 record they were +15.2 ypg in league play. Unfortunately this year they have just 9 returning starters. They also face a tougher schedule in the Pac-10 with 5 AG's while one of the HG's is vs Wash St. While missing out on my MIT list, I still think this team has a shot at a winning record but with 9 bowl caliber teams in the league, I had to pick somebody here.

10. WASHINGTON ST - This year's Cougar squad would probably beat either of the last 2 editions by 3 TD's. They will finally have a strong D-line but keep in mind they have a lot of ground to make up in the Pac-10 as they were -260.4 and -272.7 ypg in league play the last 2 years. After being non-competitive the last few years, this year's squad looks to be much stronger but the gap is just too wide for them to jump out of the basement.

Pac-10 Notes: Every year there seems to be one conference that I do not enjoy forecasting. This year it is the Pac-10. There is very little difference between the top team and the 9th team. I could make a case for any one of them actually winning the league. What a difference from just years ago when the top 5 teams in the league were +80 or more ypg in P10 play and the bottom 5 were all -80+ ypg! Since each team plays 9 conference gms there is an unbalanced schedule with 5 tms getting 5 P10 HG's and the other 5 only getting 4 at home. Oregon parlayed that edge into a Pac-10 Title which ended USC's 7 year reign. During the 4 years of 9 conf gms, two teams tied USC for first and both those teams had the edge of 5 P10 HG's helping them. In 2008 the Pac-10 was just 14-17 vs other FBS teams (7th best) and was a startling 1-6 vs the MWC during the regular season. Just when you counted the P10 out they went 5-0 in the bowls. Last year 7 teams made a bowl but they were just 2-5 (outscored by 8.6 ppg, -83.6 ypg) and 9-10 vs BCS teams. They were just a combined 6-4 vs the MWC and the WAC with Pac-10 champ Oregon losing to WAC champ Boise. USC is #1 in the Pac-10, Oregon #2 and Oregon St #3 in the last 3, 5 and 10 yrs in league play. USC actually finished tied for FIFTH last year. The Pac-10 could have as many as 9 bowl eligible teams this year.

USC TROJANS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - In the past decade five Trojan QB's have been drafted and Carson Palmer and Matt Leinart both won Heisman Trophies. Soph Mark Sanchez (PS#2) had 3 sts and threw for 695 (61%, 7-5) in '07 when starter John David Booty (PS#1) was inj'd. The Trojans' 238 ypg passing in '07 was their lowest since Carroll's first season in 2001 (227). In '08 Sanchez battled the mobile Aaron Corp (PS#9) and Ark transfer Mitch Mustain (PS#1). Mustain was 8-0 as a starter for the Hogs in '06 throwing for 894 (52%, 10-9). I said even with the loss of 2 yr st'r Booty, they could improve. Sanchez threw for 3,207 (66%) with a 34-10 ratio (#1 P10 pass eff). Mustain played in 8 (157 yd) while Corp played in 5 (14 yd). Carroll was not happy when Sanchez opted to leave early for the NFL which left the Trojans with the least exp'd QB's of his tenure. Corp was the starter out of spring but suffered a cracked fibula and true frosh Matt Barkley (PS#5) took most of the snaps in Aug. Barkley was impressive early but inj'd his shoulder leading the comeback vs Ohio St. Corp started vs UW but hit just 13 of 22 (110 yd) in the upset loss. Barkley played well upon his return (278 ypg, 60%, 6-4) during the Trojans' 4 game win streak. As the season began to turn south he struggled hitting 7 of 22 for 112 yds vs Ariz St, tossing 3 int vs Stanford and passing for just 144 in the home loss to Arizona. In the bowl he hit 27-37 for 350. Overall Barkley threw for 2,735 (59.9%) with a poor 15-14 ratio. The Trojans avg'd just 222 ypg passing (lowest under Carroll). At times Mustain passed Corp for the #2 spot. Not in the PSL is Princeton transfer Brett Kan (6'2" 190 PS#120). Corp transferred but this is a much more exp'd unit and Barkley should step it up as a sophomore.

RUNNING BACKS - This is a school known for its RB's with five Heisman Trophy winners in Mike Garrett, OJ Simpson, Charles White, Marcus Allen and Reggie Bush. In '06 they had to replace a tremendous set of RB's in Bush and powerful LenDale White (comb 3042, 7.7, 40 rush TD's) who were the only 2 RB's in the Carroll era at that time to run for 1,000. Stafon Johnson (PS#3), who was #2 in '07 (673, 6.9) led in '08 with 705 (5.1). Joe McKnight, who had 540 (5.7) in '07 was #2 in '08 with 659 (7.4). CJ Gable (PS#9) was #3 with 617 (5.8). Last year Johnson suffered a horrific weight room injury and played in just 4 but was still the #3 rusher. Allen Bradford (PS#3) was #2 with 668 (5.8). Carroll finally had a feature RB in McKnight, who became the Trojans' 26th 1,000 yard rusher with 1,014 (6.2). This year they lose McKnight (#4DC NYJ, 11 st), Johnson (1 st) and FB Adam Goodman (9 gm). Adding depth are Curtis McNeal (5'8" 190 So, PS#34) and FB Hunter Simmons (6'2" 235 rFr). Despite the loss of 2 of their top 3 rushers, this unit is still loaded with talent with true frosh Dillon Baxter (PS#4) compared to Bush by Kiffin in the spring.

RECEIVERS - In '08 Ark (5 st '06) transfer Damian Williams (PS#11) led with 869 (15.0). Last year they had 4 of their top 5 back. Ronald Johnson (PS#14) was #3 in '08 but he broke his collarbone and missed the first 5. Anthony McCoy was one of the most impressive TE's in the country but did miss 3 and was #2 with 457 (20.8!). Williams had more than twice as many yds as McCoy with 1,010 (14.4) and was Off Bowl MVP (12-189) while Johnson was #3 (378, 11.1). RFr Brice Butler (PS#17) added 292 (14.6) and David Ausberry (PS#2) had 123 (10.2). This year they lose Williams (#3DC TEN) and McCoy (9 st, #6DC SEA). They add in a host of VHT's and not listed below are Travon Patterson (5'10" 175 Sr, PS#58), Spencer Vigoren (6'4" 220 Sr), Robbie Boyer (6'0" 185 So, PS#132), and TE's Ian Wandler (6'4" 270 Sr) and Jordan Cameron (6'5" 220 Sr), who was #1 out of spring. Despite being less exp'd, with a seasoned QB they could put up better numbers.

WR

OFFENSIVE LINE - In '07 USC had to replace 2 st'rs and the unit was hit hard by inj's. They still paved the way for 197 ypg rush (5.0) with just 17 sks (3.7%). In '08 they lost their 20th 1st round OL DC since 1968 in LT Sam Baker and had just one starter ret but did have 5 with starting exp. Surprisingly the inexp'd O-line matched '07's numbers with 195 ypg (5.0, 18 sk). Last year the entire 2 deep ret'd and SJSt HC Dick Tomey said that USC's O-line was the best he'd seen in his long career. They did lose star C Kristofer O'Dowd for 5 gm (inj) but the numbers actually slipped a little to 167 ypg rush (4.9) with 18 sks (4.7%). This year they lose 1st Tm P10 C/G Jeff Byers (13 st, 3Y st'r), 1st Tm P10 LT Charles Brown (13 st, 2Y st'r, #2DC NO), RG Alex Parsons (11 st, 2Y st'r) and bkp Nick Howell (9 gm). O'Dowd returns and the PSL includes 9 players who are PS#20 or better. This unit is less exp'd but '09's numbers were lower than expected.

DEFENSIVE LINE - The Trojans always field a premiere D-line. In 2003 they allowed just 1.8 ypg rush with 55 sks. Their "worst" year of the decade was '05 when they yielded 3.8 ypc. Last year they had to replace 3 st'rs (#1, #2 and #4 DC's). After gm 6, they led the nation in sacks per game and were 2nd in tfl. Shockingly in 2 of the next 3, they would yield 391 rush (8.0) vs Oregon and 325 (6.5) vs Stanford (0 sks in those 2). For the season USC allowed 128 ypg (3.7) with 35 sks. This year they lose 1st Tm Pac-10 DE Everson Griffen (12 st, 45 tkl, 8 sk, #4DC MIN) and DT Averell Spicer (2 tkl, inj). NT Christian Tupou (11 st, 25 tkl) tore his ACL in the spring game and is expected to miss the season. Six of the top 8 return with all 12 in the 3 deep being VHT's (5 w/st exp). This remains one of the premiere D-lines in the country.

LINEBACKERS - In '08 the Trojans led the NCAA in ppg allowed (9.0) with the best set of LB's in the country. While that '08 unit had to replace #1 and #5 DC's, they produced the Bednarik Award winner, a 1st Tm AA and #1, #2 and #4 NFL DC's. DC Rocky Seto said the '09 version was faster and while they played well early, they had 4 poor games and allowed 19.8 ppg (worst S/'05). Chris Galippo battled neck and back injuries while Malcolm Smith (PS#12) missed 3. This year they only lose Luthur Brown (9 tkl) and Uona Kaveinga (2 tkl) as the top 5 return (4 w/7+ car sts). Not listed in the PSL are Will Andrew (6'2" 225 rFr) and Ross Cumming (6'1" 220 Jr). The 3 starters are a PS#2, #12 and #12 and this is a vastly more exp'd unit.

DEFENSIVE BACKS - Under Pete Carroll, the Trojans finished #16, #12, #7, #1, #9, #10, #6, #1 and #14 in my pass D rankings. Last year they had to replace a pair of #6DC's and then proj'd starting CB Shareece Wright missed the entire reg season. Taylor Mays turned down the NFL, but wasn't 100% due to a knee injury suffered vs Ohio St. This year they lose 1st Tm AA FS Mays (12 st, #1 tkl'r, 4 pd, #2DC SF), SS Will Harris (13 st, #4 tkl'r, 4 int, 4 pbu), 2nd Tm P10 CB Kevin Thomas (13 st, 57 tkl, 11 pbu, #3DC IND) and 2nd Tm P10 CB Josh Pinkard (12 st, 59 tkl, 2 int, 9 pbu). This unit is my biggest question mark on the 2010 team as they have just 5 career starts ret (lose 116 car st). Not listed below are CB's Allen Noble (6'0" 190 Jr) and Spencer Spiegel (5'11" 175 Jr). Naturally 8 players in the 3 deep are VHT's. This is the first time since I began publishing my magazine (1995) that USC returns zero starters at DB.

SPECIAL TEAMS - USC finished #29, #15, #87 and #36 in my ST rankings from '03-'06. In '07 they surprisingly dropped to a Carroll era low of #101. In '08 I called for a large improvement and they were #50. Last year they had to replace their K and P and then top PR Stafon Johnson was inj'd after 4. Carroll did hire the first full-time ST coor (Brian Schneider) at USC since '01. Nebraska transfer Jordan Congdon (24-30 FG's w/NU) hit 12-16 (long 42). P Jacob Harfman (PS#36JC) missed a 50 yd FG vs UCLA. Billy O'Malley opened as P (37.3) but Harfman took over and avg 39.8 (37.0 tm net, 12 in 20). PR Damian Williams avg 14.2 with 2 TD's. The Trojans only finished #59. This year they lose Congdon and Williams but should have their best finish since at least '06 especially with the addition of ST cch John Baxter (Fresno '97-'09).

COACHES - Pete Carroll had been an NFL HC (NYJ and Patriots) and was lured back to the pros by SEA this year. Carroll led USC to a 97-19 record with two National Titles and an unprecedented 7 consecutive P10 Titles ('02-'08) in 10 years. The Trojans nabbed Carroll's former OC Lane Kiffin to take over. Kiffin was an asst at USC under Carroll for 6 years (OC L/2) before becoming the youngest HC in modern NFL history at 31 in '07. He was fired by the Raiders 4 gms into the '08 ssn (5-15 2Y). Tennessee hired him to revitalize a stale program LY and he led them to a 7-6 record, but disappointingly left them in the lurch after 1 ssn. Kiffin is his own OC and he brings his father, legendary DC Monte Kiffin, with him. Monte was the DC of the Tampa Bay Bucs for 13 yrs prior to joining his son at UT LY. DL cch/recruiting coor Ed Orgeron also returns to USC (DL coach here '98-'04) to help run the D.

PHIL'S FORECAST

Pete Carroll had inherited a team that had only topped 6 wins in a season once ('98) in the 5 yrs before he arrived. Not too many fans were excited about Pete Carroll's hiring but his was the only team in the country to finish in the AP Top 4 in each of the 7 yrs from 2002-'08. They won a National Title in '04 and nearly again in '05. In '07 they were the consensus preseason #1. The Trojans dropped as low as #13 after losing 2 P10 games but finished #3 after winning their last 5. In '08 the Trojans had just 11 ret starters but had most of their tough Pac-10 games at home so were favored for the conf title again. USC had the most impressive ypg in Pac-10 play (+232.7) since 2005 (Bush, Leinart, White +274.5). After beating Ohio St at home they were upset by Oregon St on the road but were 12-1 (#3) including a 38-24 thrashing of Penn St in the Rose Bowl. Their D allowed just 9.0 ppg (#1 NCAA) and is the top mark here S/'67 (7.9). The D was a question mark heading into '09 (3 st'rs back). They performed well early and after USC beat Ohio St on the road, they appeared on the fast track for a potential National Title game. Unfortunately they once again lost the game after Ohio St to a P10 team on the road (Wash) playing without QB Barkley (inj). The Trojans destroyed Wash St and Cal the next 2 weeks (combined 57-9) and got past both ND and Oregon St. They were #4 and favored in Autzen Stadium one week after allowing 36 pts to OSU. They yielded 47 to UO (worst loss S/'97), the most pts allowed by USC in Carroll's tenure. They escaped Ariz St (14-9) but then Jim Harbaugh and Stanford handed it to them 55-21. It was their worst home defeat since 1966 and the most points EVER allowed by a USC team. The score was 28-21 going into the 4Q. While Carroll was upset at Harbaugh for piling it on late, he used a similar tactic when they threw a TD pass after UCLA called a TO in the final minute in a 28-7 win. In the battle for the Holiday Bowl berth, Ariz got a 36 yd TD pass with 3:14 left sending the 8-4 Trojans to the Emerald Bowl. I wondered if Carroll could get his team up for their first non-Rose Bowl since '04 especially after falling out of the AP Top 25 (102 wk streak). They rebounded to beat BC 24-13. Their 2 losses at home LY were the most since Carroll's first season ('01). They made a controversial hire bringing in Lane Kiffin when Carroll ret'd to the NFL. The Trojans were 5-4 in the Pac-10 but were actually -19.4 ypg (4th worst). USC does have just 10 ret st'rs but they have a more seasoned D (best in P10) and now have a veteran QB. The Trojans should open up 5-0 which would have them buying into Kiffin and gaining confidence. They have five P10 HG's and a great shot at their 8th Pac-10 crown in 9 years.

Sep. 11	Virginia	G					The Trojans are 12-6 vs the ACC. USC's won 12 straight home openers the last 6 by an avg of 46-7. They're 6-0 in that span vs non-conf/BCS teams with a 29-10 avg score.
Sep. 18	at Minnesota	A					USC leads this series 4-1-1 all-time (last matchup in Minn was in 1980 a 24-7 win). After LY's road win at Ohio St, the Trojans are 68-27-2 all-time vs current Big Ten tms.

Nov. 6	Arizona St	G					In a game that featured 18 penalties for 173 yds, USC escaped with a 14-9 victory LY in Tempe despite ASU having large edges in both yards (347-258) & FD's (23-12).
Nov. 13	at Arizona	G					Prior to LY's loss in the Coliseum, the Trojans had won 7 straight against Arizona. With the loss to UA, USC lost 2 gms in one season at the Coliseum for the 1st time S/'01.
Nov. 20	at Oregon St	A					Trailing 21-0 at HT, #1 USC lost in Corvallis for a 2nd consec time 2 yrs ago. USC has lost just 3 times to OSU S/'68. Trojans have dropped 4 str in the state of Oregon.

OREGON DUCKS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - The Ducks have had a solid history of QB play from NFL Hall of Famers Norm Van Brocklin and Dan Fouts to the present with 8 NFL DC at the position since 1987 including three 1st rounders (see Hardcore Fans). Dennis Dixon (PS#10) was having a Heisman-type season (68%, 20-4, 583 rush) in '07 until he suffered a torn ACL. Three QB's tried to replace him including Justin Roper (PS#91), who led the Ducks to a Sun Bowl win. In '08 Nate Costa (PS#56, ACL '07) was the clear frontrunner but was lost in August (2nd ACL). Roper started but was inj'd in game 3 and late JUCO signee Jeremiah Masoli (5'11" 220) started the last 10 throwing for 1,744 (57%, 13-5) while rushing for a school QB record 718 (5.7, 10 TD). Two true frosh Chris Harper (PS#17) and Darron Thomas (PS#22) played vs Boise when Masoli was inj'd. Masoli had another fine year in '09 leading the Ducks to the Rose Bowl and throwing for 2,147 (58%, 15-6) and was the #2 rusher (668, 5.5). Costa started vs UCLA (Masoli inj) and for the year threw for 197 (60.6%). They were able to RS Thomas (4.5 spd) who played in 5 as a true (268, 49%, 3-1). Not listed below are Daryle Hawkins (6'4" 196 rFr, PS#161) and Dustin Haines (6'3" 210 rFr, PS#334). Masoli was susp for 2010 and I expect Thomas to beat out Costa but this unit is much less exp'd than '09.

RB LaMichael James

RUNNING BACKS - Jonathan Stewart (PS#1) led with 981 (5.4) in '06 while Jeremiah Johnson (PS#68) added 644 (6.3). In 2007 my magazine was the only one to have Stewart on the Preseason AA Team and he lived up to the hype despite inj's, rushing for 1,722 (6.2) including a Sun Bowl record 253. Johnson was lost in Wk 6 (344, 6.4). In '08 they had to replace Stewart (#1DC) but Bellotti brought in LeGarrette Blount (PS#10JC). Johnson led with 1,201 (7.1) setting a Civil War record with 219 and Blount had 1,002 (7.3) and 17 TD's (2nd UO duo to each top 1,000). Remene Alston (5'8" 207 Sr, PS#149) had 161 (7.7). Last year they had to replace Johnson and then Blount was susp following the opener. That opened the door for rFr LaMichael James (PS#41), who was the Pac-10's #2 rusher with 1,546 (6.7) and the Ducks most dangerous weapon (P10 OPOY). Kenjon Barner (PS#115) moved over from DB and rushed for 366 (6.0). Alston had 133 (4.4). This year they lose Blount (1 st, 82 yds) and Andre Crenshaw (152, 3.0). While it will be tough for James to top last year's stats (susp for '10 opener), this unit is much more exp'd. They add in two VHT RB's including speedster Lache Seastrunk (PS#3) making this my #3 RB unit.

RECEIVERS - Last year the Ducks had to replace their top 2 WR's who had combined for 1,224 (14.2) but ret'd star TE Ed Dickson (#2 rec). They also returned WR Jeff Maehl (421, 10.8) but two WR's including VHT Chris Harper (PS#17) left prior to August. Dickson broke the TE school record for career rec's topping Josh Wilcox ('93-'96) and was #2 again with 551 (13.1). Maehl led with 696 (13.1) and DJ Davis (PS#21) added 233 (10.1). This year they lose Dickson (#3DC BAL, 1st Tm P10) and Jamere Holland (2 st, 13 rec). Not in the PSL are Will Murphy (6'2" 176 So) and TE's Brian Teague (6'3" 240 rFr) and Sam Doman (6'4" 220 Sr). While the Ducks lose, arguably, their top player from this unit, I look for more production from the WR's and they have some solid additions (see below).

OFFENSIVE LINE - Then-HC Bellotti called 2007's O-line the best in school history and they paved the way for 252 ypg rush (5.3) while allowing 24 sks (5.8%). They had to replace 2 st'rs and 2 bkps in '08 but actually improved to 280 ypg rush with an FBS high 6.2 ypc (20 sks, 5.4%). Last year they had to replace 4 st'rs (#2, #5 DC's) and 2 bkps. They returned just 20 career sts (#118 FBS). The unit outperformed my expectations with 232 ypg rush (5.5) and just 13 sks (3.8%). Not in the PSL are Ramsen Golpashin (6'4" 280 Jr), Justin Fritz (6'3" 277 Sr) and Lance Barker (6'1" 265 So). This year the entire 2 deep is back (85 car sts) and this should be one of the nation's top offensive fronts.

DEFENSIVE LINE - After an inexp'd D-line allowed 4.3 ypc rush (worst S/'97) in '06, they had to replace 2 st'rs in '07. Nick Reed led the Pac-10 in sacks (12) and UO improved to allowing 133 ypg rush (3.6) with 38 sks. They had an exp'd unit in '08 and Reed was 1st Tm AA with the Ducks improving to 119 ypg (3.1) with 39 sks. Last year this unit was a major question mark as they had to replace 3 st'rs. I called for Kenny Rowe (PS#19) to have better production (18 tkl, 1st 2 yr) and he wound up leading the P10 with 11.5 sks (3 in bowl). It was surprising to me that the numbers only slipped to 129 ypg rush (3.4) while the D had 36 sks. This year they lose DT Blake Ferras (13 st, 37 tkl, 2 sk), 2nd Tm P10 DE Will Tukuafu (13 st, 36 tkl, 2.5 sk, 7.5 sk '08) and DT Simi Toeaina (11 tkl). This time 2 st'rs return plus they add in a JUCO, a VHT true frosh and Dion Jordan moved over from TE earning raves in the spring. The unit is still undersized and did struggle vs bigger OL's but is much more exp'd than in 2009.

LINEBACKERS - For years the Ducks have listed themselves in a 4-2-5 but their SS was basically an SLB and in '08 they changed to that terminology. Last year their #2 and #6 tkl'rs ret so they only had to replace one st'r (#5). They added in PS#7JC Bryson Littlejohn. This year Kiko Alonso (16 tkl) is sups for the season and Eddie Pleasant (4.46 spd), who led the P10 in FR moves to S but 4 of the top 6 are back. They return their #2, #3, #12 and #14 tkl'rs and add in a VHT rFr. This is one of the Pac-10's better LB corps.

DEFENSIVE BACKS - The Ducks had 4 straight Top 20 finishes in my pass D rankings from 2004-'07. It was surprising that in '08 with 3 ret st'rs, they dropped to #47 (#8 '07). Last year they had to replace 2 st'rs (both #2DC's). Injuries took a toll on the 2 returning st'rs as TJ Ward missed 5 and CB Walter Thurmond was lost after 4 (ACL). Backup Willie Glasper was lost after 2 sts. It was surprising that the Ducks rose to #25. This year they lose S Ward (7 st, 68 tkl, 5 pd, #2DC CLE), Thurmond (3 st, 17 tkl, 1 int, #4DC SEA) and CB Glasper (11 tkl). They return 3 full-time starters plus Cliff Harris (PS#19) who had 2 sts as a true. They also add in LB Eddie Pleasant (12 sts). FS John Boyett (PS#39) started 10 earning 1st tm Fr AA honors. This group is clearly a lot more exp'd and should get another Top 20 finish. Not in the PSL are Scott Grady (5'11" 180 So, PS#116) and Brian Jackson (5'10" 192 rFr).

SPECIAL TEAMS - In 2007 UO had to replace their P and K but brought back their excellent ST coor Tom Osborne. In his previous 6 yrs here ('95-'00), they finished #30, #22, #4, #15, #13 and #47 in my ST rankings. So far in his first three years back the Ducks have been solid finishing #32, #27 and #21 as Osborne uses their abundance of team speed very well in this unit. Last year they had to replace their P, K and top PR. They lost their top PR Thurmond (15.0, 1 TD) early and had a true frosh P in Jackson Rice (PS#9, 36.2 net). K Morgan Flint hit 16-19 FG's (long 43) while Rob Beard missed a 51 yarder vs UCLA and had 10 TB's on 87 KO's. The Ducks had a crucial blk'd punt for a TD and converted a fake FG vs UW and finished +3 in the TD/blk category. This year they lose Flint and Thurmond but Osborne should field another top-notch unit.

COACHES - Mike Bellotti had the most wins (116-55) of any Pac-10 HC when he stepped aside prior to spring practice last year. He is the school's all-time career win leader (12 bowl, 14Y). New HC Chip Kelly was the OC here S/'07 and previously was the OC at New Hampshire ('99-'06). Kelly was named the Pac-10 COY after becoming the first HC in league history to win an outright conf title in his debut season. DC Nick Aliotti (12th year) was the architect of the "Gang Green" D that started the UO revival and ret'd to the school in '99 after being the DC at UCLA in '98. OC Mark Helfrich joined the Ducks after spring practice last year after previously being the OC/QB coach at Colorado ('06-'08).

PHIL'S FORECAST

In 2004 UO had a streak of 10 straight winning years snapped (5-6). In '05 I had UO as my #4 Most Improved Team and also listed them as one of my Surprise Teams. They nearly made it to a BCS bowl despite being unranked in the preseason and losing their QB to injury. The team avg 487 ypg with starting QB Clemens and just 371 ypg without him. They came very close to playing in the BCS Title game but were relegated to the Holiday Bowl where a disappointed 10-1 team (#6) lost to unranked Okla. They benefitted from +13 in TO's and 4 close wins and in '06 had just 13 ret st'rs and slipped to 7-6. That squad was -10 in TO's. In '07 the Ducks were once again unranked to start and for the 2nd time in 3 years I called them one of my Surprise Teams (darkhorse National Title contender). Had QB Dennis Dixon stayed healthy, he not only would have likely won the Heisman Trophy but UO would have played in the Title game despite being picked 6th in the preseason P10 media poll. The Ducks had climbed to #2 when Dixon and his backup were injured. With the QB mess, the Ducks lost their last 3 reg season gms before rebounding to knock off USF(#23) in the Sun Bowl. In '08 the Ducks had 5 P10 road games but 7 of my then-8 sets of power ratings called them the 2nd best team in the P10. Despite the tough schedule I gave them a shot at topping 2007's 9 win total. They had to play a 5th string QB at home vs Boise St and lost 37-32 but finished a solid 10-3 including a 42-31 win over Okla St (#13) in the Holiday Bowl. Last year they had just 9 ret st'rs (fewest P10) and unlike most years where I had the Ducks ranked higher than everyone, I actually had them rated lower than most. They entered the season #16 AP and my forecast looked pretty good as they were destroyed by Boise St in the opener, not getting their first FD until 38:00 into the gm (outgained 361-152 yds). The next week they barely survived stopping Purdue's 2 pt conv with 1:01 left. They got past Utah at home by 7 (Utah int'd at 8 less 2:00 left). UO was a rare HD to #6 Cal but destroyed them 42-3 and their season turned around. Against UCLA with bkp QB Costa starting, they trailed 3-0 at the half but got KR and IR TD's plus a fumble set up another TD drive giving them 21 points in the first 3:44 of the 2H and they won 24-10. Autzen Stadium turned into a house of horrors for opp's as they destroyed USC 47-20 and Ariz St 44-21 sandwiched between their lone conf loss at Stanford, 51-42. Against Arizona they trailed 24-14 but got a 43 yd FG that hit the crossbar and went over to tie it at 24. Ariz led 31-24 but was int'd in the EZ and with the AZ fans surrounding the field ready to celebrate, the Ducks got a TD with :06 left to force OT and pulled out the win in 2OT. With the Rose Bowl on the line in the Civil War, they trailed 30-21 in the 3Q but rallied for the win. In the Rose Bowl they were out FD'd 26-12 and outgained 419-260 in their 26-17 loss. The Ducks do have 17 ret st'rs. They were +159.1 ypg in P10 play which was 80.4 ypg better than #2. UO benefitted from 4 net close wins. They would have been preseason #4 this year but QB Masoli was susp. Last year's team had some good fortune but this year's team is stronger in every area except QB and TE. They have just 4 Pac-10 HG's but 8 of my 9 sets of power ratings call them the best team in the Pac-10.

ARIZONA WILDCATS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - Arizona has not had a QB drafted or make 1st Tm P10 since joining the conf ('78). In 2005 HC Mike Stoops took the RS off of true frosh Willie Tuitama (PS#32) in Wk 7 and he guided the team to wins over Oregon St and UCLA and started the next 3 years. In 2007's new pass heavy offense, Tuitama stayed healthy all year for the first time and set UA single season records for yards (3,683), att, comp (62%) and TD's (28-12 ratio) after throwing for just 1,335 (56%) in '06. In '08 Tuitama (bowl MVP) threw for 3,088 (65%, 23-8). Despite the presence of rFr Bryson Beirne (PS#109), true frosh Matt Scott was the backup and there was talk of using him as a runner. Scott played in 6 hitting 7-11-84 and was the #3 rusher (188, 8.2). Tuitama departed as the career passing leader. Scott battled Mich St transfer Nick Foles in '09. Scott has a cannon for an arm but needed to work on his accuracy, while Foles is a pure pocket passer. Scott started the first 3 but surprisingly Foles was called on to start at Oregon St and threw for 254 (3 TD). Foles later hit 78% vs Stanford (40-51) topping Tuitama's '07 record. He had the flu vs UCLA (3 int, 2 fumbles) and was called for a double pass at the end of the Cal game which took them out of FG range. He also suffered a broken finger on his non-throwing hand vs Ariz St but guided the team to a 2nd place tie in the P10 throwing for 2,486 (63.4%, 19-9). Scott threw for 441 (56.9%, 1-3) and was the #3 rusher (309, 7.5). Adding depth are Beirne (6'3" 225 Jr) and Andrew McDonald (6'2" 190 So). This unit is much more exp'd and Foles should be one of the top QB's in the P10. Remember, new QB coach Frank Scelfo had 3 QB's drafted while at Tulane.

RUNNING BACKS - In '07 true frosh Nic Grigsby was the top rusher of a young unit with 704 (4.4) in 8 sts and had 200 rec (5.7). In '08 they added true frosh Keola Antolin (5'8" 195, PS#39). Grigsby became the Cats' first 1,000 yard rusher (1153, 5.4) since Clarence Farmer in '01. Antolin only had 66 yds in the first 6 but rushed for 149 (7.1) vs Cal and had 4 TD's vs Oregon. Both ret'd last year but the unit was hit hard by injuries. Grigsby missed 3 and significant parts of others (shoulder). He had 400 (8.2) in the first 3 but finished #2 (567, 7.2). Antolin had shoulder and knee injuries but still led with 637 (5.6). Former OC Dykes called Grigsby & Antolin their big play guys and said the unit lost some pop without the top 2. Sr Nick Booth led the RB's with 84 vs Wash St and Greg Nwoko had 58 vs Oregon. HB/FB Chris Gronkowski did an excellent job blocking. Taimi Tutogi (6'1" 258 So) rushed for 50 (4.5) vs Wash St. This year they lose Booth and Gronkowski. Added to the mix are Daniel Jenkins (5'9" 187 rFr, PS#61), Kylan Butler (5'8" 180 rFr, PS#68) and Oliver Padre (5'10" 200 Sr). This unit should maintain better health and have a much stronger season statistically.

RECEIVERS - Mike Thomas (10.3 in 100M) was named co-P10 FPOY in '05 and in his last 3 seasons ('06-'08) had 597 yds (11.9), 1,038 (12.5) and 825 (11.1). One of the most talented TE's in the country, Rob Gronkowski was #2 in '08 with 672 (14.3) becoming UA's career TE receiving leader. Last year they had to replace Thomas but then unexpectedly lost Gronkowski (back inj). Delashaun Dean had 418 (11.3) in '07 and 593 (11.2) in '08 but slipped to just 396 (9.4) in '09. Terrell Turner (PS#66) had 575 in '07 and 580 in '08 and was #2 with 458 (9.5) in '09. Juron Criner (88 as true) led LY with 582 (12.9). David Roberts was #3 with 410 (9.5) and David Douglas (PS#176) had 320 (10.3) in 4 sts. Not listed in the PSL are Sean Lieb (6'1" 186 Jr), Kyle Day (5'11" 180 Sr) and Terrence Miller (6'4" 225 So, PS#40TE). This year they lose Turner (11 st). Even with the loss of Gronkowski (#2DC NE) who DNP this unit is more exp'd.

OFFENSIVE LINE - In '07 the Cats had 4 full-time starters ret but 3 were soph. They yielded 31 sks (5.8%) and surprisingly the rushing did not improve (77 ypg, 2.9). In '08 they had to replace one starter and one bkp but lost C Blake Kerley after 4 starts. The Cats improved to 158 ypg (4.1) while allowing 28 sacks (6.8%). Last year they had to replace two 3 year st'rs (#2DC) and another who had 8 sts. The starters averaged 6'5" 313. Their OL coach mentioned that it was his deepest unit in his time here and that it was the first time he wasn't overly concerned if a player went down. The Cats improved again, this time to 159 ypg and 4.8 ypc while allowing just 13 sks (2.7%). This year they lose LT Mike Diaz (11 st, 2Y st'r), G Herman Hall (11 st) and Kerley. The top returnees are 1st Tm P10 C Colin Baxter and 2nd Tm P10 LT Adam Grant who was granted a 6th year. RG Vaughn Dotsy missed 4 LY and should be 100%. This unit is actually a little more exp'd and should improve again.

DEFENSIVE LINE - Only twice this past decade did the Cats allow over 3.9 ypc rush. Once was in 2005 (4.6) and the second came in 2008 when they had to replace all 4 st'rs. That 2008 D allowed 131 ypg rush (4.1) with 24 sks. Last year it appeared the entire 2 deep ret'd but Kaniela Tuipulotu transferred to Hawaii (7 st '08). It was still a top-notch group but they didn't meet my expectations as they only improved to 120 ypg (3.9) with 34 sks. This year they lose 2nd Tm P10 DT Earl Mitchell (12 st, 48 tkl, 6.5 sk, #3DC HOU) and DT Donald Horton (13 st, 25 tkl, 3 sk). Six of the top 8 are back including Ricky Elmore, who led the team with 10.5 sacks. They also add Ohio St transfer Willie Mobley (PS#12) and PS#25JC Jonathan Hollins (RS '09). Not listed below is Chris Merrill (6'2" 285 So, PS#120). Despite being a little less exp'd, this figures to be one of the P10's top D-lines. They will periodically use a "cheetah" formation with 4 DE's at the 4 DL spots.

LINEBACKERS - Last year they had to replace their #1 and #8 tkl'rs but had their #5 and #6 back. The unit was underrated as they very seldom were caught in a missed assignment. I said despite the losses the unit should be stronger. MLB Vuna Tuihalamaka and Xavier Kelley both earned 2nd Tm P10. This year they lose Tuihalamaka (13 st, #4 tkl'r, 5.5 tfl), WLB Kelley (13 st, #2 tkl'r, 5.5 tfl) and Sterling Lewis (10 st, #9 tkl'r, 4 tfl). This is a lightly exp'd group (16 career tkl's ret) but they do add PS#15 and PS#111JC's who were in for spring as well as a PS#36 rFr. Despite the inexp, it wouldn't surprise me if Stoops fashioned another strong unit.

DEFENSIVE BACKS - In '07 UA had 7 of their top 8 back including Antoine Cason (Thorpe Award winner) and the Cats finished #23 (#35 '06, #21 '05) in my PDR. In '08 they had to replace Cason (#1DC) and his 3 year starting cohort CB Wilrey Fontenot (#7DC). Surprisingly the Cats allowed an outstanding 12-16 ratio and finished #15. VHT CB Devin Ross (PS#8) earned 2nd Tm P10. VHT true frosh Robert Golden (PS#21) was given the #1 jersey but had just 13 tkl. LY they had to replace 2 st'rs. They had an outstanding CB combo of Ross and Trevin Wade (comb 6 int, 21 pbu). The Cats dropped to #34 allowing 56.8% with a 19-12 ratio. This year they lose 3rd Tm P10 CB Ross (13 st, 81 tkl, 13 pd), 2nd Tm P10 S Cam Nelson (13 st, 74 tkl, 4 pd) and NB Corey Hall (3 st, 38 tkl, 1 pbu). Wade and SS Golden are top-notch returnees and 2 VHT's got their feet wet LY in PS#80JC Marcus Benjamin at CB and true frosh FS 6'4" Adam Hall (PS#6, burned RS Wk 4). This year they also add true frosh Marquis Flowers (PS#16). Not listed in the PSL are Lyle Brown (5'10" 175 Jr.), William Jenkins (6'0" 200 So), Mark Watley (6'0" 178 So), Nick Lenhart (6'1" 190 So) and Victor Yates (5'11" 202 Sr). They are equal to LY in terms of exp but should make a move up my PDR.

CB Trevin Wade

SPECIAL TEAMS - HC Mike Stoops inherited a unit that finished #106 in my ST rankings in '03. They improved to #78 and #52 (in '04 & '05) and with super K/P Nick Folk, rose to #10 in '06. 2007 was the first time S/'97 that UA had simultaneously debuted a new K, P and returnman but they still managed a #22 finish. RFr P Keenyn Crier avg 43.7 (net 38.1) and KR Mike Thomas avg 23.7. In '08 a more veteran unit finished #9. Last year they had to replace K Jason Bondzio (14 of 16 FG, long 49) as well as the dangerous Thomas (709 ttl ret yds). The Cats had another strong finish (#22). Alex Zendejas (PS#8) nearly lost his spot in Aug but hit 17-22 (long 47). He was replaced on KO's midseason by John Bonano (7 TB's). Crier had a 41.5 avg (35.1 net). William "Bug" Wright avg an outstanding 17.5 on PR's while Travis Cobb (PS#42JC, 25.4) and Keola Antolin (28.4) were dangerous KR's. Orlando Vargas blocked a punt and ret'd it for a TD vs Ariz St. This year the unit returns intact and is clearly one of the top ST units in the country.

COACHES - Mike Stoops was K-St's DC from '96-'98 then was DC at Okla from '99-'03. He is now in his 7th year here. OC Sonny Dykes left to become the HC of Louisiana Tech after 3 successful seasons here. DC Mark Stoops left after 6 years ('04-'09) to become the Florida St DC. Mike Stoops promoted OL coach Bill Bedenbaugh and RB/TE coach Seth Littrell to co-OC's this year. LB coach Tim Kish and former Colorado DB coach Greg Brown will be co-DC's in 2010.

PHIL'S FORECAST

Arizona joined the P10 in '78 and is the only team in the conf that has not been to the Rose Bowl. The Cats were ranked #4 in the '99 preseason polls but stumbled to a 6-6 record that year and went through 9 straight years without a winning season (39-65) including a surprising 9-28 at home in P10 play. When Mike Stoops was hired ('04) there was great enthusiasm but the team struggled to a 3-8 finish (-118.1 ypg in P10 play). In '05 they lost their last 2 games, were -9 in turnovers and finished 3-8. In '06 I called them my #2 Most Improved team and they did indeed achieve bowl eligibility but did not get a bid despite upsetting #25 Wash St, #8 Cal and getting their first win at Autzen Stadium since 1986 (37-10). In 2007 they slipped back to 5-7 and it was time to make my Most Improved List again in '08. Arizona did not disappoint as they went 8-5 landing their first bowl bid since the 1998 Holiday Bowl and in the Las Vegas Bowl they defeated #17 BYU, 31-21. Their 5 losses were by an avg of 5.6 ppg and they were +57.8 ypg in P10 play (5th best). They had just 12 returning starters last year and had to replace their QB but had just 13 lettermen lost (2nd fewest P10). I pointed out they could have been a 12-1 team in '08 but went from 5 P10 HG's to 5 P10 AG's and also had to face Iowa away from home. The Cats did indeed improve. They suffered an extremely tough loss vs Wash as they had a 461-256 yd edge and led 33-21 and had the ball late when a pass was ruled an IR TD, although one photo shows the ball touching the ground. They suffered another tough loss vs Cal (see QB writeup). Still, they had a great shot at the Rose Bowl and led Oregon 24-14 in the 4Q. Up 31-24 they were int'd in the EZ. The fans approached the field expecting to charge but they gave up a TD with :06 left and lost in 2OT. They knocked off Ariz St and USC (1st win over USC since 2000) both on the road in the final 2 and finished tied for 2nd at 6-3 and their +65.1 ypg was 3rd best. The Wildcats entered the AP Top 25 for the first time since 2000 but were only there for 2 weeks. They were shutout in the bowl by Nebraska. While they only have 4 st'rs back on D (lose top 4 tkl'rs) they only lose 17 lettermen and will have a potent offense. They get 5 P10 HG's and a road trip to Wash St. I will call for them to have their most wins since 1998 and to have a shot at their 1st ever Rose Bowl.

CALIFORNIA GOLDEN BEARS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - During his coaching career (HC & OC), Jeff Tedford has had 7 QB's go on to start an NFL game including six #1 DC's. In Tedford's first season here he inherited an underachieving Kyle Boller (career 47%). In Boller's only season under Tedford, he threw for 2,815 (53%, 28-10, #1DC BAL). Aaron Rodgers was next and was a #1DC of GB. In '06 Nate Longshore (PS#18) became just the 2nd Cal QB to top 3,000 with 3,021 (60%, 24-13). In '07 Longshore hit 64% (7-2) in the first 4 but suffered a chipped bone in his ankle. RFr Kevin Riley (PS#33) hit 20-34 for 294 vs Oregon St but ran the ball with no time-outs left costing the Bears a shot at the tying FG. Riley threw for 563 (64%, 5-1). In '08 Longshore missed the spring and Riley won the job but the QB's alternated often. They put up the weakest stats of the Tedford era combining for just 2,411 (53%, 24-10). Riley (9 st) threw for 1,360 (51%, 14-6). Last year Tedford left the QB job open again. Riley's main competition was Brock Mansion (6'5" 229 Jr, PS#27) who hit 3-6 as a rFr. Riley improved his mechanics and threw for 2,850 (54.7%, 18-8). Riley did well in the wins (61.7%, 15-4) but in their 5 losses hit just 46% (3-4). Beau Sweeney (PS#24) took Mansion's backup QB spot in Wk 4 (two comb for 10 passes). Added to the mix are rFr Allan Bridgford (6'3" 199, PS#15) and Ryan Wertenberger (6'2" 216 So). I expect continued improvement from the Cal QB's.

RUNNING BACKS - Cal did not have a 1,000 yard rusher the last 8 seasons prior to Tedord's arrival but he quickly changed that with 1,000 yard rushers in each of his first 7 years including JJ Arrington's record setting 2,018 (7.0) in '04. VHT Marshawn Lynch (PS#23) was his backup as a true (628, 8.8!). In '05 Lynch rushed for 1,246 (6.4) with Justin Forsett starting 3 (999, 7.6!). In '06 Lynch was banged up but still earned Pac-10 OPOY (1,356, 6.1). Forsett saw his ypc drop to 5.3 (626 yd). Lynch was a #1DC in '07 and Forsett was #2 in the P10 with 1,546 (5.1). Speedy true frosh Jahvid Best (PS#10) had 221 (7.6!). Best had a hip injury and was ? for 2008 and many wondered about his durability as a feature back. Best answered all those questions as he led the Pac-10 in rushing (1580, 8.1) despite missing one (wore elbow cast for 1/3 of yr). Best (10.31 100M) set a school record (Jerry Drew 283 in 1954) rushing for 311 (16.4) vs Wash. Backup Shane Vereen (PS#25) had 715 (5.0). Last year both ret'd and added in was rFr Covaughn DeBoskie-Johnson (PS#17) who rushed for 211 (6.8). Best had a toe injury in Aug and despite just 27 carries in the first 2, he still ran for 281 (10.4) and 4 TD's. He had 867 (6.1) when he suffered a scary looking season ending inj in the 2Q vs Oregon St. Vereen started 4 and finished #1 with 952 (5.2) ending Tedford's streak of 1,000 yard rushers at 7. This year Best left early for the NFL (#1DC DET) and they lose FB Brian Holley (9 st, 88 ttl yd). Not in the PSL are Isi Sofele (5'7" 186 So, PS#116, 2 st), Dasarte Yarnway (6'0" 227 rFr, PS#52), Langston Jackson (6'1" 238 So, PS#198) and FB Eric Stevens (6'0" 230 So). Tedford has proven that he produces top-notch backs (7 on NFL rosters) and the Vereen/DeBoskie-Johnson combo could start a new steak.

RECEIVERS - In '08 this unit was inexp'd replacing their top 4 rec (#2, #3, #4 DC's). Normally the Bears have at least a pair of WR's who snag 30 or more rec but they did not find a go-to receiver in '08. Fla transfer Nyan Boateng (PS#8) led with 439 (15.1) while TE Cameron Morrah had 326 (12.1). Verran Tucker had 362 (17.2). Last year they had to replace Morrah. Marvin Jones (PS#20, inj '08) had a great spg and emerged as Cal's #1 rec with 651 (15.1). Tucker started just 6 but was #2 (453,15.6). Boateng missed 2 (foot) and was #7 (191, 14.7). TE Anthony Miller missed 2 but was #3 (357, 13.7) and Jeremy Ross (4.39 spd) had 344 (15.6). This yr they lose Boateng, Tucker and TE Skylar Curran (3 st, 8 rec). Not listed below are Ross Bostock (6'2" 193 So), Quinn Tedford (6'0" 168 So) and TE's Garry Graffort (6'3" 250 Sr), Savai'i Eselu (6'3" 250 Jr, PS#41) and Solomona Aigamaua (6'1" 243 Jr). With 3 of their top 4 WR's back, look for improvement after a couple of down seasons.

OFFENSIVE LINE - In '08 Cal had 2 st'rs back and one of the new starters was lost after 3. The O-line still opened holes for 186 ypg rush (5.6) but did allow 25 sks (6.3%). Last year they lost #1DC C Alex Mack and a 2nd Tm P10 RG. They had 3 back who started the last 6 together and added back '07 starting LT Mike Tepper so big things were expected. Surprisingly the numbers dropped to 169 ypg rush (4.7) with 31 sks (7.9%). This year they lose 1st Tm P10 LT Tepper (13 st, 2Y st'r), LG Mark Boskovich (5 st '09, 10 st '08) and OG Chet Teofilo (4 gm '09, 7 st '08). Cal has 70 career sts ret and should have improved production.

DE Cameron Jordan

DEFENSIVE LINE - Cal's defensive strength this decade has been their DL play. In '07 they had to replace 3 st'rs (1 car sk ret). As expected, Cal allowed 4.0 ypc rush with just 22 sks. In '08 the unit ret'd intact but was injury plagued and true frosh Trevor Guyton (PS#69OL) was forced to burn his RS midseason. They opened the season in a 4-3 but eventually switched to a 3-4. Cal still improved allowing 122 ypg (3.2) with 35 sks. Last year they had to replace 2 DL (comb 9 st) but each of the 3 ret st'rs had 8+ starts in '08. They did have to break in a new LB corps but Cal still improved to 112 ypg rush (3.3) with 31 sks. This year they lose 1st Tm P10 DE Tyson Alualu (65 tkl, 7.5 sk, #1DC JAX) but have 4 back with starting exp. DT Derrick Hill missed 3 in '09 and should be a bigger force this yr. This unit is on par with '09.

LINEBACKERS - In 2007 Cal ret'd just 1 starter and allowed 7.5 more ppg than '06. With the unit intact in '08 (#2, #3 and #5 tkl'rs ret) they allowed 6.9 ppg less. Last year they had to replace their #1, #2 (#7DC) and #6 tkl'rs (742 comb career tkls) and I noted that this unit was my biggest concern on the entire team. They added 5 VHT's but Jarred Price (PS#12JC) had just 6 tkls and Jerome Meadows (PS#49JC) only had 4. Mike Mohamed (5 st, #3 tkl'r in '08) was the most exp'd LB earning 1st Tm P10 (#1 tkl'r, 13 st, 8 tfl). This year they lose OLB Eddie Young (13 st, #5 tkl'r, 6.5 tfl) and ILB Devin Bishop (9 st, #4 tkl'r, 4.5 tfl). I expect bigger contributions from LY's JUCO's and they add in 5 super VHT true frosh. Not in the PSL are Dan Camporeale (6'3" 235 rFr), Robert Mullins (5'11" 223 So, PS#50) and Nick Rosato (6'1" 233 So). Despite the losses, this is a more exp'd group and should be stronger after allowing 5.6 ppg more than '08.

DEFENSIVE BACKS - Cal has had some excellent finishes in my PDR like #10 in '04, #11 in '05, #26 in '06 and in '08 rose to #3 thanks to 1st Tm P10 CB Syd'Quan Thompson (led P10 18 pd) and a strong front 7. LY they had 9 of their top 10 back (all 4 st'rs). CB Darian Hagan was susp 2 and lost his job to rFr Josh Hill and SS Marcus Ezeff lost his spot to Sean Cattouse (last 6 st). Cal surprisingly slipped to #94 (lowest S/'01, #96). This year they lose 2x 1st Tm P10 CB Thompson (49 tkl, 1 int, 10 pbu, #7DC DEN), FS Brett Johnson (12 st, 52 tkl), Ezeff (8 st, 28 tkl, 1 pbu) and S Jesse Brooks (3 tkl). Five ret with starting exp and they add in true frosh PS#3 Keenan Allen, PS#38 rFr Steve Williams and hope that Hagan returns to his '08 form (3 int, 15 pbu). Despite losing 3 st'rs incl their top guy, Cal can only improve upon '09's unusually low finish.

SPECIAL TEAMS - In Tedford's first 7 years they were #24, #60, #69, #34, **#2**, #49 and #71 in my ST rankings. The #71 finish in 2008 was surprising with P Bryan Anger (36.0 net) and dangerous returnmen Jahvid Best (26.3 KR) and Syd'Quan Thompson (12.3 PR). True frosh K Giorgio Tavecchio hit 9-13 FG's (long 47). I expected significant improvement last year. Jeremy Ross avg 21.3 on 9 PR's. Best only had 1 KR (Vereen 23.0). At times they once again used a true frosh K in Vince D'Amato (PS#86) and the 2 K's alternated based on who kicked best in warm-ups. Tavecchio had 12 of Cal's 24 pts vs AZ but was then replaced by D'Amato for the next game. The two combined to hit 15-24 FG's (long 51). Anger improved to a 37.3 net but Tavecchio had just 2 TB's on 58 KO's. They only moved up to #56. This year the unit returns intact and they added in former EM HC Jeff Genyk, who coached NWSt from '96-'03, as the new ST coor. This unit has Top 25 potential.

COACHES - Jeff Tedford was the Pac-10 COY in his first season ('02) and again in '04. He had previously been the OC at both Oregon and Fresno and has produced many fine NFL QB's. OC Andy Ludwig took over Tedford's spot as OC at Fresno in '98 and at Oregon in '02 when Tedford moved on. Ludwig was Utah's OC for 4 yrs prior to coming here last year and was part of the Utes 13-0 '08 season. DC Bob Gregory left after 8 yrs here for Boise and the new DC is Clancy Pendergast, who has been in the NFL the last 15 yrs (DC ARZ '04-'08 and KC '09).

PHIL'S FORECAST

In 2004, I called Cal my #2 surprise team in the country and forecasted that they would go from 8-6 to a potential 10 or 11 win season. In a road trip to USC, Cal had 28-12 FD and 424-205 yard edges but came up short failing to score on 1&gl from the 9 and lost by 6. Those 6 points cost them the P10 Title and a trip to the 2004 National Title game. The Bears were +158.5 ypg (+23 ppg!) in P10 play, which were even better numbers than USC! Cal had just 8 st'rs back in '05 but at 8-4 finished #25 (#9 in '04) which was the first time since '50-'51 that Cal finished ranked in B2B years. In '06 Cal opened #9. At 8-2 if they had beaten USC they would have had their first trip to the Rose Bowl S/'59 and they led 9-6 at the half but lost. They did win a share of the P10 Title, their first conf title S/'75. They thrashed A&M 45-10 in the Holiday Bowl. In '07 it was the same story for Cal as they had a great start and poor finish. Cal fans weren't thrilled with me during the offseason as I picked them 5th in the P10 and did not have them ranked. Things looked pretty bad for my prediction as the Bears opened 5-0 (ranked #2) but they went just 1-6 down the stretch including their first loss to Stanford in 6 yrs. They trailed AF by 3 TD's in the bowl but rallied (AF QB Carney inj) and avoided a losing season at 7-6. In '08 Cal had just 10 ret st'rs but were 6-2 and ranked #21 before B2B losses (USC, Oregon St). They did win their final 3 including the Emerald Bowl. Their +59.9 ypg in P10 play was 4th best and Cal's best since 2004. Last year they had 15 ret st'rs but had benefitted from +15 in TO's in '08. I was high on Cal last year but they once again disappointed. They were 3-0 (#6) and favored in Autzen Stadium where they got drilled 42-3 by Oregon (outgained 524-207). They had their home win streak end at 9 with a 30-3 drubbing by USC but rallied to win their next 3. OSU then upset #23 Cal in Berkley 31-14 with a 436-239 yd edge and RB Best was lost for the season. The next week AZ was in FG range at the 25, down by 1 with less than 2:00 left when Arizona's QB caught a tipped pass and threw it again for a penalty and they were SOD on 4th & 17. After beating Rose Bowl contender Stanford on the road 34-28, they were dominated in a 42-10 road loss to Wash! They jumped out to a 14-0 lead in the Poinsettia Bowl but then were thrashed by Utah 37-27 for a very disappointing 8-5 season. The Arizona (#18) and Stanford (#14) wins were their first over B2B ranked foes since 1950. Cal did not do well when trailing as their 4 P10 losses were by a combined 145-30. Cal does have 14 ret st'rs but benefitted from 3 net close wins and despite their 5-4 Pac-10 record were -43.8 ypg in Pac-10 play (2nd worst!). The Bears have 5 P10 HG's and play Wash St on the road so they could be favored in 6 or more conf games. This is a talented team with most of the units in the upper half of my P10 rankings except DB and ST. This could be an atypical Cal team as they have the schedule to finish strong and are a P10 contender, who should top last year's 8 win total.

OREGON ST BEAVERS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - A reoccurring theme under HC Mike Riley is that a QB struggles in his first year and gets much better in his 2nd. Derek Anderson had a 24-24 ratio in the 1st year and improved to 29-17 as a senior. Matt Moore had an 11-19 ratio in '05 but improved to 18-7 in '06 (61%). In '07 Sean Canfield (PS#40), who has a strong arm (drop-back QB), battled 5'11" JUCO Lyle Moevao (mobile). They split the job over the first 3 but Canfield took most of the snaps the next 6 until he was injured. Moevao was 4-0 as a starter (inj'd 1H bowl). Canfield was not 100% so Moevao was the clear cut starter into '08. Moevao was injured at times and split duties with Canfield. Moevao started 11 (2,534, 59%, 19-13) and Canfield threw for 703 (67%, 6-2) in his 2 sts. Moevao took all of the snaps in the Civil War and the bowl. Canfield (shoulder) was not 100% until midseason. Last year Moevao had a shoulder injury and played in just one (1 snap). Canfield holding true to form, in his 2nd year as a starter, improved to 3,271 (schl rec 67.9%) with a 21-7 ratio (#2 Pac-10 pass eff). He threw for 329 vs USC and 342 vs Cal. His backup Ryan Katz (PS#33) had 232 (51.9%). Canfield (#7DC NO) and Moevao now depart. In the spring, Katz was leading the QB race over Virginia transfer Peter Lalich (PS#15, 2 sts, 680, 55%, 2-4 2Y at UVA). Cody Vaz (6'0" 200 rFr, PS#68) and Jack Lomax (6'2" 175 rFr, PS#90) add depth. I doubt the new QB will match Canfield's numbers.

RUNNING BACKS - In '08 the Beavers lost their #2 career rusher in Yvenson Bernard and the leading returnee was WR James Rodgers who had 586 (11.7) on fly sweeps. There was zero experience among the top 3 in rFr Ryan McCants (6'1" 228, PS#138), JUCO Jeremy Francis (PS#95) and true frosh Jacquizz Rodgers (PS#23). McCants is a big, bruising back and began as the starter but "Quizz" exploded with 186 vs USC (more than 5 teams had in TOTAL offense vs Trojans in '08). He rushed for 1,253 (4.8) despite missing the last 2, breaking what was then the P10 frosh rushing record. His older brother James (WR) was once again #2 (408, 8.9) and McCants had 337 (4.0). Last year I said it would be tough for the unit to top '08's stats but Quizz rushed for 1,440 (5.3) with a school record 21 TD's while adding 522 rec (6.7). They started to use the "Wild Beaver" offense and Quizz got a 61 yd run on the 2nd play vs Stanford in that formation. He was also #2 in the P10 in receptions (78). James Rodgers was again #2 with 303 (5.2) and true frosh Jovan Stevenson (PS#109) added 137 (5.3). McCants only played in 4 (inj). Not listed in the PSL are Jordan Jenkins (6'1" 211 So), HB John Reese (6'3" 247 Sr, PS#58TE) and FB's Will Darkins (6'1" 230 Jr, PS#92LB, 3 st LY) and Clayton York (6'0" 223 So). This year the group returns intact and should improve.

RECEIVERS - In '08 James Rodgers was #3 with 607 (11.9) and was also the #2 rusher. Sammie Stroughter finished #1 with 1,040 (14.9) and Shane Morales added 743 (13.8). Last year they had to replace their top 2. James Rodgers led with 1,034 (11.4) plus 303 rush (5.2) and JUCO Damola Adeniji emerged (807, 14.2). Joe Halahuni had 9 rec vs USC and his 35 rec was 1 short of All Pac-10 Joe Newton's school TE record (36, '06). Rodgers was #1 in the Pac-10 (#7 FBS) in all-purp yards. This year they lose TE/HB Howard Croom (2 st), Adeniji (11 st) and Casey Kjos (3 st, 9 rec). Markus Wheaton (PS#84) is one of the fastest on the team (8 rec true). Not listed below are Garett Hall (5'8" 198 rFr), Kevan Walker (6'0" 200 So, PS#88) and Mitch Singler (6'2" 196 rFr). Darrell Catchings had 386 (11.7) in '07 and was granted a 6th year making this unit more exp'd.

OFFENSIVE LINE - In 2007 OSU had 8 of their top 10 back and avg 175 ypg rush (4.2), their best since 2000 but allowed 36 sks (8.2%). In '08 they had to replace a pair of 3 year st'rs (3 st'rs back). They opened holes for 158 ypg rush (4.2) with just 21 sks (4.7%). Last year they had to replace a #2DC LT and a 2nd Tm P10 LG (plus bkp w/6 st). They kept Mike Remmers at RT to protect Canfield's blindside (left handed). They also added true frosh Michael Philipp (PS#13) and he started all 13 (1st true OL to start S/'97). OSU avg 140 ypg rush (4.1) but allowed 29 sks (6.1%) as Canfield was less mobile than Moevao. This year they lose 1st Tm P10 RG Gregg Peat (13 st, 2Y st'r) but have 9 of the top 10 back and this looks like their best OL yet under Riley.

DT Stephen Paea

DEFENSIVE LINE - In 2007, OSU had to replace 2 st'rs but the D-line had an incredible year. The Beavers led the FBS in rush D (71 ypg, 2.1) with 44 sks. In '08 they had to replace all 4 st'rs but bkp DE's Slade Norris and Victor Butler (comb 19.5 sks '07) both ret'd. Riley also had two JUCO's that he RS in '07 and added another JUCO in DT Stephen Paea. The numbers slipped to allowing 131 ypg (3.8), their worst total since 2001, with 39 sks. Last year they had to replace 3 st'rs including Norris and Butler (both #4 DC's, comb 22 sks). In my magazine I called for the Beavers to be tougher vs the run but produce less QB pressure and that is exactly what happened. They dropped the ypg rush allowed to 114 (3.8) but their 17 sacks was the lowest total under Riley. The only losses this year are DE Ben Terry (9 st, 21 tkl), DT Latu Moala (3 st, 11 tkl) and DE Matt LaGrone (4 st, 28 tkl). Not listed in the PSL are Ben Motter (6'5" 288 Jr) and Nathan Hannah (6'3" 277 Sr). Gabe Miller (PS#8TE) moved from TE to DE last spring and started the last 5 and should have a much bigger year while fellow DE Taylor Henry had 4 sks in the spring game. They have their most exp'd front in years led by Morris Trophy Winner DT Paea.

LINEBACKERS - OSU has had some excellent LB's with six being drafted since 2002. Riley takes a lot of pride in this group calling it the West Coast version of "Linebacker U" and saying his LB's all have the ability to rush the passer and drop back into coverage. In '08 they had to replace all 3 st'rs but last year only lost 1 starter (#5 tkl'r). They ret'd their #2, #4 and #7 tkl'rs. New MLB David Pa'aluhi was a Hawaiian kick boxer who played just one year of HS football. In his first year as a starter, he was the #2 tkl'r (8 tfl). This year they lose 1st Tm P10 Keaton Kristick (13 st, #1 tkl'r, 7.5 tfl) and Pa'aluhi who left the team in February. They are less exp'd but add in a pair of VHT in GS Michael Doctor (PS#28) and true Shaydon Akuna (PS#28). Keith Pankey started all 13 in '08 and was the #7 tkl'r in '09 (bkp) but suffered a torn Achilles in Feb and is ? for '10.

DEFENSIVE BACKS - In 2008 OSU had 3 DB starters back and finished #12 in my PDR (#7 '06, #10 '07). Last year they had to replace all 4 st'rs including two 2nd Tm P10 players and 2 DC's. They lost 139 career sts (7 car st ret). Naturally OSU dropped down to #68 with a 23-8 ratio. They like to have their CB's get in the face of the WR's so they can blitz a lot. This year the unit is much more exp'd. They do lose CB Tim Clark (10 st, 47 tkl, 2 pbu) and CB Patrick Henderson (15 tkl) but have 6 of the top 8 back and add in some solid rFr (see PSL). Riley called this one of his deepest secondaries in the spring so look for a big jump in my PDR.

SPECIAL TEAMS - In 2006, OSU was #4 in my ST rankings. They lost their P, KR & PR in '07 and were #111 in the FBS in net punting and dropped to #83. In '08 they had to replace their K & P but moved back up to #49. Last year they only had to replace their top PR (10.3). P Johnny Hekker improved his net from 33.1 to 35.7 (19 I20) despite a 6 yd punt into 50 mph winds in the bowl. He was 1 of 10 semifinalists for the Ray Guy Award. Justin Kahut was #2 in the P10 in FG's made 22-27 (long 50). He had just 6 TB on 80 KO's but with speedy true frosh added, they allowed just 17.7 per KR (#4 FBS). James Rodgers was the top returnman (23.3 KR, 11.6 PR). As you would expect, the unit improved to #32 and with everyone back, could rival their 2006 finish.

COACHES - Mike Riley began the turnaround at OSU in '97 as he inherited a team filled with players recruited for the wishbone. In his 2nd year he guided OSU to its first 5 win season in 27 years. Riley left in '99 to be an NFL HC (SD) but ret'd to Corvallis in '03. Riley is 5-1 in bowls. Riley reportedly turned down a chance to return to USC as the HC this offseason and signed a 3 yr ext through 2019. He also calls the plays on game day. Danny Langsdorf (ex-OC CFL Eskimos) is the OC (6th yr). The DC is Mark Banker, who was the co-DC at Stanford in '02 and Riley's DB coach from '97-'01. Riley's squad is the only team to finish in the top 3 of the P10 in each of the last 4 years.

PHIL'S FORECAST

Oregon St snapped a TWENTY-EIGHT year streak of losing seasons in '99 and finished #4 AP in 2000. OSU was 51-166 (30.7%) in the 80's and 90's but 80-45 (64%) this past decade. Reser Stadium has turned into a pit for opposing teams as OSU is 47-14 at home since 2000. Mike Riley returned in '03 and has now had six out of 7 winning years. In '03 OSU outgained Pac-10 foes by 142 ypg which was an even better mark than co-National Champ USC despite OSU's 4-4 mark. In his 2nd year they nearly defeated co-National Champ LSU in OT in Death Valley but opened up 1-4. They finished 5-1 and then routed ND 38-21 in the Insight Bowl. In '05, needing a win in the final game to make it to a bowl they were blown out by Oregon 56-14. They were -14 in TO's in '05. In '06 when they got a TD and 2 pt conv with :23 left to knock off Missouri in the Sun Bowl to finish 10-4, it was the 2nd best record in school history (#21 AP). In '07 Riley's Beavers went 9-4 with 15 ret st'rs. It looked like a rebuilding year in '08 as they had to replace their entire defensive front 7 and had just 10 ret starters. Riley, as always, did an exceptional job (P10 COY). They improved their P10 record to 7-2 and were +101 ypg (2nd best). They also had to play both Utah and Penn St (combined 21-1) on the road. They stunned #1 USC 27-21 (led 21-0) and controlled their own destiny to head to the Rose Bowl (last visit 1964) but lost to Oregon. They beat Pitt 3-0 in the bowl for a 9-4 season despite Jacquizz Rodgers missing the last 2. Coming into 2009 they had beaten a Top 10 team 3 straight yrs and were 1 of 10 tms that had finished in the Top 25 in each of the past 3. Last year they once again had just 10 ret st'rs and had to replace a school record 7 NFL DC's (six in 1967). OSU usually struggles early and caught a break against UNLV as they got a questionable pass interf call on 3rd & 26 at their own 15 late and got the winning FG with :07 left. They dropped their next 2 at home to Cincy and Ariz. After 2 P10 wins, USC got revenge for their '08 loss despite being outgained 482-429. OSU then won their next 4 including a road trip to Cal to set up a winner takes all Civil War for the Rose Bowl. They settled for a 3 FG's in the 1H and led 30-21 but lost 37-33. They had their 5 gm bowl winning streak snapped by BYU 44-20. This year OSU has 15 ret st'rs and were +78.7 ypg in P10 play (2nd best). Over the last 4 years, OSU's 25-11 mark is the 2nd best mark in the P10. Every year it seems Mike Riley's squad finishes higher than I project them. This year they play TWO Top 10 non-conf games earning my #6 rated schedule in the FBS. They have 5 HG's in the wide open Pac-10 and host both league favorites (Oregon & USC) so they are a legitimate Rose Bowl contender.

STANFORD CARDINAL

POSITION OUTLOOK FOR 2010

QUARTERBACKS - Since 1970 the Cardinal have had 11 QB's drafted including #1 overall DC's Jim Plunkett and John Elway. Trent Edwards (PS#5) was the last DC (#3DC BUF) in '07. TC Ostrander replaced Edwards in '07 but was injured and Tavita Pritchard (3 car att) was forced to start vs USC. While he hit just 11 of 30 for 149, he did hit the key 4th down TD pass for the amazing upset. Pritchard threw for 1,114 (50%, 5-9) in 7 sts. In '08 Pritchard was a much improved QB throwing for 1,633 (58%, 10-13). Even with Pritchard back last year rFr Andrew Luck (PS#8) was the clear cut st'r and some NFL scouts opined that he was the best pro prospect out of any college QB last year. Luck's numbers were not overwhelming as he threw for 2,575 (56.2%, 13-4) but was #1 in the P10 in pass eff. He did hit just 10-30 vs Cal and suffered a broken finger (throwing hand) vs ND and missed the bowl. Luck was the #2 rusher (354, 5.8). This year they lose Pritchard (20 career st) who hit 8-19-117 in the bowl (3 passes prior). Josh Nunes (PS#17) and Robbie Picazo will continue their battle for the #2 job in August. Luck should be one of the best QB's in the country and eventually could give SU their NFL record 4th #1 overall QB.

RUNNING BACKS - In 2006 true frosh Toby Gerhart (PS#17) started 1 gm and rushed for 375 (3.5). Gerhart rushed for 140 (11.7) in just 1 gm in '07 but RS (inj). Anthony Kimble led with 509 (4.4) and Jeremy Stewart added 343 (3.3). In my '08 magazine I called for Gerhart to jump to the forefront and have the highest rushing total for an SU RB since Tommy Vardell (1084, '91). Gerhart did not let me down as he set the school record with 1,136 (5.4) including 15 TD's reminiscent of "TD Tommy." Kimble (2 st) had 717 (6.0) and Stewart 76 (5.4). Last year Gerhart turned down MLB opportunities to return and Stanford benefitted greatly. Gerhart finished #2 in the closest Heisman race in history (28 pts behind Ingram), rushing for an NCAA best 1,871 (5.5) and an amazing 28 TD's. Naturally, having the top two rushing totals in school history, Gerhart moved behind Darrin Nelson (4,033) as the #2 rusher in Stanford history while breaking the Pac-10 record for TD's. True frosh Stepfan Taylor was the #2 RB with 303 (5.4) and Stewart rushed for 107 (6.3) missing 8. True frosh Tyler Gaffney (PS#13) only had 87 (4.0) and Usua Amanam (PS#32) RS. This year they lose Gerhart (#2DC MIN) and FB Josh Catron (1 rush). Not listed in the PSL are Andrew Stutz (6'0" 198 rFr) and FB Geoff Meinken (6'4" 262 rFr). There is good talent here but I cannot imagine any RB coming close to the season that Gerhart had in 2009.

RECEIVERS - In 2006 due to injuries, true frosh Richard Sherman led with 581 (17.1) and led again in '07 with 651 (16.7). Sherman missed 7 in '08 with a knee inj (108, 13.5) and moved to CB last year. Their top 3 rec's in '08 were Ryan Whalen (508, 12.4), Doug Baldwin (332, 14.4) and TE Coby Fleener (176, 13.5). The unit ret'd intact in '09 and got the added speed of soph Chris Owusu (10.4 100m) and 3 true frosh in Jamal-Rashad Patterson (PS#25), Jemari Roberts (6'3" 220 rFr, PS#28) and Drew Terrell (PS#62). Whalen led again with 926 (16.2) and Owusu was #2 with 682 (18.4), after playing in just 5 in '08 (MCL). Fleener was #3 with 266 (12.7) and TE Konrad Reuland added 142 (23.7). Adding depth are Warren Reuland (6'5" 209 So, PS#61), Griff Whalen (6'0" 194 Jr) and TE Jordan Najvar (6'6" 251 rFr, PS#16). This year they only lose TE Jim Dray (11 st, 11 rec, PS#10, #7DC ARZ) and I expect more production from 09's true frosh class, especially Patterson.

OFFENSIVE LINE - In '06, injuries decimated this unit as 9 diff players started (only 2 w/10+ st). SU avg just 65 ypg rushing (2.1), its worst S/'93 and yielded an FBS worst 50 sk (15.8%!). In '07 SU was more exp and improved to 111 ypg (3.0), its best total in 5 years but did allow 48 sks (11.3%). In '08 they had to replace 2 st'rs but brought in Okla transfer Chase Beeler and had 6 VHT's in the 3 deep. This time the Cardinal showed big-time improvement with 200 ypg (4.9) and just 21 sks (7.3%). Last year they had to replace a 2nd Tm P10 C and 1st Tm P10 LT plus their OL coach. They had 5 back who started 6+. Having Gerhart at RB helped them pave the way for 218 ypg (5.3) and they allowed the 2nd fewest sks in the FBS (7). This year they lose 1st Tm P10 RT Chris Marinelli (13 st, 3Y st'r), LT Allen Smith (2 st until inj), C Bert McBride (2 st) and Matt Kopa (1 st) was denied a 6th year but is appealing the decision. Four st'rs return and each is a VHT. While it will be tough to match last year's numbers without Gerhart, this is the P10's best O-line.

NG Sione Fua

DEFENSIVE LINE - In 2006 the Cardinal had to replace two st'rs (#5 & #6 DC's) from its 3 man front and the 4.9 ypc they allowed was their worst in over 2 decades (14 sks by D). SU switched to a 4 man front in '07 with 4 st'rs back and improved to 169 ypg rush (4.2) with 37 sacks. In '08 they had to replace 2 st'rs and allowed 153 ypg (4.3) with 34 sks. Last year SU had 7 of the top 8 back (1 st'r lost). However, ret st'r Erik Lorig had just 5 starts before injury while DT Brian Bulcke (5 st '08) played in just 4 (inj) and Matthew Masifilo (4 st '08) missed 5. The unit still improved to 138 ypg (4.2) but the sacks dropped to 21. This year they lose NT Ekom Udofia (13 st, 36 tkl, 1.5 tfl), DE Lorig (13 tkl, 3.5 tfl, #7DC TB) and DE Tom McAndrew (22 tkl). Three return with starting exp as top DE Thomas Keiser (1st Tm P10, 9 sk) moves to LB as they switch to a 3 man front. Provided this unit stays healthy, they should have their best rush D since 2001 (112, 3.6).

LINEBACKERS - Last year the Cardinal had to replace their #2 tackler but had 5 of the top 6 back (4 with 6+ career sts) and added in PS#11 true frosh Shayne Skov. Clinton Snyder was the spiritual leader of the defense and the #1 tackler when he was lost for the season. This year they lose MLB Snyder (8 st, #5 tkl'r), SLB Will Powers (13 st, #8 tkl'r, 4 sk) and MLB Nick Macaluso (4 st, 32 tkl). Joining Skov (#3 tkl'r) are 3 players who have combined for 39 career sts (#6 #7 & tied #10 tkl'rs '09) and Owen Marecic who has 33 career sts (32 at FB). They now switch to a 3-4 with 2 starting DE's moving to OLB including Thomas Keiser who led the tm with 9 sks. This is a loaded LB corps.

DEFENSIVE BACKS - Despite failing to have a winning record from 2002-'06, Stanford performed well in my PDR finishing #37, #36, #20, #68 and #45. In Harbaugh's first 2 seasons, they dropped to #74 in '07 and #88 in '08. In '09 they had to replace 2 st'rs including their fastest player, 2nd Tm P10 CB Wopamo Osaisai. CB Kris Evans (12 st '08) lost his spot. They used converted WR Richard Sherman and RB Delano Howell as the st'rs (both in 1st yr on D). The Cardinal struggled again finishing #97 allowing 62.9% with a 23-8 ratio. This year they lose 2nd Tm P10 FS Bo McNally (13 st, #1 tkl'r, 2 int, 4 pbu) and CB Evans (1 st, 35 tkl). Corey Gatewood started the first 6 at CB but was inj'd and eventually lost his spot to Johnson Bademosi (both return). SS Howell (PS#27) was the #2 tkl'r. Adding depth are Harold Bernard (6'2" 187 So, PS#101) and Brent Seals (6'1" 188 rFr, PS#191). With 3 st'rs back I look for SU's best finish in my PDR in at least 4 years.

SPECIAL TEAMS - In Walt Harris' two years they were #17 and then plummeted to #111. In Harbaugh's first two years they finished #27 and #19. Last year K Aaron Zagory departed as the school's all-time leader in FG % but I called for them to improve and they moved up to #2. K Nate Whitaker beat out Travis Golia (PS#77) in the middle of August and his 54 yd FG vs WF was SU's longest in 2 decades. Chris Owusu tied a Pac-10 record with 3 KR TD's as he ret'd opening KO's for TD's in B2B weeks (SJSt and UW) not to mention an opening KR of 77 yds (no TD) vs Oregon. Owusu had 1,167 KR yards (31.5) but PR Richard Sherman (10.3, 1 TD) had problems with fumbles and lost his spot. P David Green had a 37.2 net LY (37.7 net '08) but almost lost his job midseason to Daniel Zychlinski (4 punts). Whitaker had 14 TB on 86 KO. This year everyone returns and once again this figures to be one of the top ST units in the country.

COACHES - Jim Harbaugh was a QB at Michigan and in the NFL ('87-'01). He was 29-6 as HC at San Diego (IAA non-scholarship) from '04-'06 and won Mid Major National Titles in his last 2 years there. After starting 2-4 in his first 6 there, he went 27-2. His OC is former Cardinal WR David Shaw, who was Harbaugh's WR/pass gm coor at USD in '06 and an NFL asst from '97-'05. The new DC is Vic Fangio, who has spent 24 yrs coaching in the NFL (incl 11 as a DC), most recently as the LB coach with Baltimore under Harbaugh's brother John. Fangio, 1 of 5 new asst's, spent the spring converting the D to a 3-4.

PHIL'S FORECAST

In the 7 years from 2001-'07 the Cardinal had 4 different HC's. In '06 they were 1-11 and for the 5th straight year they were dead last in the Pac-10 in conf ypg (-168.5, 90 yds worse than #9). Their 11 straight losses tied a school record (1959-'60). Coming into Harbaugh's first year SU was -11 in TO's and had poor ypp and also had 15 st'rs ret in '07. SU finished at the bottom of the P10 in conf ypg (-175.9) again (109.4 worse than #9!). They did get their first home shutout S/'72 when they blanked '06 bowl team SJSt, 37-0. They won "The Axe" for the first time in 6 years knocking off Cal 20-13 in front of an almost full stadium. The story of the year though was when the Cardinal upended #2 USC for arguably the biggest upset in college football history. In '08 SU had 9 of their top 11 tkl'rs back from a unit which ranked #5 in the FBS in tfl per game in '07. SU was picked 9th in the conf media poll and their 15 ret st'rs were the most in the P10. After having no sellouts the first 2 years in their newly remodeled stadium, they put a money back guarantee on the season tickets (went 4-1 at home). When they lost to Cal 37-16 it was their 7th straight losing year. SU was -22.9 ypg in P10 play (6th best) and had 3 close losses and 3 close wins. They also had 30 starts lost to injury (21st in FBS). Last year they had 16 ret st'rs and 7 HG's. In the spring there were questions on if Toby Gerhart would play (baseball). He wound up #2 in the Heisman voting. A couple of questionable calls late in the WF game cost SU (led 17-3 in 1H). Two weeks later they hosted UW the week after the Huskies upset USC and SU rolled 34-14. They knocked off UCLA 24-16 to climb to 4-1 but trailed Oregon St 31-7 at half and slipped to 4-2. They gave up a 57 yd TD with 2:57 left on 3rd & 17 to Arizona coming up 5 pts short to drop to 4-3. SU won impressively vs Ariz St and then faced their 2nd team that was coming off a big upset of USC, this time #7 Oregon. SU led 48-28 and rolled to a 51-42 win. The next week SU not only upset USC but after leading just 28-21 into the 4Q, scored 27 points including a late 2 pt conv try which didn't make Pete Carroll too happy. It was USC's worst loss at The Coliseum since 1966. This time it was SU's turn for a USC letdown and they lost to Cal at home 34-28. They were at Cal's 13 with less than 2:00 left when Luck was int'd. ND got to the SU24 at the end of their game but the Cardinal, who had trailed 38-30, won 45-38. In the bowl SU was outgained 477-262 but led 24-17 at half, losing by 4 (QB Luck inj). SU lost 3 games where they led by at least 14 pts. SU has now gone 10-2 in their home stadium the last 2 years. They have 15 ret st'rs and had 25 sts lost LY to inj. This is a tough team to forecast. They could have the best offense in the P10 even without Gerhart but they do face 6 bowl caliber teams on the road. Three of my 9 sets of power ratings call for 11-1 but my main set says 7-5. I will call for the Cards' first B2B winning years since '95/'96 and they are a legit P10 contender.

WASHINGTON HUSKIES

QB Jake Locker

POSITION OUTLOOK FOR 2010

QUARTERBACKS - In '07 rFr Jake Locker (PS#8) became the first UW QB to start the 1st game of his career since Sonny Sixkiller in 1970. While Locker is a dangerous runner (set Pac-10 rec rush yds QB 986, 5.7), he wasn't a polished passer early on and threw a lot of deep balls which accounts for his 47%, 14-15 in '07. Locker (hamstring) was not 100% to open '08. He did lead the Huskies on a dramatic 76 yd TD drive vs BYU but got penalized for celeb on his TD (UW had 35 yd xp blk'd). Locker was lost for the ssn vs Stanford (thumb). RFr Ronnie Fouch struggled completing just 45% (4-13). Their 6 combined TD passes was tied for the school's fewest since 1968 (3). In the summer of '09 Locker signed a 6 yr deal with the LA Angels who holds his rights should he decide to pursue a baseball career and came off scholarship here. New HC Steve Sarkisian brought in a pro-style pass attack, which on the surface didn't appear to be a great fit for the run-first Locker. In '08 Locker ran once for every 1.7 passes he att'd but Sarkisian trimmed it to 1 per 3.5 passes in '09. Locker was the biggest climber in the NFL scouts' eyes as he has an Elway-type arm (95 mph fastball). Locker's goal at the start of the year was 60% comp and he threw for 2,800 (58.4%, 21-11). Locker turned down a possible Top 15 NFL DC shot to return. Sarkisian's goals are 62% and to improve Locker's ratio to a 3-1 avg. Fouch (1 pass) transferred. Battling for the backup spot are Keith Price (rFr, PS#87) and Nick Montana (Joe's son, PS#15, IFS). If Locker stays healthy he is one of the NCAA's top QB's.

RUNNING BACKS - UW had seven 1,000 yard rushers from 1989-1997 and after a 9 yr drought, Louis Rankin had 1,294 (5.6) in '07. In '08 Brandon Johnson was the top returning RB (196, 3.8). True frosh Chris Polk (PS#18) was moved from WR (Johnson inj) and started the first 2 but had just 33 (1.6) and was forced to RS (inj). Due to injuries, Johnson's 9 gms were the most for any RB and he had just 194 (2.6). Terrance Dailey led with 338 (4.5), the lowest total for a leading rusher here since 1958 (292) and only 1 tm had a leading rusher with fewer yds (SMU 190). Last year the top returnee was Willie Griffin (PS#107, 219, 3.5 '08). Griffin played in just 5 (11 yd). Polk became the first ever UW frosh to top 1,000 with 1,113 (4.9) and also had 171 (6.8) rec, despite playing the 2H of the year with a shoulder injury. True frosh Demitrius Bronson (5'10" 206 So, PS#69) had 89 (4.7) and they moved S Johri Fogerson to RB (237 ttl yds). This year they lose FB Paul Homer (3 st), Brandon Yakaboski (53 ttl yds '08), Curtis Shaw (79 all-purp yds) and Griffin. Not listed below are Cole Sager (5'10" 196 So) and FB's Kimo Makaula (6'2" 248 rFr, PS#63TE) and Tobias Togi (5'11' 239 Jr, PS#279). I look for continued improvement.

RECEIVERS - The Huskies coaching staff is excited about the potential of this unit. They had to replace 8 of their top 9 rec's in '08. The team's deep threat was true frosh Jermaine Kearse (PS#27), who had 301 (15.1). Fellow true frosh Devin Aguilar (PS#47) was #3 with 246 (12.3). D'Andre Goodwin "The Flea" (4.4 spd) led with 692 (11.5). Those 3 ret'd in '09 and true frosh James Johnson (PS#58) emerged and was #3 with 422 (10.8). Kearse led with 866 (17.3, 8 TD) while Aguilar was #2 with 593 (14.1). Goodwin (conc vs ND) dropped to 227 (16.2). TE Kavario Middleton (PS#3) was #4 (257, 9.9). Not listed below are William Chandler (6'0" 180 rFr), Anthony Tokunaga (5'11" 177 rFr) and TE Marek Domanski (6'5" 247 So). This year the unit returns intact and is loaded with exp and VHT's and should be one of the Pac-10's best.

OFFENSIVE LINE - UW has not had a lot of success health-wise on the O-line. In former HC Willingham's second season (2006) they had their starting OL intact for the first 5 which was the first time this unit had been intact over a 4 game stretch S/'01. UW has not produced a 1st Tm Pac-10 OL since '01. In '07 thanks to QB Locker's 986 rush yds (5.7) they had their best ypg rushing (203) since 2000 and their best ypc (4.9) since 1990. They only lost 1 starter in '08 but 2 ret st'rs comb for just 12 sts and with the loss of Locker's mobility UW plummeted to 99 ypg rush (2.8) with 31 sks (8.5%). Last year they had to replace 2 st'rs and only 1 OL started all 12 (Cody Habben). With Locker's return and Polk's emergence, they improved to 139 ypg rush (4.3) while allowing 28 sks (7.1%). This year they lose LT Ben Ossai (10 st, 4Y st'r), RG Morgan Rosborough (1 st, 11 gm) and Nick Scott (2 gm). Eight return with starting exp (88 car sts) and they should show continued improvement.

DEFENSIVE LINE - UW has produced a lot of top-notch DL's including Steve Emtman, Jason Chorak and Larry Tripplett. A veteran unit remained healthy in '07 but surprisingly allowed 184 ypg rush (4.9) although they did have 35 sks (best 5 yr). In '08 they lost 5 of their top 6 and were undersized. Four true frosh played and they were overmatched at times. UW yielded a ghastly 241 ypg (worst S/'75) and school record 5.7 ypc. Last year they only had to replace 2 DL and had 5 back with starting exp. The coaches said that nobody worked harder than DE Daniel Te'o-Nesheim and he leaves as the career sack leader (30.5). The more exp'd unit improved to allowing 149 ypg (4.5) with 30 sks. This year they lose 2nd Tm P10 DE Te'o-Nesheim (11 sk, #3DC PHI) and DE Darrion Jones (7 st, 21 tkl, 2 sk). Nine of the top 11 return (7 started LY) so despite losing their top guy, the Huskies should continue to improve.

LINEBACKERS - I pointed out LY that the Huskies were in their best shape at LB in quite some time as EJ Savannah (#1 tkl'r, 111 in '07, miss '08) was back and they returned their #1, #3 and #4 tkl'rs from '08. UW trimmed the ppg allowed from 38.6 to 26.7. LB Mason Foster scored the game winning TD on a 37 yd IR and had a game high 11 tackles vs Arizona. Savannah missed 5 but still finished as the #6 tkl'r. Trenton Tuiasosopo only had 2 tkls (71 in '08). This year they lose Savannah (7 st, 43 tkl), 2nd Tm P10 Donald Butler (12 st, #1 tkl'r, 15.5 tfl, #3DC SD), Joshua Gage (28 tkl, 1.5 sk), Tuiasosopo and TJ Poe (7 tkl). They return their #2 and #4 tkl'rs and add in 2 VHT true frosh and Alvin Logan (11 st WR '08), who RS last year. This unit may be down a notch with the loss of their top 2 players.

DEFENSIVE BACKS - In '05 the Huskies allowed 24 TD passes (most school hist) and finished #107 in my PDR. With an exp'd group in '06 they moved up to #57 but rebroke their record allowing a 27-11 ratio in '07 (#93). In '08 a banged up UW secondary finished #113 (24-7 ratio). Last year they had to replace one starter but proj'd starting FS Johri Fogerson (3 st '08) moved back to RB and a JUCO DNQ. FS Jason Wells missed the first 8 and CB Justin Glenn missed 7. By season's end, 6'3" WR Anthony Boyles moved to CB. Soph CB Quinton Richardson (PS#47) guaranteed a win over USC and the team delivered. With 2 st'rs back, UW finished #92 (16-8 ratio). This year they lose Wells (3 st, 11 tkl) and Tripper Johnson (1 tkl). They return 8 of the 9 players who started in '09 and also add true frosh Sean Parker (PS#14). They will have their best finish in my PDR in years.

SPECIAL TEAMS - Former cch Ty Willingham inherited a group that was just #105 in my ST rankings in 2004 and his four units finished #102, #95, #91 and #113. Last year they had to replace their P and K. Soph Erik Folk had 5 TB's on 63 KO's but hit an outstanding 18-21 FG's (long 48). Will Mahan (PS#112JC) avg 40.6 on punts with a solid 36.5 net. This year the unit returns intact and I look for improvement in their return games (9.5 PR, 18.6 KR). I expect for the Huskies to make a pretty good climb from their #84 finish in '09.

COACHES - Steve Sarkisian took over last year after 7 yrs at USC. He spent '07 and '08 as asst HC and OC, and was the Trojans' QB coach his first 5 yrs. Sarkisian spent 2004 as the Oakland Raiders' QB coach. The OC is Doug Nussmeier, who was the OC at Fresno St previously. Sarkisian was surprisingly able to hire Nick Holt as DC. Holt was the HC at Idaho from 2004-'05 and left there to return to USC as the DC in '07 and '08.

PHIL'S FORECAST

The Huskies, thanks in part to probation (low scholarships) had a streak of TWENTY-SEVEN non-losing seasons snapped in 2004. In those previous 27 yrs, they won at least a share of the Pac-10 Title eight times. Unfortunately the Huskies have now had 6 straight losing years and '08 was an unimaginable season. UW did almost beat #15 BYU in the 2nd game but QB Locker was called for a celeb penalty and BYU blocked the 35 yard tying xp. Locker and numerous others were inj and the Huskies had only 2 games the rest of the year decided by 20 or less. Coach Willingham was let go after a 56-0 loss to USC and the team responded with 4 more losses to finish an unthinkable 0-12. They became the first team ever to go 0-9 in the Pac-10 and coming into last year had suffered a school record 14 straight losses, while playing the most true frosh in school history (12). UW was -170.6 ypg in P10 play which was 102.1 ypg better than Wash St. Other signs pointing in an upward swing for '09 was that they had 3 net close losses in '08, were -17 in turnovers, had horrible off & def ypp (pg 299) and were #2 in the FBS in starts lost to inj (50). They brought in Steve Sarkisian as the head man. I pointed out in my magazine last year that the Huskies were arguably the most improved team in the country but due to the fact that they faced my #16 toughest schedule, I did not put them on my Most Improved List (I expect those teams to be in bowls). The Huskies nearly made it to a bowl. They had a 478-321 yard edge vs LSU but lost. After snapping their 15 gm losing streak vs Idaho, they upset the #3 Trojans (with USC's OC & DC from '08) at home 16-13 and moved to #24 AP. The week after that big win, they lost on the road to Stanford in a letdown spot. They had their chances to put away ND with 8 snaps inside the 3 but failed to score a TD and ND forced OT and pulled out the win. UW did pick up a fortunate victory vs Arizona on an IR TD (ball hit ground?) and Ariz had 5 drives inside the 12 result in 4 FG's and a SOD. The 3-3 Huskies gave up a 50 yd TD pass with :05 left and lost to Ariz St. After losing to Oregon 43-19, UW lost by only 1 at UCLA. They were plastered by Oregon St 48-21 but in their final 2 (both at home), outscored Wash St and Cal by a comb 72-10. UW has now lost 12 straight road games. They got a big lift when Locker turned down being a potential 1st round pick and opted to return. Their jump from 0-12 to 5-7 was their biggest jump since 1970 when Sonny Sixkiller led the team from 1-9 to 6-4. UW has 18 ret st'rs (most P10) and had 24 sts lost to inj. They do have five Pac-10 AG's this year but should break that 12 game road losing streak. The Huskies are strong enough to make my Most Improved List and should make their first bowl since '02 (3rd longest streak among BCS teams).

UCLA BRUINS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - In 2008 UCLA appeared set at QB with Ben Olson (PS#1) and Patrick Cowan (PS#157) returning. Unfortunately both missed '08 due to inj and Kevin Craft, who had 5 sts in '06 at SDSt (737, 57%, 4-6), beat out rFr Chris Forcier (PS#14). Craft threw for 4,231 (61%) with a 44-10 ratio at JC in '07 but struggled in his first year here throwing for 2,341 (56%, 7-20) including an 0-13 ratio in the last 5. Forcier played in 7 (11 pass, 14 rush). Last year Forcier moved to WR (then trans) and they opted to go with rFr Kevin Prince. Despite his inexp, I said the unit would improve (55%, 9-21 ratio '08). Prince became just the 2nd UCLA frosh to start a season opener. He broke his jaw vs Tenn (missed 2), suffered a concussion vs UW and separated his shoulder vs USC. In 11 sts Prince threw for 2,050 (56.2%, 8-8). Craft started 2 and took less chances, throwing for 722 (56.1%, 2-3). His best moment came when he guided a come-from-behind win vs UW. True frosh Richard Brehaut (PS#14) played in just 6 throwing for 124 (64.7%, 0-1). This year they lose Craft. Battling Brehaut for the backup spot is Nick Crissman (PS#12, 1 gm '09, already 2 shoulder surg), Ted Landers (6'5" 196 rFr, PS#155) and UC Davis trans Clayton Tunney (6'4" 212 Jr). This group should remain healthier and have by far its best season of the Rick Neuheisel era.

RUNNING BACKS - Maurice Jones-Drew (#2DC) led in rushing for 3 straight years ('03-'05). In '06 Chris Markey became the first Bruin to lead in both rushing (1107, 4.9) and receptions (35) since Kermit Alexander in 1962. In '07 Kahlil Bell was having a great year with 795 (5.6) until a torn ACL and Markey had 715 (4.1). In '08, Markey was gone and Bell was not 100% (ankle). Bell led with 397 but only 2.8 ypc. True frosh Derrick Coleman had 284 (5.4) and FB Chane Moline (8 st) added 118 (3.9). True frosh Aundre Dean (PS#6) took off his RS but played in just 6 (inj). Last year Dean transferred and with Bell gone, VHT Johnathan Franklin (PS#46) and Coleman split duties early. Franklin finished with 566 (4.5) giving them added speed at RB. Coleman had a 29 yd TD run vs SDSt (longer than any TD play for UCLA in '08) and was #2 with 244 (4.5). Moline saw a lot of action late (207, 3.5). RFr Milton Knox (PS#8) dropped to 5th string at one point and had just 134 (4.6). True frosh Damien Thigpen (5'8" 180 So, PS#50) is one of the team's fastest (62, 2.4). This year they lose Moline (7 st, 247 yds rec), Craig Sheppard (10 gm) and FB Trevor Theriot (1 st). Not listed in the PSL are FB's Andy Magee (6'1" 236 So, PS#152, Ariz St trans), Christian Ramirez (6'2" 220 Sr, PS#78) and Robert Franco (6'0" 233 rFr, PS#141). The Bruins add a PS#5 and PS#11 true frosh and should have their most productive rush totals in at least 4 years.

RECEIVERS - In '08 Neuheisel had an inexp'd group but said that TE Logan Paulsen (13 st, 144 yd '07) would have 40-60 catches and had NFL potential but he was lost in the opener. True frosh Taylor Embree led with a UCLA freshman record 531 (13.3). Terrence Austin (PS#9) led in rec with 53 (460, 8.7). TE Ryan Moya (PS#30, 2nd Tm P10) had 364 (9.6). Last year they only had to replace 1 starter (#3 rec) and got Paulsen back. The Bruins felt that TE was their deepest position and used more 2-TE sets. Soph Nelson Rosario (PS#38) led with 723 (17.2). Embree improved to 608 (13.5) and Austin added 455 (12.3). Paulsen led the TE's with 362 (12.5) and Moya added 189 (10.5). This year they lose Paulsen (13 st), Moya (1 st) and Austin (13 st, #7DC WAS). Not listed below are NFL HOF's son Jerry Rice Jr (5'11" 202 rFr, PS#299) and Antwon Moutra (6'2" 197 Jr, PS#32). While TE is weaker, the top 2 WR's are back and they add Josh Smith who had 2,522 all-purp yds in 2 yrs at Colorado and ND transfer TE Joseph Fauria (PS#10).

WR Taylor Embree

OFFENSIVE LINE - In 2007, it was surprising a veteran O-line opened holes for just 151 ypg rush (3.7), their lowest ypc in 4 years. In 2008 Neuheisel had to replace 4 st'rs and had just 16 career starts returning (6th fewest FBS). UCLA's new OL coach Bob Palcic summed it up by saying, "We're thin, we're young, we're inexperienced". In 2008 the Bruins used 9 different starting OL combos (2 converted DL). As you would expect, the Bruins had their lowest ypg rush since 1985 with 83 (2.6) while allowing 35 sks (8.1%). Last year they had to replace 4 OL (comb 21 car sts) but added Colorado transfer Kai Maiava (1st Tm Fr AA '07). Four OL's started 12+ and they improved slightly to 115 ypg rush (3.5) with 29 sacks (6.7%). This year they lose RG Nick Ekbatani (2 st '09, 12 st '08), Jake Dean (2 st '09, 7 st '08) and LT Xavier Su'a-Filo (PS#8), who started all 13 as a true frosh but is going on a mission. They get back Micah Kia (15 car st) who missed '09 (ACL) so they have 92 career starts making this by far the best O-line in Neuheisel's 3 years.

DEFENSIVE LINE - In '04 and '05 then-HC Karl Dorrell played a lot of frosh on the D-line as former HC Bob Toledo had gone 2 years without recruiting at this position. In '05 UCLA yielded 233 ypg (5.4), its worst in 15+ years. They had 7 of their top 8 back in '06 and I called them one of the most improved D-lines and they allowed just 91 ypg (2.8!). In '07 they had 7 of their top 8 back and despite a rash of injuries still only allowed 109 ypg (3.0) with 39 sks. In '08 they had to replace 2 st'rs but did get back a 2 yr st'r (miss '07). They surprisingly slipped to allowing 170 ypg (4.4) with just 21 sks. Last year they had to replace 1 starter. DT Brian Price finished 3rd in the NCAA with 23.5 tfl and opposing coaches game planned around him. The Bruins only improved to 143 ypg (4.0) with 25 sks. This year the losses are heavy. Price left early for the NFL (13 st, 48 tkl, 7 sk, P10 DPOY, #2DC TB) and also gone are 3rd Tm P10 DE Korey Bosworth (13 st, 58 tkl, 14 tfl), DT Jess Ward (3 st, 25 tkl) and DT Jerzy Siewierski (10 st, 31 tkl, 6 tfl). I expect true frosh newcomer Owamagbe Odighizuwa (PS#5) to start. This group is less exp'd (2 DL with starting exp) and loses its star.

LINEBACKERS - Last year the Bruins had to replace a player who had 9 sts (39 tkl) but ret'd their #1, #8 and #11 tkl'rs (comb 24 st) and got back '07 starter Kyle Bosworth (7 st, 74 tkl) so it was like having 3 st'rs back. Akeem Ayers (PS#20) had a spectacular leaping int in the EZ for a TD vs Oregon and Reggie Carter was the #1 tkl'r for a 2nd straight year. This year they lose 1st Tm P10 MLB Carter (79 tkl, 8.5 tfl) and HM P10 Bosworth (12 st, #2 tkl'r, 7.5 tfl). Ayers returns and 8 of the top 12 LB's are VHT's. Adding depth is Frank Guzman (6'1" 230 Sr, PS#429JC). This has the potential to be a pretty good group despite being less experienced.

DEFENSIVE BACKS - Since I started publishing this magazine ('95) UCLA has never finished outside the top half of my PDR. In '08 they had to replace 4 DB (comb 45 sts, #5 & #7DC's). Four of their 11 DB's in the spring were walk-ons (13 car sts ret). Alterraun Verner led the FBS in pd (20) and earned 1st Tm P10 and the very inexp'd unit still finished #18. Last year they had to replace 2 st'rs but ret'd Verner and 3rd Tm Fr AA Rahim Moore (PS#4). Surprisingly UCLA dropped to #32 but allowed just a 16-20 ratio. This year they lose 1st Tm P10 CB Verner (13 st, 72 tkl, 5 int, 9 pd, #4DC TEN) and S Aaron Ware (2 tkl). Moore led the NCAA with 10 int (#2 UCLA hist, Carlton Gray 11 in '91) and they have 3 st'rs back but just missed out on having all 4 st'rs being VHT's (Sheldon Price "only" PS#61). They add true frosh Dietrich Riley (PS#13) who hopes to have the type of impact Moore did in '08. Adding depth is Jeff Dickmann (5'9" 177 So). Despite the loss of their top CB, I look for the Bruins to move up in my PDR.

SPECIAL TEAMS - The Bruins were the only team to finish in the Top 10 of my ST rankings in each yr from 2004-'07. In '08 outstanding K Kai Forbath hit 19-22 (long 53) and P Aaron Perez had a 36.2 net (37.6 '07). Terrence Austin (top KR/PR) set a school record for all-purp yards but surprisingly they dropped to #23 despite the addition of ST coach extraordinaire Frank Gansz Jr. Last year they had to replace Perez but new rFr P Jeff Locke avg 43.6 (38.0 net). Forbath took home the Lou Groza Award hitting 28-31. He has made 37 consec FG's from under 50 yds and hit a 52 yd'r that would have been good from 60. Austin was again the top KR and PR (1338 ret yd '09, 1328 in '08). The Bruins improved to #10. This year they lose Austin (school rec KR yd) but return the super combo of Forbath and Locke (20 TB on 65 KO). LS Christian Yount was a Playboy Preseason AA LY and they add Josh Smith, who was a super returnman at Colorado.

COACHES - In stops at Colorado and Wash, Neuheisel's teams were 38-10 in his first 2 years when he was playing with his predecessors' players but 28-20 in the rest of his career. Also, both schools were in trouble with the NCAA after he left. Neuheisel had the best set of coor's in the NCAA in OC Norm Chow and DC DeWayne Walker but Walker left (HC NMSt) LY. Chuck Bullough took over as DC (LB's '05-'07) and was with the CHI Bears ('99-'03) prior. Chow interviewed for the HC spot here and was a long-time OC with BYU. He tutored Vince Young (NFL Titans '05-'07), Carson Palmer, Matt Leinart (USC '01-'04) and Philip Rivers (NCSt '00). Chow declined the OC spot at USC this year.

PHIL'S FORECAST

In Karl Dorrell's 5th and final season ('07) the Bruins had 20 st'rs ret (most FBS). Unfortunately the team had an injury plagued season and at one point was down to a 4th string walk-on QB. Under Dorrell UCLA lost 14 times when expected to win (fav). They upset 4 Top 10 teams but also lost 4 as a fav. DC Walker was the interim HC for the bowl and the Bruins had a 28 yd FG blocked on the final play and finished just 6-7. In '08 Neuheisel took over in a definite rebuilding year (6 ret st'rs). His top 2 QB's were injured prior to '08 and Kevin Craft had a 7-20 ratio. Neuheisel's first game was a 27-24 OT upset of Tenn but they went just 3-8 after that. In one of the losses (Ariz St) they had a 306-122 yard edge but tied an NCAA record by allowing 4 def TD's. That team had 44 sts lost (6th highest) to inj. Last year they were a much more veteran unit (15 ret st'rs) and were -10 in TO's in '08 (Turnovers=Turnaround). UCLA made my Most Improved List. As you would expect, the Bruins had a better season. They got off to a great start beating Tenn in Knoxville and K-St at home to open up 3-0. After losing at Stanford, they led Oregon 3-0 at half but gave up 3 TD's in 4:00 including IR and KR TD's and fell 24-10. They were pounded by Cal and AZ. They trailed Oregon St 19-3 but got a TD with 2:06 left to tie it but allowed a TD with :44 left and lost. The Bruins needed to win 3 of their last 4 to get to a bowl. Even with QB Prince inj'd in the 2Q vs UW, the Bruins held on 24-23 after intercepting a pass at their own 20 at the end. They plastered WSU 43-7 and beat Ariz St 23-13 for their 6th win. They only trailed USC 14-7 with 1:30 left but lost by 21. In the bowl they got down big to Temple in the cold but rallied for a 30-21 win to complete a winning season. Despite their 3-6 P10 record they were only -15.4 ypg in conf play (6th best). This year they have 5 P10 HG's. They move to a pistol offense and have their 1st veteran QB of the Neuheisel era. They do however lose 6 of their top 10 tkl'rs and face 6 potential bowl teams on the road and have my #3 toughest schedule. This team is stronger but may not top LY's 7 win total.

ARIZONA ST SUN DEVILS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - Rudy Carpenter ended his career in 2008 with the FBS's longest QB starting streak (43) and wrapped up his senior yr throwing for 2,493 (61%, 16-9) to finish as ASU's #2 career passer. Backup Danny Sullivan struggled in '08 hitting 15-43 (35%) for 151 but was the only exp'd QB coming into '09. Samson Szakacsy (6'4" 205 Jr) figured to be a contender but missed most of fall camp (elbow) and 6'8" true frosh Brock Osweiler (IFS) became the backup. Osweiler once committed to Gonzaga's basketball team and HC Dennis Erickson said "He's very athletic, you wouldn't know that he's 6'8" because of his mobility." Sullivan began the year as the st'r but he was not a fan favorite and when the offense struggled vs Oregon St, the crowd began to chant "We want Brock." Erickson stuck with Sullivan until a poor 1H vs USC then Osweiler came off the bench to guide a 3Q TD drive. Osweiler's first start was in Autzen Stadium but he was banged up in the 2Q and Szakacsy played decently guiding two 2H TD drives. Szakacsy started the final 2 but was pulled in the finale vs Ariz and Sullivan (biceps inj, miss 2) had his best half - almost guiding the comeback win. Sullivan threw for 1,939 (53.8%, 10-9). Osweiler (6 gm) threw for 249 (43.6%) with a 2-2 ratio while Szakacsy (5 gm) threw for 362 (64%, 4-1). This year they lose Sullivan but added to the mix is Michigan transfer Steven Threet (PS#26) who started 8 at UM in '08 (1105, 51%, 9-7, 201 rush 2.6). I look for much improved numbers no matter which QB wins the job.

RUNNING BACKS - Erickson had two P10 rushing champs in 4 years at Oregon St. Here, in '05, true frosh Keegan Herring (PS#44, 4.3 spd) broke ASU's frosh rushing record (870, 5.5). In '06 they added JUCO Ryan Torain and the powerback with speed led with 1,229 (5.5). Herring had 4 sts (549, 5.8) and true frosh Dimitri Nance (PS#139) had 229 (4.1). Everyone ret'd in Erickson's first year and Torain had 553 (5.0) in 6 sts until inj. Herring rushed for 815 (5.3) while Nance added 500 (3.8). In '08 they lost Torain (#5DC) and a banged up Nance led with just 410 (3.9), fewest for a #1 rusher here S/'64. Last year Nance ret'd with PS#49 Shaun DeWitty (270, 4.4 in '08) and PS#4 Ryan Bass (120, 4.6 in '08). Bass lost 20 lbs in the spring to improve his agility and stamina. Erickson noted he could be the most dynamic RB but he had problems with fumbles and protection issues all year. It was a 6-headed TB race and Bass played in just 6 (susp) rushing for 173 (6.0). Nance suffered a shoulder inj but still led with 795 (4.2). True frosh Cameron Marshall (PS#93) was #2 with 280 (4.4). This year they lose Nance (11 st), Bass (trans), Jarrell Woods (42, 4.7) and DeWitty (66, 4.4). Despite the losses, the Sun Devils could actually improve on their disappointing rush numbers of the last two years.

RECEIVERS - In 2007 Chris McGaha led with 830 (13.6) and Michael Jones was #2 with 769 (16.7). Both ret'd in '08 when Jones led with 744 (12.2) and McGaha had 501 (14.3). Kerry Taylor (PS#34) was #3 with 405 (15.0) and Kyle Williams was #4 with 364 (9.2). Last year they had to replace Jones but had 3 of the top 4 back. Taylor missed 3 and finished #3 with 276 (12.0). This time Williams (miss 1) led with 815 (14.3). McGaha started all 12 and had 15 rec (2nd most in ASU hist) vs Oregon St. Battling the flu, he got in late and had 1 catch for a 50 yd TD with :05 left to beat UW and finished with 673 (12.0). The #4 rec was VHT soph Gerell Robinson (PS#11) who had 261 (10.0). ASU used a lot of 2-TE formations to help out with the OL inj's. This year they lose Williams (10 st, #6DC SF), McGaha (2nd Tm P10) and TE Jovon Williams (3 st, 7 rec). I like the potential of this year's group even with the loss of their top 2 as they add in Oregon trans Aaron Pflugrad and PS#12JC George Bell (IFS) and they could have 3 VHT starters.

OFFENSIVE LINE - The Sun Devils' O-line has been banged up in each of the last six years. In 2007 Erickson inherited 5 ret st'rs. Two things greatly puzzled me. First of all, the numbers were poor as they opened holes for just 137 ypg rush (3.2) and allowed a mind-numbing 55 sks (12.9%). The second was that ASU still managed to put up 32.3 ppg. In 2008 they basically lost 3.5 st'rs (#2DC). The unit avg 325 lbs but had just 33 car sts. While they improved to allowing "just" 34 sks (8.6%), they only had 89 ypg rush (2.9). Last year they only had to replace one st'r and used wider splits. Their OL coach said at the end of the year that they were playing with the gun half loaded due to injuries with only 2 OL's starting all 12 and 8 diff OL's started. This year they lose 2nd Tm P10 LT Shawn Lauvao (#3DC CLE, 12 st, 3Y st'r), RT Tom Njunge (9 st), C Thomas Alteiri (10 st, 2Y st'r) and RG Brent Good (4 st). They return 6 with starting exp but may be without LG Jon Hargis (2Y st'r) after an ACL inj in spring. Despite being a little less exp'd, I like the added talent including 3 JUCO's (2 IFS).

DT Lawrence Guy

DEFENSIVE LINE - ASU's rush D numbers have been almost identical the last 4 years allowing 3.6, 3.7, 3.5 and 3.4 ypc. After having 3 st'rs back in '08 and yielding 127 ypg they had to replace 3 DL (comb 23 sts) last year. ASU had a school record 12 sacks vs WSU but amazingly had just 11 in their other 11 games. They allowed just 109 ypg rush. This year they lose 1st Tm P10 DE Dexter Davis (23 tkl, 3.5 sk, #7DC SEA) but have 7 of the top 8 back incl 6 w/st exp. Jonathan English (PS#76) RS in '09 after seeing action in '07 and '08. This should be one of the P10's strongest D-lines.

LINEBACKERS - In '09 ASU had to replace the #2 tkl'r and a bkp (19 tkl). Mike Nixon (#1 tkl'r) led the P10 in int in '08 with 5 and ret'd at WLB. He was joined by '08's #3 tkl'r Travis Goethel and impressive true frosh Vontaze Burfict (PS#3), who lived up to his advanced billing. This year they lose 2nd Tm P10 Nixon (12 st, #1 tkl'r, 6 tfl) and HM P10 Goethel (12 st, #3 tkl'r, 7 tfl, #6DC OAK). Burfict was the P10 Def Frosh of Yr and is likely to be joined in the starting lineup by his former HS teammates Shelly Lyons and Brandon Magee. There are 3 VHT's in the 2 deep but the group is less exp'd and figures to be down a notch or two.

DEFENSIVE BACKS - The Sun Devils finished #34 in my PDR in '06, #5 in '07 and #20 in '08. Last year they had to replace 2 st'rs (#7DC) but had 5 back with starting exp. The unit was hit hard by injuries as Omar Bolden was lost after 4, CB Terell Carr only started 8 and vs Oregon they had just 4 CB's available (susp & inj). They felt they could start any of their 4 S's and be safe with Jarrell Holman, Ryan McFoy, Clint Floyd and Keelan Johnson. ASU finished #16 in my PDR allowing 53% and a 13-15 ratio. This year they lose S Holman (10 st, 46 tkl, 3 int), CB Pierre Singfield (11 st, 46 tkl, 5 pbu), S McFoy (9 st, 40 tkl, 3 int, 4 pbu) and CB Carr (8 st, 34 tkl, 7 pbu). Thanks to last year's attrition they return 4 with starting exp including Bolden (21 st prior to '09) and add PS#48JC Eddie Elder (IFS). This is a less experienced group but should have another fine finish in my PDR.

SPECIAL TEAMS - In 2006 under the tutelage of then-ST coor Tom Osborne, ASU finished #14 in my ST rankings. Osborne ret'd to Oregon but K Thomas Weber had a phenomenal 2007 hitting 24-25 FG (two 50+) and won the Lou Groza Award! Weber even took over as P in the 2H. Rudy Burgess recorded ASU's 2nd home KR TD in 21 years (23.1). ASU finished a respectable #44. In '08 they had to replace Burgess. Weber hit 14 straight FG's while hitting 19-25 on the year including 3-7 from 40+. He avg 41.4 (tm net 33.8) on punts and had 8 TB on 60 KO. Kyle Williams was the top KR (23.3) and PR (17.0). Surprisingly ASU dropped to #70 and I thought they would be much improved last year. Unfortunately Weber, who booted a 60 and 57 yd FG indoors in fall camp, suffered a groin inj (miss 4 wk) and never really got his full strength back. He hit 8-13 FG's (0-5 30+). They wanted to RS walk-on Bobby Wenzig but he hit 3-4 FG's (L/43) in Weber's absence. The 2 combined for 3 TB on 56 KO. Trevor Hankins took over the P duties (44.2, 36.2 net). The return game was average (tm 21.1 KR, 9.6 PR). Hopefully Weber regains his '07 form and if he does, ASU should continue to improve after their #57 finish last year.

COACHES - Dennis Erickson took over in '07. He was the HC at Idaho (twice), Wyoming, Wash St, Miami, Fl and Oregon St. He is 167-83-1 as a college HC and spent 7 years in the NFL (HC SEA and SF). He won National Titles with Miami in '89 and '91 and his 2000 OSU squad finished 11-1 and ranked #4. Erickson became the first ASU HC to have his team ranked in his first year and became the 2nd P10 coach to start 5-0 in the conf tying Cal's Steve Mariucci ('96). Erickson is 26-26 vs ranked teams (2-12 S/'01, 0-3 LY). He was the first coach to win P10 COY at 3 diff schools. OC Rich Olson was fired after 3 yrs and the new OC is Noel Mazzone, who spent the last 3 yrs with NYJ as WR coach. Mazzone was the OC under Tommy Tuberville at Ole Miss and Auburn from '94-'01. The DC is Craig Bray, who was the DC under Erickson at OSU from 2000-'02 and his DB coach at WSU from '87-'88.

PHIL'S FORECAST

In 2006, despite having just 12 st'rs back, ASU made it to their 3rd straight bowl for the first time since 1985-'87. Dirk Koetter, who moved his record to 4-2 vs Arizona, was fired prior to the bowl and the team finished 7-6. Dennis Erickson inherited 9 ret st'rs on offense including QB Rudy Carpenter. Despite ASU coming off a 4-5 year in P10 play, I looked at their schedule and said in my forecast that they had a great shot at opening the year 8-0! The Sun Devils did not disappoint. Five times ASU overcame double digit deficits to come away with victories and when they knocked off #18 Cal at home, they moved to 8-0 (#6) and finished 10-2 but were blown out by Texas in the Holiday Bowl (finished #16). In 2008 the Sun Devils had Georgia on their non-conf slate and five Pac-10 road games. While they were Pac-10 co-champs in '07 at 7-2, they were only +10.1 ypg (5th best). They had 13 ret st'rs and lost 24 lettermen (38%). While I did not have the Sun Devils in my preseason Top 25, they did enter the season ranked #15. They looked past UNLV and were upset at home in OT 23-20 and were thrashed 27-10 the next week vs preseason #1 Georgia. They actually lost 6 straight before rallying to win 3 of their last 4. In one win, they were outgained 306-122 by UCLA but set an NCAA record with 4 defensive TD's. That 2008 squad was +5 in TO's, only had 12 sts lost to injury and also had fortunate ypp's. It looked like a rebuilding season in '09 with just 13 st'rs back and having to replace their QB. As expected they opened up 2-0 but only lost at Georgia by 3 (UGA FG as time expired). Surprisingly at 2-1 they played before a half filled stadium and lost to Oregon St at home 28-17 before beating Washington St. Against UW they got a 50 yard TD pass with :05 left to pull out the win and moved to 4-2. At that point I forecasted on PhilSteele.com that ASU would drop their final 6 and that they did but actually played a little better than I expected (outgained USC, UCLA, AZ). Against USC, ASU was int'd in the EZ at the end and lost by 5. UCLA got a 68 yd IR TD and 9 yd FR TD to lead 20-7 at the half en route to their 23-13 win. ASU fumbled a punt at the end of the game vs Arizona setting up their game winning FG. Their 4 win total was the worst since 2001. This year the Sun Devils have just 9 ret st'rs. They did have a net 3 close losses (pg 299) and despite their 2-7 Pac-10 record, actually outgained conf foes by 15.2 ypg! Last year it seemed like they were pointing to 2010 and ASU has my #3 rated D in the P10. They play the toughest P10 schedule (5 AG, host P10 Champ Oregon) but this team has a good shot at bowl eligibility.

WASHINGTON ST COUGARS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - The Cougars have had a storied history of QB's including 1st round DC's like Drew Bledsoe, Ryan Leaf and Jack Thompson and other stars like Timm Rosenbach and Mark Rypien. In '04 Alex Brink started the final 5 and over the next 3 yrs became the school's career passing leader (#3 in the Pac-10). In '07 he threw for 3,818 (61%, 26-15). In '08 Gary Rogers (PS#28, 27 gm 3 yr) beat out K-St transfer Kevin Lopina (PS#38). Both were injured early and rFr Marshall Lobbestael earned Pac-10 OPW throwing for 149 (2 TD) vs Port St. In Lobbestael's 3rd start, he tore his ACL. Lopina was far from 100% and he threw for just 841 (57%) with a horrible 0-11 ratio. HC Paul Wulff took the RS off of true frosh JT Levenseller and in the final 4 he threw for 134 (50%, 0-2). As a team, the Cougars threw for just 146 ypg (53%, 6-21 ratio), their lowest total in over 2 decades. Last year everyone but Levenseller ret'd. Lopina and Lobbestael split the snaps early but they took the RS off true frosh Jeff Tuel (PS#77). Tuel threw for 354 vs Cal, the 2nd most by a WSU frosh and he was just the 2nd true to start here (other Drew Bledsoe). Lopina, who was injured early, did come back to play in the final 3 after Tuel was injured. Walk-on QB and bkp P Dan Wagner even had 4 snaps when the top 2 QB's were both out. This time the Cougar QB's combined for 178 ypg (52.4%, 11-16). Lopina departs and Tuel is the clear-cut starter while Lobbestael is another year removed from his knee injury. Adding depth is David Gilbertson (6'1" 206 rFr, PS#343). I look for much improved stats in 2010.

RUNNING BACKS - Dwight Tardy became the first Cougar RB to lead the team in rushing 4 straight years but his totals were just 667 (4.6), 676 (4.7), 481 (3.6) and 417 (3.9). Cal transfer James Montgomery appeared to be the leader, becoming the first Coug in 15 games to top 100 (vs Hawaii) but was lost in Wk 3. Logwone Mitz (PS#136) had 160 (3.0) and true frosh Carl Winston (5'8" 201 So, PS#299) added 142 (3.9). Not in the PSL are Chantz Staden (5'10" 208 Sr, PS#102JC), Marcus Richmond (6'1" 227 Sr, PS#83), Leon Brooks (5'6" 172 rFr) and FB Corey Laufasa (6'0" 228 Jr). This year they lose Tardy and can only improve especially if Montgomery is back and healthy (out spring). Wulff is also high on the 3 true frosh signees who should play.

RECEIVERS - Last year WSU had to replace 3 of their top 4 receivers including their career receiving leader, Brandon Gibson. Then their top returnee, Joshua Anderson (305, 9.2) quit after 2 games (4 rec). Jared Karstetter (PS#123) who had 3 sts and 6 rec as a true, led with 540 (14.2). True frosh Gino Simone (PS#66) had 330 (9.2). E Wash transfer Jeffrey Solomon (PS#83QB) had 298 (11.9) and Daniel Blackledge (PS#149) added 212 (9.2). This year they lose TE Tony Thompson (8 st, 9 rec) and Johnny Forzani (265, 29.4!). Not listed below are Cory Burk (5'8" 186 So), Josiah Sims (6'1" 179 rFr), Shane Thomas (5'11" 180 Sr) and TE Aaron Gehring (6'5" 243 Sr). This is a much more exp'd group.

OFFENSIVE LINE - In Bill Doba's final year, WSU only had 116 ypg rush (3.7). Eight of the top 10 OL were back in Paul Wulff's first season and surprisingly the numbers slid to 95 ypg (2.7) with 43 sks (#116 FBS, 11.9%) as they switched schemes. Last year they only had to replace 1 starter (7 ret w/st exp). Unfortunately, Andrew Roxas (8 st '08) missed the year and the group was hit hard by injuries. Most of their projected st'rs were out in Wk 5 vs Oregon. Due to the injuries, they slipped even further to 71 ypg (2.4) with 53 sks (#119 FBS, 14.2%). This year they lose 2nd Tm P10 C Kenny Alfred (12 st, 4Y st'r), Brian Danaher (2 st, 5 gm) and G Reed Lesuma (1 st, 7 gm). They get Roxas back (7 w/st exp) and can only improve, right?

DEFENSIVE LINE - When I think of Wash St, I think of fierce pass rushing D-lines and the Cougars always had a top-notch unit under Doba. Even in '07 when the unit was hit extremely hard with injuries, they yielded 163 ypg (3.9) which was their "worst" since 2000. In '08 they had to replace 3 DL (comb 20 sts). The unit was hit hard again by injury but it was surprising that they dropped all the way to 248 ypg and 5.8 ypc allowed (4.5 prev high 1991!). Last year they had to replace 3 st'rs and 3 bkps then Kevin Kooyman (7 st '08) was lost Wk 1. Injuries plagued the unit again (only 1 DL start more than 8 gms). They held just one team under 100 yards rushing (SMU) and this time allowed 236 ypg with a ghastly 5.9 ypc (13 sks). This year they clearly have their best D-line in at least 3 years. The only loss is DE Jesse Feagin (9 tkl) and they return 8 who started in '09, plus they get back Kooyman and add PS#98JC Brandon Rankin (IFS). Adding depth are Matthew Bock (6'3" 238 rFr), Justin Mann (6'3" 264 So, PS#169, UCLA trans) and Zach Brevick (6'4" 244 rFr). This may be the most improved D-line in the country.

DE Travis Long

LINEBACKERS - Last year the Cougars had to replace the team's Def MVP Greg Trent (#1 tkl'r, 10.5 tfl) and their #3 and #13 tkl'rs (comb 10 sts). They had 2 back who started 4+ in '08 but they were just the #5 and #10 tkl'rs. They also got back Andy Mattingly (91 tkl, 8 sk '07) who played DE in '08. The Cougars improved allowing 5.3 ppg less despite losing starting LB Jason Stripling after 10 st and Louis Bland after 6 (2 st, inj). This year they must replace Mattingly (12 st, #3 tkl, 4 tfl) and Stripling (#5 tkl'r). Five return who have started incl LY's #1 tkl'r Alex Hoffman-Ellis and they add rFr Darren Markle (PS#86) and VHT true frosh CJ Mizell (PS#23). Four are back who had 41+ tkls including backup Myron Beck who had the huge 67 yd IR TD vs SMU. Not in the PSL are Jarred Walker (6'2" 205 So) and Omari Guidry (6'0" 209 Jr). Wulff says the LB corps is much faster than the '09 version.

DEFENSIVE BACKS - You may find this hard to believe after watching the Cougars D the last few years but WSU finished #2 in my PDR in '03, #40 in '04 and #31 in '06. They were even a respectable #77 in '07. Part of the reason they finished #71 in '08 was that teams could run at will on them (248 ypg rush, 5.8) as opp's had 98 less pass att's than in '07. LY they appeared to be in solid shape losing 2 players (comb 12 sts) but then lost both CB's over the summer. Daniel Simmons started 4 (miss 6). At midyear, down to 3 healthy CB's, they almost pulled some RS and the Cougars finished #108 allowing 66.8% (21-10 ratio). This year they lose 3rd Tm P10 SS Xavier Hicks (12 st, #2 tkl'r, 3 int, 4 pbu), CB Brandon Jones (10 st, 37 tkl, 1 int) and Easton Johnson (16 tkl). Seven return with starting exp. Adding depth are Trase Pickering (5'10" 186 So), Kyle McCartney (6'0" 205 So), and Casey Locker (5'11" 195 rFr, PS#171). This is not an overwhelming group but figures to move up in my PDR.

SPECIAL TEAMS - It was an up-and-down 5 years for Doba's ST units but in his last 2 years they finished just #112 and #100. In '08 they had to replace their K, top KR and PR. Entering spring, Wulff said he was amazed by how many kids did not know how to get into the proper stance on ST. P Reid Forrest avg 40.5 (34.8 net) in '07 and 41.2 (34.6 net) in '08. With all of their personnel shortages, WSU finished #106. Last year once again they were down to 50 healthy scholarship players at times. You would expect the ST to struggle and they did (#116). Forrest improved to a 36.1 net while K Nico Grasu (9-13 long 47 '08) hit 6-10 (long 44) but missed the final 3 gms. Patrick Rooney and Grasu combined for 4 TB's on 36 KO's. Their return game was below avg. The much better depth on D will help this unit and they should make a solid climb in my ST rankings.

COACHES - Paul Wulff was the HC at E Wash for 8 years earning Big Sky COY on three different occasions. Wulff was an OL here from 1986-'89 playing under Jim Walden, Dennis Erickson and Mike Price. His OC is Todd Sturdy, who also came over from EW in '08 where they ran the no-huddle spread offense. Prior to EW ('07), he was the HC at St Ambrose Univ (Iowa) for 12 years. The co-DC's are Chris Ball and Jody Sears. This is Ball's 3rd stint at WSU while Sears served as DC at EW for 5 years under Wulff.

PHIL'S FORECAST

Younger readers will find this hard to believe but WSU had the 2nd best record among Pac-10 schools from 2001-2004 at 35-14. In the Mike Price era the team had at least 13 ret st'rs five times and made it to a bowl in 4 of his last 5 years (including Rose Bowls in 1997 and 2002). In Bill Doba's first season (picked 7th in Pac-10 poll) they had the magical 13 st'rs ret and despite a tough schedule, finished 10-3 and upset #5 Texas in the Holiday Bowl. It was amazingly WSU's 3rd straight Top 10 finish, the first Pac-10 team to do so since 1974. They only had 6 st'rs back in '04 and as expected, went 5-6. In '05 WSU had 15 st'rs back but were one of the most snake-bitten teams in the country. They could have easily finished with 10 or 11 wins. Despite their 1-7 record in Pac-10 play, they were only -14.5 ypg (#5). In '06 the Cougars had to replace RB Jerome Harrison (1,900 yd '05) but did have 14 ret st'rs. Their motto was "finish" after blowing three 4Q leads in '05. WSU was 6-3 and their losses were to the #3, #4 and #10 tms! Doba looked like he might be the Pac-10 COY (ranked first time S/'03). Unfortunately a banged up Cougar team lost their last 3 and UCLA was picked for a bowl over WSU (both 6-6). In '07, playing one of the NCAA's toughest schedules, they were a respectable 5-7 but Doba was fired. Despite their 3-6 P10 record, they were only -4.8 ypg. In '08 I mentioned that first year HC's usually struggle and need to learn the players and the general consensus was the cupboard was left bare for Wulff. WSU had 25 players arrested in an 18 month span and entered the season with 73 scholarship players. Former coach Jim Walden said that if Wulff won four games with the talent on hand, he should have been COY. I picked them last in the Pac-10 and WSU was on the wrong end of a blowout almost every week. They had the 2nd longest NCAA streak avoiding shutouts at 280 (S/'84) but were shutout on B2B weeks by a comb 127-0. They were -272.7 ypg in P10 play and with 3 games left, had already become the very first P10 team to give up over 500 points in a season (they gave up 570). That '08 squad got a fortunate win over Wash. Last year Wulff appeared to have 15 st'rs ret but only had 11 back in Sept. The P10 stats were similar (-260.4 ypg) but without the fortunate win their record dropped to 0-9 and 1-11 overall. In their lone victory, they trailed SMU 24-7 but got 52 and 67 yd IR TD's and then a TD with :28 left to tie it and won in OT. WSU was outgained by an avg of 512-249 and on the season were outscored 176-6 in the 1Q (308-50 in the 1H). They did not lead a game in regulation all year and were dead last in the Pac-10 in 22 of 32 categories. They suited up just 50 healthy players vs UCLA (27 miss gm). The Cougars have now been shutout 4 times the last 2 yrs. Last season they had 67 sts lost to injury, the most in the NCAA. This yr they do have 15 ret st'rs. This is a much deeper, stronger team than Wulff's first 2 editions but they do have a lot of ground to make up in the conf. The Pac-10 has 9 bowl caliber teams and then there's the Cougars. Their games will be much more competitive in 2010 but I will call for a 4th straight losing year.

PHIL STEELE'S 2010 BIG EAST FORECAST

1. PITTSBURGH - Pitt was arguably the best team in the Big East last year but they blew a 31-10 lead over Cincinnati and the week prior, with little to play for, lost to WV so they finished with 2 Big East losses. They do have to play 4 away games in the Big East, have the fewest returning starters in the conference (11) and were +10 in turnovers last year but have my #2 rated offense and #2 rated defense and get their big game vs WV at home.

1. WEST VIRGINIA - While the Mountaineers tied for 2nd in the Big East last year at 5-2, they were -2.9 ypg in conf play and did not get Pitt's "A" game when they barely beat them at home. This year WV is a much improved team with 16 returning starters (tied for most in the league) and they also get 4 home games in Big East play. The Mountaineers have my #1 defense and #3 offense and keep in mind they have the best record in the Big East over the last 5 years.

3. CINCINNATI - The Bearcats have bagged back-to-back Big East Championships but it's not an easy situation for Butch Jones to step into. It's hard to improve upon last year's undefeated regular season and they have just 12 returning starters and benefitted from +9 in turnovers. UC will still be explosive on offense and improved on defense. Last year they were +132.3 ypg in league play (best) and this year get 4 Big East home games. They will once again contend for the Big East Title despite the coaching change.

3. USF - Skip Holtz steps into a great situation. USF is a team loaded with speed and talent that has underachieved the last two years and has actually gone 5-9 in Big East play. He does have just 5 starters back on defense but they get 4 BE games at home and Holtz won a pair of CUSA Titles with less talent than he inherits here. A couple of times in recent years USF appeared headed to a BE Title but disappointed. Holtz's teams rarely disappoint.

5. CONNECTICUT - This looks like HC Randy Edsall's best team yet as UC returns 16 starters (8 Off, 8 Def). They also get Cincinnati, Pitt and WV all at home which makes them a darkhorse BE contender. They have a lot of momentum after their dominating bowl win over South Carolina. The Huskies are strong where it counts with my #1 rated O-line and #3 rated D-line in the BE.

6. RUTGERS - The Knights had the schedule and talent to win the Big East Title last year but finished a disappointing 3-4 (tied for 4th). This year the schedule gets tougher as they have 4 Big East road games and they benefitted from +20 in turnovers last year and have just 12 returning starters. The Knights figure to drop some this year despite experience at QB.

7. SYRACUSE - I was impressed with the job Doug Marrone did last year at Syracuse, where he weeded out players that weren't a perfect fit. They went into some games with under 60 players but still finished +4.9 ypg in Big East play, which was the 3rd best in the league despite their 1-6 record. This year's team has 15 st'rs back and will have more depth and they are now in the second year of Marrone's system. It would not surprise me if they overachieved once again and moved up even further.

8. LOUISVILLE - The Steve Kragthorpe experiment did not go so well as the Cards were just 5-16 in the Big East the last 3 years. Now they have a new HC, new schemes and just 12 returning starters and they have to replace their top four tacklers on defense. I like the talent and when new HC's have success early, like UL should, players often buy into the program and have a different attitude. This looks like a rebuilding year, however, for the Cards.

Big East Notes: Since the ACC raided the Big East of 3 of its best teams the league had outperformed most everyone's expectations including mine. In 2006 they actually had the best record of any league vs other BCS conf's at 12-6 and then went 5-0 in the bowls. In 2007 six of the eight teams appeared in the top 25 at some point during the season and WV thrashed Oklahoma in the Fiesta Bowl. Their record vs BCS conf's did drop to 7-8 and they were 3-2 in bowls. Three different BE tms were ranked in the AP Top 3 at some point in '06 or '07. In 2008, 6 of the 8 tms (75%) made it to a bowl and they went 4-2 in bowls. They had the 3rd best record at 7-7 in games vs other BCS conf's. Last year they had the 2nd best record in games vs other BCS conf's at 9-9. They once again had 37.5% of the league in the Top 25 at the end and went 4-2 in bowls. That makes the BE's 4 year bowl record 16-6 which is #1. They landed an impressive 27 draft picks in '09 (3.4 per tm) but dropped to 18 this year. None of their 4 bowl wins LY was vs a ranked team. Cincinnati has the best record over the last 3 years at 17-4 but West Virginia has the top mark over the last 5 and 10 years. Pitt was only 19-16 the 2H of this past decade after going 22-12 the 1H. The Big East has 3 new coaches in an 8 team league with Skip Holtz stepping into the best opportunity. For Butch Jones of Cincy, how do you top B2B Big East Titles and an undefeated reg season LY?

PITTSBURGH PANTHERS

POSITION OUTLOOK FOR 2010

QUARTERBACKS - In '07 Pitt had to replace Tyler Palko (PS#10) who finished 2nd all-time at Pitt in total off ahead of Dan Marino. In his final year, Palko threw for 2,871 (68.3%, 25-9). The ret QB's had just 10 career pass att's. PS#25 Bill Stull hit his first 7 passes but suffered a thumb inj in the 3Q of the opener and was OFY (177 pass, 70%). Kevan Smith started 3 and bkp Pat Bostick's (PS#9) first career pass was int'd. Then Smith was inj'd and Bostick started the rest throwing for 1,500 (61.5%) but with an 8-13 ratio. In 2008 all 3 ret'd and their goal was to RS Bostick. Stull threw for 2,356 (57%) but with a 9-10 ratio. He was having a solid year but struggled after a concussion vs Rutgers. Surprisingly they pulled the RS off Bostick for some late action vs Navy (gm 6). Two weeks later when Stull was inj'd, Bostick guided the win over ND! Smith had just 3 att's. Last year Stull and Bostick ret'd. In mid-Aug the QB job was a 3-way battle including rFr Tino Sunseri (PS#29). Stull was booed on the '09 opening drive after a poor inc pass but had a much better year than Pitt fans or even HC Wannstedt could have expected. Stull threw for 2,633 (65%) with a 21-8 ratio and departs. Bostick RS. Sunseri was the clear-cut starter out of spring '10 but Bostick did have a good year with the scout tm. Sunseri has a stronger arm but probably will not match Stull's '09 numbers.

RB Dion Lewis

RUNNING BACKS - In 2004 Pitt avg just 98 ypg rushing (2.6). In 2007 LeSean McCoy (PS#8, 210 lbs) broke Big East Fr rushing records with 1,328 (4.8) and had 33 rec (7.4). In '08 McCoy rushed for 1,488 (4.8) with 21 TD's. Last year the top 3 departed so the returning RB's had a combined 49 yards on 17 att's. Wannstedt again turned it over to freshmen. True frosh Dion Lewis, who grew up 45 minutes from the Rutgers campus but was not recruited by RU, had a phenomenal season and was 2nd Tm AA. He rushed for 1,799 (5.5) eclipsing McCoy's BE Frosh record. True frosh Ray Graham (PS#31) rushed for just 349 but 5.7 ypc and Wannstedt called him the star of the spring. FB Henry Hynoski (PS#31) is a solid blocker who rushed for 107 (4.5) with 109 (7.3) rec and will contribute more on offense. Not listed below are Jason Douglas (5'7" 170 rFr, PS#233) and FB's Joe Capp (5'10" 240 Sr) and Kevin Adams (6'1" 205 rFr, PS#238). This is my #4 RB corps in the NCAA.

RECEIVERS - Under former HC Walt Harris, Pitt was gaining the reputation of "WR U" as they had a WR lead the BE in receiving 7 times in 8 yrs (1997-2004). In '08 Derek Kinder led Pitt with just 422 (11.7) and had to be replaced in '09 (#7DC CHI) as did their #3 rec. The leading returnee was 6'5" Jon Baldwin (PS#15, 4.37 spd). Baldwin had little impact early as a true frosh but finished #2 with 404 and an impressive 22.4. As expected, Baldwin had a much bigger year in '09 (#3 BE) with 1,111 (19.5) and 8 TD's. Dorin Dickerson (PS#8) had played RB, WR and LB before moving to TE. Dickerson earned 1st Tm AA with 529 (10.8) and 10 TD's. Solid blocking TE Nate Byham (PS#2) had 108 (10.8). Oderick Turner (6'3", PS#97) was #3 with 227 (10.8) and 6'5" rFr Mike Shanahan was #4 (211, 14.1). This year they lose Byham (12 st, #6DC SF), Dickerson (8 st, #7DC HOU), Turner (10 st), and Cedric McGee (1 st, 12 rec). They bring in Virginia transfer TE Andrew Devlin, 2 VHT frosh and Greg Cross (PS#17JC) moves from QB. Adding depth at TE is Justin Virbitsky (6'4" 265 So, PS#204DL). This group is more experienced and even with the loss of a 1st Tm AA TE could be just as good.

OFFENSIVE LINE - In '08 they had to replace 3 starters but brought in veteran OL Coach Tony Wise (18 yr NFL) and JUCO C Robb Houser. The numbers were similar to '07 (139 ypg rush, 3.7) with 32 sks (8.4%) despite losing Houser after 7 sts. Last year they had to replace 1 starter and 2 backups (comb 7 st). Prior to '07 Pitt had 4 players who could bench 400+ but in '09 that number was up to 15. With 4 starters back, the line made great improvement with 180 ypg rush (4.9) with just 15 sks (4.4%). This year they lose C Houser (13 st, 2Y st'r), 1st Tm BE RG John Malecki (13 st, 2Y st'r) and LG Joe Thomas (12 st, 4Y st'r). While both tackles are 1st Tm BE caliber, I do have some questions about the interior line.

DEFENSIVE LINE - In Wannstedt's first two years, they had inexp and injury plagued D-lines allowing 4.3 and 4.6 ypc. In '07 they had 4 starters back and allowed 130 ypg (3.2) and in '08 with 2 starters back allowed 124 ypg (3.6) while the D had 33 sks. Last year they had 4 back who had been full-time starters (lost 1 st'r) and I called it the best D-line in Wannstedt's 5 yrs. They did not disappoint allowing 106 ypg rush (3.3) with Pitt having an FBS high 47 sks (36 by DL!). This year they lose 2nd Tm BE NT Gus Mustakas (38 tkl, 4.5 sk, 4.5 tfl), DT Mick Williams (12 st, 42 tkl, 5 sk, 12 tfl) and DT Craig Bokor (4 tkl). Nate Nix moves in from LB. DE's Romeus and Sheard return (comb 30 car sk) and while not as experienced this should be another top-notch group.

LINEBACKERS - Pitt actually has two FWAA AA LB's in the last 4 yrs in HB Blades ('06) and Scott McKillop ('08). Last year they had to replace 2 starters who were their #1 tkl'r (#5DC) and #2 tkl'r. They had 1 starter back and ret'd '07 starter Adam Gunn (miss '08, inj). True frosh Dan Mason earned BE DPW (Navy) in his first start (11 tkl/2 sk) and Wannstedt said he was one of the few LB's with the speed and ability to make plays in space. This year they lose 1st Tm BE MLB Adam Gunn (11 st, 77 tkl, 5 sk), Steve Dell (14 tkl) and Shane Murray (1 tkl). They return 2 starters and Mason will try to continue Pitt's 5 year run of MLB's earning 1st Tm BE honors (Blades, McKillop and Gunn). This should again be one of the top LB units in the BE.

DEFENSIVE BACKS - Pitt has ranked in the top 3 of the NCAA in ypg pass D twice in Wannstedt's 5 years. In '08 Pitt was #42 in my PDR and last year had 7 (4 VHT) of the top 8 back. Wannstedt said that CB Aaron Berry was faster than any player he faced and he was 1st Tm BE (1 int, 10 pbu). It is surprising that Pitt dropped to #43 but they did snag 15 int. This year they lose Berry (11 st, 31 tkl), CB Jovani Chappel (13 st, #4 tkl'r, 0 int, 10 pbu) and Elijah Fields (6 st, 34 tkl, 3 int). SS Dom DeCicco (#2 tkl'r) was 2nd Tm BE and Andrew Taglianetti started 2 at FS but was lost (inj) and both are back. They add PS#73JC Saheed Imoru. Not listed in the PSL are Dan Cafaro (5'10" 170 Sr) and Pat Costello (5'11" 175 So). Despite the loss of their star Berry, this unit could move up my PDR.

SPECIAL TEAMS - In 2006 P Adam Graessle had an outstanding net of 37.5 and Pitt moved up to #13 in my ST rankings. In '07 they had to replace Graessle and dropped to #55. In '08 K Conor Lee completed his career 113-113 on xp's and set a school record with 20 FG's (long 44). Dave Brytus improved his net to 37.1 but the return game was avg. Pitt moved up to #29 but had to replace Lee and Brytus in '09. RFr Kevin Harper (PS#17) hit a 61 yd FG in HS (also 80% TB on KO) but surprisingly Dan Hutchins handled both FG (23-29, long 45) and P (34.5 net). Harper had just 3 TB's on 10 KO's. Luke Briggs had 3 TB's (66 KO) in '08 and had 12 TB's on 74 KO's in '09. Pitt had just 169 yds (7.7) on PR's but Cameron Saddler did well as a KR (25.3) despite missing 2. They also lost Andrew Taglianetti after 2 gm (3 blk's '08). Overall the unit slumped to #66. This year they only lose Briggs and I expect a bigger impact out of Harper.

COACHES - Dave Wannstedt was Jimmy Johnson's asst at Okla St and Miami, Fl and the DC and asst HC during the Dallas Cowboys' Super Bowl years. He was the Chicago Bears HC from '93-'98 and HC of the Dolphins (2000-'04). His 41-23 reg season record from '00 to '03 was 5th best in that span. Wannstedt was captain of Pitt's '73 Fiesta Bowl team. Last year Wannstedt brought in a new OC in Pitt native Frank Cignetti (Cal's OC in '08). Cignetti was the 49ers QB cch in '07, the OC at NCar in '06 and the OC at Fresno ('02-'05). DC Phil Bennett was previously SMU's HC ('02-'07) and ran top-notch units as a DC at Kansas St and TCU.

PHIL'S FORECAST

In Walt Harris' final five years, Pitt went to bowls every year including to the Fiesta Bowl as the Big East Champs in '04. Nine of the 13 losses from 2002-'04 were by 8 or less. In their Fiesta Bowl season Harris was named Big East COY as Pitt had been the least exp'd BE team (9 ret st'rs). Harris took the Stanford job and Pitt excited the alumni by bringing in Dave Wannstedt. Unfortunately, Wannstedt went 5-6 his 1st year. In '06 they had 11 ret st'rs and they opened 6-1 (best start S/'82) but finished with 5 straight losses. That '06 squad had a veteran QB and avg 31.8 ppg, their best since 1981. In 2007 they had no exp at QB then lost starting QB Stull to injury. Wannstedt appeared gone with a 4-7 start and #2 WV on deck in the season finale. Pitt was a 29 point dog but after they pulled the upset he was retained. Pitt was +24 ypg vs BE in '07 and in 2008 lost just 13 lettermen (fewest BE) and had 13 ret st'rs. Pitt made my Most Improved List and as you would expect, had their first winning season under Wannstedt. Pitt was #25 AP but was stunned by BG in the opener. They won 4 of their last 5 including a 4OT victory at ND and went 9-3. They lost to Oregon St 3-0 in the lowest scoring bowl since 1959. Pitt finished in a 3-way tie for 2nd in the Big East at 5-2 (+25 ypg). Last year Pitt had 15 ret st'rs and I noted that six of my sets of power ratings called for them to have a double digit win season. Pitt very narrowly missed out on the Big East Title. They opened 3-0 and led NCSt 31-17 in the 3Q but lost by 7. They trailed L'ville 10-7 at the half but dominated the 2H in a 35-10 win then had a 489-303 yd edge vs Conn but only won by 3. They had a 376-286 yd edge at Rutgers and earned Wannstedt his first win over Schiano in his 5 years. They blasted USF and Syr and then led ND 20-3 hanging on for a 27-22 win. The Backyard Brawl actually meant nothing to Pitt as win or lose, the BE Title and a BCS bowl rode on the Cincy game. Pitt was ranked in the Top 10 for the first time since 1982 (Dan Marino). WV got a late FG to pull out a 19-16 win. The next week Pitt appeared on their way to the Orange Bowl as they led Cincy 31-10 before allowing a KR TD that switched the momentum late in the 1H. They still led 44-38 but gave up a TD with :33 left and lost by 1. They took on NCar in Charlotte and despite NC having the crowd edge, Pitt got their 10th win of the season for the first time since 1981. Pitt was +114.1 ypg in BE play which was 2nd best. However, they do have just 11 ret st'rs (last in BE), had only 7 sts lost to injury last year and were +10 in TO's. Despite those factors and the fact that they have 4 Big East AG's and just 3 at home, the Panthers may have the most talented team in the BE and probably should have won the crown last year.
